No person is authorised to give any information or make any representation not contained in and/or not consistent with this Information Memorandum in connection with the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by or on behalf of the Issuer, the Arranger, any of the Dealers (as defined herein), the Trustee (as defined herein) or the Agents (as defined herein). Neither the delivery of this Information Memorandum (or any part hereof), the issue of the Notes nor any subscription for or purchase or sale of the Notes made in connection therewith shall under any circumstances create any implication that there has been no change in the information contained herein since the date hereof or that there has been no change in the business or financial position of the Issuer or its subsidiaries, associated companies (if any) or joint venture companies (if any) since the date hereof. Nothing contained herein is, or may be relied upon as, a promise, representation or covenant as to the future performance or policies of the Issuer or its subsidiaries, associated companies (if any) or joint venture companies (if any).

Each investor contemplating subscribing for or purchasing any of the Notes should determine for itself the relevance of the information contained in this Information Memorandum and any other such document or information (or such part thereof), and obtain its own independent legal or other advice thereon, and its investment should be, and shall be deemed to be, based upon its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer and its subsidiaries, associated companies (if any) and joint venture companies (if any). Notwithstanding anything herein contained, none of the Issuer, the Arranger, any of the Dealers, the Trustee or the Agents, or any of their respective directors, officers, employees or agents, shall be held responsible for any loss or damage suffered or incurred by the recipients of this Information Memorandum or such other document or information (or any part thereof) as a result of or arising from anything expressly or implicitly contained in or referred to in

Any subscription, purchase or acquisition of the Notes is in all respects conditional on the satisfaction of certain conditions set out in the Programme Agreement (as defined herein), the issue of the Notes by the Issuer pursuant to the Programme Agreement. Any offer, invitation to offer or agreement made in connection with the subscription, purchase or acquisition of the Notes or pursuant to this Information Memorandum shall (without liability or responsibility on the part of the Issuer, the Arranger, any of the Dealers, the Trustee or the Agents) lapse and cease to have any effect if (for any reason whatsoever) the Notes are not issued by the Issuer pursuant to the Programme Agreement.

Neither this Information Memorandum nor any other document or information (or any part thereof) delivered or supplied under or in relation to the Notes shall be deemed to constitute an offer of, or an invitation by or on behalf of the Issuer, the Arranger, any of the Dealers, the Trustee or the Agents to subscribe for or purchase, any of the Notes in any jurisdiction in which it is unlawful for such person to make such an offer or invitation. Neither this Information Memorandum nor any other document or information (or any part thereof) delivered or supplied may be used in connection with an offer or solicitation by any person in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation. The distribution and publication of this Information Memorandum or any such other document or information (or any part thereof) and each offering of the Notes in certain jurisdictions may be restricted by law. Persons who distribute or publish this Information Memorandum or any such other document or information (or any part thereof) or into whose possession this Information Memorandum or any such other document or information (or any part thereof) comes are required to inform themselves about and observe any such restrictions and all applicable laws, orders, rules and regulations.

To the fullest extent permitted by law, none of the Arranger, the Dealers, the Trustee and the Agents accepts any responsibility for the contents of this Information Memorandum. Each of the Arranger, the Dealers, the Trustee and the Agents accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this Information Memorandum.

The Arranger and the Dealers have not independently verified the information contained in this Information Memorandum. None of the Arranger, any of the Dealers or any of their respective officers or employees is making any representation or warranty expressed or implied as to the merits of the Notes or the subscription for, purchase or acquisition thereof, the creditworthiness or financial condition or otherwise of the Issuer, its subsidiaries, associated companies (if any) or joint venture companies (if any). Further, none of the Arranger or the Dealers makes any representation or warranty as to the Issuer, its subsidiaries, associated companies (if any) or joint venture companies (if any) or as to the accuracy, reliability or completeness of the information set out herein (including the legal and regulatory requirements pertaining to Sections 274, 275 and 276 or any

other provisions of the SFA) and the documents which are incorporated by reference in, and form part of, this Information Memorandum.

This Information Memorandum must be read and construed in conjunction with each relevant Pricing Supplement and all other documents which are deemed to be incorporated by reference in the Information Memorandum and in the relevant Pricing Supplement. The Information Memorandum and the relevant Pricing Supplement must, save as specified herein and therein, be read and construed on the basis that such documents are so incorporated by reference and form part of the Information Memorandum and the relevant Pricing Supplement. This Information Memorandum must also be read and construed in conjunction with the Issuer's most recently published audited consolidated financial statements and any supplement to or amendment to this Information Memorandum issued by the Issuer, which shall be deemed to be incorporated in, and to form part of, this Information Memorandum and which is deemed to modify or supersede the contents of this Information Memorandum to the extent that a statement contained in any such document is inconsistent with such contents (whether expressly, by implication or otherwise). Any statement contained in this Information Memorandum shall be deemed to be modified or superseded for the purpose of this Information Memorandum to the extent that a statement contained in subsequent document that is deemed to be incorporated by reference herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise). Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Information Memorandum. Copies of all documents deemed incorporated by reference herein are available for inspection at the specified office of the Principal Paying Agent (as defined herein).

The attention of the recipients of this Information Memorandum is drawn to the restrictions on subscription, purchase and resale of the Notes set out under "Subscription and Sale" on page 75 of this Information Memorandum.

Each person who is invited to purchase or subscribe for the Notes or to whom this Information Memorandum is sent must not make any offer or sale, directly or indirectly, of any Notes or distribute, or cause to be distributed, any document or other material in connection therewith in any country or jurisdiction except in such manner and in such circumstances as will result in compliance with all applicable laws and regulations.

Each person contemplating the subscription or purchase of any Notes should consult its own legal and other professional advisers and make its own independent investigation of the financial condition and affairs of the Issuer and its subsidiaries, associated companies (if any) and joint venture companies (if any), and its own appraisal of the creditworthiness of the Issuer and its subsidiaries, associated companies (if any) and joint venture companies (if any). Such persons are also advised to consult their own tax advisers concerning the tax consequences of the acquisition, ownership or disposal of Notes.

Markets in Financial Instruments Directive II

The Pricing Supplement in respect of any Notes will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, "**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such

NOTICE

Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

Packaged Retail Investment and Insurance Products – Prohibition of Sales to Retail Investors

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the “**Insurance Mediation Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the “**Prospectus Directive**”). Consequently, no key information document required by Regulation (EU) No 1286/2014 (the “**PRIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIPs Regulation.

Some of these statements can be identified by forward-looking terms such as “expect”, “believe”, “plan”, “intend”, “estimate”, “anticipate”, “may”, “will”, “would” and “could” or similar words. Some of these factors are discussed in greater detail in this Information Memorandum, in particular, but not limited to, discussion under the section “Risk Factors”.

Given the risks and uncertainties that may cause the actual future results, performance or achievements of the Issuer to be materially different from the results, performance or achievements expected, expressed or implied by the forward-looking statements in this Information Memorandum, undue reliance must not be placed on those statements. None of the Issuer, the Arranger, any of the Dealers, the Trustee or the Agents represents or warrants that the actual future results, performance or achievements of the Issuer will be as discussed in those statements.

Neither the delivery of this Information Memorandum (or any part thereof) nor the issue of the Notes by the Issuer shall under any circumstances constitute a continuing representation or create any suggestion or implication that there has been no change in the affairs of the Issuer or any statement of fact or information contained in this Information Memorandum since the date of this Information Memorandum.

Further, each of the Issuer, the Arranger, the Dealers, the Trustee and the Agents disclaims any responsibility, and undertakes no obligation, to update or revise any forward-looking statements contained herein to reflect any changes in the expectations with respect thereto after the date of this Information Memorandum or to reflect any change in events, conditions or circumstances on which any such statements are based.

References in the Conditions to "Notes" are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

This note is one of a series of notes (the "**Notes**", which expression includes any further notes issued pursuant to Condition 13 (*Further Issues*) and forming a single series therewith) of the Land Transport Authority of Singapore (the "**Issuer**"). References herein to the "**Notes**" shall be references to the Notes of this Series (as defined below) only. The Notes are (a) constituted by and subject to, and have the benefit of, a trust deed dated 14 August 2015 between the Issuer and DBS Trustee Limited (the "**Trustee**", which expression includes all persons for the time being appointed as trustee for the holders of the Notes under the Trust Deed), as trustee for the Noteholders (as defined below) (as amended and restated by the amendment and restatement trust deed dated 5 March 2018 made between the same parties and as further amended or supplemented from time to time, the "**Trust Deed**") and (b) the subject of an agency agreement dated 14 August 2015 between the Issuer, the Trustee and DBS Bank Ltd. as principal paying agent, transfer agent and registrar (the "**Principal Paying Agent**", the "**Transfer Agent**" and the "**Registrar**", respectively) (as amended and restated by the amendment and restatement agency agreement dated 5 March 2018 made between the same parties and as further amended or supplemented from time to time, the "**Agency Agreement**").

Certain provisions of these terms and conditions (the "**Conditions**") are summaries of the Trust Deed, the Agency Agreement and applicable Pricing Supplement and are subject to their detailed provisions. The Noteholders are bound by, and are deemed to have notice of all the provisions of the Trust Deed, the Agency Agreement and Pricing Supplement applicable to them. Copies of the Trust Deed, the Agency Agreement and the applicable Pricing Supplement are available for inspection during normal business hours at the Specified Offices (as defined in the Agency Agreement) of the Principal Paying Agent and any other Paying Agent (as defined in the Trust Deed). Copies are also available for inspection during normal business hours at the registered office for the time being of the Trustee.

In these Conditions, “**Noteholder**” means the bearer of any Bearer Note or the person in whose name a Registered Note is for the time being registered in the Register (or, in the case of joint holders, the first named thereof) and “**holder**” (in relation to a Note, Coupon or Talon) means the bearer of any Bearer Note, Coupon or Talon or the person in whose name a Registered Note is registered (or, in the case of joint holders, the first named thereof), as the case may be, and capitalised terms have the meanings given to them hereon, the absence of any such meaning indicating that such term is not applicable to the Notes.

TERMS AND CONDITIONS OF THE NOTES

Maturity Date shown on the face of the Note if that date does not fall on an Interest Payment Date.

- (ii) Except as provided hereon, the amount of interest payable on each Interest Payment Date in respect of the Fixed Rate Interest Period shown on the face of such Note ending on (but excluding) such date will amount to the Fixed Coupon Amount. The first payment of interest will be made on the Interest Payment Date next following the Interest Commencement Date (and if the Interest Commencement Date is not an Interest Payment Date, will amount to the Initial Broken Amount shown on the face of such Note), unless the Maturity Date falls before the date on which the first payment of interest would otherwise be due. If the Maturity Date is not an Interest Payment Date, interest from the preceding Interest Payment Date (or from the Interest Commencement Date, as the case may be) to (but excluding) the Maturity Date will amount to the Final Broken Amount shown on the face of such Note.
- (iii) In the case of a Fixed Rate Note, interest in respect of a period of less than one year will be calculated on the Day Count Fraction shown on the face of the Note. The amount of interest payable per Calculation Amount for any Fixed Rate Interest Period in respect of any Fixed Rate Note shall be calculated by multiplying the product of the Rate of Interest and the Calculation Amount, by the Day Count Fraction shown on the Note and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency (with halves rounded up).

For the purposes of these Conditions, “**Fixed Rate Interest Period**” means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date.

(b) Interest on Floating Rate Notes and Variable Rate Notes

(i) Interest Payment Dates

Each Floating Rate Note and Variable Rate Note bears interest on its principal amount outstanding from the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) (each, an “**Interest Payment Date**”) in each year specified hereon; or
- (B) if no Specified Interest Payment Date(s) is/are specified hereon, each date (each such date, together with each Specified Interest Payment Date, an “**Interest Payment Date**”) which falls on the date following the number of months or other period specified as the Interest Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date, provided that the Agreed Yield (as defined in Condition 4(b)(iii)(A)) in respect of any Variable Rate Note for any Interest Period relating to that Variable Rate Note shall be payable on the first day of that Interest Period.

Such interest will be payable in respect of each Interest Period (which expression shall, in these Conditions, mean the period from (and including) an Interest Payment Date (or, in the case of the first Interest Payment Date, the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day in the calendar month on which an Interest Payment Date should occur or (y) if any Interest Payment Date would

- (1) in any case where Interest Periods are specified in accordance with Condition 4(b)(i)(B) above, the Floating Rate Business Day Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (bb) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (aa) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (bb) each subsequent Interest Payment Date shall be the last Business Day in the month which falls in the Interest Period after the preceding applicable Interest Payment Date occurred;
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day;
- (3) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

(ii) **Rate of Interest—Floating Rate Notes**

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined by reference to a Benchmark as stated, and in the manner specified, in the applicable Pricing Supplement. The Calculation Agent will determine the applicable Rate of Interest on the basis of the following provisions, or as otherwise specified in the applicable Pricing Supplement.

Where a Floating Rate Note is denominated in Singapore dollars and the Benchmark specified is SIBOR, such Note will be a SIBOR Note, and where a Floating Rate Note is denominated in Singapore dollars and the Benchmark specified is Swap Rate, such Note will be a Swap Rate Note.

(A) **ISDA Determination for Floating Rate Notes**

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any). For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes, published by the International Swaps and Derivatives Association, Inc. (the “**ISDA Definitions**”), and under which:

- (1) the Floating Rate Option is as specified in the applicable Pricing Supplement;
- (2) the Designated Maturity is a period as specified in the applicable Pricing Supplement; and

TERMS AND CONDITIONS OF THE NOTES

- (3) the relevant Reset Date is the first day of that Interest Period unless otherwise specified in the applicable Pricing Supplement.

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

- (B) Screen Rate Determination for Floating Rate Notes that are not SIBOR Notes or Swap Rate Notes

- (I) Where Screen Rate Determination is specified hereon as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (x) the offered quotation; or
- (y) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of the London interbank offered rate (“**LIBOR**”), or Brussels time, in the case of the Euro-zone interbank offered rate (“**EURIBOR**”)) on the Interest Determination Date in question (or such other time in any Relevant Financial Centre as may be specified in the applicable Pricing Supplement) plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotation) and the lowest (or, if there is more than one such lowest quotation, one only of such quotation) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

- (II) if the Relevant Screen Page is not available or if, sub-paragraph (I)(x) applies and no such offered quotation appears on the Relevant Screen Page or if sub paragraph (I)(y) above applies and fewer than three such offered quotations appear on the Relevant Screen Page in each case as at the time specified above, subject as provided below, the Calculation Agent shall request, if the Benchmark is LIBOR, the principal London office of each of the Reference Banks or, if the Benchmark is EURIBOR, the principal Euro-zone office of each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Benchmark if the Benchmark is LIBOR, at approximately 11.00 a.m. (London time), or if the Benchmark is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any);

- (III) if paragraph (II) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Benchmark is LIBOR, at approximately 11.00 a.m. (London time) or, if the Benchmark is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark by leading banks in, if the Benchmark is LIBOR, the London inter-bank market or, if the Benchmark is EURIBOR, the Euro-zone inter-bank market, as the case may be, plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any); or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the Rate of Interest shall be the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark, at which, if the Benchmark is LIBOR, at approximately 11.00 a.m. (London time) or, if the Benchmark is EURIBOR, at approximately 11.00 a.m. (Brussels time), on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Trustee and the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Benchmark is LIBOR, the London interbank market or, if the Benchmark is EURIBOR, the Euro-zone interbank market, as the case may be, plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any); provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period); and
 - (IV) if the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Pricing Supplement as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Pricing Supplement.
- (C) Screen Rate Determination for SIBOR Notes or Swap Rate Notes
- (I) In the case of a SIBOR Note:

 - (aa) the Calculation Agent will, at or about the Relevant Time on the relevant Interest Determination Date in respect of each Interest Period, determine the Rate of Interest for such Interest Period which shall be the offered rate for deposits in Singapore dollars for a period equal to the duration of such Interest Period which appears on Page ABSI on the monitor of the Bloomberg agency under the caption "Swap Offer and SIBOR (ABSIFIX)" and under the column headed "SGD SIBOR" (or such other

replacement page thereof or such other Relevant Screen Page as may be provided hereon) plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any);

- (bb) if on any Interest Determination Date, no such rate appears on the Page ABSI (or such other replacement page thereof), the Calculation Agent will determine the Rate of Interest for such Interest Period which shall be the rate which appears on the Reuters Screen ABSIRFIX01 Page under the caption “ABS SIBOR FIX – SIBOR AND SWAP OFFER RATES – RATES AT 11:00HRS SINGAPORE TIME” and under the column headed “SGD SIBOR” (or such other replacement page thereof or such other Relevant Screen Page as may be provided hereon) plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any);
- (cc) if no such rate appears on the Reuters Screen ABSIRFIX01 Page (or such other replacement page thereof or such other Relevant Screen Page as may be provided hereon) or if the Reuters Screen ABSIRFIX01 Page (or such other replacement page thereof or such other Relevant Screen Page as may be provided hereon) is unavailable for any reason, the Calculation Agent will request the principal Singapore offices of each of the Reference Banks to provide the Calculation Agent with the rate at which deposits in Singapore dollars are offered by it at approximately the Relevant Time on the Interest Determination Date to prime banks in the Singapore inter-bank market for a period equivalent to the duration of such Interest Period commencing on such Interest Payment Date in an amount comparable to the aggregate principal amount of the relevant Floating Rate Notes. The Rate of Interest for such Interest Period shall be the arithmetic mean (rounded up, if necessary, to the nearest four decimal places) of such offered quotations, as determined by the Calculation Agent plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any);
- (dd) if on any Interest Determination Date, two but not all the Reference Banks provide the Calculation Agent with such quotations, the Rate of Interest for the relevant Interest Period shall be determined in accordance with (cc) above on the basis of the quotations of those Reference Banks providing such quotations; and

TERMS AND CONDITIONS OF THE NOTES

- (II) In the case of a Swap Rate Note:
- (aa) the Calculation Agent will, at or about the Relevant Time on the relevant Interest Determination Date in respect of each Interest Period, determine the Rate of Interest for such Interest Period which shall be the rate which appears on the Page ABSI on the monitor of the Bloomberg agency under the caption “Swap Offer and SIBOR (ABSIRFIX)” under the column headed “SGD SWAP OFFER” (or such other page as may replace Page ABSI for the purpose of displaying the swap rates of leading reference banks or such other Relevant Screen Page as may be provided hereon) at or about the Relevant Time on such Interest Determination Date and for a period equal to the duration of such Interest Period and plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any);
 - (bb) if on any Interest Determination Date, no such rate appears on Page ABSI on the monitor of the Bloomberg agency (or such other replacement page thereof or such other Relevant Screen Page as may be provided hereon), the Calculation Agent will determine the Rate of Interest for such Interest Period which shall be the rate which appears on the Reuters Screen ABSIRFIX01 Page under the caption “SIBOR AND SWAP OFFER RATES—RATES AT 11:00 A.M. SINGAPORE TIME” and under the column headed “SGD SWAP OFFER” (or such other page as may replace the Reuters Screen ABSIRFIX01 Page for the purpose of displaying the swap rates of leading reference banks or such other Relevant Screen Page as may be provided hereon) at or about the Relevant Time on such Interest Determination Date and for a period equal to the duration of such Interest Period and plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any);
 - (cc) if on any Interest Determination Date, no such rate is quoted on Reuters Screen ABSFIX01 Page (or such other replacement page thereof or such other Relevant Screen Page as may be provided hereon) or if the Reuters Screen ABSFIX01 Page (or such other replacement page thereof or such other Relevant Screen Page as may be provided hereon) is unavailable for any reason, the Calculation Agent will determine the Rate of Interest for such Interest Period as being the rate (or, if there is more than one rate which is published, the arithmetic mean of those rates (rounded up, if necessary, to the nearest four decimal places)) for a period equal to the duration of such Interest Period published by a recognised industry body where such rate is widely used (after taking into account the industry practice at that time), or by such other relevant authority as the Calculation Agent may select and plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any); and
 - (dd) if on any Interest Determination Date, the Calculation Agent is otherwise unable to determine the Rate of Interest under (aa), (bb) or (cc) above, the Rate of Interest shall be determined by the Calculation Agent to be the rate per annum equal to the arithmetic mean (rounded up, if

necessary, to the nearest four decimal places) of the rates quoted by the Singapore offices of the Reference Banks or those of them (being at least two in number) to the Calculation Agent at or about 11.00 a.m. (Singapore time) on the first business day following such Interest Determination Date as being their cost (including the cost occasioned by or attributable to complying with reserves, liquidity, deposit or other requirements imposed on them by any relevant authority or authorities) of funding, for the relevant Interest Period, an amount equal to the aggregate principal amount of the relevant Floating Rate Notes for such Interest Period by whatever means they determine to be most appropriate and plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), or if on such day one only or none of the Singapore offices of the Reference Banks provides the Agent Bank with such quotation, the Rate of Interest for the relevant Interest Period shall be the rate per annum equal to the arithmetic mean (rounded up, if necessary, to the nearest four decimal places) of the prime lending rates for Singapore dollars quoted by the Singapore offices of the Reference Banks at or about 11.00 a.m. (Singapore time) on such Interest Determination Date and plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any).

(D) Negative Interest Rate

For the avoidance of doubt, in the event that the Rate of Interest in relation to any Interest Period is less than zero, the Rate of Interest in relation to such Interest Period shall be equal to zero.

(iii) **Rate of Interest—Variable Rate Notes**

(A) Each Variable Rate Note bears interest at a variable rate determined in accordance with the provisions of this Condition 4(b)(iii). The interest payable in respect of a Variable Rate Note for each Interest Period relating to that Variable Rate Note, which shall be payable on the first day of such Interest Period, is referred to in these Conditions as the “**Agreed Yield**” and the rate of interest payable in respect of a Variable Rate Note on the last day of an Interest Period relating to that Variable Rate Note is referred to in these Conditions as the “**Rate of Interest**”.

(B) The Agreed Yield or, as the case may be, the Rate of Interest payable from time to time in respect of each Variable Rate Note for each Interest Period, subject as referred to in paragraph (D) below, shall be determined as follows:

(x) not earlier than 9.00 a.m. (Singapore time) on the ninth Business Day nor later than 3.00 p.m. (Singapore time) on the fifth Business Day prior to the commencement of each Interest Period, the Issuer and the Relevant Dealer (as defined below) shall endeavour to agree on the following:

(1) whether interest in respect of such Variable Rate Note is to be paid on the first day or the last day of such Interest Period;

(2) if interest in respect of such Variable Rate Note is agreed between the Issuer and the Relevant Dealer to be paid on

TERMS AND CONDITIONS OF THE NOTES

the first day of such Interest Period, an Agreed Yield in respect of such Variable Rate Note for such Interest Period (and, in the event of the Issuer and the Relevant Dealer so agreeing on such Agreed Yield, the Rate of Interest for such Variable Rate Note for such Interest Period shall be zero); and

- (3) if interest in respect of such Variable Rate Note is agreed between the Issuer and the Relevant Dealer to be paid on the last day of such Interest Period, a Rate of Interest in respect of such Variable Rate Note for such Interest Period (an “**Agreed Rate**”) and, in the event of the Issuer and the Relevant Dealer so agreeing on an Agreed Rate, such Agreed Rate shall be the Rate of Interest for such Variable Rate Note for such Interest Period; and
 - (y) if the Issuer and the Relevant Dealer shall not have agreed either an Agreed Yield or an Agreed Rate in respect of such Variable Rate Note for such Interest Period by 3.00 p.m. (Singapore time) on the fifth Business Day prior to the commencement of such Interest Period, or if there shall be no Relevant Dealer during the period for agreement referred to in (x) above, the Rate of Interest for such Variable Rate Note for such Interest Period shall automatically be the Fall Back Rate (as defined below) for such Interest Period.
- (C) The Issuer has undertaken to the Principal Paying Agent and the Calculation Agent that it will as soon as possible after the Agreed Yield or, as the case may be, the Agreed Rate in respect of any Variable Rate Note is determined but not later than 10.30 a.m. (Singapore time) on the next following Business Day:
- (x) notify, or cause the Relevant Dealer to notify, the Principal Paying Agent and the Calculation Agent in writing of the Agreed Yield or, as the case may be, the Agreed Rate for such Variable Rate Note for such Interest Period; and
 - (y) cause such Agreed Yield or, as the case may be, the Agreed Rate for such Variable Rate Note to be notified by the Principal Paying Agent to the relevant Noteholder at its request.
- (D) For the purposes of paragraph (B) above, the Rate of Interest for each Interest Period for which there is neither an Agreed Yield nor Agreed Rate in respect of any Variable Rate Note or no Relevant Dealer in respect of the Variable Rate Note shall be the rate (the “**Fall Back Rate**”) determined by reference to a Benchmark as stated on the face of such Variable Rate Note(s), being (in the case of Variable Rate Notes which are denominated in Singapore dollars) SIBOR (in which case such Variable Rate Note(s) will be SIBOR Note(s)) or Swap Rate (in which case such Variable Rate Note(s) will be Swap Rate Note(s)) or (in any other case or in the case of Variable Rate Notes which are denominated in a currency other than Singapore dollars) such other Benchmark as set out in the applicable Pricing Supplement for such Variable Rate Note(s), in each case plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any).
- (E) The Fall Back Rate payable from time to time in respect of each Variable Rate Note will be determined by the Calculation Agent in accordance with the provisions of Condition 4(b)(ii)(C) above (*mutatis mutandis*) and references therein to “Rate of Interest” shall mean “Fall Back Rate”.

TERMS AND CONDITIONS OF THE NOTES

- (F) If interest is payable in respect of a Variable Rate Note on the first day of an Interest Period relating to such Variable Rate Note, the Issuer will pay the Agreed Yield applicable to such Variable Rate Note for such Interest Period on the first day of such Interest Period. If interest is payable in respect of a Variable Rate Note on the last day of an Interest Period relating to such Variable Rate Note, the Issuer will pay the Interest Amount for such Variable Rate Note for such Interest Period on the last day of such Interest Period.
- (G) For the avoidance of doubt, in the event that the Rate of Interest in relation to any Interest Period is less than zero, the Rate of Interest in relation to such Interest Period shall be equal to zero.

(c) Interest on Hybrid Notes

(i) Interest Rate and Accrual

Each Hybrid Note bears interest on its principal amount outstanding from (and including) the Interest Commencement Date in respect thereof and as shown on the face of such Note.

(ii) Fixed Rate Period

- (A) In respect of the Fixed Rate Period shown on the face of such Note, each Hybrid Note bears interest on its principal amount outstanding from the first day of the Fixed Rate Period at the rate per annum equal to the Rate of Interest shown on the face of such Note payable in arrear on the Specified Interest Payment Date(s) in each year specified hereon (each, an “**Interest Payment Date**”) and on the last day of the Fixed Rate Period if that date does not fall on an Interest Payment Date.
- (B) The first payment of interest will be made on the Interest Payment Date next following the first day of the Fixed Rate Period (and if the first day of the Fixed Rate Period is not an Interest Payment Date, will amount to the Initial Broken Amount shown on the face of such Note), unless the last day of the Fixed Rate Period falls before the date on which the first payment of interest would otherwise be due. If the last day of the Fixed Rate Period is not an Interest Payment Date, interest from the preceding Interest Payment Date (or from the first day of the Fixed Rate Period, as the case may be) to the last day of the Fixed Rate Period will amount to the Final Broken Amount shown on the face of the Note.
- (C) During the Fixed Rate Period, interest in respect of a period of less than one year will be calculated on the Day Count Fraction shown on the face of the Note. The amount of interest payable per Calculation Amount for any Fixed Rate Period shall be calculated by multiplying the product of the Rate of Interest and the Calculation Amount, by the Day Count Fraction shown on the Note and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency (with halves rounded up).

(iii) Floating Rate Period

- (A) In respect of the Floating Rate Period shown on the face of such Note, each Hybrid Note bears interest on its principal amount outstanding from the first day of the Floating Rate Period, and such interest will be payable in arrear on each interest payment date (each an “**Interest Payment Date**”). Such Interest Payment Date(s) is/are either specified hereon as Specified Interest Payment Date(s) or, if no Specified Interest Payment Date(s) is/are specified hereon, Interest Payment Date shall mean each date which falls on the date following the number of months or other period specified as the

TERMS AND CONDITIONS OF THE NOTES

Interest Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the first day of the Floating Rate Period.

If a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day in the calendar month on which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) the Floating Rate Business Day Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (bb) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (aa) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (bb) each subsequent Interest Payment Date shall be the last Business Day in the month which falls in the Interest Period after the preceding applicable Interest Payment Date occurred;
 - (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day;
 - (3) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
 - (4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.
- (B) The period from (and including) the first day of the Floating Rate Period to (but excluding) the first Interest Payment Date and each successive period from (and including) an Interest Payment Date to (but excluding) the next succeeding Interest Payment Date is herein called an “Interest Period”.
- (C) The provisions of Condition 4(b)(ii) (*Rate of Interest—Floating Rate Notes*) shall apply to each Hybrid Note during the Floating Rate Period as though references therein to Floating Rate Notes are references to Hybrid Notes.

(d) Zero Coupon Notes

In the case of Zero Coupon Notes, references to the amount of interest payable (other than as provided below), Coupons and Talons in these Conditions are not applicable. Where a Zero Coupon Note becomes repayable prior to its Maturity Date and is not paid when due, the amount due and payable in respect of such Note shall be the Early Redemption Amount of such Note (determined in accordance with Condition 5(h)). Where a Zero Coupon Note is to be redeemed on its Maturity Date, any overdue principal in respect of such Note shall bear interest at a rate per annum (expressed as a percentage) equal to the Amortisation Yield specified on such Note (as defined in Condition 5(h)).

(e) Determination of Rate of Interest and Calculation of Interest Amount

The Calculation Agent will, on or as soon as practicable after each time at which the Rate of Interest is to be determined on each Floating Rate Note, Variable Rate Note or Hybrid Note, determine the Rate of Interest for the relevant Interest Period and the relevant Interest

TERMS AND CONDITIONS OF THE NOTES

Payment Date. The Calculation Agent will also calculate the amount of interest (the “**Interest Amount**”) payable on each Floating Rate Note, Variable Rate Note or Hybrid Note for the relevant Interest Period. The Interest Amounts shall be calculated by multiplying the product of the Rate of Interest and the Calculation Amount, by the Day Count Fraction shown on the Note and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency.

(f) **Notification of Rate of Interest and Interest Amount**

The Calculation Agent shall notify the Trustee, the Principal Paying Agent and the Issuer of the Rate of Interest for the relevant Interest Period, the Interest Amount and the relevant Interest Payment Date as soon as practicable after determining the same but in any event not later than four business days after each Interest Determination Date. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange or competent listing authority on or by which the relevant Floating Rate Notes, Variable Rate Notes or Hybrid Notes are for the time being listed and to the Noteholders in accordance with Condition 14 (*Notices*).

(g) **Cessation of Interest**

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the due date for redemption thereof unless, upon due presentation and subject to the provisions of the Trust Deed, payment of the Redemption Amount is improperly withheld or refused, in which event interest will continue to accrue (as well after as before judgment) at the rate and in the manner provided in Condition 4(a), 4(b)(ii), 4(c)(ii) or, as the case may be, 4(c)(iii) to (but excluding) the Relevant Date (as defined in Condition 7).

(h) **Default Interest**

If on or after the due date for payment of any sum in respect of the Notes, payment of all or any part of such sum is not made against due presentation of the Notes or, as the case may be, the Coupons, the Issuer shall pay interest on the amount so unpaid (as well after as before judgment) from such due date up to the earlier of (i) the day of actual receipt by the relevant Noteholders or, as the case may be, Couponholders and (ii) the day which is seven days after the Principal Paying Agent or the Trustee has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment) in accordance with Condition 14 (*Notices*). Such interest shall be at a rate per annum equal to (in the case of a Fixed Rate Note or a Hybrid Note during the Fixed Rate Period) the Rate of Interest applicable to such Note, (in the case of a Floating Rate Note or a Hybrid Note during the Floating Rate Period) the Rate of Interest applicable to such Note or (in the case of a Variable Rate Note) the variable rate by which the Agreed Yield applicable to such Note is determined or, as the case may be, the Rate of Interest applicable to such Note, or in the case of a Zero Coupon Note, as provided for in the relevant Pricing Supplement. So long as the default continues then such rate shall be re-calculated on the same basis at intervals of such duration as the Principal Paying Agent may select, save that the amount of unpaid interest at the above rate accruing during the preceding such period shall be added to the amount in respect of which the Issuer is in default and itself bear interest accordingly. Interest at the rate(s) determined in accordance with this paragraph shall be calculated on the Day Count Fraction shown on the face of the Note and the actual number of days elapsed, shall accrue on a daily basis and shall be immediately due and payable by the Issuer.

(i) **Calculation Agent**

The Issuer shall procure that there shall at all times be one or more Calculation Agents if provision is made for them hereon and for so long as any Note is outstanding (as defined in the Trust Deed). Where more than one Calculation Agent is appointed in respect of the

TERMS AND CONDITIONS OF THE NOTES

Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or to calculate any Interest Amount, or to comply with any other requirement, the Issuer shall (with the prior approval of the Trustee or an Extraordinary Resolution of holders of the Notes) appoint a leading bank or financial institution engaged in the inter-bank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal Singapore office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

(g) Moratorium

A moratorium is agreed or declared in respect of all or any material part of the indebtedness of the Issuer or the Government of Singapore or any court or other authority in Singapore takes any action for the distribution of the assets of the Issuer or any material part thereof among any creditors of the Issuer.

10. ENFORCEMENT

At any time after the Notes shall have become due and payable, the Trustee may, at its discretion and without further notice to the Issuer, the Noteholders or the Couponholders, take any steps as it may think fit to enforce repayment of the Notes, together with accrued interest, and to enforce the provisions of the Trust Deed, the Notes and the Coupons, but it shall not be bound to take any such proceedings unless (a) it shall have been so directed

TERMS AND CONDITIONS OF THE NOTES

by an Extraordinary Resolution of the Noteholders or so requested in writing by Noteholders holding not less than 25 per cent. in principal amount of the Notes outstanding and (b) it shall have been indemnified or secured or pre-funded by the Noteholders to its satisfaction. No Noteholder or Couponholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become bound to do so, fails to do so within a reasonable period and such failure shall be continuing. The Trustee shall not be deemed to be responsible for the consequences of taking or refraining from taking any such steps as set out in this Condition.

11. MEETINGS OF NOTEHOLDERS, MODIFICATION AND WAIVERS

(a) Meetings of Noteholders

The Trust Deed contains provisions for convening meetings of Noteholders to consider any matters relating to the Notes, including the modification of any provision of these Conditions or the Trust Deed. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Trustee or the Issuer, or by the Trustee (subject to its being indemnified, and/or secured and/or prefunded to its satisfaction against all costs and expenses) upon the request in writing of Noteholders holding not less than one quarter of the aggregate principal amount of the outstanding Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more persons holding or representing a clear majority of the aggregate principal amount of the Notes for the time being outstanding, or, at any adjourned meeting, one or more persons being or representing Noteholders whatever the principal amount of the Notes for the time being outstanding so held or represented; provided, however, that certain proposals (including any proposal (i) to amend the dates of maturity or redemption of the Notes or any date for payment of interest or Interest Amounts on the Notes, (ii) to reduce or cancel the principal amount of, or any premium payable on redemption of, the Notes, (iii) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or rates of interest or the basis for calculating any Interest Amount in respect of the Notes, (iv) to vary any method of, or basis for, calculating the Redemption Amount or the Early Redemption Amount including the method of calculating the Amortised Face Amount of the Notes, (v) to vary the currency or currencies of payment or denomination of the Notes, (vi) to take any steps that as specified hereon may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply, (vii) to modify the provisions concerning the quorum required at any meeting of Noteholders or the majority required to pass the Extraordinary Resolution, or (viii) to modify this proviso (each, a “**Reserved Matter**”)) may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more persons holding or representing not less than three quarters or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders and the Couponholders (if any), whether present at the meeting(s) or not. For the avoidance of doubt, the Issuer is not bound by any modification to any of these Conditions unless the Issuer has agreed to such modification.

These Conditions may be amended, modified or varied in relation to any Series of Notes by the terms of the relevant Pricing Supplement in relation to such Series.

(b) Modification or Waiver without Noteholders’ consent

The Trustee may from time to time and at any time without any consent or sanction of the Noteholders or Couponholders agree with the Issuer to (i) any modification to the Trust Deed, the Notes or the Coupons if the Trustee is of the opinion that such modification is of a formal, minor, administrative or technical nature or made to correct a manifest error or an error which, in the opinion of the Trustee, (A) is proven or (B) to comply with mandatory provisions of Singapore law or (C) is required by any Stock Exchange, CDP, or by any depository and/or any clearing system in which the Notes may be held, and (ii) any other modification (except as mentioned in the Trust Deed), or any waiver or authorisation of any breach or proposed breach, of any provisions of the Trust Deed, the Notes or the Coupons

TERMS AND CONDITIONS OF THE NOTES

which is in the opinion of the Trustee not materially prejudicial to the interests of the Noteholders. Any such modification, authorisation or waiver shall be binding on the Noteholders and Couponholders and such modification, authorisation or waiver shall be notified by or on behalf of the Issuer to the Noteholders as soon as practicable thereafter in accordance with these Conditions.

In connection with the exercise of its functions (including but not limited to those in relation to any proposed modification, waiver or authorisation), the Trustee shall have regard to the interests of the Noteholders as a class and shall not have regard to the consequences of such exercise for individual Noteholders or Couponholders.

These Conditions may be amended, modified or varied in relation to any Series of Notes by the terms of the relevant Pricing Supplement in relation to such Series.

12. REPLACEMENT NOTES, COUPONS AND TALONS

If a Note, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed it may be replaced, subject to applicable laws, at the specified office of the Principal Paying Agent (in the case of Definitive Bearer Notes, Coupons and Talons) and at the specified office of the Registrar (in the case of Certificates), or such other Paying Agent or Transfer Agent as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders in accordance with Condition 14 (*Notices*), on payment by the claimant of the fees and costs (including the fees and costs of the Principal Paying Agent) incurred in connection therewith and on such terms as to evidence, undertaking, security and indemnity (which may provide, inter alia, that if the allegedly lost, stolen or destroyed Note, Coupon or Talon is subsequently presented for payment, there will be paid to the Issuer on demand the amount payable by the Issuer in respect of such Note, Coupon or Talon) and otherwise as the Issuer may require. Mutilated or defaced Notes, Coupons or Talon must be surrendered before replacements will be issued.

13. FURTHER ISSUES

The Issuer may from time to time, without the consent of the Noteholders and Couponholders and in accordance with the Trust Deed, create and issue further Notes having the same terms and conditions as the Notes of any Series in all respects (or in all respects except for the Issue Date, the Interest Commencement Date, the Issue Price and the first payment of interest) so as to be consolidated and form a single Series with the Notes, and references in these Conditions to “**Notes**” shall be construed accordingly. The Issuer may from time to time, with the consent of the Trustee, create and issue other Series of notes having the benefit of the Trust Deed.

14. NOTICES

Notices to Noteholders will be valid if published in a leading newspaper having general circulation in Singapore. If at any time publication in such newspapers is not practicable, notices will be valid if published in such manner as the Issuer shall, with the consent of the Trustee, determine. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made. Couponholders shall be deemed for all purposes to have notice of the contents of any notice to the holders in accordance with this Condition 14 (*Notices*). Notwithstanding the above, notices to Noteholders of Registered Notes may also be sent to them by first class mail (or its equivalent) or (if posted to an overseas address) by airmail at their respective addresses on the Register. Any such notice shall be deemed to have been given on the fourth day after the date of mailing.

So long as any of the Notes are represented by a Global Note or Global Certificate, and such Global Note or Global Certificate is held by CDP, notices required to be published in accordance with Condition 14 (Notices) may (subject to the agreement of CDP) be given by delivery of the relevant notice to CDP for communication by it to the persons shown in the list of Noteholders provided by CDP, and any such notice shall be deemed to have been

TERMS AND CONDITIONS OF THE NOTES

given to the Noteholders on the second day after the day on which the said notice was sent, except that if the Notes are listed on the SGX-ST and the rules of such exchange so require, notice will in any event be published in accordance with the previous paragraph.

15. TRUSTEE

(a) Indemnification

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including provisions relieving it from taking proceedings to enforce repayment unless indemnified and/or secured and/or prefunded to its satisfaction and to be paid its costs and expenses in priority to the claims of the Noteholders. In addition, the Trustee is entitled to enter into business transactions with the Issuer and any entity relating to the Issuer without accounting for any profit and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuer and/or any of its Subsidiaries.

(b) Exercise of power and discretion

In connection with the exercise of its functions the Trustee shall have regard to the interests of the Noteholders as a class and shall not have regard to the consequences of such exercise for individual Noteholders or Couponholders, or the Noteholders or Couponholders in respect of Notes of any particular Tranche or Series, and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders or Couponholders.

(c) Confidentiality

Unless ordered to do so by a court of competent jurisdiction or unless required by the rules of the SGX-ST, the Trustee shall not be required to disclose to any Noteholder or Couponholder any confidential financial or other information made available to the Trustee by the Issuer.

(d) No Responsibility

Each Noteholder and Couponholder shall be solely responsible for making and continuing to make its own independent appraisal and investigation into the financial condition, creditworthiness, condition, affairs, status and nature of the Issuer, and the Trustee shall not at any time have any responsibility for the same and each Noteholder and Couponholder shall not rely on the Trustee in respect thereof.

(e) Reliance

The Trustee may rely without liability to Noteholders on any certificate or report prepared by any expert, auditor, lawyer, banker, valuer, surveyor, broker, auctioneer or professional entity, pursuant to these Conditions or the Trust Deed, whether or not addressed to the Trustee, and whether or not their liability in respect thereof is limited by a monetary cap or otherwise or all such liability is disclaimed.

16. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act, Chapter 53B of Singapore.

TERMS AND CONDITIONS OF THE NOTES

17. GOVERNING LAW AND JURISDICTION

(a) Governing law

The Trust Deed, the Notes, and if applicable, the Coupons and the Talons are governed by, and shall be construed in accordance with, the laws of Singapore.

(b) Submission to Jurisdiction

The Issuer has in the Trust Deed (i) submitted irrevocably to the exclusive jurisdiction of the courts of Singapore for the purposes of hearing and determining any suit, action or proceedings or settling any disputes arising out of or in connection with the Trust Deed, the Notes, and if applicable, the Coupons and the Talons; and (ii) waived any objection which it might have to such courts being nominated as the forum to hear and determine any such suit, action or proceedings or to settle any such disputes and agreed not to claim that any such court is not a convenient or appropriate forum.

RISK FACTORS

An investment in the Notes involves risks. Prospective investors or existing holders should carefully consider all of the information in this Information Memorandum and, in particular, the risks described below before deciding to invest in the Notes. The risks described below are not the only ones relevant to the Issuer and/or the Notes. Additional risks not presently known to the Issuer or that it currently deems immaterial may also materially and adversely impair the operations, financial condition or results of operations of the Issuer, which may, as a result, affect the Issuer's ability to fulfil its obligations under the Notes.

This Information Memorandum also contains forward-looking statements that involve risks and uncertainties. The Issuer's actual results could differ materially from those anticipated in these forward looking statements as a result of certain factors, including the considerations described below and elsewhere in this Information Memorandum.

Limitations of this Information Memorandum

This Information Memorandum does not purport to nor does it contain all information that a prospective investor in or existing holder of the Notes may require in investigating the Issuer and its subsidiaries, associated companies (if any) and joint venture companies (if any) prior to making an investment or divestment decision in relation to the Notes issued under the Programme

Neither this Information Memorandum nor any document or information (or any part thereof) delivered or supplied under or in relation to the Programme or the Notes (or any part thereof) is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by the Issuer, the Arranger or any of the Dealers that any recipient of this Information Memorandum or any such other document or information (or any such part thereof) should subscribe for or purchase or sell any of the Notes.

This Information Memorandum is not, and does not purport to be, investment advice. A prospective investor should make an investment in the Notes only after it has determined that such investment is suitable for its investment objectives. Determining whether an investment in the Notes is suitable is a prospective investor's responsibility, even if the investor has received information to assist it in making such a determination. Each person receiving this Information Memorandum acknowledges that such person has not relied on the Issuer, its subsidiaries, associated companies (if any) or joint venture companies (if any), the Arranger or any of the Dealers or any person affiliated with each of them in connection with its investigation of the accuracy or completeness of the information contained herein or of any additional information considered by it to be necessary in connection with its investment or divestment decision. Any recipient of this Information Memorandum contemplating subscribing for or purchasing or selling any of the Notes should determine for itself the relevance of the information contained in this Information Memorandum and any such other document or information (or any part thereof) and its investment or divestment should be, and shall be deemed to be, based solely on its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness of the Issuer and its subsidiaries, associated companies (if any) and joint venture companies (if any), the terms and conditions of the Notes and any other factors relevant to its decision, including the merits and risks involved. A prospective investor should consult with its legal, tax and financial advisers prior to deciding whether to make an investment in the Notes.

The following describes some of the significant risks that could affect the Issuer and the value of the Notes. The risk factors set out below do not purport to be complete or comprehensive of all the investment considerations and risk factors that may be involved in the Issuer's operations, financial condition, results of operations or prospects or any decision to purchase, own or dispose of the Notes. Additional investment considerations and risk factors which the Issuer is currently unaware of may also impair the Issuer's operations, financial condition, results of operations or prospects. Additionally, some risks may be unknown to the Issuer and other risks, currently believed to be immaterial, could turn out to be material. All of these could materially adversely affect the Issuer's operations, financial condition, results of operations and prospects. In such cases, the Issuer's ability to comply with its obligations under the Trust Deed and the Notes may be adversely affected. Prospective investors or existing holders should also consider the information provided below in connection with the forward-looking statements in this Information Memorandum and the warning

RISK FACTORS

regarding forward-looking statements at the beginning of this Information Memorandum.

Risks Relating to the Notes

An investment in the Notes may not be a suitable investment for all investors

Each potential investor must determine the suitability of an investment in the Notes in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Information Memorandum or any applicable supplement to this Information Memorandum;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact such investment will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the currency in which its financial activities are principally denominated;
- understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets;
- understand thoroughly the nature of all relevant risks before making a decision to invest in the Notes; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Notes to be issued under the Programme may be complex financial instruments. Each potential investor should not invest in the Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact such investment will have on its overall investment portfolio.

The structure of a particular issuance of Notes may have features which contain particular risks for investors

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features.

Modification, waivers and substitution

The Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Conditions of the Notes also provide, *inter alia*, that the Trustee may, without the consent or sanction of the Noteholders or Couponholders, agree with the Issuer to any modification (except as mentioned in the Trust Deed), or any waiver or authorisation of any breach or proposed breach, of any provision of the Notes or the Coupons if the Trustee is of the opinion that such modification, waiver or authorisation is not materially prejudicial to the interests of Noteholders.

RISK FACTORS

Notes subject to optional redemption or repurchase

An optional redemption or optional repurchase feature is likely to limit the market value of the Notes. During any period when the Issuer may elect to redeem or repurchase Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed or repurchased. This also may be true prior to any redemption or repurchase period. The Issuer may be expected to redeem or repurchase Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, Noteholders generally would not be able to reinvest the redemption or repurchase proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed or repurchased and may only be able to do so at a significantly lower rate. Noteholders should consider reinvestment risk in light of other investments available at that time.

The Notes may be redeemed early for taxation reasons should there be any change in the taxation law or regulations after the date of the establishment of the Programme

The Issuer has the option to redeem the Notes early if the Issuer has, or will become obliged to pay additional amounts, or increase the payment of such additional amounts, in respect of the Notes, as a result of any change in, or amendment to, the laws or regulations (including any rulings or other administrative pronouncements promulgated thereunder) of Singapore or any political subdivision or any authority thereof having power to tax, or any change in the application or official interpretation of such laws or regulations (including any rulings or other administrative pronouncements promulgated thereunder), which change or amendment becomes effective on or after the date of establishment of the Programme, i.e. 14 August 2015.

Floating Rate Notes with a multiplier or other leverage factor

Notes with floating interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Notes where denominations involve integral multiples

In the case of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case, a Noteholder who, as a result of trading such amounts, holds a nominal amount of less than the minimum Specified Denomination will not receive a Definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase a nominal amount of Notes such that it holds an amount equal to one or more Specified Denominations. If Definitive Notes are issued, Noteholders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Interest rate risk

Noteholders may suffer unforeseen losses due to fluctuation in interest rates. Generally, a rise in interest rates may cause a fall in note prices, resulting in a capital loss for the Noteholders. However, the Noteholders may reinvest the interest payments at higher prevailing interest rates. Conversely, when interest rates fall, note prices may rise. The Noteholders may enjoy a capital gain but interest payments received may be reinvested at lower prevailing interest rates.

RISK FACTORS

Inflation risk

Noteholders may suffer erosion on the return of their investments due to inflation. Noteholders would have an anticipated rate of return based on expected inflation rates on the purchase of the Notes. An unexpected increase in inflation could reduce the actual returns.

Currency risk associated with Notes denominated in foreign currencies

The Issuer's financial activities are denominated principally in Singapore dollars. As the Notes can be denominated in currencies other than Singapore dollars, the Issuer may be affected by fluctuations between the Singapore dollar and such foreign currencies in meeting the payment obligations under such Notes and there is no assurance that the Issuer may be able to fully hedge the currency risks associated with such Notes denominated in foreign currencies.

Investors may receive less interest or principal than expected as a result of exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the currency specified in the relevant Pricing Supplement. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than such specified currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of such specified currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the currency in which the Notes are denominated would decrease (i) the Investor's Currency equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and (iii) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal. This risk is in addition to any performance risk that relates to the Issuer or the type of Note being issued.

The Notes are not secured

The Notes and Coupons of all Series constitute direct, general, unconditional, unsubordinated and unsecured obligations of the Issuer which will at all times rank *pari passu* among themselves and at least *pari passu* in right of payment with all other present and future unsecured indebtedness and monetary obligations of the Issuer, save for such exceptions as may be provided by applicable legislation.

Accordingly, on the winding-up of the Issuer at any time prior to maturity of any Notes, the Noteholders will not have recourse to any of the specific assets of the Issuer or any of its subsidiaries and/or associated companies (if any) and/or joint venture companies (if any) as security for outstanding payment or other obligations under the Notes and/or Coupons owed to the Noteholders, and there is no assurance that there would be sufficient value in the Issuer's assets after meeting all claims ranking ahead of the Notes, to discharge all outstanding payment and other obligations under the Notes and/or Coupons, as the case may be, owed to the Noteholders.

The Trustee may request Noteholders to provide an indemnity and/or security and/or pre-funding to its satisfaction

In certain circumstances, the Trustee may (at its sole discretion) request Noteholders to provide an indemnity and/or security and/or pre-funding to its satisfaction before it takes action on behalf of Noteholders. The Trustee is not obliged to take any such action if not indemnified and/or secured and/or pre-funded to its satisfaction. Negotiating and agreeing to an indemnity and/or security and/or pre-funding can be a lengthy process and may impact on when such actions can be taken. In addition, the Trustee may not be able to take action, notwithstanding the provision of an indemnity or security or pre-funding to it, in breach of the terms of the Trust Deed and in circumstances where

RISK FACTORS

there is uncertainty or dispute as to the applicable laws or regulations and, to the extent permitted by the agreements and the applicable law, it will be for the Noteholders to take such action directly.

There has been no prior market for the Notes; the absence of a prior market for the Notes may contribute to a lack of liquidity and the market price of the Notes following this offering may be volatile

Notes may have no established trading market when issued, and one may never develop. There can be no assurance as to the liquidity of any market that may develop for the Notes, an investor's ability to sell its Notes or the prices at which it would be able to sell its Notes. Although the issue of additional Notes may increase the liquidity of the Notes, there can be no assurance that the price of such Notes will not be adversely affected by the issue in the market of such additional Notes.

The Notes could trade at prices that may be lower than their initial offering price depending on many factors, including prevailing interest rates, the financial condition of the Issuer and the market for similar securities. This is particularly the case for Notes that are especially sensitive to interest rate, currency, credit or market risks, and/or are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. Neither the Issuer, the Arranger nor any Dealer has any obligation to make a market for the Notes. In addition, the market for debt securities has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the Notes. There can be no assurance that the markets for the Notes, if any, will not be subject to similar disruptions. Any disruptions in these markets may have a material adverse effect on investors' investment in the Notes.

The value of the Notes could be adversely affected by a change in Singapore law or administrative practice

The terms and conditions of the Notes are based on Singapore law in effect as at the date of this Information Memorandum. No assurance can be given as to the impact of any possible judicial decision or change to Singapore law or administrative practice after the date of this Information Memorandum and any such change could materially adversely impact the value of any Notes affected by it.

Performance of contractual obligations by the Issuer is dependent on other parties

The ability of the Issuer to make payments in respect of the Notes may depend upon the due performance by the other parties to the Programme Agreement, the Trust Deed and the Agency Agreement of their obligations thereunder including the performance by the Trustee, the Paying Agents and/or the Calculation Agent of their respective obligations. Whilst the non-performance of any relevant parties will not relieve the Issuer of its obligations to make payments in respect of the Notes, the Issuer may not, in such circumstance, be able to fulfill its obligations to the Noteholders and Couponholders.

Fluctuation of market value of Notes issued under the Programme

Trading prices of the Notes are influenced by numerous factors, including the operating results, the financial condition and/or the future prospects of the Issuer and/or its subsidiaries, associated companies (if any) and/or joint venture companies (if any), the market for similar securities, political, economic, financial and any other factors that can affect the capital markets, the industry, the Issuer and its subsidiaries, associated companies (if any) and joint venture companies (if any) generally. Adverse economic developments, in Singapore as well as countries in which the Issuer and its subsidiaries, associated companies (if any) and joint venture companies (if any) operate or have business dealings, could have a material adverse effect on the operating results, the financial condition and/or the future prospects of the Issuer or its subsidiaries, associated companies (if any) and joint venture companies (if any).

Further, recent global financial turmoil has resulted in substantial and continuing volatility in international capital markets. Any further deterioration in global financial conditions could have a material adverse effect on worldwide financial markets or may adversely affect the market price of any Series or Tranche of Notes.

RISK FACTORS

The transfer of Notes is restricted, which may adversely affect their liquidity and the price at which they may be sold

The Notes have not been registered, and the Issuer is not obligated to register the Notes under the Securities Act, or the securities laws of any other jurisdiction. In addition, this Information Memorandum has not been registered as a prospectus under the SFA. Accordingly, the Notes may not be offered or sold except pursuant to an exemption from or a transaction not subject to, the registration requirements of the Securities Act, the SFA and any other applicable laws. See “Subscription and Sale” for further details of certain selling restrictions applicable. The Issuer has not agreed to, or otherwise undertaken, to register this Information Memorandum or the Notes (including by way of an exchange offer) with the Monetary Authority of Singapore (“MAS”) or the U.S. Securities and Exchange Commission, and the Issuer has no intention to do so.

Favourable Singaporean taxation laws may be amended or revoked prior to the maturity of the Notes

The Notes to be issued from time to time under the Programme, during the period from the date of this Information Memorandum to 31 December 2018 are intended to be “qualifying debt securities” for the purposes of the ITA, subject to the fulfilment of certain conditions more particularly described in the section “Taxation”. However, there is no assurance that such Notes will continue to enjoy the tax concessions in connection therewith should the relevant tax laws be amended or revoked at any time.

It was announced in the Singapore Budget Statement 2018 that the qualifying debt securities scheme will be extended until 31 December 2023, subject to details to be announced by the MAS.

Legal investment considerations may restrict certain investments

Investment activities may be subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase of any Notes. If such an investor is a financial institution, it should also consult its legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

The Notes may be represented by Global Notes or Global Certificates and holders of an interest in a Global Note or Global Certificate must rely on the procedures of the relevant Clearing System(s)

Notes issued under the Programme may be represented by one or more Global Notes or Global Certificates. Such Global Notes and Global Certificates will be deposited with CDP or any other clearing system (each of these, a “Clearing System”). Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive Definitive Notes. The relevant Clearing System(s) will maintain records of their direct account holders in relation to the Global Notes.

While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through the Clearing Systems. While the Notes are represented by one or more Global Notes, the Issuer will discharge its payment obligations under the Notes by making payments to CDP or such other clearing system, as the case may be, for distribution to their account holders. A holder of beneficial interest in the Global Notes must rely on the procedures of the relevant Clearing System(s) to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant Clearing System(s) to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Notes will not have a direct right under the Global Notes to take

RISK FACTORS

enforcement action against the Issuer in the event of a default under the relevant Notes but will have to rely upon their rights under the Trust Deed.

Risks Relating to the Issuer

Any repeal or amendment to the LTA Act, or any changes in the funding sources of the Issuer, may adversely affect the Issuer's ability to comply with its obligations under the Notes

The Issuer is constituted under the LTA Act, which sets out the powers and functions of the Issuer. The Issuer finances its operations in the manner described in "Land Transport Authority of Singapore—Financing of Land Transport Authority of Singapore". In addition, Sections 14(2) and 14(3) of the LTA Act states that, with the approval of the Minister for Finance, the Issuer may borrow or otherwise raise money for the purposes of carrying out its function and duty of constructing any railway or roads or other related facilities, and the repayment of such money borrowed or raised, and interest, premium and other charges thereon, shall be met out of funds provided to the Issuer by the Minister for Finance.

The Issuer intends to use the proceeds from the issuance of Notes under the Programme to finance its land transport infrastructure development projects, which arise from its function and duty of constructing railway or roads or other facilities. The Issuer cannot give any assurance that the LTA Act will not be amended or repealed in the future, or that its sources of financing will not change. Any such amendment or repeal, or any such change in sources of financing, may result in the inability of the Issuer to comply with its obligations (including its repayment obligations) under the Notes or otherwise result in a breach of the Trust Deed.

HISTORY AND BUSINESS

LTA, a statutory board of the Ministry of Transport, was established on 1 September 1995 under the LTA Act.

The scope of activities of LTA includes:

- (i) Formulation of land transport policies;
- (ii) Integrated transport planning together with land use;
- (iii) Planning, design and development of RTS and road infrastructure and systems;
- (iv) Management of road traffic and maintenance of related road infrastructure and systems;
- (v) Public transport promotion;

VISION

LTA is guided and driven by its vision statement – “To create a people-centred land transport system”.

BUILDING A PEOPLE-CENTRED LAND TRANSPORT SYSTEM

A people-centred land transport system must meet the diverse needs of a growing population and expanding economy. It will ensure physical accessibility for all, provide affordable transport and promote environmental sustainability in transport solutions.

The aim is to make public transport a choice mode of travel by ensuring that it is reliable, convenient and that commuters enjoy short headways. Commuters' travel experience will be enhanced by investing in infrastructure and leveraging on technology. Ultimately, our land transport system must offer more connections, better service and foster a more liveable and inclusive community.

This vision will be achieved through the following key strategic thrusts:

(1) Making Public Transport a Choice Mode of Travel

Similar to all major cities with land constraints, public transport must be the main mode of travel in Singapore as it is currently the most space-efficient and environmentally-sustainable transport option. LTA's target is for the public transport modal share during the morning and evening peak hours to reach 75 per cent by 2030. To achieve this, the public transport system must be the most attractive option and this means being a viable alternative to driving. The target is for 85 per cent of public transport commuters to complete their journey that is less than 20km within an hour by 2030. Key public transport initiatives will be rolled out to strengthen the integration of the public transport system.

- ***Expanding the RTS network***

The RTS is the backbone of the public transport system given its higher load capacity and speed. Singapore is currently served by the North-South East-West Line (NSEWL), the North East Line, Downtown Line and Circle Line. We will continue to invest in expanding our rail network with the addition of the Thomson-East Coast Line, Jurong Region Line and Cross Island Line in the future. These new projects will realise LTA's vision to extend the rail network from the current 228km to about 360km by 2030.

These enhancements will meet the demand in public transport ridership over the next two decades while also providing some buffer capacity should the population and ridership growth increase beyond our projections.

Besides improving connectivity within Singapore, the Government will also improve transport connectivity to neighbouring Malaysia through the development of the Kuala Lumpur-Singapore High Speed Rail Project by 2026 and a RTS link to Johor Bahru by 2024.

- ***Better service***

To shorten waiting times and provide more space for commuters on public transport, LTA is increasing the capacity of both rail and bus systems.

From 1 October 2016, LTA took over all operating assets of the NSEWL, the Circle Line (CCL) and the Bukit Panjang LRT (BPLRT) from SMRT under the New Rail Financing Framework (NRFF). From 1 April 2018, the North East Line (NEL) and Sengkang LRT and Punggol LRT (SPLRT)'s operating assets will be transferred to LTA under the NRFF. SBS Transit will be granted a 15-year licence to operate the lines until 31 March 2033. This completes the transition of the entire rail network to NRFF.

Under the NRFF, commuters' needs are better served as rail services will be more responsive to increased ridership as LTA decides on capacity expansion and ensures that it is done in a timely way. Rail operators, relieved of heavy capital expenditure, can thus focus on providing reliable and well-maintained rail services for commuters.

- ***Enhancing rail reliability***

There are six core systems being upgraded and renewed to improve the reliability of the NSEWL. The completion of several multi-year renewal projects such as the sleeper replacement and third rail replacement on the line has shown some results in increasing rail reliability. Extended engineering hours for the NSEWL were implemented in December 2017 to accelerate asset renewals, re-signalling works and intensifying maintenance works so that commuters can look forward to more reliable train services, sooner.

The NSEWL will be equipped with a new power supply system that will be equipped with features to significantly reduce the number of power-related faults. For example, the system allows automatic switching of the power supply source during a power outage so as to speed up service recovery. The new system will also allow for real-time monitoring and better fault prediction, detection and identification. In addition, LTA will also be increasing the capacity of the intake power substations to improve the overall resilience of the NSEWL power supply network.

The provision of track circuits will enable a quicker recovery during a signalling system failure. The new track circuit system is equipped with condition monitoring, which can identify an impending track circuit failure before it occurs, and in turn allow for pre-emptive rectification works. In addition, track circuits can also help to detect broken rails.

In addition to the new and upgraded power supply and track circuit systems, LTA also intends to award a tender to replace 66 first-generation NSEWL trains in the coming months. LTA has been progressively adding new trains – fitted with a new signalling system – to the NSEWL fleet till 2019 to increase the RTS service capacity. The new trains will also have new features such as sensors to monitor track conditions which would enhance the overall reliability of the RTS network.

- ***Reliable and Connective Buses and Networks***

More buses currently ply the roads with the addition of 1,000 buses to the overall bus fleet, under the Bus Service Enhancement Programme. In addition, greater priority will be given to buses on the roads so that commuters can reach their destinations promptly via public transport.

The public bus industry fully transitioned to the bus contracting model (BCM) in September 2016. Under the BCM, LTA determines the bus services to be provided and sets service standards. This enables the Government to introduce new bus services, and reduce wait time and crowdedness. To support the higher service standards, the Government will be subsidising close to S\$4 billion over the next five years to enhance bus services as LTA progressively builds up rail capacity.

As part of the BCM, the Bulim, Loyang, Seletar and Bukit Merah bus packages were progressively put up for open tender. The Bulim bus package was awarded to Tower Transit in May 2015, while the Loyang package was awarded to the Go Ahead in November 2015. These two packages are already in operation. SBS Transit was awarded the Seletar package in April 2017 and will operate from the new Seletar bus depot by first quarter of 2018. LTA awarded the contract for the Bukit Merah bus package to SBS Transit in February 2018 and the new contract will start from the fourth quarter of 2018.

The Common Fleet Management System (CFMS) lets bus operators track bus fleets in real time. With live data on traffic accidents and bus locations and arrival times, operators can make quick adjustments to bus operations, thus boosting efficiency.

LTA is also developing the Fusion AnalyticS for public Transport Emergency Response (FASTER) system to improve transport planning. The system will combine farecard data, video footage and anonymised telecommunications data to better manage and enhance responses to public transport incidents and special events. It will also recommend specific measures such as the injection of more trains and buses.

- ***Walking/Cycling***

To shape a car-lite Singapore, the Government is encouraging cycling and plans to expand the existing cycling network to about 700km by 2030. To cultivate a cycling culture and improve short-distance commute within the housing estates, LTA is implementing intra-town cycling networks to provide dedicated cycling paths which are safer and more convenient for residents to cycle to nearby amenities. So far, LTA has implemented intra-town cycling networks in Tampines, Pasir Ris, Changi-Simei, Sembawang, Yishun, Punggol, Jurong Lake District, Ang Mo Kio and Bedok.

Cycling links have also been added to 12 MRT stations to connect them to the nearby park connectors. The links have dedicated cycling and pedestrian lanes, and bridge first-and-last mile connections to and from the MRT stations.

Beyond the expansion plans for intra-town cycling networks, the Government is also looking at providing cycling routes to connect cyclists directly from their homes to the city. Since June 2016, the Government has completed the project to revitalise Bencoolen Street where two of the four original car lanes were converted into wider walking spaces for pedestrians, and a dedicated cycling path added for cyclists and personal mobility device users. In the near future, Bencoolen Street will also be connected to existing and planned cycling routes, including cycling paths along the 21.5km North-South Corridor, to create a safe and seamless cycling network covering the whole of Singapore.

- ***New Rules for Personal Mobility Devices***

Since June 2017, commuters can take their foldable bicycles and Personal Mobility Devices (PMDs) on board buses and trains all day, as part of LTA's efforts to improve first-last mile connectivity.

In January 2017, Parliament passed the Active Mobility Bill, which puts in place rules on the technical criteria of PMDs, and where bicycles and PMDs are to be used, so as to create a safe environment for all users of public paths. To keep public paths safe, LTA also deploys Active Mobility Enforcement Officers to areas with high pedestrian and cyclist traffic, to deter reckless behaviour on bicycles and PMDs and encourage safe sharing of paths.

- ***New Rules for Power-Assisted Bicycles***

To deter reckless riding, owners of power-assisted bicycles are required to register their bicycles and affix them with number plates from August 2017.

(2) Reducing Reliance on Private Transport

To keep traffic flowing smoothly on the roads, LTA adopts a holistic package of measures that includes promoting use of public transport, road expansion as well as managing demand for road use by controlling vehicle growth and restraining usage. Through the Vehicle Quota System (VQS), LTA will continue to control vehicle population growth to reduce pressure on road space. LTA will also strengthen the effectiveness of the Electronic Road Pricing (ERP) tool to manage travel demand.

- ***Lowering vehicle population growth rate***

With 12 per cent. of Singapore's total land area already taken by roads, there is limited scope for further expansion of the road network. Priority for road growth will be given to serve new development areas and to facilitate bus movements to bring about a better public transport experience. With total vehicle population drawing near to one million, it is no longer tenable to continue growing our vehicle population. The Government has gradually reduced the annual vehicle growth rate over the years – with the growth rates reduced from 3 per cent. in 1990 to zero from 2018 onwards for cars and motorcycles.

- ***Taxis and Private-Hire Cars***

With the availability of taxi booking applications and private hire car options, LTA, in consultation with the taxi industry — comprising National Taxi Association (NTA), taxi drivers and taxi companies — has simplified the Taxi Availability (TA) framework. Taxis are no longer required to clock a minimum daily mileage of 250km and taxi operators no longer need to meet availability requirements during shoulder peak periods, which are between 6am to 7am and 11pm to 12am.

Private hire cars offer commuters more options to reach their destinations, reducing the need for people to own cars. Users can opt for a personalised, point-to-point chauffeured service, or share a ride with other people heading towards the same direction to lower their fares. To ensure commuters' safety, drivers of chauffeured private hire cars are required to display tamper-evident decals on their car windscreens. The drivers also need a Private Hire Car Driver's Vocational Licence (PDVL) to ferry passengers around. Such a licensing scheme ensures that drivers are equipped with sufficient knowledge and skills to provide chauffeured services. Commuters will also be able to identify registered chauffeured private hire cars through the decals that drivers have to affix on their vehicles. Such requirement will also facilitate the enforcement against errant drivers. Both requirements started in July 2017.

- ***Electric Vehicle Car-sharing Programme***

From December 2017, BlueSG Pte Ltd will progressively introduce Singapore's first large-scale electric vehicle ("EV") car-sharing programme. Under the agreement signed with LTA and the Singapore Economic Development Board, BlueSG – a subsidiary of the Bolloré Group – will target to set up a fleet of shared EVs that would be supported by charging points island-wide. As a one-way car-sharing programme, users will have the convenience and flexibility of returning the EV at locations different from their point of pick-up.

- ***Better Management of Traffic Congestion***

By 2020, the Government will implement the Next-Generation Electronic Road Pricing System. Besides allowing for greater flexibility in managing traffic congestion, the new system to replace the current gantry-based system will provide motorists with additional services, such as real-time traffic information, that would help to better optimise the use of our limited road space.

- ***Developing Autonomous Vehicle Technology***

In the longer term, the Government is working towards leveraging autonomous vehicle ("AV") technology for Singapore's land transport system, both as a mode of mass public transport as well as shared transport options. AVs have the potential of playing an increasing role in the future of Singapore's land transport system. Technological trials as well as research projects are currently underway with different industry partners, with the aim of eventually deploying AVs safely on Singapore's public roads.

(3) Liveable City and Inclusive Community

The transport system plays a role in enabling every Singaporean to access the expanding opportunities in a vibrant city. With an extensive and efficient transport network, Singaporeans will enjoy convenient travel to their workplaces, schools and the myriad of leisure and entertainment options in the city.

In catering to the diverse needs of the community, the public transport system is now largely barrier-free. Under the Land Transport Master Plan 2013, more has been done to help the less mobile and elderly with the installation of lifts at more overhead bridges, longer road crossing time for the elderly and those with disabilities, as well as audio-tactile systems for the visually-handicapped at more traffic junctions. LTA is collaborating with SG Enable to co-create solutions that can make public transport more accessible for persons with special needs.

FINANCING OF LAND TRANSPORT AUTHORITY OF SINGAPORE

LTA receives monetary advances from the Government to finance the construction of road infrastructure and systems, which it undertakes on behalf of the Government. The road infrastructure is owned by the Government. In addition, LTA receives a management fee from the Government to finance its operating expenditure, which includes the cost of maintaining the road infrastructure and traffic systems.

The construction of rapid transit systems is funded by development grants from the Government and these capital expenditures are capitalised in LTA's accounts. The operation of the rapid transit systems is then regulated and licensed by LTA to private operators.

LTA may borrow or raise funds to finance its land transport infrastructure development projects. The principal repayment, interest and other charges incurred for the purpose of borrowing will be met out of funds provided by the Government.

USE OF PROCEEDS

The Issuer intends to use the proceeds from the issue of Notes to finance LTA's land transport infrastructure development projects, and/or such other purposes as may be specified in the relevant Pricing Supplement.

CLEARING AND SETTLEMENT

CDP

In respect of Notes which are accepted for clearance by CDP in Singapore, clearance will be effected through an electronic book-entry clearance and settlement system for the trading of debt securities (the “**Depository System**”) maintained by CDP. Notes that are to be listed on the SGX-ST may be cleared through CDP.

CDP, a wholly-owned subsidiary of Singapore Exchange Limited, is incorporated under the laws of Singapore and acts as a depository and clearing organisation. CDP holds securities for its accountholders and facilitates the clearance and settlement of securities transactions between accountholders through electronic book-entry changes in the securities accounts maintained by such accountholders with CDP.

In respect of Notes which are accepted for clearance by CDP, the entire issue of the Notes is to be held by CDP in the form of a Global Note or Global Certificate for persons holding the Notes in securities accounts with CDP (the “**Depositors**”). Delivery and transfer of Notes between Depositors is by electronic book-entries in the records of CDP only, as reflected in the securities accounts of Depositors. Although CDP encourages settlement on the third business day following the trade date of debt securities, market participants may mutually agree on a different settlement period if necessary.

Settlement of over-the-counter trades in the Notes through the Depository System may only be effected through certain corporate depositors (the “**Depository Agents**”) approved by CDP under the Securities and Futures Act to maintain securities sub-accounts and to hold the Notes in such securities sub-accounts for themselves and their clients. Accordingly, Notes for which trade settlement is to be effected through the Depository System must be held in securities sub-accounts with Depository Agents. Depositors holding the Notes in direct securities accounts with CDP, and who wish to trade Notes through the Depository System, must transfer the Notes to be traded from such direct securities accounts to a securities sub-account with a Depository Agent for trade settlement.

CDP is not involved in money settlement between Depository Agents (or any other persons) because CDP is not a counterparty in the settlement of trades of debt securities. However, CDP will make payment of interest and repayment of principal on behalf of issuers of debt securities.

Although CDP has established procedures to facilitate transfer of interests in the Notes in global form among Depositors, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, the Principal Paying Agent or any other agent will have the responsibility for the performance by CDP of its obligations under the rules and procedures governing its operations.

TAXATION

The statements below are general in nature, are based on certain aspects of current tax laws in Singapore and administrative guidelines and circulars issued by the Monetary Authority of Singapore (the "MAS") in force as at the date of this Information Memorandum and are subject to any changes in such laws, administrative guidelines or circulars, or the interpretation of those laws, guidelines or circulars, occurring after such date, which changes could be made on a retroactive basis. These laws, guidelines and circulars are also subject to various interpretations and the relevant tax authorities or the courts could later disagree with the explanations or conclusions set out below. Neither these statements nor any other statements in this Information Memorandum are intended or are to be regarded as advice on the tax position of any holder of the Notes or of any person acquiring, selling or otherwise dealing with the Notes or on any tax implications arising from the acquisition, sale or other dealings in respect of the Notes. The statements below do not purport to be a comprehensive or exhaustive description of all the tax considerations that may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and do not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or financial institutions in Singapore which have been granted the relevant Financial Sector Incentive(s)) may be subject to special rules or tax rates. Prospective holders of the Notes are advised to consult their own professional tax advisers as to the Singapore or other tax consequences of the acquisition, ownership or disposal of the Notes, including, in particular, the effect of any foreign, state or local tax laws to which they are subject. It is emphasised that none of the Issuer, the Arranger and any other persons involved in the Programme accepts responsibility for any tax effects or liabilities resulting from the subscription for, purchase, holding or disposal of the Notes.

Singapore

Interest and Other Payments

Subject to the following paragraphs, under Section 12(6) of the ITA, the following payments are deemed to be derived from Singapore:

- any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is (a) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (b) deductible against any income accruing in or derived from Singapore; or
- any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15.0% final withholding tax described below) to non-resident persons (other than non-resident individuals) is currently 17.0%. The applicable rate for non-resident individuals is currently 22.0%.

However, if the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15.0%. The rate of 15.0% may be reduced by applicable tax treaties.

However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including:

- interest from debt securities derived on or after 1 January 2004;
- discount income (not including discount income arising from secondary trading) from debt securities derived on or after 17 February 2006; and

TAXATION

- prepayment fee, redemption premium and break cost from debt securities derived on or after 15 February 2007,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession in Singapore.

In addition, as the Programme as a whole was arranged by DBS Bank Ltd., which was a Financial Sector Incentive (Bond Market) Company, Financial Sector Incentive (Capital Market) Company or Financial Sector Incentive (Standard Tier) Company (each as defined in the ITA) at such time, any tranche of the Notes (the "**Relevant Notes**") issued as debt securities under the Programme during the period from the date of this Information Memorandum to 31 December 2018 would be qualifying debt securities ("**QDS**") for the purposes of the ITA, to which the following treatment shall apply:

- (a) subject to certain prescribed conditions having been fulfilled (including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities for the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require and the inclusion by the Issuer in all offering documents relating to the Relevant Notes of a statement to the effect that where interest, discount income, prepayment fee, redemption premium or break cost from the Relevant Notes is derived by a person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption for qualifying debt securities shall not apply if the non-resident person acquires the Relevant Notes using the funds and profits of such person's operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), prepayment fee, redemption premium and break cost (collectively, the "**Qualifying Income**") from the Relevant Notes paid by the Issuer and derived by a holder who is not resident in Singapore and (i) who does not have any permanent establishment in Singapore or (ii) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Notes are not obtained from such person's operation through a permanent establishment in Singapore, are exempt from Singapore tax;
- (b) subject to certain conditions having been fulfilled (including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities for the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require), Qualifying Income from the Relevant Notes paid by the Issuer and derived by any company or body of persons (as defined in the ITA) in Singapore is subject to tax at a concessionary rate of 10% (except for holders of the relevant Financial Sector Incentive(s) who may be taxed at different rates); and
- (c) subject to:
 - (i) the Issuer including in all offering documents relating to the Relevant Notes a statement to the effect that any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Relevant Notes is not exempt from tax shall include such income in a return of income made under the ITA; and
 - (ii) the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities for the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require,

payments of Qualifying Income derived from the Relevant Notes are not subject to withholding of tax by the Issuer.

Notwithstanding the foregoing:

TAXATION

- if during the primary launch of any tranche of Relevant Notes, the Relevant Notes of such tranche are issued to fewer than four persons and 50% or more of the issue of such Relevant Notes is beneficially held or funded, directly or indirectly, by related parties of the Issuer, such Relevant Notes would not qualify as QDS; and
- even though a particular tranche of Relevant Notes are QDS, if, at any time during the tenure of such tranche of Relevant Notes, 50% or more of such Relevant Notes which are outstanding at any time during the life of their issue is beneficially held or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income derived from such Relevant Notes held by:
 - any related party of the Issuer; or
 - any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer,

will not be eligible for the tax exemption or concessionary rate of tax as described above.

The term “**related party**”, in relation to a person, means any other person who, directly or indirectly, controls that person, or is controlled, directly or indirectly, by that person, or where he and that other person, directly or indirectly, are under the control of a common person.

The terms “**prepayment fee**”, “**redemption premium**” and “**break cost**” are defined in the ITA as follows:

- “prepayment fee”, in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by the terms of the issuance of the securities;
- “redemption premium”, in relation to debt securities and qualifying debt securities, means any premium payable by the issuer of the securities on the redemption of the securities upon their maturity; and
- “break cost”, in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by any loss or liability incurred by the holder of the securities in connection with such redemption.

References to “prepayment fee”, “redemption premium” and “break cost” in this Singapore tax disclosure have the same meaning as defined in the ITA.

Where interest, discount income, prepayment fee, redemption premium or break cost (i.e. the Qualifying Income) is derived from the Relevant Notes by any person who is not resident in Singapore and who carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for QDS under the ITA (as mentioned above) shall not apply if such person acquires such Relevant Notes using the funds and profits of such person's operations through a permanent establishment in Singapore. Any person whose interest, discount income, prepayment fee, redemption premium or break cost (i.e. the Qualifying Income) derived from the Relevant Notes is not exempt from tax is required to include such income in a return of income made under the ITA.

It was announced in the Singapore Budget Statement 2018 that the QDS Scheme will be extended until 31 December 2023, subject to details to be announced by the MAS.

Under the Qualifying Debt Securities Plus Scheme (the “**QDS Plus Scheme**”), subject to certain conditions having been fulfilled (including the furnishing by the issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities in respect of the QDS in the prescribed format within such period as the MAS may specify and such other particulars in connection with the QDS as the MAS may require), income tax exemption is granted on Qualifying Income derived by any investor from QDS (excluding Singapore Government Securities) which:

TAXATION

- are issued during the period from 16 February 2008 to 31 December 2018;
- have an original maturity of not less than 10 years;
- cannot have their tenure shortened to less than 10 years from the date of their issue, except where –
 - the shortening of the tenure is a result of any early termination pursuant to certain specified early termination clauses which the issuer included in any offering document for such QDS; and
 - the QDS do not contain any call, put, conversion, exchange or similar option that can be triggered at specified dates or at specified prices which have been priced into the value of the QDS at the time of their issue; and
- cannot be re-opened with a resulting tenure of less than 10 years to the original maturity date.

However, even if a particular tranche of the Relevant Notes are QDS which qualify under the QDS Plus Scheme, if, at any time during the tenure of such tranche of Relevant Notes, 50% or more of such Relevant Notes which are outstanding at any time during the life of their issue is beneficially held or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income from such Relevant Notes derived by:

- any related party of the Issuer; or
- any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer,

will not be eligible for the tax exemption under the QDS Plus Scheme as described above.

It was announced in the Singapore Budget Statement 2018 that the QDS Plus Scheme will be allowed to lapse after 31 December 2018, but debt securities with tenures of at least 10 years which are issued on or before 31 December 2018 can continue to enjoy the tax concessions under the QDS Plus Scheme if the conditions of such scheme as set out above are satisfied.

Capital Gains

Any gains considered to be in the nature of capital made from the sale of the Notes will not be taxable in Singapore. However, any gains derived by any person from the sale of the Notes which are gains from any trade, business, profession or vocation carried on by that person, if accruing in or derived from Singapore, may be taxable as such gains are considered revenue in nature.

Holders of the Notes who apply or are required to apply Singapore Financial Reporting Standard (“**FRS**”) 39 or FRS 109 may, for Singapore income tax purposes, be required to recognise gains or losses (not being gains or losses in the nature of capital) on the Notes, irrespective of disposal, in accordance with FRS 39 or FRS 109. See the section below on “Adoption of FRS 39 and FRS 109 for Singapore Income Tax Purposes” for further details.

Adoption of FRS 39 and FRS 109 for Singapore Income Tax Purposes

Section 34A of the ITA provides for the tax treatment for financial instruments in accordance with FRS 39 (subject to certain exceptions and “opt-out” provisions) to taxpayers who are required to comply with FRS 39 for financial reporting purposes. The Inland Revenue Authority of Singapore has also issued a circular entitled “Income Tax Implications Arising from the Adoption of FRS 39 - Financial Instruments: Recognition & Measurement”.

FRS 109 is mandatorily effective for annual periods beginning on or after 1 January 2018, replacing FRS 39. Section 34AA of the ITA requires taxpayers who comply or who are required to comply with FRS 109 for financial reporting purposes to calculate their profit, loss or expense for Singapore

TAXATION

income tax purposes in respect of financial instruments in accordance with FRS 109, subject to certain exceptions. The Inland Revenue Authority of Singapore has also issued a circular entitled "Income Tax: Income Tax Treatment Arising from Adoption of FRS 109 – Financial Instruments".

Holders of the Notes who may be subject to the tax treatment under Sections 34A or 34AA of the ITA should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Notes.

Estate Duty

Singapore estate duty has abolished with respect to all deaths occurring on or after 15 February 2008.

SUBSCRIPTION AND SALE

Subject to the terms and on the conditions contained in the Programme Agreement between the Issuer and the Arranger, the Notes will be offered from time to time for sale through the Relevant Dealer(s). The price at which a Series or Tranche will be issued will be determined prior to its issue between the Issuer and the Relevant Dealer(s). The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the Relevant Dealer. The Programme Agreement further provides for the resignation of existing Dealers and the appointment of additional Dealers. The obligations of the Dealers under the Programme Agreement will be subject to certain conditions set out in the Programme Agreement. Each Dealer (acting as principal) will subscribe or procure subscribers for Notes from the Issuer pursuant to the Programme Agreement.

The Arranger, the Dealers or any of their respective affiliates may have performed certain banking and advisory services for the Issuer and/or its affiliates from time to time for which they have received customary fees and expenses and may, from time to time, engage in transactions with and perform services for the Issuer and/or its affiliates in the ordinary course of the Issuer's or their business. The Issuer may from time to time agree with the relevant Dealer(s) that the Issuer may pay certain third parties (including, without limitation, rebates to private banks as specified in the applicable Pricing Supplement).

In connection with each tranche of Notes issued under the Programme, the Dealers or certain of their affiliates may purchase Notes and be allocated Notes for asset management and/or proprietary purposes but not with a view to distribution. Further, the Dealers and/or their respective affiliates may place orders, receive allocations and purchase Notes for their own account (without a view to distributing such Notes) and such orders and/or allocations of the Notes may be material. Such entities may hold or sell such Notes or purchase further Notes for their own account in the secondary market or deal in any other securities of the Issuer, and therefore, they may offer or sell the Notes or other securities otherwise than in connection with the offering. Accordingly, references herein to the Notes being "offered" should be read as including any offering of the Notes to the Dealers and/or their respective affiliates for their own account. Such entities are not expected to disclose such transactions or the extent of any such investment, otherwise than in accordance with any legal or regulatory obligation to do so.

Selling Restrictions

General

The selling restrictions below may be modified or supplemented from time to time by the agreement of the Issuer and the Relevant Dealer(s). Any such modification or supplement will be set out in a Pricing Supplement or in a supplement to this Information Memorandum. The Programme Agreement provides that the restrictions relating to any specific jurisdiction (set out below) shall be deemed to be modified to the extent (if at all) of any change(s) in, or change(s) in official interpretation of, applicable laws and regulations governing any of such restrictions relating to any specific jurisdiction.

Each Dealer understands that no action has been or will be taken by the Issuer in any jurisdiction that would permit a public offering of any of the Notes, or possession, circulation or distribution of this Information Memorandum or any other document or any Pricing Supplement, in any country or jurisdiction where action for that purpose is required. Each Dealer has agreed that it will, at its own expense, comply with all applicable securities laws, regulations and directives in each jurisdiction in which it subscribes for, purchases, offers, sells, distributes or delivers Notes or any interest therein or rights in respect thereof or has in its possession or distributes, this Information Memorandum, any other document relating to the Notes or the Programme or any Pricing Supplement, and will ensure and procure that no obligation or liability is imposed on the Issuer in any such jurisdiction as a result of any of the foregoing actions. In connection with the offer, sale, distribution or delivery by any Dealer of any Notes or any interest therein or rights in respect thereof, the Issuer shall not have responsibility for, and each Dealer will obtain, any consent, approval or permission required in any jurisdiction to which it is subject or from which it may make any such offer, sale, distribution or delivery.

APPENDIX A – FORM OF PRICING SUPPLEMENT

This Pricing Supplement relates to the Tranche of Notes referred to above.

This Pricing Supplement, under which the Notes described herein (the “**Notes**”) are issued, is supplemental to, and should be read in conjunction with, the Information Memorandum dated 5 March 2018 (as supplemented, amended or replaced from time to time, the “**Information Memorandum**”) issued in relation to the S\$12,000,000,000 Multicurrency Medium Term Note Programme of the Land Transport Authority of Singapore (the “**Issuer**”). The Notes will be issued on the terms of this Pricing Supplement read together with the Information Memorandum.

The Issuer accepts responsibility for the information contained in this Pricing Supplement which, when read together with the Information Memorandum, contains all information with respect to the Issuer and the Notes that is material in the context of the issue and offering of the Notes.

This Pricing Supplement does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation, and no action is being taken to permit an offering of the Notes or the distribution of this Pricing Supplement in any jurisdiction where such action is required.

Where interest, discount income, prepayment fee, redemption premium or break cost is derived from any of the Notes by any person who is not resident in Singapore and who carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for qualifying debt securities (subject to certain conditions) under the Income Tax Act, Chapter 134 of Singapore (the “**Income Tax Act**”) shall not apply if such person acquires such Notes using the funds and profits of such person’s operations through a permanent establishment in Singapore. Any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Notes is not exempt from tax (including for the reasons described above) shall include such income in a return of income made under the Income Tax Act.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”), or any state securities laws in the United States or any other jurisdiction, and the Notes may include Bearer Notes that are subject to U.S. tax law requirements. The Notes may only be offered and sold outside the United States to persons who are not U.S. persons in offshore transactions in reliance on Regulation S. In addition, subject to certain exceptions, Bearer Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in the U.S. Internal Revenue Code of 1986, as amended (the “**Internal Revenue Code**”)).

[MIFID II PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET – Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, “**MiFID II**”); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer[’s/s’] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[’s/s’] target market assessment) and determining appropriate distribution channels.]

[PRIIPs REGULATION - PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For

APPENDIX A – FORM OF PRICING SUPPLEMENT

these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the “**Insurance Mediation Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the “**Prospectus Directive**”). Consequently no key information document required by Regulation (EU) No 1286/2014 (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LAND TRANSPORT AUTHORITY

Report on the Audit of the Financial Statements

Our opinion

In our opinion, the accompanying consolidated financial statements of Land Transport Authority (the "Authority") and its subsidiaries (the "Group") and the balance sheet, statement of comprehensive income and statement of changes in equity of the Authority are properly drawn up in accordance with the provisions of the Land Transport Authority of Singapore Act, Chapter 158A (the "Act") and Statutory Board Financial Reporting Standards in Singapore ("SB-FRSs") so as to present fairly, in all material respects, the state of affairs of the Group and the Authority as at 31 March 2017 and the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and the financial performance and changes in equity of the Authority for the financial year ended on that date.

What we have audited

The financial statements of the Authority and the Group comprise:

- the balance sheets of the Group and the Authority as at 31 March 2017;
- the consolidated statement of comprehensive income of the Group for the financial year then ended;
- the statement of comprehensive income of the Authority for the financial year then ended;
- the consolidated statement of changes in equity of the Group for the financial year then ended;
- the statement of changes in equity of the Authority for the financial year then ended;
- the consolidated statement of cash flows of the Group for the financial year then ended; and
- the notes to the financial statements, including a summary of significant accounting policies.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Authority in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

(continued)

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the financial year ended 31 March 2017. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Useful lives of property, plant and equipment <i>(Refer to Note 2.4(b), Note 3 and Note 20 to the financial statements)</i></p> <p>At 31 March 2017, the Group's property, plant and equipment ("PPE") amounted to \$43,827 million. These include customised PPE which involve complex engineering and construction, and off-the-shelf PPE. The useful lives of the Group's PPE vary widely as disclosed in Note 2.4(b).</p> <p>Due to the inherent nature of the customised PPE, significant judgment is required in determining if the customised PPE contain parts that have different useful lives. Given the significance of PPE to the Group's financial statements, errors in estimating the useful lives of PPE could result in a material misstatement to the financial statements.</p> <p>As certain PPEs are funded by government grants, any misstatement in depreciation expense relating to these PPE would result in misstatement of the amortisation of the matching government grant in the Consolidated Statement of Comprehensive Income. As disclosed in the Consolidated Statement of Comprehensive Income, the depreciation expense of the Group amounted to \$837 million for the financial year ended 31 March 2017. Government grants amortised to match the depreciation expense of PPE funded by government grants amounted to \$692 million.</p> <p>While there is no impact on the net deficit of the Group relating to the depreciation expense of PPE which are funded by government grants, the depreciation expense relating to PPE not funded by government grants amounted to \$145 million for the financial year ended 31 March 2017.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • We have evaluated the Group's PPE policies and procedures to identify those parts in customised PPEs that have different useful lives. • We have reviewed management's analysis to determine if the Group's customised PPE contain parts that have different useful lives. • We have assessed appropriateness of management's analysis by tracing to underlying documentary support such as project documentation, technical assessment and vendors' specifications. • We have reviewed management's analysis of estimated useful lives of the Group's PPE including the identification of conditions that may indicate significant changes to estimated useful lives such as expected usage of the asset, expected physical wear and tear, technical or commercial obsolescence and legal or similar limits on the use of the asset such as the expiry dates of related lease. <p>Based on the work performed, we found the estimated useful lives to be within acceptable range.</p>

Other Information

Management is responsible for the other information. The other information refers to all the sections of the annual report but does not include the financial statements and our auditor's report thereon, which is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with SSAs.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the provisions of the Act and SB-FRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

A statutory board is constituted based on its Act and its dissolution requires Parliament's approval. In preparing the financial statements, management is responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless there is intention to wind up the Authority or for the Authority to cease operations.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LAND TRANSPORT AUTHORITY
(continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Opinion

In our opinion:

- (a) the receipts, expenditure, investment of moneys and the acquisition and disposal of assets by the Authority during the financial year are, in all material respects, in accordance with the provisions of the Act; and
- (b) proper accounting and other records have been kept, including records of all assets of the Authority whether purchased, donated or otherwise.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LAND TRANSPORT AUTHORITY
(continued)

Report on Other Legal and Regulatory Requirements (continued)

Basis for Opinion

We conducted our audit in accordance with SSAs. Our responsibilities under those standards are further described in the Auditor's *Responsibilities for the Compliance Audit* section of our report. We are independent of the Authority in accordance with the ACRA Code together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on management's compliance.

Responsibilities of Management for Compliance with Legal and Regulatory Requirements

Management is responsible for ensuring that the receipts, expenditure, investment of moneys and the acquisition and disposal of assets, are in accordance with the provisions of the Act. This responsibility includes implementing accounting and internal controls as management determines are necessary to enable compliance with the provisions of the Act.

Auditor's Responsibilities for the Compliance Audit

Our responsibility is to express an opinion on management's compliance based on our audit of the financial statements. We planned and performed the compliance audit to obtain reasonable assurance about whether the receipts, expenditure, investment of moneys and the acquisition and disposal of assets, are in accordance with the provisions of the Act.

Our compliance audit includes obtaining an understanding of the internal control relevant to the receipts, expenditure, investment of moneys and the acquisition and disposal of assets; and assessing the risks of material misstatement of the financial statements from non-compliance, if any, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Because of the inherent limitations in any accounting and internal control system, non-compliances may nevertheless occur and not be detected.

The engagement partner on the audit resulting in this independent auditor's report is Tan Bee Nah.

Ministry of Transport ("MOT") is the Authority's supervisory ministry. The Authority is required to follow the policies and instructions which are applicable to Statutory Boards issued from time to time by MOT and other government ministries and departments such as the Ministry of Finance ("MOF").

The principal activities of the subsidiaries are set out in Note 19 to the financial statements.

The Group operates in one main business segment, which is land transport and mainly in one geographical area, which is Singapore. Operating income is mainly attributable to Singapore. Non-current assets of the Group are also located in Singapore. Consequently, no segment information has been disclosed.

2. Significant accounting policies

2.1 Basis of preparation

These financial statements have been prepared in accordance with the Land Transport Authority of Singapore Act (Cap. 158A) and Statutory Board Financial Reporting Standards ("SB-FRS") prepared under historical cost convention, except as disclosed in the accounting policies below.

AND ITS SUBSIDIARIES**

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2017

2. Significant accounting policies (continued)

2.1 Basis of preparation (continued)

The preparation of financial statements in conformity with SB-FRS requires the Group's management to exercise its judgement in the process of applying the Group's accounting policies. It also requires the use of certain critical accounting estimates and assumptions. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

Interpretations and amendments to published standards effective in 2016

On 1 April 2016, the Group adopted the new or amended SB-FRS and Interpretations to SB-FRS ("INT SB-FRS") that are mandatory for application for the financial year. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective SB-FRS and INT SB-FRS.

The adoption of these new or amended SB-FRS and INT SB-FRS did not result in substantial changes to the accounting policies of the Group and the Company and had no material effect on the amounts reported for the current or prior financial years.

2.2 Revenue recognition

Sales comprise the fair value of the consideration received or receivable for the sale of goods and rendering of services in the ordinary course of the Group's activities. Sales are presented, net of value-added tax, rebates and discounts, and after eliminating sales within the Group.

The Group recognises revenue when the amount of revenue and related cost can be reliably measured, it is probable the collectability of the related receivables is reasonably assured and when the specific criteria for each of the Group's activities are met as follows:

- (a) Management fee from the Singapore Government relates to services and the functions and duties set out in the Agency Agreement. Management fee is recognised on an accrual basis when the services are rendered.
 - (b) Bus fare revenue relates to bus fare collections from Bus Contracting Model (BCM) bus services. Under the BCM, operators will be paid a service fee to operate the bus services, while LTA will own all related operating assets including buses and lease them to the operators. LTA will also determine the bus services to be provided and set service standards. All bus fare revenue will be retained by LTA. Bus fare revenue are recognised at the point when the amount of apportioned fares can be measured reliably.
 - (c) Bus & bus related lease income is recognised when the service is rendered.
 - (d) Rapid Transit System license charge from the public transport operator is recognised when the right to receive payment is established.
 - (e) Vehicle transit licensing fees and new motor vehicle registration fees are recognised when the service is rendered.

2.2 Revenue recognition (continued)

- (f) Composition fines are recognised at the point of collection of the settlement.
- (g) Transit acquirer fees and Rapid Transit System licensing fees are recognised when the services are rendered.
- (h) Service contract revenue and contract costs are recognised as revenue and expenses, respectively, by reference to the stage of completion on contract activity at balance sheet date, when the outcome of services rendered can be estimated reliably.

Please refer to the paragraph "Contracts in progress" for the accounting policy for revenue from service contracts.
- (i) Revenue from sale of in-vehicle units is recognised when installed in vehicles and commissioned.
- (j) Revenue from sale of contactless smart cards is recognised when issued to customers.
- (k) Revenue from maintenance contracts is recognised over the contractual period, when the right to receive payment is established.
- (l) Interest income is recognised on a time proportion basis using the effective interest method.
- (m) Dividend income is recognised when the right to receive payment is established.

2.3 Group accounting

(a) Subsidiaries

(i) *Consolidation*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date on that control ceases.

In preparing the consolidated financial statements, transactions, balances and unrealised gains on transactions between group entities are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment indicator of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

2. Significant accounting policies (continued)

2.3 Group accounting (continued)

(a) Subsidiaries (continued)

(i) Consolidation (continued)

Non-controlling interests comprise the portion of a subsidiary's net results of operations and its net assets, which is attributable to the interests that are not owned directly or indirectly by the equity holders of the Authority. They are shown separately in the consolidated statement of comprehensive income, statement of changes in equity, and balance sheet. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary, even if this results in the non-controlling interests having a deficit balance.

(ii) Acquisition

The acquisition method of accounting is used to account for business combinations entered into by the Group.

The consideration transferred for the acquisition of a subsidiary or business comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes any contingent consideration arrangement and any pre-existing equity interest in the subsidiary measured at their fair values at the acquisition date.

Acquisition-related costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree at the date of acquisition either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

The excess of (a) the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the (b) fair value of the identifiable net assets acquired is recorded as goodwill.

2. Significant accounting policies (continued)

2.3 Group accounting (continued)

(a) Subsidiaries (continued)

(iii) *Disposals*

When a change in the Group's ownership interest in a subsidiary results in a loss of control over the subsidiary, the assets and liabilities of the subsidiary including any goodwill are derecognised. Amounts previously recognised in other comprehensive income in respect of that entity are also reclassified to income or expenditure or transferred directly to retained earnings if required by a specific Standard.

Any retained equity interest in the entity is remeasured at fair value. The difference between the carrying amount of the retained interest at the date when control is lost and its fair value is recognised in income or expenditure.

Please refer to the paragraph "Investments in subsidiaries" for the accounting policy on investments in subsidiaries in the separate financial statements of the Authority.

(b) Transactions with non-controlling interests

Changes in the Authority's ownership interest in a subsidiary that do not result in a loss of control over the subsidiary are accounted for as transactions with equity owners of the Group. Any difference between the change in the carrying amounts of the non-controlling interest and the fair value of the consideration paid or received is recognised in a separate reserve within equity attributable to the equity holders of the Authority.

2.4 Property, plant and equipment

(a) Measurement

(i) *Property, plant and equipment*

All items of property, plant and equipment are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses (Note 2.7).

**LAND TRANSPORT AUTHORITY OF SINGAPORE
AND ITS SUBSIDIARIES**

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2017

2. Significant accounting policies (continued)

2.4 Property, plant and equipment (continued)

(a) Measurement (continued)

(ii) *Component of costs*

The cost of an item of property, plant and equipment initially recognised includes its purchase price, capitalised borrowing cost and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Cost also includes any fair value gains or losses on qualifying cash flow hedges of property, plant and equipment that are transferred from the hedging reserve. The projected cost of dismantlement, removal or restoration is also recognised as part of the cost of property, plant and equipment if the obligation for the dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset for purpose other than to produce inventories.

Construction-in-progress is stated at cost, and comprises land costs, construction costs and development costs. Land costs include land acquisition, resettlement and clearance costs. Construction costs are recorded based on contract progress payments for certified works and services. Development costs include manpower costs and other construction overheads.

(b) Depreciation

Depreciation on items of property, plant and equipment is calculated using the straight line method to allocate their depreciable amounts over their estimated useful lives as follows:

	<u>Useful lives</u>
Leasehold land, viaducts and tunnels	99 years
Railway tracks*	25 – 99 years
Buildings and structures	25 – 99 years
Rolling stock	15 – 40 years
Operating equipment	7 – 50 years
Buses & bus related assets	3 – 17 years
Motor vehicles	5 – 10 years
Computers, furniture, fittings, and office equipment	3 – 10 years

* Included in railway tracks are timber & concrete sleepers and third rail systems that have useful lives of 25 to 50 years.

No depreciation is provided on construction-in-progress.

The residual values, estimated useful lives and depreciation method of property, plant and equipment are reviewed, and adjusted as appropriate, at each balance sheet date. The effects of any revision are included in income or expenditure for when the changes arise.

2. Significant accounting policies (continued)

2.4 Property, plant and equipment (continued)

(c) Subsequent expenditure

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in income or expenditure when incurred.

(d) Disposal

On disposal of an item of property, plant and equipment, the difference between the disposal proceeds and its carrying amount is recognised in income or expenditure.

2.5 Borrowing costs

Borrowing costs are recognised in income or expenditure using the effective interest method except for those costs that are directly attributable to the construction or development of properties and assets under construction. This includes those costs on borrowings acquired specifically for the construction or development of properties and assets under construction.

The actual borrowing costs incurred during the period up to the issuance of the temporary occupation permit less any investment income on temporary investment of these borrowings, are capitalised in the cost of the property under development.

2.6 Investments in subsidiaries

Investments in subsidiaries are stated at cost less accumulated impairment losses (Note 2.7) in the Authority's balance sheet. On disposal of an investment in subsidiary, the difference between disposal proceeds and the carrying amounts of the investments are recognised in income or expenditure.

2.7 Impairment of non-financial assets

Property, plant and equipment and investments in subsidiaries are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the cash generating unit ("CGU") to which the asset belongs.

AND ITS SUBSIDIARIES**

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2017

2. Significant accounting policies (continued)

2.7 Impairment of non-financial assets (continued)

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in income or expenditure.

An impairment loss for an asset other than goodwill is reversed only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of this asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

A reversal of impairment loss for an asset other than goodwill is recognised in income or expenditure.

2.8 Financial assets

(a) Classification

The Group classifies its financial assets in the following categories: at fair value through income or expenditure, and loans and receivables. The classification depends on the purpose for which the assets were acquired. Management determines the classification of its financial assets at initial recognition.

(i) *Financial assets, at fair value through profit or loss*

Financial assets designated as at fair value through profit or loss at inception are those that are managed and their performances are evaluated on a fair value basis, in accordance with a documented Group investment strategy.

Assets in this category are classified as current assets if they are expected to be realised within 12 months after the balance sheet date.

(ii) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those maturing later than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are classified within "trade and other receivables" and "cash and cash equivalents" on the balance sheet.

AND ITS SUBSIDIARIES**

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2017

2. Significant accounting policies (continued)

2.8 Financial assets (continued)

(b) Recognition and derecognition

The Group initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date, which is the date that the Group becomes a party to the contractual provisions of the instrument.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. On disposal of a financial asset, the difference between the carrying amount and the sale proceeds is recognised in income or expenditure.

(c) Initial measurement

Financial assets are initially recognised at fair value plus transaction costs except for financial assets, at fair value through profit or loss, which are recognised at fair value. Transaction costs for financial assets, at fair value through profit or loss are recognised immediately as expenses.

(d) Subsequent measurement

Financial assets, at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Changes in the fair value of financial assets, at fair value through profit or loss, including effects of currency translation, interest and dividends, are recognised in income or expenditure within "other gains and income – net" when the changes arise.

(e) Impairment

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired and recognises an allowance for impairment when such evidence exists.

Loans and receivables

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy, and default or significant delay in payments are objective evidence that these financial assets are impaired.

The carrying amount of these assets is reduced through the use of an impairment allowance account which is calculated as the difference between the carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. When the asset becomes uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are recognised against the same line item in income or expenditure.

AND ITS SUBSIDIARIES**

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2017

2. Significant accounting policies (continued)

2.8 Financial assets (continued)

(e) Impairment (continued)

The allowance for impairment loss account is reduced through income or expenditure in a subsequent period when the amount of impairment loss decreases and the related decrease can be objectively measured. The carrying amount of the asset previously impaired is increased to the extent that the new carrying amount does not exceed the amortised cost, had no impairment been recognised in prior periods.

2.9 Borrowings

Borrowings are presented as current liabilities unless the Group has an unconditional right to defer settlement for at least 12 months after the balance sheet date.

Borrowings are initially recognised at fair value, net of transaction costs incurred and subsequently carried at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in income or expenditure over the period of the borrowings using the effective interest method.

2.10 Trade and other payables

Trade and other payables are initially recognised at fair value, and subsequently carried at amortised cost using the effective interest method.

2.11 Derivative financial instruments and hedging activities

A derivative financial instrument is initially recognised at its fair value on the date the contract is entered into and is subsequently carried at its fair value. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as cash flow hedges.

Fair value changes on derivatives that are not designated or do not qualify for hedge accounting are recognised in income or expenditure when the changes arise.

The Group documents at the inception of the transaction the relationship between the hedging instruments and hedged items, as well as its risk management objective and strategies for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives designated as hedging instruments are highly effective in offsetting changes in fair value or cash flows of the hedged items.

The carrying amount of a derivative designated as a hedge is presented as a non-current asset or liability if the remaining expected life of the hedged item is more than 12 months, and as a current asset or liability if the remaining expected life of the hedged item is less than 12 months. The fair value of a trading derivative is presented as a current asset or liability.

**LAND TRANSPORT AUTHORITY OF SINGAPORE
AND ITS SUBSIDIARIES**

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2017

2. Significant accounting policies (continued)

2.11 Derivative financial instruments and hedging activities (continued)

(a) Cash flow hedge

The Group has entered into foreign currency contracts that qualify as cash flow hedges against highly probable forecasted transactions in foreign currencies. The fair value changes on the effective portion of the foreign currency contracts designated as cash flow hedges are recognised in the hedging reserve and transferred to the cost of hedged non-monetary asset upon acquisition.

The fair values changes on the ineffective portion of the foreign currency contracts are recognised immediately in income or expenditure. When a forecasted transaction is no longer expected to occur, the gains and losses that were previously recognised in the hedging reserve are transferred to income or expenditure immediately.

(b) Derivatives that do not qualify for hedge accounting

External fund managers enter into derivative financial instruments on behalf of the Authority and these derivative financial instruments do not qualify for hedge accounting. Fair value changes for such derivative instruments that do not qualify for hedge accounting are included in income or expenditure in the financial year when the changes arise.

2.12 Fair value estimation of financial assets and liabilities

The fair values of financial instruments traded in active markets (such as exchange-traded and over-the-counter securities and derivatives) are based on quoted market prices at the balance sheet date. The quoted market prices used for financial assets are the current bid prices; the appropriate quoted market prices for financial liabilities are the current asking prices.

The fair values of financial instruments that are not traded in an active market are determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Where appropriate, quoted market prices or dealer quotes for similar instruments are used. Valuation techniques, such as discounted cash flows analyses, are also used to determine the fair values of the financial instruments.

The fair values of financial liabilities carried at amortised cost are estimated by discounting the future contractual cash flows at the current market interest rates that are available to the Group for similar financial liabilities or based on quoted market prices at the balance sheet date.

The fair values of foreign currency contracts are determined using actively quoted forward currency rates.

The fair values of current financial assets and liabilities, carried at amortised cost, approximate their fair values.

2.13 Leases

(a) When the Group is the lessee:

The Group leases certain property, plant and equipment from third parties.

Leases of property, plant and equipment where substantially all risks and rewards incidental to ownership are retained by the lessors are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessors) are recognised in income or expenditure on a straight-line basis over the period of the lease.

Contingent rents are recognised as an expense in income or expenditure when incurred.

(b) When the Group is the lessor:

The Group leases out certain property, plant and equipment.

Leases of property, plant and equipment where the Group retains substantially all risks and rewards incidental to ownership are classified as operating leases. Rental income from operating leases (net of any incentives given to lessees) is recognised in income or expenditure on a straight-line basis over the lease term.

Initial direct costs incurred by the Group in negotiating and arranging operating leases are added to the carrying amount of the leased assets and recognised as an expense in income or expenditure over the lease term on the same basis as the lease income.

Contingent rents are recognised as income in income or expenditure when earned.

2.14 Inventories

Finished goods comprise in-vehicle units to be fitted into vehicles, ez-link cards and contactless smart cards purchased by the Group during the year that are not yet issued to the public as at the balance sheet date. Inventories are carried at the lower of cost and net realisable value. Cost is determined on a first-in, first-out basis. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses.

2.15 Contracts in progress

Contracts in progress represent the amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised to date less progress billings and recognised losses. Cost includes all expenditure related directly to specific projects and an allocation of fixed and variable overheads incurred in the Group's contract activities based on normal operating capacity.

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a contract can be estimated reliably, contract revenue is recognised in income or expenditure in proportion to the stage of completion of the contract. Contract expenses are recognised as incurred unless they create an asset related to future contract activity.

The stage of completion is assessed by reference to the proportion of contract costs incurred to date to the estimated total costs or cumulative actual man-hours incurred to estimated total man-hours for each contract. When the outcome of a contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in income or expenditure.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus representing amounts due from customers is shown as 'due from customers on contracts in progress' and included under 'trade and other receivables'. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus representing amounts due to customers is shown as 'due to customers on contracts in progress' and included under 'trade and other payables'. Amounts received before the related work is performed are shown as 'customer advances' and included under 'trade and other payables'. Retentions by customers are included under 'trade and other receivables'.

2.16 Income taxes

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

**LAND TRANSPORT AUTHORITY OF SINGAPORE
AND ITS SUBSIDIARIES**

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2017

2. Significant accounting policies (continued)

2.16 Income taxes (continued)

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable income or expenditure at the time of the transaction.

A deferred income tax liability is recognised on temporary differences arising on investments in subsidiaries, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Deferred income tax is measured:

- (a) at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date; and
- (b) based on the tax consequence that will follow from the manner in which the Group expects, at the balance sheet date, to recover or settle the carrying amounts of its assets and liabilities.

Current and deferred income taxes are recognised as income or expenses in income or expenditure, except to the extent that the tax arises from a business combination or a transaction which is recognised directly in equity. Deferred tax arising from a business combination is adjusted against goodwill on acquisition.

2.17 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

2.18 Employee compensation

Employee benefits are recognised as employee compensation expense when they are due, unless they can be capitalised as an asset.

(a) Central Provident Fund ("CPF") Contributions

Contributions on the Group's employees' salaries are made to the CPF as required by law. The CPF contributions are recognised as compensation expense in the period when the employees rendered their services.

(b) Pensions and gratuities

Provision for pensions and gratuities is made for the payment of retirement benefits to pensionable officers transferred to the Authority on 1 September 1995 and to expatriate officers who had opted for the gratuity scheme.

The cost of pension benefit due to pensionable officers is determined based on the estimated present value of the future cash outflows to be made in respect of services provided by these pensionable officers up to the balance sheet date.

(c) Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

2.19 Currency translation

(a) Functional and presentation currency

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Singapore Dollars, which is the functional currency of the Authority.

(b) Transactions and balances

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates at the dates of the transactions. Currency translation differences from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the balance sheet date are recognised in income or expenditure, unless they arise from borrowings in foreign currencies, other currency instruments designated and qualifying as net investment hedges and net investment in foreign operations. Those currency translation differences are recognised in other comprehensive income in the consolidated financial statements and transferred to income or expenditure as part of the gain or loss on disposal of the foreign operation.

Non-monetary items that are measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

2.19 Currency translation (continued)

(c) Translation of Group entities' financial statements

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) Assets and liabilities are translated at the closing rates at the date of the balance sheet;
- (ii) Income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated using the exchange rates at the dates of the transactions); and
- (iii) All resulting exchange differences are recognised in other comprehensive income.

2.20 Government grants

Government grants and external borrowings, in the form of unsecured bonds, finance the construction of the Authority's land transport infrastructure development projects.

Government grants received for the purchase or the construction of depreciable assets are accounted for as deferred capital grants. The deferred capital grants are amortised and charged to income or expenditure over the period necessary to match the annual depreciation charge of these assets or when the assets are disposed or written off. Where the grants relate to an expense item, it is recognised in income or expenditure when the expense is incurred over the periods necessary to match them on a systematic basis, to the costs, which it is intended to compensate.

Government grants are recognised where there is reasonable assurance that the grants will be received and all attaching conditions will be complied with.

Government grants receivable for the interest payments of unsecured bonds is recognised on an accrual basis.

2.21 Bus Service Enhancement Fund

The Bus Service Enhancement Fund was established in accordance to Section 13B of the Land Transport Authority of Singapore Act (Cap.158A) (the "Act"). The fund is ring-fenced for the specific purpose of improving and expanding the reliability of the bus services provided by bus service licensees and bus service operator licensees in Singapore. Receipts and expenditure relating to the fund are accounted for directly in this fund on an accrual basis. Details of receipts, expenditure, assets and liabilities are disclosed in Note 35.

2.22 Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents include cash on hand and deposits with financial institutions which are subject to an insignificant risk of change in value.

2.23 Dividends

Dividends to the Minister for Finance are recognised when the dividends are approved for payments.

3. Critical accounting estimates and assumptions

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Useful lives of property, plant and equipment

Property, plant and equipment ("PPE") are depreciated on a straight-line basis over their estimated useful lives. These include customised PPE which involve complex engineering and construction, and off-the-shelf PPE. The useful lives of the Group's PPE vary widely as disclosed in Note 2.4(b).

Due to the inherent nature of the customised PPE, significant judgment is required in determining if the customised PPE contain parts that have different useful lives. Given the significance of PPE to the Group's financial statements, errors in estimating the useful lives of PPE could result in a material misstatement to the financial statements.

As certain PPEs are funded by government grants, any misstatement in depreciation expense relating to these PPE would result in misstatement of the amortisation of the matching government grant in the Consolidated Statement of Comprehensive Income. As disclosed in the Consolidated Statement of Comprehensive Income, the depreciation expense of the Group amounted to \$837 million for the financial year ended 31 March 2017. Government grants amortised to match the depreciation expense of PPE funded by government grants amounted to \$692 million.

While there is no impact on the net deficit of the Group relating to the depreciation expense of PPE which are funded by government grants, the depreciation expense relating to PPE not funded by government grants amounted to \$145 million for the financial year ended 31 March 2017.

33. Financial risk management

Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, price risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management strategy seeks to minimise adverse effects from the unpredictability of financial markets on the Group's financial performance. The Group uses derivative financial instruments such as foreign currency contracts to manage certain financial risk exposures. Derivatives are used strictly for risk management purposes and they are designated as fair value through profit or loss at inception unless they are designated as hedging instruments.

Risk management is carried out under policies approved by the management. The management approves guidelines for overall risk management, as well as policies covering these specific areas, such as currency risk, interest rate risk, credit use, use of derivative financial instruments.

The Group's investments in financial assets, at fair value through profit or loss are either managed internally or externally by external fund managers. The external fund managers are given discretionary powers to invest the funds placed with them within certain guidelines set out by the management as part of the overall risk management.

(a) Market risk

(i) *Currency risk*

The Group is not exposed to significant currency risk as it transacts mainly in the Singapore Dollar ("SGD"), which is the functional currency of the Group. The Group, through its operations and investments, is exposed to foreign exchange risk arising mainly from the United States Dollar ("USD"), Euro ("EUR") and Japanese Yen ("JPY"). The Group monitors its foreign currency exchange risks closely and where appropriate, enters into foreign currency contracts to manage the currency exposure.

Currency risks arise from currency translation risk on the net assets of the Group's foreign operation in the People's Republic of China and unhedged transactions denominated in currencies other than the respective functional currencies of the entities in the Group.

The effects of changes in foreign currency exchange rates against the SGD on the net (deficit)/surplus and equity of the Group is insignificant.

(ii) *Price risk*

The Group is exposed to securities price risk arising from the investments held by the Group which are designated at fair value through profit or loss at inception. The Group's internally-managed portfolio is invested in Singapore equities while the externally-managed portfolios are invested in global equities. To manage its price risk arising from these investments, the Group diversifies its portfolio in accordance with investment guidelines and limits set by the Group for the portfolio.

(ii) Price risk (continued)

If prices for Singapore and global equities changes by 4% (2016: 11%) and 4% (2016: 6%) respectively, with all other variables including rate of contribution to Consolidated Fund and tax rate being held constant, the effect on surplus/deficit after tax will be:

(iii) Interest rate risks

Interest rate risk is the risk that the future cash flows of a financial instrument fluctuate because of changes in market interest rates. The Group is exposed to interest rate risk arising from fixed income securities with floating/variable interest rates that are held by the Group at fair value through profit or loss.

**LAND TRANSPORT AUTHORITY OF SINGAPORE

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2017

(a) Market risk (continued)

(iii) *Interest rate risks (continued)*

If interest rates increase/decrease by 0.05% (2016: 0.16%), with all other variables including rate of contribution to Consolidated Fund and tax rate being held constant, the Group's interest income will be higher/lower by \$349,421 (2016: \$580,278). The effect of a decrease/increase of interest rate on fixed income securities with fixed interest rate that are held by the Group at fair value through profit or loss are as follows:

	<u>Surplus/(deficit) after contribution to Consolidated Fund and income tax</u>	
	2017 \$'000	2016 \$'000
<u>Group and Authority</u>		
<i>Singapore Portfolio</i>		
- Increase by	156	233
- Decrease by	(156)	(233)
<i>Global Portfolio</i>		
- Increase by	-	6
- Decrease by	-	(6)

(b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligation resulting in financial loss to the Group. The major classes of financial assets of the Group and the Authority are cash and cash equivalents, trade and other receivables and financial assets, at fair value through profit or loss.

For trade receivables, the Group adopts the general policy of dealing with customers of appropriate credit history, and obtaining sufficient collateral where appropriate to mitigate credit risk. For other financial assets, the Group adopts the policy of dealing only with high credit quality counterparties such as reputable financial institutions. Concentrations of credit risk with respect to trade receivables are limited due to the Group's large number of customers. Due to these factors, management believes that no additional credit risk beyond the amount of allowance for impairment made is inherent in the Group's and Authority's trade receivables.

The Group has no significant concentrations of credit risk. The Group and Authority do not hold any collateral. The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the balance sheet.

33. Financial risk management (continued)

(b) Credit risk (continued)

(i) *Financial assets that are neither past due nor impaired*

Cash and cash equivalents that are neither past due nor impaired are mainly deposits with banks and financial institutions with high credit-ratings assigned by international credit-rating agencies. Financial assets, at fair value through profit or loss that are neither past due nor impaired are mainly investments in reputable companies. Trade and other receivables that are neither past due nor impaired are substantially receivables from Government or companies with a good collection track record with the Group.

(ii) *Financial assets that are past due and/or impaired*

(d) Capital risk

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to carry out its statutory functions. To achieve these objectives, the Group may secure grants from the Government, return capital to shareholders, issue new shares or obtain new borrowings.

The Group defines capital as its equity, deferred capital grants and borrowings. The Group monitors the 'net operating surplus/(deficits)'. There were no changes in the Group approach to capital management during the year.

The Group is not subject to any externally imposed capital requirements.

The fair value of financial instruments that are not traded in an active market (such as over-the-counter derivatives) is based on price quotes by dealers and/or valuation by banks. These investments are included in Level 2 and comprise debt securities and derivative financial instruments.

There are no financial instruments included under Level 3 as at balance sheet date. There are no movements between the different levels during the financial year.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of non-current borrowings approximates their carrying amount.

- (i) Majority of the Bus Service Enhancement Programme ("BSEP") improvements was implemented by end 2016, including 22 City Direct Bus Services (CDS) in operation by the Private Bus Operators (PBO).
- (ii) Under BSEP:
- (a) Operating subsidy is given to reimburse the operating costs incurred by the operator for the purpose of operating a BSEP Route.
- (b) Financing subsidy is given to cover depreciation and loan interest expenses for the buses relating to the expanded BSEP. The subsidies are given by way of set off against loan repayment, which will reduce the amount of loan receivables accordingly.
- (c) Except for the operating subsidy provided to the PBO running the CDS, the subsidies given to the Public Transport Operators (PTOs) for the programme had ceased after the transition to the Bus Contracting Model (BCM) on 1 September 2016.
- (iii) The assets and liabilities of the fund are excluded from the assets and liabilities of the Group and the Authority.

36. Collection of Government taxes, fees and charges

The Authority acts as an agent of the Government and provides service in administering, assessing, collecting and enforcing payment of various Government taxes, fees and charges such as Additional Registration Fees, Vehicle Quota Premium, Road Tax and ERP Charges. These Government taxes, fees and charges collected are paid into the Government Consolidated Fund and are not reflected in the Authority's financial statements.

37. New or revised accounting standards and interpretations

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 April 2017, and have not been applied in preparing these financial statements.

- SB-FRS 115 *Revenue from Contracts with Customers* (effective for annual periods beginning on or after 1 January 2018)

This is the converged standard on revenue recognition. It replaces SB-FRS 11 Construction contracts, SB-FRS 18 Revenue, and related interpretations. Revenue is recognised when a customer obtains control of a good or service. A customer obtains control when it has the ability to direct the use of and obtain the benefits from the good or service. The core principle of SB-FRS 115 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognizes revenue in accordance with that core principle by applying the following steps:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

SB-FRS 115 also includes a cohesive set of disclosure requirements that will result in an entity providing users of financial statements with comprehensive information about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

Based on management's preliminary assessment, management is of the view that the adoption of this new accounting standard will not result in a material impact to the financial statements.

37. New or revised accounting standards and interpretations (continued)

- SB-FRS 109 *Financial Instruments* (effective for annual periods beginning on or after 1 January 2018)

The complete version of SB-FRS 109 replaces most of the guidance in SB-FRS 39. SB-FRS 109 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through Other Comprehensive Income (OCI) and fair value through Profit or Loss. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in OCI. There is now a new expected credit losses model that replaces the incurred loss impairment model used in SB-FRS 39.

For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in OCI, for liabilities designated at fair value, through profit or loss.

SB-FRS 109 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes.

The new standard also introduces expanded disclosure requirements and changes in presentation.

Based on management's preliminary assessment, management is of the view that the adoption of this new accounting standard will not result in a material impact to the financial statements.

- SB-FRS 116 *Leases* (effective for annual periods beginning on or after 1 January 2019)

SB-FRS 116 will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases. The accounting for lessors will not change significantly.

The standard will affect primarily the accounting for the Group and the Authority's operating leases. As at the reporting date, the Group and the Authority has non-cancellable operating lease commitments of \$11,889,000 and \$9,303,000 respectively (Note 32). However, management has yet to determine to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Group and the Authority's surplus and classification of cash flows.

Some of the commitments may be covered by the exception for short-term and low-value leases and some commitments may relate to arrangements that will not qualify as leases under FRS 116.
