All of our assets and all of the assets of the Subsidiary Guarantors are located outside the United States. In addition, all of our directors and officers and the Subsidiary Guarantors' directors and officers are nationals or residents of countries other than the United States (principally, the PRC), and all or a substantial portion of such persons' assets are located outside the United States. As a result, it may be difficult for investors to effect service of process within the United States upon us, any of the Subsidiary Guarantors or such persons or to enforce against us or any of the Subsidiary Guarantors or such persons judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof.

We and each of the Subsidiary Guarantors expect to appoint Law Debenture Corporate Services Inc. as our and their respective agent to receive service of process with respect to any action brought against us or the Subsidiary Guarantors in the United States federal courts located in the Borough of Manhattan, The City of New York under the federal securities laws of the United States or of any state of the United States or any action brought against us or the Subsidiary Guarantors in the courts of the State of New York in the Borough of Manhattan, The City of New York under the securities laws of the State of New York.

We have been advised by our Cayman Islands legal advisors, Maples and Calder (Hong Kong) LLP, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the securities laws of the United States or any state and (ii) in original actions brought in the Cayman Islands, to impose liabilities against us, our directors or officers, any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) or their directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any state, on the grounds that such provisions are penal in nature. However, in the case of laws that are not penal in nature, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided that such judgment is final and conclusive, for a liquidated sum, not in respect of taxes or a fine or penalty, is not inconsistent with a Cayman Islands judgment in respect of the same matter, and was not obtained in a manner, and is not a kind the enforcement of which is, contrary to the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands court may stay proceedings if concurrent proceedings are being brought elsewhere.

We have been advised by our British Virgin Islands legal advisors, Maples and Calder (Hong Kong) LLP, that any final and conclusive monetary judgment of a competent foreign court for a definite sum against the Company in the courts of United States (the "**Foreign Court**"), for a definite sum, may be treated by the courts of the British Virgin Islands as a cause of action in itself so that no retrial of the issues would be necessary provided that in respect of the judgment of the Foreign Court: (i) the Foreign Court had jurisdiction in the matter and the Company either submitted to such jurisdiction or was resident or carrying on business within such jurisdiction and was duly served with process; (ii) the judgment given by the Foreign Court was not in respect of penalties, taxes, fines or similar fiscal or revenue obligations of the Company; (iii) in obtaining the judgment there was no fraud on the part of the person in whose favor judgment was given or on the part of the Foreign Court; (iv) recognition or enforcement of the judgment would not be contrary to British Virgin Islands public policy; and (v) the proceedings pursuant to which judgment was obtained were not contrary to natural justice.

We have been advised by our Hong Kong legal advisors, Sidley Austin, that Hong Kong has no arrangement for the reciprocal enforcement of judgments with the United States. However, under Hong Kong common law, a foreign judgment (including one from a court in the United States predicated upon U.S. federal or state securities laws) may be enforced in Hong Kong by bringing an action in a Hong Kong court, and then seeking summary or default judgment on the strength of the foreign judgment, provided that the foreign judgment is for a debt or definite sum of money and is final and conclusive on the merits. In addition, the Hong Kong courts may refuse to recognize or enforce a foreign judgment if such judgment:

- (a) was obtained by fraud;
- (b) was rendered by a foreign court that lacked the appropriate jurisdiction at the time (as determined by Hong Kong jurisdictional rules);
- (c) is contrary to public policy or natural justice;
- (d) is for multiple/penal damages;
- (e) is based on foreign penal, revenue or other public law;
- (f) falls within Section 3(1) of the Foreign Judgment (Restriction on Recognition and Enforcement) Ordinance; or
- (g) is inconsistent with a prior Hong Kong judgment or foreign judgment which is entitled to recognition in Hong Kong.

We have also been advised by our PRC legal advisors, Commerce & Finance Law Offices, that there is uncertainty as to whether the courts of China would (i) enforce judgments of U.S. courts obtained against us, our directors or officers, any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) or their directors or officers predicated upon the civil liability provisions of the U.S. federal or state securities laws or (ii) entertain original actions brought in China against us, our directors or officers, any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) or their directors or officers predicated upon the U.S. federal or state securities laws.

Overview

We are the largest real estate development company in China in terms of contracted sales and land reserves in 2016, according to China Real Estate Information Corporation and the land reserve data disclosed by relevant companies in their applicable stock exchange filings. Founded in Guangzhou City, Guangdong Province in 1996, we have become a leading national property developer through our economies of scale and widely recognized brand name, under the leadership of our management team. Over the years, our focus on a centralized management system, a standardized operational model and quality products have allowed us to quickly replicate our success across China. We focus primarily on provincial capitals and other selected cities that we believe have high-growth potential. We continue to improve our geographical mix by focusing on replenishment of quality land reserves and taking a balanced approach to the distribution of land reserves among first-, second- and third-tier cities. Our land reserves cover most of the provincial capitals and municipalities in China. Through our standardized operational model, we have been able to simultaneously manage projects in various development and sale stages in 209 cities across China as of December 31, 2016.

Our residential property development integrates planning, design, construction and property management and follows our standardized process management to ensure development speed and product quality. Proposed Reorganization and Strategic Investment

On October 3, 2016, two wholly-owned PRC subsidiaries of the Company, Guangzhou Kailong Real Estate Company Limited (“**Kailong Real Estate**”) and Hengda Real Estate Group Company Limited (“**Hengda Real Estate**”) entered into an agreement (the “**Cooperation Agreement**”), as amended on April 20, 2017 with, among others, Shenzhen Special Economic Zone Real Estate & Properties (Group) Co., Ltd. (“**Shenzhen Real Estate**”), pursuant to which, subject to entering into a definitive agreement, Shenzhen Real Estate will, by way of issue of Renminbi ordinary shares and/or the payment of cash consideration, acquire 100% of the equity interest in Hengda Real Estate (the “**Target Assets**”) from Kailong Real Estate. The acquisition will result in Kailong Real Estate becoming the controlling shareholder of Shenzhen Real Estate (the “**Proposed Reorganization**”) and will enable us to effectively list our real estate assets on the Shenzhen Stock Exchange A-share market.

The Cooperation Agreement provides, among others, the following:

- The parties will exercise their best endeavors to complete the Proposed Reorganization and the final scheme and transactional details of the Proposed Reorganization will be set out in a definitive agreement (the “**Reorganization Agreement**”).
- There will be an exclusive period to December 31, 2017 during which time the parties may not discuss or enter into any agreements with any other party in respect of transactions of the same or similar in nature as the Proposed Reorganization.
- The parties will enter into an agreement in respect of an undertaking on business performance of the Target Assets. Kailong Real Estate will, in accordance with the relevant provisions of applicable laws and regulations and regulatory documents as well as market practices, provide an undertaking on the business performance of the Target Assets for 2017, 2018 and 2019 (the “**Relevant Period**”), where the profits attributable to the shareholders of its parent company after deducting non-recurring gains and losses for the Relevant Period will amount to approximately RMB88.8 billion. If the actual profit of the Target Assets is less than such amount upon the expiry of the Relevant Period, Kailong Real Estate will, in compliance with the regulations of the regulatory authorities and in an approved manner, provide certain compensation for any shortfall in profit.
- The consideration for the Target Assets will be determined by the parties through consultation based on the appraised value of the assets as determined by a qualified valuer for securities transactions with such appraised value having been filed with and approved by the Shenzhen People’s Government State-owned Assets Administration Commission (“**Shenzhen SASAC**”), plus the additional cash earnings of Hengda Real Estate for the period between the valuation date and the date of the Reorganization Agreement.
- The issue price of the consideration shares by Shenzhen Real Estate to Kailong Real Estate will not be lower than 90% of the reference market price of the Shenzhen Real Estate shares. The reference market price will be the average closing prices of the Shenzhen Real Estate shares for one of the 20 trading days, 60 trading days or 120 trading days prior to the date of announcement by the board of Shenzhen Real Estate on their resolution on the Proposed Reorganization. The final issue price will be determined by the parties through consultation.
- Prior to the signing of the Reorganization Agreement, Hengda Real Estate may introduce strategic investments and that the parties involved in the Proposed Reorganization will be adjusted accordingly upon the introduction of any strategic investors.

- The Proposed Reorganization requires the following approvals: (1) the board of directors, the board of supervisors (if necessary), and the shareholders of Shenzhen Real Estate having approved the Proposed Reorganization, (2) the shareholders of Shenzhen Real Estate having approved Kailong Real Estate from making a general offer in respect of the Proposed Reorganization, (3) the Board and the shareholders of the Company having approved the Proposed Reorganization, (4) Shenzhen SASAC's having approved the valuation of the Target Assets and its filing, (5) the Shenzhen Municipal Government and the Shenzhen SASAC having approved the Proposed Reorganization, (6) the Proposed Reorganization having passed the anti-trust review by the Ministry of Commerce, (7) the China Securities Regulatory Commission having approved the Proposed Reorganization, (8) The Stock Exchange of Hong Kong Limited (the "**Hong Kong Stock Exchange**") having consented to the proposed spin-off and the granting of a waiver from exemption to provide the shareholders of the Company with an assured entitlement to the shares of Shenzhen Real Estate, and (9) approvals/filings from other competent authorities in accordance with applicable laws and regulations.

On December 30, 2016 and May 31, 2017, Kailong Real Estate and Hengda Real Estate entered into investment agreements (the "**Investment Agreements**") with certain investors (the "**Investors**") who agreed to subscribe for new capital of the enlarged equity interest in Hengda Real Estate for an aggregate amount of RMB70 billion (the "**Capital Increase**") in return of an aggregate of approximately 26.12% of the enlarged equity interest of Hengda Real Estate (the "**Strategic Investments**"). The purpose of the capital injection was to raise funds as well as to allow Shenzhen Real Estate to maintain its public float upon completion of the Proposed Reorganization.

The Investment Agreements provide, among others, the following:

- Kailong Real Estate and Hengda Real Estate have undertaken to the Investors that the net profit of Hengda Real Estate for the three financial years of 2017, 2018 and 2019 shall not be less than RMB24.3 billion, RMB30.8 billion and RMB33.7 billion, respectively (each a "**Performance Undertaking Amount**").
- Prior to the entering into of the Reorganization Agreement and subject to the dividend payment not adversely affecting the ability of Hengda Real Estate to continue to operate, Hengda Real Estate will distribute at least 68% of its net profit for each of the financial years under the Relevant Period to its shareholders. If the net profit of Hengda Real Estate for a financial year in the Relevant Period is less than the Performance Undertaking Amount for that financial year, the proportional dividend to be paid by Hengda Real Estate to the Investors will be adjusted upward by in accordance with the following formula: percentage ratio of the proportional dividend payable to the Investors *equals* (i) percentage of equity interest held by the Investors *divided by* (ii) actual net profit of Hengda Real Estate for that financial year/the Performance Undertaking Amount for that year. If the percentage ratio calculated by the formula is greater than 100%, then the distribution to the Investors will be based on 100%.
- The dividend payment arrangement will lapse upon the execution of the Reorganization Agreement. Upon the execution of the Reorganization Agreement, dividend payments will be made in accordance with the applicable requirements of the CSRC and the terms of the Reorganization Agreement. If, for any reasons, the Reorganization Agreement is terminated after its execution, Hengda Real Estate will make up for any shortfall in dividends paid to the Investors during the period between the execution of the Reorganization Agreement and its termination in accordance with the terms of the Investment Agreements.

- If the Proposed Reorganization as contemplated under the Reorganization Agreement is not completed by January 31, 2020 and the failure to complete is not attributable to the relevant Investor, the relevant Investor will have the right within two months of the expiry of such deadline to request Kailong Real Estate to either: (i) repurchase the equity interest held by the relevant Investor at its original investment cost; or (ii) transfer shares in Hengda Real Estate to the relevant Investor without consideration in accordance with the following formula as compensation: Percentage of equity in Hengda Real Estate to be transferred by Kailong Real Estate to the relevant Investor as compensation *equals* (a) Percentage interest in Hengda Real Estate held by the relevant Investor on the signing of the compensation agreement (excluding any additional interest acquired by the relevant Investor after the date of the relevant Investment Agreement) *times* (b) 50%.

The Proposed Reorganization constitutes a spin-off requiring the approval of the Hong Kong Stock Exchange. On January 24, 2017, the Company received in-principle approval for the proposed spin-off in relation to the Proposed Reorganization from the Hong Kong Stock Exchange. The Company may introduce further investors to Hengda Real Estate in the near future.

On the Original Issue Date, the Trustee will accede to the Intercreditor Agreement, whereupon the Holders of the Notes will share equal priority and *pro rata* entitlement in and to the Collateral with the holders of any Existing Pari Passu Secured Indebtedness remaining outstanding after the Original Issue Date and any other creditors with respect to Permitted Pari Passu Secured Indebtedness.

Notes:

- (1) EBITDA for any period consists of profit from operating activities before fair value gains on investment properties, interest income from non-current receivables, exchange gains/(losses) plus income tax expenses, depreciation, share option amortization, amortization of intangible assets and land use rights and interest expense. EBITDA is not a standard measure under HKFRS. EBITDA is a widely used financial indicator of a company's ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. See the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations — Non-GAAP Financial Measures" for a reconciliation of our profit for the year/period under HKFRS to our definition of EBITDA. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indentures governing the Notes. Interest expense excludes amounts capitalized. See the sections entitled "Description of 2021 Notes — Definitions," "Description of 2023 Notes — Definitions" and "Description of 2025 Notes — Descriptions" for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indentures governing the Notes.

- (2) EBITDA margin is calculated by dividing EBITDA by revenue.

Our business is subject to extensive governmental regulation. As with other PRC property developers, we must comply with various requirements mandated by the PRC laws and regulations, including the policies and procedures established by local authorities designed to implement such laws and regulations. In particular, the PRC government exerts considerable direct and indirect influence on the development of the PRC property sector by imposing industry policies and other economic measures, such as control over the supply of land for property development, control of foreign exchange, property financing, taxation and foreign investment. Through these policies and measures, the PRC government may restrict or reduce land available for property development, raise benchmark interest rates of commercial banks, place additional limitations on the ability of commercial banks to make loans to property developers and property purchasers, and impose additional taxes and levies on property sales and restrict foreign investment in the PRC property sector. Many of the property industry policies carried out by the PRC government are unprecedented and are expected to be refined and improved over time. Other political, economic and social factors may also lead to further adjustments and changes of such policies. As the residential property prices in certain cities in China rose rapidly in recent years, in order to prevent the overheating of the property market and the possible formation of a speculative bubble, the PRC government introduced a series of regulatory measures in an effort to stabilize the real estate market and facilitate its sustainable development, including raising the down payment ratio and residential mortgage loan interest rate, limiting the number of houses that a single household may purchase, increasing the supply of affordable housing to low- and middle-income families, increasing the supply of public housing to targeted populations, restricting foreign investments in properties in China, abolishing the preferential business tax treatment on transfer of ordinary housing within five years and launching new property tax schemes in certain cities. Recently, the property market in the PRC has witnessed signs of a slowdown, with some developers reported to have lowered prices in order to stimulate sales and some local governments reported to have relaxed property purchase restrictions previously imposed as cooling measures to help boost demand. We cannot assure you that the PRC government will not adopt additional and more stringent industry policies, regulations and measures in the future. For instance, the PRC government has reformed regulations replacing the business tax regime, which is levied on the total revenue of the company, with a value-added tax system, which assesses increments of new value created by the company, for the real estate sector in 2016 as part of China's major overhaul of its tax structure. In addition, the PRC government may impose a countrywide real estate tax in the future. We are not sure when or whether such tax reforms will be imposed and neither can we assess the adverse impact of such new tax policies on our business operations and financial results. If we fail to adapt our operations to such new policies, regulations and measures that may come into effect from time to time, our business prospects, results of operations and financial condition may be materially and adversely affected.

You should read the various risk factors under the section entitled “— Risks Relating to the Property Industry in China” below for more risks and uncertainties relating to the extensive PRC regulations.

We are highly dependent on the performance of the residential property markets in China, particularly in the regions where we have or will have operations.

Our business and prospects depend on the performance of the PRC residential property markets. Any housing market downturn in China generally or in the regions where we operate could adversely affect our business, results of operations and financial condition. As of December 31, 2016, we had 536 properties under development or held for future development across China located in 31 provinces and municipalities and 209 cities. As of December 31, 2016, based on our GFA under development, Sichuan Province constituted our largest regional property market in China, with considerable GFA under development concentrated in Baoding City, Hebei Province. Over-concentration of our properties under development within any particular city or region, such as Baoding City, during any protracted period of time may expose us to more regional risks. Any adverse developments in regional economies where we have significant operations could have a material adverse effect on our results of operations and financial condition.

The market experienced fluctuations in property prices during the past few years. There have been increasing concerns over housing affordability and sustainability of market growth. In addition, demand for properties in China has been adversely affected and will continue to be so affected by the macro-economic control measures implemented by the PRC government and the recent and potential future global economic downturns. You may find more detailed risk factors relating to the PRC government control measures in the property sector in the section entitled “— Risks Relating to the Property Industry in China,” especially under “— The PRC government may adopt further measures to slow down growth in the property sector.” We cannot assure you that the demand for new residential properties in geographical locations where we have or will have operations will continue to grow in the future or that there will not be over-development or market downturn in the domestic residential property sector. Any such adverse development and the ensuing decline in property sales or decrease in property prices in China may materially and adversely affect our business and financial condition.

We may be adversely affected by fluctuations in the global economy and financial markets.

The global economic slowdown and turmoil in the global financial markets that started in the second half of 2008 have had a negative impact on the world economy, which in turn affected the PRC real estate industry and many other industries. Subsequently, global markets and economic conditions were adversely affected by the credit crisis in Europe, the credit rating downgrade of the United States and heightened market volatility in major stock markets. In June 2016, the United Kingdom held a remain-or-leave referendum on its membership within the European Union, the result of which favored the exit of the United Kingdom from the European Union (“**Brexit**”). A process of negotiation will determine the future terms of the United Kingdom’s relationship with the European Union, as well as whether the United Kingdom will be able to continue to benefit from the European Union’s free trade and similar agreements. Given the lack of precedent, it is unclear how Brexit would affect the fiscal, monetary and regulatory landscape within the United Kingdom, the European Union and globally. This event has resulted in a downgrade of the credit ratings of the United Kingdom and the uncertainty before, during and after the period of negotiation may also create a negative economic impact and increase volatility in global markets.

The outlook for the world economy and financial markets remains uncertain. In Europe, several countries are facing difficulties in refinancing sovereign debt. In the United States, the unemployment rate remains relatively high. In Asia and other emerging markets, some countries are expecting increasing inflationary pressure as a consequence of liberal monetary policy or excessive foreign fund inflow and outflow, or both. In the Middle East, Eastern Europe and Africa, political unrest in various countries has resulted in economic instability and uncertainty. China’s economic growth may slow due to weakened exports and nationwide structural reforms. Moreover, as the PRC is transitioning to a consumption-based economy, the forecast growth rate of the PRC is expected to be significantly lower than its average growth rate over the past thirty years.

These and other issues resulting from the global economic slowdown or uncertainty and financial market turmoil have adversely affected, and may continue adversely affecting, homeowners and potential property purchasers, which may lead to a decline in the general demand for our products and erosion of their sale prices. In addition, any further tightening of liquidity in the global financial markets may negatively affect our access to capital and liquidity. Therefore, if the global economic slowdown and turmoil in the financial markets continue, our business, financial condition and results of operations may be adversely affected.

We face risks associated with the Proposed Reorganization and Strategic Investments.

In 2016, we announced the Proposed Reorganization and related Strategic Investments. For more information see “Summary — Proposed Reorganization and Strategic Investments.”

The Proposed Reorganization and Strategic Investments involve a number of risks, including without limitation the following:

- uncertainty over whether the Proposed Reorganization can be consummated in a timely manner, or at all;
- we may be unable to satisfy certain undertakings in the Reorganization Agreement which could result in the payment of compensation or other adverse consequences;
- we may not be able to satisfy the Performance Undertaking Amount and distribute in which case we could be required to compensate the Strategic Investors;
- risks associated with the ability of our PRC subsidiaries to pay dividends to fund our cash and financing requirements and/or to provide onshore guarantees or security for offshore credit (*nei bao wai dai*) (see “— We rely principally on dividends paid by, and guarantees or security provided by, our subsidiaries to fund our cash and financing requirements, and any limitation on the ability of our PRC subsidiaries to pay dividends to us or provide guarantees or security for our benefit could have a material adverse effect on our ability to conduct our business”);
- if we fail to complete the Proposed Reorganization by January 31, 2020, we could be required to repurchase the Hengda Real Estate equity owned by Strategic Investors and/or issue them additional equity; and
- risks generally associated with acquisitions including those described in “— Our growth strategy includes growth via acquisitions which entail risks.”

We cannot assure you that we will be able to successfully complete the Proposed Reorganization or that the Proposed Reorganization and Strategic Investments will perform as planned or prove to be beneficial to our operations and cash flow. Each of these factors may have a material effect on our business, results of operations, financial condition and prospect.

If we are unable to comply with the restrictions and covenants in our debt agreements or the Indentures, there could be a default under the terms of these agreements or the Indentures, which could cause repayment of our debt to be accelerated.

If we are unable to comply with the restrictions and covenants in the Indentures or our current or future debt obligations and other agreements, there could be a default under the terms of these agreements. For example, some of the instruments in which the Company is a guarantor require the lending bank’s prior consent before the Company can pledge or dispose of part or all of its material assets. We believe that we have obtained all necessary consents for pledging or disposing of our material assets, but we cannot assure you that the lending banks will have the same view. In the event of

a default under these agreements, the holders of the debt could terminate their commitments to lend to us, accelerate repayment of the debt and declare all outstanding amounts due and payable or terminate the agreements, as the case may be. Furthermore, some of our debt agreements, including the Indentures and each of the indentures governing our Existing Notes, contain cross-acceleration or cross-default provisions. As a result, our default under one debt agreement may cause the acceleration of repayment of not only such debt but also other debt, including the Notes or the Existing Notes, or result in a default under our other debt agreements, including the Indentures and each of the indentures governing our Existing Notes and certain other loan agreements containing cross-default provisions. From time to time, we may have defaulted under certain of our facilities, which may in turn trigger the cross-default provisions under our other facilities, and we may be required to work with our lenders to obtain consents and waivers with respect to these defaults and cross-defaults. We cannot assure you that a default or cross-default will not exist at any time or can be cured on time or at all. If any cross-default is triggered or any of the other defaults occurs and the relevant indebtedness is accelerated, which may in turn cause an acceleration of repayment of the Notes and the Existing Notes, we cannot assure you that our assets and cash flow would be sufficient to repay in full all of our indebtedness, or that we would be able to find alternative financing. Even if we could obtain alternative financing, we cannot assure you that it would be on terms that are favorable or acceptable to us.

We have substantial indebtedness and a deterioration of our cash flow position could materially and adversely affect our ability to service our indebtedness and to continue our operations.

We maintain a significant level of indebtedness to finance our operations. As of December 31, 2014, 2015 and 2016, our aggregate outstanding borrowings were RMB156,064 million, RMB296,906 million and RMB535,070 million (US\$77,066 million), respectively. Our total borrowings described above do not include our guarantees or indemnity obligations in respect of mortgage facilities for certain purchasers of our property units of approximately RMB102,698 million, RMB141,591 million and RMB252,128 million (US\$36,314 million) as of December 31, 2014, 2015 and 2016, respectively. Also, our total borrowings do not include our guarantees for borrowings of independent third parties having continuous business relationship with us, which is approximately NIL, RMB3,448 million and RMB6,056 million (US\$872 million) as of December 31, 2014, 2015 and 2016, respectively. Out of our total borrowings of RMB535,070 million (US\$77,066 million) as of December 31, 2016, RMB202,906 million (US\$29,225 million) was due within a period not exceeding one year, approximately RMB319,967 million (US\$46,085 million) was due within a period of more than one year but not exceeding five years, and approximately RMB12,197 million (US\$1,757 million) was due within a period of more than five years. Subsequent to December 31, 2016 and up to May 31, 2017, we incurred additional material borrowings (net of repayments) in the aggregate amount of not less than RMB100 billion (US\$14 billion). See also “Description of Material Indebtedness and Other Obligations.” We have incurred and will continue to incur a significant amount of interest expense in relation to our bank and other borrowings, the Existing Notes, the Notes and other financing arrangements. Most of this interest expense has been or will be capitalized as a part of the properties under development rather than being recorded as expense in our income statement upon their incurrence. Accordingly, such capitalized interest expenses may adversely affect our gross profit margin upon recognition of the sales of the relevant properties in future periods.

We also recorded net operating cash outflow in the year ended December 31, 2016 and for the three years ended December 31, 2014, 2015 and 2016. The PRC governmental policies in the property sector will continue to exert pressure on our operating cash flow. The PRC government requires that a land grant contract be entered into within 10 working days after the closing of the land grant, and that the down-payment of 50% of the land premium be paid within one month of signing the land grant contract, with the remaining to be paid in full according to the terms and conditions of the land grant contract and under all circumstances within one year of the date of land grant contract. We cannot assure you that we will be able to generate sufficient cash flow from operations to support the repayment of our current indebtedness. Some of our financing arrangements also contain provisions that the relevant lender has an overriding right to demand repayment at any time. If we are unable to make scheduled payments in connection with our debt and other fixed payment obligations as they become

due or upon the demand of the relevant lenders before the due date of the relevant financing arrangements, we may need to renegotiate the terms and conditions of such obligations or to obtain additional equity or debt financing. We cannot assure you that our renegotiation efforts would be successful or timely or that we would be able to refinance our obligations on acceptable terms or at all. If financial institutions decline to lend additional funds to us or to refinance our existing loans when they mature as a result of our credit risk and we fail to raise financing through other means, our financial condition, cash flow position and our business prospects may be materially and adversely affected.

In addition, some of our financing arrangements contain provisions that may not work to our advantage if we encounter difficulties in servicing our debt obligations. For example, the Indentures and Existing Indentures define “events of default” in a broad manner and contain cross-default provisions that will make a default under one debt a default under the other debt, including the Notes and the Existing Notes. You may find additional information relating to “events of default” under the Notes and the Existing Notes in the sections entitled “Description of 2021 Notes — Events of Default,” “Description of 2023 Notes — Events of Default,” “Description of 2025 Notes — Events of Default” and “Description of Material Indebtedness and Other Obligations.”

We cannot assure you that we will be able to maintain the relevant financial ratios under our financing agreements from time to time and that will not default. If we are unable to obtain forbearance or waiver arrangements with the relevant lenders and upon occurrence of any default, event of default or cross-default in the future, this could lead to, among other things, an acceleration in our debt obligations, which could in turn have a material adverse effect on our financial condition. See “— If we are unable to comply with the restrictions and covenants in our debt agreements or the Indentures, there could be a default under the terms of these agreements or the Indentures, which could cause repayment of our debt to be accelerated.”

We rely principally on dividends paid by, and guarantees or security provided by, our subsidiaries to fund our cash and financing requirements, and any limitation on the ability of our PRC subsidiaries to pay dividends to us or provide guarantees or security for our benefit could have a material adverse effect on our ability to conduct our business.

We are a holding company and rely principally on dividends paid by our subsidiaries for cash requirements, including the funds necessary to service any debt we incur and to pay any dividend we declare. If any of our subsidiaries incurs debt in its own name, the instruments governing the debt may restrict dividends or other distributions on its equity interest to us. Currently, some of the instruments governing the debt for our PRC subsidiaries contain restrictions that require our PRC subsidiaries to obtain the lending banks’ approval prior to distributing any dividends. Such restrictions may adversely affect the calculation of our Consolidated EBITDA, and in turn our ability to undertake additional financing, investment or other transactions under the terms of the Notes. In addition, the shares and assets, including dividends derived from these shares, of certain of our subsidiaries are pledged to secure some of our indebtedness. Furthermore, applicable PRC laws, rules and regulations permit payment of dividends by our PRC subsidiaries on a combined basis only out of their retained earnings, if any, determined in accordance with the PRC accounting standards.

Our ownership interest in Hengda Real Estate, which holds the Target Assets, was reduced from 100% to 73.88% following the Strategic Investments and our beneficial ownership interest in the Target Assets will be further reduced if the Proposed Reorganization is completed. After such time, our proportional interest in any dividends paid by Hengda Real Estate will be reduced. Furthermore, any dividend payments on the Target Assets through its new holding company, Shenzhen Real Estate, may be subject to restrictions or limitations imposed by, or be required to obtain approvals pursuant to, its charter or organizational documents, relevant laws and regulations and/or the Shenzhen Stock Exchange. In addition, as a listed company in the PRC, Shenzhen Real Estate and its subsidiaries may be subject to restrictions on providing onshore guarantees or security for offshore credit (*nei bao wai dai*), which we use to fund also use to fund our offshore cash and financing requirements. On April 12, 2017, Hengda

Real Estate and its related subsidiaries entered into ten project agreements pursuant to which the Fund Manager will invest RMB10.9 billion in Hengda Real Estate and its related subsidiaries on the project level. Furthermore, pursuant to the terms of the Investment Agreements, Hengda Real Estate is required to distribute at least 60% of its net profit for each of the financial years in the Relevant Period to its shareholders, and if the net profit of Hengda Real Estate for a financial year in the Relevant Period is less than the Performance Undertaking Amount for that financial year, the proportional dividend to be paid by Hengda Real Estate to the Investors will be adjusted upward. In addition, if the Proposed Reorganization is not completed by January 31, 2020, the Investors and any additional investors in Hengda Real Estate will have the right to request Kailong Real Estate to either repurchase their equity interest at the original investment cost or transfer shares in Hengda Real Estate to them without consideration, which could reduce our proportional interest in dividends paid by Hengda Real Estate and negatively affect our liquidity. See “Summary — Proposed Reorganization and Strategic Investment” and “— Recent Developments.”

Our PRC subsidiaries are required to set aside a certain percentage of their after-tax profit based on PRC accounting standards each year for their reserve fund in accordance with the requirements of relevant laws and provisions in their respective articles of associations. As a result, our PRC subsidiaries combined may be restricted in their ability to transfer any portion of their net income to us whether in the form of dividends, loans or advances. Any limitation on the ability of our subsidiaries to pay dividends to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends, service our debts or otherwise fund and conduct our business. Under the PRC Enterprise Income Tax Law and its implementation regulations, PRC income tax at the rate of 10% is applicable to dividends paid by PRC enterprises from their earnings derived since January 1, 2008 to “non-resident enterprises” (non-PRC enterprises that do not have an establishment or place of business in China, or that have such establishment or place of business but the relevant income is not effectively connected with such establishment or place of business) subject to any lower withholding tax rate as may be contained in any applicable income tax treaty or agreement that China has entered into with the government of the jurisdiction where such “non-resident enterprises” were incorporated. Provided that we or our non-PRC subsidiaries are considered “non-resident enterprises” under the PRC tax law, any dividend that we or any such non-PRC subsidiary receive from our PRC subsidiaries will be subject to PRC taxation at the 10% rate unless any lower treaty rate is applicable.

We may not have adequate financing to fund our land acquisitions and property developments.

Property development is capital intensive. We have financed our property projects primarily through our shareholders’ contributions, bank and other borrowings, pre-sale proceeds of properties under development, proceeds from the sale of completed properties, funds raised from the capital markets such as our issuance of the Existing Notes and share placements. Our ability to obtain adequate financing for land acquisition and property development on terms which will allow us to achieve a reasonable return is dependent on a number of factors that are beyond our control, such as general economic conditions, our financial strength and performance, credit availability from financial institutions, cost of borrowing, as well as monetary policies in China and PRC regulations relating to the property sector. We cannot assure you that we will always be able to meet our sales target or the PRC government will not limit our access to capital, our flexibility and ability to use bank loans or other forms of financing to finance our property development. In November 2009, the PRC government raised the minimum down-payment of land premium to 50%. In March 2010, the PRC government further tightened this requirement by setting the minimum land premium at no less than 70% of the prevailing price at the locality of the land parcel granted, and the bidding deposit at not less than 20% of such minimum land premium. Currently, the PRC government requires that a land grant contract must be entered into within 10 working days after the closing of the land grant, and the down-payment of 50% of the land premium must be paid within one month of signing the land grant contract, with the remaining to be paid in full within one year of the date of the land grant contract. Such change in policy may constrain our cash otherwise available for additional land acquisition and construction. The PRC government could also introduce other initiatives that may further limit our access to capital, and/or

consequently reduce our flexibility and ability to use bank loans or other forms of financing to finance our acquisitions and property developments, such as restricting the grant or extension of revolving credit facilities to property developers that hold a large amount of idle land and vacant commodity properties, prohibiting commercial banks from taking commodity properties that have been vacant for more than three years as security for mortgage loans, and forbidding property developers from using borrowings obtained from any local banks to fund property developments outside that local region. In addition, in April 2010, the State Council of the PRC (中華人民共和國國務院), or the State Council, issued the Notice on Resolutely Curbing the Excessive Hike of Property Prices in Some Cities 《國務院關於堅決遏制部分城市房價過快上漲的通知》, which mandates that developers who hold idle land or speculate in land will not be granted bank loans for the development of new property projects. In September 2010, People's Bank of China (中國人民銀行), the central bank of China, or the PBOC, and China Banking Regulatory Commission (中國銀行業監督管理委員會), or the CBRC, jointly issued a notice to prohibit banks from lending to any property developer for its new projects or renewal of its existing loans if such developer has a track record of maintaining idle land, changing the use and nature of land without proper approval, delaying the construction commencement or completion date, hoarding properties or other non-compliance. We cannot assure you that we will be able to secure adequate financing to fund our land acquisitions (including any unpaid land premium for past acquisitions), to finance our project construction or to renew our existing credit facilities prior to their expiration. If we are unable to secure adequate financing, or if the PRC government adopts further restrictive credit policies in the future, this may materially and adversely affect our business, financial condition and results of operations.

Changes in interest rates may increase our financing costs.

Changes in interest rates have affected and will continue to affect our financing costs and, ultimately, our results of operations. The benchmark one-year bank lending rates published by the PBOC for the years ended December 31, 2014, 2015 and 2016 were 5.60%, 4.35% and 4.35%, respectively. As of December 31, 2016, the average annualized interest rate on our outstanding Renminbi borrowings was 8.45%, and the average annualized interest rate on our outstanding foreign currency borrowings was 4.07%. Interest expenses of borrowings we incurred in the years ended 2014, 2015 and 2016 were RMB13,649 million, RMB20,295 million and RMB31,668 million (US\$4,561 million), respectively. On July 20, 2013, pursuant to the Notice on Further Promoting the Market-oriented Interest Rate Reform 《中國人民銀行關於進一步推進利率市場化改革的通知》, the PBOC abolished the regulation of the benchmark lending rates for financial institutions and began allowing lending rates to be determined by financial institutions pursuant to market principles. We cannot assure you that financial institutions will not raise lending rates or that interest rates for U.S. dollar loans will not fluctuate significantly, and we cannot assure you that the PBOC will not take more stringent measures to increase the rates in the future. We have also not hedged against any of our interest rate exposure. Any further increase in these rates will increase our financing cost and may materially and adversely affect our business, financial condition and results of operations.

We may not always be able to obtain land reserves that are suitable for our future property development.

We derive our revenue principally from the sale of properties that we have developed. To have a steady stream of developed properties available for sale and continuous growth in the long term, we need to replenish and increase our land reserves that are suitable for development. We acquire land primarily through government-organized auction and the listing-for-sale process, and by acquiring equity interests in project companies that hold land use rights and by participating in the PRC government's redevelopment policies programs. Our ability to identify and acquire suitable development sites is subject to a number of factors, some of which are beyond our control, such as the overall economic conditions, our effectiveness in identifying and acquiring land parcels suitable for development and competition for such land parcels. The availability of substantially all of the land in China is controlled by the PRC government. Thus the PRC government's land policies have a direct impact on our ability to acquire land use rights for development and our costs of acquisition. In recent years, the PRC central and local governments have implemented various measures to regulate the means by which property

developers obtain land for property development. The PRC government also controls land supply through zoning, land usage regulations and other means. All these measures further intensify the competition for land in China among property developers.

In March 2010, the PRC Ministry of Land and Resources issued the Circular on Strengthening Real Estate Land Supply and Supervision 《關於加強房地產用地供應和監管有關問題的通知》, under which the minimum price for a given land transfer is required to be equal to at least 70% of the benchmark price for land in the surrounding locality and the bidding deposit for such land transfer is required to be equal to at least 20% of the applicable minimum transfer price. Property developers are also required to pay 50% of the land premium (including any deposits previously paid) as a down-payment within one month of signing a land grant contract and pay the remaining land premium in full within one year from the date of the land grant contract. In addition, in September 2010, the PRC Ministry of Housing and Urban-Rural Development (中華人民共和國住房和城鄉建設部), formerly known as PRC Ministry of Construction (中華人民共和國建設部), or MOHURD, issued the Notice On Further Strengthening the Administration and Control of Real Estate Land and Construction 《關於進一步加強房地產用地和建設管理調控的通知》, which stipulates, among other things, that the planning and construction conditions and land use standards should be specified when a parcel of land is to be granted, and the restrictions on the area of any parcel of land granted for commodity properties should be strictly implemented. The development and construction of large low-density residential properties should be strictly restricted, and the plot ratio for residential land is required to be more than 1.0. In addition, a property developer and its shareholders will be prohibited from participating in any bidding to acquire additional land until any illegal behavior in which it has engaged, such as leaving its land idle for more than one year, has been completely rectified.

On June 1, 2012, the Ministry of Land and Resources promulgated the revised Measures on the Disposal of Idle Land 《閒置土地處置辦法》, which provide that, if any land parcel constitutes “idle land” due to government-related action, the holder of the relevant land use rights is required to explain to the relevant municipality or county-level land administrative department(s) the reasons for the land becoming idle, consult the relevant governmental authorities and rectify the situation accordingly.

The means of rectification include the extension of the period permitted for commencing development, the adjustment of the land use and planning conditions, and the substitution of the relevant idle land parcels with other land parcels.

On November 5, 2012, the Ministry of Land and Resources, the PRC Ministry of Finance, the PBOC and the CBRC jointly promulgated the Notice on Strengthening Land Reserves and Financing Administration 《關於加強土地儲備與融資管理的通知》 in order to strengthen land bank administration, determine the reasonable scale and structure of land bank, strengthen the administration of land pre-development, reservation and protection, and regulate the financing of land reservation and the use of land reservation funds.

On February 2, 2016, the Ministry of Land and Resources, the MOF, the PBOC and the CBRC jointly promulgated the Circular on Issues Concerning the Standardization of Land Reserve and Fund Management 《關於規範土地儲備和資金管理等相關問題的通知》 in order to further standardize land reserve behaviors and adjust financing methods for land reservation.

The implementation of these regulations may increase land transfer prices and require property developers to maintain a higher level of working capital.

If we fail to acquire sufficient land reserves suitable for development in a timely manner and at acceptable prices, our prospects and competitive position may be adversely affected and our business strategies, growth potential and performance may be materially and adversely affected.

We may forfeit land to the PRC government if we fail to comply with the terms of the land grant contracts.

Under PRC laws, if we fail to develop a property project according to the terms of the land grant contract, including those relating to the payment of land premium, demolition and resettlement costs and other fees, specified usage of the land and the time for commencement and completion of the property development, the PRC government may issue a warning, impose a penalty and/or liquidated damages, and/or order us to forfeit the land. Under the current PRC laws and regulations, if we fail to pay any outstanding land premium by the stipulated deadline, we may be subject to a late payment penalty calculated on a per-day basis. As of December 31, 2016, we had outstanding land premiums with respect to a small number of projects which we had not paid based on the underlying land grant contracts. We have obtained the relevant local governments' approvals to either extend the payment of the outstanding land premiums or pay such outstanding land premiums in installments, except for several projects that we are in discussions with the relevant local governments regarding their potential re-zoning plans. We cannot assure you that we will be able to secure similar government approvals if we fail to pay land premiums in the future. Currently, the PRC government requires that a land grant contract must be entered into within 10 working days after the closing of the land grant, and the down-payment of 50% of the land premium must be paid within one month of signing the land grant contract, with the remaining to be paid in full within one year of the date of land grant contract. Such policies may materially and adversely affect our ability to make timely payment of land premiums.

In addition, if we fail to commence development of a property project within the stipulated period as required under the current PRC laws without the approval from the relevant PRC land authorities, the relevant PRC land bureau may serve a warning notice on us and impose idle land fees up to 20% of the land premium unless such failure is caused by a government action or a force majeure event. The Notice on Promoting Economization of Land Use 《關於促進節約集約用地的通知》 issued by the State Council in January 2008 further confirmed the idle land fee at 20% of the land premium. If we fail to commence such development for more than two years, the land is subject to forfeiture to the PRC government unless the delay in development is caused by government actions or force majeure. Even if the commencement of the land development complies with the land grant contract, if the developed GFA on the land is less than one-third of the total GFA of the project or if the total capital expenditure is less than 25% of the total investment of the project and the suspension of the development of the land is more than one year without government approval, the land will still be treated as idle land. Furthermore, the Ministry of Land and Resources issued a Notice on Restricting the Administration of Construction Land and Promoting the Use of Approved Land 《關於嚴格建設用地管理促進批而未用土地利用的通知》 in August 2009, which reiterates the current rules regarding idle land. In September 2010, the Ministry of Land and Resources and the MOHURD jointly issued the Notice On Further Strengthening the Administration and Control of Real Estate Land and Construction 《關於進一步加強房地產用地和建設管理調控的通知》, which provides that a property developer and its shareholders will be prohibited from participating in land bidding before any illegal behavior in which it engages, such as (1) having land idle for more than one year due to its own reasons; (2) illegal transfer of land use rights; (3) noncompliance with the land development requirements specified in a land grant contract; and (4) crimes such as taking land by forging official documents and illegal land speculation, has been completely rectified. We cannot assure you that circumstances leading to imposition of penalty, liquidated damages or forfeiture of our land will not arise in the future. If we are required to pay substantial idle land fees, our results of operations and our reputation may be adversely affected. If we forfeit land, we will not only lose the opportunity to develop the property projects on such land, but may also lose all our investments in the land, including land premiums paid and development costs incurred.

We are exposed to pre-sale related contractual and legal risks.

We make certain undertakings in our pre-sale contracts. These pre-sale contracts and PRC laws and regulations provide for remedies with respect to any breach of such undertakings. For example, if we pre-sell a property project and we fail to complete that property project, we will be liable to the purchasers for their losses. Should we fail to complete a pre-sold property project on time, our

purchasers may seek compensation for late delivery pursuant to either their contracts with us or PRC laws and regulations. If our delay extends beyond a specified period, our purchasers may terminate the pre-sale contracts and claim compensation. We cannot assure you that we will not experience delays in completion and delivery of our projects, which may have a material adverse effect on our business, financial condition and results of operations.

Our business will be adversely affected if mortgage financing becomes more costly or otherwise less attractive or available.

Substantially all of the purchasers of our residential properties rely on mortgages to fund their purchases. An increase in interest rates may significantly increase the cost of mortgage financing and affect the affordability of residential properties. In addition, the PRC government and commercial banks may increase the down-payment requirements, impose other conditions or otherwise change the regulatory framework in a manner that would make mortgage financing unavailable or unattractive or less available or less attractive to potential property purchasers.

Over the years, the PRC government has promulgated a range of laws, regulations and government policies regarding mortgage financing as a means to regulate the PRC property market. While the intent of these has generally been to reduce perceived speculation in the property market, during the global financial crisis the PRC government implemented a number of measures designed to stimulate the economy, including lowering the down payment requirements for purchasing residential properties and PBOC benchmark bank lending rates. However, since the fourth quarter of 2009, the PRC government has again enacted policies intended to restrain property purchases for investment or speculation purposes and to keep property prices from rising too quickly. Measures include requiring and adjusting the minimum down payment for the acquisition of residential properties, requiring and adjusting the minimum mortgage loan interest rate for purchases of residential properties, requiring commercial banks to suspend mortgage loans to customers for purchase of multiple residential properties.

For commercial property buyers, PRC banks are not allowed to finance the purchase of any pre-sold properties. The minimum down-payment for commercial property buyers has been increased to 50% of the purchase price, with minimum mortgage loan interest rates at 110% of the relevant PBOC benchmark one-year bank lending interest rate and maximum maturities of no more than 10 years. In addition, mortgagee banks may not lend to any individual borrower if the monthly repayment of the anticipated mortgage loan would exceed 50% of the individual borrower's monthly income or if the total debt service of the individual borrower would exceed 55% of such individual's monthly income. Since 2013, as a result of foregoing factors, PRC banks have generally tightened mortgage lending, which had affected the demand in the property market in general. Since September 2016, certain local governments including without limitation Beijing, Shanghai, Guangzhou, Shenzhen, Tianjin, Suzhou, Zhengzhou, Wuxi, Hefei, Wuhan, Nanjing, Fuzhou, Foshan, Dongguan, Huizhou and Hangzhou have issued new property market control policies, including restoring or strengthening the restriction on purchases of residential properties and tightening credit policy. Our business, financial condition and results of operations may therefore be adversely affected. Property purchasers in the PRC have been and will continue to be affected by these regulations and their amendments as may be made thereto from time to time.

We cannot assure you that the PRC government will not further increase down payment requirements, impose other conditions or otherwise change the regulatory framework in a manner that would make mortgage financing unavailable or unattractive to potential property purchasers. Nor can we assure you that such regulatory changes would not adversely affect our business, financial condition and results of operations.

In addition, in line with industry practice, we provide guarantees to banks for mortgages they offer to our purchasers up until the relevant property and the individual property ownership certificates with respect to the relevant properties are issued to our purchasers and the mortgage registrations for the relevant properties have been completed. If there are changes in laws, regulations, policies and practices

that would prohibit property developers from providing guarantees to banks in respect of mortgages offered to property purchasers and the banks would not accept any alternative guarantees by third parties, or if no third party is available or willing in the market to provide such guarantees, it may become more difficult for property purchasers to obtain mortgages from banks and other financial institutions during sales and pre-sales of our properties. Such difficulties in financing could result in a substantially lower rate of sale and pre-sale of our properties, which would materially and adversely affect our cash flow, financial condition and results of operations.

Intensified competition might adversely affect our business and our financial position.

In recent years, many property developers, including overseas developers and State-owned developers have aggressively competed in the PRC property development market, including in Guangdong Province and other regions of China where we have operations. Competition among property developers may cause an increase in land premiums and raw material costs, shortages in quality construction contractors, a surplus in property supply leading to decreasing property prices, further delays in the issue of government approvals and higher costs to attract or retain talented employees.

Moreover, residential property markets across China are influenced by various other factors, including changes in economic conditions, banking practices and consumer sentiment. If we fail to compete effectively or to adapt to the changes in market conditions, our business operations and financial condition will be materially and adversely affected.

Potential liability for environmental damages could result in substantial outflow of our resources.

We are subject to a variety of laws and regulations concerning the protection of health and environment. The particular environmental laws and regulations that apply to any given project development site vary according to the site's location, the site's environmental condition, the present and former uses of the site, as well as adjoining properties. Efforts taken to comply with environmental laws and regulations may result in delays in development, cause us to incur substantial compliance costs and can prohibit or severely restrict project development activity in environmentally-sensitive regions or areas. We cannot predict the impact of unforeseeable environmental contingencies on new or changed laws or regulations on our existing projects or properties that we may develop in the future.

As required by PRC laws and regulations, each project we develop is required to undergo environmental assessments and we are required to submit an environmental impact assessment report to the relevant governmental authorities for approval before commencement of its construction. According to the PRC Environment Impact Assessment Law 《中華人民共和國環境影響評價法》 as amended on July 2, 2016, the intensity of environmental supervision and law enforcement has increased. If a real estate developer required to submit an environmental impact assessment report or an environmental impact analysis table has not obtained the approval from the relevant governmental authorities before commencement of the construction, more severe punishment will be imposed on the developer, including a fine equal to 1% to 5% of the total investment amount of the project, and an order to restore the original conditions before the construction. Although the environmental audits conducted by the relevant PRC environmental protection agencies to date have not revealed any environmental violations that we believe would have a material adverse effect on our business, financial condition or results of operations, it is possible that there are potential material environmental liabilities of which we are unaware. In addition, we cannot ensure that our operations will not result in environmental liabilities or that our contractors will not violate any environmental laws and regulations in their operations that may be attributed to us. You should refer to the section entitled “Business — Environmental and Safety Matters” for more information in respect of environmental matters.

We may not be able to execute our contemplated expansion plan successfully.

As of December 31, 2016, we had completed development of 34 projects and partially completed development of 356 projects with a total GFA of 133.9 million square meters. As of the same date, we had 536 properties under development or held for future development with an estimated total planned GFA of 229.4 million square meters in 209 strategically selected cities across 31 provinces and municipalities in China. We may also continue to explore the feasibility of expanding our operations into other cities or some overseas markets. Although our planned projects are carefully chosen after rounds of screening, review and deliberation, such large-scale and rapid expansion has placed and may continue to place a substantial strain on our managerial and financial resources. The rapid increase in the volume of our developments brought by such expansion has also presented and may continue to present challenges in terms of project construction and delivery management. Although we have formulated a standardized operational model to facilitate the management of our projects nationwide, any failure to follow our standards or inconsistencies in our compliance across different geographical regions in China or outside China, should we wish to expand into other markets, may negatively impact our reputation and damage our brand. In addition, any failure in effectively managing our large volume of developments within a short period of time may adversely affect our ability to deliver properties to our buyers in a timely manner and harm our reputation and our growth prospects. Also, our expansion plans are based on our forward-looking assessment of the market prospects. We cannot assure you that our market assessment will turn out to be accurate, or that we will be able to execute our contemplated expansion plan successfully or that we will succeed in integrating our expanded operations despite our standardized operational model. We cannot assure you that we will be able to effectively manage our rapid expansion or that our expanded operations will generate adequate returns on our investments or positive operating cash flows. Any failure in effectively managing our expanded operations may materially and adversely affect our business prospects, results of operations and financial condition.

We have limited experience in hotel management and our results in this segment may be adversely affected by our inexperience.

Certain residential projects that we have developed or will develop include upscale hotels and other ancillary commercial facilities, such as our Hotel Evergrande within Evergrande Royal Scenic Peninsula in Foshan, Hotel Evergrande in Evergrande Splendor Chongqing, Hotel Evergrande in Evergrande Scenic Garden Zengcheng Guangzhou, Hotel Evergrande in Evergrande Splendor Qingyuan and Hotel Evergrande in Evergrande Splendor Tianjin. We believe our hotel management business primarily serves as a value enhancer to our brand and an organic component of our overall residential property market strategy. Our experience in hotel management is limited and we cannot assure you that we will be able to successfully leverage our experience in residential property development to meet challenges in the hotel management business. We currently manage the eight hotels mentioned above through our own hotel management teams and may engage hotel management companies to manage the others upon the completion of their construction. We cannot assure you that we will be able to procure the services of professional hotel management companies for such projects. We could face considerable reputational and financial risks if such hotels are mismanaged or do not meet the expectations of our residential, business and other customers. Additionally, we cannot assure you that there will be sufficient demand for such hotel facilities in the localities of these properties. If we fail in our efforts in such hotel business, our financial condition and results of operations will be adversely affected.

Our growth strategy includes growth via acquisitions which entail risks.

Since 2013, we have expanded our operations through acquisitions of businesses in the healthcare, insurance, internet, football and cultural industries. For more information, see the section entitled “Business — Business Overview.” Going forward, we plan to continue pursuing business expansions through strategic acquisitions.

Acquisitions involve a number of risks, including the following:

- uncertainty in the success of our acquired businesses;
- unrevealed potential liabilities or risks associated with the acquired businesses;
- difficulty in integrating the operations, personnel, information system and other aspects of the acquired businesses into our operations or realizing any expected cost savings or other synergies from the acquisitions;
- difficulty in maintaining uniform standards, controls, procedures and policies;
- distraction of our management's time;
- difficulty in retaining employees and customers and integrating customer base;
- higher than planned requirements to preserve and grow the value of the acquired businesses or assets; and
- adverse effects on our results of operations due to the amortization of and potential impairment provision for goodwill or other intangible assets associated with acquisitions, and losses sustained by the acquired businesses after the relevant date of acquisition.

We may not be able to continue to identify any target of strategic acquisitions that is complementary to our business. Even if we identify such target, we cannot assure you that we will be able to obtain the necessary financing for the acquisition or acquire such target on terms and conditions acceptable to us. In addition, the anticipated future expansion of our operations through acquisitions will place a significant strain on our management, internal controls and information technology systems and resources, and could also result in additional expenditure. In addition to training, managing and integrating our workforce, we will need to continue to develop and improve our management and financial control. We cannot assure you that we will be able to successfully integrate any acquisitions that we undertake or that such acquisitions will perform as planned or prove to be beneficial to our operations and cash flow. Each of these factors may have a material effect on our business, results of operations, financial condition and prospect.

We have started expanding our operations into other industries and such expansion may not be successful.

We have taken significant initiatives or made significant plans to expand into the healthcare, insurance, internet, football and cultural industries with a view to establishing alternative revenue sources. For more information, see the section entitled "Business — Business Overview." There is no assurance that we can leverage our experience in the property industry and replicate our success in other industries.

Our expansion in general will require a significant amount of capital investment and involve various risks and uncertainties, including the risk of operating in a new environment or market, navigating different regulatory regimes or obtaining necessary governmental approvals, difficulties in gaining market recognition or competing effectively with established industry participants, difficulties of integrating new businesses and employees into our existing businesses, ability to develop the necessary technology or know-how for the new businesses, and the diversion of resources and attention of our management.

Moreover, our entry into a new industry has exposed or will expose us to additional risks common in such industry. Operations in the healthcare, insurance, internet, football or cultural industries may elevate our risks in areas such as regulatory compliance, customer complaints or lawsuits. Any failure to address these risks and uncertainties may adversely affect our business, financial condition and results of operations.

Our land appreciation tax provisions and prepayments may not be sufficient to meet our LAT obligations.

In accordance with the current PRC laws and regulations on land appreciation tax, or LAT, all persons, including companies and individuals, that receive income from the sale or transfer of state-owned land use rights, buildings and their attached facilities are subject to LAT at progressive rates ranging from 30% to 60% of the appreciated value of the property, with certain exemptions available for the sale of ordinary residential properties if the appreciated value does not exceed 20% of the deductible items as defined in the relevant LAT regulations. Pursuant to the relevant rules issued by the State Administration of Taxation of China (中華人民共和國國家稅務總局), or SAT, LAT obligations must be settled with the relevant tax bureaus within specific timeframes subsequent to the delivery of the completed projects. Accordingly, we have settled LAT payments on our four completed property projects in China that are subject to LAT settlement. See “Regulation — PRC Taxation — Our Operations in Mainland China — Land Appreciation Tax” for a more detailed description of the PRC regulations on LAT.

We prepaid LAT in the aggregate amount of RMB12,186 million (US\$1,755 million) with respect to our pre-sales made during the years ended December 31, 2014, 2015 and 2016. For the years ended December 31, 2014, 2015 and 2016, we made LAT provisions in the amount of RMB5,716 million, RMB5,916 million and RMB8,824 million (US\$1,271 million), respectively. In May 2010, the SAT issued the Notice on Strengthening the Collection of Land Appreciation Tax 《關於加強土地增值稅徵管工作的通知》, which requires that the minimum LAT prepayment rate be at 2% for provinces in the eastern region of China, 1.5% for provinces in the central and northeastern regions of China and 1% for provinces in the western region of China. According to the notice, the local tax bureaus will determine the applicable LAT prepayment rates based on the types of the properties. However, there are uncertainties in the interpretation and implementation of the LAT regulations and the relevant tax authorities may change their requirements as to the amount or timing of payment of provisional LAT. Although we believe we have made sufficient prepayments and/or provisions for LAT in compliance with PRC laws and regulations as interpreted by local tax authorities, we cannot assure you that our LAT prepayments and provisions will be sufficient to cover our LAT liabilities and that the relevant tax authorities will agree with the basis on which we calculated our LAT liabilities. Our results of operations, cash flow and financial condition may be materially and adversely affected if our LAT liabilities, as finally determined by the relevant tax authorities, are substantially higher than our LAT provisions and prepayments.

The full-fledged levy of value added tax on revenues from a comprehensive list of service sectors may subject our revenues to an average higher tax rate.

Pursuant to the Notice on Adjustment of Transfer Business Tax to Appreciation Tax 《關於全面推開營業稅改徵增值稅試點的通知》 issued on March 23, 2016 and implemented on May 1, 2016 (“Circular 36”) by the MOF and the SAT, PRC tax authorities have started imposing value added tax (“VAT”) on revenues from various service sectors, including real estate, construction, financial services and insurance, as well as other lifestyle service sectors, to replace the business tax that co-existed with VAT for over 20 years. Since the issuance of Circular 36, the MOF and SAT have subsequently issued a series of tax circulars in March and April 2016 to implement the collection of VAT on revenues from construction, real estate, financial services and lifestyle services. The VAT rates applicable to us may be generally higher than the business tax rate we were subject to prior to the implementation of Circular 36. For example, the VAT rate for the sale of self developed real estate projects will be increased from 5% (the current business tax rate) to 11%. Unlike business tax, the VAT will only be imposed on added

value, which means the input tax incurred from our construction and real estate can be offset from our output tax. However, details of concrete measures are still being formulated in accordance with Circular 36. We are still in the process of assessing the comprehensive impact of the new VAT regime on our tax burden, our revenues and results of operations, which remains uncertain.

Our success depends on the continuing services of our key management members.

We depend on the services provided by our senior management and other skilled and experienced key staff members, in particular, our chairman, Dr. Hui, and our other executive officers. Most of them have more than 10 years of experience in the PRC property markets and have in-depth knowledge of various aspects of the property development. As competition for experienced managerial talents and skilled personnel in the property development market is intense and the pool of qualified candidates is limited, we may not be able to retain the services of our senior executives or key personnel, or attract and retain high-quality senior executives or key personnel in the future. We cannot assure you that Dr. Hui or our other executive officers or members of our key staff are willing and able to continue in their present positions. The loss of the services of our senior management or other key personnel and failure to find qualified replacements could disrupt and adversely affect our operations. Any negative news regarding our senior management team may also adversely affect our reputation or business. Moreover, along with our rapid growth and expansion into other regional markets in China, we will need to hire and retain skilled managers to lead and manage our regional operations. If we cannot attract and retain qualified personnel, our business and future growth may be adversely affected.

We may not be able to complete our development projects on time or at all.

Property development projects require substantial capital expenditures prior to and during the construction period, and construction of a property project may take many months or several years before it generates positive cash flow through pre-sales or sales. Meanwhile, the progress and cost for a development project can be adversely affected by many factors, including:

- delays in obtaining necessary licenses, permits or approvals from governmental agencies or authorities;
- relocation of existing residents and/or demolition of existing structures;
- shortages of materials, equipment, contractors and skilled labor;
- labor disputes;
- construction accidents;
- natural catastrophes;
- adverse weather conditions; and
- changes in city zoning, planning and plot ratios.

Construction delays or failure to complete the construction of a project according to its planned specifications, schedules or budgets as a result of the above factors may adversely affect our results of operations and financial position and may also cause reputational damage. We cannot assure you that we will not experience such delays in delivery of our property projects in the future or that we will not be subject to any liabilities for any such delays.

Our business will be adversely affected if we fail to obtain, or experience material delays in obtaining, necessary governmental approvals for any major property development.

Real estate markets in China are strictly regulated by the PRC government. Property developers must comply with various laws and regulations of the PRC government, including rules issued by local governments to enforce these laws and regulations. To develop and complete a property project, we must apply for various licenses, permits, certificates and approvals, including land use rights certificates, construction land planning permits, construction works planning permits, construction permits, pre-sale permits and certificates of completion, at the relevant government departments. Before the government issues any certificate or permit, we must first meet specific conditions. We cannot assure you that we will not encounter serious delays or other difficulties in fulfilling such conditions, or that we will be able to adapt to new rules and regulations that may come into effect from time to time with respect to the property industry. There may also be delays on the part of the relevant regulatory bodies in reviewing our applications and granting approvals. In the event that we fail to obtain, or encounter significant delays in obtaining, the necessary governmental approvals for any of our major property projects, we will not be able to continue with our development plans, and our business, financial condition and results of operations will be adversely affected.

Our failure to meet all requirements for the issue of property ownership certificates may lead to compensatory liability to our customers.

According to PRC law, property developers must meet various requirements within 90 days after delivery of property or such other time period provided in sales contracts for the customers to apply for property ownership certificates, including passing various governmental clearances, formalities and procedures. We usually stipulate the delivery dates in our sales contracts so as to leave sufficient time for us to complete the formalities and obtain the relevant approvals. However, we cannot assure you that there will not be delays in our property development. There may also be factors beyond our control that may delay the delivery of property ownership certificates, including a shortage in human resources at various governmental offices and time-consuming inspections and approval processes at various government agencies. Under current PRC laws and regulations and under our sales contracts, we are required to compensate our customers for delays in our deliveries. If our delay extends beyond a specified period, our customers are also entitled to terminate the sales contracts. We cannot assure you that we will be able to timely deliver all property ownership certificates in the future or that we will not be subject to any liabilities as a result of any delays in delivery of property ownership certificates. In the case of serious delays on one or more property projects, our business and reputation will be harmed.

If we cannot continue to obtain qualification certificates, our business may be adversely affected.

As a precondition to engaging in real estate property development in China, a property developer must obtain a qualification certificate and renew it on an annual basis unless the rules and regulations allow a longer renewal period. According to the current PRC regulations on qualification of property developers, a newly established property developer must first apply for a provisional qualification certificate with a one-year validity, which can be extended for a maximum of two years. If the newly established property developer fails to commence a property development project within the one-year period when the provisional qualification certificate is in effect, it will not be allowed to extend its provisional qualification certificate. Experienced property developers must also apply for renewal of their qualification certificates once every two to three years in most cities, subject to an annual verification by relevant governmental authorities. It is mandatory under government regulations that developers fulfill all statutory requirements before obtaining or renewing their qualification certificates.

Property developers in China must also produce valid qualification certificates when they apply for pre-sale permits. We cannot assure you that we will be able to pass the annual verification of the qualification certificates or that we or each of our project companies will be able to obtain formal qualification certificates in a timely manner, or at all, as and when they become due to expire. For example, qualification certificates of certain of our project companies have expired and we are in the

process of renewing them. If we or our project companies do not possess valid qualification certificates, the government will refuse to issue pre-sale and other permits necessary for our property development business. In addition, the government may impose a penalty on us and our project companies for failure to comply with the relevant licensing requirements. If we or any of our project companies are unable to meet the relevant requirements, and are therefore unable to obtain or renew the qualification certificates or pass the annual verification, our business and financial condition could be materially and adversely affected.

Moreover, as an entity engaged in property management, we must obtain qualification certifications before commencing our property management business, pursuant to the Measures on Administration of Qualification Certificates of Property Service Enterprises 《物業服務企業資質管理辦法》 issued by the MOHURD. In addition, laws and regulations on our recently expanded business, such as insurance also require relevant qualification certificates. We cannot assure you that we will not encounter significant problems in making payment of registered capital in a timely manner or at all, or satisfying other conditions necessary for the issuance of other licenses, certificates, permits or approvals. If we fail to obtain or renew the necessary licenses, certificates, permits or approvals for any of our PRC subsidiaries, property projects, or our expanded new businesses, our business, results of operations and financial condition may be materially and adversely affected.

The fair value of our investment properties is likely to fluctuate from time to time and may decrease significantly in the future, which may materially and adversely impact our profitability.

We are required to reassess the fair value of our investment properties at every balance sheet date for which we issue financial statements. Under HKFRS, gains or losses arising from changes in the fair value of our investment properties are included in our income statements in the period in which they arise. Our valuations are based on a direct comparison approach, under which our investment properties are directly compared with other comparable properties of similar size, character and location, in order to provide a fair comparison of capital values.

A capitalization approach has also been adopted, under which the estimated net income generated from the investment properties is capitalized at an appropriate rate to arrive at the value conclusions. Our investment properties were revalued by an independent property valuer as of December 31, 2014, 2015 and 2016, on an open market, existing use basis, which reflected market conditions on those dates. Based on such valuation, we recognized the aggregate fair market value of our investment properties on our consolidated balance sheets, and recognized fair value gains on investment properties and the relevant deferred tax on our consolidated income statements. For the years ended December 31, 2014, 2015 and 2016, the fair value gains on our investment properties were RMB9,393 million, RMB12,859 million and RMB5,124 million (US\$738 million), respectively, and accounted for approximately 30.1%, 40.9% and 13.9%, respectively, of our profit before tax.

The significant increase in the fair market value of our investment properties in the years ended December 31, 2014, 2015 and 2016 was primarily due to the addition of commercial shops GFA and carpark units in our investment properties portfolio. Fair value gains or losses do not, however, change our cash position as long as the relevant investment properties are held by us and, therefore, do not increase our liquidity in spite of the increased profit. The amount of revaluation adjustments has been, and will continue to be, subject to market fluctuations. We cannot assure you that changes in the market conditions will continue to create fair value gains on our investment properties at the previous levels or at any level at all, or that the fair value of our investment properties will not decrease in the future. In particular, the fair value of our investment properties could decline in the event that our industry experiences a downturn as a result of PRC government regulatory policies or a global economic downturn. All these factors are beyond our control. Any significant decrease in the fair value of our investment properties may materially and adversely impact our profitability.

We may not be able to obtain land use rights certificates with respect to certain parcels of land under contract.

We have entered into land grant contracts, transfer agreements or certain land transaction confirmation letters, but have not obtained all land use rights certificates in respect of some projects as disclosed in the section entitled “Business — Project Overview — Properties Held for Future Development.” If we fail to obtain, or experience material delays in obtaining, the land use rights certificates with respect to these parcels of land, our business, financial condition and results of operations may be materially and adversely affected.

We rely on third-party contractors for certain services in our property development.

We engage third-party contractors to provide various services, including construction, landscaping, gardening, equipment installation, interior decoration, mechanical and electrical installation and utilities installation. We generally select third-party contractors through our standardized tender process. We endeavor to employ only companies with good reputations, strong track records, performance reliability and adequate financial resources, and we have implemented strict quality control procedures and closely monitor the construction progress. However, we cannot assure you that such third-party contractors will always provide satisfactory services of the quality required by us. If the performance of any third-party contractor is not satisfactory, we may need to replace such contractor or take other remedial actions, which could adversely affect the cost and development schedule of our projects. In addition, as we are expanding our business into additional cities in China, there may be a shortage of third-party contractors that meet our quality requirements in such regions. Moreover, the contractors may undertake projects from other developers, engage in risky undertakings or otherwise encounter financial or other difficulties, which may adversely affect their ability to complete our property projects on time, within budget or at all. All of these third-party related factors may have material adverse impact on our reputation, credibility, financial position and business operations.

Our profit margin is sensitive to fluctuations in the cost of construction materials.

Construction costs are one of the predominant components of our cost of sales. Construction costs encompass all costs for the design and construction of a project, including payments to third-party contractors, costs of construction materials, foundation and substructure, fittings, facilities for utilities and related infrastructure such as roads and pipelines. Historically, material costs have been the principal driver of the construction costs of our property development projects, with the cost of third-party contractors remaining relatively stable. However, as most of the material costs are often included in the construction costs paid to our contractors, it has been difficult for us to estimate such costs.

Construction costs may fluctuate as a result of the volatile price movement of construction materials such as steel and cement. We seek to reduce our exposure to short-term price fluctuations of construction materials and limit project cost overruns by centralizing our procurement to lower our purchase costs. We also manage the cost of outsourced construction work through a process of tenders which, among other things, takes into account procurement of principal construction materials such as steel and cement at fixed prices. In line with industry practice, if there is a significant price fluctuation (depending on the specific terms of each contract), we will be required to re-negotiate, top up or refund, depending on the price movement, existing construction contracts. Additionally, should our existing contractors fail to perform under their contracts, we might be required to pay more to contractors under replacement contracts. Our profit margin is sensitive to changes in market prices for construction materials and our project margins will be materially and adversely affected if we are not able to pass all of the increased costs onto our customers.

If we are not properly insulated from the rising cost of labor, our results of operations may be adversely affected.

As the result of economic growth and the boom in the property industry in the PRC, wages for construction workers have experienced increases in recent years. In addition, the PRC Labor Contract Law 《中華人民共和國勞動合同法》 that came into effect on January 1, 2008 enhanced the protection for employees and increased employers' liability which may further increase our labor costs. Under the terms of most of our construction contracts, the construction contractors are responsible for the wages of construction workers for our property development and bear the risk of fluctuations in wages during the term of the relevant contract. The contractors are also liable if they do not purchase work injury insurance for their workers as required. However, we are exposed to the price volatility of labor to the extent that we periodically enter into new or renew existing construction contracts at different terms during the life of a project, which may span several years, or if we choose to hire the construction workers directly. If we are unable to pass on any increase in the cost of labor, to either our construction contractors or to the purchasers of our properties, our results of operations may be adversely affected.

We guarantee mortgage loans of our customers and may become liable to mortgagee banks if our customers default on their mortgage loans.

As we pre-sell properties before their actual completion of construction, in accordance with industry practice, banks require us to guarantee our customers' mortgage loans. Typically, we guarantee mortgage loans taken out by our customers up until we complete the relevant properties and the property ownership certificates and certificates are delivered to the mortgagee banks. If a purchaser defaults on a mortgage loan, we may have to repurchase the underlying property by paying off the mortgage. If we fail to do so, the mortgagee bank may auction the underlying property and recover any additional amount outstanding from us as the guarantor of the mortgage loans. In line with industry practice, we do not conduct any independent credit checks on our customers whose mortgage loans we guarantee but rely on the evaluation of such customers by the mortgagee banks.

As of December 31, 2014, 2015 and 2016, our outstanding guarantees in respect of our customers' mortgage loans amounted to RMB102,698 million, RMB141,591 million and RMB252,128 million (US\$36,314 million), respectively. Should substantial defaults occur and if we are called upon to honor our guarantees, our financial condition and results of operations could be materially and adversely affected.

We bear demolition and resettlement costs associated with some of our property developments and such costs may increase.

We are required to compensate owners and residents of demolished buildings on some of our property developments for their relocation and resettlement in accordance with the PRC urban housing demolition and relocation regulations. The compensation we pay is calculated in accordance with formulas published by the relevant local authorities. These formulas take into account the location, type of building subject to demolition, local income levels and many other factors. We cannot assure you that these local authorities will not change or adjust their formulas from time to time without sufficient advance notice. If they do so, the land costs may be subject to substantial increases, which can adversely affect our cash flow, financial condition and results of operations. In addition, despite these government-sanctioned formulas, if we fail to reach an agreement over the amount of compensation with any existing owner or resident, either we or such owner or resident may apply to the relevant authorities for a ruling on the amount of compensation. Dissenting owners and residents may also refuse to relocate. This administrative process or such resistance or refusal to relocate may delay the timetable of our development projects, and an unfavorable final ruling may result in us paying more than the amount calculated under the formulas. Such delays in our development projects will also lead to an increase in the cost and delay the cash inflow from pre-sales of the relevant projects, and the recognition of sales as revenue upon completion, which may in turn materially and adversely affect our business, results of operations and financial condition.

Property owners may cease to engage us as the provider of property management services.

We provide property management services to our property owners through our wholly owned property management subsidiary, Jinbi Property Management Co., Ltd. (金碧物業有限公司), or Jinbi Property Management. Under PRC laws and regulations, the property owners of a residential development have the right to change the property management service provider upon the approval by a certain percentage of the property owners. If owners of the properties that we have developed choose to terminate our property management services, or our property management services receive unsatisfactory reviews by property owners, our reputation, future sales of our properties and our results of operations could be materially and adversely affected.

We have limited insurance to cover our potential losses and claims.

We do not carry insurance against all potential losses or damages with respect to our properties before their delivery to customers other than those buildings over which our lending banks have security interests and for which we are required to maintain insurance coverage under the relevant loan agreements. In addition, we do not maintain insurance coverage against liability from tortious acts or other personal injuries related to our project constructions or for business interruption. We cannot assure you that we would not be sued or held liable for damages due to such tortious acts and other personal injuries. Moreover, there are certain losses for which insurance is not available on commercially practicable terms in China, such as losses suffered due to earthquakes, typhoons, flooding, war and civil disorder. If we suffer from any losses, damages or liabilities in the course of our operations and property development, we may not have sufficient financial resources to remedy the damages or to satisfy our potential obligations. In addition, any payments we make to cover any losses, damages or liabilities may have a material adverse effect on our business, results of operations and financial condition.

Our results of operations may vary significantly from period to period.

We derive a majority of our revenue from the sale of residential properties that we have developed. In accordance with our accounting policy, we recognize revenue upon the completion and delivery of the properties to purchasers, which may take place up to 18 months after the commencement of pre-sale. As a result, our results of operations may vary significantly from period to period due to the construction timetables and timing of sales and delivery of our various development projects. Additionally, selling prices of properties vary and are largely determined by local market conditions. Although our properties are developed under the standardized operational model, the average selling price for properties in the same series may vary from city to city, which may affect our business, results of operations and financial condition. Seasonal variations may cause further fluctuations in our interim revenue and profits. For example, we have a number of projects in northern China where winter weather conditions can hinder the execution of our development projects and delay our timetable and revenue recognition. For additional information, you should refer to the sections entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Results of Operations.” In light of the above, we believe that period-to-period comparisons of our results of operations may not be as meaningful as they would be for a business with mostly recurring revenue from period to period.

We may be deemed a PRC resident enterprise under the PRC Enterprise Income Tax Law, which may subject us to PRC taxation on our worldwide income, require us to withhold taxes on interest we pay on the Notes and require holders of the Notes to pay taxes on gains realized from the sale of the Notes.

We are a Cayman Islands exempted holding company with substantially all of our operations conducted through our operating subsidiaries in China. Under the PRC Enterprise Income Tax Law that took effect on January 1, 2008 and was amended on February 24, 2017, enterprises established outside China whose “de facto management bodies” are located in China are considered “resident enterprises” for PRC tax law purposes and will generally be subject to the uniform 25% enterprise income tax rate as to their global income. Under the implementation regulations issued by the State Council relating to the

PRC Enterprise Income Tax Law, a “de facto management body” is defined as a body that has significant and overall management control over the business, personnel, accounts and properties of an enterprise. In April 2009, the SAT promulgated a circular to clarify the definition of “de facto management bodies” for enterprises incorporated overseas with controlling shareholders that are PRC enterprises. However, there are no official implementation rules regarding the determination of the “de facto management bodies” for overseas enterprises that are not controlled by PRC enterprises. Therefore, it remains unclear how the tax authorities will treat an overseas enterprise invested or controlled by another overseas enterprise and ultimately controlled by a Hong Kong permanent resident as is in our case. Although we are currently not treated as a PRC resident enterprise by the relevant PRC tax authorities, substantially all of our management is currently based in China and will remain in China in the future. As a result, we may be treated as a PRC resident enterprise for PRC enterprise income tax purposes. If we are deemed to be a PRC resident enterprise, we would be subject to the PRC enterprise income tax at the rate of 25% on our worldwide income. Furthermore, we may be obligated to withhold PRC income tax of 10% on payments of interest and other amounts on the Notes to investors that are non-resident enterprises (or 20% for non-resident individual holders of the Notes) or lower rates for holders who qualify for the benefits of a double-taxation treaty with China, because the interest and other distributions may be regarded as being derived from sources within China. If we are required to withhold PRC tax from interest payments on the Notes, we may be required, subject to certain exceptions, to pay such additional amounts as will result in receipt by the holders of the Notes of such amounts as would have been received had no such withholding been required. The requirement to pay additional amounts will increase the cost of servicing interest payments on the Notes and could have an adverse effect on our financial condition. Any gain realized by non-PRC investors from the transfer of the Notes may be regarded as being derived from sources within China and accordingly may be subject to a 10% PRC income tax for non-PRC enterprise holders of the Notes (20% in the case of non-resident individuals) if we are treated as a PRC resident enterprise, subject to the provisions of an applicable treaty.

Any disputes with our joint venture or co-development partners may materially and adversely affect our business.

We carry out and plan to carry out some of our business through joint ventures or in collaboration with third parties. Such joint venture arrangements or collaborations involve a number of risks, including:

- disputes with our partners in connection with the performance of their obligations under the relevant project, joint venture or cooperative property development agreements;
- disputes as to the scope of each party’s responsibilities under these arrangements;
- financial difficulties encountered by our partners affecting their ability to perform their obligations under the relevant project, joint venture or cooperative property development agreements with us; or
- conflicts between the policies or objectives adopted by our partners and those adopted by us.

Any of these and other factors may materially and adversely affect our business.

Our controlling shareholder may take actions that are not in, or may conflict with, our or our creditors’, including the holders of the Notes, best interests.

As of the date of this offering memorandum, Dr. Hui beneficially owned 77.87% of our outstanding shares through Xin Xin (BVI) Limited. Xin Xin (BVI) Limited, and ultimately Dr. Hui, have and will continue to have the ability to exercise a controlling influence over our business, and may cause us to take actions that are not in, or may conflict with, our or our creditors, including the holders of the Notes, best interests, including matters relating to our management and policies and the election

of our directors and senior management. Xin Xin (BVI) Limited, and ultimately Dr. Hui, will be able to influence our major policy decisions, including our overall strategic and investment decisions, by controlling the election of our directors and, in turn, indirectly controlling the selection of our senior management, determining the timing and amount of any dividend payments, approving our annual budgets, deciding on increases or decreases in our share capital, determining our issuance of new securities, approving mergers, acquisitions and disposals of our assets or businesses, and amending our articles of association.

We face uncertainty with respect to indirect transfers of equity interests in PRC resident enterprises by their non-PRC holding companies.

Pursuant to the Notice on Strengthening Administration of Enterprise Income Tax for Share Transfers by Non-PRC Resident Enterprises 《關於加強非居民企業股權轉讓所得企業所得稅管理的通知》, or SAT Circular 698, issued by the SAT on December 10, 2009 with retroactive effect from January 1, 2008, gains derived from indirect transfer of equity interests in PRC resident enterprises may be subject to PRC withholding tax. SAT Circular 698 also provides that, where a non-PRC resident enterprise transfers its equity interests in a PRC resident enterprise to its related parties at a price lower than the fair market value, the relevant PRC tax authorities have the power to make a reasonable adjustment with respect to the taxable income of the transaction.

On February 3, 2015, the SAT promulgated the Announcement of Certain Issues on Enterprise Income Tax Regarding Indirect Transfer of Properties by Non-resident Enterprises 《關於非居民企業間接轉讓財產企業所得稅若干問題的公告》, or the Announcement 7, which clarifies certain issues under the SAT Circular 698. For example, the Announcement 7 (1) defines what “indirect transfer of taxable properties of China” is; (2) clarifies how to tax gains derived from indirect transfer of taxable properties of China; (3) clarifies how to determine reasonable commercial purposes; and (4) provides procedures and required documents for reporting indirect transfer of taxable properties of China to competent tax authorities. In order to implement the Announcement 7, the SAT promulgated the Circular on Issuing the Work Procedures concerning the Enterprise Income Tax on the Indirect Transfer of Properties by Non-resident Enterprises (Trial) 《非居民企業間接轉讓財產企業所得稅工作規程(試行)》 on May 13, 2015 which specifies tax authorities’ corresponding responsibilities and operating procedures concerning the collection of enterprise income tax on the indirect transfer of properties by non-resident enterprises. As a result, we may become at risk of being taxed under SAT Circular 698 and Announcement 7 due to any future indirect transfer of equity interests in our PRC subsidiaries. We may be required to allocate significant resources to comply with SAT Circular 698 and Announcement 7 or to establish that we should not be taxed under SAT Circular 698, and Announcement 7 which may have a material adverse effect on our financial condition and results of operations.

We may be involved from time to time in material disputes, administrative, legal and other proceedings arising out of our operations or subject to fines and sanctions in relation to our non-compliance with certain PRC laws and regulations and may face significant liabilities or damage to our reputation as a result.

We may be involved from time to time in material disputes with various parties involved in the acquisition, development and sale of our properties, including contractors, suppliers, construction workers, original residents, co-development or other partners, banks and purchasers. These disputes may lead to protests, legal or other proceedings and may result in damage to our reputation, substantial costs and diversion of resources and management’s attention. As most of our projects are composed of multiple phases, purchasers of our properties in earlier phases may commence legal actions against us if our subsequent planning and development of the projects are perceived to be inconsistent with our representations and warranties made to such earlier purchasers. In addition, we may have compliance issues with regulatory bodies in the course of our operations, which may subject us to administrative proceedings and unfavorable decrees that result in liabilities, fines or sanctions and cause damage to our reputation and delays to our property developments. For example, in February 2017, Evergrande Life was sanctioned by the China Insurance Regulatory Commission due to its irregular investment

operations, restricting it from stock trading for one year and lowering its cap on equity investment to 20% of its total assets. We may also be involved in disputes or legal proceedings in relation to delays in the completion and delivery of our projects. The occurrence of any of the above events, and failure to comply with any applicable PRC laws or regulations, may have a material adverse effect on our business, financial condition and results of operations. Additionally, we may also be involved in disputes relating to our equity interests in the project companies and relevant projects, which may adversely affect our reputation and business. For example, in January 2016, Winlok Investment Ltd. (威諾投資有限公司) filed two lawsuits in a local court in Beijing against four defendants, including a wholly-owned subsidiary of ours, Marche Limited (麗來富華集團有限公司), which holds the entire equity interest of two of our project companies in Beijing. The claims alleged that two equity transfer agreements entered into between Niceline Company Limited (麗來有限公司) and Marche Limited were invalid and the investment interests in the aforesaid project companies remained with Niceline Company Limited. This case is currently pending trial in court. Finally, any failure or alleged failure by us or any of our directors, officers or other agents to fully adhere to the PRC or other applicable anti-corruption laws, or any investigation in relation to such failure or alleged failure by any regulatory body, could also materially and adversely affect our reputation and our business, financial condition and results of operations. For more information, you should refer to the section entitled “Business — Legal Proceedings.”

We may face negative publicity or unfavorable research reports.

From time to time, our Company may face negative publicity or unfavorable research reports relating to our business, financial performance, financial reporting or operations. We may defend ourselves against such allegations through legal and administrative proceedings as appropriate. However, we cannot assure you that such proceedings will result in a ruling or decision to our favor nor that the negative publicity effect imposed by those allegations would be eliminated or reduced upon a positive ruling.

Any such negative publicity or unfavorable research report, even if malicious or prepared on an unfounded factual basis, could have a material adverse effect on the trading price of the Notes or have a materially adverse effect on the image or reputation of our Company.

We may be exposed to intellectual property infringement, misappropriation or other claims by third parties and a deterioration in our brand image could adversely affect our business.

We believe that we have built an excellent reputation in China for the quality of our various product series. We have also placed great importance on the continuous enhancement of our brand name and the increase in our brand recognition. Our brand strategy, however, depends on our ability to use, develop and protect our intellectual properties, such as our trademarks. Although we have applied for trademark registration for our names and logos, we have not successfully registered all of these trademarks in China or elsewhere. As a result, we could be subject to trademark disputes. The defense and prosecution of intellectual property lawsuits and related legal and administrative proceedings can be both costly and time-consuming and may significantly divert our resources and the time and attention of our management personnel. An adverse ruling in any such litigation or proceedings could subject us to significant liabilities to third parties, require us to seek licenses from third parties, to pay ongoing royalties, or subject us to injunctions prohibiting the use of our name and logo.

Any recurrence of the global financial crisis and economic downturn or a deterioration of our cash flow position may have a material adverse effect on our ability to service our indebtedness and continue our operations.

The global capital and credit markets have in recent years experienced periods of extreme volatility and disruption. The global financial crisis in recent years has caused banks and other credit providers to restrict the availability of new credit facilities and to require more collateral and higher pricing upon the renewal of existing credit facilities. The recurrence of the global financial crisis or prolonged disruptions

to the credit market may further slow down the growth of the PRC economy and sales of property, limiting our ability to raise funds from current or other funding sources, or cause our access to funds to be more expensive, which may materially and adversely affect our business, financial position and operating results.

In addition to bank loans and other borrowings, we rely on internally generated funds, in particular, pre-sale proceeds of our properties as a major source of funding for our operations. If our pre-sale activities are significantly limited or otherwise materially and adversely affected as a result of changes in the relevant PRC laws and regulations, the occurrence of a global economic downturn or a significant economic slowdown in China generally or in the cities where we have properties, our cash flow position and ability to service our indebtedness may be materially and adversely affected. Furthermore, if banks or other financial institutions decline to provide additional loans to us or to re-finance our existing loans when they mature as a result of our perceived credit risk, and we fail to raise financing through other channels, our business and financial position may be materially and adversely affected.

All employee participants in our share option scheme who are PRC citizens may be required to register with SAFE. We may also face regulatory uncertainties that could restrict our ability to adopt additional option plans for our directors and employees under PRC law.

PRC regulations require that individuals in China (including PRC citizens and foreign individuals who have lived in China over one year) who intend to participate in the share incentive plan of an overseas listed company shall appoint a qualified PRC domestic agent or a PRC subsidiary of such overseas listed company (defined as a “**PRC agency**”) to conduct foreign exchange registration, opening of accounts and transfer and exchange of funds, and an overseas agency shall be appointed to conduct any exercise of options, buying and selling of relevant shares or equities and transfer of relevant funds. After such individuals’ foreign exchange income received from participation in the share incentive plan is remitted to the PRC, relevant banks shall distribute the above funds from the account opened and managed by the PRC agency to such individuals’ foreign exchange accounts. We and our PRC employees who have been granted share options or restricted shares will be subject to these regulations.

If we or our PRC employees fail to comply with such registration requirements, it may subject us and the participants of our share option scheme who are in the PRC to fines and legal sanctions which are imposed pursuant to Regulations on the Foreign Exchange System 《外匯管理條例》 and the Measures for the Administration of Individual Foreign Exchange 《個人外匯管理辦法》 which could adversely affect our business operations.

We may not be able to continue to attract and retain quality tenants for our investment properties and the illiquid nature of investment properties could restrain our revenue and cash flow and limit our ability to respond to adverse changes in the performance of our properties.

Our investment properties compete for tenants with other properties based on, among other things, location, quality, maintenance, property management, rent levels and other lease terms. We cannot assure you that existing or prospective tenants will not choose other properties. Any future increase in the supply of properties which compete with ours would increase the competition for tenants and as a result we may have to reduce rent or incur additional costs to make our properties more attractive. If we are not able to retain our existing tenants or attract new tenants to replace those that leave or to lease our new properties, our occupancy rates may decline. If we fail to attract well-known brands as our tenants or keep our existing tenants, our investment properties may become less attractive and competitive.

Moreover, holding a large amount of investment properties and collecting rents, as compared to selling them, could restrain our revenue and cash flow in the short term. The property market is also affected by many factors that are beyond our control, including but not limited to general economic conditions, the availability of mortgage financing and interest rates, and we cannot accurately determine the market price of our investment properties nor are we able to predict whether we will be able to sell

any of our investment properties at the price or on the terms set by us, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. In addition, investment properties may not be readily convertible for alternative uses without substantial capital expenditure. These factors and any others that would impede our ability to respond to adverse changes in the performance of our investment properties could materially and adversely affect our business, financial condition and results of operations.

Risks Relating to the Property Industry in China

The PRC government may adopt further measures to slow down growth in the property sector.

Along with the economic growth in China, investments in the property sectors have increased significantly in the past few years. In response to concerns over the increase in property investments, the PRC government has, since 2004, introduced various policies and measures to curtail property developments, including:

- suspending land supply for villa construction and restricting land supply for high-end residential property construction;
- requiring that at least 70% of the land supply approved by any local government for residential property development during any given year must be used for developing low- to medium-cost and small- to medium-size units for sale or as low-cost rental properties;
- requiring that at least 70% of the total development and construction area of residential projects approved or constructed on or after June 1, 2006 in any administrative jurisdiction must consist of units with a unit floor area of less than 90 square meters and that projects which have received project approvals prior to this date but have not obtained construction permits must adjust their planning in order to comply with this new requirement, with the exception that municipalities under direct administration of the PRC central government and provincial capitals and certain cities may deviate from such ratio under special circumstances upon approval from MOHURD;
- suspending mortgage loans to purchasers for their third residential properties and beyond, and to non-local residents who have not paid local tax or social security for longer than a one-year period;
- for a commercial property buyer, (i) requiring banks not to finance any purchase of pre-sold properties, (ii) increasing the minimum amount of down-payment to 50% of the purchase price of the underlying property, (iii) increasing the minimum mortgage loan interest rate to 110% of the relevant PBOC benchmark one-year bank lending interest rate and (iv) limiting the terms of such bank borrowings to no more than 10 years, with commercial banks allowed flexibility based on their risk assessment;
- for a buyer of commercial/residential dual-purpose properties, increasing the minimum amount of down-payment to 45% of the purchase price of the underlying property, with the other terms similar to those for commercial properties;
- limiting the grant or extension of revolving credit facilities to property developers that hold a large amount of idle land and vacant commodity properties;
- limiting the number of homes that local residents can buy in a specified period; and
- proposing to enlarge the scope of trials in levying property tax.

Although the various control measures are intended to promote more balanced property development in the long term, we cannot assure you that these measures will not adversely affect the development and sales of our properties. Many of the property industry policies carried out by the PRC government are unprecedented and are expected to be amended and revised over time. Other political, economic and social factors may also lead to further adjustments and changes of such policies. The PRC government could adopt additional and more stringent industry policies, regulations and measures in the future, which could further slow down the property development in China. Our results of operations may be materially affected by these factors. If we fail to adapt our operations to new policies, regulations and measures that may come into effect from time to time with respect to the real property industry, or such policy changes disrupt our business, reduce our sales or average selling prices, or cause us to incur additional costs, our business prospects, results of operations and financial condition may be materially and adversely affected.

Changes of laws and regulations with respect to pre-sale may adversely affect our cash flow position and performance.

We depend on cash flows from pre-sale of properties as an important source of funding for our property projects. Under current PRC laws and regulations, property developers must fulfill certain conditions before they can commence pre-sale of the relevant properties and may only use pre-sale proceeds to finance the development of such properties. In August 2005, PBOC in a report entitled “2004 Real Estate Financing Report” recommended to discontinue the practice of pre-selling unfinished properties because such practices, in PBOC’s opinion, create significant market risks and generate transactional irregularities. In July 2007, an economic research group under the PRC National Development and Reform Commission (中華人民共和國國家發展和改革委員會), or NDRC, recommended the abolishment of the pre-sale system. These recommendations have not been adopted by any PRC governmental authority and have no mandatory effect. In April 2010, MOHURD issued the Notice on Further Strengthening the Supervision of Real Estate Market and Improving the Pre-Sale System of Commodity Housing 《關於進一步加強房地產市場監管完善商品住房預售制度有關問題的通知》. The notice urges local governments to enact regulations on the sale of completed residential properties in light of local conditions and encourages property developers to sell residential properties only when they are completed. We cannot assure you that the PRC governmental authority will not ban the practice of pre-selling residential properties prior to completion or implement further restrictions on the pre-sale of such properties, such as imposing additional conditions for a pre-sale permit or further restrictions on the use of pre-sale proceeds. Proceeds from the pre-sale of our properties are an important source of financing for our property developments. Consequently, any restriction on our ability to pre-sell our properties, including any increase in the amount of up-front expenditure we must incur prior to obtaining the pre-sale permit, would extend the time period required for recovery of our capital outlay and would require that we seek alternative means to finance the various stages of our property developments. This, in turn, could have an adverse effect on our business, cash flow, results of operations and financial condition.

PRC regulations relating to acquisitions of PRC companies by foreign entities may limit our ability to acquire PRC companies and adversely affect the implementation of our strategy as well as our business and prospects.

The Provisions on the Acquisition of Domestic Enterprises by Foreign Investors 《關於外國投資者併購境內企業的規定》(the “**M&A Provisions**”) issued by six PRC ministries, including MOFCOM, effective from September 8, 2006, provide the rules with which foreign investors must comply should they seek to purchase by agreement the equities of the shareholders of a domestic non-foreign-invested enterprise or subscribe to the increased capital of a domestic non-foreign funded enterprise, and thus convert the domestic non-foreign-invested enterprise into a foreign invested enterprise to conduct asset merger and acquisition. It stipulates that the business scope upon acquisition of domestic enterprises must conform to the Catalog of Guidance on Industries for Foreign Investment as revised in 2015 《外商投資產業指導目錄(2015)》 issued by NDRC and MOFCOM, which restricts the scope of permitted foreign investment. It also provides the takeover procedures for equity interests in domestic companies.

On September 3, 2016, the National People's Congress Standing Committee (NPCSC) adopted a decision on amending the law of foreign invested companies which became effective from October 1, 2016. Upon the effectiveness of the decision, the establishment of the foreign invested enterprise and its subsequent changes will be required to be filed with the relevant authorities instead of obtaining approvals from relevant commerce authorities as required by the existing PRC laws, except for the foreign invested enterprises which are subject to the special administrative measures regarding foreign investment entry. On October 8, 2016, the NDRC and the MOFCOM jointly issued a notice regarding the scope of industries subject to the special administrative measures for foreign investment entry, according to which the M&A Provisions still apply to convert the domestic non-foreign-invested enterprises into foreign invested enterprises.

Our PRC legal advisors have advised us that there are uncertainties as to how the M&A Provisions will be interpreted or implemented after the revision of the law of foreign invested companies.

Our investments in China are subject to PRC government's control over foreign investment in the property sector.

The PRC government has in the past imposed restrictions on foreign investment in the property sector to curtail the overheating of the property sector by, among other things, increasing the capital and other requirements for establishing foreign-invested real estate enterprises, tightening foreign exchange control and imposing restrictions on purchases of properties in China by foreign persons. In May 2007, the PRC Ministry of Commerce (中華人民共和國商務部), or MOFCOM, and PRC State Administration of Foreign Exchange (中華人民共和國國家外匯管理局), or SAFE, jointly issued the Notice on Further Strengthening and Regulating the Approval and Supervision on Foreign Investment in Real Estate Sector in China 《關於進一步加強、規範外商直接投資房地產業審批和監管的通知》, which, among other things, provides that:

- foreign investment in the PRC property sector relating to high-end properties should be strictly controlled;
- prior to obtaining approval for the establishment of foreign-invested real estate enterprises, or FIREEs, either (i) both the land use right certificates and property ownership certificates should be obtained or (ii) contracts for obtaining land use rights or property ownership should be entered into; and
- FIREEs approved by local authorities must immediately register with MOFCOM through a filing made by the local authorities; and the SAFE authorities and banks authorized to conduct foreign exchange businesses may not effect foreign exchange settlements of capital account items for those FIREEs which have not completed their filings with MOFCOM or have failed to pass the annual inspection.

In June 2008, MOFCOM issued the Notice Regarding Completing the Registration of Foreign Investment in the Real Estate Sector 《關於做好外商投資房地產業備案工作的通知》, often known as Notice 23. According to Notice 23, MOFCOM has entrusted provincial MOFCOM departments to verify materials on file by foreign-invested real estate enterprises. Notice 23 requires that each FIREE may engage in one approved real estate project only.

In December 2010, MOFCOM promulgated the Notice on Strengthening Administration of the Approval and Registration of Foreign Investment into Real Estate Industry 《關於加強外商投資房地產業審批備案管理的通知》, which provides that, among other things, in the case that a real estate enterprise is established in China with overseas capital, it is prohibited to purchase and/or sell real estate properties completed or under construction for arbitrage purposes. The local MOFCOM authorities are not permitted to approve foreign-invested investment companies to engage in real estate development and management.

On June 24, 2014, MOFCOM and SAFE jointly promulgated the Circular on Improving the Record-filing for Foreign Investment in Real Estate 《關於改進外商投資房地產備案工作的通知》, which simplifies the procedures of record-filing for foreign investment in real estate and the record-filing with MOFCOM has been changed from the record-filing in the form of paper materials to that in the form of electronic data and selective examination will be conducted during and after the record-filing.

On November 6, 2015, MOFCOM and SAFE jointly promulgated the Circular on Further Improving the Record-filing of Foreign Investments in Real Estate 《關於進一步改進外商投資房地產備案工作的通知》, which further simplifies the record-filing procedures for foreign-invested real estate enterprises and cancels the registry publication procedures on the website of MOFCOM.

Restrictions imposed by the PRC government on foreign investment in the property sector may affect our ability to make further investments in our PRC subsidiaries and, as a result, may limit our business growth and have an adverse effect on our business, financial condition and results of operations.

The property market in the PRC is still at a relatively early stage of development.

The property development industry and ownership of private property in the PRC are still in a relatively early stage of development. Although demand for private residential property in the PRC has been growing rapidly in recent years, such growth is often coupled with volatility in market conditions and fluctuation in property prices. We cannot predict how much and when demand will develop, as many social, political, economic, legal and other factors may affect the development of the market. The level of uncertainty is increased by limited availability of accurate financial and market information as well as the overall low level of transparency in the PRC.

The lack of an effective liquid secondary market for residential property may discourage investors from acquiring new properties because resale is not only difficult, but can also be a long and costly process. The limited amount of property mortgage financing available to PRC individuals compounded by the lack of security of legal title and enforceability of property rights may further inhibit demand for residential developments.

In addition, risk of property over-supply is increasing in parts of China, where property investment, trading and speculation have become overly active. In the event of actual or perceived over-supply, property prices may fall significantly and our revenue and profitability will be adversely affected.

Risks Relating to China

PRC economic, political and social conditions as well as governmental policies can affect our business.

The PRC economy differs from the economies of most of the developed countries in many aspects, including:

- political structure;
- degree of government involvement and control;
- degree of development;
- level and control of capital investment and reinvestment;
- control of foreign exchange; and

- allocation of resources.

The PRC economy has been transitioning from a centrally planned economy to a more market-oriented economy. For approximately three decades, the PRC government has implemented economic reform measures to utilize market forces in the development of the PRC economy. Although we believe these reforms will have a positive effect on the overall and long-term development of China, we cannot predict whether changes in the PRC economic, political and social conditions and in its laws, regulations and policies will have any adverse effect on our current or future business, financial condition or results of operations.

In May 2017, Moody's Investors Service downgraded China's sovereign credit rating for the first time since 1989 and changed its outlook from stable to negative, citing concerns on the country's rising levels of debt and expectations of slower economic growth. The full impact of the Moody's downgrade remains to be seen, but the perceived weaknesses in China's economic development model, if proven and left unchecked, would have profound implications. If China's economic conditions worsen, or if the banking and financial systems experience difficulties from over-indebtedness, businesses in China may face a more challenging operating environment.

Inflation in China may have a material adverse effect on our business, financial condition and results of operations.

While the PRC economy has experienced rapid growth, such growth has been uneven among various sectors of the economy and in different geographic areas of the country. Rapid economic growth can lead to growth in money supply and inflation. If prices of our properties rise at a rate that is insufficient to compensate for the rise in our costs, our business, financial condition and results of operation may be materially and adversely affected. To control inflation in the past, the PRC government has imposed control on bank credits, limits on loans for fixed assets and restrictions on state bank lending. Such austerity measures can lead to a slowdown in the economic growth and may materially and adversely affect our business, financial condition and results of operations.

Changes in PRC foreign exchange regulations may adversely affect our business operations.

The PRC government imposes controls on the convertibility between Renminbi and foreign currencies and the remittance of foreign exchange out of China. We receive substantially all our revenue in Renminbi. Under our current corporate structure, our income is primarily derived from dividend payments from our PRC subsidiaries. Our PRC subsidiaries must convert their Renminbi earnings into foreign currency before they may pay cash dividends to us or service their foreign currency-denominated obligations. Under existing PRC foreign exchange regulations, payments of current-account items may be made in foreign currencies without prior approval from SAFE by complying with certain procedural requirements.

However, approval from appropriate governmental authorities is required when Renminbi is converted into foreign currencies and remitted out of China for capital-account transactions, such as the repatriation of equity investment in China and the repayment of the principal of loans denominated in foreign currencies. Such restrictions on foreign exchange transactions under capital accounts also affect our ability to finance our PRC subsidiaries. Subsequent to this offering, we have the choice, as permitted by the PRC foreign investment regulations, to invest our net proceeds from this offering in the form of registered capital or a shareholder loan into our PRC subsidiaries to finance our operations in China. Our choice of investment is affected by the relevant PRC regulations with respect to capital-account and current-account foreign exchange transactions in China. Our investment decisions are additionally affected by various other measures taken by the PRC government relating to the PRC property market as we have disclosed in the section entitled "Industry Overview — China's Property Markets — Real Estate Reforms." In addition, our transfer of funds to our subsidiaries in China is subject to approval by PRC governmental authorities in the case of an increase in registered capital, and subject to approval by and registration with PRC governmental authorities in case of shareholder loans

to the extent that the existing foreign investment approvals received by our PRC subsidiaries permit any such shareholder loans at all. These limitations on the flow of funds between us and our PRC subsidiaries could restrict our ability to act in response to changing market conditions.

Fluctuations in the value of Renminbi may adversely affect our business and the value of distributions by our PRC subsidiaries.

The value of Renminbi depends, to a large extent, on the PRC domestic and international economic, financial and political developments and governmental policies, as well as the currency's supply and demand in the local and international markets. From 1994 to 2005, the conversion of Renminbi into foreign currencies was based on exchange rates set and published daily by PBOC in light of the previous day's interbank foreign exchange market rates in China and the then current exchange rates on the global financial markets. The official exchange rate for the conversion of Renminbi into the U.S. dollar was largely stable until July 2005. On July 21, 2005, PBOC revalued Renminbi by reference to a basket of foreign currencies, including the U.S. dollar. As a result, the value of Renminbi appreciated by more than 2% on that day. Since then, the PBOC has allowed the official Renminbi exchange rate to float against a basket of foreign currencies. The PBOC doubled the width of US\$-RMB onshore trading band to $\pm 2\%$ from $\pm 1\%$ on March 17, 2014, which further increased the volatility between US\$-RMB exchanges. For the year ended December 31, 2014, Renminbi depreciated 0.36% against the U.S. dollar, the first depreciation since the Renminbi exchange reform in 2005. The PBOC announced on August 11, 2015 that it would improve the middle price quotation mechanism for determining the US\$-RMB exchange rates. On the same day, the daily reference rate for Renminbi against U.S. dollars depreciated by 1.9% to 6.2298 compared with 6.1162 for August 10, 2015. The International Monetary Fund announced on September 30, 2016 that, effective from October 1, 2016, the Renminbi will be added to its Special Drawing Rights currency basket. Such change and additional future changes may increase the volatility in the trading value of the Renminbi against foreign currencies. The PRC government may adopt further reforms of its exchange rate system, including making the Renminbi freely convertible in the future. We cannot assure you that such exchange rate will not fluctuate widely against the U.S. dollar or any other foreign currency in the future. Since our income and profits are denominated in Renminbi, any appreciation of Renminbi will increase the value of dividends and other distributions payable by our PRC subsidiaries in foreign currency terms. Conversely, any depreciation of Renminbi will decrease the value of dividends and other distributions payable by our PRC subsidiaries in foreign currency terms. Fluctuation of the value of Renminbi will also affect the amount of our foreign debt service in Renminbi terms since we have to convert Renminbi into foreign currencies to service our indebtedness denominated in foreign currencies.

There are limited hedging instruments available in China to reduce our exposure to exchange rate fluctuations between Renminbi and other currencies. To date, we have not entered into any hedging transactions to reduce our exposure to such risks. Following the issuance of the Notes, we may enter into foreign exchange or interest rate hedging arrangements in respect of our U.S. dollar-denominated liabilities under the Notes. These hedging arrangements may require us to pledge or transfer cash and other collateral to secure our obligations under the arrangements, and the amount of collateral required may increase as a result of mark-to-market adjustments. The Initial Purchasers and their respective affiliates may enter into such hedging arrangements permitted under the Indentures, and these arrangements may be secured by pledges of our cash and other assets as permitted under the Indentures. If we were unable to provide such collateral, it could constitute a default under such hedging arrangements.

Interpretation of PRC laws and regulations involves uncertainty.

Our core business is conducted within China and is governed by PRC laws and regulations. The PRC legal system is based on written statutes, and prior court decisions can only be used as a reference. Since 1979, the PRC government has promulgated laws and regulations in relation to economic matters such as foreign investment, corporate organization and governance, commerce, taxation and trade, with a view to developing a comprehensive system of commercial law, including laws relating to property

ownership and development. However, due to the fact that these laws and regulations have not been fully developed, and because of the limited volume of published cases and the non-binding nature of prior court decisions, interpretation of PRC laws and regulations involves a degree, sometimes a significant degree, of uncertainty. Furthermore, the legal protections available to us under these laws, rules and regulations may be limited. Any litigation or regulatory enforcement action in China may be protracted and could result in substantial costs and diversion of resources and management attention.

Depending on the governmental agency or the presentation of an application or case to such agency, we may receive less favorable interpretations of laws and regulations than our competitors. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention. All these uncertainties may cause difficulties in the enforcement of our land use rights, entitlements under our permits, and other statutory and contractual rights and interests.

You may experience difficulty in effecting service of legal process, enforcing foreign judgments or bringing original actions in China based on foreign laws against us, our directors and our senior management.

We conduct substantially all of our operations in China and substantially all of our assets are located in China. In addition, the substantial majority of our directors and senior management reside within China. As a result, it may not be possible for investors to effect service of process outside China upon the substantial majority of our directors and senior management. Moreover, China does not have treaties with the United States, the United Kingdom or many other countries providing for the reciprocal recognition and enforcement of the judgment of courts. As a result, recognition and enforcement in China of judgments of a court in any of these jurisdictions may be difficult.

The national and regional economies in China and our prospects may be adversely affected by natural disasters, acts of God, and occurrence of epidemics.

Our business is subject to general economic and social conditions in China. Natural disasters, epidemics and other acts of God which are beyond our control may adversely affect the economy, infrastructure and livelihood of the people in China. Some regions in China, including the cities where we operate, are under the threat of flood, earthquake, sandstorm, snowstorm, fire, drought or epidemics such as Severe Acute Respiratory Syndrome, or SARS, H5N1 avian flu or the human swine flu, also known as Influenza A (H1N1). In addition, past occurrences of epidemics, depending on their scale, have caused different degrees of damage to the national and local economies in China. A recurrence of SARS or an outbreak of any other epidemics in China, such as the H5N1 avian flu or the human swine flu, especially in the cities where we have operations, may result in material disruptions to our property development and our sales and marketing, which in turn may adversely affect our financial condition and results of operations.

Risks Relating to the Notes

We are a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries.

We are a holding company with no material operations. We conduct our operations mainly through our PRC subsidiaries. The Notes will not be guaranteed by any current or future PRC subsidiaries and certain of our offshore subsidiaries. Our primary assets are ownership interests in our PRC subsidiaries, which are held through the Subsidiary Guarantors and certain Non-Guarantor Subsidiaries and Unrestricted Subsidiaries. The Subsidiary Guarantors do not, and the JV Subsidiary Guarantors (if any) may not, have material operations. Accordingly, our ability to pay principal and interest on the Notes and the ability of the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) to satisfy their obligations under the Subsidiary Guarantees or the JV Subsidiary Guarantees (as the case may be) will depend upon our receipt of principal and interest payments on the intercompany loans and distributions of dividends from our subsidiaries.

Creditors, including trade creditors of Non-Guarantor Subsidiaries and Unrestricted Subsidiaries and any holders of preferred shares in such entities, would have a claim on the these subsidiaries' assets that would be prior to the claims of holders of the Notes. As a result, our payment obligations under the Notes will be effectively subordinated to all existing and future obligations of our Non-Guarantor Subsidiaries and Unrestricted Subsidiaries, including their obligations under guarantees they have issued or will issue in connection with our business operations, and all claims of creditors of our Non-Guarantor Subsidiaries and Unrestricted Subsidiaries will have priority as to the assets of such entities over our claims and those of our creditors, including holders of the Notes. In addition, certain of our offshore subsidiaries are permitted to not guarantee the Notes and not have their capital stock pledged to secure the Notes, *provided* that, the consolidated assets of all these offshore subsidiaries do not exceed 20% of our Relevant Total Assets. As of December 31, 2016, our Non-Guarantor Subsidiaries and Unrestricted Subsidiaries had total borrowings of approximately RMB450,433 million (US\$64,876 million), capital commitments of approximately RMB223,779 million (US\$32,231 million) and contingent liabilities arising from guarantees of approximately RMB257,448 million (US\$37,080 million). The Notes, the Existing Notes and their respective indentures permit us, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any) and our Non-Guarantor Subsidiaries and Unrestricted Subsidiaries to incur additional indebtedness (including secured indebtedness) and issue additional guarantees, subject to certain limitations. In addition, our secured creditors or those of any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) would have priority as to our assets or the assets of such Subsidiary Guarantor or JV Subsidiary Guarantor (if any) securing the related obligations over claims of holders of the Notes.

Under the terms of the Notes, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the Notes may be replaced by a limited-recourse guarantee, or JV Subsidiary Guarantee, following the sale or issuance to, or a purchase from, a third party of an equity interest in such subsidiary or its direct or indirect majority shareholders (subject to the satisfaction of certain conditions). Recovery under a JV Subsidiary Guarantee is limited to an amount equal to our proportional interest in the issued share capital of such Subsidiary Guarantor, or JV Subsidiary Guarantor, multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year end of the Company. As a

result, the amount that may be recovered by the Notes Trustee pursuant to a JV Subsidiary Guarantee (compared to a Subsidiary Guarantee) is reduced, which in turn may affect your ability to recover any amounts due under the Notes.

We have substantial indebtedness and may incur substantial additional indebtedness in the future, which could adversely affect our financial health and our ability to generate sufficient cash to satisfy our outstanding and future debt obligations.

We now have, and will continue to have after the issuance of the Notes, a substantial amount of indebtedness. Our total borrowings, including both current and non-current borrowings, and the Existing Notes as of December 31, 2014, 2015 and 2016 were RMB156,064 million, RMB296,906 million and RMB535,070 million (US\$77,066 million), respectively. Since December 31, 2016, we have also incurred additional debt in the ordinary course of business to finance our operations and to refinance our short-term debt. Subsequent to December 31, 2016 and up to May 31, 2017, we incurred additional material borrowings (net of repayments) in the aggregate amount of not less than RMB100 billion (US\$14 billion). See also “Description of Material Indebtedness and Other Obligations.”

Our substantial indebtedness could have important consequences to you. For example, it could:

- limit our ability to satisfy our obligations under the Notes and the Existing Notes and other debt;
- increase our vulnerability to adverse general economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to servicing and repaying our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and for other general corporate purposes;
- limit our flexibility in planning for or reacting to changes in our businesses and the industry in which we operate;
- place us at a competitive disadvantage compared to our competitors that have less debt;
- limit, along with the financial and other restrictive covenants of our indebtedness, among other things, our ability to borrow additional funds; and
- increase the cost of additional financing.

In the future, we may from time to time incur substantial additional indebtedness and contingent liabilities. Under the Notes, our ability to incur additional debt is subject to the limitation on indebtedness and preferred stock covenant. Under such covenant, we may incur (i) certain Permitted Indebtedness or (ii) additional indebtedness if we can, among other things, satisfy the Fixed Charge Coverage Ratio. The Fixed Charge Coverage Ratio is derived by dividing Consolidated EBITDA by Consolidated Fixed Charges. Because our definition of Consolidated EBITDA includes our unrealized gains on valuation adjustments on our investment properties, our Consolidated EBITDA and therefore our ability to incur additional debt under such covenant, could be substantially larger when compared to other similarly situated PRC-based issuers of high-yield bonds whose covenant does not typically include unrealized gains in the calculation of their respective consolidated EBITDA. In addition, Consolidated Fixed Charges comprises of Consolidated Interest Expense and dividends paid on any Disqualified Stock or Preferred Stock of the Company or any Restricted Subsidiary. Because our definition of Consolidated Interest Expense, with respect to interest accruing on indebtedness of any person other than the Company or any Restricted Subsidiary that is guaranteed by, or secured by a lien on any asset of, the Company or any Restricted Subsidiary only includes interest that has become due and payable by the Company or any Restricted Subsidiary, as the case maybe, our Consolidated Fixed Charges would be substantially lower, and therefore our ability to incur additional debt under such

covenant could be substantially larger, when compared to other similarly situated PRC high yield issuers whose covenant typically includes such interest regardless of whether it has become due and payable by the Company or any Restricted Subsidiary or not. If we or our subsidiaries incur additional debt, the risks that we face as a result of our already substantial indebtedness and leverage could intensify.

Our ability to generate sufficient cash to satisfy our outstanding and future debt obligations will depend upon our future operating performance, which will be affected by prevailing economic conditions and financial, business and other factors, many of which are beyond our control. We anticipate that our operating cash flow will be sufficient to meet our anticipated operating expenses and to service our debt obligations as they become due. However, we cannot assure you that we will be able to generate sufficient cash flow for these purposes. If we are unable to service our indebtedness, we will be forced to adopt an alternative strategy that may include actions such as reducing or delaying capital expenditures, selling assets, restructuring or refinancing our indebtedness or seeking equity capital. These strategies may not be instituted on satisfactory terms, if at all.

In addition, the terms of the Indentures and the Existing Indentures prohibit us from incurring additional indebtedness unless (i) we are able to satisfy certain financial ratios or (ii) we are able to incur such additional indebtedness pursuant to any of the exceptions to the financial ratio requirements, and meet any other applicable restrictions. Our ability to meet our financial ratios may be affected by events beyond our control. We cannot assure you that we will be able to meet these ratios. Certain of our financing arrangements also impose operating and financial restrictions on our business. See the section entitled “Description of Material Indebtedness and Other Obligations.” Such restrictions in the Indentures, the Existing Indentures and our other financing arrangements may negatively affect our ability to react to changes in market conditions, take advantage of business opportunities we believe to be desirable, obtain future financing, fund required capital expenditures, or withstand a continuing or future downturn in our business or the general economy. Moreover, the distributions on the Perpetual Capital Instruments are not accounted for as interest expenses under HKFRS and we therefore do not include such distributions when calculating the Fixed Charge Coverage Ratio under our bank facilities and senior notes, including the Notes. In addition, because the Perpetual Capital Instruments are not Capital Stock, we do not treat distributions on the Perpetual Capital Instruments as Restricted Payments under our senior notes, including the Notes. We might in certain circumstances be able to make distributions on the Perpetual Capital Instruments that we would not otherwise be entitled to under the covenants governing our bank facilities and senior notes, including the Notes, if the distributions were treated as an interest expense or a Restricted Payment. Any of these factors could materially and adversely affect our ability to satisfy our obligations under the Notes, the Existing Notes and other debt.

Our subsidiaries are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to us and our subsidiaries.

As a holding company, we depend on the receipt of dividends and the interest and principal payments on intercompany loans or advances from our subsidiaries, including our PRC subsidiaries, to satisfy our obligations, including our obligations under the Notes and the Existing Notes. The ability of our subsidiaries to pay dividends and make payments on intercompany loans or advances to their shareholders is subject to, among other things, distributable earnings, cash flow conditions, restrictions contained in the articles of association of our subsidiaries, applicable laws and restrictions contained in the debt instruments or agreements of such subsidiaries. Currently, some of the instruments governing debt for our PRC subsidiaries contain restrictions that require such PRC subsidiaries to obtain approval from lending banks or other financial institutions prior to distributing any dividends. Such restrictions may adversely affect the calculation of our Consolidated EBITDA, and in turn our ability to undertake additional financing, investment or other transactions under the terms of the Notes. In addition, the shares and assets, including dividends derived from these shares, of certain of our subsidiaries are pledged to secure some of our indebtedness. Furthermore, if any of our subsidiaries raises capital by issuing equity securities to third parties, dividends declared and paid with respect to such equity securities would not be available to us to make payments on the Notes. These restrictions could reduce

the amounts that we receive from our subsidiaries, which would restrict our ability to meet our payment obligations under the Notes and the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees as the case may be.

PRC laws and regulations permit payment of dividends only out of accumulated profits as determined in accordance with PRC accounting standards and regulations and such profits differ from profits determined in accordance with HKFRS in certain significant respects, including the use of different bases of recognition of revenue and expenses. Our PRC subsidiaries are also required to set aside a portion of their after-tax profits according to PRC accounting standards and regulations to fund certain reserves that are not distributable as cash dividends. In practice, our PRC project companies may pay dividends when (i) they have completed the project development, or at least have completed a phase of the project or a stand-alone tower or building and its revenue is recognized and (ii) the required government tax clearance and foreign exchange procedures have been completed. In addition, starting from January 1, 2008, dividends for the year 2008 and onward paid by our PRC subsidiaries to their non-PRC parent companies will be subject to a 10% withholding tax, unless there is a tax treaty between the PRC and the jurisdiction in which the overseas parent company is incorporated that specifically exempts or reduces such withholding tax. Pursuant to an avoidance of double taxation arrangement between Hong Kong and the PRC, if the non-PRC parent company is a Hong Kong resident and directly holds a 25% or more interest in the PRC enterprise, such PRC withholding tax rate may be lowered to 5%, although there exists uncertainty due to several PRC governmental circulars regarding whether and the extent to which Hong Kong holding companies may be eligible for the benefits under this arrangement. As a result of such restrictions, there could be limitations on payments from our PRC subsidiaries to meet payments required by the Notes or to satisfy the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees as the case may be, and there could be restrictions on payments required to redeem the Notes at maturity or as required for any early redemption.

Furthermore, although we currently do not have any offshore shareholder loan to our PRC subsidiaries, we may resort to such offshore lending in the future, rather than equity contribution, to our PRC subsidiaries to finance their operations. In such event, the market interest rates that our PRC subsidiaries can pay with respect to offshore loans generally may not exceed comparable interest rates in the international finance markets. The interest rates on shareholder loans paid by our subsidiaries, therefore, are likely to be lower than the interest rate for the Notes, or any of the Existing Notes. Our PRC subsidiaries are also required to pay a 10% (if the interest is paid to a Hong Kong resident under certain circumstances) withholding tax on our behalf on the interest paid under any shareholder loan. Prior to payment of interest and principal on any such shareholder loan, the PRC subsidiaries (as foreign-invested enterprises in China) must present evidence of payment of the withholding tax on the interest payable on any such shareholder loan and evidence of registration with SAFE, as well as any other documents that SAFE or its local branch may require.

As a result of the foregoing, we cannot assure you that we will have sufficient cash flow from dividends or payments on intercompany loans or advances from our subsidiaries to satisfy our obligations under the Notes, the Existing Notes or the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees as the case may be.

Under PRC regulations, we may not be able to transfer to our PRC subsidiaries proceeds from this offering in the form of a loan, which could impair our ability to make timely payments of interest, or even principal, under the Notes or the Existing Notes.

According to the existing PRC rules and regulations relating to supervision of foreign debt, loans by foreign companies to their subsidiaries in China, such as our PRC subsidiaries established as foreign-invested enterprises in China, are considered foreign debt, and such loans must be registered with the relevant local branches of SAFE. Such rules and regulations also provide that the total outstanding amount of such foreign debt borrowed by any foreign-invested enterprise may not exceed the difference

between its total investment and its registered capital, each as approved by the relevant PRC authorities. According to the Guide for Foreign Debt Registration Management 《外債登記管理操作指引》 promulgated in April 2013, for a foreign-invested real estate enterprise that was established prior to June 1, 2007, SAFE could process such enterprise's foreign debt registration in an amount not exceeding the difference between the total investment in such enterprise and its registered capital. However, it is uncertain how the SAFE and local authorities will interpret and implement this Guide. Foreign-invested enterprises include joint ventures and wholly foreign-owned enterprises established in China, such as most of our PRC subsidiaries. Therefore, the proceeds of this offering that will be used for land acquisitions and developments in China may only be transferred to our PRC subsidiaries as equity investments and not as loans. Without having the flexibility to transfer funds to our PRC subsidiaries as loans, we cannot assure you that the dividend payments from our PRC subsidiaries will be available on each interest payment date to pay the interest due and payable under the Notes or the Existing Notes, or on the maturity date to pay the principal of the outstanding Notes or the Existing Notes.

The terms of the Notes permit us to consummate the transactions contemplated by the Proposed Reorganization and the Strategic Investments.

The terms of the Notes will permit the Company to consummate transactions contemplated by the Proposed Reorganization and the Strategic Investments. For more information see “Summary — Recent Developments — Proposed Reorganization and Strategic Investments” and “Risks Relating to our Business — We face risks associated with the Proposed Reorganization and Strategic Investments.” The consummation of such transactions will result in, amongst others:

- the Company's beneficial ownership interest in the Target Assets being reduced;
- the Company's proportional interest in any dividend payments on the Target Assets through its new holding company, Shenzhen Real Estate, which is listed on the Shenzhen Stock Exchange A-share market, possibly being subject to restrictions or limitations imposed by its charter or organizational documents, relevant laws and regulations and/or the Shenzhen Stock Exchange;
- restrictions on providing onshore guarantees or security for offshore credit (*nei bao wai dai*), which the Company uses to fund its offshore cash and financing requirements, as a result of Shenzhen Real Estate being the holding company for the Target Assets; and
- assets which are currently owned by Subsidiary Guarantors or JV Subsidiary Guarantors no longer being owned by an entity that provides a Subsidiary Guarantee or JV Subsidiary Guarantee.

We may not be able to repurchase the Notes and the Existing Notes upon a change of control triggering event.

We must offer to purchase the Notes and the Existing Notes upon the occurrence of a change of control triggering event, at a purchase price equal to 101% of the principal amount plus accrued and unpaid interest in accordance with the terms of the respective indentures. See the sections entitled “Description of 2021 Notes,” “Description of 2023 Notes,” “Description of 2025 Notes” and “Description of Material Indebtedness and Other Obligations.”

The source of funds for any such purchase would be our available cash or third-party financing. However, we may not have sufficient available funds at the time of the occurrence of any change of control triggering event to make purchases of outstanding Notes and the outstanding Existing Notes. Our failure to make the offer to purchase or to purchase the outstanding Notes and the outstanding Existing Notes would constitute an Event of Default under the Notes and the Existing Notes. The Event of Default may, in turn, constitute an event of default under other indebtedness, any of which could cause the related debt to be accelerated after any applicable notice or grace periods. If our other debt were to

be accelerated, we may not have sufficient funds to purchase the Notes, the Existing Notes and repay the debt. Moreover, the ability of the Collateral Agent, on behalf of the holders of the Notes, to foreclose on the Collateral upon the occurrence of an Event of Default or otherwise will be subject to the terms of the Intercreditor Agreement and the Security Documents as well as in certain instances to perfection and priority status. See “— Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral.”

In addition, the definition of change of control triggering event for purposes of the Indentures does not necessarily afford protection for the holders of the Notes in the event of some highly leveraged transactions, including certain acquisitions, mergers, refinancings, restructurings or other recapitalizations. These types of transactions could, however, increase our indebtedness or otherwise affect our capital structure or credit ratings. The definition of change of control triggering event for purposes of the Indentures also includes a phrase relating to the sale of “all or substantially all” of our assets. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition under applicable law. Accordingly, our obligation to make an offer to purchase the Notes and the ability of a holder of the Notes to require us to purchase its Notes pursuant to the offer as a result of a highly leveraged transaction or a sale of less than all of our assets may be uncertain.

The terms of the Notes permit us to make investments in Unrestricted Subsidiaries and minority owned joint ventures; the terms of the Notes also give us flexibility to pay dividends and repurchase our shares.

In light of land prices, sizes of projects, the competitive landscape and other factors, we may from time to time consider developing properties jointly with other property developers. In addition, we may consider making strategic investments in non-real estate industries as part of our plan to diversify our business. As a result, we may need to make investments in joint ventures (including joint ventures in which we may own less than a 50% equity interest) and such joint ventures may or may not be Restricted Subsidiaries under the Indentures and the Existing Indentures. Although the Indentures and the Existing Indentures restrict us and our Restricted Subsidiaries from making investments in Unrestricted Subsidiaries or joint ventures, these restrictions are subject to important exceptions and qualifications. In particular, the Indentures do not impose a minimum shareholding requirement or restrict the types of business these entities are engaged in. Under the Indentures, we are also not required to satisfy the Fixed Charge Coverage Ratio for such investments up to 12.5% of the Total Assets. We also have a general basket of making investments that is not subject to any conditions for up to 1% of the Total Assets. See the sections entitled “Description of 2021 Notes — Certain Covenants — Limitation on Restricted Payments,” “Description of 2023 Notes — Certain Covenants — Limitation on Restricted Payments” and “Description of 2025 Notes — Certain Covenants — Limitation on Restricted Payments.”

In addition, notwithstanding any other provision of the “Limitation on Restricted Payments” covenant under the terms of the Notes, we are not required to satisfy the Fixed Charge Coverage Ratio for any restricted payment consisting solely of the declaration or payment of dividends in cash on our Common Stock or the repurchase of our Common Stock and otherwise have flexibility to make substantial amounts of dividend distributions on our Common Stock and repurchases of our Common Stock. See “Description of 2021 Notes — Certain Covenants — Limitation on Restricted Payments,” “Description of 2023 Notes — Certain Covenants — Limitation on Restricted Payments” and “Description of 2025 Notes — Certain Covenants — Limitation on Restricted Payments.”

The terms of the Notes permit us to engage in businesses that may not be related to our real estate business.

As part of our strategy, we have taken significant initiatives or made significant plans to enter new businesses with a view to establishing alternative revenue sources and diversifying our business. The Indentures will not restrict us and our Restricted Subsidiaries from expanding into businesses that we

are not currently engaged in. Subject to certain restrictions, we may also make minority investments in connection with such diversification. See “— The terms of the Notes permit us to make investments in Unrestricted Subsidiaries and minority owned joint ventures; the terms of the Notes also give us flexibility to pay dividends and repurchase our shares.” Our expansion into new businesses will expose us to risks that are different from those we have faced in the past. See “— Risks Relating to Our Business — We have started expanding our operations into other industries and such expansion may not be successful.”

The terms of the Notes permit us to buy out minority interests in non-wholly owned Restricted Subsidiaries, and such purchases will not constitute Restricted Payments.

The Indentures permit us to redeem, repurchase or otherwise acquire minority interests in our Restricted Subsidiaries held by Independent Third Parties, and such purchases will not constitute Restricted Payments. See “Description of 2021 Notes — Certain Covenants — Limitation on Restricted Payments,” “Description of 2023 Notes — Certain Covenants — Limitation on Restricted Payments” and “Description of 2025 Notes — Certain Covenants — Limitation on Restricted Payments.” Even though such transactions would potentially increase our ownership interests in the relevant Restricted Subsidiary, we may have to pay substantial amounts of consideration in these transactions, whether in cash or other assets, which may adversely impact our business, results of operations and financial condition.

The terms of the Notes permit us to designate any Non-Core Entity as an Unrestricted Subsidiary in connection with any Qualified Spin-off IPO, and investments we retain in such Unrestricted Subsidiaries will not constitute Restricted Payments upon such designation.

As part of our strategy, we have taken significant initiatives or made significant plans to enter new businesses with a view to establishing alternative revenue sources and diversifying our business. We may spin off such new businesses, as well as our property management business and acquisition, development, management and operation of hotel properties, commercial properties, or sports, leisure or infrastructure facilities, in the future as we desire. Subject to certain restrictions, in connection with a spin-off listing of Non-Core Entities that are engaged in businesses other than our core real estate development business, the terms of the Notes permit us to designate any such Non-Core Entity as an Unrestricted Subsidiary, and any interests we retain in such Non-Core Entities will not constitute Restricted Payments upon such designation. See “Description of 2021 Notes — Certain Covenants — Limitation on Restricted Payments,” “Description of 2023 Notes — Certain Covenants — Limitation on Restricted Payments,” “Description of 2025 Notes — Certain Covenants — Limitation on Restricted Payments” and the definition of “Permitted Investment” therein. We currently do not have any plan for such spin off listing of Non-Core Entities and do not expect to make such designations. The effects of any such designation, if applicable, include, but are not limited to, that:

- any entity so designated as an Unrestricted Subsidiary will no longer be subject to the covenants under the Indentures;
- the Subsidiary Guarantees of any entity so designated as an Unrestricted Subsidiary may be released, and the shares of such entity previously pledged to the Collateral Agent or the Existing Notes Trustee for the benefit of the holders of the Notes may be released; and
- interest expenses on Indebtedness of any entity so designated as an Unrestricted Subsidiary will not be included in the calculation of our Consolidated Interest Expense, other than such interest expenses on Indebtedness that is Guaranteed by the Company or a Restricted Subsidiary.

In addition, the terms of the Notes provide us with additional flexibility to designate subsidiaries as Unrestricted Subsidiaries, so long as such subsidiaries do not have existing indebtedness that could actually trigger a cross-default to the debt of the Company at the time of designation, and if other

conditions are satisfied. See “Description of 2021 Notes — Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries,” “Description of 2023 Notes — Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries” and “Description of 2025 Notes — Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries.”

The terms of the Notes permit the Company and each Subsidiary Guarantor and JV Subsidiary Guarantor to transfer all or substantially all of its and its Restricted Subsidiaries’ properties and assets to any Restricted Subsidiary.

The Company and each Subsidiary Guarantor or JV Subsidiary Guarantor will be permitted to sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries’ properties and assets to any Restricted Subsidiary, including as part of the Proposed Reorganization, without satisfying the restrictions under consolidation, merger and sale of assets covenant. See “Description of 2021 Notes — Consolidation, Merger and Sale of Assets,” “Description of 2023 Notes — Consolidation, Merger and Sale of Assets” and “Description of 2025 Notes — Consolidation, Merger and Sale of Assets.” The effects of any such transfer, if applicable, include, but are not limited to, that the Person into which such assets are transferred may not be the Company or a Subsidiary Guarantor or JV Subsidiary Guarantor and will have no obligation to become a Subsidiary Guarantor or JV Subsidiary Guarantor concurrently with the transaction.

Certain of our offshore Restricted Subsidiaries will be permitted to not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee, and their shares will not be required to be pledged for the benefit of the holders of the Notes.

According to the terms of the Notes, certain offshore Restricted Subsidiaries will not be required to deliver a Subsidiary Guarantee or a JV Subsidiary Guarantee, and their shares will not be required to be pledged for the benefit of the holders of the Notes, including the following:

- a publicly listed Restricted Subsidiary and its Subsidiaries;
- any Restricted Subsidiary organized in any jurisdiction other than the PRC that is directly or indirectly owned by certain of PRC Persons (see the definition of “Exempted Subsidiary” in “Description of 2021 Notes,” “Description of 2023 Notes” and “Description of 2025 Notes”);
- any Restricted Subsidiary the provision of a Subsidiary Guarantee or a JV Subsidiary Guarantee by which would be prohibited by any applicable laws or regulations or any applicable rules or policies of any applicable governmental or regulatory bodies or agencies; and
- offshore Restricted Subsidiaries whose consolidated assets in the aggregate do not exceed 20% of our Relevant Total Assets.

See “— The Subsidiary Guarantees and the JV Subsidiary Guarantees” and “— The Security” sections and the definitions of “Listed Subsidiary,” “Exempted Subsidiary” and “Relevant Total Assets” in the sections entitled “Description of 2021 Notes,” “Description of 2023 Notes” and “Description of 2025 Notes.” As a result of these exemptions, certain of our offshore Restricted Subsidiaries, which may constitute substantial revenue sources and/or hold substantial assets, will not be guaranteeing the Notes, and their shares are not required to be pledged for the benefit of the holders of the Notes.

We may be able to redeem the Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest in the event we are required to pay additional amounts because we are treated as a PRC “resident enterprise.”

In the event that we are treated as a PRC “resident enterprise” under the PRC Enterprise Income Tax Law, as described in “— Risks Relating to Our Business — We may be deemed a PRC resident enterprise under the PRC Enterprise Income Tax Law, which may subject us to PRC taxation on our worldwide income, require us to withhold taxes on interest we pay on the Notes and require holders of the Notes to pay taxes on gains realized from the sale of the Notes,” we may be required to withhold PRC tax on interest payable to non-resident holders of the Notes. In such case, we will, subject to certain exceptions, be required to pay such additional amounts so that a holder of a New Note will receive the same amounts as he would have received had no such withholding been required. As described under “Description of 2021 Notes — Redemption for Taxation Reasons,” “Description of 2023 Notes — Redemption for Taxation Reasons” and “Description of 2025 Notes — Redemption for Taxation Reasons,” in the event we are required to pay additional amounts as a result of certain changes in or interpretations of tax law, including any change of interpretation or the stating of an official position that results in our being required to withhold tax on interest payments as a result of our being treated as a PRC “resident enterprise,” we may select to redeem the Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest. A holder of the Notes may therefore be redeemed at an earlier time prior to the Notes’ stated maturity date.

The insolvency laws of the Cayman Islands, the British Virgin Islands, Hong Kong and other local insolvency laws may differ from U.S. bankruptcy law or those of another jurisdiction with which holders of the Notes are familiar.

Because we and some of the Subsidiary Guarantors and JV Subsidiary Guarantors (if any) are incorporated under the laws of the Cayman Islands, an insolvency proceeding relating to us or any such Subsidiary Guarantor or JV Subsidiary Guarantor, even if brought in the United States, would likely involve Cayman Islands insolvency laws, the procedural and substantive provisions of which may differ from comparable provisions of United States federal bankruptcy law. In addition, our other Subsidiary Guarantors and JV Subsidiary Guarantors (if any) are incorporated or may be incorporated in the British Virgin Islands or Hong Kong and the insolvency laws of the British Virgin Islands and Hong Kong may also differ from the laws of the United States or other jurisdictions with which the holders of the Notes are familiar.

We conduct substantially all of our business operations through PRC-incorporated subsidiaries in China. The Subsidiary Guarantors, as equity holders in our PRC subsidiaries, are necessarily subject to the bankruptcy and insolvency laws of China in a bankruptcy or insolvency proceeding involving any of such PRC subsidiaries. Any JV Subsidiary Guarantors that become equity holders of our PRC subsidiaries would also be subject to such laws. The PRC laws and regulations relating to bankruptcy and insolvency and the legal proceedings in that regard may differ significantly from those of the United States and other jurisdictions with which the holders of the Notes are familiar. You should analyze the risks and uncertainties carefully before you invest in our Notes.

We may not be able to obtain and remit foreign exchange.

Our ability to satisfy our obligations under the Notes depends solely upon the ability of our PRC subsidiaries to obtain and remit sufficient foreign currency to pay dividends to us and, if applicable, to repay shareholder loans. Our PRC subsidiaries must present certain documents to the SAFE, its authorized branch or the designated foreign exchange bank, for approval before they can obtain and remit foreign currencies out of China, including, in the case of dividends, evidence that the relevant PRC taxes have been paid and, in the case of shareholder loans, evidence of the registration of the loan with the SAFE. Prior to payment of interest and principal on any shareholder loan we make to our PRC subsidiaries, the relevant PRC subsidiary must also present evidence of payment of the 10% (or 7% if the interest is paid to a Hong Kong resident under certain circumstances) withholding tax on the interest

payable in respect of such shareholder loan. If any PRC subsidiary for any reason fails to satisfy any of the PRC legal requirements for remitting foreign currency payments, the PRC subsidiary will be unable to pay us dividends or interest and principal on shareholder loans, which may affect our ability to satisfy our obligations under the Notes or the Existing Notes.

Our operations are restricted by the terms of the Notes and the Existing Notes, which could limit our ability to plan for or to react to market conditions or meet our capital needs, which could increase your credit risk.

The Indentures and the Existing Indentures include a number of significant restrictive covenants. These covenants restrict, among other things, our ability, and the ability of our Restricted Subsidiaries, to:

- incur or guarantee additional indebtedness and issue disqualified or preferred stock;
- declare dividends on capital stock or purchase or redeem capital stock;
- make investments or other specified restricted payments;
- issue or sell capital stock of Restricted Subsidiaries;
- guarantee indebtedness of Restricted Subsidiaries;
- sell assets;
- create liens;
- enter into sale and leaseback transactions;
- engage in any business other than permitted business;
- enter into agreements that restrict the Restricted Subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;
- enter into transactions with shareholders or affiliates; and
- effect a consolidation or merger.

These covenants could limit our ability to plan for or react to market conditions or to meet our capital needs. Our ability to comply with these covenants may be affected by events beyond our control, and we may have to curtail some of our operations and growth plans to maintain compliance.

A trading market for the Notes may not develop, and there are restrictions on resale of the Notes.

The Notes are a new issue of securities for which there is currently no trading market. Although application has been made to the SGX-ST for the listing and quotation of the Notes on the SGX-ST, we cannot assure you that we will obtain or be able to maintain a listing on the SGX-ST, or that if listed, a liquid trading market will develop. We have been advised that the Initial Purchasers intend to make a market in the Notes, but the Initial Purchasers are not obligated to do so and may discontinue such market making activity at any time without notice. In addition, the Notes are being offered pursuant to exemptions from registration under the Securities Act and, as a result, you will only be able to resell your Notes in transactions that have been registered under the Securities Act or in transactions not subject to or exempt from registration under the Securities Act. See "Transfer Restrictions." We cannot

predict whether an active trading market for the Notes will develop or be sustained. If an active trading market does not develop or does not continue, the market price and liquidity of the Notes could be adversely affected.

The Notes will initially be held in book-entry form, and therefore you must rely on the procedures of the relevant Clearing System to exercise any rights and remedies.

The Notes will initially only be issued in global certificated form and held through Euroclear and Clearstream. Interests in the global notes will trade in book-entry form only, and the Notes in definitive registered form, or definitive registered notes, will be issued in exchange for book-entry interests only in very limited circumstances. Owners of book-entry interests will not be considered owners or holders of the Notes. Payments of principal, interest and other amounts owing on or in respect of the global notes representing the Notes will be made to the paying agent which will make payments to Euroclear and Clearstream. Thereafter, these payments will be credited to accounts of participants that hold book-entry interests in the global notes representing the Notes and credited by such participants to indirect participants. After payment to the common depository for Euroclear and Clearstream, we will have no responsibility or liability for the payment of interest, principal or other amounts to the beneficial owners of book-entry interests. Accordingly, if you beneficially own a book-entry interest, you must rely on the procedures of Euroclear and Clearstream, and if you are not a participant in Euroclear and Clearstream, on the procedures of the participant through which you beneficially own your interest, to exercise any rights and obligations of a holder of the Notes under the Indentures. Unlike the holders of the Notes themselves, owners of book-entry interests will not have the direct right to act upon our solicitations for consents, requests for waivers or other actions from holders of the Notes. Instead, if you beneficially own a book-entry interest, you will be permitted to act only to the extent you have received appropriate proxies to do so from Euroclear and Clearstream. The procedures implemented for the granting of such proxies may not be sufficient to enable you to vote on a timely basis. Similarly, upon the occurrence of an event of default under the Indentures, unless and until definitive registered notes are issued in respect of all book-entry interests, as a beneficial owner of a book-entry interest, you will be restricted to acting through Euroclear and Clearstream and their respective direct and indirect participants. The procedures to be implemented through Euroclear and Clearstream may not be adequate to ensure the timely exercise of rights under the Notes.

The ratings assigned to the Notes and our corporate ratings may be lowered or withdrawn in the future.

The Notes are expected to be assigned a rating of B3 by Moody's and B- by S&P and Fitch. The ratings address our ability to perform our obligations under the terms of the Notes and credit risks in determining the likelihood that payments will be made when due under the Notes. Our Existing Notes are also similarly rated by some of these rating agencies. In addition, we have been assigned a long-term corporate credit rating of B with a stable outlook by S&P, a corporate family rating of B2 with a stable outlook by Moody's and a long-term foreign currency issuer default rating of B+ with a stable outlook by Fitch. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. We cannot assure you that a rating will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by the relevant rating agency if in its judgment circumstances in the future so warrant, including as a result of the increase in our level of indebtedness. We have no obligation to inform holders of the Notes of any such revision, downgrade or withdrawal. A suspension, reduction or withdrawal at any time of the rating assigned to us, the Notes or the Existing Notes, as the case may be, may adversely affect the market price of the Notes.

Certain transactions that constitute “connected transactions” under the Listing Rules will not be subject to the “Limitation on Transactions with Shareholders and Affiliates” covenant.

Our shares are listed on the Hong Kong Stock Exchange and we are required to comply with its Listing Rules, which provide, among other things, that any transaction between a listed company or any of its subsidiaries, on the one hand, and a “connected person” of such listed company, on the other hand, is a “connected transaction” that, if the value of such transaction exceeds the applicable de minimis thresholds, will require the prior approval of the independent shareholders of such listed company. The definition of “connected person” to a listed company includes, among others, any 10% or more shareholder of (i) such listed company or (ii) any subsidiary of such listed company. The concept of “connected person” also captures “associates,” which include, among others, (a) any subsidiary of such “connected person,” (b) any holding company of such “connected person” and any subsidiary of such holding company and (c) any company in which such entity or entities mentioned in (a) and (b) above taken together has/have the power to exercise control, directly or indirectly, of 30% or more of the voting power of such company.

The “Limitation on Transactions with Shareholders and Affiliates” covenant in each series of the Notes only applies to transactions between the Company or any Restricted Subsidiary, on the one hand, and (x) any holder (or any Affiliate of such holder) of 10% or more of any class of Capital Stock of the Company; or (y) any Affiliate of the Company, on the other hand. As such, transactions between the Company or any Restricted Subsidiary, on the one hand, and an Affiliate of any Restricted Subsidiary, on the other hand, will not be captured by such covenant, even though they may be connected transactions under the Hong Kong Stock Exchange Listing Rules and subject to any requirements under such Listing Rules to obtain approval from independent shareholders. As a result, we are not required by the terms of the Notes to ensure that any such transactions are on terms that are fair and reasonable, and we will not need to deliver officers’ certificates or procure the delivery of fairness opinions of accounting, appraisal or investment banking firms to the Notes Trustee for any such transactions.

Several initial investors may own a majority of one or more series of the Notes to be issued and may therefore be able to exercise certain rights and powers on behalf of all holders of such series of Notes. Additionally, this may reduce the liquidity of such series of Notes in the secondary trading market.

Several initial investors may own a majority of one or more series of the Notes being offered under this offering memorandum. Any holder of a majority in aggregate principal amount of any series of Notes will have certain rights and powers under such Indenture and related documents. For example, subject to certain exceptions, the holders of a majority in aggregate principal amount of a series of Notes may direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee for the particular series or exercising any trust or power conferred on it or direct the Trustee to instruct the Collateral Agent to foreclose on the Collateral for the particular series. In addition, as described in “Description of 2021 Notes — Amendments and Waivers,” “Description of 2023 Notes — Amendments and Waivers” and “Description of 2025 Notes — Amendments and Waivers” the Indentures, the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) may be amended with the consent of the holders of a majority in aggregate principal amount of the relevant series of Notes, and any Default or Event of Default or compliance with any provision of such Indenture, the relevant series of Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees (if any) may be waived with the consent of the holders of a majority in aggregate principal amount of the relevant series of the outstanding Notes, subject in each case to certain exceptions. Accordingly, any holder that holds a majority in aggregate principal amount of an outstanding series of Notes will be able to exercise such rights and powers on behalf of all holders of such series of Notes and control the outcome of votes on such matters.

In addition, any holder that holds a significant percentage of a series of Notes, even if less than a majority, will be able to exercise certain rights and powers and will have significant influence on matters voted on by holders of such series of Notes. For example, holders of at least 25% in aggregate principal amount of each series of Notes may declare all of such series of Notes to be immediately due and payable if certain types of Events of Default have occurred and are continuing.

Additionally, the existence of any such significant holder may reduce the liquidity of the relevant series of Notes in the secondary trading market. If such holder sells a material portion of any series of the Notes at any one time, it may materially and adversely affect the trading price of the Notes.

The liquidity and price of the Notes following their issuance may be volatile.

The price and trading volume of the Notes may be highly volatile. Factors such as variations in our revenues, earnings and cash flows, proposals for new investments, strategic alliances and/or acquisitions, changes in interest rates, fluctuations in price for comparable companies, government regulations and changes thereof applicable to our industry and general economic conditions nationally or internationally could cause the price of the Notes to change. Any such developments may result in large and sudden changes in the trading volume and price of the Notes. We cannot assure you that these developments will not occur in the future.

There may be less publicly available information about us than is available in certain other jurisdictions.

There may be less publicly available information about companies listed in Hong Kong than is regularly made available by public companies in certain other countries. In addition, the financial information in this offering memorandum has been prepared in accordance with HKFRS, which may differ in material respects from other GAAPs, which may in turn be material to the financial information contained in this offering memorandum. We have not prepared a reconciliation of our consolidated financial information and our consolidated financial statements and related footnotes between HKFRS and other GAAPs. In making an investment decision, you must rely upon your own examination of us, the terms of the offering and our financial information. You should consult your own professional advisors for an understanding of the differences between HKFRS and any other GAAPs and how those differences might affect the financial information contained in this offering memorandum.

We will follow the applicable corporate disclosure standards for debt securities listed on the SGX-ST, and such standards may be different from those applicable to debt securities listed in certain other countries.

We will be subject to continuing listing obligations in respect of the Notes listed on the SGX-ST. The disclosure standards imposed by the SGX-ST may be different than those imposed by securities exchanges in other countries or regions such as the United States or Hong Kong. As a result, the level of information that is available may not correspond to what holders of the Notes are accustomed to.

Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral

Our initial Subsidiary Guarantors do not currently have significant operations and certain Subsidiary Guarantees may in some cases be replaced by limited-recourse guarantees.

We conduct substantially all of our business operations through our PRC subsidiaries, but none of our current PRC subsidiaries and their direct PRC or non-PRC subsidiaries and minority-owned companies will provide a Subsidiary Guarantee or a JV Subsidiary Guarantee either upon issuance of the Notes or at any time thereafter. No future subsidiaries that are organized under the laws of PRC or their future PRC or non-PRC subsidiaries and minority-owned companies will provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at any time in the future. In addition, certain of our offshore subsidiaries are permitted to not guarantee the Notes and have their capital stock pledged to secure the Notes. See

“— Risks Relating to the Notes — Certain of our offshore Restricted Subsidiaries will be permitted to not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee, and their shares will not be required to be pledged for the benefit of the holders of the Notes.” As a result, the Notes will be effectively subordinated to all the debt and other obligations, including contingent obligations and trade payables, of the PRC subsidiaries and such subsidiaries and companies. See the sections entitled “Description of 2021 Notes — The Subsidiary Guarantees and the JV Subsidiary Guarantees,” “Description of 2023 Notes — The Subsidiary Guarantees and the JV Subsidiary Guarantees” and “Description of 2025 Notes — The Subsidiary Guarantees and the JV Subsidiary Guarantees” for a list of the Non-Guarantor Subsidiaries. Moreover, the Collateral will not include the capital stock of our existing or future Non-Guarantor Subsidiaries, including our PRC subsidiaries. Neither will the Collateral include the capital stock of any JV Subsidiary Guarantor.

The initial Subsidiary Guarantors that will guarantee the Notes do not have significant operations. In addition, the Subsidiary Guarantors also guarantee our obligations under the Existing Notes and certain of our bank loans. We cannot assure you that the initial Subsidiary Guarantors or any subsidiaries that may become Subsidiary Guarantors or JV Subsidiary Guarantors in the future will have the funds necessary to satisfy our financial obligations under the Notes and the Existing Notes if we are unable to do so. See “— Risks Relating to the Notes — We are a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries.”

In addition, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the Notes may be replaced by a limited-recourse JV Subsidiary Guarantee following the sale or issuance to, or purchase from, a third party of an equity interest in such subsidiary or its direct or indirect majority shareholders (subject to the satisfaction of certain conditions). Recovery under a JV Subsidiary Guarantee is limited to an amount equal to our proportional interest in the issued share capital of such JV Subsidiary Guarantor multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year end of the Company. We will not pledge any capital stock of a JV Subsidiary Guarantor as Collateral for the Notes.

Subsidiary Guarantees and JV Subsidiary Guarantees may be released under certain circumstances.

A Subsidiary Guarantee given by a Subsidiary Guarantor and a JV Subsidiary Guarantee given by a JV Subsidiary Guarantor may be released in certain circumstances, including but not limited to when such Subsidiary Guarantor or a JV Subsidiary Guarantor no longer guarantees any Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness.

The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees.

Under bankruptcy laws, fraudulent transfer laws, insolvency or unfair preference or similar laws in the Cayman Islands, the British Virgin Islands, Hong Kong and other jurisdictions where future Subsidiary Guarantors or JV Subsidiary Guarantors (if any) may be established, a guarantee could be voided, or claims in respect of a guarantee could be subordinated to all other debts of that guarantor if, among other things, the guarantor, at the time it incurred the indebtedness evidenced by, or when it gives, its guarantee:

- incurred the debt with the intent to hinder, delay or defraud creditors or was influenced by a desire to put the beneficiary of the guarantee in a position which, in the event of the guarantor’s insolvency, would be better than the position the beneficiary would have been in had the guarantee not been given;
- received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee;

- was insolvent or rendered insolvent by reason of the incurrence of such guarantee;
- was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or
- intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

The measure of insolvency for purposes of the foregoing will vary depending on the laws of the applicable jurisdiction. Generally, however, a guarantor would be considered insolvent at a particular time if it were unable to pay its debts as they fell due or if the sum of its debts was then greater than all of its properties at a fair valuation or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities in respect of its existing debts as they became absolute and matured.

In addition, a guarantee may be subject to review under applicable insolvency or fraudulent transfer laws in certain jurisdictions or subject to a lawsuit by or on behalf of creditors of the guarantor. In such case, the analysis set forth above would generally apply, except that the guarantee could also be subject to the claim that, since the guarantee was not incurred for the benefit of the guarantor, the obligations of the guarantor thereunder were incurred for less than reasonably equivalent value or fair consideration.

In an attempt to limit the applicability of insolvency and fraudulent transfer laws in certain jurisdictions, the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees (as the case may be) will be limited to the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor or JV Subsidiary Guarantor without rendering the guarantee, as it relates to such Subsidiary Guarantor or JV Subsidiary Guarantor, voidable under such applicable insolvency or fraudulent transfer laws.

If a court voids a Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be), subordinates such guarantee to other indebtedness of the Subsidiary Guarantor or JV Subsidiary Guarantor, or holds the Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be) unenforceable for any other reason, holders of the Notes would cease to have a claim against that Subsidiary Guarantor or JV Subsidiary Guarantor based upon such guarantee, would be subject to the prior payment of all liabilities (including trade payables) of such Subsidiary Guarantor or JV Subsidiary Guarantor (as the case may be), and would solely be creditors of us and any Subsidiary Guarantors or JV Subsidiary Guarantors whose guarantees have not been voided or held unenforceable. We cannot assure you that, in such an event, after providing for all prior claims, there would be sufficient assets to satisfy the claims of the holders of the Notes.

The pledge of certain Collateral may in some circumstances be voidable.

The pledge of the Collateral may be voidable as a preference under insolvency or fraudulent transfer or similar laws of Hong Kong, the Cayman Islands, the British Virgin Islands and other jurisdictions at any time within six months of the perfection of the pledge or, under some circumstances, within a longer period. Pledges of shares or capital stock of future Subsidiary Guarantors may also be voidable as a preference under relevant insolvency or fraudulent transfer or similar laws. In addition, the pledge of certain Collateral may be voided based on the analysis set forth under the risk factor entitled “— The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees” above.

If the pledges of the Collateral were to be voided for any reason, holders of the Notes would have only an unsecured claim against us and the Subsidiary Guarantor Pledgors.

The value of the Collateral will likely not be sufficient to satisfy our obligations under the Notes and other pari passu secured indebtedness.

The Collateral will consist only of the shares or capital stock of the Subsidiary Guarantors. The security interest in respect of certain Collateral may be released upon the disposition of such Collateral and any proceeds from such disposition may be applied, prior to repaying any amounts due under the Notes, to repay other debt or to make investments in properties and assets that will not be pledged as additional Collateral.

The ability of the Collateral Agent, on behalf of the holders of the Notes, to foreclose on the Collateral upon the occurrence of an event of default or otherwise will be subject to the terms of the Intercreditor Agreement and the Security Documents as well as in certain instances to perfection and priority status. Although procedures will be undertaken to support the validity and enforceability of the security interests, we cannot assure you that the Collateral Agent or holders of the Notes will be able to enforce the security interest. In addition, although the Notes Trustee may instruct the Collateral Agent to foreclose the Collateral upon the occurrence of an event of default that is continuing, such instruction may be overruled by a contrary instruction to the Collateral Agent from holders of more than 50% of the indebtedness that is subject to the Intercreditor Agreement.

The value of the Collateral in the event of a liquidation will depend upon market and economic conditions, the availability of buyers and similar factors. No independent appraisals of any of the Collateral have been prepared by or on behalf of us in connection with this offering of the Notes. Accordingly, we cannot assure you that the proceeds of any sale of the Collateral following an acceleration of the Notes would be sufficient to satisfy, or would not be substantially less than, amounts due and payable on the Notes. By its nature, the Collateral, which consists solely of the shares or capital stock of any existing or future Subsidiary Guarantor, is likely to be illiquid and is unlikely to have a readily ascertainable market value. Likewise, we cannot assure you that the Collateral will be saleable or, if saleable, that there will not be substantial delays in its liquidation.

Subject to the Intercreditor Agreement, the Collateral will be shared on a *pari passu* basis by the holders of the Notes and the holders of the Existing Notes and may be shared on a *pari passu* basis with holders of other indebtedness ranking *pari passu* with the Notes and the holders of future *pari passu* secured debt that we may issue in the future. Accordingly, in the event of a default on the Notes or the Existing Notes, or the other secured indebtedness and a foreclosure on the Collateral, any foreclosure proceeds would be shared by the holders of secured indebtedness in proportion to the outstanding amounts of each class of such secured indebtedness. The value of the Collateral securing the Notes and the Existing Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors is unlikely to be sufficient to satisfy the obligations of the Company and each of the Subsidiary Guarantor Pledgors under the Notes and the Existing Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, and the Collateral securing the Notes and the Existing Notes and such Subsidiary Guarantees may be reduced or diluted under certain circumstances, including the issuance of additional Notes, or other *pari passu* indebtedness and the disposition of assets comprising the Collateral, subject to the terms of the Indentures and each of the indentures governing the Existing Notes.

The Intercreditor Agreement may impact our ability and the ability of the Subsidiary Guarantors to pay amounts due under the Notes and the Subsidiary Guarantees and the Intercreditor Agreement may limit the rights of holders of the Notes to the Collateral.

The Collateral Agent is required to take action to enforce the Collateral in accordance with the instructions of holders of the Notes given under and in accordance with the Intercreditor Agreement. Any enforcement action taken by the Collateral Agent will adversely affect our entitlement to receive distributions from the Collateral, which will, in turn, have an adverse impact on our ability to fulfill our payment obligations under the Notes. Further, the Subsidiary Guarantors' ability to pay under the Subsidiary Guarantees will be adversely affected. The ability of holders of the Notes to enforce the Collateral is restricted under the Intercreditor Agreement, as only the Collateral Agent is permitted to take enforcement actions. If an event of default occurs under the Notes, the holders of the Existing Notes, the holders of the Notes and creditors of other Permitted *Pari Passu* Secured Indebtedness must

decide whether to take any enforcement action and thereafter, through their respective trustee or agent, may instruct the Collateral Agent to take such enforcement action. By virtue of the instructions given to the Collateral Agent described above, actions may be taken in respect of the Collateral that may be adverse to holders of the Notes. In such event, the only remedy available to holders of the Notes would be to sue for payment under the Notes and the Subsidiary Guarantees.

The Collateral Agent, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, assigned or granted pursuant to the Intercreditor Agreement and the Security Documents as are set forth in the Intercreditor Agreement and as trustee and agent in respect of the Existing Notes. Under certain circumstances, the Collateral Agent may have obligations under the Security Documents or the Intercreditor Agreement and the underlying indentures that are in conflict with the interests of the holders of the Notes and the holders of the Existing Notes. The Collateral Agent will not be under any obligation to exercise any rights or powers conferred under the Intercreditor Agreement or any of the Security Documents for the benefit of the holders of the Notes or the Existing Notes, unless such holders have offered to the Collateral Agent indemnity and/or security satisfactory to the Collateral Agent against any loss, liability, cost or expense.

The pledge of certain Collateral may be released under certain circumstances.

In the event the conditions applicable to the replacement of a Subsidiary Guarantee with a JV Subsidiary Guarantee are satisfied, we are permitted to release the pledge of the shares granted by such Subsidiary Guarantor, as well as the pledge of the shares granted by the subsidiaries of such Subsidiary Guarantor. We are only required to deliver a replacement share pledge for the shares that we continue to hold in such JV Subsidiary Guarantor (but not the subsidiaries of such JV Subsidiary Guarantor) following the sale of the equity interests in such Subsidiary Guarantor. As a result, in the event we sell minority equity interests in our Subsidiary Guarantors or otherwise create JV Subsidiary Guarantors in accordance with the terms of the Indentures, the Collateral will be reduced in value and scope, and holders of the Notes would be subject to increased risks. In addition, all or a portion of the Collateral may be released at any time either upon (i) the repayment in full of all amounts owing by the Company or any Subsidiary Guarantors or JV Subsidiary Guarantors under the Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness, or (ii) the prior or concurrent release of the Lien on such Collateral securing all Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness; *provided* that in each case, no default has occurred and is continuing on such date or no default would have occurred as a result of such release.

USE OF PROCEEDS

We intend to use the net proceeds to refinance our existing indebtedness and for general corporate purposes.

Pending application of the net proceeds of this offering, we intend to invest such net proceeds in “Temporary Cash Investments” as defined under the sections entitled “Description of 2021 Notes,” “Description of 2023 Notes” and “Description of 2025 Notes.”

EXCHANGE RATE INFORMATION

China

PBOC publishes daily a base exchange rate with reference primarily to the supply and demand of Renminbi against a basket of currencies in the market during the prior day. PBOC also takes into account other factors, such as the general conditions existing in the international foreign exchange markets. From 1994 to July 20, 2005, the conversion of Renminbi into foreign currencies, including Hong Kong dollars and U.S. dollars, was based on rates set daily by PBOC on the basis of the previous day's inter-bank foreign exchange market rates and then current exchange rates in the world financial markets. During this period, the official exchange rate for the conversion of Renminbi to U.S. dollars remained generally stable. Although the PRC government introduced policies in 1996 to reduce restrictions on the convertibility of Renminbi into foreign currencies for current account items, conversion of Renminbi into foreign currencies for capital items, such as foreign direct investment, loan principals and securities trading, still requires the approval of SAFE and other relevant authorities. On July 21, 2005, the PRC government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. On the same day, the value of the Renminbi appreciated by approximately 2% against the U.S. dollar. On May 18, 2007, PBOC enlarged the floating band for the trading prices in the inter-bank foreign exchange market of the Renminbi against the U.S. dollar from 0.3% to 0.5% around the central parity rate, effective on May 21, 2007. This allows the Renminbi to fluctuate against the U.S. dollar by up to 0.5% above or below the central parity rate published by PBOC. The floating band was widened to 1.0% on April 16, 2012 and further to 2.0% on March 17, 2014. Effective since August 11, 2015, market makers are required to quote their central parity rates for Renminbi against the U.S. dollar to the China Foreign Exchange Trade System daily before the market opens by reference to the closing rate of the PRC inter-bank foreign exchange market on the previous trading day in conjunction with the demand and supply conditions in the foreign exchange markets and exchange rate movements of major currencies. The PBOC has further authorized the China Foreign Exchange Trade System to announce its central parity rate for Renminbi against the U.S. dollar through a weighted averaging of the quotes from the market makers after removing the highest quote and the lowest quote.

Hong Kong

The H.K. dollar is freely convertible into the U.S. dollar. Since 1983, the H.K. dollar has been linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The Basic Law of the Hong Kong Special Administrative Region of the People's Republic of China (the “**Basic Law**”), which came into effect on July 1, 1997, provides that no foreign exchange control policies shall be applied in Hong Kong.

The market exchange rate of the Hong Kong dollar against the U.S. dollar continues to be determined by the forces of supply and demand in the foreign exchange market. However, against the background of the fixed rate system which applies to the issuance and withdrawal of Hong Kong currency in circulation, the market exchange rate has not deviated significantly from the level of HK\$7.80 to US\$1.00. In May 2005, the Hong Kong Monetary Authority broadened the 22-year-old trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has indicated its intention to maintain the link within that rate range. Under the Basic Law, the Hong Kong dollar will continue to circulate and remain freely convertible. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.80 to US\$1.00 or at all.

Notes:

- (1) EBITDA for any period consists of profit from operating activities before fair value gains on investment properties, interest income from non-current receivables, exchange gains/(losses) plus income tax expenses, depreciation, share option amortization, amortization of intangible assets and land use rights and interest expense. EBITDA is not a standard measure under HKFRS. EBITDA is a widely used financial indicator of a company's ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. See the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations — Non-GAAP Financial Measures" for a reconciliation of our profit for the year/period under HKFRS to our definition of EBITDA. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indentures governing the Notes. Interest expense excludes amounts capitalized. See the sections entitled "Description of 2021 Notes — Definitions," "Description of 2023 Notes — Definitions" and "Description of 2025 Notes — Definitions" for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indentures governing the Notes.

- (2) EBITDA margin is calculated by dividing EBITDA by revenue.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the section entitled "Selected Consolidated Financial and Other Data," our consolidated financial statements and interim condensed consolidated financial information, including the notes thereto, included elsewhere in this offering memorandum. All significant intra-group transactions, balances and unrealized gains on intra-group transactions have been eliminated.

Our consolidated financial statements and interim condensed consolidated financial information were prepared in accordance with HKFRS, which may differ in material respects from generally accepted accounting principles in other jurisdictions. In this section of the offering memorandum, references to "2014," "2015" and "2016" refer to our fiscal years ended December 31, 2014, 2015 and 2016, respectively.

Overview

We are the largest real estate development company in China in terms of contracted sales and land reserves in 2016, according to China Real Estate Information Corporation and the land reserve data disclosed by relevant companies in their applicable stock exchange filings. Founded in Guangzhou City, Guangdong Province in 1996, we have become a leading national property developer through our economies of scale and widely recognized brand name under the leadership of our management team. Over the years, our focus on a centralized management system, a standardized operational model and quality products have allowed us to quickly replicate our success across China. We focus primarily on provincial capitals and other selected cities that we believe have high-growth potential. In 2016, we continued to improve our geographical mix by focusing on replenishment of quality land reserves and taking a balanced approach to the distribution of land reserves among first-, second- and third-tier cities. Our land reserves cover most of the provincial capitals and municipalities in China. Through our standardized operational model, we have been able to simultaneously manage projects in various development and sale stages in 209 cities across China as of December 31, 2016.

We had the largest land reserves among all PRC property developers listed in China and Hong Kong as of December 31, 2016, based on the land reserve data disclosed by relevant companies in their applicable stock exchange filing. We had a total planned GFA of approximately 229 million square meters of high-quality and relatively low-cost land as of December 31, 2016 with an average cost of approximately RMB1,570 per square meter, as calculated by dividing our aggregate land purchase price by our aggregate planned GFA. As of December 31, 2016, we had an aggregate of approximately RMB113.8 billion outstanding land premiums of which RMB54.9 billion is due in 2017, RMB37.8 billion is due in 2018 and RMB21.1 billion is due in 2019. As of December 31, 2016, we had a total of 582 property projects, 74.7% of which were projects located in first- and second-tier cities. As of December 31, 2016, we had completed development of a total GFA of approximately 133.9 million square meters since our inception, and we had properties under development with a total GFA of approximately 192.7 million square meters and properties held for future development with a total GFA of approximately 36.7 million square meters. As of December 31, 2016, according to CBRE, our land reserves were valued at RMB700.5 billion, the book value of which was RMB360.1 billion.

As of December 31, 2016, we had construction permits for 489 of our property projects under development, with a total GFA of approximately 192.7 million square meters, and had presale permits for 473 of our projects, with a total GFA of approximately 14.7 million square meters, of which approximately 6.0 million square meters remained unsold.

We strive to provide high-quality residential products to the market by focusing on every step of the development process, from site selection, planning, landscaping and construction to fitting-out and property management. We aim to deliver "best-in-class" end-products to our customers. Over the years, our products have gained wide brand recognition among consumers, as reflected by our strong

contracted sales and sales records. For the years ended December 31, 2014, 2015 and 2016, our total contracted sales, which have not been audited or reviewed by our auditors, amounted to approximately RMB131.5 billion, RMB201.3 billion and RMB373.4 billion, respectively, with a total contracted sales GFA of approximately 18.2 million square meters, 25.5 million square meters and 44.7 million square meters, respectively. The average selling price for our contracted sales in 2016 was RMB8,355 per square meter, as calculated based on our internal records.

Leveraging our strengths in the property industry, we have taken significant initiatives or made significant plans to expand into mineral water, grain and oil, dairy, healthcare, insurance, internet, football and cultural industries with a view to establishing alternative revenue sources and diversifying our business portfolio. We expanded into the mineral water and grain and oil industries in November 2013 and during 2014, respectively, when we launched our mineral water sale and grain and oil operations through several acquisitions. In October 2014, we added dairy processing to our businesses after acquiring a majority interest in a milk formula and powder producer in New Zealand. In February 2015, we acquired a majority interest in New Media Group Holdings Limited, a company listed in Hong Kong, and changed its name to Evergrande Health Industry Group Limited, which will focus on operating healthcare-related businesses. We disposed our mineral water, grain and oil and dairy business in 2016. See “Business — Other Business” and “Summary — Recent Development.” In November 2015, we acquired a 50% equity interest in GELC, a PRC life insurance company, after receiving approval from the China Insurance Regulatory Commission. GELC’s name has been changed to Evergrande Life. As of December 31, 2016, Evergrande Life’s annual standardized premiums amounted to RMB56.5 billion and had 508,744 policy holders. We have also taken other business and investment initiatives. In April 2016, we entered into agreements with several domestic shareholders of Shengjing Bank to acquire its 17.28% shares. In March 2016, we launched hdfax.com which accumulated nearly 10,000,000 registered users, of which 370,000 had made transactions with a total trading volume of more than RMB8.9 billion.

Key Factors Affecting Our Results of Operations

Economic Growth, Speed of Urbanization and Demand for Residential Properties in China

Economic growth, urbanization and the rising standard of living in China have been the main driving forces behind the increasing market demand for residential properties. Since the second half of 2008, the global economic slowdown and turmoil in the global financial markets have adversely impacted the overall economy of China, including the PRC real estate market, from which the overwhelming majority of our revenues are generated. Global economic conditions have exhibited signs of a slow recovery in recent years, and economic conditions and volatility of property prices may continue to impact our business and results of operations. At the current stage of PRC economic development, the real estate industry is significantly dependent on the overall economic growth and the resultant consumer demand for residential properties. Because we primarily target middle to upper-middle income level residents, we believe that private sector development and urbanization in China are especially important to our operations. These factors will continue to have a significant impact on the number of potential property buyers and the pricing and profitability of residential properties, which directly affect our results of operations.

Regulatory Measures in the Real Estate Industry in China

PRC governmental policies and measures on property development and related industries have a direct impact on our business and results of operations. From time to time, the PRC government adjusts its macroeconomic control policies to encourage or restrict development in the private property sector through regulating, among others, land supply, pre-sale of properties, land usage, plot ratio, bank financing and taxation. Prior to the second half of 2008, the PRC government had implemented a series of measures to slow down the growth of the economy, including the property markets. Starting from the second half of 2009, in response to an increase in property prices across the country, the PRC government announced a series of new policies and adopted new measures to prevent overheating and

curtail speculation in the property market, including imposing more stringent requirements on the payment of land premiums by property developers and mortgage financing minimum down payment amounts, limiting the number of residential properties one household can purchase as well as abolishing certain preferential business tax treatment upon transfer of residential properties and commencing a trial run in levying property tax in Shanghai and Chongqing. The PRC government has continued to increase regulation over the property market since 2010. Policies restricting property purchases were adopted in nearly 50 cities in 2011, as compared to fewer than 20 cities in 2010. On January 26, 2011, the General Office of the State Council issued a circular which raised the minimum down payment for second house purchases from 50% to 60%. In 2012, the PRC government continued to implement selected policies aimed at further cooling the real estate property market, though at the same time, the PRC government implemented selected measures to support the growth of the Chinese economy, such as lowering banks' reserve requirement ratio and reducing benchmark lending rates. On February 26, 2013, the General Office of the State Council issued several property tightening measures, which included an income tax levy on homeowners of as high as 20% on profit made from selling their homes, and increasing down payment ratios and interest rates for loans to purchase second properties for those cities with excessive growth in housing prices. Regulations were also promulgated at various levels to promote affordable housing. Since June 2014, many cities, including those where our property projects are located, have lifted or eased the limitation on the purchase of commercial properties. In 2015, the MOF also expanded a business tax exemption to include sellers who have owned their home for as little as two years, rather than the previous minimum of five years. On February 1, 2016, the PBOC and the CBRC issued a notice that mandates a minimum down payment of 25% and permits local policies to decrease 5% from that, and for a household that owns a residential property and has not paid off its existing mortgage loan, the minimum down payment will be 30%. PRC regulatory measures in the real estate industry will continue to impact our business and results of operations.

In addition, the PRC government may adopt additional or more stringent policies, regulations and measures in the future with respect to China's real estate industry. For instance, the PRC government has reformed regulations replacing the business tax, which is levied on the total revenue of a company, with a value-added tax, which assesses increments of new value created by a company, for the real estate sector in 2016. In the future, the PRC government may also impose a nationwide real estate tax. Since we do not know when or whether such tax reforms will take place or what their impact will be on our business, operations and financial results, such as generating additional costs for us, these policy changes may adversely affect our business, financial condition or results of operations. You should refer to the sections entitled "Industry Overview — China's Property Market — Real Estate Reforms" and "Regulation" for more details on the relevant PRC regulations.

Ability to Acquire Suitable Land

Our continuing growth will depend in large part on our ability to acquire quality land at prices that can yield reasonable returns. As the PRC economy continues to grow and demand for residential properties remains relatively strong, we expect that competition among developers for land reserves will remain intense as well. In addition, the statutory means of public tender, auction and listing-for-sale for the grant of state-owned land use rights are also likely to increase competition for land for development, land acquisition costs and the minimum down-payment of land premium.

Timing of Property Development

The number of property projects that we undertake during any particular period is limited due to substantial capital requirements for land acquisition and construction costs as well as limited land supply. In addition, significant time is required for the development of property projects and it may take many months or even years before the commencement of pre-sale or completion and delivery of a property project. No revenue is recognized with respect to a property project until it has been completed and delivered to the customers. In addition, as market demand is not stable, revenue in a particular period may also depend on our ability to gauge the expected market demand at the expected launch time

for completion and delivery of a particular project, while delays in construction, regulatory approval processes and other factors can adversely affect the timetable of our projects. As a result, our results of operations have fluctuated in the past and are likely to continue to fluctuate in the future.

Land and Construction Costs

Our results of operations are affected by land and construction costs. Land and construction costs constitute the most important items in our cost of sales. Over the years, land premiums have been steadily increasing in China. It is widely expected that land premiums will continue to rise as the PRC economy continues to develop. Key construction materials such as steel and cement are included in the fees payable to our construction contractors. Although short-term price volatility of these materials does not affect us immediately, changes in costs of construction materials will cause contractors to change their fee quote, thus impacting our cost of sales and overall project costs. If we cannot sell our properties at a price level sufficient to cover all the increased costs, we will not be able to achieve our target profit margin and our profitability will be adversely impacted.

Product Mix of Our Properties

We derive our revenue mainly from the sale of properties. Over the years, we have developed and introduced various product series to the market, targeting a broad customer base. Our results of operations and cash flows generated from operating activities may vary from period to period depending on the product mix and average selling price for different types of products. In addition, our results of operations and cash flow generated from operating activities may also vary depending on the market demand at the time we sell our properties. The revenue we receive from our property development depends on local market prices, which in turn depend on local supply and demand conditions, as well as the type of property being developed.

Access to and Cost of Financing

Borrowings are an important source of funding for our property developments. As of December 31, 2014, 2015 and 2016, our outstanding borrowings amounted to RMB156,064 million, RMB296,906 million and RMB535,070 million (US\$77,066 million), respectively. As commercial banks in China link the interest rates on their loans to benchmark lending rates published by PBOC, any increase in such benchmark lending rates will increase the interest costs for our developments. In addition, our access to capital and cost of financing are also affected by restrictions imposed from time to time by the PRC government on bank lending for property developments as well as conditions in overseas capital markets.

LAT

Our property developments are subject to LAT with respect to the appreciated value of the related land and improvements on such land. LAT applies to both domestic and foreign investors in real estate development in China, irrespective of whether they are corporate entities or individuals. We prepaid LAT in an aggregate amount of RMB12,186 million (US\$1,755 million) with respect to our pre-sales made during the years ended December 31, 2014, 2015 and 2016. According to the relevant LAT laws and regulations in China, provisions of LAT should be made upon recognition of revenue and fair value gains on certain investment properties presumed to be recovered entirely by sale. For the years ended 2014 and 2015 and 2016, we made LAT provisions of RMB5,716 million, RMB5,916 million and RMB8,824 million (US\$1,271 million), respectively. Although we believe we have made all prepayments and/or full provisions for LAT in compliance with the relevant LAT laws and regulations in China as interpreted and enforced by the relevant local tax authorities, we cannot assure you that the relevant tax authorities will agree to the basis on which we have calculated our LAT liabilities for provision purposes or that such provisions will be sufficient to cover all LAT obligations that the tax authorities may ultimately impose on us. Our financial condition may be materially and adversely

affected if our LAT liabilities as calculated by the relevant tax authorities are substantially higher than our provisions. We have provided more details on the PRC regulations on LAT in the section entitled “Regulation — PRC Taxation — Our Operations in Mainland China — Land Appreciation Tax.”

Fair Value of Investment Properties

Our investment properties include our retail spaces and parking spaces held for rental income and/or for capital appreciation. Our investment properties are stated at their fair value on our consolidated balance sheets as non-current assets as of each balance sheet date on the basis of valuations by an independent property valuer. Gains or losses arising from changes in the fair value of our investment properties are accounted for as gains or losses upon revaluation in our consolidated income statements, which may have a substantial effect on our profits. The property valuation involves the exercise of professional judgment and requires the use of certain bases and assumptions. The fair value of our investment properties may have been higher or lower if the valuer used a different set of bases or assumptions or if the valuation was conducted by other qualified independent professional valuers using a different set of bases and assumptions. In addition, upward revaluation adjustments reflect unrealized capital gains on our investment properties as of the relevant balance sheet dates and do not generate any cash inflow available for our operations or potential dividend distribution to our shareholders. The amounts of fair value adjustments have been, and may continue to be, significantly affected by the prevailing property market conditions in China and may increase or decrease. We cannot assure you that similar levels of fair value gains can be sustained in the future.

Our Business Diversification Plans

We have taken significant initiatives or made significant plans to expand into the healthcare, insurance, internet, football and cultural industries with a view to establishing alternative revenue sources. For more information, see the section entitled “Business — Business Overview.” These new business activities are categorized under our “other business” segment. We envision that we will continue to make investments as part of our diversification strategy, and our revenue contribution from other business segment will continue to grow. Our diversification in general will require a significant amount of capital investment and management attention, and we may experience risks and uncertainties in new industries that we do not have significant experience in. See “Risk Factors — Risks Relating to Our Business — We have started expanding our operations into other industries, and such expansion may not be successful.”

Fluctuation in Foreign Currency Exchange Rate

Substantially all of our revenues and expenses are denominated in Renminbi. Our exposure to foreign exchange rate fluctuations results primarily from our indebtedness denominated in foreign currencies, primarily the U.S. dollar. As of December 31, 2016, our exchange losses from borrowings amounted to RMB4,909 million (US\$707 million), and as of December 31, 2015, our exchange losses from borrowings amounted to RMB2,842 million.

Critical Accounting Policies

We prepare our interim condensed consolidated financial information and our annual consolidated financial statements under the historical cost convention as modified for the revaluation of certain investment properties, and available-for-sale investments in accordance with HKFRS. HKFRS requires us to make judgments, estimates and assumptions that affect (i) the reported amounts of our assets and liabilities at the end of each fiscal period and (ii) the reported amounts of income and expenses during each fiscal period. We continually evaluate these estimates based on our own historical experience, knowledge and assessment of our current business and other conditions, our expectations regarding the future based on available information and our best assumptions, which together form our basis for making judgments about matters that are not readily apparent from other sources. Since the use of

estimates is an integral component of the financial reporting process, our actual results could differ from those estimates and expectations. Some of our accounting policies require a higher degree of judgment than others in their application.

When reviewing our interim condensed consolidated financial information and our consolidated financial statements, you should consider (i) our selection of critical accounting policies, (ii) the judgment and other uncertainties affecting the application of such policies and (iii) the sensitivity of reported results to changes in conditions and assumptions. We believe the following accounting policies involve the most significant judgment and estimates used in the preparation of our interim condensed consolidated financial information and our annual consolidated financial statements.

Revenue recognition

Revenue comprises primarily the proceeds from property development, property investment, property management services and other businesses after the elimination of intra-group transactions. Revenue from property sales is recognized when the construction has been completed and the properties have been delivered to the purchasers with the collectability of related receivables is reasonably assured. Deposits and installments received on properties sold prior to the date of revenue recognition are included in our consolidated balance sheets as “receipt in advance from customers” under current liabilities. Revenues arising from property management are recognized in the accounting period in which the services are rendered. Rental income from investment properties are recognized on a straight-line basis for the entire lease term of each tenancy agreement.

Investment Properties

Properties that are held for long-term rental income or for capital appreciation or both, and that are not occupied by us, are classified as investment properties. Properties that are being constructed or developed for future use as investment properties are classified as investment properties. Investment properties are measured initially at their cost. After initial recognition, investment properties are carried at fair value. Fair value is based on the current prices in an active market for the properties with similar leases and other contracts, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, we use alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. These valuations are performed at each balance sheet date by independent valuers. The fair value of investment properties reflects, among other things, rental income from current leases and assumptions about rental income from future leases in light of current market conditions.

Properties under Development

For accounting purposes, properties under development include only properties in respect of which we have obtained the relevant land use rights certificates and the relevant construction permits. Properties under development are stated at the lower of cost and net realizable value. Net realizable value takes into account the price ultimately expected to be realized, less applicable variable selling expenses and anticipated cost to completion. Development cost of property comprises construction costs, costs of land use rights, borrowing costs and professional fees incurred during the development period. On completion, the properties are transferred to completed properties held for sale. Properties under development are classified as current assets except those that will not be realized in one normal operating cycle.

Completed Properties Held for Sale

Completed properties remaining unsold at the end of each financial reporting period are stated at the lower of cost and net realizable value. Cost comprises development costs attributable to the unsold properties. Net realizable value is determined by reference to the sale proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses, or by management estimates based on prevailing market conditions.

Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the borrowings using the effective interest method. Borrowings are classified as current liabilities unless we have an unconditional right to defer settlement of the liability for at least 12 months after the respective balance sheet date.

Borrowing costs incurred for the construction of any qualified assets are capitalized during the period of time that is required to complete and prepare the asset for its intended use. Other borrowing costs are recognized as an expense in the period in which they are incurred.

LAT

We are subject to LAT in China. However, the implementation and settlement of these taxes vary among various tax jurisdictions in cities of the PRC. Accordingly, significant judgment is required in determining the amount of the land appreciation and its related taxes. We recognize our LAT based on our best estimates according to our understanding of the tax rules. The final LAT could be different from the amounts that were initially recorded, and these differences will impact our income tax in the periods when such LAT has been finalized with local tax authorities.

Enterprise Income Taxes and Deferred Taxation

Significant judgment is required in determining the provision for income tax. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the income tax and deferred tax provision in the period when such determination is made.

Deferred income tax assets are recognized to the extent that our management believes it is probable that future taxable profit will be available against which the temporary differences can be utilized. Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference can be controlled by us and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using the tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Financial Guarantee

Financial guarantee liabilities are recognized in respect of the financial guarantee we provide to banks for property purchasers and to certain of our investors. Financial guarantee liabilities are recognized initially at fair value plus transaction costs that are directly attributable to the issue of the financial guarantee liabilities and are subsequently measured at the higher of the present value of the best estimate of the expenditures required to settle the present obligation and the amount initially recognized less cumulative amortization.

Financial guarantee liabilities are derecognized from the balance sheet when, and only when, the obligation specified in the contract is discharged, canceled or expired.

Certain Income Statement Items

Revenue

We derive our revenue primarily from property development, property investment, property management services and other businesses. We recognize our revenue after the properties have been sold and delivered. As customary in the residential property industry, we pre-sell our properties prior to their completion in accordance with PRC pre-sale regulations. We do not, however, recognize the proceeds from pre-sales as revenue until we have completed the construction of these properties and delivered the properties to the purchasers. Typically there is a time gap ranging from six months to 18 months between the time we commence pre-sale of the properties under development and the delivery of the properties. We record the proceeds received from the pre-sold properties as a part of “receipt in advance from customers,” an item of current liabilities on our balance sheet, and as a part of cash inflows from operating activities on our cash flow statements. Revenue arising from property investment is recognized on a straight-line basis over the relevant lease period. Revenue arising from property management services and other property-related services is recognized over the period when the related services are rendered.

Cost of Sales

Cost of sales comprises primarily costs incurred directly for our property development, including construction costs, land acquisition costs, capitalized borrowing costs and business taxes.

Construction costs. Construction costs represent costs for the design and construction of a property project, consisting primarily of fees paid to our contractors, including contractors responsible for civil engineering construction, landscaping, equipment installation and interior decoration, as well as infrastructure construction costs and design costs. Our construction costs are affected by a number of factors such as price of construction materials, location and types of properties, choices of materials and investments in ancillary facilities. Substantially all of the costs of construction materials, whether procured by ourselves or by our contractors, are accounted for as part of the contractor fees upon settlement with the relevant contractors.

Land acquisition costs. Land acquisition costs represent costs relating to acquisition of the rights to occupy, use and develop land, including land premiums, demolition and resettlement costs, and other land-related taxes and government surcharges. The land acquisition costs are recognized as part of cost of sales upon completion and delivery of the relevant properties.

Capitalized borrowing costs. Our borrowing costs are capitalized to the extent that such costs are directly attributable to the acquisition or construction of a project. Such capitalized borrowing costs are included as part of the cost of sales for the relevant property when we recognize the sales revenue.

Business Tax. Up to April 30, 2016, our revenue from property development, property investment and property management are subject to business taxes and subcharges at the rate of 5.6% payable to local tax authorities. According to the Notice on Adjustment of Transfer Business Tax to Appreciation Tax 《關於全面推開營業稅改繳增值稅試點的通知》, from May 1, 2016, our revenue from property development, property investment and property management are all subject to VAT. For property development and property investment, our revenues are subject to 11% under general calculation method for general VAT taxpayers, 5% under simple calculation method for general VAT taxpayers, and 3% for small-scale VAT taxpayers. For property management, our revenue is subject to 6% VAT rate. The above-related output VAT should be recorded on balance sheets, which is not included in this category of business tax.

Fair Value Gains on Investment Properties

We hold certain properties such as office buildings, retail shops and parking spaces for rental income or capital appreciation. Our investment properties are revalued annually on an open market value or existing use basis by an independent property valuer. Any appreciation or depreciation in our investment property value is recognized as fair value gains or losses in our consolidated income statements.

Other Income

Our other income primarily consist of interest income, advertising income from the operation of football and volleyball clubs, forfeited customer deposits and gain on disposal of investment properties.

The following table illustrates our other income for the years indicated:

	Year ended December 31,			
	2014	2015	2016	
	(RMB)	(RMB)	(RMB)	(US\$)
		(in millions)

Others	361	825	1,319	190
Total	1,431	2,262	4,937	711

Note:

(1) Advertising income represented income generated from the operation of football and volleyball clubs.

Selling and Marketing Costs

Selling and marketing costs comprise primarily advertising and promotional expenses, sales commissions and other expenses relating to sales of our properties, including advertisements on television and in newspapers, magazines and billboards.

Administrative Expenses

Administrative expenses comprise primarily administrative staff costs, travel expenses, entertainment expenses, rental payments, office expenses, depreciation and provision for bad debts.

Finance (Costs)/Income, net

Finance (costs)/income, net, comprise primarily the net amount of foreign exchange gains/losses of borrowings and interest costs net of capitalized interest relating to properties under development and property and equipment. Since foreign exchange rates fluctuate and the construction period for a project does not necessarily coincide with the interest payment periods of the relevant loan, not all of the interest costs related to a project can be capitalized. As a result, our finance costs fluctuate from period to period depending on the level of interest costs that are capitalized within the reporting period.

Profit before Income Tax

Profit before income tax comprises primarily operating profit, net of finance (costs)/income.

Income Tax Expenses

Income tax expenses represent PRC enterprise income tax payable, Hong Kong profits tax payable, and LAT payable by our PRC subsidiaries.

Since January 1, 2008, our PRC subsidiaries have been subject to the new national enterprise income tax of 25% pursuant to the new enterprise income tax law. We did not provide for any Hong Kong profits tax as we had no business operations subject to Hong Kong profits tax during the year ended December 31, 2014, and Hong Kong profits tax has been provided for at the rate of 16.5% on the estimated assessable profit for the year ended December 31, 2015 and 2016 in respect of operations in Hong Kong.

Currently, we are not subject to any Cayman Islands income tax pursuant to an undertaking obtained from the Governor in Cabinet. As our BVI subsidiaries were incorporated under or are registered under the BVI Business Companies Act (as amended) of the British Virgin Islands, they are exempted from BVI income tax.

Our effective tax rate increased from 42.2% for the year ended December 31, 2014 to 44.9% for the year ended December 31, 2015, primarily due to increase in taxes accrued related to increase of fair value gains on investment properties.

Our effective tax rate increased from 44.9% for the year ended December 31, 2015 to 52.2% for the year ended December 31, 2016, primarily due to greater exchange losses incurred and more interest expenses that could not be capitalized in the year ended December 31, 2016.

2016 Compared to 2015

Revenue. Our revenue increased by RMB78,314 million, or 58.8%, to RMB211,444 million (US\$30,454 million) for the year ended December 31, 2016 from RMB133,130 million for the year ended December 31, 2015. The major contributor to our revenue in 2015 and 2016 was our property development business, accounting for 95.0% and 96.4%, respectively.

Property Development. Our revenue generated from property development increased by RMB77,441 million, or 61.2%, to RMB203,890 million (US\$29,366 million) for the year ended December 31, 2016 from RMB126,449 million for 2015. The increase was primarily due to (i) a 8.7% increase in the average selling price of our properties delivered in the year ended December 31, 2016 as compared to 2015, and (ii) an increase of approximately 8.3 million square meters of GFA delivered, representing a growth of 48.3% over the same period in 2015. In the year ended December 31, 2016, we delivered properties in 386 projects. The top 10 projects in terms of revenue generated from properties delivered in the year ended December 31, 2016 included Evergrande Metropolis Foshan, Evergrande Royal Scenic Bay Beijing, Evergrande City Beijing, Evergrande Oasis Dongguan, Evergrande Venice on the Sea, Evergrande Royal Palace Zhengzhou, Evergrande City Lights Ningbo, Evergrande Royal Scenic Bay Shanghai, Evergrande Culture Tourist City Haikou and Evergrande Royal View Garden Xiamen.

The following table sets forth the revenue generated from each project category and the percentage of the total revenue generated by each category for the periods indicated.

Liquidity and Capital Resources

We have financed our property projects primarily through our shareholders' contributions, bank and other borrowings, pre-sale proceeds of properties under development, proceeds from the sale of completed properties, funds raised from the capital markets such as our IPO, the issuance of our Existing Notes and share placements. We typically follow a financing model under which our start-up cost is mainly financed by bank and other borrowings as well as shareholders' contributions. This financing model supports our projects until the pre-sale stage, when we are able to repay our borrowings with pre-sale proceeds.

We expect to fund our property projects through a combination of sources, including internally generated cash flow, proceeds from the pre-sale of our properties under development, proceeds from the sale of completed properties, bank loans and other borrowings and other funds raised from the capital markets from time to time.

Our outstanding borrowings amounted to RMB156,064 million, RMB296,906 million and RMB535,070 million (US\$77,066 million), as of December 31, 2014, 2015 and 2016, respectively. The increase in our total borrowings as of December 31, 2016 was in line with our increased construction costs and land acquisition costs. As of December 31, 2014, 2015 and 2016, the average interest rate on our bank and other borrowings was 8.24%, 7.98% and 7.74%, respectively; the average interest rate on our Existing Notes was 9.27%, 10.18% and 9.81%, respectively. The average interest rate on our PRC corporate bonds was 7.04% as of December 31, 2016.

Commercial banks and other financial institutions in China typically require guarantees or security interests to lend to us. As of December 31, 2014, 2015 and 2016, certain of our outstanding bank and other borrowings were secured by our land use rights, investment properties, properties under development, completed properties held for sale, accounts receivable, cash, deposit certificate, equity interests in certain subsidiaries and guarantees provided by certain subsidiaries of the Company, while others were on credit. See the section entitled “Description of Material Indebtedness and Other Obligations.”

Since December 31, 2016, we have also incurred additional debt in the ordinary course of business to finance our operations and to refinance our short-term debt. Subsequent to December 31, 2016 and as of May 31, 2017, we incurred additional material borrowings (net of repayments) in the aggregate amount of not less than RMB100 billion (US\$14 billion). On March 23, 2017 we issued the March 2020 Notes and the 2022 Notes. On March 29, 2017 we issued the 2024 Notes. See also “Description of Material Indebtedness and Other Obligations.”

Financial Guarantee

We make arrangements with various PRC banks to provide mortgage facilities to purchasers of our pre-sold properties. In accordance with market practice, we are required to provide guarantees to these banks in respect of mortgages provided to such customers. Guarantees for mortgages on pre-sold residential properties are generally discharged at the earlier of the following: (i) the property ownership certificates are submitted to the mortgagee banks, or (ii) the purchasers pay off the total amount of mortgages. If a purchaser defaults on the mortgage loan, we are typically required to repurchase the underlying property by paying off the mortgage loan. If we fail to do so, the mortgagee banks will auction the underlying property and recover the balance from us if the outstanding loan amount exceeds the net foreclosure sale proceeds. In line with industry practice, we do not conduct independent credit checks on our customers but rely on the credit checks conducted by the mortgagee banks. As of December 31, 2014, 2015 and 2016, our outstanding guarantees for mortgage loans of the purchasers of our pre-sold properties were approximately RMB75,310 million, RMB141,591 million and RMB252,128 million (US\$36,314 million), respectively.

We also provided guarantees for borrowings of certain of our cooperation parties, who are mainly construction subcontractors that are independent third parties, after assessing their credit history. As of December 31, 2016, the aggregate outstanding amount guaranteed was RMB6,056 million (US\$872 million).

We confirm that, other than disclosed in this offering memorandum, there has been no material change in our indebtedness and contingent liabilities other than those incurred in our ordinary course of business since December 31, 2016.

Our commitments for property development expenditures and land expenditures are financed by cash generated from our operations. We expect to continue to rely on proceeds from our property sales and pre-sales as well as new financings as the principal sources of funding to finance our contractual obligations and capital commitments.

Off-balance Sheet Commitments and Arrangements

Except for the contingent liabilities set forth above, we have not entered into any off-balance sheet arrangements or commitments to guarantee the payment obligations of any third parties. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing or hedging or research and development services with us.

Market Risks

We are, in the normal course of business, exposed to market risks primarily relating to fluctuations in interest rates, commodity prices, foreign exchange rates and inflation rate.

Interest Rate Risk

We are exposed to interest rate risks, primarily relating to our borrowings, which were RMB156,064 million, RMB296,906 million, and RMB535,070 million (US\$77,066 million), respectively, as of December 31, 2014, 2015 and 2016. We undertake debt obligations to support our property development and general working capital needs. Upward fluctuations in interest rates may increase the cost of our financing. Fluctuations in interest rates can also lead to significant fluctuations in the fair values of our debt obligations. The benchmark one-year bank lending rate published by PBOC for the years ended December 31, 2014, 2015 and 2016 was 5.60%, 4.35% and 4.35%, respectively. We currently do not use any derivative instruments to hedge our interest rate risk.

An increase in interest rates may also adversely affect our prospective purchasers' ability to obtain financing and depress the overall housing demand in China. Furthermore, the increase in interest rates may also increase our financial obligation to the PRC banks as we have disclosed in the section entitled "— Financial Guarantee" above.

Commodity Risk

We are exposed to fluctuations in the prices of raw materials for our property development, primarily steel and cement. We do not engage in any hedging activities. Purchasing costs of steel and cement are generally accounted for as part of the construction contractor fees pursuant to our arrangements with the relevant construction contractors. Accordingly, rising prices for construction materials will affect our construction costs in the form of increased fee quotes by our construction contractors. As a result, fluctuations in the prices of our construction materials have a significant impact on our results of operations.

Foreign Exchange Risk

Substantially all of our revenues and expenses are denominated in Renminbi. Our exposure to foreign exchange rate fluctuations results primarily from our indebtedness denominated in foreign currencies, primarily the U.S. dollar. During the years ended December 31, 2014, 2015 and 2016, because of the generally appreciating Renminbi, our holdings in foreign currency-denominated assets were equal to US\$175.3 million, US\$2,420 million and US\$1,524 million, respectively, including our proceeds from overseas equity and debt financings before we used them to acquire land reserves, generated foreign exchange losses. A depreciation of Renminbi against the U.S. dollar and other foreign currencies would reduce the U.S. dollar equivalent amounts of the Renminbi that we convert for servicing the Existing Notes and other foreign currency-denominated indebtedness. We currently do not engage in hedging activities designed or intended to manage such currency risk. You should refer to the section entitled "Risk Factors — Risks Relating to China — Fluctuations in the value of Renminbi may adversely affect our business and the value of distributions by our PRC subsidiaries" for additional risk disclosure.

Inflation

According to the National Bureau of Statistics of China, China's overall national inflation rate, as represented by the general consumer price index, was approximately 2.0% in 2014 and 1.4% in 2015. Recent inflation and deflation have not materially affected our business.

Non-GAAP Financial Measures

We use EBITDA to provide additional information about our operating performance. EBITDA refers to our earnings before fair value gains on investment properties, interest income from non-current receivables, exchange gains/(losses) plus income tax expenses, depreciation, share option amortization, amortization of intangible assets and land use rights and interest expense.

EBITDA is not a standard measure under HKFRS or GAAP. As the property development business is capital intensive, capital expenditure requirements and levels of debt and interest expenses may have a significant impact on the profit for the year/period of companies with similar operating results. Therefore, we believe the investor community commonly uses this type of financial measure to assess the operating performance of companies in our market sector.

As a measure of our operating performance, we believe that the most directly comparable HKFRS measure to EBITDA is profit for the year/period. We operate in a capital-intensive industry. We use EBITDA in addition to profit for the year/period because profit for the year/period includes many accounting items associated with capital expenditures, such as depreciation, as well as non-operating items, such as amortization of intangible assets and interest income and interest expense. These accounting items may vary between companies depending on the method of accounting adopted by a company. By minimizing differences in capital expenditures and the associated depreciation expenses as well as reported tax positions, intangible assets amortization and interest income and expense, EBITDA provides further information about our operating performance and an additional measure for comparing our operating performance with other companies' results. Funds depicted by this measure may not be available for debt service due to covenant restrictions, capital expenditure requirements and other commitments.

The following table reconciles our profit for the year/period under HKFRS to our definition of EBITDA for the periods indicated.

You should not consider our definition of EBITDA in isolation or construe it as an alternative to profit for the year/period or as an indicator of operating performance or any other standard measure under HKFRS or GAAP. Our definition of EBITDA does not account for taxes and other non-operating cash expenses. Our EBITDA measures may not be comparable to similarly titled measures used by other companies. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the New Notes Indentures. Interest expense excludes amounts capitalized. See the sections entitled “Description of 2021 Notes — Definitions,” “Description of 2023 Notes — Definitions” and “Description of 2025 Notes — Definitions” for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indentures.

Overview of the PRC Economy

From 2003 to 2007, China's real GDP grew at a CAGR of approximately 11.0%, making it one of the fastest growing major economies in the world. Amid the global financial crisis, China achieved an annual real GDP growth of 9.6% in 2008 and maintained positive economic growth throughout the crisis. China was among the first countries to recover from the global financial crisis. In February 2011, it overtook Japan to become the world's second largest economy. China's economic growth slowed in 2012 due to various factors, including the European debt crises and weaker global demand for exports. According to the National Bureau of Statistics, China's real GDP growth was approximately 6.9% in 2015.

Overall Economic Growth

China's nominal GDP has increased from RMB21,631 billion in 2006 to RMB67,671 billion in 2015, representing a CAGR of approximately 13.5%. Over the same period, China's nominal GDP per capita increased at a CAGR of 14.0% from RMB16,500 in 2006 to RMB53,533 in 2015, demonstrating a significant increase in the purchasing power of the PRC population. The table below sets out selected economic statistics of China for the periods indicated.

Recent Developments in the PRC Property Market

Land prices in the PRC are affected by multiple factors in recent years. Following the global economy recovery in early 2009, total land sales increased from approximately RMB604 billion to close to approximately RMB1 trillion from 2009 to 2010. On the other hand, the PRC government has been introducing austerity measures since 2009 to regulate the property market and curb housing prices, which led to a decline in the average land selling price in 2011. According to the National Bureau of Statistics of China, the average land selling prices were RMB2,439 per sq.m. in 2010, RMB1,965 per sq.m. in 2011, RMB2,077 per sq.m. in 2012, and RMB2,555 per sq.m. in 2013, RMB3,001 per sq.m. in 2014, and RMB3,341 per sq.m. in 2015, reflecting a year-on-year growth rate of 28.9%, -19.4%, 5.7%, 23.0%, 17.5% and 11.3%, respectively.

Source: National Bureau of Statistics of China

The PRC property market experienced downward pricing pressures in the second half of 2011, as a result of the various policies and measures introduced by the PRC government aiming at “cooling off” the property market. According to a report issued by the National Bureau of Statistics of China, the total GFA sold and total property sales in China in the six months ended June 30, 2012 decreased by 10.0% and 5.2%, respectively, as compared with those in the six months ended June 30, 2011. Beginning in the second quarter of 2012 and continuing through 2013, transaction volumes recovered in the overall PRC property market, due in part to the improving market sentiment in the PRC property market as well as the absence of further major restrictive government policies or measures. According to the National Bureau of Statistics of China, the total GFA sold in 2015 was 1,285 million sq.m., representing a 6.5% increase from the 2012.

Regulatory Milestones of the PRC Property Industry

From time to time, the PRC government has taken actions to tighten its control over the property market. In particular, the PRC government has taken measures to discourage speculation in the residential property market and to increase the supply of affordable housing. The table below sets out the key regulatory milestones of the PRC property industry, including major policies and measures implemented by the PRC government since 2008:

2008 The State Council issued Notice on Promoting the Land Saving and Intensive Use 《國務院關於促進節約集約用地的通知》 on January 3, 2008, which provided for stricter supervision on land development and regulation of idle land.

In October 2008, the PBOC reduced the minimum down payment requirement to 20% of the purchase price of the underlying property and the minimum mortgage loan interest rate to 70% of the PBOC benchmark interest rate for the purchase of a principal residence with a total GFA less than 90 sq.m.

On October 22, 2008, the State Council, the MOF and the SAT jointly announced the decision to reduce the tax expenses of property transactions.

In October 2008, the CBRC issued regulatory notices to restrict trust financing companies from providing trust loans, in form or in nature, to (i) property projects that have not obtained the requisite land use rights certificates, construction land planning permits, construction works planning permits and construction work commencement permits; (ii) property developers that had not been issued with Class 2 qualification certificates by the relevant competent construction authorities; (iii) property projects of which less than 30% of the total investments are funded by the property developers' own capital (except for affordable housing and commodity apartments, of which 20% of the total investment shall be funded by the developer's own capital); and (iv) property developers for payment of land premium or for working capital purposes.

2009 The State Council issued a Notice on Adjusting the Capital Ratio of Fixed Assets Investment Project 《國務院關於調整固定資產投資項目資本金比例的通知》. The Notice provides that the minimum capital requirements for affordable housing and ordinary commodity apartments are 20%, and the minimum capital requirement for other real estate development projects is 30%. These regulations apply to both domestic and foreign investment projects.

2010 On March 8, 2010, the Ministry of Land and Resources instituted measures aimed at ensuring sufficient land supply for government-subsidized residential property.

On April 17, 2010, the State Council announced its decision to implement diverse credit policies for different types of purchases.

On September 21, 2010, the Ministry of Land and Resources and the MOHURD instituted measures to require relevant governmental authorities to (i) strengthen the management of the annual plan for land supply and residential property construction; (ii) accelerate the approval process for land supply and construction for residential properties; (iii) strengthen the management of land grants for residential properties; (iv) strengthen the supervision on land supply and construction of residential properties; and (v) strengthen the supervision and investigation of illegal conduct.

On September 29, 2010, the PBOC and the CBRC issued the Notice on the Improvement of Diversified Residential Credit Policies 《中國人民銀行、中國銀行業監督管理委員會關於完善差別化住房信貸政策有關問題的通知》 to require, among other things, all commercial banks to suspend (i) the extension of loans to individuals for purchase of third or subsequent residences and (ii) the extension of loans to non-local residents who cannot provide certificates evidencing payment of local taxes or social insurance for more than one year. For the purchase of a primary residence, the minimum down payment was increased to 30% of the purchase price of the underlying property.

On September 29, 2010, the MOF, the SAT and the MOHURD issued the Notice on Adjustment of Preferential Policies for Deed Tax and Individual Income Tax for Real Estate Transactions 《財政部、國家稅務總局關於住房和城鄉建設部關於調整房地產交易環節契稅個人所得稅優惠政策的通知》 to curb transfers by individuals of residential properties purchased within one year through the levying of individual income tax.

On December 19, 2010, the Ministry of Land and Resources promulgated the Circular on Issues Pertaining to the Strengthened Implementation of Real Estate Land Use Regulatory Policies and the Healthy Development of the Property Market 《關於嚴格落實房地產用地調控政策促進土地市場健康發展有關問題的通知》 to further regulate the granting of land use rights for real estate development and tighten regulation of idle land.

On November 4, 2010, the MOHURD and SAFE issued the Notice on Further Standardization of the Administration of Housing Purchase by Foreign Entities and Individuals 《關於進一步規範境外機構和個人購房管理的通知》 to further restrict foreign individuals from purchasing property in the PRC.

2011 On January 27, 2011, the MOF and the SAT jointly issued the Notice on Business Tax Imposed on Individuals Transferring Houses 《財政部、國家稅務總局關於調整個人住房轉讓營業稅政策的通知》 to curb transfers of properties by individuals within five years of purchase.

Among other things, the notice (i) increased the minimum down payment for the purchase of a second home from 50% to 60%; (ii) required local governmental authorities to take steps to expand the coverage of low-income housing by increasing supply of low-income housing through construction, redevelopment, purchases and long-term leases and to build 10 million units of low-income housing in 2011; (iii) increased the minimum down payment from 20% to 30% for the purchase of the first residential property of a family if the underlying property has a unit GFA of 90 sq.m. or more; (iv) required that if a property developer failed to obtain the relevant construction permits and failed to commence construction within two years from the designation of land for property development, the relevant land use rights granted be forfeited and an idle land penalty be imposed; (v) prohibited the transfers of land or a property development project if the amount of property development investment (excluding the land premium) incurred is less than 25% of the total investment amount in respect of the project; and (vi) prohibited families holding local residency and owning two or more residential properties and families holding non-local residency and owning at least one residential property or who cannot provide a local tax payment certificate or a social security certificate from purchasing additional residential properties in their local district.

In July 2011, MOHURD issued the Notice on Relevant Issues Relating to Enhanced Implementation of Real Estate Control Policies 《關於進一步落實房地產調控政策有關問題的函》 to enhance the implementation of purchase restrictions in second-tier and third-tier cities and to increase the number of cities subject to property purchase restrictions. This notice set out five criteria and encouraged local governments to, subject to local market conditions, implement property purchase restrictions if three or more of the following criteria are met: (i) prices of new residential units in the relevant city recorded year-on-year increase or recorded month-on-month increase during the six months ended June 30, 2011 according to information provided by the National Bureau of Statistics; (ii) the average price of new residential units in the relevant city in June 2011 had been higher than or closed to the maximum average price of residential units pre-determined by the relevant authorities; (iii) the sales volume of new commodity properties in the relevant city increased significantly from January 2011 to June 2011, as compared with the same period in past year; (iv) the relevant city is located close to major city(ies) with property purchase restrictions implemented and the proportion of non-local purchasers of properties in such city remained high; and (v) state-wide restrictive policies in real estate market had not been fully implemented in the relevant city which resulted in continued and significant increase in property prices and dissatisfaction of local residents. In addition, the PRC government plans to build 36 million units of low-income housing during its “Twelfth Five-year” period. Through large-scale and nationwide development of low-income housing, it is expected that by the end of the “Twelfth Five-year” period, the coverage of low-income housing in urban cities and counties will reach 20% or above nationwide.

The means of rectification include but are not limited to the extension of the period permitted for commencing development, the adjustment of the land use and planning conditions or the substitution of the relevant idle land parcels with other land parcels.

The notice mandated provincial governments to increase the effectiveness of regulations designed to achieve national property control policies. Key goals are to (i) fine tune existing measures to control property prices, (ii) curb property speculation, (iii) increase the supply of commodity housing, (iv) accelerate the development of affordable housing projects, and (v) manage the market expectation of the property industry and strengthen the credit management of property developers.

2014 On September 29, 2014 the PBOC and CBRC jointly issued Circular on Further Improving Financial Services for Housing Consumption 《關於進一步做好住房金融服務工作的通知》 which provides that, for a family who buys on loan its first ordinary house for self-use, the minimum percentage of down payment is 30%, and the lower limit of loan interest rate is 70% of the benchmark rate, to be decided by banking financial institutions in light of risk conditions. For a family who has paid up the loan of its first house and applies again to buy on loan an ordinary commodity house for the purpose of improving living conditions, the loan policies for first house shall apply. In cities where the measures of “restrictions on house buying” are lifted or not imposed, for a family who owns two or more houses and has paid up loans for them, and applies to buy another house on loan, banking financial institutions shall decide on the percentage of down payment and interest rate by prudently considering the borrower’s solvency and credit status.

From third quarter of 2014 many cities have canceled or mitigated restriction on buying of houses. For example, Some cities such as Hangzhou, Wuhan, Jinan, Nanjing and Suzhou have canceled restriction on numbers of houses one can buy. Some cities such as Ningbo, Qingdao and Nanchang have canceled such restriction in certain of its areas.

2015 In March 2015, the PBOC, CBRC and MOHURD jointly issued a notice to lower the minimum down payment to 40% for the family that owns a residential property and has not paid off its existing mortgage loan applying for a new mortgage loan to purchase another ordinary residential property for self-use to improve living conditions and allow the bank at its own discretion to decide the down payment ratio and loan interest rate taking into consideration the solvency and credit standing of the borrower. The minimum down payment is adjusted to 20% for the family that apply for housing reserve loan to buy first ordinary residential property for self-use and 30% for the family that owns a residential property and has paid off its existing mortgage loan applying for a second housing reserve loan to buy another residential property for self-use to improve living conditions.

Furthermore, according to a notice jointly issued by SAT and MOF, effective from March 31, 2015, a business tax is levied on the entire sales proceeds from resale of properties if the holding period is shorter than two years, and if the holding period is more than two years, business tax for transfer of ordinary residences will not be imposed, whereas for the transfer of non-ordinary residences business tax shall be paid on the basis of price difference between the transfer income and the purchase cost.

In August, 2015, the CBRC, MOF and PBOC jointly issued a notice to lower the minimum down payment to 20% for the family that owns a residential property and has paid off its existing mortgage loan applying for a second housing reserve loan to buy another residential property to improve living conditions. In Beijing, Shanghai, Guangzhou and Shenzhen, the minimum down payment of applying for housing reserve loan to buy a second residential property can be decided by local government in combination with local reality.

2016 On February 1, 2016, the PBOC and CBRC jointly issued a notice which provides that in cities where restrictions on purchase of residential property are not being implemented, the minimum down payment ratio for a personal housing commercial loan obtained by a household for purchasing its first ordinary residential property is, in principle, 25% of the property price, which can be adjusted downward by 5% by local authorities. For existing residential property household owners who have not fully repaid the previous loan and are obtaining further personal housing commercial loan to purchase an additional ordinary residential property for the purpose of improving living conditions, the minimum down payment ratio shall be not less than 30% which is lower than the previous requirement of not less than 40%. From May 1, 2016, the reform to replace business tax with value-added tax is implemented nationwide and expanded to cover several key sectors such as real estate, construction, financial services and lifestyle services.

From September 30, 2016 to date, Beijing, Tianjin, Suzhou, Chengdu and other cities have issued new property market control policies, including restoring the restriction on purchases of residential properties and tightening credit policy. On October 12, 2016, the MOHURD required investigation and punishment of persons or entities that spread rumors, deliberately hype or disrupt the market to protect the rights and interests of housing buyers.

Over the years, land premiums have generally been on the rise in China. It is widely expected that land premiums will continue to rise as the PRC economy continues to develop and demolition and resettlement costs continue to increase.

Business Overview

We are the largest real estate development company in China in terms of contracted sales and land reserves in 2016, according to China Real Estate Information Corporation and the land reserve data disclosed by relevant companies in their applicable stock exchange filings. Founded in Guangzhou City, Guangdong Province in 1996, we have become a leading national property developer through our economies of scale and widely recognized brand name, under the leadership of our management team. Over the years, our focus on a centralized management system, a standardized operational model and quality products have allowed us to quickly replicate our success across China. We focus primarily on provincial capitals and other selected cities that we believe have high-growth potential. We continue to improve our geographical mix by focusing on replenishment of quality land reserves and taking a balanced approach to the distribution of land reserves among first-, second- and third-tier cities. Our land reserves cover most of the provincial capitals and municipalities in China. We aim to deliver “best-in-class” end-products to our customers. Over years, our products have gained wide brand recognition among consumers, as reflected by our strong contracted sales and sales records. For the years ended December 31, 2014, 2015 and 2016, our total contracted sales, which have not been audited or reviewed by our auditors, amounted to approximately RMB131.5 billion, RMB201.3 billion and RMB373.4 billion, respectively, with a total contracted sales GFA of approximately 18.2 million square meters, 25.5 million square meters and 44.7 million square meters, respectively. The average selling price for our contracted sales in 2016 was RMB8,355 per square meter, as calculated based on our internal records.

Leveraging our strengths in the property industry, we have taken significant initiatives or made significant plans to expand into healthcare, insurance, internet, football and cultural industries with a view to establishing alternative revenue sources and diversifying our business portfolio. In October 2014, we added dairy processing to our businesses after acquiring a majority interest in a milk formula and powder producer in New Zealand. In February 2015, we acquired a majority interest in New Media Group Holdings Limited, a company listed in Hong Kong, and changed its name to Evergrande Health Industry Group Limited, which will focus on operating healthcare-related businesses. In November 2015, we acquired a 50% equity interest in GELC, a PRC life insurance company, after receiving approval from the China Insurance Regulatory Commission. GELC's name has been changed to Evergrande Life.

Our Competitive Strengths

We believe that we possess the following principal competitive strengths that have allowed us to compete effectively with our peers in the property markets in China:

We are the largest real estate development company in China.

We are the largest real estate development company in China in terms of contracted sales and land reserves in 2016, according to China Real Estate Information Corporation and the land reserve data disclosed by relevant companies in their applicable stock exchange filings. In 2016, our contracted sales amounted to approximately RMB373.4 billion, reaching 124.5% of our target previously set for the contracted sales performance in 2016 at RMB300 billion. The contracted sales area in 2016 amounted to approximately 44.7 million square meters with an average contracted selling price of RMB8,355 per square meter, representing an increase of 75.2% and 5.9% as compared to 2015, respectively. We expect the target contracted sales for Hengda Real Estate for 2017, 2018 and 2019 to amount to approximately RMB450 billion, RMB500 billion and RMB550 billion, respectively.

In the first half of 2016, we were recognized as a Fortune Global 500 company. We have also been awarded the highest recognition in China in real estate development, architectural planning and design, construction, construction supervision and property management, and have been ranked among the “Top 10 Property Developers of China” for 13 consecutive years since 2004 by China Real Estate Top 10

Research Group. We have also been ranked as No. 2 of the “Top 500 Real Estate Companies of China” for six consecutive years since 2011 and No. 1 of the “Top 10 Real Estate Companies of China by City Coverage in 2016.”

We believe our leading position in the industry nationwide results from our overall strength, efficient management, comprehensive operational model and high-quality products and services. Over the years, we have developed at a rapid growth rate. We believe this leading position will enable us to further take advantage of our strengths and achieve a stronger performance.

We are a leader of the standardized operational model for large-scale quality property developments.

We believe that our industry-leading standardized operational model for quality real estate development is the core strength that has enabled us to effectively execute our rapid and successful nationwide expansion in recent years. We formulate our standardized operational model at our headquarters, which are then implemented through our regional offices under close supervision and monitoring by our senior management. Our standardized model covers various phases in our development process including planning and design of all of our projects nationwide, nationwide centralized bidding and procurement processes, project developments, construction and quality control and sales and marketing as well as property management. Our standardized operational model has allowed us to maintain our high-quality standards on a nationwide basis, to effectively control our costs, to reduce our execution risks and to achieve remarkable growth in recent years.

To support our business plan, we have established a standardized operational procedure across all regional offices, under which the staffing level and compensation schemes are determined by our senior management at the headquarters to ensure the consistency of organizational structure and staff qualification across all regional offices. We have implemented a uniform financial management and reporting system, under which the finance department of each regional office is directly managed by our headquarters. This system allows us to standardize, consolidate and centralize our capital management nationwide. Our centralized internal risk management also covers our archives management and accounts approval process in all our regional offices. We have also established a nationwide contract processing and approval system, which plays an important role in our cost control, facilitates our centralized monitoring of contract execution and in turn strengthens our internal control.

- ***Standardized Project Selection***

With respect to the selection of new project sites, we follow a set of strict standards, including:

- **Selection of cities:** provincial capitals, municipalities and other selected cities with sound economic growth, strong buying power, small land supply and great transaction volume;
- **Selection of location:** urban areas with a good environment, including near parks, rivers, good scenery and landscape, convenient transportation, well-planned municipal facilities and growth potential;
- **Selection of project scale:** generally not less than 20,000 square meters in GFA for projects in first-tier and second-tier cities and not less than 300,000 square meters in GFA for projects in third-tier cities;
- **Profitability:** favorable terms in land premium payment and optimal investment return; and

- **Sales:** target of launching pre-sales within six to eight months from the date of the land acquisition, thereby improving our speed of asset turnover and shortening our cash conversion cycle.

We believe that our standardized project selection process has ensured that each of our new projects is in line with our overall development strategy while minimizing operational risk.

- *Standardized Planning and Design*

We have developed three major project series based on our product positioning, and created approximately 300 types of standard residential unit layouts, which are then customized for different regional markets and product series. Our standardized designs for each project contain detailed specifications to be followed through each step of the development process, including material and quality standards for building construction, landscaping, ancillary facilities and interior decoration, to ensure consistency and quality of our products throughout the country. In order to maximize our ecological planning effect of low density and high green ratio, we have developed standard design rules for buildings, structures, facades and landscape. With respect to ancillary facilities, we have also established a standardized functional configuration. Our projects are generally equipped with luxurious clubhouses, sports centers, commercial centers, nursery schools and other amenities. In addition, we have also standardized our decoration and finishing based on different regional markets and different types of residential units. These standardized planning and design measures ensure the accurate positioning of our projects, streamlining our planning, the implementation of our brand strategy and the quality of our products.

- *Standardized Use of Materials*

We have also standardized our use of materials, building on our standardized planning and design. We have standardized our procurement of materials in massive quantities in connection with our construction, landscaping, ancillary facilities and decoration. This procurement system has effectively accelerated the progress of our project construction and ensured our product quality. Standardized use of materials has also enabled us to centralize our procurement to reduce construction cost.

- *Standardized and Centralized Tender Process*

We believe that our effective centralized tender process enables us to achieve economies of scale and significant purchasing power. All large-scale projects handled by our regional offices must undergo a centralized bidding process that is supervised by our headquarters. All participants in the bidding must be among the top-rated product, equipment or service providers in their respective fields. Our headquarters are responsible for selecting the ultimate qualified bidder according to our standardized selection and evaluation process. We believe that such standardized tender process has afforded us with significant economies of scale and allowed us to maintain our competitive cost structure while securing quality products, equipment and services at reasonable prices.

- *Standardized Construction Management*

We utilize standardized development models nationwide and closely manage all aspects of the development process based on strict development schedules and specific quality standards. We stipulate construction milestones and strict quality control measures to ensure our construction contractors adhere to both the pre-set construction timeline and our quality standards. We believe standardized construction management enables us to minimize the construction time and achieve our target of launching pre-sales within six to eight months from the date of the land acquisition, thereby shortening our cash conversion cycle and maximizing our investment return.

- *Standardized Marketing*

Our sales and marketing efforts follow standardized procedures in developing, approving and implementing sales and marketing campaigns for all our projects. We formulate our marketing, promotion, pricing and advertising strategies for each of our projects in a highly coordinated and consistent manner to maintain brand equity, but allowing flexibility to adapt to local market dynamics.

We launch our projects for pre-sale only after we have substantially completed the relevant landscaping, ancillary facilities and mock-up units in order to demonstrate our superior product quality which in turn strengthens consumer confidence. We believe our actual on-site launch standard enhances the marketing impact, saleability and pricing of our products.

We have strategically acquired large, relatively low-cost land reserves, with 229 million square meters in 209 cities across China as of December 31, 2016, focusing on provincial capitals and other selected cities that we believe have high-growth potential.

Our national land acquisition strategy aims to achieve greater regional diversification and higher growth by focusing on provincial capitals and other selected cities across China that we believe have high-growth potential.

- *Large-scale, Quality and Relatively Low-cost Land Reserves with Significant Appreciation Potential*

We had the largest land reserves among all PRC property developers listed in China and Hong Kong as of December 31, 2016, based on the land reserve data disclosed by relevant companies in their applicable stock exchange filing. As of December 31, 2014, 2015 and 2016, we had a total planned GFA of approximately 147.0 million square meters, 156.1 million square meters and 229 million square meters, respectively, of quality and relatively low-cost land. The average cost of our land reserves as of December 31, 2016 was approximately RMB1,570 per square meter, as calculated by dividing our aggregate land purchase price by our aggregate planned GFA. In 2016, we acquired land reserves from the acquisition of 213 new projects, which were more focused towards first- and second-tier cities. In 2016, the percentages of numbers of projects in all newly acquired projects for first-, second- and third-tier cities were 5.2%, 54.4% and 40.4% respectively, as compared to 3.7%, 58.5% and 37.8% in 2015. These newly acquired projects and our expansion of existing projects amounted to a total GFA of 102 million square meters in 2016. We believe the size of our current land reserves can satisfy our development needs for the next five to eight years and our strategic site locations will provide significant appreciation and profitability potential.

- *Well Diversified and Balanced Land Reserves with Extensive Presence in Large Provincial Capitals and Other Selected Cities that We Believe Have High-growth Potential*

Our land reserves are well diversified in terms of both geographic location and project type to achieve maximum profit potential. Currently, we have developments in all the first-tier cities, including Beijing, Shanghai, Guangzhou and Shenzhen, and cover most of the provincial capitals and all municipalities in China. We have also expanded our operations into other selected third-tier cities that we believe have high-growth potential on a national basis since the second half of 2010.

- *Premier Project Location*

Our urban projects are generally located in downtown or prime locations with a natural landscape and well-developed infrastructure and transportation systems. Our tourism related business mainly comprises of Evergrande Venice on the Sea Qidong Project (啟東恒大海上威尼斯項目) and Sea Ocean Flower Island Hainan Project (中國海南海花島項目). We focus on

developing large-scale cultural tourism projects catering tourists and vacation house owners, including but not limited to large-scale facilities targeting tourists and vacation house owners, such as man-made islands, beaches, Evergrande Children's World Theme Park (恒大童世界), recreation and shopping facilities, large-scale hotels, as well as large conference centers which are able to accommodate thousands of people. These projects are also characterized by low land cost and can be developed over multiple phases, which helps provide economies of scale.

We have leveraged our industry-leading brand name and strategic partnerships with renowned suppliers to develop quality products that are well-recognized by the market.

- *We Have Been Recognized as One of the Top 10 Property Developers in China for 13 Consecutive Years*

We consistently market all of our new projects under the “Evergrande” brand to instill brand awareness nationwide and for customers to identify our brand name with high-quality residential projects. Since 2004, we have been ranked as one of the “Top 10 Property Developers in China” for 13 consecutive years by the “Top 10 Property Developers Research Group of China” jointly constituted by the Institute of Enterprise Research of the Development and Research Center of the State Council, the Real Estate Research Institute of Tsinghua University and the China Index Academy.

- *Partnership with Prominent Suppliers to Develop Quality Products*

We maintain strict quality control measures throughout our development chain and partner with renowned international and national service and product providers to deliver top-quality products. We initiate our project planning process immediately after we acquire a land site and initially focus primarily on the structural and landscape designs of the site to ensure that they are of the best fit to the overall project. Since 2004, we have been consolidating our selection of vendors and suppliers to ensure that we work with first-rate vendors in the fields of construction landscaping and interior decoration and source raw materials from top suppliers. By working with a small number of high-quality partners, we are able to receive superior services throughout the development process. In our current development projects, we primarily engage reputable construction companies in China, including China State Construction Engineering Corporation and Zhong-Tie Construction Group Corporation Limited, for a majority of our project construction work; reputable fitting-out companies in China, including Suzhou Gold Mantis Construction & Decoration Co., Ltd, and Shenzhen Grandland Decoration & Construction Co., Ltd. for our fitting-out and interior decoration work; and landscaping industry leaders including GVL International Landscaping Design Co., Ltd. for most of our landscaping work.

We offer a comprehensive product mix that caters to different market segment demands.

We believe that a comprehensive product mix, an in-depth knowledge of target markets and accurate product positioning are the keys to our rapid growth in China. We have a wide range of products that cater to different market segments. We generally target a product mix of 15% high-end products, and 85% mid- to mid-high-end products in terms of the number of projects. We believe this proportion allows us to meet the demands from a broad range of target clientele across different geographic regions. Our diversified product range consists of residential properties that cater to the needs of first-time homebuyers and wealthy property owners as well as non-residential properties, including hotels, resorts and commercial properties.

We place strong emphasis on market research which allows us to understand the underlying market trends and enables us to adjust our product design accordingly. We have developed various standardized product series with appropriate modifications to suit the needs of various markets and customer segments. We believe that our strong brand recognition as well as our strong adaptability in different regional markets will enable us to achieve sustainable growth and high quality coordinated development.

We are able to effectively control our costs at every stage of the project development.

- *Land Acquisition*

As an early mover, we are able to access cities and regions with relatively low-cost land and high-growth potential, develop quality and cost-efficient projects and achieve cost saving at an early stage of the process.

- *Design, Tender and Procurement*

We implement a standardized operational model for design and material procurement. We are able to limit construction costs through a centralized tender process and reduce material and equipment costs through economies of scale and centralized procurement.

- *Management*

We adopt well-planned and efficient management systems and measures over the entire process of project development to reduce management and operating expenses.

We possess a highly experienced and stable management team with proven execution capabilities to adapt and respond to market changes.

- *Highly Experienced Management Team in China*

We have a highly experienced management team composed of well-regarded experts with an average of approximately 20 years of relevant experience in real estate development, planning and design, and finance and other fields. The team consists of three members with doctoral degrees and 12 members with master degrees. The team is led by our chairman, Dr. Hui, who is a professor and doctoral advisor in management with Wuhan University of Science and Technology. He is also a standing committee member of the 12th Chinese People's Political Consultative Conference and the vice chairman of the China Real Estate Association. Our chief executive officer, Dr. Xia Haijun, has cumulative experience of more than 20 years in real estate development and corporate management.

Our regional management teams are trained at our headquarters and most of them have been with our Company for more than 10 years. Over years, we have recruited our staff members from a candidate pool comprised of top students from top universities in China. As of December 31, 2016, approximately 90% of our management personnel had a bachelor's degree or higher. We believe our experienced and stable management team has contributed to our success and will further enhance our execution capabilities and focus both at the headquarters and regional company level.

- *Effective Management Structure*

We have created an effective management structure by implementing an internationally advanced management approach, which is complemented with practical experience accumulated over the years. We have adopted a three-tier management system comprising the board of directors, senior management at the headquarter level and senior management at the regional subsidiary level. This management structure ensures a direct reporting line between the regional offices and the headquarters, which enhances the overall internal control of our Company. We adopt a result-oriented management model that is focused on goal-setting and performance evaluation which allows the Company to achieve rapid and sustainable development.

We aim to motivate our staff effectively through our core values of quality, integrity, innovation and efficiency. Through our superior management structure and result-oriented compensation schemes, we are able to cultivate an effective corporate culture that commands strong loyalty from our team members, which in turn enhances our competitiveness, creativity and our execution capabilities.

- *Proven Execution Ability to Adapt and Respond to Changing Market Conditions*

Our management team has developed superior strategic insights and can respond quickly to changing market conditions. Since the inception of our Company, our senior management team has periodically reviewed and set, and each time successfully implemented, our strategic plans for each phase of our growth, by focusing on accumulating a talent pool for growth, building low-cost land reserves, emphasizing product quality and branding strategy and securing financing in a timely manner to support our expansion. Under the leadership of our management team, we have achieved a significant scale and a strong market position in a relatively short period of time. For example, when the PRC government began imposing significant restrictions on home purchases in 2010, our management team further optimized our standardized operational model for premier residential units to increase their marketability and attractiveness to prospective buyers, which we believe helped us to increase our property development revenues in spite of the restrictive regulatory environment.

We have proven capability to develop projects and achieve asset turnover rapidly.

Through our integrated centralized management structure and our standardized operational model, we have proven capability to develop our projects rapidly nationwide and achieve quick asset turnover. In most cases, we have been able to commence pre-sale of our recent property developments within six to nine months after site acquisition.

Our integrated centralized management structure helps ensure efficient execution of our standardized operational model; therefore we can typically complete the project planning and design, project construction, procurement of materials and equipment, as well as obtain relevant government approvals shortly after site acquisition.

Based on our standardized project planning and design, we are able to quickly determine and implement the positioning and design of projects. We have established long-term strategic partnerships with leading vendors and this enables rapid commencement of new projects as well as efficiency and quality of the development. We have adopted a standardized quality control and construction supervision system to monitor the progress and quality of all of our construction projects. In addition, as rapid property development has been one of our key business strategies since our inception, our standardized operational model, especially our standardized marketing procedures, has further improved our efficiency in project management. By shortening the development cycle in many of our projects, we aim to maximize our investment return, which in turn improves our operating cash flow. In most cases, we have been able to commence pre-sale of our recent property developments within six to nine months after site acquisition. As some of our most successful examples, we acquired Evergrande Evergreen Garden Wuhan on January 6, 2016, launched pre-sale of this project on June 18, 2016 and achieved total contracted sales, which have not been audited or reviewed by our auditors, of approximately RMB2.11 billion by the close of the commencement day of pre-sale; we acquired Evergrande Royal Scenic Bay Tianjin on January 29, 2016 launched pre-sale of this project on August 28, 2016 and achieved total contracted sales, which have not been audited or reviewed by our auditors, of approximately RMB1.57 billion by the close of the commencement day of pre-sale; and we acquired Evergrande Dragon Court Nanjing on January 15, 2016 launched pre-sale of this project on September 26, 2016 and achieved total contracted sales, which have not been audited or reviewed by our auditors, of approximately RMB1.33 billion by the close of the commencement day of pre-sale. Our rapid development business model results in a fast turnover of our land reserves.

Business Strategies

We aim to continue to maintain our leadership position in the PRC real estate industry with a focus to capitalize on development opportunities in first- and second-tier cities and other selected cities that we believe have high-growth potential, notwithstanding the regulatory environment. We will continue to implement our strategy of offering a diversified product range to our customers and to further optimize the standardized operational model of developing quality real estate products. We plan to implement the following strategies to achieve our goals:

Continue to replenish our land reserves in first- and second-tier cities and selected third-tier cities in prime locations.

We will continue to focus on first- and second-tier cities where we currently have operations and further penetrate the market of other selected third-tier cities that we believe have high-growth potential. As of December 31, 2016, approximately 74.7% of our land investment is located in the first and second-tier cities with the rest located in other cities with high-growth potential, including having a large and fast growing population, a high regional economic growth rate and has high levels in resident consumption and savings. We believe those areas present business opportunities due to their sound economic growth rate, rising household disposable income, accelerating urbanization level and increasing demand for quality residential properties. In accordance with our national strategic plan, we will continue to optimize the location of our residential properties by focusing on the replenishment of land reserves closer to the city center in first- and second-tier cities and prime locations in third-tier cities to maintain stable land reserves and achieve a balanced national development distribution.

Continue to optimize and leverage our standardized operational model.

We will adhere to our standardized operational model to optimize our entire product chain for quality real estate development with an aim to apply our operational experience to all of our projects nationwide and ensure the successful development and sale of each project.

Maintain a comprehensive product offering with a primary focus on residential properties.

We will maintain our strategy of offering a diversified product range to our customers with a view to maintaining a target proportion of 15% and 85% in terms of the number of projects distributed among our high-end, and mid- to mid-high-end property developments, in order to attract the broadest consumer groups.

In addition, while we will continue to focus primarily on residential property developments, we aim to gradually expand and diversify our business mix to include more commercial properties to enhance our long-term financial performance and diversify risks.

Adopt prudent and disciplined financial policies.

We have been implementing robust financial policies to reduce our gearing ratio and grow total cash and net profit margins of our major businesses, including further enhancing the collection of sales proceeds, increasing the turnover of inventory assets, selling part of our investment properties and continuing to co-develop projects with other companies. As a result, we have maintained a high level of cash and cash equivalent over the years.

We will also continue to optimize commencement and completion plans and payment plans and control major capital expenditures for land and construction. In addition, we will continue to sell certain investment properties in our portfolio, adopt measures to improve the price of the residential properties and strive to reduce operating expenses. With respect to the control of costs and expenses, we will

continue to fully implement product upgrades and replacement and standardized reform, ensuring quality while reducing production costs. We will also adopt various new types of media to lower selling expenses and make full use of information technology to lower operating expenses.

Focus on product quality to enhance our brand.

We will continue to focus on developing quality real estate products which we believe are integral to enhancing our brand value. We will continue to implement strict quality standards to maintain our competitive advantages over our peers.

Continue our business diversification strategy.

We plan to continue to execute our business expansion plans through acquisitions or minority investments. Building upon the platforms we have established in healthcare, insurance, internet, football and cultural industries, we intend to make further investments to capitalize on market demands and explore alternative revenue sources in such industries.

Our Standardized Operational Model

In our standardized operational model, we develop new projects across China based on our years of proven experience in developing quality properties. By adopting the integrated standardized operational model, our headquarters standardizes the management of all regional offices, including the operating model, project selection, project planning and design, material selection, tendering and bidding, construction management and marketing, and directly cooperates with and supervises all regional offices to ensure our internal control measures are well implemented. The chart below sets forth our organizational structure established in accordance with our integrated standardized operational model:

Site Selection

Site selection is typically conducted via a three-stage standard process. First, the development department of our headquarters and our regional offices are responsible for identifying a potential project, collecting information and performing primary screening. Should a potential project pass the primary screening, the development department, marketing department, research and development, or R&D, department and regional offices will be summoned together to conduct an in-depth analysis based on the collective experience of the parties involved and data extracted from our database. The summarized detailed analysis after multiple rounds of screening will then be submitted to our board of directors for review, discussion and final approval. We believe the above measures ensure that the new projects are in line with our overall development strategy and therefore minimize the development risk in the future.

Project Planning and Design

After acquiring the site for a new project, the R&D department, marketing department, regional office and sales agencies will each provide independent market research reports. The Board will arrange meetings with these departments to finalize product positioning and project planning, after which the R&D department will work with the relevant regional office to finalize the project planning and design plan based on the project positioning. This approach will ensure accurate market positioning, planning and design of each project.

Centralized Tender

We organize tenders and invite primarily first-rate construction companies in China to participate in the bidding for interior decoration, gardening and landscaping and other construction work to ensure high-quality construction work performed at competitive prices. We have centralized and standardized our tender process in order to facilitate our standard operating procedures to build quality products

rapidly. Our legal department and internal audit department supervise the entire tender process and carefully evaluate and compare each submitted bid. This effectively ensures our quality and progress of construction, which in turn minimizes our construction costs.

Centralized Procurement

Subject to our centralized tender process, we sign long-term procurement agreements with reputable service and product suppliers in China and overseas. We have also established a unified national distribution system. This procurement and distribution system enables us to successfully minimize our overall purchasing costs while ensuring the best product quality.

Project Construction

We strictly adhere to a set of standardized plan management, progress evaluation and quality supervision process that covers all the key project development and management activities conducted by our regional offices. Our headquarters have a dedicated team of more than 750 professional staff who collect information about the project progress and construction quality from each regional office through an advanced information management system. This strengthens our headquarters' control over project construction progress and quality, which in turn ensures that each property meets our requirements.

Sales and Marketing

Our sales and marketing effort follows standardized procedures so that the marketing, promotion, pricing and advertising strategies for each of our projects are created in a highly coordinated and consistent manner. These strategies are implemented for each project after being reviewed and approved by our board.

Human Resources Management

Our headquarters appoints and removes our regional office management teams. Our employee recruitment criteria, staffing and compensation structure are standardized and formulated by our headquarters, ensuring that the team composition and staff quality meet our standards.

Financial Management and Reporting Requirements

We have implemented a uniform financial management and reporting system, under which the finance department of each regional office is directly managed by our headquarters. This system allows us to standardize, consolidate and centralize our capital management nationwide. Our centralized internal risk management also covers our archives management and accounts approval process in all our regional offices.

For more details on our project development and management procedures, see “— Project Development and Management Procedures.”

Our Property Projects

Our property projects are generally divided into the following three categories:

- completed properties, comprising property projects we have completed since our inception, with the certificates of completion issued by the relevant government authorities;
- properties under development, comprising property projects with respect to which we have received land use rights certificates and partly received construction permits or governmental approval for early construction but have not yet received certificates of completion; and

- properties held for future development, comprising property projects with respect to which we have signed a land grant contract or a land transaction confirmation letter with the relevant PRC land administrative authorities, the project company equity transfer agreements or project cooperation agreements but have not yet obtained the land use right certificates.

Because our projects are typically relatively large in size and some of our projects comprise multi-phase developments on a rolling basis, a single project may include different phases at various stages of completion, under development or held for future development.

Each property project may be subject to multiple land use rights certificates, construction land planning permits, construction works planning permits, construction permits, pre-sale permits and other permits and certificates which are issued at different stages throughout their development. Our classification of properties is not directly comparable with the classification of properties in our consolidated financial information and our consolidated financial statements included elsewhere in this offering memorandum.

The table below sets forth our classification of properties and the corresponding classification of properties in our consolidated financial information and our consolidated financial statements included elsewhere in this offering memorandum:

This offering memorandum	Consolidated financial information
• Completed properties, comprising properties with certificates of completion (including completed properties that have been sold)	• Completed properties held for sale (excluding completed properties that have been sold)
• Property under development, comprising properties for which we have obtained land use rights certificates and partly received construction permits or approval letters for early construction, but not yet received certificates of completion	• Land use rights (attributable to completed properties held for sale) • Investment properties • Properties under development
• Property held for future development, comprising properties for which we have not obtained land use rights certificates, but have entered into the land grant contracts or the project company equity transfer agreements, or cooperation agreements	• Land use rights (attributable to properties under development) • Expenditures incurred for projects for which we have not yet obtained land use rights certificates were recorded as prepayments, deposits and other receivables within our current assets

Site Area Calculation. The site area information in this offering memorandum is derived on the following basis:

- when we have received the land use rights certificates for a project, the site area information in respect of such project refers to the site area information in such land use rights certificates; and
- before we receive the land use rights certificates, the site area information in respect of such project refers to the site area information in the relevant land grant contract or the relevant government permits related to such project excluding, however, the areas earmarked for public infrastructure, such as roads and community recreation zones.

When completed properties and properties under development are subject to a single land use rights certificate, we calculate the site area attributable to such completed properties and such properties under development in proportion to their respective total GFA as a percentage of the aggregate total GFA under the land use rights certificate.

GFA Calculation. The GFA information in this offering memorandum is derived on the following basis:

- when the construction of a project is completed and we have received the certificate of completion, the total GFA information in respect of the project refers to the total GFA in such certificate of completion;
- if we have not yet obtained the certificate of completion, but have obtained the construction works planning permit for the project, the total GFA information in respect of the project refers to the total GFA in such construction works planning permit;
- if we have not yet obtained the construction works planning permit, but have obtained the construction land planning outline for the project, the total GFA information in respect of the project refers to the total GFA in such construction land planning outline;
- if we have not yet obtained the construction land planning outline, but have received the government-approved design plan for the project, the total GFA information in respect of the project refers to the total GFA in such government-approved design plan; and
- if we have not obtained any of the above documents for the project, the total GFA information in respect of the project refers to the total GFA based on our current development plan for the project.

- if we have not yet obtained the property ownership certificate, but have received the pre-sale permit for the project, the saleable GFA information refers to the saleable GFA in the pre-sale permit;
- if we have not yet obtained the pre-sale permit but have received the construction works planning permit for the project, the saleable GFA information in respect of the project refers to the saleable GFA estimated in such construction works planning permit;

- if we have not yet obtained the construction works planning permit, but have received the construction land planning outline for the project, the saleable GFA information in respect of the project refers to the saleable GFA estimated in such construction land planning outline;
- if we have not yet obtained the construction land planning outline, but have received the government-approved design plan for the project, the saleable GFA information in respect of the project is estimated based on such government-approved design plan; and
- if we have not yet obtained any of the above documents for the project, the saleable GFA information in respect of the project is estimated based on our current development plan for the project.

GFA sold information refers to the GFA sold or pre-sold as specified in the relevant sale and purchase agreements on an aggregate basis. GFA sold information in this offering memorandum does not include GFA of parking spaces. Unless the pre-sale of a project has started, we have provided estimated pre-sale commencement time for such on-going project in this offering memorandum. Unless a project has already been completed, we have likewise provided estimated completion time for such on-going project in this offering memorandum.

Some of them had also received pre-sale permits. With respect to “GFA without construction permits,” we had yet to obtain some or all of the relevant construction land planning permits, construction works planning permits and construction permits as of the date specified. “GFA under development with pre-sale permits” means GFA with construction permits and pre-sale permits.

Properties Held for Future Development

We had 93 projects held for future development as of December 31, 2016. These properties were meant for future development and had an estimated total GFA of 36.7 million square meters as of December 31, 2016.

The total GFA with respect to each project included in our properties held for future development represents estimates by our management on the basis of our current development plans formulated pursuant to the relevant land grant contracts.

For all of our projects held for future development, we had entered into a land grant contract or a land transaction confirmation letter. We had not, however, received the land use rights certificates, construction land planning permits, construction works planning permits and construction permits for all of our projects held for future development as of December 31, 2016.

Product Series

Over the years, we have developed and introduced various distinctive product series to the market, including:

- *Mid- to mid-high-end series.* This series consists mainly of products within our Evergrande Oasis (恒大綠洲) series, Evergrande Metropolis (恒大名都) series, Evergrande City (恒大城) series, Evergrande Atrium (恒大雅苑) series, Evergrande Royal Scenic Bay (恒大御景灣) series, Evergrande Emerald Court (恒大翡翠華庭) series, Evergrande Bay (恒大江灣) series, Evergrande Plaza (恒大廣場) series and Evergrande Bund (恒大外灘) series. We target for properties of this series to account for approximately 85% of our current projects. They are positioned as large residential complexes with a full range of ancillary facilities and services. Typically located in the sub-central urban areas with comprehensive infrastructure and a convenient transportation network, these projects generally include multi-story, mid-rise, mid-to-high-rise and high-rise apartments. They are usually equipped with large clubhouses, sports centers, kindergartens, commercial streets and other living facilities.
- *High-end series.* This series consists mainly of products of Evergrande Palace (恒大華府) series, Evergrande Royal Scenic Peninsula (恒大御景半島) series, Evergrande Emperor Scenic (恒大帝景) series and Evergrande Royal Scenic (恒大御景) series. We target for properties of this series to account for approximately 15% of our current projects. They are positioned as high-end urban residential projects targeting high-income residents. Typically situated in the prime locations of existing urban areas, or areas with significant future value appreciation potential within large cities, these projects generally include garden houses and condominiums. Most of them are large units with the highest and most luxurious design and construction standards. Usually, these projects are fully equipped with facilities and services of superior standards, including large luxurious clubhouse, commerce and education facilities.
- Our tourism related business mainly comprises of Evergrande Venice on the Sea Qidong Project (啟東恒大海上威尼斯項目) and Sea Ocean Flower Island Hainan Project (中國海南海花島項目). We focus on developing large-scale cultural tourism projects catering tourists and vacation house owners, including but not limited to large-scale facilities targeting tourists and vacation house owners, such as man-made islands, beaches, Evergrande Children's World Theme Park (恒大童世界), recreation and shopping facilities, large-scale hotels, as well as large conference centers which are able to accommodate thousands of people.

We design and develop all of our product series under our standardized management and market them under the brand name of “Evergrande” on a nationwide basis. We also market products of these series under different project names.

Within our product series, we mainly develop five types of residential properties:

- villas, which are typically independent houses with one to three stories;
- semi-detached villas, which are typically two separate houses that share a common wall;

- townhouses, which are typically connected houses of more than two units;
- condominiums, which are typically low-rise residential buildings of four to 18 stories; and
- high-rise residential buildings, which are typically higher than 18 stories.

Co-Developed Projects

In recent years, we have entered into co-development arrangements with other property developers in which we share the cost of development of a project and sales proceeds from the sale and/or pre-sale of the properties in the development. We consider a number of criteria when evaluating whether to partner with a company for co-development of a project, including the company's economic strength and property development experience, whether they have obtained all or part of the land use rights, whether the prospective project location is good, the risk profile of the prospective project and the potential for appreciation, whether the payment terms are favorable, and whether there are low capital requirements for the early stages of development. As of December 31, 2016, we have 168 co-developed projects across 29 provinces and autonomous regions in China, including Shandong, Hebei and Zhejiang. Our profit sharing arrangements generally correspond to our equity ownership in the project development company. The terms of our co-development vary but typically, we may: (i) provide the land use rights for a project and our co-developer would contribute to the development costs through capital injections into the project company or advances of land premium; or (ii) develop the project under our name and management.

We believe such co-development arrangements have helped us expand our nation-wide footprint, while lowering our development costs and investment risks associated with construction projects in new geographical regions. We may continue to enter into such co-development arrangements as suitable opportunities arise.

We set forth in the table below details of these co-developed property projects:

Since December 31, 2016, we have entered into new co-development arrangements with other property developers for more than 40 projects. Some major new co-development arrangements include Evergrande Golf Village in Zhaoqing, Meizhou Yujing in Meizhou and Century Dragon Garden in Tangshan. Evergrande Golf Village occupies a total site area of 1,278,524 square meters with an aggregate total GFA of 2,301,343 square meters. Meizhou Yujing occupies a total site area of 597,006 square meters with an aggregate total GFA of 2,063,164 square meters. Century Dragon Garden occupies a total site area of 419,227 square meters with an aggregate total GFA of 1,511,300 square meters. We hold 58% of attributable equity interest of Evergrande Golf Village, 80% of attributable equity interest of Meizhou Yujing and 51% of attributable equity interest of Century Dragon Garden.

Investment Properties

Along with our residential property projects, we also develop office buildings, commercial properties, retail shop units and carpark spaces as part of our residential complexes for leasing. As we intend to hold these properties for long-term investment purposes, they are treated as investment properties. As of December 31, 2016, these investment properties included 6.6 million square meters of total GFA for commercial spaces and about 405,000 carparks. Some of our retail shop units and carpark spaces are, or may be, located in large, multiple-use complexes. We may choose to sell the retail shop

units when we believe that sales would generate a better return on our investment than through rental and capital appreciation. In the years ended December 31, 2014, 2015 and 2016, our rental income from investment properties amounted to RMB144 million, RMB241 million and RMB647 million (US\$93 million), respectively. The increase is partly due to increased occupancy of our residential complexes.

Property Development

Our business operations are based on our industry-leading standardized operational model for quality real estate development. Our standard operational procedures cover all aspect of our project development process.

We believe our standardized approach to property development has enabled us to rapidly replicate our success in our home base in Guangzhou to other key provincial capitals and surrounding areas in China, to ensure consistent product quality at the same time.

The residential properties we develop are primarily composed of four major standard product series. We have also developed a standard for high-end ancillary facilities, a standard for gardening and landscaping, and a construction standard according to different product series. We develop a diversified portfolio of properties, including low-density residential buildings, multi-story residential buildings, and mid-rise and high-rise residential buildings, to cater to individual needs of different buyers. We generally favor large-scale and extra-large scale projects because our standardized operational model tends to work more effectively and efficiently with them, as they allow the appropriate economies of scale to maximize the upside potential of property development.

Project Development and Management Procedures

We maintain a systematic development approach although each project is designed to cater to the specific target market. Our property development and management procedures are summarized as below:

City and Site Selection

We screen cities and sites in China following a standardized process in order to identify opportunities suitable for our development. The primary criteria in our project site evaluation include the following:

- location in cities that we believe have high-growth potential;
- generally not less than 20,000 square meters in GFA for projects in first-tier and second-tier cities and not less than 300,000 square meters in GFA for projects in third-tier cities;
- beautiful surrounding environment, with established supporting infrastructure, convenient transportation system and appropriate value appreciation potential;
- minimal or no demolition and resettlement costs, allowing commencement of development soon after the acquisition of the land; and
- appropriate cost and attractive financial return.

Land Acquisition

According to current PRC laws and regulations, state-owned land use rights for property development must be granted by the relevant governmental authorities via public tender, auction and listing-for-sale. Land reserves may also be acquired in the secondary market through acquisition of the equity interests of companies that possess the land use rights. You should refer to the section entitled “Regulation” for more information about PRC land grant regulation. We acquire land use rights either by bidding directly at auctions organized by the relevant government authorities or through acquiring companies that hold land use rights.

As a property developer targeting middle to upper-middle income customers, we believe that acquiring land at competitive prices is critical to our overall development strategy. The ability to identify potentially undervalued land reserves and the effective execution of our land acquisition strategy are our important strengths. Based on our current development and growth targets, we expect to maintain sufficient land reserves to fulfill our development requirements for the next five to eight years on a rolling basis. As of December 31, 2016, we had approximately 192.7 million square meters of GFA under development and approximately 36.7 million square meters of GFA held for future development. In accordance with our national strategic plan, we will continue to optimize the location of our residential properties. We will focus more on the development of projects in central urban areas in first- and second-tier cities and prime locations in third-tier cities to maintain stable land reserves and achieve a balanced national development distribution.

As of the date of this offering memorandum, we have not commenced the construction work as required by the relevant original land grant contracts with respect to a number of projects that we have acquired. However, we do not expect such land parcels to be subject to idle land fees or forfeiture primarily for the following reasons:

- the relevant local authorities' failure to deliver certain land to us due to their on-going re-zoning plans;
- our entry into supplementary agreements with the relevant local authorities to extend the commencement of the construction; and/or
- demolition of certain land has not been completed on the part of the government, preventing the construction from commencing on such land.

As of the date of this offering memorandum, we have not been required to pay any idle land fee or forfeit any land as a result of noncompliance with the relevant PRC laws and regulations. Although we cannot assure you that circumstances leading to forfeiture or significant delays in our development schedules will not arise in the future, we do not expect that any of our current land reserves will be subject to forfeiture based on our current development plans.

To ensure timely payment of land premiums and efficient execution of our property development, we have adopted internal control procedures to monitor and manage our land acquisitions and related financing. Our legal department has authority to perform due diligence investigations into our land acquisitions and our finance department is responsible for the feasibility analysis and funding sufficiency. Both departments report their findings and issues to our senior management. We also require our regional offices to strictly adhere to the schedules with respect to application for land use right certificates, construction land planning permits, construction work planning permits and construction permits in compliance with the PRC laws and regulations. We closely monitor the land acquisition and project development process. In the event that we experience delays in payment of land premiums or construction schedules we will seek immediate rectification, including application for an extension from the relevant government authorities as well as negotiation and entry into supplementary agreements. In addition, as part of our standardized operational model, we endeavor to train our staff at, and coordinate the proceedings in, our bidding and tendering department, development department and engineering department to ensure a timely property development in compliance with the PRC laws and regulations.

Project Planning and Design

We have strong in-house design capabilities. Evergrande Design and Research Institute, our in-house design subsidiary, is a nationally accredited architectural design firm composed of over 290 professionals as of December 31, 2016. Our design team works closely with our project managers and marketing team in master-planning and in detailed two-dimensional and three-dimensional architectural designs. Our design team also collaborates with reputable domestic and international design houses in

formulating, developing and finalizing the landscape and interior design for our projects. Our senior management is actively involved in the entire planning and design process, especially in the master-planning and architectural design of our projects. Our design process is summarized as below:

Based on our previous successful experiences, our professional R&D team has designed over 20 standard series of products, including the Evergrande Emerald Court series, the Evergrande Culture Tourist series, the Evergrande Bay series, the Evergrande Royal View Garden series, the Evergrande Central Plaza series, the Evergrande Royal Scenic Peninsula series, the Evergrande Metropolis series, the Evergrande Palace series, the Evergrande City series, the Evergrande Royal Scenic Bay series, the Evergrande Emerald Dragon Court series, the Evergrande Scenic Garden series, the Evergrande Splendor series, the Evergrande Oasis series, the Evergrande Silverlake City series, the Evergrande Atrium series, and the Evergrande Royal Scenic series. We also conduct detailed market research and analysis on the products placed by other major developers into the market. We endeavor to tailor-make and ensure highest construction, gardening, landscaping, and decoration quality in our different product series. We will continue to adopt creative architectural planning and innovative designs with a view to making our products distinctive from other offerings in the market.

In our efforts to integrate quality with distinctive designs for our properties, we have also retained renowned design houses, such as Atkins Shenzhen, Thornton Tomasetti Inc., Ove Arup & Partners Hong Kong Limited, Parsons Brinckerhoff (Asia) Limited, TFP Farrells Limited and Gensler Architectural Consulting (Shanghai) Co., Ltd., to optimize our architectural design in various aspects. As we seek to standardize the designs of our product series and customize our mature series, we will continue to introduce new series in accordance with market demands and preferences. As an important part of our project planning and design process, we work closely with external landscape and interior designers to maximize the esthetic appeal and eco-value of our properties. In addition to distinctive design features, we also seek to distinguish our property developments by offering additional value-added functions.

We have received numerous awards in recognition of our achievement in various areas of our project designs and floor plans, including the following:

- our construction company has obtained the China Premium Qualification as a general housing construction contractor, which allows us to develop land with a total GFA of over 200,000 square meters and top qualifications as a general municipal public works construction contractor to perform construction, municipal engineering, decoration and landscaping of historical style buildings, which allows us to vertically integrate the construction process; and

- Evergrande Group Project Management Ltd. has obtained the China Grade A Engineering Supervision qualification, which is the highest level of engineering supervision qualification recognized in China.

Centralized Tender

We organize tenders, and invite primarily first-rate construction companies in China to participate in the bidding, for interior decoration, gardening and landscaping and other construction work to ensure that we get high-quality construction service at competitive prices. We have centralized and standardized our tender process as a part of our standard operational procedures. We outsource substantially all of our project construction work to independent contractors. We have also acquired a nationally accredited construction company to undertake some of our project construction. We also maintain strict quality control measures throughout our development chain and partner with renowned international and national service and product providers to ensure the quality of our products. Vendors and suppliers we generally partner with in our projects include:

Centralized Procurement

We have signed long-term procurement agreements with reputable service and product suppliers in China and overseas and we have also established a unified national distribution system. The procurement departments in our regional offices are managed directly by our headquarters. Our regional procurement departments submit their procurement plans of material and equipment to our headquarters on a monthly basis. We require that the difference between the actual monthly purchased quantities and the procurement plans should not exceed 10% under normal circumstances. Through such requirements, we endeavor to minimize our overall purchasing costs without compromising our quality requirement.

Our centralized procurement system plays an essential role in helping us achieve economies of scale and favorable commercial terms, and in promoting our long-term partnership with quality suppliers. We have established a rigorous screening and bidding process to select our suppliers. We mainly consider first-rate national suppliers during our screening process, from which we select three to five suppliers in each category to form our pre-qualified vendor pool. Pre-qualified suppliers are invited to submit bids based on our product specifications and requirements. All submitted bids are reviewed and evaluated by our bidding and tendering committee, which consists of members from our senior management, procurement departments and design team. The bidding and tendering committee determines the winner based on a set of standards described in our bid-solicitation documents, such as product quality, price, supply lead time, financial strength, reputation and after-sales services. Our objective in this centralized procurement system is to obtain the required quality products and services at the best prices. Certain key construction materials and services, such as aluminum alloy materials, hardwood floor panels and site preparation, are partly provided by our subsidiaries.

Since 2006, all our construction material procurement contracts are tri-partite arrangements among us, suppliers and construction contractors. Such arrangements require suppliers to deliver their supplies directly to our regional procurement departments, which then distribute them to our construction contractors. We will effect payments to suppliers on a monthly basis by deducting such payments directly from our fees payable to the construction contractors. These arrangements not only ensure the quality of materials and equipment used in our projects but also relieve the concerns of our suppliers over potential late payment or lack of accountability on the part of construction contractors. Through our large-volume and centralized procurement arrangements, we are able to form long-term strategic partnerships with top suppliers in China and overseas to provide us, and indirectly our customers, with premium products at competitive costs. For example, we source our elevators primarily from OTIS and Shanghai Mitsubishi; power switches from SIEMENS; electrical appliances from Panasonic, Samsung and SIEMENS; kitchen electric appliances from Rinnai; bathroom fixtures from TOTO and KOHLER; switch boards from Panasonic, air conditioners and cabinets from Haier, a renowned domestic brand.

Project Construction

Our headquarters, in collaboration with all our specialized departments, formulates the standard of construction requirements and we require each of our regional offices to follow and implement the standard consistently. Our headquarters has a dedicated team of over 750 professional staff who collect and analyze information on project progress and construction quality from all of our regional offices on a weekly basis through our in-house information management system. This team not only sends out professionals to conduct on-site inspection, but also dispatches qualified professionals and engineers to supervise the overall construction of each individual project from time to time.

Under the supervision of our headquarters, each of our regional offices is responsible for the day-to-day management of specific project construction in accordance with our centralized standard. The construction contracts we enter into with construction companies typically contain warranties with respect to quality and timely completion of the construction projects. We require construction companies to comply with the relevant PRC laws and regulations as well as our own standards and specifications. Our construction management department is charged with the responsibility of closely monitoring quality and construction progress as well as controlling cost during construction. In the event of unsatisfactory quality of work, we will reject such work pursuant to our contractual arrangements until it is redone to our satisfaction. Our construction contracts typically require payments based on construction progress until a specified maximum percentage of the total contract sum is paid. Except for approximately 5% of the contract sum, which we generally withhold for two years from the time of completion to cover any contingent expenses incurred as a result of any construction defects, the remaining balance is payable upon confirmation of the construction quality. You should refer to the section entitled “— Quality Control and Construction Supervision” below for additional information on our quality control system.

Quality Control and Construction Supervision

We control the overall project quality directly from our headquarters by the following means:

- provision of professional guidance and technical support to our regional offices for the purpose of overseeing and supervising the construction of all our projects;
- compilation of various standardized technical guidelines and assessment systems, including our property construction management system, to manage the various aspects of project developments;
- results evaluation conducted through the monthly plans and weekly progress reports submitted by our regional offices with respect to all of our projects under development from time to time; and
- dispatch of qualified personnel to conduct on-site quality inspections on a random basis.

We emphasize and enforce our quality control at every stage of a project development from its initial planning and design through its final completion. In addition to our stringent and intensive selection process in choosing our suppliers and service providers as disclosed in the sections entitled “— Centralized Tender” and “— Centralized Procurement” above, we employ strict procedures to select, inspect and test equipment and materials we purchase. Our project management teams inspect equipment and materials to ensure their compliance with the contractual specifications before accepting them and approving payment. We reject and return any supplies that are below our standards or that do not comply with our specifications.

To ensure quality and to monitor the progress and workmanship of a construction project, our wholly owned construction supervision company, Evergrande Engineering and Supervision Co., Ltd., monitors our projects developments on a nationwide basis. Evergrande Engineering and Supervision Co., Ltd. has earned the highest qualification recognized by the PRC government and currently employs over 2,300 qualified construction supervisor-engineers. In compliance with PRC laws and regulations, we also engage certified construction supervision companies to monitor certain aspects of our project construction as specified by the relevant rules and regulations. We also require the construction contractors to implement our quality control procedures, including the appointment of their internal on-site quality control engineers, examination of materials and supplies, and their on-site inspection. We rely on our own qualified construction supervisor-engineers to effectively monitor the construction process to ensure quality control. Our qualified construction supervisor-engineers not only conduct on-site quality inspection of the construction work on a daily and continuous basis, but also are authorized to tear down sub-standard work if they deem it necessary. We have formulated a series of internal quality assurance standards and systems to regulate all major processes and procedures in our project development, including construction works, water and electricity systems, pipe networks, landscaping, fitting-out works, interior design and decoration, controls over raw materials and equipment supply. To control product quality, we have also developed an information management system to enable our headquarters to access information, on a real-time basis, on the construction progress relating to each individual building across our projects anywhere in the country.

We also make great efforts to promote safety and environmental awareness at our construction sites. Many of our construction sites in Guangzhou have received “Double Excellence Construction Sites” awards by Guangzhou municipal government. In addition, prior to handing over our property to a purchaser, our sales and customer service departments, together with our engineers and the property management company, inspect the property to ensure it is fit for delivery.

Sales and Marketing

We combine a centralized sales and marketing management team with the employment of first-rate professional property sales agencies for our sales and marketing in China. Our internal sales and marketing management team is responsible for formulating our nationwide sales and marketing strategies and supervising their execution, while the retained sales agencies are responsible for implementing such strategies and actual sales. This approach assures consistency in our promotion and sales strategy on a nationwide basis and improves efficiency in our sales.

We have approximately 8,600 personnel to manage and coordinate our marketing and sales. Their principal responsibilities include the following:

- market research;
- brand promotion;
- sales planning;
- property pricing; and
- sales management.

Our centralized sales and marketing management team coordinates with our regional offices in selecting qualified sales agencies and promoting our brands across different regional markets in China. Our marketing and sales management team works closely with other internal teams and external agencies in order to determine the appropriate advertising and selling plans for any particular project. They also monitor sale and pre-sale procedures conducted by sales agencies. In addition, senior members of our sales and marketing management team are also actively involved in such matters as site selection, project planning and project design.

Our promotion channels primarily include advertising through newspapers, television, radio, internet, billboards, magazines and mobile phone text messages. We generally engage first-rate property sales agencies and advertising design houses in China, including E-House, Hopefluent Group Holdings Limited, Shenzhen World Union Properties Consultancy Company Limited and Guangdong Advertising Company Limited, Beijing crystal digital technology Co., Ltd. and Shenzhen Sapintial & perfect Advertising Co., Ltd. to assist us in our sales campaigns. As part of our marketing strategy, we organize potential customers to visit our property projects via our free shuttle buses. These showcase visits facilitate sales of our properties under development and help promote our brand.

Pre-sale

Like other developers, we pre-sell properties prior to the completion of their construction. Under the PRC pre-sale laws and regulations, property developers must satisfy specific conditions before they may pre-sell their properties under construction. These mandatory conditions include:

- The land premium has been paid in full;
- The land use right certificates, the construction land planning permits, construction works planning permits and the construction permits have been obtained;
- At least 25% of the total project development investments has been made;
- The progress and the expected completion and delivery date of the construction are certain; and
- The pre-sale permit has been obtained.

These mandatory conditions are designed to impose a timing restriction on developers with respect to the commencement of pre-sales. They are predicated on substantial progress in project construction and in capital expenditure. To protect the rights and interests of consumers, local governments generally require developers and property purchasers to use standard sales and purchase contracts prepared under the auspices of such local governments. Developers are required to file all such contracts with local land bureaus and real estate administrative authorities within 30 days of entering into such contracts. Local governments may impose additional conditions from time to time for commencing pre-sale of properties.

In addition to satisfaction of mandatory conditions required by PRC laws and regulations, we typically impose our own additional requirements before we pre-sell. To demonstrate our superior product quality to our potential buyers and to shorten the duration between pre-sale and delivery, we generally commence our pre-sale only after we have completed the landscaping, gardening, and the construction of the on-site show units and the lobby.

Payment Arrangement

Purchasers of our residential properties, including those purchasing our pre-sale properties, may pay us through mortgage loans with banks. We typically require our purchasers to pay a non-refundable deposit upon entering into provisional purchase contracts. If the purchasers later decide not to enter into formal purchase contracts, they will forfeit such deposits to us. Upon executing the formal purchase contracts, we offer the purchasers several types of payment plans with various terms. Typically, the purchasers are required to pay at least 30% of the total purchase price of the property within five days, and the remaining balance within 20 days. If the purchasers choose to fund their purchases by mortgage loans provided by banks, it is their own responsibility to apply for and obtain the mortgage approvals. Upon request, we also assist mortgage applicants by providing the relevant property information to expedite their application process. The payment terms of our sales and pre-sales are substantially identical.

Most of our customers purchase our properties through mortgage financing. In accordance with industry practice in China, we provide guarantees to mortgagee banks in respect of the mortgage loans provided to the purchasers of our pre-sold properties. These guarantees are released upon the earlier of (i) the relevant property ownership certificates being delivered to the purchasers; and (ii) the full repayment of mortgage loans by the purchasers of our properties. In line with industry practice, we do not conduct independent credit checks on our purchasers but rely on the credit checks conducted by the mortgagee banks. As of December 31, 2014, 2015 and 2016, our outstanding guarantees on the mortgage loans of the purchasers of our pre-sold properties were approximately RMB102,698 million, RMB141,591 million and RMB252,128 million (US\$36,314 million), respectively. You should refer to the section entitled “Risk Factors — Risks Relating to Our Business — We guarantee mortgage loans of our customers and may become liable to the mortgagee banks if our customers default on their mortgage loans” for additional risk disclosure.

After-sales Services and Property Management

We have a dedicated customer service department to manage our after-sales services. We have also set up an ownership certificate department to assist our purchasers in obtaining their property ownership certificates. We offer various communication channels, such as designated mailboxes and emails, for our customers to conveniently express their feedback and complaints about our products or services. Our customer service staff is committed to finding the best solutions to the reported problems. We also provide free publications to our existing customers to cultivate a sense of belonging and community.

Prior to delivery of properties to customers, we usually engage Jinbi Property Management, our subsidiary and a nationally accredited property management company, to manage our properties until the property owners have established a homeowner’s association pursuant to the PRC laws and regulations to choose their own property management company. We also engage well-known external professional property management or consultancy companies to manage some of our high-end projects. As of

December 31, 2016, most owners of our developments who had become statutorily entitled to elect their property management companies continued to engage Jinbi Property Management to manage their properties. The property management services we provide in relation to our projects include maintenance of common facilities, cleaning, security, gardening, landscaping and other services.

Currently our other businesses primarily included property construction, hotel and other property development related services and we have taken significant initiatives or made significant plans to expand into the grain and oil, dairy, healthcare, insurance, internet, football and cultural industries.

Hotels

We are currently in various stages of development of 35 hotels in certain of our property projects and operation of 13 completed hotels. While we are currently operating some of these hotels ourselves, we may engage hotel and resort management companies to manage the others upon the completion of their construction. 10 of our completed hotels are managed by us through our own hotel management teams, and three are managed by renowned third-party hotel companies on our behalf. Our completed hotels include Evergrande Royal Scenic Peninsula Hotel (恒大御景半島酒店), Zengcheng Hengda Hotel (增城恒大酒店), Qingyuan Evergrande Hotel (清遠恒大酒店), Chongqing Evergrande Hotel (重慶恒大酒店), Tianjin Evergrande Hotel (天津恒大酒店), Tianjing Dongli Lake Evergrande Hotel (天津東麗湖恒大酒店), Chengdu Jingtang Evergrande Hotel (成都金堂恒大酒店), Chengdu Pengshan Evergrande Hotel (成都彭山恒大酒店), E'zhou Evergrande Hotel (鄂州恒大酒店), Qidong Evergrande Hotel (啟東恒大酒店), Nanchang Evergrande Hotel (南昌恒大酒店) located in Guangdong, Sichuan, Hubei, Jiangsu and Jiangxi province and Chongqing and Tianjin municipality.

Other Business

To diversify our business, we have taken significant initiatives or made significant plans to enter into industries, including but not limited to, healthcare, insurance, internet, football and cultural industries.

Banking, Insurance and Internet Finance and Services

We operate our banking, insurance and internet finance and services business under our financial holding group, Evergrande Finance. With a 17.28% equity interest, we are the largest shareholder of Shengjing bank. The bank's total assets amounted to RMB90.5 billion with total deposits amounting to RMB415.2 billion, as of December 31, 2016. In November 2015 we received approval from the China Insurance Regulatory Commission to acquire a 50% interest in GELC, a life insurance company based in China. We subsequently changed its name to Evergrande Life in order to leverage our strong brand recognition in the real estate industry and achieved rapid growth by providing insurance services to the

residents of our many communities. As of December 31, 2016 Evergrande Life's annual standardized premiums amounted to RMB56.5 billion, had 508,744 policy holders and operated seven branches located in Chongqing, Sichuan, Shaanxi, Hubei, Hunan, Henan and Guangdong.

In the first half of 2015 we and Tencent entered into a tri-party subscription agreement worth HK\$751 million with Mascotte Holdings Limited (HKEX: 00136), pursuant to which we and Tencent respectively subscribed for 55% and 20% equity interests in Mascotte. We subsequently rebranded as HengTen Networks Group Limited and have developed an open and collaborative internet community service platform (the “**ICS Online Platform**”) with both online and offline community services. The ICS Online Platform provides one-stop integrated services including ordering, logistical arrangements and delivery of goods and services. In March 2016, HDFAX was officially launched. As of December 31, 2016, HDFAX had accumulated nearly 16.5 million registered users and 94,000 individuals have made transactions over the platform.

Tourism and Culture

We have entered into the tourism industry with the establishment of Evergrande Tourism. A large tourism composite comprising 28 commercial attractions including developments such as Marine World, Snow Mountain and our marquee development, Fairytale Land, all of which will be featured in our Haihua Island Project, covering 7.2 million square meters. Fairytale Land is being developed as an all season indoor theme park that will cater towards younger children and promote Chinese culture and global themes.

In addition to tourism, we have also established Evergrande Culture, our wholly owned subsidiary operating in the cultural industry in China, and features cinemas, music, film and television and animation businesses. Evergrande Culture currently operates over 90 cinema theaters, with a collective 600 screens and is present in 80 cities.

In 2010 we entered into the professional football club market by establishing Evergrande Taobao, our joint venture engaged in the operation of a Chinese professional football club. On November 6, 2015, we received approval for the listing of and subsequently listed Evergrande Taobao on the NEEQS.

Healthcare

In February 2015, we acquired a majority interest in New Media Group Holdings Limited, a company listed in Hong Kong, and changed its name to Evergrande Health Industry Group Limited (“**Evergrande Health**”), which focuses on healthcare related businesses, including “internet+” community healthcare management and medical cosmetology, international hospitals and late-life care. Elderly Care Valley focuses on late-life care and related medical services. Our international hospital, Ba’ao Evergrande International Hospital, which has been developed in conjunction with Brigham and Women’s Hospital, affiliates of Harvard University, is scheduled to open in the second half of 2017 and we have also commenced planning and design for an additional international hospital in Sanya Haitang Bay.

With respect to our community health and medical services, we have been able to successfully position our “Internet Plus” community health management centers throughout China and further extend the reach of our healthcare services. Our medical cosmetology projects were established under the “flagship store + medical cosmetology micro agencies” model and now operate in Guangzhou, Beijing and Tianjin. We plan to further expand our medical cosmetology network by repeating the pattern of “flagship store + medical cosmetology micro agencies” throughout China.

(“**Vanke**”), respectively, through our subsidiaries for considerations of RMB14.01 billion, RMB3.48 billion, RMB4.19 billion, RMB5.46 billion and RMB9.11 billion, respectively. Vanke is principally engaged in the business of property development in the PRC and one of the largest property developers in the PRC with strong results.

The acquisitions are investment of the Company. In view of the strong financial performance of Vanke, our directors believe that the investment in Vanke will provide a good investment opportunity for us and enable the Company to generate sustainable and attractive returns for the shareholders of the Company. Our interest in Vanke will be accounted for as available-for-sale financial assets in our financial statements and the results of Vanke will not be consolidated in our financial statements.

Properties Used by Us

As of December 31, 2016, we leased our office premises from independent third parties with a total GFA of 220,000 square meters in different regions of China.

Competition

We compete with other real estate developers in terms of a number of factors, including product quality, service quality, price, financial resources, brand recognition, ability to acquire proper land reserves and other factors. The property market in China is highly competitive. Our existing and potential competitors include major domestic developers and, to a lesser extent, foreign developers, such as leading developers from Hong Kong. You should refer to the section entitled “Risk Factors — Risks Relating to Our Business — Intensified competition might adversely affect our business and our financial position” for additional disclosure.

Intellectual Property Rights

We have applied for registration of “中國恒大集團” with the State Administration for Industry and Commerce in China and “Evergrande” and “China Evergrande Group” in Hong Kong as our trademarks. We have also applied for trademark registration with the PRC intellectual property administrative authorities with respect to our logo, Company name in Chinese and English, and certain other names and logos of our product series.

Insurance

Property developers are not required under PRC national and local laws and regulations to maintain insurance coverage in respect of their property development operations. We do not maintain insurance coverage on our properties developed for sale other than with respect to those developments over which our lending banks have security interests, or for which we are required to maintain insurance coverage under the relevant loan agreements. In addition, we do not require the construction companies we engage to maintain insurance coverage on properties under construction. We generally do not carry insurance against personal injuries that may occur during the construction of our properties. The construction companies, however, are responsible for quality and safety control during the course of the

construction and are required to maintain accident insurance for their construction workers pursuant to PRC laws and regulations. To help ensure construction quality and safety, we have formulated a set of standards and specifications for the construction workers to comply with during the construction process. We deploy our own qualified construction supervisor-engineers and also engage qualified external supervision companies to oversee the construction process. Under PRC laws and regulations, the owner or manager of a property under construction bears the civil liability for personal injuries arising out of construction work unless the owner or manager can prove that it is not at fault. We have taken these and other steps in an effort to prevent construction accidents and personal injuries. We believe that we should be in a position to demonstrate that we were not at fault as the property owner if a personal injury claim should be brought against us. In addition, according to our construction contracts, any liability that may arise from tortious acts committed on work sites should be borne by the construction companies. To date, we have not experienced any destruction of or material damage to our property developments nor have any material personal injury-related claims been brought against us.

We believe that our policies with respect to insurance are in line with the industry practice in China. However, there are risks that we do not have sufficient insurance coverage for losses, damages and liabilities that may arise in our business operations. You should refer to the section entitled “Risk Factors — Risks Relating to Our Business — We have limited insurance to cover our potential losses and claims” for additional risk disclosure.

Environmental and Safety Matters

We believe that our operations are in compliance with currently applicable national and local environmental and safety laws and regulations in all material respects. You should refer to the section entitled “Risk Factors — Risks Relating to Our Business — Potential liability for environmental damages could result in substantial outflow of our resources” for additional risk disclosure.

Legal Proceedings

From time to time we are involved in legal proceedings or disputes in the ordinary course of business, including claims relating to our guarantees for mortgage loans provided to our purchasers, contract disputes with our purchasers and suppliers and disputes with respect to our co-developed projects or land acquisition contracts. We are not aware of any material legal proceedings, claims or disputes currently existing or pending against us except as otherwise disclosed in this offering memorandum. You should refer to the section entitled “Risk Factors — Risks Relating to Our Business — We may be involved from time to time in material disputes, legal and other proceedings arising out of our operations or subject to fines and sanctions in relation to our non-compliance with certain PRC laws and regulations and may face significant liabilities as a result” for additional risk disclosure.

REGULATION

The following discussion summarizes the principal laws, regulations, policies and administrative directives to which we are subject.

The PRC Legal System

The PRC legal system is based on the PRC Constitution and is made up of written laws, regulations, directives and local laws, laws of Special Administrative Regions and laws resulting from international treaties entered into by the PRC government. Court verdicts do not constitute binding precedents. However, they are used for the purposes of judicial reference and guidance.

The National People's Congress of the PRC, or NPC, and the Standing Committee of the NPC are empowered by the PRC Constitution to exercise the legislative power of the State. The NPC has the power to amend the PRC Constitution and enact and amend basic laws governing State agencies and civil and criminal matters. The Standing Committee of the NPC is empowered to enact and amend all laws except for the laws that are required to be enacted and amended by the NPC.

The State Council is the highest organ of the State administration and has the power to enact administrative rules and regulations. The ministries and commissions under the State Council are also vested with the power to issue orders, directives and regulations within the jurisdiction of their respective departments. All administrative rules, regulations, directives and orders promulgated by the State Council and its ministries and commissions must be consistent with the PRC Constitution and the national laws enacted by the NPC. In the event that a conflict arises, the Standing Committee of the NPC has the power to annul administrative rules, regulations, directives and orders.

At the regional level, the provincial and municipal congresses and their respective standing committees may enact local rules and regulations and the people's governments may promulgate administrative rules and directives applicable to their own administrative areas. These local laws and regulations must be consistent with the PRC Constitution, the national laws and the administrative rules and regulations promulgated by the State Council.

The State Council, provincial and municipal governments may also enact or issue rules, regulations or directives in new areas of the law for experimental purposes. After gaining sufficient experience with experimental measures, the State Council may submit legislative proposals to be considered by the NPC or the Standing Committee of the NPC for enactment at the national level.

The PRC Constitution vests the power to interpret laws in the Standing Committee of the NPC. According to the Decision of the Standing Committee of the NPC Regarding the Strengthening of Interpretation of Laws passed in June 1981, the Supreme People's Court, in addition to its power to give general interpretation on the application of laws in judicial proceedings, also has the power to interpret specific cases. The State Council and its ministries and commissions are also vested with the power to interpret rules and regulations that they have promulgated. At the regional level, the power to interpret regional laws is vested in the regional legislative and administrative bodies which promulgate such laws.

The PRC Judicial System

Under the PRC Constitution and the Law of Organization of the People's Courts, the judicial system is made up of the Supreme People's Court, the local courts, military courts and other special courts. The local courts are comprised of the basic courts, the intermediate courts and the higher courts. The basic courts are organized into civil, criminal, economic and administrative divisions. The intermediate courts are organized into divisions similar to those of the basic courts, and are further organized into other special divisions, such as the intellectual property division. The higher level court supervise the basic and intermediate courts. The people's procuratorates also have the right to exercise

legal supervision over the civil proceedings of courts of the same level and lower levels. The Supreme People's Court is the highest judicial body in China. It supervises the administration of justice by all other courts.

The courts employ a two-tier appellate system. A party may appeal against a judgment or order of a local court to the court at the next higher level. Second judgments or orders given at the same level and at the next higher level are final. First judgments or orders of the Supreme People's Court are also final. If, however, the Supreme People's Court or a court at a higher level finds an error in a judgment which has been given in any court at a lower level, or the presiding judge of a court finds an error in a judgment which has been given in the court over which he presides, the case may then be retried according to the judicial supervision procedures.

The Civil Procedure Law of the PRC adopted in April 1991 and revised in August 2012 sets forth the criteria for instituting a civil action, the jurisdiction of the courts, the procedures to be followed for conducting a civil action and the procedures for enforcement of a civil judgment or order. All parties to a civil action conducted within the PRC must comply with the Civil Procedure Law. Generally, a civil case is initially heard by a local court of the municipality or province in which the defendant resides. The parties to a contract may, by express agreement, select a jurisdiction where civil actions may be brought, *provided* that the jurisdiction is either the plaintiff's or the defendant's place of residence, the place of execution or implementation of the contract or the object of the action. However, such selection can not violate the stipulations of grade jurisdiction and exclusive jurisdiction in any case.

A foreign individual or enterprise generally has the same litigation rights and obligations as a citizen or legal person of the PRC. If a foreign country's judicial system limits the litigation rights of PRC citizens and enterprises, the PRC courts may apply the same limitations to the citizens and enterprises of that foreign country within the PRC. If any party to a civil action refuses to comply with a judgment or order made by a court or an award granted by an arbitration panel in the PRC, the aggrieved party may apply to the court to request for enforcement of the judgment, order or award. There are time limits imposed on the right to apply for such enforcement. If at least one of the parties to the dispute is an individual, the time limit is one year. If both parties to the dispute are legal persons or other institutions, the time limit is six months. If a person fails to satisfy a judgment made by the court within the stipulated time, the court will, upon application by either party, mandatorily enforce the judgment.

A party seeking to enforce a judgment or order of a court against a party who is not located within the PRC and does not own any property in the PRC may apply to a foreign court with proper jurisdiction for recognition and enforcement of the judgment or order. A foreign judgment or ruling may also be recognized and enforced by the court according to the PRC enforcement procedures if the PRC has entered into, or acceded to, an international treaty with the relevant foreign country, which provides for such recognition and enforcement, or if the judgment or ruling satisfies the court's examination according to the principal of reciprocity, unless the court finds that the recognition or enforcement of such judgment or ruling will result in a violation of the basic legal principles of the PRC, its sovereignty or security, or for reasons of social and public interests.

Establishment of a Real Estate Development Enterprise

According to the PRC Law on Administration of Urban Real Estate 《城市房地产管理法》 promulgated by the National People's Congress, effective in January 1995, amended in August 2007, a real estate developer is defined as an enterprise that engages in the development and operation of real estate for the purpose of making profits. Under the Regulations on Administration of Development of

Urban Real Estate 《城市房地產開發經營管理條例》 promulgated by the State Council in July 1998, an enterprise that is to engage in development of real estate must satisfy the following requirements:

- its registered capital must be RMB1 million or more; and
- it must have four or more full-time professional real estate/construction technicians and two or more full-time accounting officers, each of whom must hold the relevant qualification certificate.

The local government of a province, autonomous region or municipality directly under the PRC central government may, based on local circumstances, impose more stringent requirements on the registered capital and the professional personnel of a real estate developer.

To establish a real estate development enterprise whose business is not falling within the category of prohibited industries for foreign investment, the developer must file the record with the competent administration for industry and commerce. The developer must also report its establishment to the real estate development authority in the location of its registration, within 30 days of the receipt of its business license. Where a foreign-invested enterprise is to be established to engage in the development and operation of real estate, it must also comply with the relevant requirements under the PRC laws and administrative regulations regarding foreign-invested enterprises and apply for approvals relating to foreign investments in China.

Pursuant to the Catalog of Guidance on Industries for Foreign Investment as revised in 2015 《外商投資產業指導目錄(2015)》 which became effective from April 10, 2015, foreign investment in the real estate industry fall within the category of permitted industries except for construction of golf courses and villas which are in the category of prohibited industries for foreign investment.

Under the Notice on Adjusting the Portion of Capital Fund for Fixed Assets Investment of Certain Industries 《關於調整部分行業固定資產投資項目資本金比例的通知》 issued by the State Council in April 2004, the portion of capital-account funding for real estate projects (excluding affordable housing projects) has been increased from 20% or above to 35% or above. However, pursuant to the Notice on Adjusting the Percentage of Capital Fund for Investment Projects in Fixed Assets 《關於調整固定資產投資項目資本金比例的通知》 issued by the State Council in May 2009, the minimum portion of the capital funding for ordinary commodity housing projects and affordable housing projects has been reduced to 20%, while that for other real estate projects has been decreased to 30%. Furthermore, pursuant to the Notice on Adjusting and Perfecting the System of Capital Fund for Investment Projects in Fixed Assets 《關於調整和完善固定資產投資項目資本金制度的通知》 issued by the State Council on September 9, 2015, the minimum portion of the capital funding for ordinary commodity housing projects and affordable housing projects remains unchanged at 20%, while it has been adjusted from 30% to 25% for other real estate projects.

In July 2006, MOHURD, MOFCOM, NDRC, PBOC, SAIC and SAFE jointly issued an Opinion on Standardizing the Admittance and Administration of Foreign Capital in the Real Estate Market 《關於規範房地產市場外資准入和管理的意見》, which provides, among other things, that an overseas entity or individual investing in real estate in China other than for self-use must apply for the establishment of a FIREE in accordance with applicable PRC laws and may only conduct operations within the authorized business scope. The joint opinion attempts to impose additional restrictions on the establishment and operation of FIREE by regulating the amount of registered capital as a percentage of total investment in certain circumstances, limiting the validity of approval certificates and business licenses to one year, restricting the ability to transfer equity interests of a FIREE or its projects and prohibiting the borrowing of money from domestic and foreign lenders where its registered capital is not paid up or the land use rights are not obtained. In addition, the joint opinion also limits the ability of foreign individuals to purchase commodity residential properties in China.

On August 19, 2015, MOHURD, MOFCOM, NDRC, PBOC, SAIC and SAFE jointly issued an Opinion on Adjusting Policies on the Admittance and Administration of Foreign Capital in the Real Estate Market 《關於調整房地產市場外資准入和管理有關政策的通知》 which provides, among others, that (i) the ratio of registered capital to total investment of foreign invested real estate enterprises shall be subject to the Tentative Regulations on the Proportion of the Registered Capital to the Total Amount of Investment of Sino-foreign Equity Joint Ventures 《關於中外合資經營企業注冊資本與投資總額比例的暫行規定》; (ii) the requirement that a foreign invested real estate company must fully pay its registered capital before handling the procedures for domestic loans, foreign loans, and settlement of foreign exchange loans shall be canceled; (iii) the branches and representative offices of foreign institutions established in China (except the enterprises that are approved to operate real estate businesses) and the foreign individuals who work or study in China may purchase commodity houses for the purposes of self-use or living.

In May 2007, MOFCOM and SAFE issued the Circular on Strengthening and Regulating the Examination and Approval and Supervision of Foreign Direct Investment in the Real Estate Sector 《關於進一步加強、規範外商直接投資房地產業審批和監管的通知》, or Circular 50. Under Circular 50, prior to applying for establishment of real estate companies, foreign investors must first obtain land use rights and building ownership, or must have entered into pre-sale or pre-grant agreements with respect to the land use rights or building ownership. If foreign-invested enterprises in China engage in real estate development or operations or if FIREEs in China engage in new real estate project developments, they must first apply to the relevant PRC governmental authorities to expand their scope of business or scale of operations in accordance with the PRC laws and regulations related to foreign investments. In addition, the local PRC governmental authorities must file with MOFCOM for record their approvals of establishment of FIREEs, and must exercise due control over foreign investments in high-end properties. Foreign exchange authorities may not allow capital-account foreign exchange sales and settlements by FIREEs that have been established in contravention of these requirements.

In connection with the filing requirement, MOFCOM issued the Notice on the Proper Filings of Foreign Investment in the Real Estate Sector 《關於做好外商投資房地產業備案工作的通知》 in June 2008 to authorize the competent MOFCOM at the provincial level to verify and check the filing documents.

Moreover, in December 2010, MOFCOM promulgated the Notice on Strengthening Administration of the Approval and Registration of Foreign Investment into Real Estate Industry 《關於加強外商投資房地產業審批備案管理的通知》, which provides that, among other things, in the case that a real estate enterprise is established within the PRC with overseas capital, it is prohibited from purchasing and/or selling real estate properties completed or under construction within the PRC for arbitrage purposes. The local MOFCOM authorities are not permitted to approve foreign-invested investment companies to engage in the real estate development and management.

On June 24, 2014, MOFCOM and SAFE jointly promulgated the Circular on Improving the Record-filing for Foreign Investment in Real Estate 《關於改進外商投資房地產備案工作的通知》, which simplifies the procedures of record-filing for foreign investment in real estate and the record-filing with MOFCOM has been changed from the record-filing in the form of paper materials to that in the form of electronic data and selective examination will be conducted during and after the record-filing.

On November 6, 2015, MOFCOM and SAFE jointly promulgated the Circular on Further Improving the Record-filing of Foreign Investments in Real Estate 《關於進一步改進外商投資房地產備案工作的通知》, which further simplifies the record-filing procedures for foreign-invested real estate enterprises and cancels the registry publication procedures on the website of MOFCOM.

According to the Several Opinions of the State Council on Further Strengthening the Utilization of Foreign Investment 《國務院關於進一步做好利用外資工作的若干意見》, promulgated by the State Council in April 2010, and the Notice on Delegation of Power of Approval for Foreign Investment

Projects 《關於做好外商投資項目下放核准權限工作的通知》, promulgated by NDRC in May 2010, except where approval by the relevant departments under the State Council is required by the Investment Project Catalog, foreign investment in encouraged and permitted industries with a total investment of less than US\$300 million will be examined and approved by NDRC's branches at the provincial level. Pursuant to the Notice on Issues Related to Delegation of Powers of Examination and Approval of Foreign Investment to Authorities at Lower Levels 《關於下放外商投資審批權限有關問題的通知》, promulgated by MOFCOM in June 2010, MOFCOM's branch at the provincial level is responsible for the examination and approval of establishments and changes of foreign-invested enterprises in encouraged or permitted industries with a total investment of less than US\$300 million and with a total investment of less than US\$50 million in restricted industries.

On September 3, 2016, National People's Congress Standing Committee adopted a decision on amending the relevant laws in relation to foreign invested companies, which became effective from October 1, 2016. Upon the effectiveness of the decision, promulgated the Interim Measures for the Record-filling of the Establishment and Modification of Foreign-invested Enterprises 《外商投資企業設立及變更備案管理暫行辦法》, which provide that the establishment of the foreign invested enterprises, including real estate development enterprises, and its subsequent modifications are required to file with competent local authorities instead of obtaining approvals from local MOFCOM authorities, except for the foreign invested enterprises which are subject to special administrative measures. To implement the decision, MOFCOM promulgated the Interim Measures for the Record-filling of the Establishment and Modification of Foreign-invested Enterprises 《外商投資企業設立及變更備案管理暫行辦法》 on October 8, 2016. On the same day, NDRC and MOFCOM jointly issued a notice pursuant to which the scope of special administrative measures shall be governed by the relevant provisions of the Catalog of Guidance on Industries for Foreign investment as revised in 2015 《外商投資產業指導目錄(2015)》 on restricted and prohibited industries as well as encouraged industries with requirements for equity and senior executives.

Qualifications of a Real Estate Developer

Under the Provisions on Administration of Qualifications of Real Estate Developers 《房地產開發企業資質管理規定》 as amended in May 2015, or the Provisions on Administration of Qualifications, promulgated by MOHURD in March 2000, a real estate developer must apply for registration of its qualifications according to such Provisions on Administration of Qualifications. An enterprise may not engage in property development without a qualification classification certificate for real estate development. MOHURD oversees the qualifications of real estate developers with national operations, and local real estate development authorities at or above the county level oversee the qualifications of local real estate developers.

In accordance with the Provisions on Administration of Qualifications, real estate developers are classified into four classes.

- Class 1 qualifications are subject to preliminary examination by the construction authorities at the provincial level and final approval of MOHURD. A class 1 real estate developer is not restricted as to the scale of its real estate projects and may undertake a real estate development anywhere in the country.
- Class 2 or lower qualifications are regulated by the construction authorities at the provincial level subject to delegation to lower level government agencies. A real estate developer of class 2 or lower may undertake a project with a gross floor area of less than 250,000 square meters subject to confirmation by the construction authorities at the provincial level.

Under the relevant PRC laws and regulations, the real estate development authorities will examine applications for registration of qualifications submitted by real estate developers by considering the professional personnel in their employ, financial condition and operating results. A real estate developer that passes the qualification examination will be issued a qualification certificate of the relevant class by

the qualification examination authority. A developer of any qualification classification may only engage in the development and sale of real estate within its approved scope of business and may not engage in business which is limited to another classification.

For a newly established real estate developer, the real estate development authority will issue a provisional qualification certificate, if it is an eligible developer, within 30 days of receipt by the authority of the application. The provisional qualification certificate will be effective for one year from its date of issue and may be extended for not more than two additional years with the approval of the real estate development authority. The real estate developer must apply for qualification classification to the real estate development authority within one month before expiration of the provisional qualification certificate.

Development of a Real Estate Project

Under Catalog of Guidance on Industries for Foreign Investment as revised in 2015 《外商投資產業指導目錄(2015)》 which became effective from April 10, 2015, foreign investment in real estate industry fall within the category of permitted industries except for construction of golf courses and villas which are in the category of prohibited industries for foreign investment.

Under the Interim Regulations of the People's Republic of China on Grant and Assignment of the Use Right of State-owned Urban Land 《城鎮國有土地使用權出讓和轉讓暫行條例》 promulgated by the State Council in May 1990, China adopted a system to grant and assign the right to use state-owned land. A land user must pay a land premium to the state as consideration for the grant of the right to use a land site within a specified period of time, and the land user may assign, lease out, mortgage or otherwise commercially exploit the land use rights within the term of use. Under the relevant PRC laws and regulations, the land administration authority at the city or county level may enter into a land grant contract with the land user to provide for the grant of land use rights. The land user must pay the land premium as provided by the land use rights grant contract. After payment in full of the land premium, the land user may register with the land administration authority and obtain a land use rights certificate which evidences the acquisition of land use rights. The relevant PRC laws and regulations provide that land use rights for a site intended for real estate development must be obtained through grant except for land use rights which may be obtained through premium-free allocation by the PRC government pursuant to the PRC laws or the stipulations of the State Council. Government-allocated land is not allowed to be transferred unless the transfer is approved by the relevant PRC government authorities and the land premium, as determined by the relevant PRC government authorities, has been paid.

When carrying out the feasibility study for a construction project, the construction or the developer entity must make a preliminary application for construction on the relevant site to the relevant land administration authority in accordance with the Measures for Administration of Examination and Approval for Construction Sites 《建設用地審查報批管理辦法》 promulgated by the Ministry of Land and Resources in March 1999, as amended in November 2010 and November 2016, and the Measures for Administration of Preliminary Examination of Construction Project Sites 《建設項目用地預審管理辦法》 promulgated by the Ministry of Land and Resources in July 2001, as amended in October 2004, November 2008 and November 2016. After receiving the preliminary application, the land administration authority will carry out preliminary examinations of various aspects of the construction project in compliance with the overall zoning plans and land supply policy of the government, and will issue a preliminary approval in respect of the project site if its examination proves satisfactory. The land administration authority at the relevant city or county will sign a land use rights grant contract with the land user and issue an approval for the construction site to the construction entity or the developer.

Under the Measures for Control and Administration of Grant and Assignment of Right to Use Urban State-owned Land 《城市國有土地使用權出讓轉讓規劃管理辦法》 promulgated by MOHURD in December 1992, the grantee under a land grant contract, i.e. a real estate developer, must further apply for a permit for construction site planning from the relevant municipal planning authority. After obtaining such permit, a real estate developer will organize the necessary planning and design work.

Planning and design proposals in respect of a real estate development project are again subject to relevant reporting and approval procedures required under the Law of the People's Republic of China on Urban and Rural Planning 《中華人民共和國城鄉規劃法》 promulgated by the National People's Congress in October 2007 and local statutes on municipal planning. Upon approval by the authorities, a permit for construction works planning will be issued by the relevant municipal planning authority.

In accordance with the Regulations for the Expropriation and Compensation for Housing on State-owned Land 《國有土地上房屋徵收與補償條例》 promulgated by the State Council and implemented in January 2011, with regard to the expropriation of the housing of entities and individuals on State-owned land for purposes of public interest, the owners of the housing being expropriated shall be offered a fair compensation.

Compensation offered by governments at municipal and county levels that make housing expropriation decisions regarding parties with housing being expropriated include: (i) compensation for the value of the housing being expropriated; (ii) compensation for relocation and temporary settlement caused by the housing being expropriated; and (iii) compensation for the loss arising from the suspension of production and operation caused by expropriation of housing.

The parties whose housing is being expropriated may choose monetary compensation, or may choose to exchange the property rights for another housing. If the parties whose housing is being expropriated choose to exchange the property rights for another housing, governments at municipal and county levels must provide housing used for the exchange of property rights, and calculate and settle the difference between the value of housing being expropriated and the value of the housing used for the exchange of property rights. If residential housing of an individual is expropriated due to renovation of an old urban district and the individual chooses to exchange for the property rights of another housing in the area being renovated, governments at municipal and county levels that make housing expropriation decisions must provide the housing in the area being renovated or the nearby area. The amount of compensation for the value of housing being expropriated may not be less than the market price of the real estate similar to it on the announcement date of the housing expropriation decision. The value of housing being expropriated must be appraised and determined by a real estate price appraisal institution with corresponding qualifications. A party that objects to the appraised value of the housing being expropriated may apply to the real estate price appraisal institution for review of the appraisal.

On June 3, 2011 the Ministry of Housing and Urban-Rural Development promulgated Measures for Real Estate Appraisal in Expropriation of Houses on State-owned Land 《國有土地上房屋徵收評估辦法》 which provides that in appraising the value of the expropriated house, the location, purpose of use, building structure, present condition, GFA and the land area occupied, land use right, and other factors affecting the value of the expropriated house shall be taken into consideration.

When the site has been properly prepared and is ready for the commencement of construction works, the developer must apply for a permit for commencement of works from the construction authorities at or above the county level according to the Measures for Administration of Granting Permission for Commencement of Construction Works 《建築工程施工許可管理辦法》 promulgated by MOHURD in June 2014. According to the Notice Regarding Strengthening and Regulating the Administration of Newly-commenced Projects 《國務院辦公廳關於加強和規範新開工項目管理的通知》 issued by the General Office of the State Council on November 17, 2007, before commencement of construction, all kinds of projects shall fulfill certain conditions, including, among other things, compliance with national industrial policy, development plan, land supply policy and market access standard, completion of all approval and filing procedures, compliance with zoning plan in terms of site and planning, completion of proper land use procedures and obtaining proper environmental valuation approvals and construction permit or report.

The development of a real estate project must comply with various laws and legal requirements on construction quality, safety standards and technical guidance on architecture, design and construction work, as well as provisions of the relevant contracts. On January 30, 2000, the State Council

promulgated and implemented the Regulation on the Quality Management of Construction Projects 《建設工程質量管理條例》, which sets the respective quality responsibilities and liabilities for developers, construction companies, reconnaissance companies, design companies and construction supervision companies. In August 2008, the State Council issued the Regulations on Energy Efficiency for Civil Buildings 《民用建築節能條例》, which reduces the energy consumption of civil buildings and improves the efficiency of the energy utilization. According to this regulation, the design and construction of new buildings must meet the mandatory criteria on energy efficiency for buildings, and failure to meet such criteria will result in no neither commencement of construction or acceptance upon completion. Among other things, this regulation sets forth additional requirements for property developers in the sale of commodity buildings in this respect. After completion of construction works for a project, the real estate developer must organize an acceptance examination by relevant government authorities and experts according to the Provision on Inspection Upon completion of Housing Construction and Municipal Infrastructure Projects 《房屋建築和市政基礎設施工程竣工驗收規定》 promulgated by MOHURD in December 2013, and file with the construction authority at or above the county level where the project is located within 15 days after the construction is qualified for the acceptance examination according to the Provisional Measures for Reporting Details Regarding Acceptance Examination Upon Completion of Buildings and Municipal Infrastructure 《房屋建築工程和市政基礎設施工程竣工驗收備案管理暫行辦法》 promulgated by MOHURD in April 2000, as amended in October 2009. The developer must also report details of the acceptance examination according to the Interim Measures for Reporting Details Regarding Acceptance Examination upon Completion of Buildings and Municipal Infrastructure 《房屋建築工程和市政基礎設施工程竣工驗收備案管理暫行辦法》 promulgated by MOHURD in April 2000, as amended in October 2009. A real estate development project may not be delivered until and unless it has satisfactorily passed the necessary acceptance examination. Where a property project is developed in phases, an acceptance examination may be carried out for each phase upon completion.

In China, there are two registers of property interests. Land registration is effected by the issue of land use right certificates by the relevant authorities to the land users. Land use rights may be assigned, mortgaged or leased. The building registration is effected by the issue of property ownership certificates to the property owners. Property or building ownership rights are only related to the building or improvements erected on the land. Under the PRC laws and regulations, all land use rights and property ownership rights that are duly registered are protected by law. Most cities in China maintain separate registries for the registration. However, Shenzhen, Shanghai, Guangzhou and some other major cities have a consolidated registry for both land use rights and the property ownership interests for the building erected on the relevant land.

Land for Property Development

In April 1988, the National People's Congress amended the PRC Constitution to permit the transfer of land use rights in accordance with the laws and regulations. In December 1988, the National People's Congress amended the Land Administration Law 《土地管理法》 to permit the transfer of land use rights in accordance with the laws and regulations.

Under the Regulations on the Grant of State-owned Land Use Rights Through Public Tender, Auction and Listing-for-Sale 《招標拍賣掛牌出讓國有土地使用權規定》 promulgated by the Ministry of Land and Resources in May 2002, and amended in September 2007 by the Provisions on Transfer of the State-owned Construction Land Use Rights through Tendering, Auction and Listing 《招標拍賣掛牌出讓國有建設用地使用權規定》, land for commercial use, tourism, entertainment and commodity housing development must be granted by public tender, auction or listing-for-sale. Under these regulations, the relevant land administration authority at city or county level, or the grantor, is responsible for preparing the public tender or auction documents and must make an announcement 20 days prior to the day of public tender or auction with respect to the particulars of the land parcel and the time and venue of the public tender or auction. The grantor must also verify the qualification of the bidding and auction applicants, accept an open public auction to determine the winning tender or hold an auction to ascertain a winning bidder. The grantor and the winning tender or bidder will then enter into a confirmation followed by the execution of a contract for assignment of state-owned land use

rights. Over the years, the Ministry of Land and Resources has promulgated further rules and regulations to define the various circumstances under which the state-owned land use rights may be granted by means of public tender, auction and listing-for-sale or by agreement.

Under the Regulation on Grant of State-owned Land Use Rights by Agreements 《協議出讓國有土地使用權規定》 promulgated by the Ministry of Land and Resources on June 11, 2003, except for the project that must be granted through tender, auction and listing as required by the relevant laws and regulations, land use right may be granted through transfer by agreement and the land premium for the transfer by agreement of the state-owned land use right shall not be lower than the benchmark land price.

The Urgent Notice on Further Governing and Rectifying Land Market and Strengthening Administration of Land 《關於深入開展土地市場治理整頓嚴格土地管理的緊急通知》 issued by the General Office of the State Council on April 29, 2004 restated the principle of strict administration of the approval process for the construction land and protection of the basic farmlands.

The Notice on Issues Relating to Strengthening the Land Control 《關於加強土地調控有關問題的通知》 promulgated by the State Council on August 31, 2006 sets forth the administration of the receipt and disbursement of the land premium, modifies the tax policies relating to the construction land, and builds up the system of publicity for the standards of the lowest price with respect to the granted state-owned land use right.

In March 2007, the National People's Congress adopted the PRC Property Rights Law 《中華人民共和國物權法》, which became effective on October 1, 2007. According to the Property Rights Law, when the term of the right to use construction land for residential (but not other) purposes expires, it will be renewed automatically. Unless it is otherwise prescribed by any law, the owner of construction land use rights has the right to transfer, exchange, and use such land use rights as equity contributions or collateral for financing. If the state takes the premises owned by entities or individuals, it must compensate the property owners in accordance with law and protect the lawful rights and interests of the property owners.

In September 2007, the Ministry of Land and Resources further promulgated the Regulations on the Grant of State-owned Construction Land Use Rights Through Public Tender, Auction and Listing-for-sale 《招標拍賣掛牌出讓國有建設用地使用權規定》 to require that land for industrial use, except land for mining, must also be granted by public tender, auction and listing-for-sale. Only after the grantee has paid the land premium in full under the land grant contract, can the grantee apply for the land registration and obtain the land use right certificates. Furthermore, land use rights certificates may not be issued in proportion to the land premium paid under the land grant contract.

In October 2007, the Standing Committee of National People's Congress promulgated the PRC City and Countryside Planning Law 《中華人民共和國城鄉規劃法》, pursuant to which, a construction planning permit must be obtained from the relevant urban and rural planning government authorities for building any structure, fixture, road, pipeline or other engineering project within an urban or rural planning area.

In November 2007, the Ministry of Land and Resources, the MOF and PBOC jointly promulgated the Administration Measures on Land Reserve 《土地儲備管理辦法》, pursuant to which, local authorities should reasonably decide the scale of land reserve in accordance with the macro-control of the land market. Those idle, unoccupied, and low-efficient state-owned construction land inventory shall be used as land reserve in priority.

In December 2007, the Ministry of Land and Resources promulgated the Rules on Land Registration 《土地登記辦法》, which further stresses payment in full of the land premium prior to the application for the registration of state-owned construction land use rights.

In November 2009, the MOF, the Ministry of Land and Resources, PBOC, the PRC Ministry of Supervision and the PRC National Audit Office jointly promulgated the Notice on Further Enhancing the Revenue and Expenditure Control over Land Grant 《關於進一步加強土地出讓收支管理的通知》. The notice raises the minimum down-payment for land premiums to 50% and requires the land premium to be fully paid within one year after the signing of a land grant contract, subject to limited exceptions.

In March 2010, the Ministry of Land and Resources promulgated the Notice on Issues Regarding Strengthening Control and Monitor of Real Estate Land Supply 《關於加強房地產用地供應和監管有關問題的通知》. According to the notice, at least 70% of total land supply must be provisioned for affordable housing, redevelopment of shanty towns and small/medium residential units for self-use and the land supply for large residential units will be strictly controlled, while land supply for villa projects will be banned. The notice also requires that the lowest land grant price must be at least 70% of the basic land price in which the granted land is located and the real estate developers' bid deposit should be at least 20% of the lowest land grant price. The land grant contract must be executed within 10 working days after the land transaction is confirmed. The minimum down payment of the land premium will be 50% and must be paid within one month after the execution of the land grant contract. The remainder of the land grant payment must be paid in accordance with the agreement within one year. If the land grant contract is not executed in accordance with the requirement above, the land cannot be handed over and the deposit will not be returned. If no land grant premium is paid after the execution of the land grant contract, the land must be withdrawn.

In September 2010, the Ministry of Land and Resources and MOHURD jointly promulgated the Notice on Further Strengthening Control and Regulation of Land and Construction of Property Development 《關於進一步加強房地產用地和建設管理調控的通知》, which stipulated, among other things, that: (i) at least 70% of land designated for construction of urban housing must be used for affordable housing, housing for resettlement of shanty towns and small to medium-sized ordinary commercial housing; in areas with high housing prices, the supply of land designated for small to medium-sized, price-capped housing must be increased, (ii) developers and their controlling shareholders are prohibited from participating in land biddings before the rectification of certain misconduct, including (1) illegal transfer of land use rights; (2) failure to commence required construction within one year from the delivery of land under land grant contracts due to such developers' own reasons; (3) non-compliance with the land development requirements specified in land grant contracts; and (4) crimes such as swindling land by forging official documents and illegal land speculation; (iii) developers are required to commence construction within one year from the date of delivery of land under the relevant land grant contract and complete construction within three years of commencement; (iv) development and construction of projects of low-density and large-sized housing must be strictly limited and the plot ratio of the planned GFA to the total site area of residential projects must be more than 1:1; and (v) the grant of two or more bundled parcels of lands and undeveloped land is prohibited.

In December 2010, the Ministry of Land and Resources promulgated the Notice on Strict Implementation of Policies Regarding Regulation and Control of Real Property Land and Promotion of the Healthy Development of Land Markets 《關於嚴格落實房地產用地調控政策促進土地市場健康發展有關問題的通知》, which provides, among other things, that: (i) cities and counties that have less than 70% of their land supply designated for affordable housing, housing for redevelopment of shanty towns or small/medium residential units must not provide land for large-sized and high-end housing before the end of this year; (ii) land and resource authorities in local cities and counties will report to Ministry of Land and Resources and provincial land and resource authorities, respectively regarding land with a premium rate of more than 50%; and (iii) land designated for affordable housing which is used for property development against relevant policies or involves illegal income will be confiscated and the relevant land use rights will be withdrawn. Moreover, changing the plot ratio without approval is strictly prohibited.

On January 26, 2011, the General Office of the State Council issued the Notice on Relevant Issues of Further Improvement of the Control in Real Estate Market 《進一步做好房地產市場調控工作有關問題的通知》. This notice, among others, provides that:

- (i) individuals selling houses within five years of purchase will be charged business taxes on the full amount of the sale price of such houses, whether ordinary or non-ordinary;
- (ii) the minimum down payment for second house purchases is raised from 50% to 60%;
- (iii) the PRC government will forfeit the land use rights and impose an idle land fee of up to 20% of the land premium if a developer fails to obtain a construction permit and commence development for more than two years from the commencement date stipulated in the land grant contract; and
- (iv) municipalities directly under the Central Government, municipalities with independent planning status, provincial capitals and cities with high housing prices shall limit the number of homes that local residents can buy in a specified period. In principle, local resident families that own one house and non-local resident families who can provide local tax clearance certificates or local social insurance payment certificates for a required period are permitted to purchase only one additional house (including newly-built houses and second-hand houses). Sales of properties to (a) local resident families who own two or more houses, (b) non-local resident families who own one or more houses, and (c) non-local resident families who cannot provide local tax clearance certificates or local social insurance payment certificates for a required period, shall be suspended in local administrative regions. In order to implement the Notice on Relevant Issues of Further Improvement of the Control in Real Estate Market, many cities have promulgated new measures to restrict the number of houses one family is allowed to purchase.

On May 13, 2011 the Ministry of Land and Resources promulgated Opinions Regarding Upholding and Improvement of the Systems for the Granting of Land through Tender, Auction and Listing-for-sale 《關於堅持和完善土地招標拍賣掛牌出讓制度的意見》, which improve policies of tender, auction and listing in the following aspects:

- (1) Restricting the housing prices or land prices, and granting the land to be used for policy-based housing through listing or auction;
- (2) Prescribing limits on the construction floor area for affordable housing built in conjunction and granting the land to be used for commodity housing through listing or auction; and
- (3) Conducting comprehensive assessment of the conditions for development and utilization of land and the price for granting of land and determining the person with land use right through tender.

In February 2012, the Ministry of Land and Resources promulgated the Notice on Implementation Measures on Urban Housing Land Management and Regulation in 2012 《關於做好2012年房地產用地管理和調控重點工作的通知》, pursuant to which, the target total supply of urban housing land shall not be lower than the annual average supply for the preceding five years.

In May 2012, the Ministry of Land and Resources issued the Catalog for Restricted Land Use Projects (2012 Version) 《限制用地項目目錄(2012年本)》 and the Catalog for Prohibited Land Use Projects (2012 Version) 《禁止用地項目目錄(2012年本)》. In these Catalogs, the Ministry of Land and Resources set forth a ceiling for the land granted by local governments for development of commodity housing as follows: seven hectares for small cities and towns, 14 hectares for medium-sized cities and 20 hectares for large cities.

Pursuant to the Measures on Disposal of Idle Land 《閒置土地處置辦法》 promulgated in April 1994 and amended in June 2012, “idle land” refers to any state-owned land for construction use, of which the holder of the land use right fails to start the construction and development thereof within one year after the commencement date of the construction and development work as agreed upon and prescribed in the contract for fee-based use of state-owned land for construction use, or the decision on allocation of state-owned land for construction use. Any state-owned land for construction use, of which the construction and development has been started but the area of land that is under construction and development is less than one third of the total area of land that should have been under construction and development, or the invested amount is less than 25% of the total investment, or the construction and development of which has been suspended for more than one year, may also be regarded as idle land.

Idle land shall be disposed of in the following ways:

- (1) Where the land has remained idle for more than one year, the competent department of land and resources shall collect the charges for idle land at the rate of 20% of the land assignment or allocation fee; the said charges for idle land shall not be included in the production cost by the holder of the land use right; and
- (2) Where the land has remained idle for more than two years, the right to use state-owned land for construction will be withdrawn without compensation.

However, where the land is idle due to several specified acts of any government or government department, the land administrative authority may, through consultation with the holder of the land use right, choose to extend the time limit for the commencement of land construction and development, withdraw use right to land by providing compensation, or provide another plot of land for exchange, among other options.

On May 22, 2014, the Ministry of Land and Resources promulgated Provisions on the Economical and Intensive Use of Land 《節約集約利用土地規定》 (effective from September 1, 2014), which provides that land and resources authorities shall effectively control the scale of added construction lands in the metropolis; the supply of various lands under compensable use shall be not less than the lowest price standards; it is prohibited to reduce or relieve the land grant price in a disguised form by way of exchanging projects with land, returning fees after collecting them or granting subsidies or awards.

On September 12, 2014, the Ministry of Land and Resources issued Guiding Opinions on Promoting the Economical and Intensive Utilization of Land 《關於推進土地節約集約利用的指導意見》 or the Opinions. The Opinions set major targets for the economical and intensive utilization of land in the upcoming period, including placing the total quantity of land used for construction under control, continuously optimizing land utilization structure and layout, achieving obvious progress in the exploration and comprehensive improvement of land reserves, and improving the system and mechanism for the economic and intensive utilization of land. The Opinions also impose an array of requirements including deepening the reform of the system for the paid use of state-owned construction land, expanding the scope of state-owned land that can be used with compensation offered, gradually promoting the use of land with compensation offered for the construction of profit-making infrastructure and social undertakings and narrowing the scope of land the supply of which is subject to allocation.

On April 1, 2017, the Ministry of Land and Resources and the Ministry of Housing and Urban-Rural Development jointly promulgated the Circular on Recently Tightening the Management and Control over Residential Properties and Land Supply 《關於加強近期住房及用地供應管理和調控有關工作的通知》, which stipulated, among other things, (i) the scale, structure and time sequence of housing land supply which will be adjusted according to the commercial housing inventory cycle and the supply of land (a) with an inventory cycle of more than 36 months shall be suspended, (b) with the inventory cycle of 18 to 36 months shall be reduced, (c) with the inventory cycle of six to 12 months shall be increased and (d) with the inventory cycle of less than six months shall be increased and

accelerated; (ii) local authorities will build a fund inspection system to ensure that the real estate developers use legally obtained funds to acquire land use rights and (iii) the local bidding system of the land use rights shall be determined in a flexible manner according to the actual status and specific conditions of land.

Sale of Commodity Houses

Under the Measures for Administration of Sale of Commodity Houses 《商品房銷售管理辦法》 promulgated by MOHURD in April 2001, sale of commodity houses can include both sales before the completion of the properties, or pre-sale, and sales after the completion of the properties.

Any pre-sale of commodity buildings must be conducted in accordance with the Measures for Administration of Pre-sale of Commodity Buildings in Urban Area promulgated by MOHURD in November 1994 《城市商品房預售管理辦法》, as amended in August 2001 and July 2004, and other related regulations. The pre-sale regulations provide that any pre-sale of commodity properties is subject to specified procedures. According to the current PRC laws and regulations, a pre-sale permit must be in place before a commodity building may be put to pre-sale. Specifically, a developer intending to sell a commodity building before its completion must apply to the real estate development authorities for a pre-sale permit. A commodity building may be sold before completion only if:

- the purchase price has been paid in full for the grant of the land use rights involved and a land use rights certificate has been properly obtained;
- a construction planning permit and a construction permit have been properly obtained;
- funds invested in the development of the commodity buildings for pre-sale represent 25% or more of the total investment in the project and the construction progress as well as the completion and delivery dates have been properly ascertained; and
- a pre-sale permit has been obtained.

The pre-sale proceeds of commodity buildings must be used to develop the relevant project so pre-sold.

Commodity buildings may be put to post-completion sale and delivery after they have passed the acceptance examination and otherwise satisfy the various preconditions for such sale. Before the post-completion sale of a commodity building, the developer must, among other things, submit a real estate development project manual and other documents relating to the project evidencing the satisfaction of the preconditions for post-completion sale to the real estate development authority for its record.

In April 2010, MOHURD issued the Notice on Further Enhancing the Supervision of the Real Estate Market and Perfecting the Pre-sale System of Commodity Houses 《關於進一步加強房地產市場監管完善商品住房預售制度有關問題的通知》. Pursuant to the notice, without pre-sale approval, the commodity houses are not permitted to be pre-sold and the real estate developer is not allowed to charge the buyer any deposit, pre-payment or payment of a similar nature. In addition, the notice urges local governments to enact regulations on the sale of completed commodity properties in light of local conditions and encourages property developers to engage in the practice of selling completed commodity properties.

According to Provisions on Sales of Commodity Properties at Clearly Marked Price 《商品房銷售明碼標價規定》 which was promulgated by the NDRC on March 16, 2011 and became effective on May 1, 2011, all real estate developers and or real estate agencies are required to mark the selling price explicitly and clearly for both newly-built and second-hand commodity properties. The provisions require real estate operators to clearly indicate the prices of commodity properties to the public. With respect to the real estate development projects that have received property pre-sale permits or have

completed the filing procedures for the sales of constructed properties, real estate operators shall announce all the commodity properties available for sales within the specified time limit. Furthermore, with regard to a property that has been sold out, real estate operators are obliged to disclose this information and to disclose the actual transaction price. Real estate operators cannot sell commodity properties beyond the explicit marked price or charge any other fees not explicitly marked. Moreover, real estate operators may neither mislead properties purchasers with false or irregular price marking, nor engage in price fraud by using false or misleading price marking methods.

On October 10, 2016, MOHURD promulgated the Circular on Further Regulating the Operation of Real Estate Developers to Protect the Real Estate Market Discipline 《關於進一步規範房地產開發企業經營行為維護房地產市場秩序的通知》, which requires that improper operations of real estate developers shall be investigated and punished according to law. The improper operations include releasing or spreading false housing information and advertisements, maliciously pushing higher and artificially inflating housing prices by fabricating or spreading information on rising property price and other operations.

Transfer of Real Estate

According to the PRC laws and the Provisions on Administration of Transfer of Urban Real Estate 《城市房地產轉讓管理規定》 promulgated by MOHURD in August 1995, as amended in August 2001, a real estate owner may sell, gift or otherwise legally transfer the property to another natural person or legal entity. When transferring a building, the ownership of the building and the land use rights to the site on which the building is situated are transferred together. The parties to a transfer must enter into a written real estate transfer contract and register the transfer with the real estate administration authority having jurisdiction over the location of the real estate within 90 days of the execution of the transfer contract.

Where the land use rights are originally obtained by grant, the real property may only be transferred on the condition that:

- the land premium has been paid in full for the granted land use rights as required by the land grant contract and a land use rights certificate has been properly obtained; and
- in the case of a project in which buildings are being developed, development representing more than 25% of the total investment has been completed; or
- in case of a whole land lot development project, construction works have been carried out as planned, water supply, sewerage, electricity supply, heat supply, access roads, telecommunications and other infrastructure or utilities have been made available, and the site has been leveled and made ready for industrial or other construction purposes.

If the land use rights are originally obtained by grant, the term of the land use rights after transfer of the real estate will be the remaining portion of the original term in the land grant contract. In the event that the assignee intends to change the use of the land provided in the land grant contract, consent must first be obtained from the original land use rights grantor and the planning administration authority at the relevant city or county and an agreement to amend the land grant contract or a new land grant contract must be signed in order to, *inter alia*, change the use of the land and adjust the land premium accordingly.

If the land use rights are originally obtained by allocation, such allocated land use right may be changed to granted land use rights upon approval by the government vested with the necessary approval power as required by the State Council. After the government authorities vested with the necessary approval power approve such change, the grantee must complete the formalities for the grant of the land

use rights and pay the land premium according to the relevant statutes. Assignment of Land for commercial use, tourism, entertainment and commodity housing development must be conducted through public tender, auction or listing-for-sale under the current PRC laws and regulations.

Leases of Buildings

The Measures for Administration of Leases of Commodity Housing 《商品房屋租賃管理辦法》 promulgated by MOHURD on December 1, 2010 and implemented on February 1, 2011, requires parties to a leasehold arrangement of a property to register the lease agreement with property administrative authorities of the local government at the municipal or county level where the property is situated within 30 days after entering into such lease agreement. In addition, an enterprise may be imposed a fine of RMB1,000 to RMB10,000 and individuals of RMB1,000 or less if they do not register a leasing agreement within the time limit required by competent authorities. On May 17, 2016, the General Office of the State Council issued the Opinions on Accelerating the Cultivation and Development of Leasing Market 《關於加快培育和發展住房租賃市場的若干意見》, which encourages real estate developers to carry out house leasing business by utilizing built residential properties and newly built properties. The Opinions also provide a guidance on the cooperation between real estate developers and residential property leasing enterprises to develop rental property business.

Mortgages of Real Estate

Under the PRC Urban Real Estate Administration Law 《中華人民共和國城市房地產管理法》 promulgated by the Standing Committee of the National People's Congress in July 1994, the PRC Security Law 《中華人民共和國擔保法》 promulgated by the National People's Congress in June 1995, the Measures for Administration of Mortgages of Urban Real Estate 《城市房地產抵押管理辦法》 promulgated by MOHURD in May 1997, as amended in August 2001, and Property Law of the People's Republic of China 《中華人民共和國物權法》 promulgated by the National People's Congress in March 2007, when mortgage is created on the ownership of a building legally obtained, such mortgage must be simultaneously created on the land use rights of the land on which the building is situated. The mortgagor and the mortgagee must sign a mortgage contract in writing. China has adopted a system to register mortgages of real estate. After a real estate mortgage contract has been signed, the parties to the mortgage must register the mortgage with the real estate administration authority at the location where the real estate is situated. A real estate mortgage shall be established as of the date of registration. If a mortgage is created on the real estate in respect of which a property ownership certificate has been obtained legally, the registration authority will, when registering the mortgage, make an entry under "third party rights" on the original property ownership certificate and then issue a certificate of third party rights to the mortgagee. If a mortgage is created on the commodity building put to pre-sale or on works in progress, the registration authority will, when registering the mortgage, record the details on the mortgage contract. If construction of a real property is completed during the term of a mortgage, the parties involved will re-register the mortgage of the real property after issue of the certificates evidencing the rights and ownership to the real estate.

The PRC Property Rights Law promulgated in March 2007 that became effective in October 2007 further widens the scope of assets that can be mortgaged, allowing for any asset associated with property rights to be mortgaged as collateral unless a specific prohibition under another law or regulation applies.

The down-payment requirement was subsequently increased to 30% of the property price for residential units with a unit floor area of 90 square meters or more in May 2006. You may refer to "— Measures on Stabilizing Housing Prices" below. The initial capital outlay requirement was subsequently increased to 35% by CBRC in August 2004 pursuant to its Guidance on Risk Management of Property Loans Granted by Commercial Banks 《商業銀行房地產貸款風險管理指引》.

In a Circular on Facilitating the Continuously Healthy Development of Property Market 《關於促進房地產市場持續健康發展的通知》 issued by the State Council in August 2003, a series of measures were adopted by the government to control the property market. They included, among others,

strengthening the construction and management of low-cost affordable houses, increasing the supply of ordinary commodity houses and controlling the construction of high-end commodity houses. The government also staged a series of measures on lending for residential development, including, among others, improving the loan evaluation and lending process, improving the guarantee mechanism of individual home loans and strengthening the monitoring over property loans. It is expected that the circular will have a positive effect on the development of the PRC property market in the long run by facilitating a continuously healthy growth of the property market in China.

In September 2007, PBOC and CBRC promulgated a Circular on Strengthening the Management of Commercial Real Estate Credit Loans 《關於加強商業性房地產信貸管理的通知》, with a supplement issued in December 2007. The circular aims to tighten the control over real-estate loans from commercial banks to prevent granting excessive credit. The measures include:

- for a first-time home owner, increasing the minimum amount of down payment to 30% of the purchase price of the underlying property if the underlying property has a unit floor area of 90 square meters or more and the purchaser is buying the property as its own residence;
- for a second-time home buyer, increasing (i) the minimum amount of down payment to 40% of the purchase price of the underlying property and (ii) the minimum mortgage loan interest rate to 110% of the relevant PBOC benchmark one-year bank lending interest rate. If a member of a family (including the buyer, his/her spouse and their children under 18) has financed the purchase of a residential unit, any member of the family that buys another residential unit with bank loans will be regarded as a second-time home buyer;
- for a commercial property buyer, (i) requiring banks not to finance any purchase of pre-sold properties, (ii) increasing the minimum amount of down payment to 50% of the purchase price of the underlying property, (iii) increasing the minimum mortgage loan interest rate to 110% of the relevant PBOC benchmark one-year bank lending interest rate, and (iv) limiting the terms of such bank loans to no more than 10 years, although the commercial banks are given certain flexibility based on risk assessment;
- for a buyer of commercial/residential dual-purpose properties, increasing the minimum amount of down payment to 45% of the purchase price of the underlying property, with the other terms to be decided by reference to commercial properties; and
- prohibiting commercial banks from providing loans to real-estate developers who have been found by relevant government authorities to be hoarding land and properties.

In addition, commercial banks are also banned from providing loans to projects that have less than 35% of capital funds (proprietary interests), or fail to obtain land use right certificates, construction land planning permits, construction works planning permits or construction permits. Commercial banks are also prohibited from accepting commercial premises that have been vacant for more than three years as collateral for loans. In principle, real-estate development loans provided by commercial banks should only be used for projects where the commercial banks are located. Commercial banks may not provide loans to property developers to finance the payment of land premium.

According to the Notice on Extending the Downward Range of the Interest Rate for Commercial Personal Home Loans and Supporting the Residents in First-time Purchase of Ordinary Residential Homes 《擴大商業性個人住房貸款利率下浮幅度支持居民首次購買普通住房的通知》 issued by PBOC on October 22, 2008, the minimum amount of down payment has been adjusted to 20% since October 27, 2008.

In September 2010, PBOC and the CBRC jointly issued the Notice on Relevant Issues Regarding the Improvement of Differential Mortgage Loan Policies 《關於完善差別化住房信貸政策有關問題的通知》, which provides, among other things, that (i) the minimum down payment is raised to 30% for all

first home purchases; (ii) commercial banks in China shall suspend mortgage loans to purchasers for their third residential property and beyond or to non-local residents who cannot provide documentation certifying payment of local tax or social security for longer than a one-year period, and (iii) all property companies with records of being involved in abuse of land, changing the use of land, postponing the construction commencement or completion date, hoarding properties or other non-compliance will be restricted from obtaining bank loans for new projects or extension of credit facilities.

Pursuant to the Notice on Relevant Issues Regarding the Further Improvement of Differentiated Mortgage Loan Policies 《關於進一步完善差別化住房信貸政策有關問題的通知》 which was jointly issued by PBOC and the CBRC in September 2015, in the city where house purchase quota policy is not applied the minimum down payment ratio is adjusted to not less than 25% for a resident family who apply commercial mortgage loan to buy their first ordinary house.

In November 2010, MOHURD, the MOF and PBOC jointly promulgated the Notice on Relevant Issues Concerning Policies of Regulation of Individual Housing Reserve Loan 《關於規範住房公積金個人住房貸款政策有關問題的通知》, which provided that, among other things: (i) where a first-time house purchaser (including the borrower, spouse and minor children) uses housing reserve loans to buy an ordinary house for self-use with a unit floor area: (a) equal to or less than 90 square meters, the minimum down payment shall be at least 20%, (b) more than 90 square meters, the minimum down payment shall be at least 30%; (ii) for a second-time house purchaser that uses housing reserve loans, the minimum down payment shall be at least 50%, with the minimum lending interest rate of 110% of the benchmark rate; (iii) the second housing reserve loan will only be available to families whose per capita housing area is below the average in locality, and such loan must only be used to purchase an ordinary house for self-use to improve residence conditions; and (iv) housing reserve loans to families for their third residential property and beyond will be suspended.

On January 26, 2011, the General Office of the State Council promulgated the Notice on Relevant Issues of Further Improvement of the Control in Real Estate Market 《進一步做好房地產市場調控工作有關問題的通知》, which, among other things, raised the minimum down payment for second house purchases from 50% to 60% and abolished the preferential business tax treatment on the transfer of ordinary housing within five years.

Real Estate Management

Under the Measures for the Administration of Qualifications of Property Service Enterprises 《物業管理企業資質管理辦法》 promulgated by MOHURD in March 2004, as amended in November 2007, a property service enterprise must apply for assessment of its qualification by the relevant qualification approval authority. An enterprise which passes such a qualification assessment will be issued a qualification certificate. No enterprise may engage in property management without undertaking a qualification assessment conducted by the relevant authority and obtaining a qualification certificate.

Insurance

There is no mandatory provision under the PRC laws, regulations and government rules which requires a property developer to take out insurance policies for its real estate developments. According to the common practice of the property industry in China, construction companies are usually required to submit insurance proposals in the course of tendering and bidding for construction projects. Construction companies must pay for the insurance premium at their own costs and take out insurance to cover their liabilities, such as third party liability risk, employer liability risk, risk of non-performance of contract in the course of construction and other kinds of risks associated with the construction and installation works throughout the construction period. The insurance coverage for all these risks will cease immediately after the completion and acceptance upon inspection of construction.

Measures on Stabilizing Housing Prices

The General Office of the State Council promulgated a Circular on Stabilizing Housing Price 《關於切實穩定住房價格的通知》 in March 2005, introducing measures to be taken to restrain housing prices from increasing too fast and to promote a stable development of the real estate market. In April 2005, MOHURD, NDRC, the MOF, the Ministry of Land and Resources, PBOC, the State Administration of Taxation and CBRC jointly issued an Opinions on Stabilizing Housing Prices 《關於做好穩定住房價格工作的意見》, containing the following guidance:

- Where the housing price is growing too fast, while the supply of ordinary commodity houses at medium or low prices and low-cost affordable houses is insufficient, the housing construction should mainly involve projects of ordinary commodity houses at medium or low prices and low-cost affordable houses. The construction of low-density, high-end houses should be strictly controlled. The relevant local government authorities are authorized to impose conditions on planning and design such as the building height, plot ratio and green space and to impose such requirements as the selling price, type and gross floor area as preconditions on land assignment. The local governments are also required to strengthen their supervision of real estate developments in their jurisdictions.
- Where the price of land for residential use and the price for residential housing are growing too fast, the proportion of land supply for residential use to the total land supply should be appropriately raised, and the land supply for the construction of ordinary commodity houses at medium or low prices and low-cost affordable houses should be especially increased. Land supply for villa construction should continue to be suspended, and land supply for high-end housing property construction should be strictly restricted.
- Idle land fees must be imposed on land that has not been developed for one year from the contractual construction commencement date. Land use rights of land that has not been developed for two years must be forfeited without compensation.
- Commencing from June 1, 2005, a business tax upon transfer of a residential house by an individual within two years from his/her purchase will be levied on the entire sales proceeds from such sale. For an individual to transfer an ordinary residential house after two years from his/her purchase, the business tax will be exempted. For an individual to transfer a property other than an ordinary residential house after two years from his/her purchase, the business tax will be levied on the difference between the price of such sale and the original purchase price.
- Ordinary residential houses with medium or small gross floor areas and at medium or low prices may be granted preferential treatment, such as planning permits, land supply, credit and taxation. Houses enjoying these preferential policies must satisfy the following conditions in principle: the plot ratio is above 1.0, the gross floor area of one single unit is less than 120 square meters, and the actual transfer price is lower than 120% of the average transfer price of comparable houses at comparable locations. The local governments at the provincial level may, based on their actual local circumstances, formulate specific standards for ordinary residential houses that may enjoy the preferential policies.
- Transfer of unfinished commodity properties by any pre-sale purchaser is forbidden. In addition, purchasers are required to buy properties in their real names. Any commodity property pre-sale contract must also be filed electronically with the relevant government agencies immediately after its execution.

The Notice on Adjustment of the Housing Loan Policy and Deposit Rate of Excess Reserve for Commercial Banks 《關於調整商業銀行住房信貸政策和超額準備金存款利率的通知》, promulgated by PBOC in March 2005, includes adjustments to individual housing loan policies of commercial banks as

well as individual housing fund loan rate. Pursuant to this notice, the preferential mortgage loan interest rate was replaced by the commercial loan interest rate, subject to certain restrictions on the lower limit on such interest rates. In the urban areas or cities with rapidly increased real estate prices, minimum down payment ratio for individual housing loans was adjusted from 20% to 30%. In May 2006, MOHURD, NDRC, PBOC and other relevant PRC government authorities jointly issued their Opinions on Housing Supply Structure and Stabilization of Property Prices 《關於調整住房供應結構穩定住房價格意見的通知》. Such opinions reiterated the existing measures and ushered in additional measures aimed at curbing rapid increases in property prices in large cities and promoting healthy development of the PRC property market. These measures include:

- requiring that at least 70% of the land supply approved by a local government for residential property development for any given year must be used for developing low-to medium-cost and small-to medium-size units and low-cost rental properties;
- requiring that at least 70% of residential projects approved or constructed on or after June 1, 2006 must consist of units with a unit floor area of less than 90 square meters per unit and that projects which have received approvals prior to this date but have not obtained construction permits must adjust their planning in order to be in conformity with this new requirement, with the exception that municipalities under direct administration of the PRC central government, such as Beijing, Chongqing and Shanghai, provincial capitals and certain other cities may deviate from such ratio under special circumstances upon approval from the Ministry of Construction;
- increasing the minimum amount of down-payment from 20% to 30% of the purchase price of the underlying property if the underlying property has a unit floor area of 90 square meters or more, effective from June 1, 2006;
- prohibiting commercial banks from lending to real estate developers with an internal capital ratio, calculated by dividing the internal funds by the total project capital required for the relevant projects, of less than 35%, restricting the grant or extension of revolving credit facilities to property developers holding a large amount of idle land and vacant commodity properties, and prohibiting commercial banks from accepting commodity properties which have been vacant for more than three years as security for their loans; and
- imposing a business tax levy on the entire sales proceeds from transfer of properties if the holding period is shorter than five years, effective from June 1, 2006, as opposed to two years when such levy was initially implemented in June 2005, and allowing such business tax to be levied on the difference between the price for such re-sale and the original purchase price in the event that an individual transfers a property other than an ordinary residential property after five years from his/her date of purchase.

In May 2006, the Ministry of Land and Resources published an Urgent Notice to Tighten Up Land Administration 《當前進一步從嚴土地管理的緊急通知》. In this notice, the Ministry of Land and Resources stressed that local governments must adhere to their annual overall land use planning and land supply plans and tighten up the control on land supply for non-agricultural use. The notice requires local governments to suspend the supply of land for new villa projects to ensure an adequate supply of land for more affordable housing. In this notice, the Ministry of Land and Resources also required local governments to conduct thorough investigations of illegal land use and submit reports on such investigations to the Ministry by the end of October 2006.

In July 2006, MOHURD, NDRC, MOFCOM, PBOC, the State Administration for Industry and Commerce, and SAFE jointly issued an Opinion on Regulating the Access and Management of Foreign Capital in the Real Estate Market 《關於規範房地產市場外資准入和管理的通知》, or the 171 Opinion. The 171 Opinion aims to tighten access by foreign capital to the PRC real estate market and to restrict property purchases in China by foreign institutions or individuals. It provides, among other things, that a

foreign institution or individual must establish a foreign-invested enterprise in order to purchase real property in China if the property is not intended for self use. The registered capital of such foreign-invested enterprise must amount to at least 50% of its total investments in PRC real properties if the amounts of such investments exceed US\$10 million. Branches and representative offices of foreign institutions in China and foreign individuals who work or study in China for more than one year may purchase real property for their own use but not for any other purposes. In addition, foreign institutions which have no branches or representative offices in China or foreign individuals who work or study in China for less than a year are prohibited from purchasing any real property in China. In September 2006, SAFE and MOHURD jointly issued a Notice in Respect of Foreign Exchange Issues in the Real Estate Market 《關於規範房地產市場外匯管理有關問題的通知》, or the 47 Notice, to implement the 171 Opinion. The 47 Notice provides specific procedures for purchasing real properties by foreign institutions and foreign individuals. The 47 Notice also forbids a foreign invested real estate enterprise to apply for overseas loans if it has failed to pay its registered capital in full or failed to obtain the land use rights certificates, or its own capital funds do not reach 35% of the total investment for the project.

In September 2007, the Ministry of Land and Resources issued the Notice on Implementation of the State Council's Certain Opinions on Resolving Difficulties and Further Strengthening Macro-control of Land Supply 《關於認真貫徹國務院〈關於解決城市低收入家庭住房困難的若干意見〉進一步加強土地供應調控的通知》, pursuant to which, at least 70% of the land supply arranged by the relevant land administration authority at city or county level for residential property development for any given year must be used for developing low- to medium-cost and small-to medium-size units, low-cost rental properties and affordable housing.

In November 2007, the PRC government revised its Catalog of Guidance on Industries for Foreign Investment by, among other things, removing the development of ordinary residences from the foreign-investment-encouraged category and adding secondary market residential property trading and brokering into the foreign-investment-restricted category.

In July 2008, PBOC and CBRC jointly issued the Notice on Financially Promoting the Saving and Intensification of Use of Land 《關於金融促進節約集約用地的通知》, requiring that relevant financial institutions strengthen the administration of construction land project loans, including the administration of commercial real estate credit loans.

In October 2008, PBOC issued the Notice on Extending the Downward Range of the Interest Rate for Commercial Personal Home Loans and Supporting the Residents in First-time Purchase of Ordinary Residential Homes 《擴大商業性個人住房貸款利率下浮幅度支持居民首次購買普通住房的通知》, pursuant to which, since October 27, 2008, the bottom limit of the interest rate applicable to the commercial personal home loans has been extended, the minimum amount of down payment has been adjusted to 20% and the interest rate applicable to personal home loans financed by provident funds has been also reduced.

In October 2008, the MOF and the State Administration of Taxation issued the Notice on the Adjustments to Taxation on Real Property Transactions 《關於調整房地產交易環節稅收政策的通知》, pursuant to which, since November 1, 2008, the rate of deed tax has been reduced to 1% for a first-time home buyer of an ordinary residence with a unit floor area under 90 square meters, individuals who sell or purchase residential properties are temporarily exempted from stamp duty and who sell residential properties are temporarily exempted from land value-added tax. However, the aforesaid preferential policy regarding deed tax has been replaced by the Notice on Adjustment of Preferential Policies Regarding Deed Tax and Individual Income Tax Incurred in Transfer of Real Property 《關於調整房地產交易環節契稅個人所得稅優惠政策的通知》 jointly promulgated by the MOF, the SAT and MOHURD in September 2010, pursuant to which, in the case that an individual purchases an ordinary house which is the only house for the family (taking into account the purchaser, the spouse and minor children), the deed tax is reduced by half; in the case that an individual purchases an ordinary house with an GFA of 90 square meters or less, which is the only house for the family (taking into account the purchaser, the spouse and minor children), the deed tax is levied at a rate of 1%. Pursuant to the Notice

on Adjustment of Preferential Policies Regarding Deed Tax and Business Tax Incurred in Transfer of Real Property 《關於調整房地產交易環節契稅、營業稅優惠政策的通知》, jointly promulgated by the MOF, SAT and MOHURD in February 2016, in the case that an individual purchases an ordinary house with the area of 90 square meters or less which is the only house for the household (taking into account the purchaser, the spouse and minor children), the deed tax is reduced to 1%, and for the ordinary house with the area of more than 90 square meters, the deed tax is reduced to 1.5%. Besides, excluding Beijing, Shanghai, Guangzhou and Shenzhen, in the case that an individual who has owned a house purchases the second ordinary house with the area of 90 square meters or less, the deed tax is reduced to 1% and for the ordinary house with the area of more than 90 square meters, the deed tax is reduced to 2%. Besides, the Notice provides that for any individual who resells the house purchased for less than two years, full business tax is levied and for an individual who resells the house purchased for two years or more, the business tax is exempted.

In December 2008, the General Office of the State Council issued the Several Opinions on Facilitating the Healthy Development of the Real Estate Market 《關於促進房地產市場健康發展的若干意見》, which aims to, among other things, encourage the consumption of the ordinary residence and support the real estate developer to handle the market change. Pursuant to this opinion, in order to encourage the consumption of the ordinary residence, from January 1, 2009 to December 31, 2009, a business tax is imposed on the full amount of the sale income upon the transfer a non-ordinary residence by an individual within two years from the purchase date. For the transfer of a non-ordinary residence that is more than two years from the purchase date and an ordinary residence that is within two years from the purchase date, the business tax is to be levied on the difference between the sale income and the purchase price. In the case of an ordinary residence, the business tax is exempted if that transfer occurs after two years from the purchase date. Furthermore, individuals with an existing ordinary residence that is smaller than the average size for their locality may buy a second ordinary residence under favorable loan terms similar to first-time buyers. In addition, support for real estate developers to deal with the changing market is to be provided by increasing credit financing services to “low-to-medium-level price” or “small-to-medium-sized” ordinary commercial housing projects, particularly those under construction, and providing financial support and other related services to real estate developers with good credit standing for merger and acquisition activities.

In December 2008, the MOF and the State Administration of Taxation issued the Notice on the Policy of Business Tax on Re-sale of Personal Residential Properties 《關於個人住房轉讓營業稅政策的通知》, which reiterates the measures set forth in the above Several Opinions on Facilitating the Healthy Development of the Real Estate Market regarding the business tax.

In December 2009, the State Council terminated the policy on preferential treatment relating to business taxes payable upon transfers of residential properties by property owners as previously adopted in December 2008 by the PRC government in response to the global economic slowdown, and the MOF and the SAT jointly issued the Notice on Adjusting the Policy of Business Tax on Re-sale of Personal Residential Properties 《關於調整個人住房轉讓營業稅政策的通知》 to curtail speculations in the property market in response to property price increases across the country. Pursuant to the Notice, effective from January 1, 2010, a business tax will be imposed on the full amount of the sale income upon the transfer of a non-ordinary residence by an individual within five years, instead of two years, from the purchase date. For the transfer of a non-ordinary residence that is more than five years from the purchase date and an ordinary residence which is within five years of the purchase date, the business tax is to be levied on the difference between the sale income and the purchase prices. In the case of an ordinary residence, the business tax is exempted if that transfer occurs after five years from the purchase date.

In order to further adjust business tax on individual transfer of houses, on January 27, 2011, the SAT and the MOF jointly promulgated Circular on Adjusting Policies of Business Tax on Individual Transfer of Houses 《關於調整個人住房轉讓營業稅政策的通知》, which requires that, where individuals sell houses which have been procured for less than five years, they shall pay the business tax in full amount; where individuals sell the non-ordinary houses which have been procured for more

than five years (inclusive), they shall pay the business tax on the balance of their sale incomes after deduction of the price for purchasing the houses; where individuals sell ordinary houses which have been procured for more than five years (inclusive), they shall be exempted from the business tax.

On March 30, 2015, SAT and MOF jointly promulgated Circular on Adjusting Policies of Business Tax on Transfer of Individual Houses 《關於調整個人住房轉讓營業稅政策的通知》 which provides that, where individuals sell houses which have been procured for less than two years, they shall pay the business tax in full amount; where individuals sell the non-ordinary houses which have been procured for more than two years (inclusive), they shall pay the business tax on the balance of their sale incomes after deduction of the price for purchasing the houses; where individuals sell ordinary houses which have been procured for more than five years (inclusive), they shall be exempted from the business tax.

In January 2010, the General Office of the State Council issued a Circular on Facilitating the Stable and Healthy Development of Property Market 《關於促進房地產市場平穩健康發展的通知》, which adopted a series of measures to strengthen and improve the regulation of the property market, stabilize market expectation and facilitate the stable and healthy development of the property market. These include, among others, measures to increase the supply of affordable housing and ordinary commodity housing, provide guidance for the purchase of property, restrain speculation of properties, and strengthen risk prevention and market supervision. Additionally, it explicitly requires a family (including a borrower, his or her spouse and children under 18), that has already purchased a residence through mortgage financing and has applied to purchase a second or more residences through mortgage financing, to pay a minimum down-payment of 40% of the purchase price.

On February 1, 2010, CBRC issued a Notice on Relevant Issues on Strengthening Administration of Real Estate Trust Business of Trust Companies 《關於加強信託公司房地產信託業務監管有關問題的通知》, which provides that, among other things, real estate projects must meet the following conditions to be eligible for loan financing from trust companies: (1) real estate projects must have obtained the land use rights certificates, construction land planning permits, construction works planning permits and construction permits; (2) developers or their controlling shareholders must be qualified as class 2 developers or higher; (3) the capital ratio of the project must satisfy the minimum requirements set by relevant authorities; and (4) trust companies may not provide trust funds to finance land reserves.

In April 2010, the State Council issued the Notice on Resolutely Containing the Excessive Hike of Property Prices in Some Cities 《堅決遏制部分城市房價過快上漲的通知》, or the April 2010 Notice, which provides that: (i) if a first-time home buyer (including a borrower, his or her spouse and children under 18) buys a residence with a unit floor area of more than 90 square meters for self use, the minimum down payment shall be at least 30%; (ii) if a second-time home buyer uses mortgage financing, the minimum down payment shall be at least 50% of the purchase price with a minimum mortgage lending interest rate of 110% of the benchmark rate; (iii) if a third-time or more homebuyer uses mortgage financing, the minimum down payment and interest rate thereof will be further raised. The April 2010 Notice further requires that in cities where property prices are overly high with excessive price hikes and strained housing supply, commercial banks may suspend extending bank loans for third-time or more home buyers in light of risk exposure. The provision of mortgage loans to non-local residents who cannot present the local tax clearance certificates or social insurance certification of more than one year will also be suspended.

In May 2010, MOHURD, PBOC and CBRC jointly issued the Circular on Regulating the Criteria for Identifying the Second Housing Unit in Connection with Commercial Mortgage Loans 《關於規範商業性個人住房貸款中第二套住房認定標準的通知》, which provides, among other things, that the number of housing units owned by an individual purchaser who is applying for mortgage loans shall be determined by taking into account all housing units owned by the family members of such purchaser (including the purchaser and such purchaser's spouse and children under the age of 18), and that second-time or more purchasers of housing units will be subject to different credit policies when applying for mortgage loans.

In November 2010, MOHURD and SAFE jointly promulgated the Notice on Further Regulating Administration of Purchase of Houses by Overseas Institutions and Individuals 《關於進一步規範境外機構和個人購房管理的通知》, pursuant to which, an overseas individual can only purchase one house for self-use within the PRC and an overseas institution which has established a branch or representative office in the PRC can only purchase non-residential houses for business use in the city where it is registered within the PRC.

On January 26, 2011, the General Office of the State Council promulgated the Notice on Relevant Issues of Further Improvement of the Control in Real Estate Market 《進一步做好房地產市場調控工作有關問題的通知》, which, among other things, limits the number of homes that local residents can buy in a specified period. In principle, local resident families that own one house and non-local resident families who can provide local tax clearance certificates or local social insurance payment certificates for a required period are permitted to purchase only one additional house (including newly-built houses and second-hand houses). Sales of properties to (a) local resident families who own two or more houses, (b) non-local resident families who own one or more houses, and (c) non-local resident families who cannot provide local tax clearance certificates or local social insurance payment certificates for a required period, shall be suspended in local administrative regions. In order to implement the Notice on Relevant Issues of Further Improvement of the Control in Real Estate Market, many cities have promulgated new measures to restrict the number of houses a family is allowed to purchase.

On July 19, 2012, the Ministry of Land and Resources and MOHURD jointly issued the Urgent Notice to Further Tighten Up Real Property Land Administration and Consolidate the Achievement of Macroeconomic Control of the Real Property Market 《關於進一步嚴格房地產用地管理鞏固房地產市場調控成果的緊急通知》 to strengthen the enforcement of macroeconomic policy in the real property market, which requires that residential construction projects must commence construction within one year from the date of land title delivery as stipulated in the land allocation decision or land grant contract and must be completed within three years from the date of construction commencement.

The State Council has approved, on a trial basis, the launch of a new property tax scheme in selected cities. On January 27, 2011, the governments of Shanghai and Chongqing issued their respective measures for implementing pilot property tax schemes, which became effective on January 28, 2011. Under the Shanghai Interim Rules of the Trial in Levy of Property Tax on Certain Houses 《上海市開展對部分個人住房徵收房產稅試點的暫行辦法》, among other things, starting on January 28, 2011, (i) Shanghai shall, on a trial basis, levy property taxes on a second or succeeding house in Shanghai which purchased by a local resident family and each house in Shanghai which is purchased by a non-local resident family; (ii) the applicable rate of the property tax is 0.4% or 0.6%, subject to specified circumstances; and (iii) the property tax shall be temporarily payable on the basis of 70% of the transaction value of the taxable house. Moreover, the Shanghai property tax rule provides several measures for tax deduction or exemption, including the rule that if a local resident family's GFA per capita, calculated on the basis of the consolidated living space owned by such family, is not more than 60 sq.m., such family is temporarily exempted from property tax when purchasing a second house or more in Shanghai. Under the measures issued by the Chongqing government, the property tax in trial areas in nine major districts will be imposed on (i) stand-alone residential properties (such as villas) owned by individuals, (ii) high-end residential properties purchased by individuals on or after January 28, 2011, the purchase prices per square meter of which are two or more times of the average price of new residential properties developed within the nine major districts of Chongqing in the last two years and (iii) the second or further ordinary residential properties purchased on or after January 28, 2011 by individuals who are not local residents, or are not employed in and do not own an enterprise in Chongqing, at rates ranging from 0.5% to 1.2% of the purchase price of the property. Furthermore, the Chongqing property tax rule provides several possible deductions or exemptions, including the following: (i) for stand-alone residential properties owned before January 28, 2011, the deduction area is 180 sq.m.; (ii) for newly purchased stand-alone residential properties and high-end residential properties, the deduction area is 100 sq.m.; (iii) the deduction area shall be based on the family unit, and the deduction can only be enjoyed by one family for its single property. In addition, there is no deduction for individuals who are not local residents, not employed in or do not own an enterprise in Chongqing.

These two governments may issue additional measures to tighten the levy of property tax. It is also expected that more local governments will follow Shanghai and Chongqing in imposing property tax on commodity properties, including Beijing, Shenzhen and Hangzhou.

On September 6, 2012, the Ministry of Land and Resources promulgated the Notice on Strictly Implementing Land Use Standards and Vigorously Promoting Economical and Intensive Land Use 《關於嚴格執行土地使用標準大力促進節約集約用地的通知》, which stipulates, among other things, that: (a) land use standards shall be strictly implemented and continuously improved. For industrial and commercial land transferred through lawful public tender, auction and listing-for-sale, the administration of land and resources of cities and counties shall establish the requirements related to land use standards for the schemes and announcement of land assignment, and include such requirements related to land use standards for the schemes and announcement of land assignment, and include such requirements in assignment contracts and strictly enforce the requirements. Construction lands that are listed in the Catalog for Prohibited Land Use Projects, or that fail to conform to the prescribed conditions in the Catalog for Restricted Land Use Projects, or for which the intensity of investment, floor area ratio, construction coefficient, ratio of green land, or proportion of administrative offices and living facilities land fail to conform to relevant requirements for industrial projects or total area or each functional division area surpasses the required limits or the land area and floor area ratio fails to conform to the conditions of the residential land supply shall not pass the land supply and approval procedures; (b) examination items and application in respect of land use standards shall be clarified; (c) the implementation of land use standards shall be further supervised and evaluated; and (d) the land use standard training program shall be given to the officials in land and resources authorities, and such land use standards shall be widely publicized for the purpose of implementation.

On November 5, 2012, the Ministry of Land and Resources, the MOF, PBOC and CBRC jointly promulgated the Notice on strengthening Land Reserves and Financing Administration 《關於加強土地儲備與融資管理的通知(國土資發[2012]162號)》, in order to strengthen land reserve institutions administration, determine the reasonable scale and structure of land reserves, strengthen the administration of land pre-development, reservation and protection, and regulate the financing of land reserves and the use of land reserve funds. On December 26, 2012, the MOF, or MOF, issued the notice requiring local governments to strictly implement rules relating to the construction and management of low income housing projects. In addition, MOF will provide various measures to support construction of affordable housing in 2013, including measures (1) to ensure that all affordable housing construction financings are strictly confined to permitted financing channels only; and (2) to allow local governmental finance departments to raise funds from housing provident funds, land premium, State-owned capital operational budgets, local government debts, and to use the funds on projects that need government funding, including public rental housing, low rental housing, and relocation housing projects.

On February 26, 2013, the State Council issued the Notice on Continuing Adjustment and Control of Property Markets 《關於繼續做好房地產市場調控工作的通知》 which requires, among other restrictive measures:

- (i) improving the responsibility system for stabilizing housing prices;

Municipalities directly under the central government, cities listed on state plans and provincial capitals (excluding Lhasa) must set an annual objective for controlling housing prices and publish annual new commodity housing price control target in the first quarter of the year.

- (ii) firmly restraining purchases of residential housing for investment and speculation purposes; and

Municipalities directly under the central government, cities listed on state plans and provincial capitals (excluding Lhasa) which have implemented restrictions on the real estate market are required to designate all administrative areas of the cities as restricted areas, and restricted housing shall include new commodity housing and second-hand housing. Non-local residents who possess one or more residential properties and fail to provide one-year or longer tax payment certificates or social insurance payment certificates are to be barred from purchasing any residential properties located in the administrative area. For cities where housing prices are increasing at an excessive rate, local branches of PBOC may further raise the down payment rate and mortgage interest rate for the purchase of a second residential property. In addition, the state will strictly enforce a 20% tax on house sale profits.

- (iii) expanding ordinary commodity housing units and increasing the supply of land.

The overall housing land supply in 2013 in principle shall not be lower than the average actual land supply in the past five years. Financial institutions, subject to credit requirements, are to prioritize requests for loans for ordinary commodity housing construction projects in which medium and small housing units constitute 70% or more of the total units in such construction project.

On September 29, 2014, the PBOC and the CBRC jointly issued Circular on Further Improving Financial Services for Housing Consumption 《關於進一步做好住房金融服務工作的通知》，which provides that, for a family who buys on loan its first ordinary house for self-use, the minimum percentage of down payment is 30%, and the lower limit of loan interest rate is 70% of the benchmark rate, to be decided by banking financial institutions in light of risk conditions. For a family who has paid up the loan of its first house and applies again to buy on loan an ordinary commodity house for the purpose of improving living conditions, the loan policies for first house shall apply. In cities where the measures of “restrictions on house buying” are lifted or not imposed, for a family who owns two or more houses and has paid up loans for them, and applies to buy another house on loan, banking financial institutions shall decide on the percentage of down payment and interest rate by prudently considering the borrower’s solvency and credit status.

On March 30, 2015, the PBOC, MOHURD and CBRC jointly promulgated the Circular on issues concerning Individual Housing Loan Policies 《關於個人住房貸款政策有關問題的通知》，which provides that, (i) where the household of a resident who owns one house, of which relevant housing loan has not been fully repaid, applies for commercial individual housing loan to purchase an ordinary house for self-living and improving their living conditions, the minimum down payment ratio is adjusted to not less than 40%; (ii) where the household of a worker who pays housing provident fund contributions uses housing provident fund commission loan to purchase the first ordinary house for self-living, the minimum down payment ratio is 20%; where the household of a worker who owns one house, of which relevant housing loan has been fully repaid, applies for housing provident fund commission loan to purchase an ordinary house for self-living and improving their living conditions, the minimum down payment ratio is 30%.

In August, 2015, the CBRC, the MOF and PBOC jointly issued the Circular on Adjusting the Minimum Down Payment Levels for the Purchase of Houses by Individuals on the Housing Provident Fund Loan 《關於調整住房公積金個人住房貸款購房最低首付款比例的通知》，which lowered the minimum down payment to 20% for the family that owns a residential property and has paid off its existing mortgage loan applying for a second housing reserve loan to buy another residential property to improve living conditions. In Beijing, Shanghai, Guangzhou and Shenzhen, the minimum down payment of applying for housing reserve loan to buy a second residential property can be decided by local government in combination with local reality.

On February 1, 2016, PBOC and CBRC jointly issued the Notice on Issues Concerning Adjusting the Individual Housing Loan Policies 《關於調整個人住房貸款政策有關問題的通知》，which provides that in cities where housing purchase restrictions are not being implemented, the minimum down

payment ratio for commercial individual housing loans granted to households for purchasing the first ordinary residential property is, in principle, 25% of the property price, which can be adjusted downward by 5% at local authority's discretion. For household that owns a residential property and has not fully repaid the existing loan applying for a further personal housing commercial loan to purchase an additional ordinary residential property to improve living conditions, the minimum down payment shall be not less than 30%.

Environmental Protection

The laws and regulations governing the environmental protection requirements for real estate development in China include the PRC Environmental Protection Law 《中華人民共和國環境保護法》, the PRC Prevention and Control of Noise Pollution Law 《中華人民共和國環境噪聲污染防治法》, the PRC Environmental Impact Assessment Law 《中華人民共和國環境影響評價法》 and the PRC Administrative Regulations on Environmental Protection for Development Projects 《中華人民共和國建設項目環境保護管理條例》 and the Administrative Measures for Filing the Environmental Impact Registration Form for Construction Projects 《建設項目環境影響登記表備案管理辦法》. Pursuant to these laws and regulations, depending on the impact of the project on the environment, an environmental impact report and an environmental impact analysis table must be submitted by a developer before the relevant authorities grant approval for the commencement of construction of the property development, while the environmental impact registration form shall be filed before the construction project is completed and put into production and operation. In addition, upon completion of the property development, the relevant environmental authorities will also inspect the property to ensure compliance with the applicable environmental protection standards and regulations before the property can be delivered to the purchasers.

Foreign Exchange Controls

Under the PRC Foreign Currency Administration Rules 《中華人民共和國外匯管理條例》 promulgated in 1996 and revised in 1997 and as amended in 2008 and various regulations issued by SAFE and other relevant PRC government authorities, Renminbi is convertible into other currencies for the purpose of current account items, such as trade related receipts and payments and the payment interest and dividends. The conversion of Renminbi into other currencies and remittance of the converted foreign currency outside China for the purpose of capital account items, such as direct equity investments, loans and repatriation of investment, requires the prior approval from SAFE or its local office. Payments for transactions that take place within China must be made in Renminbi. Unless otherwise approved, PRC companies may repatriate foreign currency payments received from abroad or retain the same abroad. Foreign-invested enterprises may retain foreign exchange in accounts with designated foreign exchange banks subject to a cap set by SAFE or its local office. Foreign exchange proceeds under the current accounts may be either retained or sold to a financial institution engaging in settlement and sale of foreign exchange pursuant to relevant rules and regulations of the State. For foreign exchange proceeds under the capital accounts, approval from SAFE is required for its retention or sale to a financial institution engaging in settlement and sale of foreign exchange, except where such approval is not required under the rules and regulations of the State.

On July 4, 2014, the SAFE issued the Notice on Issues Relating to the Administration of Foreign Exchange for Overseas Investment and Financing and Reverse Investment by Domestic Residents via Special Purpose Vehicles 《關於境內居民通過特殊目的公司境外投融資及返程投資外匯管理有關問題的通知》, or Notice 37, which replaced the Notice on Issues Relating to the Administration of Foreign Exchange for the Financing and Reverse Investment by Domestic Residents via Offshore Special Purpose Vehicles issued by SAFE in October 2005, or Notice 75. Pursuant to Notice 37, any PRC residents, including both PRC institutions and individual residents, are required to register with the local SAFE branch before making contribution to a company set up or controlled by the PRC residents outside of the PRC for the purpose of overseas investment or financing with their legally owned domestic or offshore assets or interests, referred to in this Notice as a “special purpose vehicle.” Under Notice 37, the term “PRC institutions” refers to entities with legal person status or other economic

organizations established within the territory of the PRC. The term “PRC individual residents” includes all PRC citizens (also including PRC citizens abroad) and foreigners who habitually reside in the PRC for economic benefits. A registered special purpose vehicle is required to amend its SAFE registration in the event of any change of basic information including PRC individual resident shareholder, name, term of operation, or PRC individual resident’s increase or decrease of capital, transfer or exchange of shares, merger, division or other material changes. In addition, if a non-listed special purpose vehicle grants any equity incentives to directors, supervisors or employees of domestic companies under its direct or indirect control, the relevant PRC individual residents could register with the local SAFE branch before exercising such options. The SAFE simultaneously issued a series of guidance to its local branches with respect to the implementation of Notice 37.

On March 30, 2015, SAFE issued the Circular on Reforming the Management Approach Concerning the Settlement of Foreign Currency Capital of Foreign-Invested Enterprises 《關於改革外商投資企業外匯資本金結匯管理方式的通知》, effective as of June 1, 2015, which provides that, (i) the capital of foreign-invested enterprises and capital in Renminbi obtained from foreign exchange settlement shall not be (a) directly or indirectly used for the payment beyond the business scope of the enterprises or the payment prohibited by national laws and regulations; (b) directly or indirectly used for investment in securities unless otherwise provided by laws and regulations; (c) directly or indirectly used for granting the entrust loans in Renminbi (unless permitted by the scope of business), repaying the inter-enterprise borrowings (including advances by the third party) or repaying the bank loans in Renminbi that have been sub-lent to the third party; and (d) used for paying the expenses related to the purchase of real estate not for self-use, except for the foreign-invested real estate enterprises; (ii) except for transfer of equity investment in the original currency, foreign-invested enterprises with investment as the primary business are permitted to directly settle the foreign exchange capital or transfer the capital in Renminbi in the Account Pending for Foreign Exchange Settlement Payment to the account of invested enterprises based on the actual investment scale on the premise that the domestic investment project is authentic and compliant.

On June 09, 2016, SAFE issued the Circular on Reforming and Regulating the Policies on the Control over Foreign Exchange Settlement of Capital Account 《關於改革和規範資本項目結匯管理政策的通知》 which provides that, among others, (i) foreign invested enterprise may go through the foreign exchange settlement for their foreign debts at its own discretion; (ii) foreign exchange receipts of capital account, including foreign exchange capital, foreign debts, and repatriated funds raised through overseas listing, subject to discretionary settlement as expressly prescribed in the relevant policies, provisionally, may be settled up to 100% with banks according to the actual need of domestic enterprises for business operation and (iii) foreign exchange receipts of capital account and the receipt in Renminbi obtained from foreign exchange settlement shall not be (a) directly or indirectly used for the payment beyond the business scope of the enterprises or the payment prohibited by national laws and regulations; (b) directly or indirectly used for investment in securities unless otherwise provided by law and regulations; (c) used for the granting of loans to non-affiliated enterprises unless otherwise permitted in business scope of licenses; and (d) except for real estate enterprises, used for the construction or purchase of real estate for purposes other than self-use.

PRC Taxation

Because we are not incorporated in the PRC, your investment in our Notes is largely exempt from PRC tax laws, except as disclosed in the section entitled “Risk Factors — Risks Relating to Our Business — We may be deemed a PRC resident enterprise under the PRC Enterprise Income Tax Law, which may subject us to PRC taxation on our worldwide income, require us to withhold taxes on interest we pay on the Notes and require holders of the Notes to pay taxes on gains realized from the sale of the Notes,” and “Taxation — PRC Taxation.” But because virtually all of our business operations are in mainland China and we carry out these business operations through operating subsidiaries and joint ventures organized under the PRC law, our PRC operations and our operating subsidiaries and joint ventures in mainland China are subject to PRC tax laws and regulations, which indirectly affect your investment in our shares.

Dividends from Our PRC Operations

Under the PRC tax laws effective prior to January 1, 2008, dividends paid by our PRC subsidiaries or joint ventures to us were exempt from PRC income tax. However, pursuant to the PRC Enterprise Income Tax Law, effective on January 1, 2008 and amended on February 24, 2017, and its implementation rules which became effective on January 1, 2008, dividends payable by foreign invested enterprises, such as subsidiaries and joint ventures in China, to their foreign investors are subject to withholding tax at a rate of 10%, unless lower treaty rate is applicable.

Under the PRC Enterprise Income Tax Law and its implementation rules, enterprises established under the laws of foreign jurisdictions but whose “de facto management body” is located in China are treated as “resident enterprises” for PRC tax purposes, and will be subject to PRC income tax on their worldwide income. For such PRC tax purposes, dividends from PRC subsidiaries to their foreign shareholders are excluded from such taxable worldwide income. Under the implementation rules of the PRC Enterprise Income Tax Law, “de facto management bodies” are defined as the bodies that have material and overall management control over the business, personnel, accounts and properties of an enterprise. Because this tax law is new and its implementation rules are newly issued, there is uncertainty as to how this new law and its implementation rules will be interpreted or implemented by relevant tax bureaus.

Our Operations in Mainland China

Our subsidiaries and joint ventures through which we conduct our business operations in mainland China are subject to PRC tax laws and regulations.

Deed Tax. Under the PRC Interim Regulation on Deed Tax 《中華人民共和國契稅暫行條例》, a deed tax is chargeable to transferees of land use rights and/or ownership in real properties within the territory of mainland China. These taxable transfers include:

- grant of use right of state-owned land;
- sale, gift and exchange of land use rights, other than transfer of right to manage rural collective land; and
- sale, gift and exchange of real properties.

Deed tax rate is between 3% to 5% subject to determination by local governments at the provincial level in light of the local conditions. In October 2008, the MOF and the SAT issued the Notice on the Adjustments to Taxation on Real Property Transactions 《關於調整房地產交易環節稅收政策的通知》, pursuant to which, since November 1, 2008, the rate of deed tax has been reduced to 1% for a first-time home buyer of an ordinary residence with a unit floor area less than 90 square meters; individuals who sell or purchase residential properties are temporarily exempted from stamp duty and those who sell residential properties are temporarily exempted from land value-added tax. However, the aforesaid preferential policy regarding deed tax has been replaced by the Notice on Adjustment of Preferential Policies Regarding Deed Tax and Individual Income Tax Incurred in Transfer of Real Property 《關於調整房地產交易環節契稅個人所得稅優惠政策的通知》 jointly promulgated by the MOF, the SAT and MOHURD on September 29, 2010, pursuant to which, in the case that an individual purchases an ordinary house which is the only house for the family (including the purchaser, the spouse and minor children), deed tax is reduced by half; in the case that an individual purchases an ordinary house with an GFA of 90 square meters or below, which is the only house for the family, deed tax is levied at a rate of 1%.

Enterprise Income Tax. Prior to the PRC Enterprise Income Tax Law and its implementation rules that became effective on January 1, 2008, our PRC subsidiaries and joint ventures were generally subject to a 33% corporate income tax. Under the PRC Enterprise Income Tax Law, effective from

January 1, 2008, a unified enterprise income tax rate is set at 25% for both domestic enterprises and foreign-invested enterprises. The PRC Enterprise Income Tax Law and its implementation rules provide certain relief to enterprises that were established prior to March 16, 2007, including (1) continuously enjoying the preferential income tax rate during a five-year transition period if such enterprises are entitled to preferential income tax rate before the effectiveness of the PRC Enterprise Income Tax Law; (2) continuously enjoying the preferential income tax rate until its expiry if such enterprises are entitled to tax holidays for a fixed period under the relevant laws and regulations. However, where the preferential tax treatment has not commenced due to losses or accumulated loss not being fully offset, such preferential tax treatment shall be deemed to commence from January 1, 2008 and expire on December 31, 2013. In addition, dividends from PRC subsidiaries to their foreign shareholders will be subject to a withholding tax at a rate of 10% unless any lower treaty rate is applicable. Under the PRC Enterprise Income Tax Law and its implementation rules, enterprises established under the laws of foreign jurisdictions but whose “de facto management body” is located in China are treated as “resident enterprises” for PRC tax purposes, and will be subject to PRC income tax on their worldwide income. Dividends from PRC subsidiaries to their foreign shareholders are excluded from such taxable worldwide income. Under the implementation rules of the PRC Enterprise Income Tax Law, “de facto management bodies” are defined as bodies that have material and overall management control over the business, personnel, accounts and properties of an enterprise. There is uncertainty as to how this law and its implementation rules will be interpreted or implemented by relevant tax bureaus.

In addition, pursuant to the Arrangement between Mainland China and Hong Kong for the Avoidance of Double Taxation and Prevention of Fiscal Evasion with respect to Taxes on Income 《內地和香港特別行政區關於對所得避免雙重徵稅和防止偷漏稅的安排》, signed on August 21, 2006 and applicable, in Hong Kong, to income derived in any year of assessment commencing on or after April 1, 2007 and, in Mainland China, to any year commencing on or after January 1, 2006, a company incorporated in Hong Kong is subject to withholding income tax at a rate of 5% on dividends it receives from its PRC subsidiaries, if it holds a 25% or more equity interest in each such PRC subsidiary at the time of the distribution, or 10% if it holds less than a 25% equity interest in that subsidiary. On August 27, 2015, SAT released the Announcement on Promulgating the Administrative Measures for Non-resident Taxpayers to Enjoy the Treatment Under Taxation Treaties 《關於發布〈非居民納稅人享受稅收協定待遇管理辦法〉的公告》 effective on November 1, 2015, which provides that any non-resident taxpayer meeting requirements for enjoying preferential treatment under the Tax Conventions or International Transportation Conventions may be entitled to such preferential treatment himself/herself when filing a tax return or making a withholding declaration through a withholding agent, subject to the subsequent administration by the tax authorities. In order to clarify the responsibility of the relevant tax authorities to implement the above announcement, SAT issued the Administration Rules for Non-resident Taxpayers to Enjoy the Treatment Under Taxation Treaties (trial) 《非居民納稅人享受稅收協定待遇管理規程(試行)》 on October 29, 2015, effective on November 1, 2015.

On March 6, 2009, SAT issued the Measures for Dealing with Income Tax of Enterprise Engaged in Real Estate Development and Operation 《房地產開發經營業務企業所得稅處理辦法》 effective on January 1, 2008, which specifically stipulates the rules regarding tax treatment of income and deduction of cost and fees, verification of calculated tax cost and tax treatment on certain matters of the real estate development enterprise according to the Enterprise Income Tax Law and its implementation rules.

Business Tax. Under the PRC Interim Regulation on Business Tax 《中華人民共和國營業稅暫行條例》 of 1994, as amended in 2008, services in mainland China are subject to business tax. Taxable services include sale of real property in mainland China. Business tax rate is between 3% to 20% depending on the type of services provided. Sale of real properties and other improvements on the land attract a business tax at the rate of 5% of the turnover of the selling enterprise payable to the relevant local tax authorities.

On March 30, 2015, SAT and MOF jointly promulgated Circular on Adjusting Policies of Business Tax on Transfer of Individual Houses 《關於調整個人住房轉讓營業稅政策的通知》, which requires that, where individuals sell houses which have been procured for less than two years, they shall pay the

business tax in full amount; where individuals sell the non-ordinary houses which have been procured for more than two years (inclusive), they shall pay the business tax on the balance of their sale incomes after deduction of the price for purchasing the houses; where individuals sell ordinary houses which have been procured for more than five years (inclusive), they shall be exempted from the business tax.

However, on March 23, 2016, MOF and SAT issued Notice on Adjustment of Transforming Business Tax to Appreciation Tax 《關於全面推開營業稅改增值稅試點的通知》, implemented on May 1, 2016, which provides that the sale of self-developed old real estate projects (refers to real estate projects launched time before April 30, 2016 stating on the construction works commencement permit) by a general taxpayer among real estate developers shall be subject to a simple tax rate of 5%. Real estate developers selling real estate project by advance payment will be subject to an appreciation tax of 3% when receiving advance payment.

Pursuant to the Interim Measures on the Management of Value Added Tax of Self-developed Real Estate Project by the Sale of Real Estate Developers 《房地產開發企業銷售自行開發的房地產專案增值稅徵收管理暫行辦法》 issued on March 31, 2016 and implemented on May 1, 2016 by SAT, VAT is payable by real estate developers in the calendar month immediately following receipt of presale proceeds of real estate self-development in accordance with a given formula. The applicable rate is 11%. Nevertheless, for developers conducting old real estate projects and who have chosen to apply the simplified tax method, the simplified rate of 5% will be applied in calculating the prepaid VAT. The simplified tax method will be applicable for 36 months once chosen.

VAT is payable by taxpayers in the calendar month immediately following receipt of presale proceeds of real estate self-development in accordance with a given formula. The applicable rate is 11%. Nevertheless, for taxpayers conducting old real estate projects and who have chosen to apply the simplified tax method, the simplified rate of 5% will be applied in calculating the prepaid VAT. Once the simplified tax method is chosen, it will be applicable for 36 months.

Old real estate projects refer to (1) real estate projects with commencement dates of construction stated in the Construction Permits prior to April 30, 2016, and (2) construction projects with no commencement dates not stated in the Construction Permits, or construction projects with commencement dates of construction stated in the construction contracts prior to April 30, 2016, but have not yet received Construction Permits.

Land Appreciation Tax. Under the PRC Interim Regulation on Land Appreciation Tax 《中華人民共和國土地增值稅暫行條例》 of 1994 and its implementation rules of 1995, LAT applies to both domestic and foreign investors in real properties in mainland China, irrespective of whether they are corporate entities or individuals. The tax is payable by a taxpayer on the appreciation value derived from the transfer of land use rights, buildings or other facilities on such land, after deducting the “deductible items” that include the following:

- payments made to acquire land use rights;
- costs and charges incurred in connection with the land development;
- construction costs and charges in the case of newly constructed buildings and facilities;
- assessed value in the case of old buildings and facilities;
- taxes paid or payable in connection with the transfer of the land use rights, buildings or other facilities on such land; and
- other items allowed by the MOF.

The tax rate is progressive and ranges from 30% to 60% of the appreciation value as compared to the “deductible items” as follows:

<u>Appreciation value</u>	<u>LAT rate</u>
Portion not exceeding 50% of deductible items	30%
Portion over 50% but not more than 100% of deductible items	40%
Portion over 100% but not more than 200% of deductible items.	50%
Portion over 200% of deductible items	60%

Exemption from LAT is available to the following cases:

- Taxpayers constructing ordinary residential properties for sale (i.e. the residences built in accordance with the local standard for residential properties used by the general population, excluding deluxe apartments, villas, resorts and other high-end premises), where the appreciation amount does not exceed 20% of the sum of deductible items;
- Real estate taken over and repossessed according to laws due to the construction requirements of the state; and
- Due to redeployment of work or improvement of living standard, transfers by individuals of originally self-used residential properties, with five years or longer of self-used residence and with tax authorities’ approval.

According to a notice issued by the MOF in January 1995, the LAT regulation does not apply to the following transfers of land use rights:

- real estate transfer contracts executed before January 1, 1994; and
- first time transfers of land use rights and/or premises and buildings during the five years commencing on January 1, 1994 if the land grant contracts were executed or the development projects were approved before January 1, 1994 and the capital has been injected for the development in compliance with the relevant regulations.

After the enactment of the LAT regulations and the implementation rules in 1994 and 1995, respectively, due to the long period of time typically required for real estate developments and their transfers, many jurisdictions, while implementing these regulations and rules, did not require real estate development enterprises to declare and pay the LAT as they did other taxes. Therefore, in order to assist the local tax authorities in the collection of LAT, the MOF, the SAT, Ministry of Construction and State Land Administration Bureau separately and jointly issued several notices to reiterate that, after the assignments are signed, the taxpayers should declare the tax to the local tax authorities where the real estate is located, and pay the LAT in accordance with the amount as calculated by the tax authority and within the time period as required. For those who fail to acquire proof as regards the tax paid or the tax exemption from the tax authorities, the real estate administration authority will not process the relevant title change procedures, and will not issue the property ownership certificates.

The State Administration of Taxation issued a further notice in July 2002 to require local tax authorities to require prepayment of LAT on the basis of proceeds from pre-sales of real estate.

In December 2006, the State Administration of Taxation issued a Notice on the Administration of the Settlement of Land Appreciation Tax of Property Development Enterprises 《關於房地產開發企業土地增值稅清算管理有關問題通知》, which came into effect on February 1, 2007. The notice required settlement of LAT liabilities by real estate developers. Provincial tax authorities are given authority to formulate their implementation rules according to the notice and their local situation.

To further strengthen LAT collection, in May 2009, the State Administration of Taxation released the Rules on the Administration of the Settlement of Land Appreciation Tax 《土地增值稅清算管理規程》, which came into force on June 1, 2009.

In May 2010, the State Administration of Taxation issued the Circular on Settlement of Land Appreciation Tax 《關於土地增值稅清算有關問題的通知》 to strengthen the settlement of LAT. The circular clarifies certain issues with respect to the calculation and settlement of LAT, such as (i) the recognition of the revenue upon the settlement of LAT; and (ii) the deduction of fees incurred in connection with the property development.

In May 2010, the State Administration of Taxation issued the Notice on Strengthening the Collection of Land Appreciation Tax 《關於加強土地增值稅徵管工作的通知》, which requires that the minimum LAT prepayment rate shall be 2% for provinces in the eastern region of China, 1.5% for provinces in the central and northeastern regions, and 1% for provinces in the western region. According to the notice, the local tax bureaus shall determine the applicable LAT prepayment rates based on the property type.

Pursuant to the Circular on Value-Added Tax Policies for Financial, Real Estate Development, Education Ancillary Service and Other Services 《關於明確金融、房地產開發、教育輔助服務等增值稅政策的通知》 jointly issued by SAT and MOF, on December 21, 2016, effective on May 1, 2016, except for choosing the simplified tax method, when the general taxpayer sells real estate project developed by itself, the compensation for demolition paid to other companies or individuals upon land acquisition is permitted to be deducted for the purpose of calculation the sales income. Besides, if a real estate developer establishes a project company to develop the granted land after paying the land premium, the project company, for the purpose of calculation the sales income, may deduct the land premium that has been paid by the real estate developer if fulfilling the relevant requirements of changing the grantee of the land use right.

Urban Land Use Tax. Pursuant to the PRC Interim Regulations on Land Use Tax in respect of Urban Land 《中華人民共和國城鎮土地使用稅暫行條例》 promulgated by the State Council in September 1988, the land use tax in respect of urban land is levied according to the area of relevant land. The annual tax on urban land was between RMB0.2 and RMB10 per square meter. An amendment by the State Council in December 2006 changed the annual tax rate to between RMB0.6 and RMB30 per square meter of urban land.

Buildings Tax. Under the PRC Interim Regulations on Buildings Tax 《中華人民共和國房產稅暫行條例》 promulgated by the State Council in September 1986, buildings tax applicable to domestic enterprises is 1.2%, if it is calculated on the basis of the residual value of a building, and 12%, if it is calculated on the basis of the rental.

According to the Notice on Issues Relating to Assessment of Buildings Tax against Foreign-invested Enterprises and Foreign Individuals 《關於對外資企業及外籍個人徵收房產稅有關問題的通知》, the foreign-invested enterprises, foreign enterprises and foreign individuals are to be levied the same as domestic enterprises.

Stamp Duty. Under the PRC Interim Regulations on Stamp Duty 《中華人民共和國印花稅暫行條例》 promulgated by the State Council in August 1988, for property transfer instruments, including those in respect of property ownership transfers, the duty rate is 0.05% of the amount stated therein; for permits and certificates relating to rights, including property ownership certificates and land use rights certificates, stamp duty is levied on an item-by-item basis of RMB5 per item.

Municipal Maintenance Tax. Under the PRC Interim Regulations on Municipal Maintenance Tax 《中華人民共和國城市維護建設稅暫行條例》 promulgated by the State Council in 1985, as amended on January 8, 2011, a taxpayer, whether an individual or otherwise, of a product tax, value-added tax or business tax is required to pay a municipal maintenance tax, calculated on the basis of product tax,

value-added tax and business tax. The tax rate is 7% for a taxpayer whose domicile is in an urban area, 5% for a taxpayer whose domicile is in a county or a town, and 1% for a taxpayer whose domicile is not in any urban area or county or town. Under the Circular Concerning Temporary Exemption from Municipal Maintenance Tax and Education Surcharge For Enterprises with Foreign Investment and Foreign Enterprises issued by the State Administration of Taxation in February 1994, the municipal maintenance tax is not applicable to foreign invested enterprises for the time being, until further explicit stipulations are issued by the State Council.

In October 2010, the State Council issued the Notice on Unification of the Application of Municipal Maintenance Tax and Education Surcharge by Domestic and Foreign Enterprises and Individuals 《關於統一內外資企業和個人城市維護建設稅和教育費附加制度的通知》, pursuant to which, from December 1, 2010, a municipal maintenance tax is applicable to both foreign-invested enterprises, foreign enterprises and foreign individuals, as well as domestic enterprises and individuals.

Pursuant to the Notice on Relevant Issues of Imposition of Municipal Maintenance and Education Surcharge on Foreign-invested Enterprises 《關於對外資企業徵收城市維護建設稅和教育費附加有關問題的通知》 promulgated by the MOF and the SAT in November 2010, foreign-invested enterprises must pay municipal maintenance tax on any value-added tax, consumption tax and business tax incurred on or after December 1, 2010. However, foreign-invested enterprises will be exempted from municipal maintenance tax on any value-added tax, consumption tax and business tax incurred before December 1, 2010.

Education Surcharge. Under the Interim Provisions on Imposition of Education Surcharge 《徵收教育費附加的暫行規定》 promulgated by the State Council in April 1986, and amended in 1990, August 2005 and January 2011, any taxpayer, whether an individual or otherwise, of value-added tax, business tax or consumption tax is liable for an education surcharge, unless such taxpayer is required to pay a rural area education surcharge as provided by the Notice of the State Council on Raising Funds for Schools in Rural Areas. The Education Surcharge rate is 3%, calculated on the basis of consumption tax, value-added tax and business tax. Under the Circular Concerning Temporary Exemption from Municipal Maintenance Tax and Education Surcharge For Enterprises with Foreign Investment and Foreign Enterprises issued by the State Administration of Taxation in February 1994 and the Supplementary Circular Concerning Imposition of Education Surcharge issued by the State Council in October 1994, the education surcharge is not applicable to foreign invested enterprises for the time being.

Pursuant to the aforesaid Unification of Application of Municipal Maintenance Tax and Education Surcharge by Domestic and Foreign Enterprises and Individuals 《關於統一內外資企業和個人城市維護建設稅和教育費附加制度的通知》, from December 1, 2010, an education surcharge is applicable to both foreign-invested enterprises, foreign enterprises and foreign individuals, as well as domestic enterprises and individuals.

Pursuant to the aforesaid Notice on Relevant Issues of Imposition of Municipal Maintenance and Education Surcharge on Foreign-invested Enterprises 《關於對外資企業徵收城市維護建設稅和教育費附加有關問題的通知》, foreign-invested enterprises must pay an education surcharge on any value-added tax, consumption tax and business tax incurred on or after December 1, 2010. However, foreign-invested enterprises will be exempted from paying an education surcharge on any value-added tax, consumption tax and business tax incurred before December 1, 2010.

Cayman Islands Taxation

The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax. The Cayman Islands are not party to any double taxation treaties that are applicable to any payments made by or to the Company.

The Company has been incorporated under the laws of the Cayman Islands as an exempted company with limited liability and, as such, has obtained an undertaking from the Governor in Cabinet of the Cayman Islands as to tax concessions under the Tax Concessions Law (1999 Revision). In accordance with the provision of section 6 of The Tax Concessions Law (1999 Revision), the Governor in Cabinet undertakes with China Evergrande Group:

- That no law which is hereafter enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and

Directors

Our board of directors consists of nine directors, three of whom are independent non-executive directors. The powers and duties of our board include:

- convening shareholders' meetings and reporting the board's work at the shareholders' meetings;
- implementing the resolutions passed at the shareholders' meetings;
- determining our business plans and investment plans;
- formulating our annual budget and final accounts;
- formulating our proposals for profit distributions and for the increase or reduction of our share capital; and
- exercising other powers, functions and duties as conferred by our memorandum and articles of association.

We have entered into service contracts with each of our executive directors and independent non-executive directors.

We operate our business in a centralized manner. Our corporate headquarters maintain overall control in management and operations of all our subsidiaries. The directors of our various project companies are appointed by our corporate headquarters primarily on the basis of their business expertise, management skills and local knowledge and for the purpose of complying with the various local PRC administrative requirements. These project company directors have limited powers and are required to report to and seek approvals from our headquarters on matters of significance. Interest

The principal amounts outstanding under the project loans generally bear interest at floating rates calculated by reference to the relevant bank's benchmark interest rate per annum. Floating interest rates generally are subject to review by the lending banks annually. Interest payments are payable either monthly or quarterly and must be made on each payment date as provided in the particular loan agreement. As of December 31, 2016, the weighted average interest rate on the aggregate outstanding amount of our project loans was 7.73% per annum.

Covenants

Under these project loans, many of our subsidiary borrowers have agreed, among other things, not to take the following actions without first obtaining the relevant lenders' prior consent:

- create encumbrances on any part of their property or assets or deal with their assets in a way that may adversely affect their ability to repay their loans;
- grant guarantees to any third parties that may adversely affect their ability to repay their loans;
- make any major changes to their corporate structures, such as entering into joint ventures, mergers and acquisitions and reorganizations;
- alter the nature or scope of their business operations in any material respect;
- incur additional debts that may adversely affect the ability to repay loans; and
- transfer part or all of their liabilities under the loans to a third party.

Events of Default

The project loans contain certain customary events of default, including insolvency and breaches of the terms of the loan agreements. The banks are entitled to terminate their respective agreements and/or demand immediate repayment of the loans and any accrued interest upon the occurrence of an event of default.

Guarantee and Security

Certain of our PRC subsidiaries and our Company have entered into guarantee agreements with the PRC financial institutions in connection with some of the project loans pursuant to which these subsidiaries and our Company have guaranteed all liabilities of the subsidiary borrowers under these project loans. Under certain guarantee agreements, we must obtain the bank's approval before such guarantors can engage in debt financing and equity financing through direct financing markets, and any selling, gifting, leasing, transferring, mortgaging, pledging and other methods of disposal of part or all of its material assets. Further, as of December 31, 2016, RMB188,762 million (US\$27,191 million) of the project loans were secured by land use rights, properties and/or equity interests accounts receivable, cash and deposit certificate held by the subsidiary borrowers and/or our other PRC subsidiaries.

Dividend Restrictions

Pursuant to the project loans with certain PRC financial institutions, some of our PRC subsidiaries also agreed not to distribute any dividend, including, but not limited to:

- before the principal amount of and accrued interest on the relevant project loan have been fully paid;
- if the distribution is more than 30% of after-tax net profit of the current year or more than 20% of all the undistributed profits; or
- if the borrower's after-tax profit is nil or negative.

Onshore Perpetual Capital Instruments

Certain of our wholly owned subsidiaries entered into perpetual loan agreements, pursuant to which they issued perpetual capital instruments, or the Onshore Perpetual Capital Instruments. The Onshore Perpetual Capital Instruments are considered as “equity” for our accounting purposes. As of December 31, 2016, the aggregate outstanding amount of Onshore Perpetual Capital Instruments totaled RMB112,944 million (US\$16,267 million). We have also issued offshore perpetual securities. See “— Offshore Financing — Offshore Perpetual Capital Instruments.”

Guarantee

The Onshore Perpetual Capital Instruments have varying credit support structures and require (i) a guarantee by one of our PRC subsidiaries and/or (ii) an indemnity by the Company in the event the relevant borrowing subsidiary fails to perform its obligations. Under most of the agreements, our PRC subsidiaries have provided such guarantees. Each of the guarantors guarantees the due and punctual payment of the principal, the distributions on, and all other amounts payable under the perpetual loan agreements.

Collateral

In order to secure the obligations under the perpetual loan agreements, the PRC subsidiaries pledged their shares and/or land use rights for the benefit of the Onshore Perpetual Capital Instrument holders. The security interest over the collateral will be released after all payments under the Perpetual Capital Instruments have been paid in full.

Distribution

The Perpetual Capital Instruments provide for annual distributions. Most of them initially bear an average distribution rate ranging from between 7.00% to 14.00% per annum for the first two years, with a step-up mechanism in the third, fourth and fifth year to a distribution rate of between 10.00% and 16.00% per annum pursuant to varying schedules. We may elect to defer our distributions if we do not pay dividends on the relevant PRC subsidiary's capital stock for that year, subject to a premium. Such deferral will not constitute an event of default. The distributions on the Onshore Perpetual Capital Instruments are not accounted for as interest expenses under HKFRS and we therefore do not include such distributions when calculating the Fixed Charge Coverage Ratio under our bank facilities and senior notes, including the Notes. In addition, because the Onshore Perpetual Capital Instruments are not Capital Stock, we do not treat distributions on the Onshore Perpetual Capital Instruments as Restricted Payments under our senior notes, including the Notes.

Covenants

Subject to certain conditions and exceptions, the loan agreements for the Onshore Perpetual Capital Instruments contain certain covenants, restricting us and each of the related restricted subsidiaries from, among other things:

- filing for bankruptcy, dissolution, insolvency or business certificate deregistration;
- restructuring or reorganizing;
- changing our controlling shareholders;
- selling all or part of the shares of the subsidiaries to parties other than the Company and connected persons;
- creating liens; and
- changing the shareholding structure other than transferring shares to the Company and connected persons.

Events of default

The perpetual loan agreements contain certain customary events of default for perpetual debt instruments, including failure to make payments for principal of, and distributions on, the Onshore Perpetual Capital Instruments when due and payable. If our subsidiaries fail to make distributions when due and payable, the Onshore Perpetual Capital Instrument holders may require our subsidiaries to start insolvency procedures within 30 days of the original distribution date.

Maturity and redemption

The Onshore Perpetual Capital Instruments do not have a maturity date and do not have any mandatory redemption options. If the issuing subsidiaries commence an insolvency proceeding, they must redeem the instruments and repay the principal and all unpaid distributions.

Trust Financing Agreements

From time to time, we may enter into financing arrangements with trust companies pursuant to which we receive financing from trust companies in the PRC. Upon the receipt of the financed amount from a trust company, we may transfer the title to less than 50% of the shares in one of our PRC subsidiaries and pledge the remaining shares of such subsidiary. Alternatively, we may pledge 100% of the shares of such subsidiary without transferring title to any such shares. These trust financing arrangements are typically guaranteed by the Company and/or certain PRC subsidiaries and/or are mortgaged by land use rights and/or buildings and have a term of 1–2 years, at the end of which, we will repay the financed amount. Upon such repayment, the trust company will transfer back to us the title to all of the shares of the relevant subsidiary. We typically have an option for early repayment of the financed amount after a specified period of time. These financing agreements contain customary events of default, including non-payment of principal or interest and breaches of the terms of the agreement. Certain trust financing agreements contain provision of dividend restriction. If an event of default has occurred, the trust company may, with prior notice, exercise its rights to realize the security held under the share pledge and/or the mortgage and demand payment from our Company or our PRC subsidiaries as guarantor of the financed amount. As of December 31, 2016, the aggregate outstanding amount (excluding interest) under these financing arrangements totaled approximately RMB207,911 million (US\$29,945 million).

Subsequent to December 31, 2016, we entered into additional trust financing agreements in the ordinary course of business to finance our operations. The major trust financing arrangements entered into since December 31, 2016 include agreements for outstanding principal amounts of RMB19,014 million, RMB11,648 million, RMB8,187 million, RMB7,451 million, RMB5,095 million, RMB4,976 million and RMB3,280 million with various trust companies.

Offshore Loan Facility Agreements

We have entered into offshore loan facility agreements with various relationship and international banks and financial institutions. As of December 31, 2016, the aggregate outstanding amount under our offshore loan facility agreements totaled approximately RMB62,525 million (US\$9,005 million). Offshore Perpetual Capital Instruments

On December 29, 2015, we issued perpetual securities, or the Offshore Perpetual Capital Instruments, with an aggregate principal amount of US\$1.5 billion and a distribution rate of 9.0% per annum. The Offshore Perpetual Capital Instruments are considered as “equity” for our accounting purposes.

Distribution

The Offshore Perpetual Capital Instruments provide for biannual distributions at a distribution rate of 9.0% per annum. We may elect to defer our distributions in accordance with the terms of the Offshore Perpetual Capital Instruments, and such deferral will not constitute an event of default. The distributions on the Offshore Perpetual Capital Instruments are not accounted for as interest expenses under HKFRS and we therefore do not include such distributions when calculating the Fixed Charge Coverage Ratio under our bank facilities and senior notes, including the Notes. In addition, because the Offshore Perpetual Capital Instruments are not Capital Stock, we do not treat distributions on the Offshore Perpetual Capital Instruments as Restricted Payments under our senior notes, including the Notes.

Maturity and Redemption

The Offshore Perpetual Capital Instruments have no fixed maturity or redemption date. We may, at our option, redeem such securities in whole or in part by giving no less than 15 and no more than 30 days of notice in accordance with the terms of such securities.

Intercreditor Agreement

See the sections entitled “Description of 2021 Notes — Security — Intercreditor Agreement,” “Description of 2023 Notes — Security — Intercreditor Agreement” and “Description of 2025 Notes — Security — Intercreditor Agreement.”

DESCRIPTION OF 2021 NOTES

For purposes of this “Description of 2021 Notes” the term “Company” refers only to China Evergrande Group (formerly known as Evergrande Real Estate Group Limited), and any successor obligor on the Notes, and not to any of its subsidiaries and the term “Notes” refers to the 2021 Notes issued by the Company. Each subsidiary of the Company which guarantees the Notes is referred to as a “Subsidiary Guarantor” and each such guarantee is referred to as a “Subsidiary Guarantee.” Each subsidiary of the Company that in the future provides a “JV Subsidiary Guarantee” (as defined herein) is referred to as a “JV Subsidiary Guarantor”.

The Notes are to be issued under an indenture (the “Indenture”), to be dated as of the Original Issue Date, among the Company, the Subsidiary Guarantors, as guarantors, and Citicorp International Limited, as trustee (the “Trustee”). The Notes will be issued under the same Indenture and form a single series with the corresponding series of Exchange Notes.

The following is a summary of certain provisions of the Indenture, the Notes, the Subsidiary Guarantees, the Intercreditor Agreement and the JV Subsidiary Guarantees. This summary does not purport to be complete and is qualified in its entirety by reference to all of the provisions of the Indenture, the Notes, the Subsidiary Guarantees, the Intercreditor Agreement and the JV Subsidiary Guarantees. It does not restate those agreements in their entirety. Whenever particular sections or defined terms of the Indenture not otherwise defined herein are referred to, such sections or defined terms are incorporated herein by reference. Copies of the Indenture will be available on or after the Original Issue Date at the corporate trust office of the Trustee at 39/F, Champion Tower, 3 Garden Road, Central, Hong Kong.

The Notes are:

- guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) on a senior basis, subject to the limitations described below under the section entitled “— The Subsidiary Guarantees and the JV Subsidiary Guarantees” and in the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral;”

- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

In addition, on the Original Issue Date, subject to the limitations described in the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral,” the Notes will be secured by a pledge of the Collateral as described below under the section entitled “— Security” and will:

- be entitled to the benefit of a lien on the Collateral, to be shared on a *pari passu* basis with holders of the Existing Pari Passu Secured Indebtedness and any other creditors with respect to the Permitted Pari Passu Secured Indebtedness (or their representatives or agents), subject to any other Permitted Liens and the Intercreditor Agreement and to releases and discharges as permitted under the Indenture; and
- rank effectively senior in right of payment to unsecured obligations of the Company and the Subsidiary Guarantor Pledgors with respect to the value of the Collateral pledged by the Company and the Subsidiary Guarantor Pledgors securing the Notes (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The Company will initially issue US\$ in aggregate principal amount of the Notes, which will mature on , 2021 unless earlier redeemed pursuant to the terms thereof and the Indenture. The Indenture allows additional Notes to be issued from time to time (the “Additional Notes”), subject to certain limitations described under the section entitled “— Further Issues.” Unless the context requires otherwise, references to the “Notes” for all purposes of the Indenture and this “Description of 2021 Notes” include any Additional Notes that are actually issued. The Notes will bear interest at % per annum from the Original Issue Date or from the most recent interest payment date to which interest has been paid or duly provided for, payable semiannually in arrears on and of each year (each an “Interest Payment Date”), commencing , 2017.

Interest on the Notes, when in the form of Global Notes, will be paid to the Holders of record at the close of business on or , and when in the form of Certificate Notes, on or , immediately preceding an Interest Payment Date (each, a “Record Date”), notwithstanding any transfer, exchange or cancellation thereof after a Record Date and prior to the immediately following Interest Payment Date. In any case in which the date of the payment of principal of, premium, if any, on, or interest on, the Notes is not a Business Day in the relevant place of payment or in the place of business of the Trustee then payment of such principal, premium or interest need not be made on such date but may be made on the next succeeding Business Day. Any payment made on such Business Day shall have the same force and effect as if made on the date on which such payment is due, and no interest on the Notes shall accrue for the period after such due date. Interest on the Notes will be calculated on the basis of a 360-day year comprised of twelve 30-day months.

The Notes will be issued only in fully registered form, without coupons, in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof. No service charge will be made for any registration of transfer or exchange of the Notes, but the Company may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

All payments on the Notes will be made in U.S. dollars by the Company and the Company will maintain an office or agency (which initially will be the office of the Paying Agent currently located at Citibank, N.A., London Branch, c/o Citibank, N.A., Dublin Branch, Ground Floor, One North Wall Quay, Dublin 1, Republic of Ireland) where the Notes may be surrendered for registration of transfer or exchange or for presentation for payment or repurchase. Notwithstanding the immediately preceding sentence, at the option of the Company with the consent of the Paying Agent (such consent not to be unreasonably withheld) payment of interest may instead be made by check mailed (at the expense of the Company) to the address of the Holders as such address appears in the Note register. Interest payable on the Notes held through Euroclear or Clearstream will be available to Euroclear or Clearstream participants (as defined herein) on the Business Day following payment thereof. Notices and demands to

or upon the Company in respect of the Notes and the Indenture may be served at the office or agency of the Company maintained for that purpose (which initially will be the corporate trust office of the Trustee, currently located at 39/F, Champion Tower, 3 Garden Road, Central, Hong Kong).

- the Company and its consolidated subsidiaries had total consolidated borrowings of approximately RMB535,070 million (US\$77,066 million); and
- the Non-Guarantor Subsidiaries and Unrestricted Subsidiaries had total borrowings of approximately RMB450,433 billion (US\$64,876 billion).

In addition, as of December 31, 2016, the Non-Guarantor Subsidiaries and Unrestricted Subsidiaries had capital commitments of approximately RMB223,779 million (US\$32,231 million) and contingent liabilities arising from guarantees of approximately RMB257,448 million (US\$37,080 million).

The Subsidiary Guarantee of each Subsidiary Guarantor:

- is a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to the secured obligations of such Subsidiary Guarantor, to the extent of the value of the assets (other than the Collateral) serving as security therefor;
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee; and
- ranks at least *pari passu* with the Indebtedness of such Subsidiary Guarantor under its subsidiary guarantee with respect to the Existing Pari Passu Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law).

If any is provided, the JV Subsidiary Guarantee of each JV Subsidiary Guarantor:

- will be a general obligation of such JV Subsidiary Guarantor;
- will be enforceable only up to the JV Entitlement Amount;
- will be effectively subordinated to the secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- will be limited to the JV Entitlement Amount, and will be senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee; and
- will be limited to the JV Entitlement Amount, and will rank at least *pari passu* with the Indebtedness of such JV Subsidiary Guarantor under its JV Subsidiary Guarantee with respect to the Existing Pari Passu Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law).

The Company will cause (x) each of its future Restricted Subsidiaries (other than Persons organized under the laws of the PRC, Exempted Subsidiaries or Listed Subsidiaries), as soon as practicable after it becomes a Restricted Subsidiary and (y) each of its Exempted Subsidiaries and Listed Subsidiaries that remains as a Restricted Subsidiary, as soon as practicable after it ceases to be an

Exempted Subsidiary or a Listed Subsidiary, as the case may be (each such Person in clause (x) or (y), a “Potential Subsidiary Guarantor”), to execute and deliver to the Trustee a supplemental indenture to the Indenture pursuant to which such Restricted Subsidiary will guarantee the payment of the Notes as a Subsidiary Guarantor or a JV Subsidiary Guarantor. Notwithstanding the foregoing sentence, the Company may elect to have any Restricted Subsidiary organized under laws outside the PRC not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at the time such entity becomes a Potential Subsidiary Guarantor (Restricted Subsidiaries (other than the PRC Restricted Subsidiaries, the Exempted Subsidiaries, the Listed Subsidiaries and the Other Non-Guarantor Subsidiaries) that do not provide Subsidiary Guarantees or JV Subsidiary Guarantees in accordance with the Indenture, the “New Non-Guarantor Subsidiaries”), *provided* that, after taking into account the consolidated assets of such Restricted Subsidiary, the Consolidated Assets of all Restricted Subsidiaries organized under laws outside the PRC (other than Exempted Subsidiaries and Listed Subsidiaries) that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors do not account for more than 20% of the Relevant Total Assets of the Company.

Each Restricted Subsidiary that guarantees the Notes after the Original Issue Date other than a JV Subsidiary Guarantor is referred to as a “Future Subsidiary Guarantor” and upon execution of the applicable supplemental indenture to the Indenture will be a “Subsidiary Guarantor.”

In addition, subject to the limitations described in the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral,” the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor:

- will be entitled to a security interest in the Collateral pledged by such Subsidiary Guarantor Pledgor, as described below under the section entitled “— Security,” to be shared on a *pari passu* basis with holders of the Existing Pari Passu Secured Indebtedness and holders of the Permitted Pari Passu Secured Indebtedness (or their representatives or agents), subject to any other Permitted Liens and the Intercreditor Agreement; and
- will rank effectively senior in right of payment to the unsecured obligations of such Subsidiary Guarantor Pledgor with respect to the value of the Collateral securing such Subsidiary Guarantee (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The JV Subsidiary Guarantee of each JV Subsidiary Guarantor will not be secured.

Under the Indenture, as supplemented from time to time, each of the Subsidiary Guarantors and JV Subsidiary Guarantors (if any) will jointly and severally guarantee the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes; *provided* that any JV Subsidiary Guarantee will be limited to the JV Entitlement Amount. The Subsidiary Guarantors and JV Subsidiary Guarantors will (1) agree that their respective obligations under the Subsidiary Guarantees and JV Subsidiary Guarantees, as the case may be, will be enforceable irrespective of any invalidity, irregularity or unenforceability of the Notes or the Indenture and (2) waive their right to require the Trustee to pursue or exhaust its legal or equitable remedies against the Company prior to exercising its rights under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be. Moreover, if at any time any amount paid under a Note or the Indenture is rescinded or must otherwise be restored, the rights of the Holders under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, will be reinstated with respect to such payment as though such payment had not been made. All payments under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, are required to be made in U.S. dollars.

Under the Indenture, as supplemented from time to time,

- each Subsidiary Guarantee will be limited to an amount not to exceed the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally; and
- each JV Subsidiary Guarantee will be limited to an amount which is the lower of (i) the JV Entitlement Amount and (ii) an amount not to exceed the maximum amount that can be guaranteed by the applicable JV Subsidiary Guarantor without rendering the JV Subsidiary Guarantee, as it relates to such JV Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

If a Subsidiary Guarantee or JV Subsidiary Guarantee were to be rendered voidable, it could be subordinated by a court to all other Indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, and, depending on the amount of such Indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee or a JV Subsidiary Guarantor's liability on its JV Subsidiary Guarantee, as the case may be, could in each case be reduced to zero. The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee and the enforceability of the Collateral granted in respect of the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor may be limited, or possibly invalid, under applicable laws. Similarly, the obligations of each JV Subsidiary Guarantor under its JV Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. See the section entitled "Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees."

Release of the Subsidiary Guarantees and JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor and a JV Subsidiary Guarantee given by a JV Subsidiary Guarantor may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon a defeasance as described under the section entitled "— Defeasance — Defeasance and Discharge;"
- upon the designation by the Company of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, as an Unrestricted Subsidiary in compliance with the terms of the Indenture;
- upon the sale, disposition or merger of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, in compliance with the terms of the Indenture (including the covenants under the sections entitled "— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries," "— Certain Covenants — Limitation on Asset Sales" and "— Consolidation, Merger and Sale of Assets") resulting in such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, no longer being a Restricted Subsidiary, so long as (1) such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, is simultaneously released from its obligations in respect of any of the Company's other Indebtedness or any Indebtedness of any other Restricted Subsidiary and (2) the proceeds from such sale, disposition or merger are used for the purposes permitted or required by the Indenture;

- in the case of a Subsidiary Guarantee, upon its replacement with a JV Subsidiary Guarantee;
- in the case of a Subsidiary Guarantor, upon its becoming a New Non-Guarantor Subsidiary in compliance with the terms of the Indenture; or
- when such Subsidiary Guarantor or JV Subsidiary Guarantor no longer Guarantees, or the Guarantee provided by such Subsidiary Guarantor or JV Subsidiary Guarantor is concurrently released with respect to, any Existing Pari Passu Secured Indebtedness and/or any Permitted Pari Passu Secured Indebtedness in compliance with the terms of the Indenture, provided that each of the Trustee and the Collateral Agent shall comply with a release request if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

In the case of a Subsidiary Guarantor with respect to which the Company or any of its Restricted Subsidiaries is proposing to sell, whether through the sale of existing Capital Stock or the issuance of new Capital Stock, no less than 20% of the Capital Stock of such Subsidiary Guarantor, the Company may concurrently with the consummation of such sale or issuance of Capital Stock, (a) request the Trustee to release the Subsidiary Guarantee provided by such Subsidiary Guarantor and the Subsidiary Guarantee provided by each of its Restricted Subsidiaries organized under laws outside the PRC, and upon such release such Subsidiary Guarantor and its Restricted Subsidiaries organized under laws outside the PRC will become New Non-Guarantor Subsidiaries (such that each New Non-Guarantor Subsidiary will no longer Guarantee the Notes) and (b) request the Collateral Agent to (i) discharge the pledge of the Capital Stock granted by each such New Non-Guarantor Subsidiary and (ii) discharge the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the Capital Stock it owns in each such New Non-Guarantor Subsidiary (in each case under (a) and (b), without any requirement to seek the consent or approval of the Holders of the Notes), *provided* that, after the release of such Subsidiary Guarantees, the Consolidated Assets of all Restricted Subsidiaries organized under laws outside the PRC (other than the Exempted Subsidiaries and Listed Subsidiaries) that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors (including the New Non-Guarantor Subsidiaries) do not account for more than 20% of the Relevant Total Assets. A Subsidiary Guarantee of a Subsidiary Guarantor may only be released pursuant to this paragraph if, as of the date of such proposed release, no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (x) prohibiting the Company or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee or (y) requiring the Company or such Subsidiary Guarantor to deliver or keep in place a guarantee of other Indebtedness of the Company by such Subsidiary Guarantor.

Each of the Trustee and the Collateral Agent shall comply with a request referred to in (a) or (b) above if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

Replacement of Subsidiary Guarantees with JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor may be released following the sale of existing Capital Stock or the issuance of new Capital Stock by the Company or any of its Restricted Subsidiaries in (a) such Subsidiary Guarantor or (b) any other Subsidiary Guarantor that, directly or indirectly, owns a majority of the Capital Stock of such Subsidiary Guarantor, in each case where such sale or issuance is for no less than 20% of the issued Capital Stock of the relevant Subsidiary Guarantor, *provided* that the following conditions are satisfied or complied with:

- concurrently with the release of such Subsidiary Guarantee, the Company and such JV Subsidiary Guarantor have delivered to the Trustee and, in the case of the Security Documents, also to the Collateral Agent:
 - (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC, an Exempted Subsidiary or a Listed Subsidiary and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor becomes a party to the Indenture as a JV Subsidiary Guarantor, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) a duly executed Security Document that pledges in favor of the Collateral Agent the Capital Stock of such JV Subsidiary Guarantor held by the Company or any Subsidiary Guarantor (subject to releases and discharges as permitted under the Indenture), but not the Capital Stock of the direct or indirect Subsidiaries of such JV Subsidiary Guarantor;
 - (iii) an Officers' Certificate certifying a copy of a Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
 - (iv) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is valid, binding and enforceable against the JV Subsidiary Guarantor providing the JV Subsidiary Guarantee (subject to customary qualifications and assumptions).
- such sale or issuance of Capital Stock is made to an Independent Third Party at a consideration that is not less than the appraised value of such Capital Stock by an independent appraisal firm of recognized international standing appointed by the Company;
- all capital contributions (by way of transfer of cash or other property or any payment for property or services for the use of others or otherwise) to be made into such JV Subsidiary Guarantor from the date of the sale of existing Capital Stock or issuance of new Capital Stock as referred to above, shall be made directly or by contribution of assets or services having an equivalent Fair Market Value by (i) the Company and its Restricted Subsidiaries and (ii) such Independent Third Party that purchased or subscribed for Capital Stock in the JV Subsidiary Guarantor in proportion to their respective direct or indirect ownership percentages of the Capital Stock of such JV Subsidiary Guarantor; and
- as of the date of such proposed release, no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (a) prohibiting the Company or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee, (b) prohibiting the Company or any of the Restricted Subsidiaries from providing such JV

Subsidiary Guarantee or (c) requiring the Company or any of the Restricted Subsidiaries to deliver or keep in force a replacement guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee.

Notwithstanding the foregoing paragraph, any such sale or issuance of the Capital Stock of the relevant Subsidiary Guarantor (including where such sale results in the relevant Subsidiary Guarantor ceasing to be a Restricted Subsidiary) will need to comply with the other covenants set forth in the Indenture, including, without limitation, the “Limitation on Asset Sales” and “Limitation on Restricted Payments” covenants.

Any Net Cash Proceeds from the sale of such Capital Stock shall be applied by the Company (or any Restricted Subsidiary) in accordance with the “Limitation on Asset Sales” covenant.

As of the date of the Indenture, all of the Company’s Subsidiaries will be “Restricted Subsidiaries” other than City Expert (Ningbo) Property Co., Ltd. (城博(寧波)置業有限公司), City Expert Limited (城博有限公司), Exalt Boom Investments Limited (晉昌投資有限公司), Exalt Prosper Limited (上盛有限公司), Fortex Development Limited (嘉達發展有限公司), Foshan Nanhai Juncheng Property Development Co., Ltd. (佛山市南海俊誠房地產開發有限公司), Global City Development Limited, Ideal Market Holdings Limited (旭智控股有限公司), Key Alliance Investments Limited (建聯投資有限公司), Mass Thrive Holding Limited (群盛控股有限公司), Mass Thrive Limited (群盛有限公司), Ningbo Sanli Jiada Property Co., Ltd. (寧波三立嘉達置業有限公司), Ningbo Sanli Xianghe Property Co., Ltd. (寧波三立祥和置業有限公司), Ningbo Sanli Yongheng Property Co., Ltd. (寧波三立甬恒置業有限公司), Ningbo Yucheng Property Co., Ltd. (寧波御誠置業有限公司), Pioneer Time Investment Limited, Prosper Trade Investments Limited (興業投資有限公司), Ray Shine Group Limited (利輝集團有限公司) and Wuhan Donghu Hengda Real Estate Development Co., Ltd. (武漢東湖恒大房地產開發有限公司) and any Subsidiary of these Subsidiaries. However, under the circumstances described below under the section entitled “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries,” the Company will be permitted to designate certain of its Subsidiaries as “Unrestricted Subsidiaries.” The Company’s Unrestricted Subsidiaries will generally not be subject to the restrictive covenants in the Indenture. The Company’s Unrestricted Subsidiaries will not guarantee the Notes.

Security

The Company has agreed, for the benefit of the Holders, to pledge, or cause the initial Subsidiary Guarantor Pledgors to pledge, as the case may be, the Capital Stock owned directly by the Company or the initial Subsidiary Guarantor Pledgors of each initial Subsidiary Guarantor (the “Collateral”), or extend the benefit of the security interest over the Collateral, subject to any Permitted Lien and the Intercreditor Agreement, on the Original Issue Date in order to secure the obligations of the Company under the Notes and the Indenture and of such initial Subsidiary Guarantor Pledgors under their respective Subsidiary Guarantees.

The Company and the initial Subsidiary Guarantor Pledgors pledged the Collateral on January 19, 2011, June 10, 2011, September 7, 2011, October 15, 2013, May 27, 2016 and September 29, 2016 (subject to Permitted Liens and the Intercreditor Agreement) in order to secure certain obligations of the Company and such initial Subsidiary Guarantor Pledgors, including the Existing Notes and the related subsidiary guarantees (the “Share Charges”).

The trustee for each series of the Existing Notes and the Collateral Agent entered into the Intercreditor Agreement dated January 19, 2011, as supplemented from time to time. See “— Intercreditor Agreement.”

None of the Capital Stock of (i) the Non-Guarantor Subsidiaries (and Subsidiaries thereof) (for so long as they continue to be Non-Guarantor Subsidiaries) or (ii) any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary will be pledged on the Original Issue Date or at any time in the future. In addition, none of the Capital Stock of any future Non-Guarantor Subsidiary (and Subsidiaries thereof) and any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary will be pledged at any time in the future. If any JV Subsidiary Guarantor is established, the Capital Stock of such JV Subsidiary Guarantor owned directly by the Company or any Subsidiary Guarantor will be pledged to secure the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, as the case may be, in the manner described above. However, none of the JV Subsidiary Guarantors will provide a Security Document pledging the Capital Stock of its direct or indirect Subsidiaries as security in favor of the Collateral Agent (as defined below).

The Company has also agreed, for the benefit of the Holders, to pledge, or cause each Subsidiary Guarantor (other than a JV Subsidiary Guarantor, if any) to pledge, the Capital Stock owned directly by the Company or such Subsidiary Guarantor of any Person that (i) becomes a Restricted Subsidiary (other than any Non-Guarantor Subsidiary and its Subsidiaries and any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary) after the Original Issue Date, (ii) (in the case of an Exempted Subsidiary or a Listed Subsidiary that remains as a Restricted Subsidiary) has ceased to be either an Exempted Subsidiary or a Listed Subsidiary or (iii) (in the case of a Non-Guarantor Subsidiary that remains as a Restricted Subsidiary) has ceased to be a Non-Guarantor Subsidiary, as soon as reasonably practicable (but in any event within 30 days) after such Person has become a Restricted Subsidiary or has ceased to be an Exempted Subsidiary, a Listed Subsidiary or a Non-Guarantor Subsidiary, as applicable, to secure (subject to Permitted Liens and the Intercreditor Agreement) the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, in the manner described above.

Each Subsidiary Guarantor that pledges capital stock of a Restricted Subsidiary after the Original Issue Date is referred to as a “Future Subsidiary Guarantor Pledgor” and, upon giving such pledge, will be a “Subsidiary Guarantor Pledgor.”

The value of the Collateral securing the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness of the Subsidiary Guarantor Pledgors and the Permitted *Pari Passu* Secured Indebtedness (if any) is unlikely to be sufficient to satisfy the Company’s and each of the Subsidiary Guarantor Pledgors’ obligations under the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness of the subsidiary guarantor pledgors and the Permitted *Pari Passu* Secured Indebtedness, and the Collateral securing these obligations may be reduced or diluted under certain circumstances, including the issuance of Additional Notes and other Permitted *Pari Passu* Secured Indebtedness and the disposition of assets comprising the Collateral, subject to the terms of the Indenture. See the sections entitled “— Release of Security” and “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The value of the Collateral will likely not be sufficient to satisfy our obligations under the Notes and other *pari passu* secured indebtedness.”

No appraisals of the Collateral have been prepared in connection with this offering of the Notes. There can be no assurance that the proceeds of any sale of the Collateral, in whole or in part, pursuant to the Indenture and the Security Documents following an Event of Default would be sufficient to satisfy amounts due on the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness or the Permitted *Pari Passu* Secured Indebtedness. By its nature, some or all of the Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Collateral would be sold in a timely manner or at all.

So long as no Payment Default has occurred and is continuing, and subject to the terms of the Security Documents and the Indenture, the Company and the Subsidiary Guarantor Pledgors, as the case may be, will be entitled to exercise any and all voting rights and to receive, retain and use any and all cash dividends, stock dividends, liquidating dividends, non-cash dividends, shares or stock resulting from stock splits or reclassifications, rights issues, warrants, options and other distributions (whether similar or dissimilar to the foregoing) in respect of Capital Stock constituting Collateral.

Permitted Pari Passu Secured Indebtedness

On or after the Original Issue Date, the Company and each Subsidiary Guarantor Pledgor may create Liens on the Collateral *pari passu* with the Lien for the benefit of the Holders to secure Indebtedness of the Company (including Additional Notes) and any *Pari Passu* Subsidiary Guarantee of a Subsidiary Guarantor Pledgor (such Indebtedness of the Company and any such *Pari Passu* Subsidiary Guarantee, “Permitted *Pari Passu* Secured Indebtedness”); *provided* that (1) the Company or such

Subsidiary Guarantor Pledgor was permitted to Incur such Indebtedness under the covenant under the section entitled “— Certain Covenants — Limitation on Indebtedness and Preferred Stock,” (2) the holders of such Indebtedness (or their representative or agent) become party to the Intercreditor Agreement referred to below; and (3) the Company and such Subsidiary Guarantor Pledgor deliver to the Trustee and the Collateral Agent an Opinion of Counsel and an Officers’ Certificate with respect to corporate and collateral matters in connection with the Security Documents, stating that either (x) all necessary actions have been taken with respect to the recording, registering and filing of the Security Documents, financing statements or other instruments necessary to make effective the Liens intended to be created by the Security Documents, and reciting the details of such action or (y) no such action is necessary to make such Lien effective. The Trustee and the Collateral Agent will be permitted and authorized, without the consent of any Holder, to enter into any amendment to the Security Documents, the Intercreditor Agreement or the Indenture and take any other action necessary to permit the creation and registration of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with this paragraph (including, without limitation, the appointment of any collateral agent under the Intercreditor Agreement referred to below to hold the Collateral on behalf of the Holders and the holders of Permitted Pari Passu Secured Indebtedness (the “Collateral Agent”).

Except for certain Permitted Liens and the Permitted Pari Passu Secured Indebtedness, the Company and its Restricted Subsidiaries will not be permitted to issue or Incur any other Indebtedness secured by all or any portion of the Collateral without the consent of each Holder of the Notes then outstanding.

Intercreditor Agreement

On January 19, 2011, the Company entered into an intercreditor agreement (as amended, waived, restated, replaced and/or supplemented from time to time, the “Intercreditor Agreement”) with, among others, the Subsidiary Guarantor Pledgors and the Collateral Agent, as acceded to by holders (or representatives, agents or trustees thereof) of Existing Pari Passu Secured Indebtedness.

On the Original Issue Date, the Trustee will accede to the Intercreditor Agreement, whereupon the Holders of the Notes will share equal priority and *pro rata* entitlement in and to the Collateral with the holders of any Existing Pari Passu Secured Indebtedness remaining outstanding after the Original Issue Date and any other creditors with respect to Permitted Pari Passu Secured Indebtedness. Immediately prior to the Original Issue Date, the Existing Pari Passu Secured Indebtedness amounted to an aggregate principal amount of US\$5.7 billion.

Prior to or concurrently with the first Incurrence of any Permitted Pari Passu Secured Indebtedness (other than Additional Notes) after the Original Issue Date, the Intercreditor Agreement may be amended, without requiring instruction from the Holders, to include the holders of such Permitted Pari Passu Secured Indebtedness (or their representative or agent) as additional secured parties to the agreement.

Enforcement of Security

The benefit of the Lien over the Collateral granted to the Collateral Agent will be extended to secure the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, subject to any Permitted Lien and the Intercreditor Agreement. Subject to the Intercreditor Agreement, the Collateral Agent (for the benefit the Holders), will hold such Liens and security interests in the Collateral granted pursuant to the Security Documents with sole authority as directed by the written instruction of the Holders (through the Trustee) to exercise remedies under the Security Documents. The Trustee has agreed to act as secured party on behalf of the Holders under the applicable Security Documents, to follow the instructions provided to it under the Indenture and to carry out certain other duties.

The Indenture and/or the Security Documents principally provide that, at any time while the Notes are outstanding, subject to the Intercreditor Agreement, the Collateral Agent has the exclusive right to manage, perform and enforce the terms of the Security Documents relating to the Collateral and to exercise and enforce all privileges, rights and remedies thereunder according to the direction of the secured parties thereto, including to take or retake control or possession of such Collateral and to hold, prepare for sale, process, lease, dispose of or liquidate such Collateral, including, without limitation, following the occurrence of an Event of Default under the Indenture. However, although the Trustee may instruct the Collateral Agent to foreclose the Collateral upon the occurrence of an Event of Default that is continuing, such instruction may be overruled by a contrary instruction to the Collateral Agent from holders of more than 50% of the indebtedness that is subject to the Intercreditor Agreement. See the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The value of the Collateral will likely not be sufficient to satisfy our obligations under the Notes and other *pari passu* secured indebtedness.”

The Intercreditor Agreement principally provides that, at any time while the Intercreditor Agreement is in force, the Collateral Agent has the exclusive right to manage, perform and enforce the terms of the Security Documents and the security documents for any Permitted *Pari Passu* Secured Indebtedness relating to the Collateral. See “—Intercreditor Agreement.”

All payments received and all amounts held by the Collateral Agent in respect of the Collateral under the Security Documents will be, subject to the Intercreditor Agreement, in the following order of priority:

first, to the Collateral Agent to the extent necessary to reimburse the Collateral Agent for any unpaid fees, costs and expenses (including expenses of any receiver appointed under any Security Document and reasonable expenses of its counsel) properly incurred in connection with its duties under the Intercreditor Agreement including without limitation, the collection, distribution or enforcement of such amounts held or realized or in connection with expenses properly incurred under the Intercreditor Agreement in enforcing all available remedies under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted *Pari Passu* Secured Indebtedness that is subject to the Intercreditor Agreement and preserving the Collateral and all indemnification payments for which the Collateral Agent is entitled to under the Security Documents;

second, to the extent not reimbursed under the above paragraph, to the trustee for each series of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for each Existing Bank Loan, the Trustee and, to the extent applicable, the holder of any Permitted *Pari Passu* Secured Indebtedness (in the case of a sole creditor of any series of Permitted *Pari Passu* Secured Indebtedness only) or the representative or agent of any holders of any series of Permitted *Pari Passu* Secured Indebtedness, to the extent necessary to reimburse the foregoing persons ratably for any unpaid fees, costs and expenses (including fees and expenses of any paying agents, transfer agents, registrars or other agents in connection therewith appointed in connection with the foregoing and reasonable fees and expenses of counsel) reasonably incurred under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted *Pari Passu* Secured Indebtedness (or any other document in connection with the foregoing that such paying agents, transfer agents, registrars or other agents are party to) in connection with the collection or distribution of such amounts held or realized or in connection with expenses incurred in enforcing all available remedies under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted *Pari Passu* Secured Indebtedness that is subject to the Intercreditor Agreement and preserving the Collateral and all indemnification payments for which the foregoing persons are entitled to under the Security Documents;

third, ratably to each of the trustee for each series of the Existing Notes for the benefit of the holders of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for the benefit of the lenders under each Existing Bank Loan, the Trustee for the benefit of the Holders and, to the extent applicable, to holders (or their representative or agent) of Permitted Pari Passu Secured Indebtedness, inclusive of any reasonable fees and expenses of each of the trustee for each series of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for each Existing Bank Loan, the Trustee and the holders (or their representative or agent) of Permitted Pari Passu Secured Indebtedness (to the extent not paid pursuant to the above second paragraph), and the principal, interest and premium thereon and for the benefit of the holders of each thereof in accordance with the terms of the relevant document governing the foregoing indebtedness; and

lastly, any surplus remaining after such payments will be paid to the Company (for itself and any Subsidiary Guarantor Pledgors) or to whomever may be lawfully entitled thereto.

The Collateral Agent may decline to foreclose on the Collateral or exercise remedies available if it does not receive indemnification and/or security to its satisfaction. In addition, the Collateral Agent's ability to foreclose on the Collateral may be subject to lack of perfection, the consent of third parties, prior Liens and practical problems associated with the realization of the Collateral Agent's Liens on the Collateral. Neither the Collateral Agent nor any of its officers, directors, employees, attorneys or agents will be responsible or liable for the existence, genuineness, value or protection of any Collateral securing the Notes, for the legality, enforceability, effectiveness or sufficiency of the Security Documents, for the creation, perfection, priority, sufficiency or protection of any of the Liens, for any defect or deficiency as to any such matters, or for any failure to demand, collect, foreclose or realize upon or otherwise enforce any of the Liens or Security Documents or any delay in doing so.

The Security Documents provide that the Company and the Subsidiary Guarantor Pledgors will indemnify the Collateral Agent for all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind imposed against the Collateral Agent arising out of the Security Documents except to the extent that any of the foregoing are finally judicially determined to have resulted from the gross negligence or willful misconduct of the Collateral Agent.

This section, “— Enforcement of Security,” shall be subject to any amendments to the Security Documents or the Indenture to permit the creation of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with the section entitled “— Permitted Pari Passu Secured Indebtedness” above.

Release of Security

The security created in respect of the Collateral granted under the Security Documents may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon defeasance and discharge of the Notes as provided below under the section entitled “— Defeasance — Defeasance and Discharge;”
- upon certain dispositions of the Collateral in compliance with the covenants under the sections entitled “— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries” or “— Certain Covenants — Limitation on Asset Sales” or in accordance with the provisions under the section entitled “— Consolidation, Merger and Sale of Assets;”
- with respect to security granted by a Subsidiary Guarantor Pledgor, upon the release of the Subsidiary Guarantee of such Subsidiary Guarantor Pledgor in accordance with the terms of the Indenture;

- upon execution of a JV Subsidiary Guarantee to replace a Subsidiary Guarantee, with respect to all pledges of Capital Stock previously granted by such Subsidiary Guarantor, now a JV Subsidiary Guarantor, in its direct and indirect Subsidiaries, and in accordance with the terms of the Indenture;
- upon a Subsidiary Guarantor becoming a New Non-Guarantor Subsidiary, with respect to the release of any pledge of Capital Stock previously granted by such Subsidiary Guarantor, now a New Non-Guarantor Subsidiary, and the release of the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the Capital Stock it owns in such New Non-Guarantor Subsidiary;
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the release of the Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, of such Subsidiary Guarantor or JV Subsidiary Guarantor, and in accordance with the terms of the Indenture;
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the designation by the Company of such Subsidiary Guarantor or JV Subsidiary Guarantor as an Unrestricted Subsidiary, and in accordance with the terms of the Indenture; or
- with respect to the Lien over the Collateral (or any portion thereof) pledged to secure the Notes, either upon (i) the repayment in full of all amounts owing by the Company or any Subsidiary Guarantors or JV Subsidiary Guarantors under the Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness or (ii) the prior or concurrent release of the Lien on the Collateral securing all Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness; *provided* that in each case, no Default has occurred and is continuing on such date and no Default would have occurred as a result of such release, and each of the Trustee and the Collateral Agent shall comply with a release request if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

Further Issues

Subject to the covenants described below, the Company may, from time to time, without notice to or the consent of the Holders, create and issue Additional Notes having the same terms and conditions as the Notes (including the benefit of the Subsidiary Guarantees and JV Subsidiary Guarantees (if any)) in all respects (or in all respects except for the issue date, issue price and the first payment of interest on them and, to the extent necessary, certain temporary securities law transfer restrictions) ("Additional Notes") so that such Additional Notes may be consolidated and form a single class with the previously outstanding Notes and vote together as one class on all matters with respect to the Notes; *provided* that the issuance of any such Additional Notes shall then be permitted under the "Limitation on Indebtedness and Preferred Stock" covenant described below and the other provisions of the Indenture.

Optional Redemption

At any time prior to _____, 2021, the Company may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to (but not including), the redemption date. Neither the Trustee nor the Paying Agent shall be responsible for calculating or verifying the Applicable Premium.

At any time and from time to time prior to _____, 2021, the Company may redeem up to 35% of the aggregate principal amount of the Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of _____ % of the principal amount of the Notes redeemed, plus accrued and unpaid interest, if any, to (but not including) the redemption date; *provided* that at least 65% of the aggregate principal amount of the Notes originally issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

The Company will give not less than 30 days' nor more than 60 days' notice of any redemption. If less than all of the Notes are to be redeemed at any time, the Notes will be selected for redemption as follows:

- (1) if the Notes are listed on any national securities exchange or are held through a clearing system, in compliance with the requirements of the principal national securities exchange on which the Notes are listed (if any) or the requirements of the clearing system; or
- (2) if the Notes are not listed on any national securities exchange, on a *pro rata* basis, by lot or by such method as the Trustee deems fair and appropriate unless otherwise required by law.

A Note of US\$200,000 in principal amount or less shall not be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. A new Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note. On and after the redemption date, interest will cease to accrue on Notes or portions of them called for redemption.

Repurchase of Notes Upon a Change of Control Triggering Event

Not later than 30 days following a Change of Control Triggering Event, the Company will make an Offer to Purchase all outstanding Notes (a "Change of Control Offer") at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to (but not including) the Offer to Purchase Payment Date.

The Company has agreed in the Indenture that it will timely repay all Indebtedness or obtain consents as necessary under, or terminate, agreements or instruments that would otherwise prohibit a Change of Control Offer required to be made pursuant to the Indenture. Notwithstanding this agreement of the Company, it is important to note that if the Company is unable to repay (or cause to be repaid) all of the Indebtedness, if any, that would prohibit repurchase of the Notes or is unable to obtain the requisite consents of the holders of such Indebtedness, or terminate any agreements or instruments that would otherwise prohibit a Change of Control Offer, it would continue to be prohibited from purchasing the Notes. In that case, the Company's failure to purchase tendered Notes would constitute an Event of Default under the Indenture.

Certain of the events constituting a Change of Control Triggering Event under the Notes will also constitute an event of default under certain debt instruments of the Company and its Subsidiaries. Future debt of the Company may also (1) prohibit the Company from purchasing Notes in the event of a Change of Control Triggering Event; (2) provide that a Change of Control Triggering Event is a default; or (3) require repurchase of such debt upon a Change of Control Triggering Event. Moreover, the

exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under other Indebtedness, even if the Change of Control Triggering Event itself does not, due to the financial effect of the purchase on the Company. The Company's ability to pay cash to the Holders following the occurrence of a Change of Control Triggering Event may be limited by the Company's and the Subsidiary Guarantors' then-existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See the section entitled "Risk Factors — Risks Relating to the Notes — We may not be able to repurchase the Notes and the Existing Notes upon a change of control triggering event." The phrase "all or substantially all," as used with respect to the assets of the Company in the definition of "Change of Control," will likely be interpreted under applicable law of the relevant jurisdictions and will be dependent upon particular facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of "all or substantially all" the assets of the Company has occurred.

Notwithstanding the above, the Company will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the same manner at the same time and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Except as described above with respect to a Change of Control Triggering Event, the Indenture does not contain provisions that permit the Holders to require that the Company purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

No Mandatory Redemption or Sinking Fund

There will be no mandatory redemption or sinking fund payments for the Notes.

Additional Amounts

All payments by or on behalf of the Company, a Surviving Person (as defined under "— Consolidation, Merger and Sale of Assets"), a Subsidiary Guarantor, a JV Subsidiary Guarantor or a Subsidiary Guarantor Pledgor of principal of, and premium (if any) and interest on, the Notes and any payments under the Subsidiary Guarantees or JV Subsidiary Guarantees (if any) and under the Security Documents will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or within any jurisdiction in which the Company, a Surviving Person or the applicable Subsidiary Guarantor or JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor is organized or resident for tax purposes (or any political subdivision or taxing authority thereof or therein) (each, as applicable, a "Relevant Taxing Jurisdiction") or any jurisdiction through which payments on the Notes or a Guarantee are made (or any political subdivision or taxing authority thereof or therein) (as applicable and together with the Relevant Taxing Jurisdictions, each, a "Relevant Jurisdiction"), unless such withholding or deduction is required by law or by regulation or governmental policy having the force of law. In the event that any such withholding or deduction is so required, the Company, a Surviving Person, the applicable Subsidiary Guarantor, JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor, as the case may be, will pay such additional amounts ("Additional Amounts") as will result in receipt by the Holder of each Note of such amounts as would have been received by such Holder had no such withholding or deduction been required, except that no Additional Amounts shall be payable:

- (1) for or on account of:
 - (a) any tax, duty, assessment or other governmental charge that would not have been imposed but for:

- (i) the existence of any present or former connection between the Holder or beneficial owner of such Note and the Relevant Jurisdiction other than merely holding such Note or the receipt of payments thereunder or under a Subsidiary Guarantee, JV Subsidiary Guarantee or Security Document, including, without limitation, such Holder or beneficial owner being or having been a national, domiciliary or resident of such Relevant Jurisdiction or treated as a resident thereof or being or having been physically present or engaged in a trade or business therein or having or having had a permanent establishment therein;
 - (ii) the presentation of such Note (in cases in which presentation is required) more than 30 days after the later of the date on which the payment of the principal of, premium, if any, and interest on, such Note became due and payable pursuant to the terms thereof or was made or duly provided for, except to the extent that the Holder thereof would have been entitled to such Additional Amounts if it had presented such Note for payment on any date within such 30-day period;
 - (iii) the failure of the Holder or beneficial owner to comply with a timely request of the Company, a Surviving Person, any Subsidiary Guarantor, JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor, addressed to the Holder to provide information concerning such Holder's or beneficial owner's nationality, residence, identity or connection with any Relevant Jurisdiction, if and to the extent that due and timely compliance with such request is required by law to reduce or eliminate any withholding or deduction as to which Additional Amounts would have otherwise been payable to such Holder; or
 - (iv) the presentation of such Note (in cases in which presentation is required) for payment in the Relevant Jurisdiction, unless such Note could not have been presented for payment elsewhere;
- (b) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;
 - (c) any tax, assessment, withholding or deduction required by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended ("FATCA"), any current or future Treasury Regulations or rulings promulgated thereunder, any intergovernmental agreement between the United States and any other jurisdiction to implement FATCA, any law, regulation or other official guidance enacted in any jurisdiction implementing FATCA, or any agreement with the U.S. Internal Revenue Service under FATCA; or
 - (d) any combination of taxes, duties, assessments or other governmental charges referred to in the preceding clauses (a), (b) and (c); or

- (2) to a Holder that is a fiduciary, partnership or person other than the sole beneficial owner of any payment to the extent that such payment would be required to be included in the income under the laws of a Relevant Jurisdiction, for tax purposes, of a beneficiary or settlor with respect to the fiduciary, or a member of that partnership or a beneficial owner who would not have been entitled to such Additional Amounts had that beneficiary, settlor, partner or beneficial owner been the Holder thereof.

Whenever there is mentioned in any context the payment of principal of, and any premium or interest on, any Note or under any Subsidiary Guarantee, JV Subsidiary Guarantee or Security Document, such mention shall be deemed to include payment of Additional Amounts provided for in the Indenture to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Redemption for Taxation Reasons

The Notes may be redeemed, at the option of the Company or a Surviving Person, as a whole but not in part, upon giving not less than 30 days' nor more than 60 days' notice to the Holders and upon reasonable notice in advance of such notice to Holders to the Trustee, Paying Agent and Transfer Agent (which notice shall be irrevocable), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest (including any Additional Amounts), if any, to the date fixed by the Company or the Surviving Person, as the case may be, for redemption (the "Tax Redemption Date") if, as a result of:

- (1) any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of a Relevant Taxing Jurisdiction affecting taxation; or
- (2) any change in the existing official position or the stating of an official position regarding the application or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction),

which change or amendment becomes effective (i) with respect to the Company or any initial Subsidiary Guarantor, on or after the Original Issue Date, or (ii) with respect to any Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, on or after the date such Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person becomes a Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, with respect to any payment due or to become due under the Notes or the Indenture, the Company, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, is, or on the next Interest Payment Date would be, required to pay Additional Amounts, and such requirement cannot be avoided by the taking of reasonable measures by the Company, such Surviving Person, Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be; *provided* that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Company, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, would be obligated to pay such Additional Amounts if a payment in respect of the Notes were then due.

Prior to the mailing of any notice of redemption of the Notes pursuant to the foregoing, the Company, a Surviving Person, Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, will deliver to the Trustee at least 30 days but not more than 60 days before the Tax Redemption Date:

- (1) an Officers' Certificate stating that such change or amendment referred to in the prior paragraph has occurred, describing the facts related thereto and stating that such requirement cannot be avoided by the Company, a Surviving Person, Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, taking reasonable measures available to it; and

- (2) an Opinion of Counsel or an opinion of a tax consultant, in either case of recognized standing with respect to tax matters of the Relevant Taxing Jurisdiction, stating that the requirement to pay such Additional Amounts results from such change or amendment referred to in the prior paragraph.

The Trustee shall accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above, in which event it shall be conclusive and binding on the Holders.

Any Notes that are redeemed will be canceled.

Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries

The Company will not sell, and will not permit any Restricted Subsidiary, directly or indirectly, to issue or sell any shares of Capital Stock of a Restricted Subsidiary (including options, warrants or other rights to purchase shares of such Capital Stock) except:

- (1) to the Company or a Wholly Owned Restricted Subsidiary, or in the case of a Restricted Subsidiary that is not Wholly Owned, *pro rata* to its shareholders or incorporators;

- (2) to the extent such Capital Stock represents director's qualifying shares or is required by applicable law to be held by a Person other than the Company or a Wholly Owned Restricted Subsidiary;
- (3) for the issuance or sale of the Capital Stock of a Restricted Subsidiary if, immediately after giving effect to such issuance or sale, such Restricted Subsidiary would no longer constitute a Restricted Subsidiary and any remaining Investment in such Person would have been permitted to be made under the "— Limitation on Restricted Payments" covenant if made on the date of such issuance or sale and provided that the Company complies with the "— Limitation on Asset Sales" covenant; *provided* that, paragraph (18)(b) of the definition of "Permitted Investments" shall not apply if such Investment would otherwise have been permitted under paragraph (18) of such definition; and
- (4) the issuance or sale of Capital Stock of a Restricted Subsidiary (which remains a Restricted Subsidiary after any such issuance or sale); *provided* that the Company or such Restricted Subsidiary applies the Net Cash Proceeds of such issuance or sale in accordance with the covenant entitled "— Limitation on Asset Sales."

Limitation on Issuances of Guarantees by Restricted Subsidiaries

The Company will not permit any Restricted Subsidiary which is not a Subsidiary Guarantor or a JV Subsidiary Guarantor, directly or indirectly, to Guarantee any Indebtedness ("Guaranteed Indebtedness") of the Company or any Subsidiary Guarantor, unless (1) (a) such Restricted Subsidiary, simultaneously executes and delivers a supplemental indenture to the Indenture providing for an unsubordinated Subsidiary Guarantee (in the case of a Subsidiary Guarantor) or JV Subsidiary Guarantee (in the case of a JV Subsidiary Guarantor) of payment of the Notes by such Restricted Subsidiary and (b) such Restricted Subsidiary waives, and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Company or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, until the Notes have been paid in full or (2) such Guarantee is permitted by clauses (2)(d) or (s) (in the case of clause (2)(s), with respect to the Guarantee provided by the Company or any Restricted Subsidiary through the pledge of one or more bank accounts or deposits to secure (or the use of any Guarantee or letter of credit or similar instruments to Guarantee) any Bank Deposit Secured Indebtedness), under the caption "— Limitation on Indebtedness and Preferred Stock."

If the Guaranteed Indebtedness (1) ranks *pari passu* in right of payment with the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall rank *pari passu* in right of payment with, or subordinated to, the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, or (2) is subordinated in right of payment to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall be subordinated in right of payment to the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, at least to the extent that the Guaranteed Indebtedness is subordinated to the Notes, the Subsidiary Guarantee or the JV Subsidiary Guarantee.

The Company will not permit any JV Subsidiary Guarantor, directly or indirectly, to guarantee any Indebtedness of the Company or any other Restricted Subsidiary unless the aggregate claims of the creditor under such guarantee will be limited to the JV Entitlement Amount, which, absent manifest error, may be conclusively evidenced by an Officers' Certificate from the Company certifying to that effect. The Trustee is fully protected in relying on such an Officers' Certificate with respect to such guarantee given by the relevant JV Subsidiary Guarantor. If any JV Subsidiary Guarantor guarantees any Indebtedness of the Company or any other Restricted Subsidiary where the aggregate claims of the creditor under such guarantee exceeds the JV Entitlement Amount, such JV Subsidiary Guarantee shall be replaced with a Subsidiary Guarantee given by a Subsidiary Guarantor.

Limitation on Transactions with Shareholders and Affiliates

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into, renew or extend any transaction or arrangement (including, without limitation, the purchase, sale, lease or exchange of property or assets, or the rendering of any service) with (x) any holder (or any Affiliate of such holder) of 10% or more of any class of Capital Stock of the Company or (y) any Affiliate of the Company (each an “Affiliate Transaction”), unless:

- (1) the Affiliate Transaction is on fair and reasonable terms that are no less favorable to the Company or the relevant Restricted Subsidiary, as the case may be, than those that would have been obtained in a comparable transaction by the Company or the relevant Restricted Subsidiary with a Person that is not an Affiliate of the Company or such Restricted Subsidiary; and
- (2) the Company delivers to the Trustee:
 - (a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$25.0 million (or the Dollar Equivalent thereof), a Board Resolution set forth in an Officers’ Certificate certifying that such Affiliate Transaction complies with this covenant and such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors; and
 - (b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$50.0 million (or the Dollar Equivalent thereof), in addition to the Board Resolution required in clause 2(a) above, an opinion as to the fairness to the Company or such Restricted Subsidiary, as the case may be, of such Affiliate Transaction from a financial point of view issued by an accounting, appraisal or investment banking firm of recognized international standing.

The foregoing limitation does not limit, and shall not apply to:

- (1) the payment of reasonable and customary regular fees and other compensation for the service as board members to directors of the Company or any Restricted Subsidiary who are not employees of the Company or any Restricted Subsidiary;
- (2) transactions between or among the Company and any of its Wholly Owned Restricted Subsidiaries or between or among Wholly Owned Restricted Subsidiaries;
- (3) any Restricted Payment of the type described in clause (1), (2) or (3) of the first paragraph of the covenant entitled “— Limitation on Restricted Payments” if permitted by that covenant;
- (4) any sale of Capital Stock (other than Disqualified Stock) of the Company;
- (5) the payment of compensation to officers and directors of the Company or any Restricted Subsidiary pursuant to an employee stock or share option scheme, so long as such scheme is in compliance with the listing rules of The Stock Exchange of Hong Kong Limited, which as of the Original Issue Date require a majority shareholder approval for any such scheme;
- (6) any purchase of Capital Stock of the type specified in clause (9), (10) or (11) of the second paragraph of the covenant entitled “— Limitation on Restricted Payments;” and
- (7) any repurchase, redemption or other acquisition or retirement for value of any Capital Stock of the Company or any Restricted Subsidiary pursuant to clause (12) of the second paragraph of the covenant entitled “— Limitation on Restricted Payments.”

In addition, the requirements of clause (2) of the first paragraph of this covenant shall not apply to (i) Investments (including Permitted Investments that are permitted under paragraph (18) of the definition of “Permitted Investments” but otherwise excluding any other Permitted Investments) not prohibited by the “Limitation on Restricted Payments” covenant, (ii) transactions pursuant to agreements in effect on the Original Issue Date and described in this offering memorandum, or any amendment or modification or replacement thereof, so long as such amendment, modification or replacement is not more disadvantageous to the Company and its Restricted Subsidiaries than the original agreement in effect on the Original Issue Date and (iii) any transaction between or among any of the Company, any Wholly Owned Restricted Subsidiary and any Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary or between or among the Company or a Restricted Subsidiary on the one part and a Jointly Controlled Entity, an Associate or an Unrestricted Subsidiary on the other part; *provided* that in the case of clause (iii), (a) such transaction is entered into in the ordinary course of business, (b) in the case of a transaction with a Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary, none of the minority shareholders or minority partners of or in such Restricted Subsidiary (other than those that beneficially own in the aggregate no more than 10% of the Capital Stock of such Restricted Subsidiary) is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such minority shareholder or minority partner being an officer or director of such Restricted Subsidiary or being a Subsidiary of the Company), or (c) in the case of a transaction with a Jointly Controlled Entity, an Associate or an Unrestricted Subsidiary, none of the shareholders or partners (other than the Company or a Restricted Subsidiary) of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary (other than shareholders or partners that beneficially own in the aggregate no more than 10% of the Capital Stock of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary) is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such shareholder or partner being a director or officer of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary or by reason of being a Subsidiary, Jointly Controlled Entity or Associate of the Company).

Limitation on Liens

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien on the Collateral (other than Permitted Liens).

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien of any nature whatsoever on any of its assets or properties of any kind (other than the Collateral), whether owned at the Original Issue Date or thereafter acquired, except Permitted Liens, unless the Notes are equally and ratably secured by such Lien.

Limitation on Sale and Leaseback Transactions

The Company will not, and will not permit any of its Restricted Subsidiaries to, enter into any Sale and Leaseback Transaction; *provided* that the Company or any Restricted Subsidiary may enter into a Sale and Leaseback Transaction if:

- (1) the Company or any Restricted Subsidiary could have (a) Incurred Indebtedness in an amount equal to the Attributable Indebtedness relating to such Sale and Leaseback Transaction under the covenant entitled “— Limitation on Indebtedness and Preferred Stock” and (b) Incurred a Lien to secure such Indebtedness pursuant to the covenant entitled “— Limitation on Liens,” in which case, the corresponding Indebtedness and Lien will be deemed Incurred pursuant to those provisions;
- (2) the gross cash proceeds of that Sale and Leaseback Transaction are at least equal to the Fair Market Value of the property that is the subject of such Sale and Leaseback Transaction; and

- (3) the transfer of assets in that Sale and Leaseback Transaction is permitted by, and the Company or such Restricted Subsidiary applies the proceeds of such transaction in compliance with, the covenant entitled “— Limitation on Asset Sales.”

Limitation on Asset Sales

The Company will not, and will not permit any Restricted Subsidiary to, consummate any Asset Sale, unless:

- (1) no Default shall have occurred and be continuing or would occur as a result of such Asset Sale;
- (2) the consideration received by the Company or such Restricted Subsidiary, as the case may be, is at least equal to the Fair Market Value of the assets sold or disposed of; and
- (3) at least 75% of the consideration received consists of cash, Temporary Cash Investments or Replacement Assets (as defined below); *provided* that in the case of an Asset Sale in which the Company or such Restricted Subsidiary receives Replacement Assets involving aggregate consideration in excess of US\$50.0 million (or the Dollar Equivalent thereof), the Company shall deliver to the Trustee an opinion as to the fairness to the Company or such Restricted Subsidiary of such Asset Sale from a financial point of view issued by an accounting, appraisal or investment banking firm of international standing. For purposes of this provision, each of the following will be deemed to be cash:
 - (a) any liabilities, as shown on the Company’s most recent consolidated balance sheet, of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any Subsidiary Guarantee or any JV Subsidiary Guarantee) that are assumed by the transferee of any such assets pursuant to a customary assumption, assignment, novation or similar agreement that releases the Company or such Restricted Subsidiary, as the case may be, from further liability; and
 - (b) any securities, notes or other obligations received by the Company or any Restricted Subsidiary from such transferee that are promptly, but in any event within 30 days of closing, converted by the Company or such Restricted Subsidiary, as the case may be, into cash, to the extent of the cash received in that conversion,

provided that clauses (1), (2) and (3) above shall not apply to (i) any Asset Sale to any Person that will, upon the consummation of such Asset Sale, become a Restricted Subsidiary, and (ii) any issuance or sale of Capital Stock to a Strategic Investor in order to satisfy a Repurchase Obligation or in connection with the proposed reorganization for which the Company made an announcement on October 3, 2016.

Within 360 days after the receipt of any Net Cash Proceeds from an Asset Sale, the Company (or any Restricted Subsidiary) may apply such Net Cash Proceeds to:

- (1) permanently repay Senior Indebtedness of the Company or a Subsidiary Guarantor or any Indebtedness of a Restricted Subsidiary that is not a Subsidiary Guarantor (and, if such Senior Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto) in each case owing to a Person other than the Company or a Restricted Subsidiary; or
- (2) acquire properties and assets that replace the properties and assets that were the subject of such Asset Sale or Replacement Assets.

Pending application of such Net Cash Proceeds as set forth in clause (1) or (2) above, the Company may make an Investment in cash or Temporary Cash Investments.

Any Net Cash Proceeds from Asset Sales that are not applied or invested as provided in clauses (1) and (2) in the immediately preceding paragraph will constitute “Excess Proceeds.” Excess Proceeds of less than US\$10.0 million (or the Dollar Equivalent thereof) will be carried forward and accumulated. When accumulated Excess Proceeds exceed US\$10.0 million (or the Dollar Equivalent thereof), within 10 days thereof, the Company must make an Offer to Purchase Notes having a principal amount equal to:

- (1) accumulated Excess Proceeds, *multiplied* by
- (2) a fraction (x) the numerator of which is equal to the outstanding principal amount of the Notes and (y) the denominator of which is equal to the outstanding principal amount of the Notes and all *pari passu* Indebtedness similarly required to be repaid, redeemed or tendered for in connection with the related Asset Sales,

rounded down to the nearest US\$1,000.

The offer price in any Offer to Purchase will be equal to 100% of the principal amount plus accrued and unpaid interest to the date of purchase, and will be payable in cash.

If any Excess Proceeds remain after consummation of an Offer to Purchase, the Company may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes (and any other *pari passu* Indebtedness) tendered in such Offer to Purchase exceeds the amount of Excess Proceeds, the Notes (and such other *pari passu* Indebtedness) will be purchased by the Company on a *pro rata* basis. Upon completion of each Offer to Purchase, the amount of Excess Proceeds will be reset at zero.

Use of Proceeds

The Company will not, and will not permit any Restricted Subsidiary to, use the net proceeds (if any) from the sale of the Notes, in any amount, for any purpose other than (1) as specified under the caption “Use of Proceeds” in this offering memorandum (or in the case of any Additional Notes, the offering document relating to the sale of such Additional Notes) and (2) pending the application of all of such net proceeds in such manner, to invest the portion of such net proceeds not yet so applied in Temporary Cash Investments.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary; *provided* that (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) neither the Company nor any Restricted Subsidiary Guarantor provides credit support (other than any Guarantee in compliance with clause (6) below) for the Indebtedness of such Restricted Subsidiary; (3) such Restricted Subsidiary has no outstanding Indebtedness that could trigger a cross-default to the Indebtedness of the Company at the time of the designation; (4) such Restricted Subsidiary does not own any Disqualified Stock of the Company or Disqualified or Preferred Stock of another Restricted Subsidiary or hold any Indebtedness of, or any Lien on any property of, the Company or any Restricted Subsidiary, if such Disqualified or Preferred Stock or Indebtedness could not be Incurred under the covenant entitled “— Limitation on Indebtedness and Preferred Stock” or such Lien would violate the covenant entitled “— Limitation on Liens;” (5) such Restricted Subsidiary does not own any Voting Stock of another Restricted Subsidiary, and all of its Subsidiaries are Unrestricted Subsidiaries or are being concurrently designated to be Unrestricted Subsidiaries in accordance with this paragraph; and (6) the Investment deemed to have been made thereby in such newly-designated

Unrestricted Subsidiary and each other newly-designated Unrestricted Subsidiary being concurrently redesignated would be permitted to be made by the covenant entitled “— Limitation on Restricted Payments.”

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) any Indebtedness of such Unrestricted Subsidiary outstanding at the time of such designation which will be deemed to have been Incurred by such newly designated Restricted Subsidiary as a result of such designation would be permitted to be Incurred by the covenant entitled “— Limitation on Indebtedness and Preferred Stock;” (3) any Lien on the property of such Unrestricted Subsidiary at the time of such designation which will be deemed to have been incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be incurred by the covenant entitled “— Limitation on Liens;” (4) such Unrestricted Subsidiary is not a Subsidiary of another Unrestricted Subsidiary (that is not concurrently being designated as a Restricted Subsidiary); (5) if such Restricted Subsidiary is not organized under the laws of the PRC, such Restricted Subsidiary shall upon such designation execute and deliver to the Trustee a supplemental indenture to the Indenture by which such Restricted Subsidiary shall become a Subsidiary Guarantor or a JV Subsidiary Guarantor to the extent required under the section entitled “— The Subsidiary Guarantees and the JV Subsidiary Guarantees;” and (6) if such Restricted Subsidiary is not organized under the laws of the PRC, all Capital Stock of such Restricted Subsidiary owned directly by the Company or any other Restricted Subsidiary shall be pledged to the extent required under the section entitled “— Security.”

Government Approvals and Licenses; Compliance with Law

The Company will, and will cause each Restricted Subsidiary to, (1) obtain and maintain in full force and effect all governmental approvals, authorizations, consents, permits, concessions and licenses as are necessary to engage in the business of the Company or any of its Restricted Subsidiaries; (2) preserve and maintain good and valid title to its properties and assets (including land-use rights) free and clear of any Liens other than Permitted Liens; and (3) comply with all laws, regulations, orders, judgments and decrees of any governmental body, except to the extent that failure so to obtain, maintain, preserve and comply with would not reasonably be expected to have a material adverse effect on (a) the business, results of operations or prospects of the Company and its Restricted Subsidiaries, taken as a whole, or (b) the ability of the Company or any Subsidiary Guarantor or any JV Subsidiary Guarantor to perform its obligations under the Notes, the relevant Subsidiary Guarantee, the relevant JV Subsidiary Guarantee or the Indenture.

Anti-Layering

The Company will not Incur, and will not permit any Subsidiary Guarantor or JV Subsidiary Guarantor to Incur, any Indebtedness if such Indebtedness is contractually subordinated in right of payment to any other Indebtedness of the Company, such Subsidiary Guarantor or such JV Subsidiary Guarantor, as the case may be, unless such Indebtedness is also contractually subordinated in right of payment to the Notes, the applicable Subsidiary Guarantee or the applicable JV Subsidiary Guarantee, on substantially identical terms. This does not apply to distinctions between categories of Indebtedness that exist by reason of any Liens or Guarantees securing or in favor of some but not all of such Indebtedness.

Suspension of Certain Covenants

If, on any date following the date of the Indenture, the Notes have a rating of Investment Grade from at least two of the three Rating Agencies and no Default has occurred and is continuing (a “Suspension Event”), then, beginning on that day and continuing until such time, if any, at which the Notes cease to have a rating of Investment Grade from at least two of the three Rating Agencies, the provisions of the Indenture summarized under the following sections will be suspended:

- (1) “— Certain Covenants — Limitation on Indebtedness and Preferred Stock;”
- (2) “— Certain Covenants — Limitation on Restricted Payments;”
- (3) “— Certain Covenants — Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries;”
- (4) “— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries;”
- (5) “— Certain Covenants — Limitation on Issuances of Guarantees by Restricted Subsidiaries;”
- (6) “— Certain Covenants — Limitation on Sale and Leaseback Transactions;” and
- (7) “— Certain Covenants — Limitation on Asset Sales.”

During any period that the foregoing covenants have been suspended, the Board of Directors may not designate any of the Restricted Subsidiaries as Unrestricted Subsidiaries pursuant to the covenant summarized under the section entitled “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries” or the definition of “Unrestricted Subsidiary.”

Such covenants will be reinstituted and apply according to their terms as of and from the first day on which a Suspension Event ceases to be in effect. Such covenants will not, however, be of any effect with regard to actions of the Company or any Restricted Subsidiary properly taken in compliance with the provisions of the Indenture during the continuance of the Suspension Event, and following reinstatement the calculations under the covenant summarized under the section entitled “— Certain Covenants — Limitation on Restricted Payments” will be made as if such covenant had been in effect since the date of the Indenture except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended. There can be no assurance that the Notes will ever achieve a rating of Investment Grade or that any such rating will be maintained.

Provision of Financial Statements and Reports

- (1) So long as any of the Notes remains outstanding, the Company will file with the Trustee and furnish to the Holders upon request, as soon as they are available but in any event not more than 10 calendar days after they are filed with The Stock Exchange of Hong Kong Limited or any other recognized exchange on which the Company’s shares of Common Stock are at any time listed for trading, true and correct copies of any financial or other report in the English language filed with such exchange; *provided* that if at any time the Common Stock of the Company ceases to be listed for trading on a recognized stock exchange, the Company will file with the Trustee and furnish to the Holders:
 - (a) as soon as they are available, but in any event within 90 calendar days after the end of the fiscal year of the Company, copies of its financial statements (on a consolidated basis) in the English language, in respect of such financial year (including a statement of income, balance sheet and cash flow statement) audited by a member firm of an internationally recognized firm of independent accountants;
 - (b) as soon as they are available, but in any event within 45 calendar days after the end of the second financial quarter of the Company, copies of its financial statements (on a consolidated basis) in the English language, in respect of such half-year period (including a statement of income, balance sheet and cash flow statement) reviewed by a member firm of an internationally recognized firm of independent accountants; and

- (c) as soon as they are available, but in any event within 45 calendar days after the end of each of the first and third financial quarters of the Company, copies of its unaudited financial statements (on a consolidated basis) in the English language, including a statement of income, balance sheet and cash flow statement, prepared on a basis consistent with the audited financial statements of the Company together with a certificate signed by the person then authorized to sign financial statements on behalf of the Company to the effect that such financial statements are true in all material respects and present fairly the financial position of the Company as at the end of, and the results of its operations for, the relevant quarterly period.
- (2) In addition, so long as any of the Notes remains outstanding, the Company will provide to the Trustee (a) within 120 days after the close of each fiscal year ending after the Original Issue Date, an Officers' Certificate stating the Fixed Charge Coverage Ratio with respect to the two most recent fiscal semiannual periods and showing in reasonable detail the calculation of the Fixed Charge Coverage Ratio, including the arithmetic computations of each component of the Fixed Charge Coverage Ratio, with a certificate from the Company's external auditors verifying the accuracy of the calculation and arithmetic computation; *provided* that the Company shall not be required to provide such auditor certification if its external auditors refuse to provide such certification as a result of a firm policy of such external auditors not to provide such certification for any issuer; and (b) as soon as possible and in any event within 30 days after the Company becomes aware or should reasonably become aware of the occurrence of a Default, an Officers' Certificate setting forth the details of the Default, and the action which the Company proposes to take with respect thereto.

Events of Default

The following events will be defined as "Events of Default" in the Indenture:

- (1) default in the payment of principal of (or premium, if any, on) the Notes when the same becomes due and payable at maturity, upon acceleration, redemption or otherwise;
- (2) default in the payment of interest on any Note when the same becomes due and payable, and such default continues for a period of 30 consecutive days;
- (3) default in the performance or breach of the provisions of the covenant entitled "— Consolidation, Merger and Sale of Assets," the failure by the Company to make or consummate an Offer to Purchase in the manner described under the section entitled "— Repurchase of Notes upon a Change of Control Triggering Event" or "— Certain Covenants — Limitation on Asset Sales," or the failure by the Company to create, or cause its Restricted Subsidiaries to create, a Lien on the Collateral (subject to any Permitted Lien and the Intercreditor Agreement) in accordance with the covenant entitled "— Security;"
- (4) the Company or any Restricted Subsidiary defaults in the performance of or breaches any other covenant or agreement in the Indenture or under the Notes (other than a default specified in clause (1), (2) or (3) above) and such default or breach continues for a period of 30 consecutive days after written notice by the Trustee or the Holders of 25% or more in aggregate principal amount of the Notes;
- (5) there occurs with respect to any Indebtedness of the Company or any Restricted Subsidiary having an outstanding principal amount of US\$20.0 million (or the Dollar Equivalent thereof) or more in the aggregate for all such Indebtedness of all such Persons, whether such Indebtedness now exists or shall hereafter be created, (a) an event of default that has caused the holder thereof to declare such Indebtedness to be due and payable prior to its Stated Maturity and/or (b) a failure to make a principal payment when due;

- (6) one or more final judgments or orders for the payment of money are rendered against the Company or any of its Restricted Subsidiaries and are not paid or discharged, and there is a period of 60 consecutive days following entry of the final judgment or order that causes the aggregate amount for all such final judgments or orders outstanding and not paid or discharged against all such Persons to exceed US\$20.0 million (in excess of amounts which the Company's insurance carriers have agreed to pay under applicable policies) during which a stay of enforcement, by reason of a pending appeal or otherwise, is not in effect;
- (7) an involuntary case or other proceeding is commenced against the Company or any Significant Subsidiary with respect to it or its debts under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect seeking the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary or for any substantial part of the property and assets of the Company or any Significant Subsidiary and such involuntary case or other proceeding remains undismissed and unstayed for a period of 60 consecutive days; or an order for relief is entered against the Company or any Significant Subsidiary under any applicable bankruptcy, insolvency or other similar law as now or hereafter in effect;
- (8) the Company or any Significant Subsidiary (a) commences a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consents to the entry of an order for relief in an involuntary case under any such law, (b) consents to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary or for all or substantially all of the property and assets of the Company or any Significant Subsidiary or (c) effects any general assignment for the benefit of creditors (other than, in each case under (b), any of the foregoing that arises from any solvent liquidation or restructuring of a Significant Subsidiary in the ordinary course of business that shall result in the net assets of such Significant Subsidiary being transferred to or otherwise vested in the Company or any Restricted Subsidiary on a *pro rata* basis or on a basis more favorable to the Company);
- (9) any Subsidiary Guarantor or JV Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be) or, except as permitted by the Indenture, any Subsidiary Guarantee or JV Subsidiary Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect;
- (10) any default by the Company or any Subsidiary Guarantor Pledgor in the performance of any of its obligations under the Security Documents, which adversely affects the enforceability, validity, perfection or priority of the applicable Lien on the Collateral or which adversely affects the condition or value of the Collateral, taken as a whole, in any material respect; and
- (11) the Company or any Subsidiary Guarantor Pledgor denies or disaffirms its obligations under any Security Document or, other than in accordance with the Indenture and the Security Documents, any Security Document ceases to be or is not in full force and effect or the Collateral Agent ceases to have a security interest in the Collateral, subject to any Permitted Lien and the Intercreditor Agreement.

If an Event of Default (other than an Event of Default specified in clause (7) or (8) above) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in aggregate principal amount of the Notes then outstanding, by written notice to the Company (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the request of such Holders shall (subject to being indemnified and/or secured to its satisfaction), declare the principal of, premium, if any, and accrued and unpaid interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued and unpaid interest shall be immediately due and payable. If an Event of Default specified in clause (7) or (8) above occurs with respect to the

Company or any Significant Subsidiary, the principal of, premium, if any, and accrued and unpaid interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Company and to the Trustee may on behalf of the Holders of the Notes waive all past defaults and rescind and annul a declaration of acceleration and its consequences if:

- (1) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived, and
- (2) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Upon such waiver, the Default will cease to exist, and any Event of Default arising therefrom will be deemed to have been cured, but no such waiver will extend to any subsequent or other Default or impair any right consequent thereon.

If an Event of Default occurs and is continuing, the Trustee may, or the Trustee may, in accordance with and subject to the Intercreditor Agreement, instruct the Collateral Agent to, pursue, in its own name or as trustee of an express trust, any available remedy by proceeding at law or in equity to collect the payment of principal of and interest on the Notes or to enforce the performance of any provision of the Notes or the Indenture. The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. In addition, if an Event of Default occurs and is continuing, subject to the Intercreditor Agreement, the Trustee may, and shall (subject to being indemnified and/or secured to its satisfaction) upon request of Holders of at least 25% in aggregate principal amount of outstanding Notes, direct the Collateral Agent to foreclose on the Collateral in accordance with the terms of the Security Documents and take such further action on behalf of the Holders of the Notes with respect to the Collateral as the Trustee deems appropriate. See the section entitled “— Security.”

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from Holders. A Holder may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or for the appointment of a receiver or trustee, or for any other remedy under the Indenture or the Notes, unless:

- (1) the Holder has previously given the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity and/or security satisfactory to the Trustee against any costs, liability or expense to be incurred in compliance with such request;
- (4) the Trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity and/or security; and

- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a written direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder of a Note to receive payment of the principal of, premium, if any, or interest on, such Note, or to bring suit for the enforcement of any such payment, on or after the due date expressed in such Note, which right shall not be impaired or affected without the consent of the Holder.

Two officers of the Company must certify to the Trustee in writing, on or before a date not more than 120 days after the end of each fiscal year ending after the Original Issue Date, that a review has been conducted of the activities of the Company and its Restricted Subsidiaries and the Company's and the Subsidiary Guarantors' performance under the Indenture and that the Company and the Subsidiary Guarantors have fulfilled all obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Company will also be obligated to notify the Trustee of any default or defaults in the performance of any covenants or agreements under the Indenture. See the section entitled "— Certain Covenants — Provision of Financial Statements and Reports."

Consolidation, Merger and Sale of Assets

The Company will not consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions), unless:

- (1) the Company shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which the Company consolidated or merged, or that acquired or leased such property and assets (the "Surviving Person") shall be a corporation organized and validly existing under the laws of the Cayman Islands, Hong Kong, Bermuda or the British Virgin Islands and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of the Company under the Indenture, the Notes, the Intercreditor Agreement and the Security Documents, as the case may be, including the obligation to pay Additional Amounts with respect to any jurisdiction in which it is organized or resident for tax purposes, and the Indenture, the Notes, the Intercreditor Agreement and the Security Documents, as the case may be, shall remain in full force and effect;
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a *pro forma* basis, the Company or the Surviving Person, as the case may be, shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a *pro forma* basis the Company or the Surviving Person, as the case may be, could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant entitled "— Certain Covenants — Limitation on Indebtedness and Preferred Stock;"

- (5) the Company delivers to the Trustee (x) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with;
- (6) each Subsidiary Guarantor and JV Subsidiary Guarantor, unless such Subsidiary Guarantor or JV Subsidiary Guarantor is the Person with which the Company has entered into a transaction described under this section, shall execute and deliver a supplemental indenture to the Indenture confirming that its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, shall apply to the obligations of the Company or the Surviving Person in accordance with the Notes and the Indenture; and
- (7) no Rating Decline shall have occurred.

No Subsidiary Guarantor or JV Subsidiary Guarantor will consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to another Person (other than the Company or another Subsidiary Guarantor or, in the case of a JV Subsidiary Guarantor, other than to another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor), unless:

- (1) such Subsidiary Guarantor or JV Subsidiary Guarantor shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which the Subsidiary Guarantor consolidated or merged, or that acquired or leased such property and assets shall be the Company, another Subsidiary Guarantor or shall become a Subsidiary Guarantor concurrently with the transaction (or, in the case of a JV Subsidiary Guarantor, another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor);
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a *pro forma* basis, the Company shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a *pro forma* basis, the Company could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant entitled "— Certain Covenants — Limitation on Indebtedness and Preferred Stock;"
- (5) the Company delivers to the Trustee (x) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with; and
- (6) no Rating Decline shall have occurred;

provided that this paragraph shall not apply to any sale or other disposition that complies with the "— Certain Covenants — Limitation on Asset Sales" covenant or any Subsidiary Guarantor or JV Subsidiary Guarantor whose Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, is unconditionally released in accordance with the provisions described under the section entitled "— The Subsidiary Guarantees and the JV Subsidiary Guarantees — Release of the Subsidiary Guarantees and JV Subsidiary Guarantees."

The foregoing requirements shall not apply to a consolidation or merger of any Subsidiary Guarantor or JV Subsidiary Guarantor with and into the Company or any other Subsidiary Guarantor or JV Subsidiary Guarantor, so long as the Company or such Subsidiary Guarantor or JV Subsidiary Guarantor survives such consolidation or merger.

Notwithstanding the foregoing, the Company and each Subsidiary Guarantor or JV Subsidiary Guarantor shall be permitted to sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to any Restricted Subsidiary or any Person that will, upon the consummation of such sale, conveyance, transfer, lease or disposal, become a Restricted Subsidiary.

Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve "all or substantially all" of the property or assets of a Person.

The foregoing provisions would not necessarily afford Holders protection in the event of highly-leveraged or other transactions involving the Company, which may adversely affect Holders.

No Payments for Consents

The Company will not, and shall not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid or is paid to all Holders that consent, waive or agree to amend such term or provision within the time period set forth in the solicitation documents relating to such consent, waiver or amendment. Notwithstanding the foregoing, the Company and its Subsidiaries shall be permitted, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes, to exclude Holders in any jurisdiction where (A)(i) the solicitation of such consent, waiver or amendment in the manner deemed appropriate by the Company, (ii) the payment of the consideration therefor or (iii) the conduct or completion of a related offer to purchase or exchange the Notes for cash or other securities in the manner deemed appropriate by the Company would be prohibited or would require the Company or any of its Subsidiaries to (a) file a registration statement, prospectus or similar document or subject the Company or any of its Subsidiaries to ongoing periodic reporting or similar requirements under any securities laws (including, but not limited to, the United States federal securities laws and the laws of the European Union or its member states), or conduct a bondholder identification exercise to establish the availability of an exemption from registration under Rule 802 under the Securities Act, in each case which the Company in its sole discretion determines would be burdensome, (b) qualify as a foreign corporation or other entity or as a dealer in securities in such jurisdiction if it is not otherwise required to so qualify, (c) generally consent to service of process in any such jurisdiction or (d) subject the Company or any of its Subsidiaries to taxation in any such jurisdiction if it is not otherwise so subject; or (B) such solicitation would otherwise not be permitted under applicable law in such jurisdiction.

Defeasance

Defeasance and Discharge

The Indenture will provide that the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 183rd day after the deposit referred to below, and the provisions of the Indenture and the Security Documents will no longer be in effect with respect

to the Notes (except for, among other matters, certain obligations to register the transfer or exchange of the Notes, to replace stolen, lost or mutilated Notes, to maintain paying agencies, to pay Additional Amounts and to hold monies for payment in trust) if, among other things:

- (1) the Company (a) has deposited with the Trustee, in trust, money and/or U.S. Government Obligations that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity for such payments in accordance with the terms of the Indenture and the Notes and (b) delivers to the Trustee an Opinion of Counsel or a certificate of an internationally recognized firm of independent accountants to the effect that the amount deposited by the Company is sufficient to provide payment for the principal of, premium, if any, and accrued interest on, the Notes on the Stated Maturity for such payment in accordance with the terms of the Indenture;
- (2) the Company has delivered to the Trustee an Opinion of Counsel of recognized international standing to the effect that the creation of the defeasance trust does not violate the U.S. Investment Company Act of 1940, as amended, and after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law;
- (3) the Company shall have delivered to the Trustee an Officers' Certificate stating that the deposit was not made by it with the intent of preferring the Holders over any other of its creditors or with the intent of defeating, hindering, delaying or defrauding any other of its creditors or others; and
- (4) immediately after giving effect to such deposit on a *pro forma* basis, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default, shall have occurred and be continuing on the date of such deposit or during the period ending on the 183rd day after the date of such deposit, and such defeasance shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound.

In the case of either discharge or defeasance, the Subsidiary Guarantees and JV Subsidiary Guarantees will terminate.

Defeasance of Certain Covenants

The Indenture will further provide that (i) the provisions of the Indenture will no longer be in effect with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph and clauses (3), (4), (5)(x) and (6) under the second paragraph under the section entitled “— Consolidation, Merger and Sale of Assets” and all the covenants described herein under the section entitled “— Certain Covenants,” other than as described under the sections entitled “— Certain Covenants — Government Approvals and Licenses; Compliance with Law” and “— Certain Covenants — Anti-Layering,” and (ii) clause (3) under “Events of Default” with respect to such clauses (3), (4), (5)(x) and (7) under the first paragraph and such clauses (3), (4), (5)(x) and (6) under the second paragraph under “— Consolidation, Merger and Sale of Assets” and with respect to such other events set forth in clause (i) above, clause (4) under “— Events of Default” with respect to such other covenants set forth in clause (i) above and clauses (5) and (6) under “— Events of Default” shall be deemed not to be Events of Default, upon, among other things, the deposit with the Trustee, in trust, of money, U.S. Government Obligations or a combination thereof that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes, and the satisfaction of the provisions described in clause (2) of the preceding paragraph.

Defeasance and Certain Other Events of Default

In the event that the Company exercises its option to omit compliance with certain covenants and provisions of the Indenture with respect to the Notes as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the Trustee will be sufficient to pay amounts due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However the Company will remain liable for such payments.

Amendments and Waiver

Amendments Without Consent of Holders

The Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement or any Security Document may be amended, without notice to or the consent of any Holder, to:

- (11) to conform the text of the Indenture, the Notes or the Subsidiary Guarantees to any provision of this “Description of 2021 Notes” to the extent that such provision in this “Description of 2021 Notes” was intended to be a verbatim recitation of a provision of the Indenture, the Notes or the Subsidiary Guarantees; or
- (12) make any other change that does not materially and adversely affect the rights of any Holder.

Amendments With Consent of Holders

Amendments of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement or any Security Document may be made by the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any), the Subsidiary Guarantor Pledgors, the Trustee and the Collateral Agent with the consent of the Holders of not less than a majority in aggregate principal amount of the outstanding Notes, and the holders of a majority in aggregate principal amount of the outstanding Notes may waive future compliance by the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Subsidiary Guarantor Pledgors with any provision of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees, any Security Document or the Intercreditor Agreement; *provided, however*, that no such modification, amendment or waiver may, without the consent of each Holder affected thereby:

- (2) reduce the principal amount of, or premium, if any, or interest on, any Note;
- (3) change the currency of payment of principal of, or premium, if any, or interest on, any Note;

Unclaimed Money

Claims against the Company for the payment of principal of, premium, if any, or interest, on the Notes will become void unless presentation for payment is made as required in the Indenture within a period of six years.

No Personal Liability of Incorporators, Stockholders, Officers, Directors or Employees

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company or any of the Subsidiary Guarantors or any of the JV Subsidiary Guarantors in the Indenture, or in any of the Notes, the Subsidiary Guarantees or JV Subsidiary Guarantees or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, officer, director, employee or controlling person of the Company, any of the Subsidiary Guarantors or any of the JV Subsidiary Guarantors or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees. Such waiver may not be effective to waive liabilities under the federal securities laws.

Concerning the Collateral Agent, the Trustee, the Paying Agent, the Transfer Agent and Registrar

Citicorp International Limited has been appointed as Trustee under the Indenture and as Collateral Agent with regard to the Collateral under the Security Documents. Citibank, N.A., London Branch has been appointed as paying agent, transfer agent and registrar (the “Paying Agent,” the “Transfer Agent” and the “Registrar”; collectively, the “Agents”) with regard to the Notes. Except during the continuance of a Default, the Trustee will not be liable, except for the performance of such duties as are specifically set forth in the Indenture, or the Intercreditor Agreement. If an Event of Default has occurred and is continuing, the Trustee will use the same degree of care, as applicable, and skill in its exercise of the rights and powers vested in them under the Indenture as a prudent person would exercise under the circumstances in the conduct of such person’s own affairs.

The Indenture contains limitations on the rights of the Trustee, should it become a creditor of the Company or any of the Subsidiary Guarantors, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The Trustee is permitted to engage in other transactions with the Company and its Affiliates; *provided, however*, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

If the Company maintains a paying agent with respect to the Notes in a member state of the European Union, such paying agent will be located in a member state of the European Union that is not obligated to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any other directive amending, supplementing or replacing such Directive, or any law implementing or complying with, or introduced in order to conform to, such Directive or such other directive.

Citicorp International Limited acts as the initial Collateral Agent under the Security Documents in respect of the Lien over the Collateral. The Collateral Agent, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, assigned or granted pursuant to the Security Documents as are set forth in the Indenture and the Security Documents. Under certain circumstances, the Collateral Agent may have obligations under the Security Documents that are in conflict with the interests of the Holders. The Trustee and the Collateral Agent will be under no obligation to exercise any rights or powers conferred under the Indenture or any of the Security Documents, as applicable, for the benefit of the Holders unless such Holders have offered to the Trustee or the Collateral Agent, as the case may be, indemnity and/or security satisfactory to it against any loss, liability, cost or expense. Each Holder, by accepting the Notes, will agree, for the benefit of the Collateral Agent, that it is solely responsible for its own independent appraisal of and investigation into all risks arising under or in connection with the Security Documents and has not relied on and will not at any time rely on the Collateral Agent in respect of such risks.

Book-Entry; Delivery and Form

The Notes will be represented by a global note in registered form without interest coupons attached (the “Global Note”). On the Original Issue Date, the Global Note will be deposited with a common depositary and registered in the name of the common depositary or its nominee for the accounts of Euroclear and Clearstream.

Global Note

Ownership of beneficial interests in the Global Note (the “book-entry interests”) will be limited to persons that have accounts with Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-entry interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream and their participants.

Except as set forth below under “— Individual Definitive Notes,” the book-entry interests will not be held in definitive form. Instead, Euroclear and/or Clearstream will credit on their respective book-entry registration and transfer systems a participant’s account with the interest beneficially owned by such participant. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge book-entry interests.

So long as the Notes are held in global form, the common depositary for Euroclear and/or Clearstream (or its nominee) will be considered the sole holder of the Global Note for all purposes under the Indenture and “holders” of book-entry interests will not be considered the owners or “Holders” of Notes for any purpose. As such, participants must rely on the procedures of Euroclear and Clearstream and indirect participants must rely on the procedures of the participants through which they own book-entry interests in order to transfer their interests in the Notes or to exercise any rights of Holders under the Indenture.

None of the Company, the Trustee, the Collateral Agent or any of their respective agents will have any responsibility or be liable for any aspect of the records relating to the book-entry interests. The Notes are not issuable in bearer form.

Payments on the Global Note

Payments of any amounts owing in respect of the Global Note (including principal, premium, interest and additional amounts) will be made to the Paying Agent in U.S. dollars. The Paying Agent will, in turn, make such payments to the common depositary for Euroclear and Clearstream, which will distribute such payments to participants in accordance with their procedures. Each of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors will make payments of all such amounts without deduction or withholding for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, except as may be required by law and as described under “— Additional Amounts.”

Under the terms of the Indenture, the Company, any Subsidiary Guarantor, any JV Subsidiary Guarantor and the Trustee will treat the registered holder of the Global Note (i.e., the common depositary or its nominee) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee, the Agents or any of their respective agents has or will have any responsibility or liability for:

- any aspect of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest, for any such payments made by Euroclear, Clearstream or any participant or indirect participants, or for maintaining, supervising or reviewing any of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest; or
- Euroclear, Clearstream or any participant or indirect participant.

Payments by participants to owners of book-entry interests held through participants are the responsibility of such participants.

Redemption of Global Note

In the event any Global Note, or any portion thereof, is redeemed, the common depositary will distribute the U.S. dollar amount received by it in respect of the Global Note so redeemed to Euroclear and/or Clearstream, as applicable, who will distribute such amount to the holders of the book-entry interests in such Global Note. The redemption price payable in connection with the redemption of such book-entry interests will be equal to the U.S. dollar amount received by the common depositary, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). The Company understands that under existing practices of Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, Euroclear and Clearstream will credit their respective participants' accounts on a proportionate basis (with adjustments to prevent fractions) or by lot or on such other basis as they deem fair and appropriate; *provided, however*, that no book-entry interest of US\$200,000 principal amount, or less, as the case may be, will be redeemed in part.

Action by Owners of Book-Entry Interests

Euroclear and Clearstream have advised that they will take any action permitted to be taken by a Holder of Notes only at the direction of one or more participants to whose account the book-entry interests in the Global Note are credited and only in respect of such portion of the aggregate principal amount of Notes as to which such participant or participants has or have given such direction. Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Note. If there is an Event of Default under the Notes, however, each of Euroclear and Clearstream reserves the right to exchange the Global Note for individual definitive notes in certificated form, and to distribute such individual definitive notes to their participants.

Transfers

Transfers between participants in Euroclear and Clearstream will be effected in accordance with Euroclear and Clearstream's rules and will be settled in immediately available funds. If a Holder requires physical delivery of individual definitive notes for any reason, including to sell the Notes to persons in jurisdictions which require physical delivery of such securities or to pledge such securities, such Holder must transfer its interest in the Global Note in accordance with the normal procedures of Euroclear and Clearstream and in accordance with the provisions of the Indenture.

Book-entry interests in the Global Note will be subject to the restrictions on transfer discussed under "Transfer Restrictions."

Any book-entry interest in a Global Note that is transferred to a person who takes delivery in the form of a book-entry interest in another Global Note will, upon transfer, cease to be a book-entry interest in the first-mentioned Global Note and become a book-entry interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to book-entry interests in such other Global Note for as long as it retains such a book-entry interest.

Global Clearance and Settlement Under the Book-Entry System

Book-entry interests owned through Euroclear or Clearstream accounts will follow the settlement procedures applicable. Book-entry interests will be credited to the securities custody accounts of Euroclear and Clearstream holders on the business day following the Settlement Date against payment for value on the Settlement Date.

The book-entry interests will trade through participants of Euroclear or Clearstream, and will settle in same-day funds. Since the purchaser determines the place of delivery, it is important to establish at the time of trading of any book-entry interests where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

Information Concerning Euroclear and Clearstream

We understand as follows with respect to Euroclear and Clearstream:

Euroclear and Clearstream hold securities for participating organizations and facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream provide to their participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions, such as underwriters, securities brokers and dealers, banks and trust companies, and certain other organizations. Indirect access to Euroclear or Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodian relationship with a Euroclear or Clearstream participant, either directly or indirectly.

Although the foregoing sets out the procedures of Euroclear and Clearstream in order to facilitate the original issue and subsequent transfers of interests in the Notes among participants of Euroclear and Clearstream, neither Euroclear nor Clearstream is under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

None of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee, the Collateral Agent, the Agents or any of their respective agents will have responsibility for the performance of Euroclear or Clearstream or their respective participants of their respective obligations under the rules and procedures governing their operations, including, without limitation, rules and procedures relating to book-entry interests.

Individual Definitive Notes

If (1) the common depositary or any successor to the common depositary is at any time unwilling or unable to continue as a depositary for the reasons described in the Indenture and a successor depositary is not appointed by the Company within 90 days, (2) either Euroclear or Clearstream, or a successor clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention to permanently cease business or does in fact do so, or (3) any of the Notes has become immediately due and payable in accordance with “— Events of Default” and the Company has received a written request from a Holder, the Company will issue individual definitive notes in registered form in exchange for the Global Note. Upon receipt of such notice from the common depositary or the Trustee, as the case may be, the Company will use its best efforts to make arrangements with the common depositary for the exchange of interests in the Global Note for individual definitive notes and cause the requested individual definitive notes to be executed and delivered to the registrar in sufficient quantities and authenticated by the registrar for delivery to Holders. Persons exchanging interests in a Global Note for individual definitive notes will be required to provide the registrar, through the relevant clearing system, with written instruction and other information required by the Company and the registrar to complete, execute and deliver such individual definitive notes. In all cases, individual definitive notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by the relevant clearing system.

Individual definitive notes will not be eligible for clearing and settlement through Euroclear or Clearstream.

Notices

All notices or demands required or permitted by the terms of the Notes or the Indenture to be given to or by the Holders are required to be in writing and may be given or served by being sent by prepaid courier or by being deposited, first-class postage prepaid, in the mails of the relevant jurisdiction, if intended for the Company or any Subsidiary Guarantor, addressed to the Company or such Subsidiary Guarantor, as the case may be, or if intended for the Trustee, addressed to the Trustee at the corporate trust office of the Trustee and, if intended for any Holder, addressed to such Holder at such Holder's last address as it appears in the Note register (or otherwise delivered to such Holders in accordance with applicable Euroclear or Clearstream procedures).

Any such notice or demand will be deemed to have been sufficiently given or served when so sent or deposited and, if to the Holders, when delivered in accordance with the applicable rules and procedures of the relevant clearing system. Any such notice shall be deemed to have been delivered on the day such notice is delivered to the relevant clearing system or if by mail, when so sent or deposited.

Consent to Jurisdiction; Service of Process

The Company and each of the Subsidiary Guarantors will irrevocably (1) submit to the non-exclusive jurisdiction of any U.S. federal or New York state court located in the Borough of Manhattan, The City of New York in connection with any suit, action or proceeding arising out of, or relating to, the Notes, any Subsidiary Guarantee, any JV Subsidiary Guarantee, the Indenture or any transaction contemplated thereby; and (2) designate and appoint Law Debenture Corporate Services Inc., with offices at 400 Madison Avenue, 4th Floor, New York, New York 10017 for receipt of service of process in any such suit, action or proceeding.

Governing Law

Each of the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Indenture provides that such instrument will be governed by, and construed in accordance with, the laws of the State of New York.

The Notes will be issued only in fully registered form, without coupons, in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof. No service charge will be made for any registration of transfer or exchange of the Notes, but the Company may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

All payments on the Notes will be made in U.S. dollars by the Company and the Company will maintain an office or agency (which initially will be the office of the Paying Agent currently located at Citibank, N.A., London Branch, c/o Citibank, N.A., Dublin Branch, Ground Floor, One North Wall Quay, Dublin 1, Republic of Ireland) where the Notes may be surrendered for registration of transfer or exchange or for presentation for payment or repurchase. Notwithstanding the immediately preceding sentence, at the option of the Company with the consent of the Paying Agent (such consent not to be unreasonably withheld) payment of interest may instead be made by check mailed (at the expense of the Company) to the address of the Holders as such address appears in the Note register. Interest payable on the Notes held through Euroclear or Clearstream will be available to Euroclear or Clearstream participants (as defined herein) on the Business Day following payment thereof. Notices and demands to

or upon the Company in respect of the Notes and the Indenture may be served at the office or agency of the Company maintained for that purpose (which initially will be the corporate trust office of the Trustee, currently located at 39/F, Champion Tower, 3 Garden Road, Central, Hong Kong).

The initial Subsidiary Guarantors that will execute the Indenture on the Original Issue Date will consist of Action Boom Limited (力昌有限公司), Ample Treasure Group Limited (寶豐集團有限公司), Ample Treasure Holding Limited (寶豐集團控股有限公司), ANJI (BVI) Limited (安基(BVI)有限公司), Bai Chang Limited (百昌有限公司), Billion Mark Limited, Chang Xing Holdings Limited (昌興控股有限公司), Cheung Fu Department Store Enterprise Limited (象富百貨集團有限公司), China Agriculture Technology Limited (中國農業科技有限公司), East Group International Holdings Limited (東盟國際控股有限公司), Ever Grace Group Limited (恒善集團有限公司), Ever Sure Industries Limited (永瑞實業有限公司), Fengyu (BVI) Limited (丰域(BVI)有限公司), Forbidden City Culture Co., Limited (紫禁城弘華文化有限公司), Fortune Luck Corporation Limited (順利有限公司), Full Hill Limited, Goldbridge Limited, Grandday Group Limited (朝隆集團有限公司), Grow Rising Investment Limited (晉廷投資有限公司), Honour Oasis Limited, Instant Choice Development Ltd., Jiading Holdings Limited (嘉鼎控股有限公司), Jiajian (BVI) Limited (嘉建(BVI)有限公司), Jiakang Holdings Limited (嘉康控股有限公司), Jiaying Holdings Limited (嘉穎控股有限公司), Jiayu Holdings Limited (嘉譽控股有限公司), Jiazhi Holdings Limited (嘉智控股有限公司), Lofty Reap Limited (上豐有限公司), Lucky Grow Holdings Limited (智煌控股有限公司), Lucky Universe Enterprises Limited (瑞宇企業有限公司), Lucky Universe Holding Limited (瑞宇集團有限公司), Luckyup Group Limited (昇祺集團有限公司), Marvel First Developments Limited, Metro Wisdom Limited (慧都有限公司), Minsin International (Holdings) Limited (明誠國際(集團)有限公司), Prime Sun Enterprises Limited (盛日企業有限公司), Prime Sun Holding Limited (盛日控股有限公司), Pyramid Wealth Holdings Limited, Shengjian (BVI) Limited (盛建(BVI)有限公司), Shengyu (BVI) Limited (盛譽(BVI)有限公司), Shui Wah Investment Limited (穗華投資有限公司), Thousand Grand Holding Limited (千宏控股有限公司), Tianji Holding Limited (天基控股有限公司), Value Depot Holdings Limited, Will Glory Holdings Limited (好耀控股有限公司), Wisdom Gain Group Limited (智盈集團有限公司), Xin Sheng Investments Limited (鑫昇投資有限公司) and Yitong (BVI) Limited (亿通(BVI)有限公司), which include all of the Company's Restricted Subsidiaries other than the Non-Guarantor Subsidiaries (defined below). The Subsidiary Guarantors are holding companies that do not have significant operations.

Other than the initial Subsidiary Guarantors, none of the Company's other Restricted Subsidiaries organized outside of the PRC (the "Other Non-Guarantor Subsidiaries") will be an initial Subsidiary Guarantor on the Original Issue Date. In addition, none of the Restricted Subsidiaries existing on the Original Issue Date that are Subsidiaries organized under the laws of the PRC and the future Restricted Subsidiaries that are organized under the laws of the PRC (together, the "PRC Restricted Subsidiaries"), the Exempted Subsidiaries and the Listed Subsidiaries (as long as they continue to be Exempted Subsidiaries or Listed Subsidiaries, as applicable) will provide a Subsidiary Guarantee or a JV Subsidiary Guarantee on the Original Issue Date or at any time in the future.

Although the Indenture contains limitations on the amount of additional Indebtedness that Non-Guarantor Subsidiaries may incur, the amount of such additional Indebtedness could be substantial.

In the case of a Restricted Subsidiary (i) that is, or is proposed by the Company or any of its Restricted Subsidiaries to be, established, or commences investment for the purposes of commencing business activities, after the Original Issue Date, (ii) that is incorporated in any jurisdiction other than the PRC and that is not an Exempted Subsidiary or a Listed Subsidiary and (iii) in respect of which the Company or any of its Restricted Subsidiaries (x) is proposing to sell, whether through the sale of existing Capital Stock or the issuance of new Capital Stock, no less than 20% of the Capital Stock of such Restricted Subsidiary or (y) is proposing to purchase Capital Stock of an entity and designate such entity as a Restricted Subsidiary, the Company may, concurrently with the consummation of such sale or purchase, provide a JV Subsidiary Guarantee (as defined below) instead of a Subsidiary Guarantee for

(a) such Restricted Subsidiary and (b) the Restricted Subsidiaries of such Restricted Subsidiary that are organized in any jurisdiction other than the PRC and that are not Exempted Subsidiaries or Listed Subsidiaries, if the following conditions, in the case of both (a) and (b), are satisfied:

- concurrently with providing the JV Subsidiary Guarantee (as defined below), the Company and such JV Subsidiary Guarantor have delivered to the Trustee and, in the case of the Security Documents, also to the Collateral Agent:
 - (i) (A) a duly executed Guarantee of such JV Subsidiary Guarantor (the “JV Subsidiary Guarantee”) and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC, an Exempted Subsidiary or a Listed Subsidiary and (B) a duly executed supplemental indenture to the Indenture pursuant to which the JV Subsidiary Guarantor will become a party to the Indenture pursuant to which such JV Subsidiary Guarantor will guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) a duly executed Security Document that pledges in favor of the Collateral Agent the Capital Stock of such JV Subsidiary Guarantor held by the Company or any Subsidiary Guarantor (subject to releases and discharges as permitted under the Indenture), but not the Capital Stock of the direct or indirect Subsidiaries of such JV Subsidiary Guarantor;
 - (iii) an Officers’ Certificate certifying a copy of the Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
 - (iv) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is valid, binding and enforceable against the JV Subsidiary Guarantor providing the JV Subsidiary Guarantee (subject to customary qualifications and assumptions).
- such sale or issuance of Capital Stock is made to, or such purchase of Capital Stock is purchased from, an Independent Third Party at a consideration that is not less than (in the case of a sale or issuance) or no more than (in the case of a purchase) the appraised value of such Capital Stock by an independent appraisal firm of recognized international standing appointed by the Company;
- all capital contributions (by way of transfer of cash or other property or any payment for property or services for the use of others or otherwise) to be made into a JV Subsidiary Guarantor from the date it provides its JV Subsidiary Guarantee shall be made directly or by contribution of assets or services having an equivalent Fair Market Value by (i) the Company and its Restricted Subsidiaries and (ii) such Independent Third Party in proportion to their respective direct or indirect ownership percentages of the Capital Stock of such JV Subsidiary Guarantor; and
- as of the date of execution of the JV Subsidiary Guarantee, no document exists that is binding on the Company or any such Restricted Subsidiaries that would have the effect of (a) prohibiting the Company or any such Restricted Subsidiaries from providing such JV Subsidiary Guarantee, or (b) requiring the Company or any such Restricted Subsidiaries to deliver or keep in place a guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee.

In the event of a bankruptcy, liquidation or reorganization of any Non-Guarantor Subsidiary, such Non-Guarantor Subsidiary will pay the holders of its debt and its trade creditors before it will be able to distribute any of its assets to the Company.

As of December 31, 2016,

- the Company and its consolidated subsidiaries had total consolidated borrowings of approximately RMB535,070 million (US\$77,066 million); and
- the Non-Guarantor Subsidiaries and Unrestricted Subsidiaries had total borrowings of approximately RMB450,433 million (US\$64,876 million).

In addition, as of December 31, 2016, the Non-Guarantor Subsidiaries and Unrestricted Subsidiaries had capital commitments of approximately RMB223,779 million (US\$32,231 million) and contingent liabilities arising from guarantees of approximately RMB257,448 million (US\$37,080 million).

The Subsidiary Guarantee of each Subsidiary Guarantor:

- is a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to the secured obligations of such Subsidiary Guarantor, to the extent of the value of the assets (other than the Collateral) serving as security therefor;
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee; and
- ranks at least *pari passu* with the Indebtedness of such Subsidiary Guarantor under its subsidiary guarantee with respect to the Existing Pari Passu Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law).

If any is provided, the JV Subsidiary Guarantee of each JV Subsidiary Guarantor:

- will be a general obligation of such JV Subsidiary Guarantor;
- will be enforceable only up to the JV Entitlement Amount;
- will be effectively subordinated to the secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- will be limited to the JV Entitlement Amount, and will be senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee; and
- will be limited to the JV Entitlement Amount, and will rank at least *pari passu* with the Indebtedness of such JV Subsidiary Guarantor under its JV Subsidiary Guarantee with respect to the Existing Pari Passu Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law).

The Company will cause (x) each of its future Restricted Subsidiaries (other than Persons organized under the laws of the PRC, Exempted Subsidiaries or Listed Subsidiaries), as soon as practicable after it becomes a Restricted Subsidiary and (y) each of its Exempted Subsidiaries and Listed Subsidiaries that remains as a Restricted Subsidiary, as soon as practicable after it ceases to be an Exempted Subsidiary or a Listed Subsidiary, as the case may be (each such Person in clause (x) or (y), a “Potential Subsidiary Guarantor”), to execute and deliver to the Trustee a supplemental indenture to the Indenture pursuant to which such Restricted Subsidiary will guarantee the payment of the Notes as a Subsidiary Guarantor or a JV Subsidiary Guarantor. Notwithstanding the foregoing sentence, the Company may elect to have any Restricted Subsidiary organized under laws outside the PRC not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at the time such entity becomes a Potential Subsidiary Guarantor (Restricted Subsidiaries (other than the PRC Restricted Subsidiaries, the Exempted Subsidiaries, the Listed Subsidiaries and the Other Non-Guarantor Subsidiaries) that do not provide Subsidiary Guarantees or JV Subsidiary Guarantees in accordance with the Indenture, the “New Non-Guarantor Subsidiaries”), *provided* that, after taking into account the consolidated assets of such Restricted Subsidiary, the Consolidated Assets of all Restricted Subsidiaries organized under laws outside the PRC (other than Exempted Subsidiaries and Listed Subsidiaries) that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors do not account for more than 20% of the Relevant Total Assets of the Company.

Each Restricted Subsidiary that guarantees the Notes after the Original Issue Date other than a JV Subsidiary Guarantor is referred to as a “Future Subsidiary Guarantor” and upon execution of the applicable supplemental indenture to the Indenture will be a “Subsidiary Guarantor.”

In addition, subject to the limitations described in the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral,” the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor:

- will be entitled to a security interest in the Collateral pledged by such Subsidiary Guarantor Pledgor, as described below under the section entitled “— Security,” to be shared on a *pari passu* basis with holders of the Existing Pari Passu Secured Indebtedness and holders of the Permitted Pari Passu Secured Indebtedness (or their representatives or agents), subject to any other Permitted Liens and the Intercreditor Agreement; and
- will rank effectively senior in right of payment to the unsecured obligations of such Subsidiary Guarantor Pledgor with respect to the value of the Collateral securing such Subsidiary Guarantee (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The JV Subsidiary Guarantee of each JV Subsidiary Guarantor will not be secured.

Under the Indenture, as supplemented from time to time, each of the Subsidiary Guarantors and JV Subsidiary Guarantors (if any) will jointly and severally guarantee the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes; *provided* that any JV Subsidiary Guarantee will be limited to the JV Entitlement Amount. The Subsidiary Guarantors and JV Subsidiary Guarantors will (1) agree that their respective obligations under the Subsidiary Guarantees and JV Subsidiary Guarantees, as the case may be, will be enforceable irrespective of any invalidity, irregularity or unenforceability of the Notes or the Indenture and (2) waive their right to require the Trustee to pursue or exhaust its legal or equitable remedies against the Company prior to exercising its rights under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be. Moreover, if at any time any amount paid under a Note or the Indenture is rescinded or must otherwise be restored, the rights of the Holders under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, will be reinstated with respect to such payment as though such payment had not been made. All payments under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, are required to be made in U.S. dollars.

Under the Indenture, as supplemented from time to time,

- each Subsidiary Guarantee will be limited to an amount not to exceed the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally; and
- each JV Subsidiary Guarantee will be limited to an amount which is the lower of (i) the JV Entitlement Amount and (ii) an amount not to exceed the maximum amount that can be guaranteed by the applicable JV Subsidiary Guarantor without rendering the JV Subsidiary Guarantee, as it relates to such JV Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

If a Subsidiary Guarantee or JV Subsidiary Guarantee were to be rendered voidable, it could be subordinated by a court to all other Indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, and, depending on the amount of such Indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee or a JV Subsidiary Guarantor's liability on its JV Subsidiary Guarantee, as the case may be, could in each case be reduced to zero. The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee and the enforceability of the Collateral granted in respect of the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor may be limited, or possibly invalid, under applicable laws. Similarly, the obligations of each JV Subsidiary Guarantor under its JV Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. See the section entitled "Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees."

Release of the Subsidiary Guarantees and JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor and a JV Subsidiary Guarantee given by a JV Subsidiary Guarantor may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon a defeasance as described under the section entitled "— Defeasance — Defeasance and Discharge;"
- upon the designation by the Company of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, as an Unrestricted Subsidiary in compliance with the terms of the Indenture;
- upon the sale, disposition or merger of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, in compliance with the terms of the Indenture (including the covenants under the sections entitled "— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries," "— Certain Covenants — Limitation on Asset Sales" and "— Consolidation, Merger and Sale of Assets") resulting in such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, no longer being a Restricted Subsidiary, so long as (1) such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, is simultaneously released from its obligations in respect of any of the Company's other Indebtedness or any Indebtedness of any other Restricted Subsidiary and (2) the proceeds from such sale, disposition or merger are used for the purposes permitted or required by the Indenture;

- in the case of a Subsidiary Guarantee, upon its replacement with a JV Subsidiary Guarantee;
- in the case of a Subsidiary Guarantor, upon its becoming a New Non-Guarantor Subsidiary in compliance with the terms of the Indenture; or
- when such Subsidiary Guarantor or JV Subsidiary Guarantor no longer Guarantees, or the Guarantee provided by such Subsidiary Guarantor or JV Subsidiary Guarantor is concurrently released with respect to, any Existing Pari Passu Secured Indebtedness and/or any Permitted Pari Passu Secured Indebtedness in compliance with the terms of the Indenture, provided that each of the Trustee and the Collateral Agent shall comply with a release request if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

In the case of a Subsidiary Guarantor with respect to which the Company or any of its Restricted Subsidiaries is proposing to sell, whether through the sale of existing Capital Stock or the issuance of new Capital Stock, no less than 20% of the Capital Stock of such Subsidiary Guarantor, the Company may concurrently with the consummation of such sale or issuance of Capital Stock, (a) request the Trustee to release the Subsidiary Guarantee provided by such Subsidiary Guarantor and the Subsidiary Guarantee provided by each of its Restricted Subsidiaries organized under laws outside the PRC, and upon such release such Subsidiary Guarantor and its Restricted Subsidiaries organized under laws outside the PRC will become New Non-Guarantor Subsidiaries (such that each New Non-Guarantor Subsidiary will no longer Guarantee the Notes) and (b) request the Collateral Agent to (i) discharge the pledge of the Capital Stock granted by each such New Non-Guarantor Subsidiary and (ii) discharge the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the Capital Stock it owns in each such New Non-Guarantor Subsidiary (in each case under (a) and (b), without any requirement to seek the consent or approval of the Holders of the Notes), *provided* that, after the release of such Subsidiary Guarantees, the Consolidated Assets of all Restricted Subsidiaries organized under laws outside the PRC (other than the Exempted Subsidiaries and Listed Subsidiaries) that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors (including the New Non-Guarantor Subsidiaries) do not account for more than 20% of the Relevant Total Assets. A Subsidiary Guarantee of a Subsidiary Guarantor may only be released pursuant to this paragraph if, as of the date of such proposed release, no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (x) prohibiting the Company or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee or (y) requiring the Company or such Subsidiary Guarantor to deliver or keep in place a guarantee of other Indebtedness of the Company by such Subsidiary Guarantor.

Each of the Trustee and the Collateral Agent shall comply with a request referred to in (a) or (b) above if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

Replacement of Subsidiary Guarantees with JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor may be released following the sale of existing Capital Stock or the issuance of new Capital Stock by the Company or any of its Restricted Subsidiaries in (a) such Subsidiary Guarantor or (b) any other Subsidiary Guarantor that, directly or indirectly, owns a majority of the Capital Stock of such Subsidiary Guarantor, in each case where such sale or issuance is for no less than 20% of the issued Capital Stock of the relevant Subsidiary Guarantor, *provided* that the following conditions are satisfied or complied with:

- concurrently with the release of such Subsidiary Guarantee, the Company and such JV Subsidiary Guarantor have delivered to the Trustee and, in the case of the Security Documents, also to the Collateral Agent:
 - (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC, an Exempted Subsidiary or a Listed Subsidiary and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor becomes a party to the Indenture as a JV Subsidiary Guarantor, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) a duly executed Security Document that pledges in favor of the Collateral Agent the Capital Stock of such JV Subsidiary Guarantor held by the Company or any Subsidiary Guarantor (subject to releases and discharges as permitted under the Indenture), but not the Capital Stock of the direct or indirect Subsidiaries of such JV Subsidiary Guarantor;
 - (iii) an Officers' Certificate certifying a copy of a Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
 - (iv) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is valid, binding and enforceable against the JV Subsidiary Guarantor providing the JV Subsidiary Guarantee (subject to customary qualifications and assumptions).
- such sale or issuance of Capital Stock is made to an Independent Third Party at a consideration that is not less than the appraised value of such Capital Stock by an independent appraisal firm of recognized international standing appointed by the Company;
- all capital contributions (by way of transfer of cash or other property or any payment for property or services for the use of others or otherwise) to be made into such JV Subsidiary Guarantor from the date of the sale of existing Capital Stock or issuance of new Capital Stock as referred to above, shall be made directly or by contribution of assets or services having an equivalent Fair Market Value by (i) the Company and its Restricted Subsidiaries and (ii) such Independent Third Party that purchased or subscribed for Capital Stock in the JV Subsidiary Guarantor in proportion to their respective direct or indirect ownership percentages of the Capital Stock of such JV Subsidiary Guarantor; and
- as of the date of such proposed release, no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (a) prohibiting the Company or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee, (b) prohibiting the Company or any of the Restricted Subsidiaries from providing such JV

Subsidiary Guarantee or (c) requiring the Company or any of the Restricted Subsidiaries to deliver or keep in force a replacement guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee.

Notwithstanding the foregoing paragraph, any such sale or issuance of the Capital Stock of the relevant Subsidiary Guarantor (including where such sale results in the relevant Subsidiary Guarantor ceasing to be a Restricted Subsidiary) will need to comply with the other covenants set forth in the Indenture, including, without limitation, the “Limitation on Asset Sales” and “Limitation on Restricted Payments” covenants.

Any Net Cash Proceeds from the sale of such Capital Stock shall be applied by the Company (or any Restricted Subsidiary) in accordance with the “Limitation on Asset Sales” covenant.

As of the date of the Indenture, all of the Company’s Subsidiaries will be “Restricted Subsidiaries” other than City Expert (Ningbo) Property Co., Ltd. (城博(寧波)置業有限公司), City Expert Limited (城博有限公司), Exalt Boom Investments Limited (晉昌投資有限公司), Exalt Prosper Limited (上盛有限公司), Fortex Development Limited (嘉達發展有限公司), Foshan Nanhai Juncheng Property Development Co., Ltd. (佛山市南海俊誠房地產開發有限公司), Global City Development Limited, Ideal Market Holdings Limited (旭智控股有限公司), Key Alliance Investments Limited (建聯投資有限公司), Mass Thrive Holding Limited (群盛控股有限公司), Mass Thrive Limited (群盛有限公司), Ningbo Sanli Jiada Property Co., Ltd. (寧波三立嘉達置業有限公司), Ningbo Sanli Xianghe Property Co., Ltd. (寧波三立祥和置業有限公司), Ningbo Sanli Yongheng Property Co., Ltd. (寧波三立甬恒置業有限公司), Ningbo Yucheng Property Co., Ltd. (寧波御誠置業有限公司), Pioneer Time Investment Limited, Prosper Trade Investments Limited (興業投資有限公司), Ray Shine Group Limited (利輝集團有限公司) and Wuhan Donghu Hengda Real Estate Development Co., Ltd. (武漢東湖恒大房地產開發有限公司) and any Subsidiary of these Subsidiaries. However, under the circumstances described below under the section entitled “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries,” the Company will be permitted to designate certain of its Subsidiaries as “Unrestricted Subsidiaries.” The Company’s Unrestricted Subsidiaries will generally not be subject to the restrictive covenants in the Indenture. The Company’s Unrestricted Subsidiaries will not guarantee the Notes.

Security

The Company has agreed, for the benefit of the Holders, to pledge, or cause the initial Subsidiary Guarantor Pledgors to pledge, as the case may be, the Capital Stock owned directly by the Company or the initial Subsidiary Guarantor Pledgors of each initial Subsidiary Guarantor (the “Collateral”), or extend the benefit of the security interest over the Collateral, subject to any Permitted Lien and the Intercreditor Agreement, on the Original Issue Date in order to secure the obligations of the Company under the Notes and the Indenture and of such initial Subsidiary Guarantor Pledgors under their respective Subsidiary Guarantees.

The Company and the initial Subsidiary Guarantor Pledgors pledged the Collateral on January 19, 2011, June 10, 2011, September 7, 2011, October 15, 2013, May 27, 2016 and September 29, 2016 (subject to Permitted Liens and the Intercreditor Agreement) in order to secure certain obligations of the Company and such initial Subsidiary Guarantor Pledgors, including the Existing Notes and the related subsidiary guarantees (the “Share Charges”).

The trustee for each series of the Existing Notes and the Collateral Agent entered into the Intercreditor Agreement dated January 19, 2011, as supplemented from time to time. See “— Intercreditor Agreement.”

None of the Capital Stock of (i) the Non-Guarantor Subsidiaries (and Subsidiaries thereof) (for so long as they continue to be Non-Guarantor Subsidiaries) or (ii) any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary will be pledged on the Original Issue Date or at any time in the future. In addition, none of the Capital Stock of any future Non-Guarantor Subsidiary (and Subsidiaries thereof) and any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary will be pledged at any time in the future. If any JV Subsidiary Guarantor is established, the Capital Stock of such JV Subsidiary Guarantor owned directly by the Company or any Subsidiary Guarantor will be pledged to secure the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, as the case may be, in the manner described above. However, none of the JV Subsidiary Guarantors will provide a Security Document pledging the Capital Stock of its direct or indirect Subsidiaries as security in favor of the Collateral Agent (as defined below).

The Company has also agreed, for the benefit of the Holders, to pledge, or cause each Subsidiary Guarantor (other than a JV Subsidiary Guarantor, if any) to pledge, the Capital Stock owned directly by the Company or such Subsidiary Guarantor of any Person that (i) becomes a Restricted Subsidiary (other

than any Non-Guarantor Subsidiary and its Subsidiaries and any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary) after the Original Issue Date, (ii) (in the case of an Exempted Subsidiary or a Listed Subsidiary that remains as a Restricted Subsidiary) has ceased to be either an Exempted Subsidiary or a Listed Subsidiary or (iii) (in the case of a Non-Guarantor Subsidiary that remains as a Restricted Subsidiary) has ceased to be a Non-Guarantor Subsidiary, as soon as reasonably practicable (but in any event within 30 days) after such Person has become a Restricted Subsidiary or has ceased to be an Exempted Subsidiary, a Listed Subsidiary or a Non-Guarantor Subsidiary, as applicable, to secure (subject to Permitted Liens and the Intercreditor Agreement) the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, in the manner described above.

Each Subsidiary Guarantor that pledges capital stock of a Restricted Subsidiary after the Original Issue Date is referred to as a “Future Subsidiary Guarantor Pledgor” and, upon giving such pledge, will be a “Subsidiary Guarantor Pledgor.”

The value of the Collateral securing the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness of the Subsidiary Guarantor Pledgors and the Permitted *Pari Passu* Secured Indebtedness (if any) is unlikely to be sufficient to satisfy the Company’s and each of the Subsidiary Guarantor Pledgors’ obligations under the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness of the subsidiary guarantor pledgors and the Permitted *Pari Passu* Secured Indebtedness, and the Collateral securing these obligations may be reduced or diluted under certain circumstances, including the issuance of Additional Notes and other Permitted *Pari Passu* Secured Indebtedness and the disposition of assets comprising the Collateral, subject to the terms of the Indenture. See the sections entitled “— Release of Security” and “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The value of the Collateral will likely not be sufficient to satisfy our obligations under the Notes and other *pari passu* secured indebtedness.”

No appraisals of the Collateral have been prepared in connection with this offering of the Notes. There can be no assurance that the proceeds of any sale of the Collateral, in whole or in part, pursuant to the Indenture and the Security Documents following an Event of Default would be sufficient to satisfy amounts due on the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness or the Permitted *Pari Passu* Secured Indebtedness. By its nature, some or all of the Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Collateral would be sold in a timely manner or at all.

So long as no Payment Default has occurred and is continuing, and subject to the terms of the Security Documents and the Indenture, the Company and the Subsidiary Guarantor Pledgors, as the case may be, will be entitled to exercise any and all voting rights and to receive, retain and use any and all cash dividends, stock dividends, liquidating dividends, non-cash dividends, shares or stock resulting from stock splits or reclassifications, rights issues, warrants, options and other distributions (whether similar or dissimilar to the foregoing) in respect of Capital Stock constituting Collateral.

Permitted Pari Passu Secured Indebtedness

On or after the Original Issue Date, the Company and each Subsidiary Guarantor Pledgor may create Liens on the Collateral *pari passu* with the Lien for the benefit of the Holders to secure Indebtedness of the Company (including Additional Notes) and any *Pari Passu* Subsidiary Guarantee of a Subsidiary Guarantor Pledgor (such Indebtedness of the Company and any such *Pari Passu* Subsidiary Guarantee, “Permitted *Pari Passu* Secured Indebtedness”); *provided* that (1) the Company or such Subsidiary Guarantor Pledgor was permitted to Incur such Indebtedness under the covenant under the section entitled “— Certain Covenants — Limitation on Indebtedness and Preferred Stock,” (2) the holders of such Indebtedness (or their representative or agent) become party to the Intercreditor

Agreement referred to below; and (3) the Company and such Subsidiary Guarantor Pledgor deliver to the Trustee and the Collateral Agent an Opinion of Counsel and an Officers' Certificate with respect to corporate and collateral matters in connection with the Security Documents, stating that either (x) all necessary actions have been taken with respect to the recording, registering and filing of the Security Documents, financing statements or other instruments necessary to make effective the Liens intended to be created by the Security Documents, and reciting the details of such action or (y) no such action is necessary to make such Lien effective. The Trustee and the Collateral Agent will be permitted and authorized, without the consent of any Holder, to enter into any amendment to the Security Documents, the Intercreditor Agreement or the Indenture and take any other action necessary to permit the creation and registration of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with this paragraph (including, without limitation, the appointment of any collateral agent under the Intercreditor Agreement referred to below to hold the Collateral on behalf of the Holders and the holders of Permitted Pari Passu Secured Indebtedness (the "Collateral Agent").

Except for certain Permitted Liens and the Permitted Pari Passu Secured Indebtedness, the Company and its Restricted Subsidiaries will not be permitted to issue or Incur any other Indebtedness secured by all or any portion of the Collateral without the consent of each Holder of the Notes then outstanding.

Intercreditor Agreement

On January 19, 2011, the Company entered into an intercreditor agreement (as amended, waived, restated, replaced and/or supplemented from time to time, the "Intercreditor Agreement") with, among others, the Subsidiary Guarantor Pledgors and the Collateral Agent, as acceded to by holders (or representatives, agents or trustees thereof) of Existing Pari Passu Secured Indebtedness.

On the Original Issue Date, the Trustee will accede to the Intercreditor Agreement, whereupon the Holders of the Notes will share equal priority and *pro rata* entitlement in and to the Collateral with the holders of any Existing Pari Passu Secured Indebtedness remaining outstanding after the Original Issue Date and any other creditors with respect to Permitted Pari Passu Secured Indebtedness. Immediately prior to the Original Issue Date, the Existing Pari Passu Secured Indebtedness amounted to an aggregate principal amount of US\$5.7 billion.

Prior to or concurrently with the first Incurrence of any Permitted Pari Passu Secured Indebtedness (other than Additional Notes) after the Original Issue Date, the Intercreditor Agreement may be amended, without requiring instruction from the Holders, to include the holders of such Permitted Pari Passu Secured Indebtedness (or their representative or agent) as additional secured parties to the agreement.

Enforcement of Security

The benefit of the Lien over the Collateral granted to the Collateral Agent will be extended to secure the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, subject to any Permitted Lien and the Intercreditor Agreement. Subject to the Intercreditor Agreement, the Collateral Agent (for the benefit the Holders), will hold such Liens and security interests in the Collateral granted pursuant to the Security Documents with sole authority as directed by the written instruction of the Holders (through the Trustee) to exercise remedies under the Security Documents. The Trustee has agreed to act as secured party on behalf of the Holders under the applicable Security Documents, to follow the instructions provided to it under the Indenture and to carry out certain other duties.

The Indenture and/or the Security Documents principally provide that, at any time while the Notes are outstanding, subject to the Intercreditor Agreement, the Collateral Agent has the exclusive right to manage, perform and enforce the terms of the Security Documents relating to the Collateral and to exercise and enforce all privileges, rights and remedies thereunder according to the direction of the secured parties thereto, including to take or retake control or possession of such Collateral and to hold,

prepare for sale, process, lease, dispose of or liquidate such Collateral, including, without limitation, following the occurrence of an Event of Default under the Indenture. However, although the Trustee may instruct the Collateral Agent to foreclose the Collateral upon the occurrence of an Event of Default that is continuing, such instruction may be overruled by a contrary instruction to the Collateral Agent from holders of more than 50% of the indebtedness that is subject to the Intercreditor Agreement. See the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The value of the Collateral will likely not be sufficient to satisfy our obligations under the Notes and other *pari passu* secured indebtedness.”

The Intercreditor Agreement principally provides that, at any time while the Intercreditor Agreement is in force, the Collateral Agent has the exclusive right to manage, perform and enforce the terms of the Security Documents and the security documents for any Permitted Pari Passu Secured Indebtedness relating to the Collateral. See “— Intercreditor Agreement.”

All payments received and all amounts held by the Collateral Agent in respect of the Collateral under the Security Documents will be, subject to the Intercreditor Agreement, in the following order of priority:

first, to the Collateral Agent to the extent necessary to reimburse the Collateral Agent for any unpaid fees, costs and expenses (including expenses of any receiver appointed under any Security Document and reasonable expenses of its counsel) properly incurred in connection with its duties under the Intercreditor Agreement including without limitation, the collection, distribution or enforcement of such amounts held or realized or in connection with expenses properly incurred under the Intercreditor Agreement in enforcing all available remedies under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted Pari Passu Secured Indebtedness that is subject to the Intercreditor Agreement and preserving the Collateral and all indemnification payments for which the Collateral Agent is entitled to under the Security Documents;

second, to the extent not reimbursed under the above paragraph, to the trustee for each series of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for each Existing Bank Loan, the Trustee and, to the extent applicable, the holder of any Permitted Pari Passu Secured Indebtedness (in the case of a sole creditor of any series of Permitted Pari Passu Secured Indebtedness only) or the representative or agent of any holders of any series of Permitted Pari Passu Secured Indebtedness, to the extent necessary to reimburse the foregoing persons ratably for any unpaid fees, costs and expenses (including fees and expenses of any paying agents, transfer agents, registrars or other agents in connection therewith appointed in connection with the foregoing and reasonable fees and expenses of counsel) reasonably incurred under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted Pari Passu Secured Indebtedness (or any other document in connection with the foregoing that such paying agents, transfer agents, registrars or other agents are party to) in connection with the collection or distribution of such amounts held or realized or in connection with expenses incurred in enforcing all available remedies under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted Pari Passu Secured Indebtedness that is subject to the Intercreditor Agreement and preserving the Collateral and all indemnification payments for which the foregoing persons are entitled to under the Security Documents;

third, ratably to each of the trustee for each series of the Existing Notes for the benefit of the holders of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for the benefit of the lenders under each Existing Bank Loan, the Trustee for the benefit of the Holders and, to the extent applicable, to holders (or their representative or agent) of Permitted Pari Passu Secured Indebtedness, inclusive of any reasonable fees and expenses of each of the trustee for each

series of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for each Existing Bank Loan, the Trustee and the holders (or their representative or agent) of Permitted Pari Passu Secured Indebtedness (to the extent not paid pursuant to the above second paragraph), and the principal, interest and premium thereon and for the benefit of the holders of each thereof in accordance with the terms of the relevant document governing the foregoing indebtedness; and

lastly, any surplus remaining after such payments will be paid to the Company (for itself and any Subsidiary Guarantor Pledgors) or to whomever may be lawfully entitled thereto.

The Collateral Agent may decline to foreclose on the Collateral or exercise remedies available if it does not receive indemnification and/or security to its satisfaction. In addition, the Collateral Agent's ability to foreclose on the Collateral may be subject to lack of perfection, the consent of third parties, prior Liens and practical problems associated with the realization of the Collateral Agent's Liens on the Collateral. Neither the Collateral Agent nor any of its officers, directors, employees, attorneys or agents will be responsible or liable for the existence, genuineness, value or protection of any Collateral securing the Notes, for the legality, enforceability, effectiveness or sufficiency of the Security Documents, for the creation, perfection, priority, sufficiency or protection of any of the Liens, for any defect or deficiency as to any such matters, or for any failure to demand, collect, foreclose or realize upon or otherwise enforce any of the Liens or Security Documents or any delay in doing so.

The Security Documents provide that the Company and the Subsidiary Guarantor Pledgors will indemnify the Collateral Agent for all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind imposed against the Collateral Agent arising out of the Security Documents except to the extent that any of the foregoing are finally judicially determined to have resulted from the gross negligence or willful misconduct of the Collateral Agent.

This section, "— Enforcement of Security," shall be subject to any amendments to the Security Documents or the Indenture to permit the creation of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with the section entitled "— Permitted Pari Passu Secured Indebtedness" above.

Release of Security

The security created in respect of the Collateral granted under the Security Documents may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon defeasance and discharge of the Notes as provided below under the section entitled "— Defeasance — Defeasance and Discharge;"
- upon certain dispositions of the Collateral in compliance with the covenants under the sections entitled "— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries" or "— Certain Covenants — Limitation on Asset Sales" or in accordance with the provisions under the section entitled "— Consolidation, Merger and Sale of Assets;"
- with respect to security granted by a Subsidiary Guarantor Pledgor, upon the release of the Subsidiary Guarantee of such Subsidiary Guarantor Pledgor in accordance with the terms of the Indenture;
- upon execution of a JV Subsidiary Guarantee to replace a Subsidiary Guarantee, with respect to all pledges of Capital Stock previously granted by such Subsidiary Guarantor, now a JV Subsidiary Guarantor, in its direct and indirect Subsidiaries, and in accordance with the terms of the Indenture;

- upon a Subsidiary Guarantor becoming a New Non-Guarantor Subsidiary, with respect to the release of any pledge of Capital Stock previously granted by such Subsidiary Guarantor, now a New Non-Guarantor Subsidiary, and the release of the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the Capital Stock it owns in such New Non-Guarantor Subsidiary;
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the release of the Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, of such Subsidiary Guarantor or JV Subsidiary Guarantor, and in accordance with the terms of the Indenture;
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the designation by the Company of such Subsidiary Guarantor or JV Subsidiary Guarantor as an Unrestricted Subsidiary, and in accordance with the terms of the Indenture; or
- with respect to the Lien over the Collateral (or any portion thereof) pledged to secure the Notes, either upon (i) the repayment in full of all amounts owing by the Company or any Subsidiary Guarantors or JV Subsidiary Guarantors under the Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness or (ii) the prior or concurrent release of the Lien on the Collateral securing all Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness; *provided* that in each case, no Default has occurred and is continuing on such date and no Default would have occurred as a result of such release, and each of the Trustee and the Collateral Agent shall comply with a release request if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

Further Issues

Subject to the covenants described below, the Company may, from time to time, without notice to or the consent of the Holders, create and issue Additional Notes having the same terms and conditions as the Notes (including the benefit of the Subsidiary Guarantees and JV Subsidiary Guarantees (if any)) in all respects (or in all respects except for the issue date, issue price and the first payment of interest on them and, to the extent necessary, certain temporary securities law transfer restrictions) ("Additional Notes") so that such Additional Notes may be consolidated and form a single class with the previously outstanding Notes and vote together as one class on all matters with respect to the Notes; *provided* that the issuance of any such Additional Notes shall then be permitted under the "Limitation on Indebtedness and Preferred Stock" covenant described below and the other provisions of the Indenture.

Optional Redemption

On or after _____, 2020, the Company may on any one or more occasions redeem all or any part of the Notes, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest, if any, on the Notes redeemed, to (but not including) the applicable date of redemption, if redeemed during the twelve-month period beginning on _____ of the years indicated below:

Year	Redemption Price
2020	%
2021	%
2022 and thereafter	%

At any time prior to _____, 2020, the Company may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to (but not including), the redemption date. Neither the Trustee nor the Paying Agent shall be responsible for calculating or verifying the Applicable Premium.

At any time and from time to time prior to _____, 2020, the Company may redeem up to 35% of the aggregate principal amount of the Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of _____ % of the principal amount of the Notes redeemed, plus accrued and unpaid interest, if any, to (but not including) the redemption date; *provided* that at least 65% of the aggregate principal amount of the Notes originally issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

The Company will give not less than 30 days' nor more than 60 days' notice of any redemption. If less than all of the Notes are to be redeemed at any time, the Notes will be selected for redemption as follows:

- (1) if the Notes are listed on any national securities exchange or are held through a clearing system, in compliance with the requirements of the principal national securities exchange on which the Notes are listed (if any) or the requirements of the clearing system; or
- (2) if the Notes are not listed on any national securities exchange, on a *pro rata* basis, by lot or by such method as the Trustee deems fair and appropriate unless otherwise required by law.

A Note of US\$200,000 in principal amount or less shall not be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. A new Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note. On and after the redemption date, interest will cease to accrue on Notes or portions of them called for redemption.

Repurchase of Notes Upon a Change of Control Triggering Event

Not later than 30 days following a Change of Control Triggering Event, the Company will make an Offer to Purchase all outstanding Notes (a "Change of Control Offer") at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to (but not including) the Offer to Purchase Payment Date.

The Company has agreed in the Indenture that it will timely repay all Indebtedness or obtain consents as necessary under, or terminate, agreements or instruments that would otherwise prohibit a Change of Control Offer required to be made pursuant to the Indenture. Notwithstanding this agreement

of the Company, it is important to note that if the Company is unable to repay (or cause to be repaid) all of the Indebtedness, if any, that would prohibit repurchase of the Notes or is unable to obtain the requisite consents of the holders of such Indebtedness, or terminate any agreements or instruments that would otherwise prohibit a Change of Control Offer, it would continue to be prohibited from purchasing the Notes. In that case, the Company's failure to purchase tendered Notes would constitute an Event of Default under the Indenture.

Certain of the events constituting a Change of Control Triggering Event under the Notes will also constitute an event of default under certain debt instruments of the Company and its Subsidiaries. Future debt of the Company may also (1) prohibit the Company from purchasing Notes in the event of a Change of Control Triggering Event; (2) provide that a Change of Control Triggering Event is a default; or (3) require repurchase of such debt upon a Change of Control Triggering Event. Moreover, the exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under other Indebtedness, even if the Change of Control Triggering Event itself does not, due to the financial effect of the purchase on the Company. The Company's ability to pay cash to the Holders following the occurrence of a Change of Control Triggering Event may be limited by the Company's and the Subsidiary Guarantors' then-existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See the section entitled "Risk Factors — Risks Relating to the Notes — We may not be able to repurchase the Notes and the Existing Notes upon a change of control triggering event." The phrase "all or substantially all," as used with respect to the assets of the Company in the definition of "Change of Control," will likely be interpreted under applicable law of the relevant jurisdictions and will be dependent upon particular facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of "all or substantially all" the assets of the Company has occurred.

Notwithstanding the above, the Company will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the same manner at the same time and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Except as described above with respect to a Change of Control Triggering Event, the Indenture does not contain provisions that permit the Holders to require that the Company purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

No Mandatory Redemption or Sinking Fund

There will be no mandatory redemption or sinking fund payments for the Notes.

Additional Amounts

All payments by or on behalf of the Company, a Surviving Person (as defined under “—Consolidation, Merger and Sale of Assets”), a Subsidiary Guarantor, a JV Subsidiary Guarantor or a Subsidiary Guarantor Pledgor of principal of, and premium (if any) and interest on, the Notes and any payments under the Subsidiary Guarantees or JV Subsidiary Guarantees (if any) and under the Security Documents will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or within any jurisdiction in which the Company, a Surviving Person or the applicable Subsidiary Guarantor or JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor is organized or resident for tax purposes (or any political subdivision or taxing authority thereof or therein) (each, as applicable, a “Relevant Taxing Jurisdiction”) or any jurisdiction through which payments on the Notes or a Guarantee are made (or any political subdivision or taxing authority thereof or therein) (as applicable and together with the Relevant Taxing Jurisdictions, each, a “Relevant Jurisdiction”), unless such withholding or deduction is required by law or by regulation or governmental policy having the force of law. In the event that any such withholding or deduction is so required, the Company, a Surviving Person, the applicable Subsidiary Guarantor, JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor, as the case may be, will pay such additional amounts (“Additional Amounts”) as will result in receipt by the Holder of each Note of such amounts as would have been received by such Holder had no such withholding or deduction been required, except that no Additional Amounts shall be payable:

(1) for or on account of:

- (a) any tax, duty, assessment or other governmental charge that would not have been imposed but for:
 - (i) the existence of any present or former connection between the Holder or beneficial owner of such Note and the Relevant Jurisdiction other than merely holding such Note or the receipt of payments thereunder or under a Subsidiary Guarantee, JV Subsidiary Guarantee or Security Document, including, without limitation, such Holder or beneficial owner being or having been a national, domiciliary or resident of such Relevant Jurisdiction or treated as a resident thereof or being or having been physically present or engaged in a trade or business therein or having or having had a permanent establishment therein;
 - (ii) the presentation of such Note (in cases in which presentation is required) more than 30 days after the later of the date on which the payment of the principal of, premium, if any, and interest on, such Note became due and payable pursuant to the terms thereof or was made or duly provided for, except to the extent that the Holder thereof would have been entitled to such Additional Amounts if it had presented such Note for payment on any date within such 30-day period;
 - (iii) the failure of the Holder or beneficial owner to comply with a timely request of the Company, a Surviving Person, any Subsidiary Guarantor, JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor, addressed to the Holder to provide information concerning such Holder’s or beneficial owner’s nationality, residence, identity or connection with any Relevant Jurisdiction, if and to the extent that due and timely compliance with such request is required by law to reduce or eliminate any withholding or deduction as to which Additional Amounts would have otherwise been payable to such Holder; or
 - (iv) the presentation of such Note (in cases in which presentation is required) for payment in the Relevant Jurisdiction, unless such Note could not have been presented for payment elsewhere;

- (b) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;
 - (c) any tax, assessment, withholding or deduction required by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (“FATCA”), any current or future Treasury Regulations or rulings promulgated thereunder, any intergovernmental agreement between the United States and any other jurisdiction to implement FATCA, any law, regulation or other official guidance enacted in any jurisdiction implementing FATCA, or any agreement with the U.S. Internal Revenue Service under FATCA; or
 - (d) any combination of taxes, duties, assessments or other governmental charges referred to in the preceding clauses (a), (b) and (c); or
- (2) to a Holder that is a fiduciary, partnership or person other than the sole beneficial owner of any payment to the extent that such payment would be required to be included in the income under the laws of a Relevant Jurisdiction, for tax purposes, of a beneficiary or settlor with respect to the fiduciary, or a member of that partnership or a beneficial owner who would not have been entitled to such Additional Amounts had that beneficiary, settlor, partner or beneficial owner been the Holder thereof.

Whenever there is mentioned in any context the payment of principal of, and any premium or interest on, any Note or under any Subsidiary Guarantee, JV Subsidiary Guarantee or Security Document, such mention shall be deemed to include payment of Additional Amounts provided for in the Indenture to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Redemption for Taxation Reasons

The Notes may be redeemed, at the option of the Company or a Surviving Person, as a whole but not in part, upon giving not less than 30 days’ nor more than 60 days’ notice to the Holders and upon reasonable notice in advance of such notice to Holders to the Trustee, Paying Agent and Transfer Agent (which notice shall be irrevocable), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest (including any Additional Amounts), if any, to the date fixed by the Company or the Surviving Person, as the case may be, for redemption (the “Tax Redemption Date”) if, as a result of:

- (1) any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of a Relevant Taxing Jurisdiction affecting taxation; or
- (2) any change in the existing official position or the stating of an official position regarding the application or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction),

which change or amendment becomes effective (i) with respect to the Company or any initial Subsidiary Guarantor, on or after the Original Issue Date, or (ii) with respect to any Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, on or after the date such Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person becomes a Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, with respect to any payment due or to become due under the Notes or the Indenture, the Company, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, is, or on the next Interest Payment Date would be, required to pay Additional Amounts, and such requirement cannot be avoided by the taking of reasonable measures by the Company, such Surviving Person, Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be; *provided* that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Company, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, would be obligated to pay such Additional Amounts if a payment in respect of the Notes were then due.

Prior to the mailing of any notice of redemption of the Notes pursuant to the foregoing, the Company, a Surviving Person, Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, will deliver to the Trustee at least 30 days but not more than 60 days before the Tax Redemption Date:

- (1) an Officers' Certificate stating that such change or amendment referred to in the prior paragraph has occurred, describing the facts related thereto and stating that such requirement cannot be avoided by the Company, a Surviving Person, Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, taking reasonable measures available to it; and
- (2) an Opinion of Counsel or an opinion of a tax consultant, in either case of recognized standing with respect to tax matters of the Relevant Taxing Jurisdiction, stating that the requirement to pay such Additional Amounts results from such change or amendment referred to in the prior paragraph.

The Trustee shall accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above, in which event it shall be conclusive and binding on the Holders.

Any Notes that are redeemed will be canceled.

Certain Covenants

Set forth below are summaries of certain covenants contained in the Indenture.

Limitation on Indebtedness and Preferred Stock

- (1) The Company will not, and will not permit any Restricted Subsidiary to, Incur any Indebtedness (including Acquired Indebtedness), and the Company will not permit any Restricted Subsidiary to issue Preferred Stock, *provided* that the Company or any Subsidiary Guarantor may Incur Indebtedness (including Acquired Indebtedness) and any Restricted Subsidiary (other than a Subsidiary Guarantor) may Incur Permitted Subsidiary Indebtedness if, after giving effect to the Incurrence of such Indebtedness and the receipt and application of the proceeds therefrom, (x) no Default has occurred and is continuing and (y) the Fixed Charge Coverage Ratio would be not less than 2.5 to 1.0. Notwithstanding the foregoing, the Company will not permit any Restricted Subsidiary to Incur any Disqualified Stock (other than Disqualified Stock held by the Company or a Subsidiary Guarantor, so long as it is so held).
- (2) Notwithstanding the foregoing, the Company and, to the extent provided below, any Restricted Subsidiary may Incur each and all of the following ("Permitted Indebtedness"):

- (d) that otherwise would be prohibited by the provision described in clause (1)(d) of this covenant if they arise, or are agreed to, in the ordinary course of business and, that (i) restrict in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease or license, or (ii) exist by virtue of any Lien on, or agreement to transfer, option or similar right with respect to any property or assets of the Company or any Restricted Subsidiary not otherwise prohibited by the Indenture or (iii) do not relate to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of property or assets of the Company or any Restricted Subsidiary in any manner material to the Company or any Restricted Subsidiary;
- (e) with respect to a Restricted Subsidiary and imposed pursuant to an agreement that has been entered into for the sale or disposition of all or substantially all of the Capital Stock of, or property and assets of, such Restricted Subsidiary that is permitted by the covenants entitled “— Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries,” “— Limitation on Indebtedness and Preferred Stock” and “— Limitation on Asset Sales;”
- (f) with respect to any Restricted Subsidiary and imposed pursuant to an agreement that has been entered into for the Incurrence of Indebtedness or issuance of Preferred Stock of the type described under clause (2)(h), (2)(n), (2)(o), (2)(p), (2)(q), (2)(r), (2)(s), (2)(t), (2)(u), 2(v) or 2(w) of the covenant entitled “— Limitation on Indebtedness and Preferred Stock” if the encumbrances or restrictions are (i) customary for such types of agreements and (ii) would not, at the time agreed to, be expected to materially and adversely affect the ability of the Company to make required payment on the Notes and any extensions, refinancings, renewals or replacements of any of the foregoing agreements; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced, *provided further* that, the Board of Directors is empowered to determine as to whether of the conditions set forth in clauses (i) and (ii) are met, which determination shall be conclusive if evidenced by a Board Resolution;
- (g) existing in customary provisions in joint venture agreements and other similar agreements permitted under the Indenture, to the extent such encumbrance or restriction relates to the activities or assets of a Restricted Subsidiary that is a party to such joint venture and if (i) the encumbrances or restrictions are customary for a joint venture or similar agreement of that type and (ii) the encumbrances or restrictions would not, at the time agreed to, be expected to materially and adversely affect (x) the ability of the Company to make the required payments on the Notes, or (y) any Subsidiary Guarantor or JV Subsidiary Guarantor to make required payments under its Subsidiary Guarantee

or JV Subsidiary Guarantee, *provided further* that, the Board of Directors is empowered to determine as to whether of the conditions set forth in clauses (i) and (ii) are met, which determination shall be conclusive if evidenced by a Board Resolution; or

- (h) existing with respect to any Unrestricted Subsidiary or the property or assets of such Unrestricted Subsidiary that is designated as a Restricted Subsidiary in accordance with the terms of the Indenture at the time of such designation and not incurred in contemplation of such designation, which encumbrances or restrictions are not applicable to any Person or the property or assets of any Person other than such Subsidiary or its subsidiaries or the property or assets of such Subsidiary or its subsidiaries, and any extensions, refinancing, renewals or replacements thereof; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced.

Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries

The Company will not sell, and will not permit any Restricted Subsidiary, directly or indirectly, to issue or sell any shares of Capital Stock of a Restricted Subsidiary (including options, warrants or other rights to purchase shares of such Capital Stock) except:

- (1) to the Company or a Wholly Owned Restricted Subsidiary, or in the case of a Restricted Subsidiary that is not Wholly Owned, *pro rata* to its shareholders or incorporators;
- (2) to the extent such Capital Stock represents director's qualifying shares or is required by applicable law to be held by a Person other than the Company or a Wholly Owned Restricted Subsidiary;
- (3) for the issuance or sale of the Capital Stock of a Restricted Subsidiary if, immediately after giving effect to such issuance or sale, such Restricted Subsidiary would no longer constitute a Restricted Subsidiary and any remaining Investment in such Person would have been permitted to be made under the "— Limitation on Restricted Payments" covenant if made on the date of such issuance or sale and provided that the Company complies with the "— Limitation on Asset Sales" covenant; *provided* that, paragraph (18)(b) of the definition of "Permitted Investments" shall not apply if such Investment would otherwise have been permitted under paragraph (18) of such definition; and
- (4) the issuance or sale of Capital Stock of a Restricted Subsidiary (which remains a Restricted Subsidiary after any such issuance or sale); *provided* that the Company or such Restricted Subsidiary applies the Net Cash Proceeds of such issuance or sale in accordance with the covenant entitled "— Limitation on Asset Sales."

Limitation on Issuances of Guarantees by Restricted Subsidiaries

The Company will not permit any Restricted Subsidiary which is not a Subsidiary Guarantor or a JV Subsidiary Guarantor, directly or indirectly, to Guarantee any Indebtedness ("Guaranteed Indebtedness") of the Company or any Subsidiary Guarantor, unless (1) (a) such Restricted Subsidiary, simultaneously executes and delivers a supplemental indenture to the Indenture providing for an unsubordinated Subsidiary Guarantee (in the case of a Subsidiary Guarantor) or JV Subsidiary Guarantee (in the case of a JV Subsidiary Guarantor) of payment of the Notes by such Restricted Subsidiary and (b) such Restricted Subsidiary waives, and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Company or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, until the Notes have

been paid in full or (2) such Guarantee is permitted by clauses (2)(d) or (s) (in the case of clause (2)(s), with respect to the Guarantee provided by the Company or any Restricted Subsidiary through the pledge of one or more bank accounts or deposits to secure (or the use of any Guarantee or letter of credit or similar instruments to Guarantee) any Bank Deposit Secured Indebtedness), under the caption “— Limitation on Indebtedness and Preferred Stock.”

If the Guaranteed Indebtedness (1) ranks *pari passu* in right of payment with the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall rank *pari passu* in right of payment with, or subordinated to, the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, or (2) is subordinated in right of payment to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall be subordinated in right of payment to the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, at least to the extent that the Guaranteed Indebtedness is subordinated to the Notes, the Subsidiary Guarantee or the JV Subsidiary Guarantee.

The Company will not permit any JV Subsidiary Guarantor, directly or indirectly, to guarantee any Indebtedness of the Company or any other Restricted Subsidiary unless the aggregate claims of the creditor under such guarantee will be limited to the JV Entitlement Amount, which, absent manifest error, may be conclusively evidenced by an Officers’ Certificate from the Company certifying to that effect. The Trustee is fully protected in relying on such an Officers’ Certificate with respect to such guarantee given by the relevant JV Subsidiary Guarantor. If any JV Subsidiary Guarantor guarantees any Indebtedness of the Company or any other Restricted Subsidiary where the aggregate claims of the creditor under such guarantee exceeds the JV Entitlement Amount, such JV Subsidiary Guarantee shall be replaced with a Subsidiary Guarantee given by a Subsidiary Guarantor.

Limitation on Transactions with Shareholders and Affiliates

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into, renew or extend any transaction or arrangement (including, without limitation, the purchase, sale, lease or exchange of property or assets, or the rendering of any service) with (x) any holder (or any Affiliate of such holder) of 10% or more of any class of Capital Stock of the Company or (y) any Affiliate of the Company (each an “Affiliate Transaction”), unless:

- (1) the Affiliate Transaction is on fair and reasonable terms that are no less favorable to the Company or the relevant Restricted Subsidiary, as the case may be, than those that would have been obtained in a comparable transaction by the Company or the relevant Restricted Subsidiary with a Person that is not an Affiliate of the Company or such Restricted Subsidiary; and
- (2) the Company delivers to the Trustee:
 - (a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$25.0 million (or the Dollar Equivalent thereof), a Board Resolution set forth in an Officers’ Certificate certifying that such Affiliate Transaction complies with this covenant and such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors; and
 - (b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$50.0 million (or the Dollar Equivalent thereof), in addition to the Board Resolution required in clause 2(a) above, an opinion as to the fairness to the Company or such Restricted Subsidiary, as the case may be, of such Affiliate Transaction from a financial point of view issued by an accounting, appraisal or investment banking firm of recognized international standing.

The foregoing limitation does not limit, and shall not apply to:

- (1) the payment of reasonable and customary regular fees and other compensation for the service as board members to directors of the Company or any Restricted Subsidiary who are not employees of the Company or any Restricted Subsidiary;
- (2) transactions between or among the Company and any of its Wholly Owned Restricted Subsidiaries or between or among Wholly Owned Restricted Subsidiaries;
- (3) any Restricted Payment of the type described in clause (1), (2) or (3) of the first paragraph of the covenant entitled “— Limitation on Restricted Payments” if permitted by that covenant;
- (4) any sale of Capital Stock (other than Disqualified Stock) of the Company;
- (5) the payment of compensation to officers and directors of the Company or any Restricted Subsidiary pursuant to an employee stock or share option scheme, so long as such scheme is in compliance with the listing rules of The Stock Exchange of Hong Kong Limited, which as of the Original Issue Date require a majority shareholder approval for any such scheme;
- (6) any purchase of Capital Stock of the type specified in clause (9), (10) or (11) of the second paragraph of the covenant entitled “— Limitation on Restricted Payments;” and
- (7) any repurchase, redemption or other acquisition or retirement for value of any Capital Stock of the Company or any Restricted Subsidiary pursuant to clause (12) of the second paragraph of the covenant entitled “— Limitation on Restricted Payments.”

In addition, the requirements of clause (2) of the first paragraph of this covenant shall not apply to (i) Investments (including Permitted Investments that are permitted under paragraph (18) of the definition of “Permitted Investments” but otherwise excluding any other Permitted Investments) not prohibited by the “Limitation on Restricted Payments” covenant, (ii) transactions pursuant to agreements in effect on the Original Issue Date and described in this offering memorandum, or any amendment or modification or replacement thereof, so long as such amendment, modification or replacement is not more disadvantageous to the Company and its Restricted Subsidiaries than the original agreement in effect on the Original Issue Date and (iii) any transaction between or among any of the Company, any Wholly Owned Restricted Subsidiary and any Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary or between or among the Company or a Restricted Subsidiary on the one part and a Jointly Controlled Entity, an Associate or an Unrestricted Subsidiary on the other part; *provided* that in the case of clause (iii), (a) such transaction is entered into in the ordinary course of business, (b) in the case of a transaction with a Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary, none of the minority shareholders or minority partners of or in such Restricted Subsidiary (other than those that beneficially own in the aggregate no more than 10% of the Capital Stock of such Restricted Subsidiary) is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such minority shareholder or minority partner being an officer or director of such Restricted Subsidiary or being a Subsidiary of the Company), or (c) in the case of a transaction with a Jointly Controlled Entity, an Associate or an Unrestricted Subsidiary, none of the shareholders or partners (other than the Company or a Restricted Subsidiary) of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary (other than shareholders or partners that beneficially own in the aggregate no more than 10% of the Capital Stock of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary) is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such shareholder or partner being a director or officer of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary or by reason of being a Subsidiary, Jointly Controlled Entity or Associate of the Company).

Limitation on Liens

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien on the Collateral (other than Permitted Liens).

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien of any nature whatsoever on any of its assets or properties of any kind (other than the Collateral), whether owned at the Original Issue Date or thereafter acquired, except Permitted Liens, unless the Notes are equally and ratably secured by such Lien.

Limitation on Sale and Leaseback Transactions

The Company will not, and will not permit any of its Restricted Subsidiaries to, enter into any Sale and Leaseback Transaction; *provided* that the Company or any Restricted Subsidiary may enter into a Sale and Leaseback Transaction if:

- (1) the Company or any Restricted Subsidiary could have (a) Incurred Indebtedness in an amount equal to the Attributable Indebtedness relating to such Sale and Leaseback Transaction under the covenant entitled “— Limitation on Indebtedness and Preferred Stock” and (b) Incurred a Lien to secure such Indebtedness pursuant to the covenant entitled “— Limitation on Liens,” in which case, the corresponding Indebtedness and Lien will be deemed Incurred pursuant to those provisions;
- (2) the gross cash proceeds of that Sale and Leaseback Transaction are at least equal to the Fair Market Value of the property that is the subject of such Sale and Leaseback Transaction; and
- (3) the transfer of assets in that Sale and Leaseback Transaction is permitted by, and the Company or such Restricted Subsidiary applies the proceeds of such transaction in compliance with, the covenant entitled “— Limitation on Asset Sales.”

Limitation on Asset Sales

The Company will not, and will not permit any Restricted Subsidiary to, consummate any Asset Sale, unless:

- (1) no Default shall have occurred and be continuing or would occur as a result of such Asset Sale;
- (2) the consideration received by the Company or such Restricted Subsidiary, as the case may be, is at least equal to the Fair Market Value of the assets sold or disposed of; and
- (3) at least 75% of the consideration received consists of cash, Temporary Cash Investments or Replacement Assets (as defined below); *provided* that in the case of an Asset Sale in which the Company or such Restricted Subsidiary receives Replacement Assets involving aggregate consideration in excess of US\$50.0 million (or the Dollar Equivalent thereof), the Company shall deliver to the Trustee an opinion as to the fairness to the Company or such Restricted Subsidiary of such Asset Sale from a financial point of view issued by an accounting, appraisal or investment banking firm of international standing. For purposes of this provision, each of the following will be deemed to be cash:
 - (a) any liabilities, as shown on the Company’s most recent consolidated balance sheet, of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any Subsidiary Guarantee or any JV Subsidiary Guarantee) that are assumed by the transferee of any such assets

pursuant to a customary assumption, assignment, novation or similar agreement that releases the Company or such Restricted Subsidiary, as the case may be, from further liability; and

- (b) any securities, notes or other obligations received by the Company or any Restricted Subsidiary from such transferee that are promptly, but in any event within 30 days of closing, converted by the Company or such Restricted Subsidiary, as the case may be, into cash, to the extent of the cash received in that conversion,

provided that clauses (1), (2) and (3) above shall not apply to (i) any Asset Sale to any Person that will, upon the consummation of such Asset Sale, become a Restricted Subsidiary, and (ii) any issuance or sale of Capital Stock to a Strategic Investor in order to satisfy a Repurchase Obligation or in connection with the proposed reorganization for which the Company made an announcement on October 3, 2016.

Within 360 days after the receipt of any Net Cash Proceeds from an Asset Sale, the Company (or any Restricted Subsidiary) may apply such Net Cash Proceeds to:

- (1) permanently repay Senior Indebtedness of the Company or a Subsidiary Guarantor or any Indebtedness of a Restricted Subsidiary that is not a Subsidiary Guarantor (and, if such Senior Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto) in each case owing to a Person other than the Company or a Restricted Subsidiary; or
- (2) acquire properties and assets that replace the properties and assets that were the subject of such Asset Sale or Replacement Assets.

Pending application of such Net Cash Proceeds as set forth in clause (1) or (2) above, the Company may make an Investment in cash or Temporary Cash Investments.

Any Net Cash Proceeds from Asset Sales that are not applied or invested as provided in clauses (1) and (2) in the immediately preceding paragraph will constitute "Excess Proceeds." Excess Proceeds of less than US\$10.0 million (or the Dollar Equivalent thereof) will be carried forward and accumulated. When accumulated Excess Proceeds exceed US\$10.0 million (or the Dollar Equivalent thereof), within 10 days thereof, the Company must make an Offer to Purchase Notes having a principal amount equal to:

- (1) accumulated Excess Proceeds, *multiplied* by
- (2) a fraction (x) the numerator of which is equal to the outstanding principal amount of the Notes and (y) the denominator of which is equal to the outstanding principal amount of the Notes and all *pari passu* Indebtedness similarly required to be repaid, redeemed or tendered for in connection with the related Asset Sales,

rounded down to the nearest US\$1,000.

The offer price in any Offer to Purchase will be equal to 100% of the principal amount plus accrued and unpaid interest to the date of purchase, and will be payable in cash.

If any Excess Proceeds remain after consummation of an Offer to Purchase, the Company may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes (and any other *pari passu* Indebtedness) tendered in such Offer to Purchase exceeds the amount of Excess Proceeds, the Notes (and such other *pari passu* Indebtedness) will be purchased by the Company on a *pro rata* basis. Upon completion of each Offer to Purchase, the amount of Excess Proceeds will be reset at zero.

Use of Proceeds

The Company will not, and will not permit any Restricted Subsidiary to, use the net proceeds (if any) from the sale of the Notes, in any amount, for any purpose other than (1) as specified under the caption “Use of Proceeds” in this offering memorandum (or in the case of any Additional Notes, the offering document relating to the sale of such Additional Notes) and (2) pending the application of all of such net proceeds in such manner, to invest the portion of such net proceeds not yet so applied in Temporary Cash Investments.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary; *provided that* (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) neither the Company nor any Restricted Subsidiary Guarantor provides credit support (other than any Guarantee in compliance with clause (6) below) for the Indebtedness of such Restricted Subsidiary; (3) such Restricted Subsidiary has no outstanding Indebtedness that could trigger a cross-default to the Indebtedness of the Company at the time of the designation; (4) such Restricted Subsidiary does not own any Disqualified Stock of the Company or Disqualified or Preferred Stock of another Restricted Subsidiary or hold any Indebtedness of, or any Lien on any property of, the Company or any Restricted Subsidiary, if such Disqualified or Preferred Stock or Indebtedness could not be Incurred under the covenant entitled “— Limitation on Indebtedness and Preferred Stock” or such Lien would violate the covenant entitled “— Limitation on Liens;” (5) such Restricted Subsidiary does not own any Voting Stock of another Restricted Subsidiary, and all of its Subsidiaries are Unrestricted Subsidiaries or are being concurrently designated to be Unrestricted Subsidiaries in accordance with this paragraph; and (6) the Investment deemed to have been made thereby in such newly-designated Unrestricted Subsidiary and each other newly-designated Unrestricted Subsidiary being concurrently redesignated would be permitted to be made by the covenant entitled “— Limitation on Restricted Payments.”

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided that* (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) any Indebtedness of such Unrestricted Subsidiary outstanding at the time of such designation which will be deemed to have been Incurred by such newly designated Restricted Subsidiary as a result of such designation would be permitted to be Incurred by the covenant entitled “— Limitation on Indebtedness and Preferred Stock;” (3) any Lien on the property of such Unrestricted Subsidiary at the time of such designation which will be deemed to have been incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be incurred by the covenant entitled “— Limitation on Liens;” (4) such Unrestricted Subsidiary is not a Subsidiary of another Unrestricted Subsidiary (that is not concurrently being designated as a Restricted Subsidiary); (5) if such Restricted Subsidiary is not organized under the laws of the PRC, such Restricted Subsidiary shall upon such designation execute and deliver to the Trustee a supplemental indenture to the Indenture by which such Restricted Subsidiary shall become a Subsidiary Guarantor or a JV Subsidiary Guarantor to the extent required under the section entitled “— The Subsidiary Guarantees and the JV Subsidiary Guarantees;” and (6) if such Restricted Subsidiary is not organized under the laws of the PRC, all Capital Stock of such Restricted Subsidiary owned directly by the Company or any other Restricted Subsidiary shall be pledged to the extent required under the section entitled “— Security.”

Government Approvals and Licenses; Compliance with Law

The Company will, and will cause each Restricted Subsidiary to, (1) obtain and maintain in full force and effect all governmental approvals, authorizations, consents, permits, concessions and licenses as are necessary to engage in the business of the Company or any of its Restricted Subsidiaries; (2) preserve and maintain good and valid title to its properties and assets (including land-use rights) free and clear of any Liens other than Permitted Liens; and (3) comply with all laws, regulations, orders, judgments and decrees of any governmental body, except to the extent that failure so to obtain,

maintain, preserve and comply with would not reasonably be expected to have a material adverse effect on (a) the business, results of operations or prospects of the Company and its Restricted Subsidiaries, taken as a whole, or (b) the ability of the Company or any Subsidiary Guarantor or any JV Subsidiary Guarantor to perform its obligations under the Notes, the relevant Subsidiary Guarantee, the relevant JV Subsidiary Guarantee or the Indenture.

Anti-Layering

The Company will not Incur, and will not permit any Subsidiary Guarantor or JV Subsidiary Guarantor to Incur, any Indebtedness if such Indebtedness is contractually subordinated in right of payment to any other Indebtedness of the Company, such Subsidiary Guarantor or such JV Subsidiary Guarantor, as the case may be, unless such Indebtedness is also contractually subordinated in right of payment to the Notes, the applicable Subsidiary Guarantee or the applicable JV Subsidiary Guarantee, on substantially identical terms. This does not apply to distinctions between categories of Indebtedness that exist by reason of any Liens or Guarantees securing or in favor of some but not all of such Indebtedness.

Suspension of Certain Covenants

If, on any date following the date of the Indenture, the Notes have a rating of Investment Grade from at least two of the three Rating Agencies and no Default has occurred and is continuing (a “Suspension Event”), then, beginning on that day and continuing until such time, if any, at which the Notes cease to have a rating of Investment Grade from at least two of the three Rating Agencies, the provisions of the Indenture summarized under the following sections will be suspended:

- (1) “— Certain Covenants — Limitation on Indebtedness and Preferred Stock;”
- (2) “— Certain Covenants — Limitation on Restricted Payments;”
- (3) “— Certain Covenants — Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries;”
- (4) “— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries;”
- (5) “— Certain Covenants — Limitation on Issuances of Guarantees by Restricted Subsidiaries;”
- (6) “— Certain Covenants — Limitation on Sale and Leaseback Transactions;” and
- (7) “— Certain Covenants — Limitation on Asset Sales.”

During any period that the foregoing covenants have been suspended, the Board of Directors may not designate any of the Restricted Subsidiaries as Unrestricted Subsidiaries pursuant to the covenant summarized under the section entitled “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries” or the definition of “Unrestricted Subsidiary.”

Such covenants will be reinstituted and apply according to their terms as of and from the first day on which a Suspension Event ceases to be in effect. Such covenants will not, however, be of any effect with regard to actions of the Company or any Restricted Subsidiary properly taken in compliance with the provisions of the Indenture during the continuance of the Suspension Event, and following reinstatement the calculations under the covenant summarized under the section entitled “— Certain Covenants — Limitation on Restricted Payments” will be made as if such covenant had been in effect since the date of the Indenture except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended. There can be no assurance that the Notes will ever achieve a rating of Investment Grade or that any such rating will be maintained.

Provision of Financial Statements and Reports

- (1) So long as any of the Notes remains outstanding, the Company will file with the Trustee and furnish to the Holders upon request, as soon as they are available but in any event not more than 10 calendar days after they are filed with The Stock Exchange of Hong Kong Limited or any other recognized exchange on which the Company's shares of Common Stock are at any time listed for trading, true and correct copies of any financial or other report in the English language filed with such exchange; *provided* that if at any time the Common Stock of the Company ceases to be listed for trading on a recognized stock exchange, the Company will file with the Trustee and furnish to the Holders:
 - (a) as soon as they are available, but in any event within 90 calendar days after the end of the fiscal year of the Company, copies of its financial statements (on a consolidated basis) in the English language, in respect of such financial year (including a statement of income, balance sheet and cash flow statement) audited by a member firm of an internationally recognized firm of independent accountants;
 - (b) as soon as they are available, but in any event within 45 calendar days after the end of the second financial quarter of the Company, copies of its financial statements (on a consolidated basis) in the English language, in respect of such half-year period (including a statement of income, balance sheet and cash flow statement) reviewed by a member firm of an internationally recognized firm of independent accountants; and
 - (c) as soon as they are available, but in any event within 45 calendar days after the end of each of the first and third financial quarters of the Company, copies of its unaudited financial statements (on a consolidated basis) in the English language, including a statement of income, balance sheet and cash flow statement, prepared on a basis consistent with the audited financial statements of the Company together with a certificate signed by the person then authorized to sign financial statements on behalf of the Company to the effect that such financial statements are true in all material respects and present fairly the financial position of the Company as at the end of, and the results of its operations for, the relevant quarterly period.
- (2) In addition, so long as any of the Notes remains outstanding, the Company will provide to the Trustee (a) within 120 days after the close of each fiscal year ending after the Original Issue Date, an Officers' Certificate stating the Fixed Charge Coverage Ratio with respect to the two most recent fiscal semiannual periods and showing in reasonable detail the calculation of the Fixed Charge Coverage Ratio, including the arithmetic computations of each component of the Fixed Charge Coverage Ratio, with a certificate from the Company's external auditors verifying the accuracy of the calculation and arithmetic computation; *provided* that the Company shall not be required to provide such auditor certification if its external auditors refuse to provide such certification as a result of a firm policy of such external auditors not to provide such certification for any issuer; and (b) as soon as possible and in any event within 30 days after the Company becomes aware or should reasonably become aware of the occurrence of a Default, an Officers' Certificate setting forth the details of the Default, and the action which the Company proposes to take with respect thereto.

Events of Default

The following events will be defined as "Events of Default" in the Indenture:

- (1) default in the payment of principal of (or premium, if any, on) the Notes when the same becomes due and payable at maturity, upon acceleration, redemption or otherwise;

- (2) default in the payment of interest on any Note when the same becomes due and payable, and such default continues for a period of 30 consecutive days;

- (4) the Company or any Restricted Subsidiary defaults in the performance of or breaches any other covenant or agreement in the Indenture or under the Notes (other than a default specified in clause (1), (2) or (3) above) and such default or breach continues for a period of 30 consecutive days after written notice by the Trustee or the Holders of 25% or more in aggregate principal amount of the Notes;

- (6) one or more final judgments or orders for the payment of money are rendered against the Company or any of its Restricted Subsidiaries and are not paid or discharged, and there is a period of 60 consecutive days following entry of the final judgment or order that causes the aggregate amount for all such final judgments or orders outstanding and not paid or discharged against all such Persons to exceed US\$20.0 million (in excess of amounts which the Company’s insurance carriers have agreed to pay under applicable policies) during which a stay of enforcement, by reason of a pending appeal or otherwise, is not in effect;
- (7) an involuntary case or other proceeding is commenced against the Company or any Significant Subsidiary with respect to it or its debts under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect seeking the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary or for any substantial part of the property and assets of the Company or any Significant Subsidiary and such involuntary case or other proceeding remains undismissed and unstayed for a period of 60 consecutive days; or an order for relief is entered against the Company or any Significant Subsidiary under any applicable bankruptcy, insolvency or other similar law as now or hereafter in effect;
- (8) the Company or any Significant Subsidiary (a) commences a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consents to the entry of an order for relief in an involuntary case under any such law, (b) consents to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary or for all or substantially all of the property and assets of the Company or any Significant Subsidiary or (c) effects any general assignment for the benefit of creditors (other than, in each case under (b), any of the foregoing that arises from any solvent liquidation or restructuring of a Significant Subsidiary in the ordinary course of business that shall result in the net assets of such Significant Subsidiary being transferred to or otherwise vested in the Company or any Restricted Subsidiary on a *pro rata* basis or on a basis more favorable to the Company);

- (9) any Subsidiary Guarantor or JV Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be) or, except as permitted by the Indenture, any Subsidiary Guarantee or JV Subsidiary Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect;
- (10) any default by the Company or any Subsidiary Guarantor Pledgor in the performance of any of its obligations under the Security Documents, which adversely affects the enforceability, validity, perfection or priority of the applicable Lien on the Collateral or which adversely affects the condition or value of the Collateral, taken as a whole, in any material respect; and
- (11) the Company or any Subsidiary Guarantor Pledgor denies or disaffirms its obligations under any Security Document or, other than in accordance with the Indenture and the Security Documents, any Security Document ceases to be or is not in full force and effect or the Collateral Agent ceases to have a security interest in the Collateral, subject to any Permitted Lien and the Intercreditor Agreement.

If an Event of Default (other than an Event of Default specified in clause (7) or (8) above) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in aggregate principal amount of the Notes then outstanding, by written notice to the Company (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the request of such Holders shall (subject to being indemnified and/or secured to its satisfaction), declare the principal of, premium, if any, and accrued and unpaid interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued and unpaid interest shall be immediately due and payable. If an Event of Default specified in clause (7) or (8) above occurs with respect to the Company or any Significant Subsidiary, the principal of, premium, if any, and accrued and unpaid interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Company and to the Trustee may on behalf of the Holders of the Notes waive all past defaults and rescind and annul a declaration of acceleration and its consequences if:

- (1) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived, and
- (2) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Upon such waiver, the Default will cease to exist, and any Event of Default arising therefrom will be deemed to have been cured, but no such waiver will extend to any subsequent or other Default or impair any right consequent thereon.

If an Event of Default occurs and is continuing, the Trustee may, or the Trustee may, in accordance with and subject to the Intercreditor Agreement, instruct the Collateral Agent to, pursue, in its own name or as trustee of an express trust, any available remedy by proceeding at law or in equity to collect the payment of principal of and interest on the Notes or to enforce the performance of any provision of the Notes or the Indenture. The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. In addition, if an Event of Default occurs and is continuing, subject to the Intercreditor Agreement, the Trustee may, and shall (subject to being indemnified and/or secured to its satisfaction) upon request of Holders of at least 25% in aggregate principal amount of outstanding Notes, direct the Collateral Agent to foreclose on the

Collateral in accordance with the terms of the Security Documents and take such further action on behalf of the Holders of the Notes with respect to the Collateral as the Trustee deems appropriate. See the section entitled “— Security.”

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from Holders. A Holder may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or for the appointment of a receiver or trustee, or for any other remedy under the Indenture or the Notes, unless:

- (1) the Holder has previously given the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity and/or security satisfactory to the Trustee against any costs, liability or expense to be incurred in compliance with such request;
- (4) the Trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity and/or security; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a written direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder of a Note to receive payment of the principal of, premium, if any, or interest on, such Note, or to bring suit for the enforcement of any such payment, on or after the due date expressed in such Note, which right shall not be impaired or affected without the consent of the Holder.

Two officers of the Company must certify to the Trustee in writing, on or before a date not more than 120 days after the end of each fiscal year ending after the Original Issue Date, that a review has been conducted of the activities of the Company and its Restricted Subsidiaries and the Company's and the Subsidiary Guarantors' performance under the Indenture and that the Company and the Subsidiary Guarantors have fulfilled all obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Company will also be obligated to notify the Trustee of any default or defaults in the performance of any covenants or agreements under the Indenture. See the section entitled “— Certain Covenants — Provision of Financial Statements and Reports.”

Consolidation, Merger and Sale of Assets

The Company will not consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions), unless:

- (1) the Company shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which the Company consolidated or merged, or that acquired or leased such property and assets (the “Surviving Person”) shall be a corporation organized and validly existing under the laws of the Cayman Islands, Hong Kong, Bermuda

or the British Virgin Islands and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of the Company under the Indenture, the Notes, the Intercreditor Agreement and the Security Documents, as the case may be, including the obligation to pay Additional Amounts with respect to any jurisdiction in which it is organized or resident for tax purposes, and the Indenture, the Notes, the Intercreditor Agreement and the Security Documents, as the case may be, shall remain in full force and effect;

- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a *pro forma* basis, the Company or the Surviving Person, as the case may be, shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a *pro forma* basis the Company or the Surviving Person, as the case may be, could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant entitled “— Certain Covenants — Limitation on Indebtedness and Preferred Stock;”
- (5) the Company delivers to the Trustee (x) an Officers’ Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with;
- (6) each Subsidiary Guarantor and JV Subsidiary Guarantor, unless such Subsidiary Guarantor or JV Subsidiary Guarantor is the Person with which the Company has entered into a transaction described under this section, shall execute and deliver a supplemental indenture to the Indenture confirming that its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, shall apply to the obligations of the Company or the Surviving Person in accordance with the Notes and the Indenture; and
- (7) no Rating Decline shall have occurred.

No Subsidiary Guarantor or JV Subsidiary Guarantor will consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to another Person (other than the Company or another Subsidiary Guarantor or, in the case of a JV Subsidiary Guarantor, other than to another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor), unless:

- (1) such Subsidiary Guarantor or JV Subsidiary Guarantor shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which the Subsidiary Guarantor consolidated or merged, or that acquired or leased such property and assets shall be the Company, another Subsidiary Guarantor or shall become a Subsidiary Guarantor concurrently with the transaction (or, in the case of a JV Subsidiary Guarantor, another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor);
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a *pro forma* basis, the Company shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a *pro forma* basis, the Company could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant entitled “— Certain Covenants — Limitation on Indebtedness and Preferred Stock;”
- (5) the Company delivers to the Trustee (x) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with; and
- (6) no Rating Decline shall have occurred;

provided that this paragraph shall not apply to any sale or other disposition that complies with the “— Certain Covenants — Limitation on Asset Sales” covenant or any Subsidiary Guarantor or JV Subsidiary Guarantor whose Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, is unconditionally released in accordance with the provisions described under the section entitled “— The Subsidiary Guarantees and the JV Subsidiary Guarantees — Release of the Subsidiary Guarantees and JV Subsidiary Guarantees.”

The foregoing requirements shall not apply to a consolidation or merger of any Subsidiary Guarantor or JV Subsidiary Guarantor with and into the Company or any other Subsidiary Guarantor or JV Subsidiary Guarantor, so long as the Company or such Subsidiary Guarantor or JV Subsidiary Guarantor survives such consolidation or merger.

Notwithstanding the foregoing, the Company and each Subsidiary Guarantor or JV Subsidiary Guarantor shall be permitted to sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to any Restricted Subsidiary or any Person that will, upon the consummation of such sale, conveyance, transfer, lease or disposal, become a Restricted Subsidiary.

Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve “all or substantially all” of the property or assets of a Person.

The foregoing provisions would not necessarily afford Holders protection in the event of highly-leveraged or other transactions involving the Company, which may adversely affect Holders.

No Payments for Consents

The Company will not, and shall not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid or is paid to all Holders that consent, waive or agree to amend such term or provision within the time period set forth in the solicitation documents relating to such consent, waiver or amendment. Notwithstanding the foregoing, the Company and its Subsidiaries shall be permitted, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes, to exclude Holders in any jurisdiction where (A)(i) the solicitation of such consent, waiver or amendment in the manner deemed appropriate by the Company, (ii) the payment of the consideration therefor or (iii) the conduct or completion of a related offer to purchase or exchange the Notes for cash or other securities in the manner deemed appropriate by the Company would be prohibited or would require the Company or any of its Subsidiaries to (a) file a registration statement, prospectus or similar document or subject the Company or any of its Subsidiaries to ongoing periodic reporting or similar requirements under any securities laws (including, but not limited to, the United States federal securities laws and the laws of the European Union or its member states), or conduct a bondholder identification exercise to establish the availability of an exemption from registration under Rule 802 under the Securities Act, in each case which the Company in its sole discretion determines would be burdensome, (b) qualify as a foreign corporation or other entity or as a dealer in securities in such jurisdiction if it is not otherwise required to so qualify, (c) generally consent to service of process in any such jurisdiction or (d) subject the Company or any of its Subsidiaries to taxation in any such jurisdiction if it is not otherwise so subject; or (B) such solicitation would otherwise not be permitted under applicable law in such jurisdiction.

Defeasance

Defeasance and Discharge

The Indenture will provide that the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 183rd day after the deposit referred to below, and the provisions of the Indenture and the Security Documents will no longer be in effect with respect to the Notes (except for, among other matters, certain obligations to register the transfer or exchange of the Notes, to replace stolen, lost or mutilated Notes, to maintain paying agencies, to pay Additional Amounts and to hold monies for payment in trust) if, among other things:

- (1) the Company (a) has deposited with the Trustee, in trust, money and/or U.S. Government Obligations that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity for such payments in accordance with the terms of the Indenture and the Notes and (b) delivers to the Trustee an Opinion of Counsel or a certificate of an internationally recognized firm of independent accountants to the effect that the amount deposited by the Company is sufficient to provide payment for the principal of, premium, if any, and accrued interest on, the Notes on the Stated Maturity for such payment in accordance with the terms of the Indenture;

- (2) the Company has delivered to the Trustee an Opinion of Counsel of recognized international standing to the effect that the creation of the defeasance trust does not violate the U.S. Investment Company Act of 1940, as amended, and after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law;
- (3) the Company shall have delivered to the Trustee an Officers' Certificate stating that the deposit was not made by it with the intent of preferring the Holders over any other of its creditors or with the intent of defeating, hindering, delaying or defrauding any other of its creditors or others; and
- (4) immediately after giving effect to such deposit on a *pro forma* basis, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default, shall have occurred and be continuing on the date of such deposit or during the period ending on the 183rd day after the date of such deposit, and such defeasance shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound.

In the case of either discharge or defeasance, the Subsidiary Guarantees and JV Subsidiary Guarantees will terminate.

Defeasance of Certain Covenants

The Indenture will further provide that (i) the provisions of the Indenture will no longer be in effect with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph and clauses (3), (4), (5)(x) and (6) under the second paragraph under the section entitled “— Consolidation, Merger and Sale of Assets” and all the covenants described herein under the section entitled “— Certain Covenants,” other than as described under the sections entitled “— Certain Covenants — Government Approvals and Licenses; Compliance with Law” and “— Certain Covenants — Anti-Layering,” and (ii) clause (3) under “Events of Default” with respect to such clauses (3), (4), (5)(x) and (7) under the first paragraph and such clauses (3), (4), (5)(x) and (6) under the second paragraph under “— Consolidation, Merger and Sale of Assets” and with respect to such other events set forth in clause (i) above, clause (4) under “— Events of Default” with respect to such other covenants set forth in clause (i) above and clauses (5) and (6) under “— Events of Default” shall be deemed not to be Events of Default, upon, among other things, the deposit with the Trustee, in trust, of money, U.S. Government Obligations or a combination thereof that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes, and the satisfaction of the provisions described in clause (2) of the preceding paragraph.

Defeasance and Certain Other Events of Default

In the event that the Company exercises its option to omit compliance with certain covenants and provisions of the Indenture with respect to the Notes as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the Trustee will be sufficient to pay amounts due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However the Company will remain liable for such payments.

Amendments and Waiver

Amendments Without Consent of Holders

The Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement or any Security Document may be amended, without notice to or the consent of any Holder, to:

- (1) cure any ambiguity, defect, omission or inconsistency in the Indenture, the Notes, the Intercreditor Agreement or any Security Document;
- (2) comply with the provisions described under the section entitled “— Consolidation, Merger and Sale of Assets;”
- (3) evidence and provide for the acceptance of appointment by a successor Trustee;
- (4) add any Subsidiary Guarantor or JV Subsidiary Guarantor, or any Subsidiary Guarantee or JV Subsidiary Guarantee or release any Subsidiary Guarantor or JV Subsidiary Guarantor from any Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, as provided or permitted by the terms of the Indenture;
- (5) provide for the issuance of Additional Notes in accordance with the limitations set forth in the Indenture;
- (6) add any Subsidiary Guarantor Pledgor or release any Subsidiary Guarantor Pledgor or any Collateral as provided or permitted by the terms of the Indenture;
- (7) add additional Collateral to secure the Notes or any Subsidiary Guarantee or any JV Subsidiary Guarantee;

- (9) effect any changes to the Indenture in a manner necessary to comply with the procedures of the relevant clearing system;
- (10) permit Permitted Pari Passu Secured Indebtedness (including, without limitation, permitting the Trustee and the Collateral Agent to enter into the Intercreditor Agreement or any amendment to the Security Documents, the Intercreditor Agreement or the Indenture and take any other action necessary to permit the creation and registration of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness, in accordance with the Indenture);
- (11) to conform the text of the Indenture, the Notes or the Subsidiary Guarantees to any provision of this “Description of 2023 Notes” to the extent that such provision in this “Description of 2023 Notes” was intended to be a verbatim recitation of a provision of the Indenture, the Notes or the Subsidiary Guarantees; or
- (12) make any other change that does not materially and adversely affect the rights of any Holder.

Amendments With Consent of Holders

Amendments of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement or any Security Document may be made by the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any), the Subsidiary Guarantor Pledgors, the Trustee and the Collateral Agent with the consent of the Holders of not less than a majority in aggregate

principal amount of the outstanding Notes, and the holders of a majority in aggregate principal amount of the outstanding Notes may waive future compliance by the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Subsidiary Guarantor Pledgors with any provision of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees, any Security Document or the Intercreditor Agreement; *provided, however*, that no such modification, amendment or waiver may, without the consent of each Holder affected thereby:

- (1) change the Stated Maturity of the principal of, or any installment of interest on, any Note;
- (2) reduce the principal amount of, or premium, if any, or interest on, any Note;
- (3) change the currency of payment of principal of, or premium, if any, or interest on, any Note;
- (4) impair the right to institute suit for the enforcement of any payment on or after the Stated Maturity (or, in the case of a redemption, on or after the redemption date) of any Note;
- (5) reduce the above-stated percentage of outstanding Notes the consent of whose Holders is necessary to modify or amend the Indenture;
- (6) waive a default in the payment of principal of, premium, if any, or interest on any Note;
- (7) release any Subsidiary Guarantor or JV Subsidiary Guarantor from its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, except as provided in the Indenture;
- (8) release any Collateral, except as provided in the Indenture, the Intercreditor Agreement and the Security Documents;
- (9) reduce the percentage or aggregate principal amount of outstanding Notes the consent of whose Holders is necessary for waiver of compliance with certain provisions of the Indenture or for waiver of certain defaults;
- (10) amend, change or modify any Subsidiary Guarantee or JV Subsidiary Guarantee in a manner that adversely affects Holders;
- (11) amend, change or modify any provision of any Security Document, the Intercreditor Agreement or any provision of the Indenture relating to the Collateral, in a manner that adversely affects Holders, except in accordance with the other provisions of the Indenture;
- (12) reduce the amount payable upon a Change of Control Offer or an Offer to Purchase with the Excess Proceeds from any Asset Sale or, change the time or manner by which a Change of Control Offer or an Offer to Purchase with the Excess Proceeds or other proceeds from any Asset Sale may be made or by which any Note must be repurchased pursuant to a Change of Control Offer or an Offer to Purchase with the Excess Proceeds or other proceeds from any Asset Sale;
- (13) change the redemption date or the redemption price of any Note from that stated under the sections entitled “— Optional Redemption” or “— Redemption for Taxation Reasons;”
- (14) amend, change or modify the obligation of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor to pay Additional Amounts; or
- (15) amend, change or modify any provision of the Indenture or the related definition affecting the ranking of any Note, any Subsidiary Guarantee or any JV Subsidiary Guarantee in a manner which adversely affects Holders.

Unclaimed Money

Claims against the Company for the payment of principal of, premium, if any, or interest, on the Notes will become void unless presentation for payment is made as required in the Indenture within a period of six years.

No Personal Liability of Incorporators, Stockholders, Officers, Directors or Employees

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company or any of the Subsidiary Guarantors or any of the JV Subsidiary Guarantors in the Indenture, or in any of the Notes, the Subsidiary Guarantees or JV Subsidiary Guarantees or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, officer, director, employee or controlling person of the Company, any of the Subsidiary Guarantors or any of the JV Subsidiary Guarantors or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees. Such waiver may not be effective to waive liabilities under the federal securities laws.

Concerning the Collateral Agent, the Trustee, the Paying Agent, the Transfer Agent and Registrar

Citicorp International Limited has been appointed as Trustee under the Indenture and as Collateral Agent with regard to the Collateral under the Security Documents. Citibank, N.A., London Branch has been appointed as paying agent, transfer agent and registrar (the “Paying Agent,” the “Transfer Agent” and the “Registrar”; collectively, the “Agents”) with regard to the Notes. Except during the continuance of a Default, the Trustee will not be liable, except for the performance of such duties as are specifically set forth in the Indenture, or the Intercreditor Agreement. If an Event of Default has occurred and is continuing, the Trustee will use the same degree of care, as applicable, and skill in its exercise of the rights and powers vested in them under the Indenture as a prudent person would exercise under the circumstances in the conduct of such person’s own affairs.

The Indenture contains limitations on the rights of the Trustee, should it become a creditor of the Company or any of the Subsidiary Guarantors, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The Trustee is permitted to engage in other transactions with the Company and its Affiliates; *provided, however*, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

If the Company maintains a paying agent with respect to the Notes in a member state of the European Union, such paying agent will be located in a member state of the European Union that is not obligated to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any other directive amending, supplementing or replacing such Directive, or any law implementing or complying with, or introduced in order to conform to, such Directive or such other directive.

Citicorp International Limited acts as the initial Collateral Agent under the Security Documents in respect of the Lien over the Collateral. The Collateral Agent, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, assigned or granted pursuant to the Security Documents as are set forth in the Indenture and the Security Documents. Under certain circumstances, the Collateral Agent may have obligations under the Security Documents that are in conflict with the interests of the Holders. The Trustee and the Collateral Agent will be under no obligation to exercise any rights or powers conferred under the Indenture or any of the Security Documents, as applicable, for the benefit of the Holders unless such Holders have offered to the Trustee or the Collateral Agent, as the case may be, indemnity and/or security satisfactory to it against any loss, liability, cost or expense. Each Holder, by accepting the Notes, will agree, for the benefit of the Collateral Agent, that it is solely

responsible for its own independent appraisal of and investigation into all risks arising under or in connection with the Security Documents and has not relied on and will not at any time rely on the Collateral Agent in respect of such risks.

Book-Entry; Delivery and Form

The Notes will be represented by a global note in registered form without interest coupons attached (the “Global Note”). On the Original Issue Date, the Global Note will be deposited with a common depositary and registered in the name of the common depositary or its nominee for the accounts of Euroclear and Clearstream.

Global Note

Ownership of beneficial interests in the Global Note (the “book-entry interests”) will be limited to persons that have accounts with Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-entry interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream and their participants.

Except as set forth below under “— Individual Definitive Notes,” the book-entry interests will not be held in definitive form. Instead, Euroclear and/or Clearstream will credit on their respective book-entry registration and transfer systems a participant’s account with the interest beneficially owned by such participant. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge book-entry interests.

So long as the Notes are held in global form, the common depositary for Euroclear and/or Clearstream (or its nominee) will be considered the sole holder of the Global Note for all purposes under the Indenture and “holders” of book-entry interests will not be considered the owners or “Holders” of Notes for any purpose. As such, participants must rely on the procedures of Euroclear and Clearstream and indirect participants must rely on the procedures of the participants through which they own book-entry interests in order to transfer their interests in the Notes or to exercise any rights of Holders under the Indenture.

None of the Company, the Trustee, the Collateral Agent or any of their respective agents will have any responsibility or be liable for any aspect of the records relating to the book-entry interests. The Notes are not issuable in bearer form.

Payments on the Global Note

Payments of any amounts owing in respect of the Global Note (including principal, premium, interest and additional amounts) will be made to the Paying Agent in U.S. dollars. The Paying Agent will, in turn, make such payments to the common depositary for Euroclear and Clearstream, which will distribute such payments to participants in accordance with their procedures. Each of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors will make payments of all such amounts without deduction or withholding for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, except as may be required by law and as described under “— Additional Amounts.”

Under the terms of the Indenture, the Company, any Subsidiary Guarantor, any JV Subsidiary Guarantor and the Trustee will treat the registered holder of the Global Note (i.e., the common depositary or its nominee) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee, the Agents or any of their respective agents has or will have any responsibility or liability for:

- any aspect of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest, for any such payments made by Euroclear, Clearstream or any participant or indirect participants, or for maintaining, supervising or reviewing any of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest; or
- Euroclear, Clearstream or any participant or indirect participant.

Payments by participants to owners of book-entry interests held through participants are the responsibility of such participants.

Redemption of Global Note

In the event any Global Note, or any portion thereof, is redeemed, the common depositary will distribute the U.S. dollar amount received by it in respect of the Global Note so redeemed to Euroclear and/or Clearstream, as applicable, who will distribute such amount to the holders of the book-entry interests in such Global Note. The redemption price payable in connection with the redemption of such book-entry interests will be equal to the U.S. dollar amount received by the common depositary, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). The Company understands that under existing practices of Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, Euroclear and Clearstream will credit their respective participants' accounts on a proportionate basis (with adjustments to prevent fractions) or by lot or on such other basis as they deem fair and appropriate; *provided, however*, that no book-entry interest of US\$200,000 principal amount, or less, as the case may be, will be redeemed in part.

Action by Owners of Book-Entry Interests

Euroclear and Clearstream have advised that they will take any action permitted to be taken by a Holder of Notes only at the direction of one or more participants to whose account the book-entry interests in the Global Note are credited and only in respect of such portion of the aggregate principal amount of Notes as to which such participant or participants has or have given such direction. Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Note. If there is an Event of Default under the Notes, however, each of Euroclear and Clearstream reserves the right to exchange the Global Note for individual definitive notes in certificated form, and to distribute such individual definitive notes to their participants.

Transfers

Transfers between participants in Euroclear and Clearstream will be effected in accordance with Euroclear and Clearstream's rules and will be settled in immediately available funds. If a Holder requires physical delivery of individual definitive notes for any reason, including to sell the Notes to persons in jurisdictions which require physical delivery of such securities or to pledge such securities, such Holder must transfer its interest in the Global Note in accordance with the normal procedures of Euroclear and Clearstream and in accordance with the provisions of the Indenture.

Book-entry interests in the Global Note will be subject to the restrictions on transfer discussed under "Transfer Restrictions."

Any book-entry interest in a Global Note that is transferred to a person who takes delivery in the form of a book-entry interest in another Global Note will, upon transfer, cease to be a book-entry interest in the first-mentioned Global Note and become a book-entry interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to book-entry interests in such other Global Note for as long as it retains such a book-entry interest.

Global Clearance and Settlement Under the Book-Entry System

Book-entry interests owned through Euroclear or Clearstream accounts will follow the settlement procedures applicable. Book-entry interests will be credited to the securities custody accounts of Euroclear and Clearstream holders on the business day following the Settlement Date against payment for value on the Settlement Date.

The book-entry interests will trade through participants of Euroclear or Clearstream, and will settle in same-day funds. Since the purchaser determines the place of delivery, it is important to establish at the time of trading of any book-entry interests where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

DESCRIPTION OF 2025 NOTES

For purposes of this “Description of 2025 Notes” the term “Company” refers only to China Evergrande Group (formerly known as Evergrande Real Estate Group Limited), and any successor obligor on the Notes, and not to any of its subsidiaries and the term “Notes” refers to the 2025 Notes issued by the Company. Each subsidiary of the Company which guarantees the Notes is referred to as a “Subsidiary Guarantor” and each such guarantee is referred to as a “Subsidiary Guarantee.” Each subsidiary of the Company that in the future provides a “JV Subsidiary Guarantee” (as defined herein) is referred to as a “JV Subsidiary Guarantor”.

The Notes are to be issued under an indenture (the “Indenture”), to be dated as of the Original Issue Date, among the Company, the Subsidiary Guarantors, as guarantors, and Citicorp International Limited, as trustee (the “Trustee”). The Notes will be issued under the same Indenture and form a single series with the corresponding series of Exchange Notes.

The following is a summary of certain provisions of the Indenture, the Notes, the Subsidiary Guarantees, the Intercreditor Agreement and the JV Subsidiary Guarantees. This summary does not purport to be complete and is qualified in its entirety by reference to all of the provisions of the Indenture, the Notes, the Subsidiary Guarantees, the Intercreditor Agreement and the JV Subsidiary Guarantees. It does not restate those agreements in their entirety. Whenever particular sections or defined terms of the Indenture not otherwise defined herein are referred to, such sections or defined terms are incorporated herein by reference. Copies of the Indenture will be available on or after the Original Issue Date at the corporate trust office of the Trustee at 39/F, Champion Tower, 3 Garden Road, Central, Hong Kong.

The Notes are:

- general obligations of the Company;
- senior in right of payment to any existing and future obligations of the Company expressly subordinated in right of payment to the Notes;
- at least *pari passu* in right of payment with the Existing *Pari Passu* Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of the Company (subject to any priority rights of such unsecured, unsubordinated Indebtedness pursuant to applicable law);
- guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) on a senior basis, subject to the limitations described below under the section entitled “— The Subsidiary Guarantees and the JV Subsidiary Guarantees” and in the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral;”
- effectively subordinated to the other secured obligations of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors, to the extent of the value of the assets (other than the Collateral) serving as security therefor; and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

In addition, on the Original Issue Date, subject to the limitations described in the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral,” the Notes will be secured by a pledge of the Collateral as described below under the section entitled “— Security” and will:

- be entitled to the benefit of a lien on the Collateral, to be shared on a *pari passu* basis with holders of the Existing Pari Passu Secured Indebtedness and any other creditors with respect to the Permitted Pari Passu Secured Indebtedness (or their representatives or agents), subject to any other Permitted Liens and the Intercreditor Agreement and to releases and discharges as permitted under the Indenture; and
- rank effectively senior in right of payment to unsecured obligations of the Company and the Subsidiary Guarantor Pledgors with respect to the value of the Collateral pledged by the Company and the Subsidiary Guarantor Pledgors securing the Notes (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The Company will initially issue US\$ in aggregate principal amount of the Notes, which will mature on , 2025 unless earlier redeemed pursuant to the terms thereof and the Indenture. The Indenture allows additional Notes to be issued from time to time (the “Additional Notes”), subject to certain limitations described under the section entitled “— Further Issues.” Unless the context requires otherwise, references to the “Notes” for all purposes of the Indenture and this “Description of 2025 Notes” include any Additional Notes that are actually issued. The Notes will bear interest at % per annum from the Original Issue Date or from the most recent interest payment date to which interest has been paid or duly provided for, payable semiannually in arrears on and of each year (each an “Interest Payment Date”), commencing , 2017.

Interest on the Notes, when in the form of Global Notes, will be paid to the Holders of record at the close of business on or , and when in the form of Certificate Notes, on or , immediately preceding an Interest Payment Date (each, a “Record Date”), notwithstanding any transfer, exchange or cancellation thereof after a Record Date and prior to the immediately following Interest Payment Date. In any case in which the date of the payment of principal of, premium, if any, on, or interest on, the Notes is not a Business Day in the relevant place of payment or in the place of business of the Trustee then payment of such principal, premium or interest need not be made on such date but may be made on the next succeeding Business Day. Any payment made on such Business Day shall have the same force and effect as if made on the date on which such payment is due, and no interest on the Notes shall accrue for the period after such due date. Interest on the Notes will be calculated on the basis of a 360-day year comprised of twelve 30-day months.

The Notes will be issued only in fully registered form, without coupons, in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof. No service charge will be made for any registration of transfer or exchange of the Notes, but the Company may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

All payments on the Notes will be made in U.S. dollars by the Company and the Company will maintain an office or agency (which initially will be the office of the Paying Agent currently located at Citibank, N.A., London Branch, c/o Citibank, N.A., Dublin Branch, Ground Floor, One North Wall Quay, Dublin 1, Republic of Ireland) where the Notes may be surrendered for registration of transfer or exchange or for presentation for payment or repurchase. Notwithstanding the immediately preceding sentence, at the option of the Company with the consent of the Paying Agent (such consent not to be unreasonably withheld) payment of interest may instead be made by check mailed (at the expense of the Company) to the address of the Holders as such address appears in the Note register. Interest payable on the Notes held through Euroclear or Clearstream will be available to Euroclear or Clearstream participants (as defined herein) on the Business Day following payment thereof. Notices and demands to

or upon the Company in respect of the Notes and the Indenture may be served at the office or agency of the Company maintained for that purpose (which initially will be the corporate trust office of the Trustee, currently located at 39/F, Champion Tower, 3 Garden Road, Central, Hong Kong).

The Subsidiary Guarantors are holding companies that do not have significant operations.

Other than the initial Subsidiary Guarantors, none of the Company's other Restricted Subsidiaries organized outside of the PRC (the "Other Non-Guarantor Subsidiaries") will be an initial Subsidiary Guarantor on the Original Issue Date. In addition, none of the Restricted Subsidiaries existing on the Original Issue Date that are Subsidiaries organized under the laws of the PRC and the future Restricted Subsidiaries that are organized under the laws of the PRC (together, the "PRC Restricted Subsidiaries"), the Exempted Subsidiaries and the Listed Subsidiaries (as long as they continue to be Exempted Subsidiaries or Listed Subsidiaries, as applicable) will provide a Subsidiary Guarantee or a JV Subsidiary Guarantee on the Original Issue Date or at any time in the future.

Although the Indenture contains limitations on the amount of additional Indebtedness that Non-Guarantor Subsidiaries may incur, the amount of such additional Indebtedness could be substantial.

In the case of a Restricted Subsidiary (i) that is, or is proposed by the Company or any of its Restricted Subsidiaries to be, established, or commences investment for the purposes of commencing business activities, after the Original Issue Date, (ii) that is incorporated in any jurisdiction other than the PRC and that is not an Exempted Subsidiary or a Listed Subsidiary and (iii) in respect of which the Company or any of its Restricted Subsidiaries (x) is proposing to sell, whether through the sale of existing Capital Stock or the issuance of new Capital Stock, no less than 20% of the Capital Stock of such Restricted Subsidiary or (y) is proposing to purchase Capital Stock of an entity and designate such entity as a Restricted Subsidiary, the Company may, concurrently with the consummation of such sale or purchase, provide a JV Subsidiary Guarantee (as defined below) instead of a Subsidiary Guarantee for

(a) such Restricted Subsidiary and (b) the Restricted Subsidiaries of such Restricted Subsidiary that are organized in any jurisdiction other than the PRC and that are not Exempted Subsidiaries or Listed Subsidiaries, if the following conditions, in the case of both (a) and (b), are satisfied:

- concurrently with providing the JV Subsidiary Guarantee (as defined below), the Company and such JV Subsidiary Guarantor have delivered to the Trustee and, in the case of the Security Documents, also to the Collateral Agent:
 - (i) (A) a duly executed Guarantee of such JV Subsidiary Guarantor (the “JV Subsidiary Guarantee”) and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC, an Exempted Subsidiary or a Listed Subsidiary and (B) a duly executed supplemental indenture to the Indenture pursuant to which the JV Subsidiary Guarantor will become a party to the Indenture pursuant to which such JV Subsidiary Guarantor will guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) a duly executed Security Document that pledges in favor of the Collateral Agent the Capital Stock of such JV Subsidiary Guarantor held by the Company or any Subsidiary Guarantor (subject to releases and discharges as permitted under the Indenture), but not the Capital Stock of the direct or indirect Subsidiaries of such JV Subsidiary Guarantor;
 - (iii) an Officers’ Certificate certifying a copy of the Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
 - (iv) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is valid, binding and enforceable against the JV Subsidiary Guarantor providing the JV Subsidiary Guarantee (subject to customary qualifications and assumptions).
- such sale or issuance of Capital Stock is made to, or such purchase of Capital Stock is purchased from, an Independent Third Party at a consideration that is not less than (in the case of a sale or issuance) or no more than (in the case of a purchase) the appraised value of such Capital Stock by an independent appraisal firm of recognized international standing appointed by the Company;
- all capital contributions (by way of transfer of cash or other property or any payment for property or services for the use of others or otherwise) to be made into a JV Subsidiary Guarantor from the date it provides its JV Subsidiary Guarantee shall be made directly or by contribution of assets or services having an equivalent Fair Market Value by (i) the Company and its Restricted Subsidiaries and (ii) such Independent Third Party in proportion to their respective direct or indirect ownership percentages of the Capital Stock of such JV Subsidiary Guarantor; and
- as of the date of execution of the JV Subsidiary Guarantee, no document exists that is binding on the Company or any such Restricted Subsidiaries that would have the effect of (a) prohibiting the Company or any such Restricted Subsidiaries from providing such JV Subsidiary Guarantee, or (b) requiring the Company or any such Restricted Subsidiaries to deliver or keep in place a guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee.

In the event of a bankruptcy, liquidation or reorganization of any Non-Guarantor Subsidiary, such Non-Guarantor Subsidiary will pay the holders of its debt and its trade creditors before it will be able to distribute any of its assets to the Company.

As of December 31, 2016,

- the Company and its consolidated subsidiaries had total consolidated borrowings of approximately RMB535,070 million (US\$77,066 million), all of which were secured; and
- the Non-Guarantor Subsidiaries and Unrestricted Subsidiaries had total borrowings of approximately RMB450,433 billion (US\$64,876 billion).

In addition, as of December 31, 2016, the Non-Guarantor Subsidiaries and Unrestricted Subsidiaries had capital commitments of approximately RMB223,779 billion (US\$32,231 billion) and contingent liabilities arising from guarantees of approximately RMB257,448 billion (US\$37,080 billion).

The Subsidiary Guarantee of each Subsidiary Guarantor:

- is a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to the secured obligations of such Subsidiary Guarantor, to the extent of the value of the assets (other than the Collateral) serving as security therefor;
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee; and
- ranks at least *pari passu* with the Indebtedness of such Subsidiary Guarantor under its subsidiary guarantee with respect to the Existing Pari Passu Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law).

If any is provided, the JV Subsidiary Guarantee of each JV Subsidiary Guarantor:

- will be a general obligation of such JV Subsidiary Guarantor;
- will be enforceable only up to the JV Entitlement Amount;
- will be effectively subordinated to the secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- will be limited to the JV Entitlement Amount, and will be senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee; and
- will be limited to the JV Entitlement Amount, and will rank at least *pari passu* with the Indebtedness of such JV Subsidiary Guarantor under its JV Subsidiary Guarantee with respect to the Existing Pari Passu Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law).

The Company will cause (x) each of its future Restricted Subsidiaries (other than Persons organized under the laws of the PRC, Exempted Subsidiaries or Listed Subsidiaries), as soon as practicable after it becomes a Restricted Subsidiary and (y) each of its Exempted Subsidiaries and Listed Subsidiaries that remains as a Restricted Subsidiary, as soon as practicable after it ceases to be an Exempted Subsidiary or a Listed Subsidiary, as the case may be (each such Person in clause (x) or (y), a

“Potential Subsidiary Guarantor”), to execute and deliver to the Trustee a supplemental indenture to the Indenture pursuant to which such Restricted Subsidiary will guarantee the payment of the Notes as a Subsidiary Guarantor or a JV Subsidiary Guarantor. Notwithstanding the foregoing sentence, the Company may elect to have any Restricted Subsidiary organized under laws outside the PRC not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at the time such entity becomes a Potential Subsidiary Guarantor (Restricted Subsidiaries (other than the PRC Restricted Subsidiaries, the Exempted Subsidiaries, the Listed Subsidiaries and the Other Non-Guarantor Subsidiaries) that do not provide Subsidiary Guarantees or JV Subsidiary Guarantees in accordance with the Indenture, the “New Non-Guarantor Subsidiaries”), *provided* that, after taking into account the consolidated assets of such Restricted Subsidiary, the Consolidated Assets of all Restricted Subsidiaries organized under laws outside the PRC (other than Exempted Subsidiaries and Listed Subsidiaries) that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors do not account for more than 20% of the Relevant Total Assets of the Company.

Each Restricted Subsidiary that guarantees the Notes after the Original Issue Date other than a JV Subsidiary Guarantor is referred to as a “Future Subsidiary Guarantor” and upon execution of the applicable supplemental indenture to the Indenture will be a “Subsidiary Guarantor.”

In addition, subject to the limitations described in the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral,” the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor:

- will be entitled to a security interest in the Collateral pledged by such Subsidiary Guarantor Pledgor, as described below under the section entitled “— Security,” to be shared on a *pari passu* basis with holders of the Existing Pari Passu Secured Indebtedness and holders of the Permitted Pari Passu Secured Indebtedness (or their representatives or agents), subject to any other Permitted Liens and the Intercreditor Agreement; and
- will rank effectively senior in right of payment to the unsecured obligations of such Subsidiary Guarantor Pledgor with respect to the value of the Collateral securing such Subsidiary Guarantee (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The JV Subsidiary Guarantee of each JV Subsidiary Guarantor will not be secured.

Under the Indenture, as supplemented from time to time, each of the Subsidiary Guarantors and JV Subsidiary Guarantors (if any) will jointly and severally guarantee the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes; *provided* that any JV Subsidiary Guarantee will be limited to the JV Entitlement Amount. The Subsidiary Guarantors and JV Subsidiary Guarantors will (1) agree that their respective obligations under the Subsidiary Guarantees and JV Subsidiary Guarantees, as the case may be, will be enforceable irrespective of any invalidity, irregularity or unenforceability of the Notes or the Indenture and (2) waive their right to require the Trustee to pursue or exhaust its legal or equitable remedies against the Company prior to exercising its rights under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be. Moreover, if at any time any amount paid under a Note or the Indenture is rescinded or must otherwise be restored, the rights of the Holders under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, will be reinstated with respect to such payment as though such payment had not been made. All payments under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, are required to be made in U.S. dollars.

Under the Indenture, as supplemented from time to time,

- each Subsidiary Guarantee will be limited to an amount not to exceed the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally; and
- each JV Subsidiary Guarantee will be limited to an amount which is the lower of (i) the JV Entitlement Amount and (ii) an amount not to exceed the maximum amount that can be guaranteed by the applicable JV Subsidiary Guarantor without rendering the JV Subsidiary Guarantee, as it relates to such JV Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

If a Subsidiary Guarantee or JV Subsidiary Guarantee were to be rendered voidable, it could be subordinated by a court to all other Indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, and, depending on the amount of such Indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee or a JV Subsidiary Guarantor's liability on its JV Subsidiary Guarantee, as the case may be, could in each case be reduced to zero. The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee and the enforceability of the Collateral granted in respect of the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor may be limited, or possibly invalid, under applicable laws. Similarly, the obligations of each JV Subsidiary Guarantor under its JV Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. See the section entitled "Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees."

Release of the Subsidiary Guarantees and JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor and a JV Subsidiary Guarantee given by a JV Subsidiary Guarantor may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon a defeasance as described under the section entitled "— Defeasance — Defeasance and Discharge;"
- upon the designation by the Company of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, as an Unrestricted Subsidiary in compliance with the terms of the Indenture;
- upon the sale, disposition or merger of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, in compliance with the terms of the Indenture (including the covenants under the sections entitled "— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries," "— Certain Covenants — Limitation on Asset Sales" and "— Consolidation, Merger and Sale of Assets") resulting in such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, no longer being a Restricted Subsidiary, so long as (1) such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, is simultaneously released from its obligations in respect of any of the Company's other Indebtedness or any Indebtedness of any other Restricted Subsidiary and (2) the proceeds from such sale, disposition or merger are used for the purposes permitted or required by the Indenture;

- in the case of a Subsidiary Guarantee, upon its replacement with a JV Subsidiary Guarantee;
- in the case of a Subsidiary Guarantor, upon its becoming a New Non-Guarantor Subsidiary in compliance with the terms of the Indenture; or
- when such Subsidiary Guarantor or JV Subsidiary Guarantor no longer Guarantees, or the Guarantee provided by such Subsidiary Guarantor or JV Subsidiary Guarantor is concurrently released with respect to, any Existing Pari Passu Secured Indebtedness and/or any Permitted Pari Passu Secured Indebtedness in compliance with the terms of the Indenture, *provided* that each of the Trustee and the Collateral Agent shall comply with a release request if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

In the case of a Subsidiary Guarantor with respect to which the Company or any of its Restricted Subsidiaries is proposing to sell, whether through the sale of existing Capital Stock or the issuance of new Capital Stock, no less than 20% of the Capital Stock of such Subsidiary Guarantor, the Company may concurrently with the consummation of such sale or issuance of Capital Stock, (a) request the Trustee to release the Subsidiary Guarantee provided by such Subsidiary Guarantor and the Subsidiary Guarantee provided by each of its Restricted Subsidiaries organized under laws outside the PRC, and upon such release such Subsidiary Guarantor and its Restricted Subsidiaries organized under laws outside the PRC will become New Non-Guarantor Subsidiaries (such that each New Non-Guarantor Subsidiary will no longer Guarantee the Notes) and (b) request the Collateral Agent to (i) discharge the pledge of the Capital Stock granted by each such New Non-Guarantor Subsidiary and (ii) discharge the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the Capital Stock it owns in each such New Non-Guarantor Subsidiary (in each case under (a) and (b), without any requirement to seek the consent or approval of the Holders of the Notes), *provided* that, after the release of such Subsidiary Guarantees, the Consolidated Assets of all Restricted Subsidiaries organized under laws outside the PRC (other than the Exempted Subsidiaries and Listed Subsidiaries) that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors (including the New Non-Guarantor Subsidiaries) do not account for more than 20% of the Relevant Total Assets. A Subsidiary Guarantee of a Subsidiary Guarantor may only be released pursuant to this paragraph if, as of the date of such proposed release, no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (x) prohibiting the Company or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee or (y) requiring the Company or such Subsidiary Guarantor to deliver or keep in place a guarantee of other Indebtedness of the Company by such Subsidiary Guarantor.

Each of the Trustee and the Collateral Agent shall comply with a request referred to in (a) or (b) above if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

Replacement of Subsidiary Guarantees with JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor may be released following the sale of existing Capital Stock or the issuance of new Capital Stock by the Company or any of its Restricted Subsidiaries in (a) such Subsidiary Guarantor or (b) any other Subsidiary Guarantor that, directly or indirectly, owns a majority of the Capital Stock of such Subsidiary Guarantor, in each case where such sale or issuance is for no less than 20% of the issued Capital Stock of the relevant Subsidiary Guarantor, *provided* that the following conditions are satisfied or complied with:

- concurrently with the release of such Subsidiary Guarantee, the Company and such JV Subsidiary Guarantor have delivered to the Trustee and, in the case of the Security Documents, also to the Collateral Agent:
 - (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC, an Exempted Subsidiary or a Listed Subsidiary and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor becomes a party to the Indenture as a JV Subsidiary Guarantor, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) a duly executed Security Document that pledges in favor of the Collateral Agent the Capital Stock of such JV Subsidiary Guarantor held by the Company or any Subsidiary Guarantor (subject to releases and discharges as permitted under the Indenture), but not the Capital Stock of the direct or indirect Subsidiaries of such JV Subsidiary Guarantor;
 - (iii) an Officers' Certificate certifying a copy of a Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
 - (iv) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is valid, binding and enforceable against the JV Subsidiary Guarantor providing the JV Subsidiary Guarantee (subject to customary qualifications and assumptions).
- such sale or issuance of Capital Stock is made to an Independent Third Party at a consideration that is not less than the appraised value of such Capital Stock by an independent appraisal firm of recognized international standing appointed by the Company;
- all capital contributions (by way of transfer of cash or other property or any payment for property or services for the use of others or otherwise) to be made into such JV Subsidiary Guarantor from the date of the sale of existing Capital Stock or issuance of new Capital Stock as referred to above, shall be made directly or by contribution of assets or services having an equivalent Fair Market Value by (i) the Company and its Restricted Subsidiaries and (ii) such Independent Third Party that purchased or subscribed for Capital Stock in the JV Subsidiary Guarantor in proportion to their respective direct or indirect ownership percentages of the Capital Stock of such JV Subsidiary Guarantor; and
- as of the date of such proposed release, no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (a) prohibiting the Company or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee, (b) prohibiting the Company or any of the Restricted Subsidiaries from providing such JV

Subsidiary Guarantee or (c) requiring the Company or any of the Restricted Subsidiaries to deliver or keep in force a replacement guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee.

Notwithstanding the foregoing paragraph, any such sale or issuance of the Capital Stock of the relevant Subsidiary Guarantor (including where such sale results in the relevant Subsidiary Guarantor ceasing to be a Restricted Subsidiary) will need to comply with the other covenants set forth in the Indenture, including, without limitation, the “Limitation on Asset Sales” and “Limitation on Restricted Payments” covenants.

Any Net Cash Proceeds from the sale of such Capital Stock shall be applied by the Company (or any Restricted Subsidiary) in accordance with the “Limitation on Asset Sales” covenant.

As of the date of the Indenture, all of the Company’s Subsidiaries will be “Restricted Subsidiaries” other than City Expert (Ningbo) Property Co., Ltd. (城博(寧波)置業有限公司), City Expert Limited (城博有限公司), Exalt Boom Investments Limited (晉昌投資有限公司), Exalt Prosper Limited (上盛有限公司), Fortex Development Limited (嘉達發展有限公司), Foshan Nanhai Juncheng Property Development Co., Ltd. (佛山市南海俊誠房地產開發有限公司), Global City Development Limited, Ideal Market Holdings Limited (旭智控股有限公司), Key Alliance Investments Limited (建聯投資有限公司), Mass Thrive Holding Limited (群盛控股有限公司), Mass Thrive Limited (群盛有限公司), Ningbo Sanli Jiada Property Co., Ltd. (寧波三立嘉達置業有限公司), Ningbo Sanli Xianghe Property Co., Ltd. (寧波三立祥和置業有限公司), Ningbo Sanli Yongheng Property Co., Ltd. (寧波三立甬恒置業有限公司), Ningbo Yucheng Property Co., Ltd. (寧波御誠置業有限公司), Pioneer Time Investment Limited, Prosper Trade Investments Limited (興業投資有限公司), Ray Shine Group Limited (利輝集團有限公司) and Wuhan Donghu Hengda Real Estate Development Co., Ltd. (武漢東湖恒大房地產開發有限公司) and any Subsidiary of these Subsidiaries. However, under the circumstances described below under the section entitled “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries,” the Company will be permitted to designate certain of its Subsidiaries as “Unrestricted Subsidiaries.” The Company’s Unrestricted Subsidiaries will generally not be subject to the restrictive covenants in the Indenture. The Company’s Unrestricted Subsidiaries will not guarantee the Notes.

Security

The Company has agreed, for the benefit of the Holders, to pledge, or cause the initial Subsidiary Guarantor Pledgors to pledge, as the case may be, the Capital Stock owned directly by the Company or the initial Subsidiary Guarantor Pledgors of each initial Subsidiary Guarantor (the “Collateral”), or extend the benefit of the security interest over the Collateral, subject to any Permitted Lien and the Intercreditor Agreement, on the Original Issue Date in order to secure the obligations of the Company under the Notes and the Indenture and of such initial Subsidiary Guarantor Pledgors under their respective Subsidiary Guarantees.

The Company and the initial Subsidiary Guarantor Pledgors pledged the Collateral on January 19, 2011, June 10, 2011, September 7, 2011, October 15, 2013, May 27, 2016 and September 29, 2016 (subject to Permitted Liens and the Intercreditor Agreement) in order to secure certain obligations of the Company and such initial Subsidiary Guarantor Pledgors, including the Existing Notes and the related subsidiary guarantees (the “Share Charges”).

The trustee for each series of the Existing Notes and the Collateral Agent entered into the Intercreditor Agreement dated January 19, 2011, as supplemented from time to time. See “— Intercreditor Agreement.”

None of the Capital Stock of (i) the Non-Guarantor Subsidiaries (and Subsidiaries thereof) (for so long as they continue to be Non-Guarantor Subsidiaries) or (ii) any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary will be pledged on the Original Issue Date or at any time in the future. In addition, none of the Capital Stock of any future Non-Guarantor Subsidiary (and Subsidiaries thereof) and any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary will be pledged at any time in the future. If any JV Subsidiary Guarantor is established, the Capital Stock of such JV Subsidiary Guarantor owned directly by the Company or any Subsidiary Guarantor will be pledged to secure the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, as the case may be, in the manner described above. However, none of the JV Subsidiary Guarantors will provide a Security Document pledging the Capital Stock of its direct or indirect Subsidiaries as security in favor of the Collateral Agent (as defined below).

The Company has also agreed, for the benefit of the Holders, to pledge, or cause each Subsidiary Guarantor (other than a JV Subsidiary Guarantor, if any) to pledge, the Capital Stock owned directly by the Company or such Subsidiary Guarantor of any Person that (i) becomes a Restricted Subsidiary (other

than any Non-Guarantor Subsidiary and its Subsidiaries and any Restricted Subsidiary owned directly by a PRC Restricted Subsidiary) after the Original Issue Date, (ii) (in the case of an Exempted Subsidiary or a Listed Subsidiary that remains as a Restricted Subsidiary) has ceased to be either an Exempted Subsidiary or a Listed Subsidiary or (iii) (in the case of a Non-Guarantor Subsidiary that remains as a Restricted Subsidiary) has ceased to be a Non-Guarantor Subsidiary, as soon as reasonably practicable (but in any event within 30 days) after such Person has become a Restricted Subsidiary or has ceased to be an Exempted Subsidiary, a Listed Subsidiary or a Non-Guarantor Subsidiary, as applicable, to secure (subject to Permitted Liens and the Intercreditor Agreement) the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, in the manner described above.

Each Subsidiary Guarantor that pledges capital stock of a Restricted Subsidiary after the Original Issue Date is referred to as a “Future Subsidiary Guarantor Pledgor” and, upon giving such pledge, will be a “Subsidiary Guarantor Pledgor.”

The value of the Collateral securing the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness of the Subsidiary Guarantor Pledgors and the Permitted *Pari Passu* Secured Indebtedness (if any) is unlikely to be sufficient to satisfy the Company’s and each of the Subsidiary Guarantor Pledgors’ obligations under the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness of the subsidiary guarantor pledgors and the Permitted *Pari Passu* Secured Indebtedness, and the Collateral securing these obligations may be reduced or diluted under certain circumstances, including the issuance of Additional Notes and other Permitted *Pari Passu* Secured Indebtedness and the disposition of assets comprising the Collateral, subject to the terms of the Indenture. See the sections entitled “— Release of Security” and “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The value of the Collateral will likely not be sufficient to satisfy our obligations under the Notes and other *pari passu* secured indebtedness.”

No appraisals of the Collateral have been prepared in connection with this offering of the Notes. There can be no assurance that the proceeds of any sale of the Collateral, in whole or in part, pursuant to the Indenture and the Security Documents following an Event of Default would be sufficient to satisfy amounts due on the Notes, the Existing *Pari Passu* Secured Indebtedness, the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, the subsidiary guarantees for the Existing *Pari Passu* Secured Indebtedness or the Permitted *Pari Passu* Secured Indebtedness. By its nature, some or all of the Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Collateral would be sold in a timely manner or at all.

So long as no Payment Default has occurred and is continuing, and subject to the terms of the Security Documents and the Indenture, the Company and the Subsidiary Guarantor Pledgors, as the case may be, will be entitled to exercise any and all voting rights and to receive, retain and use any and all cash dividends, stock dividends, liquidating dividends, non-cash dividends, shares or stock resulting from stock splits or reclassifications, rights issues, warrants, options and other distributions (whether similar or dissimilar to the foregoing) in respect of Capital Stock constituting Collateral.

Permitted Pari Passu Secured Indebtedness

On or after the Original Issue Date, the Company and each Subsidiary Guarantor Pledgor may create Liens on the Collateral *pari passu* with the Lien for the benefit of the Holders to secure Indebtedness of the Company (including Additional Notes) and any *Pari Passu* Subsidiary Guarantee of a Subsidiary Guarantor Pledgor (such Indebtedness of the Company and any such *Pari Passu* Subsidiary Guarantee, “Permitted *Pari Passu* Secured Indebtedness”); *provided* that (1) the Company or such Subsidiary Guarantor Pledgor was permitted to Incur such Indebtedness under the covenant under the section entitled “— Certain Covenants — Limitation on Indebtedness and Preferred Stock,” (2) the holders of such Indebtedness (or their representative or agent) become party to the Intercreditor

Agreement referred to below; and (3) the Company and such Subsidiary Guarantor Pledgor deliver to the Trustee and the Collateral Agent an Opinion of Counsel and an Officers' Certificate with respect to corporate and collateral matters in connection with the Security Documents, stating that either (x) all necessary actions have been taken with respect to the recording, registering and filing of the Security Documents, financing statements or other instruments necessary to make effective the Liens intended to be created by the Security Documents, and reciting the details of such action or (y) no such action is necessary to make such Lien effective. The Trustee and the Collateral Agent will be permitted and authorized, without the consent of any Holder, to enter into any amendment to the Security Documents, the Intercreditor Agreement or the Indenture and take any other action necessary to permit the creation and registration of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with this paragraph (including, without limitation, the appointment of any collateral agent under the Intercreditor Agreement referred to below to hold the Collateral on behalf of the Holders and the holders of Permitted Pari Passu Secured Indebtedness (the "Collateral Agent").

Except for certain Permitted Liens and the Permitted Pari Passu Secured Indebtedness, the Company and its Restricted Subsidiaries will not be permitted to issue or Incur any other Indebtedness secured by all or any portion of the Collateral without the consent of each Holder of the Notes then outstanding.

Intercreditor Agreement

On January 19, 2011, the Company entered into an intercreditor agreement (as amended, waived, restated, replaced and/or supplemented from time to time, the "Intercreditor Agreement") with, among others, the Subsidiary Guarantor Pledgors and the Collateral Agent, as acceded to by holders (or representatives, agents or trustees thereof) of Existing Pari Passu Secured Indebtedness.

On the Original Issue Date, the Trustee will accede to the Intercreditor Agreement, whereupon the Holders of the Notes will share equal priority and pro rata entitlement in and to the Collateral with the holders of any Existing Pari Passu Secured Indebtedness remaining outstanding after the Original Issue Date and any other creditors with respect to Permitted Pari Passu Secured Indebtedness. Immediately prior to the Original Issue Date, the Existing Pari Passu Secured Indebtedness amounted to an aggregate principal amount of US\$5.7 billion.

Prior to or concurrently with the first Incurrence of any Permitted Pari Passu Secured Indebtedness (other than Additional Notes) after the Original Issue Date, the Intercreditor Agreement may be amended, without requiring instruction from the Holders, to include the holders of such Permitted Pari Passu Secured Indebtedness (or their representative or agent) as additional secured parties to the agreement.

Enforcement of Security

The benefit of the Lien over the Collateral granted to the Collateral Agent will be extended to secure the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, subject to any Permitted Lien and the Intercreditor Agreement. Subject to the Intercreditor Agreement, the Collateral Agent (for the benefit the Holders), will hold such Liens and security interests in the Collateral granted pursuant to the Security Documents with sole authority as directed by the written instruction of the Holders (through the Trustee) to exercise remedies under the Security Documents. The Trustee has agreed to act as secured party on behalf of the Holders under the applicable Security Documents, to follow the instructions provided to it under the Indenture and to carry out certain other duties.

The Indenture and/or the Security Documents principally provide that, at any time while the Notes are outstanding, subject to the Intercreditor Agreement, the Collateral Agent has the exclusive right to manage, perform and enforce the terms of the Security Documents relating to the Collateral and to exercise and enforce all privileges, rights and remedies thereunder according to the direction of the secured parties thereto, including to take or retake control or possession of such Collateral and to hold,

prepare for sale, process, lease, dispose of or liquidate such Collateral, including, without limitation, following the occurrence of an Event of Default under the Indenture. However, although the Trustee may instruct the Collateral Agent to foreclose the Collateral upon the occurrence of an Event of Default that is continuing, such instruction may be overruled by a contrary instruction to the Collateral Agent from holders of more than 50% of the indebtedness that is subject to the Intercreditor Agreement. See the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The value of the Collateral will likely not be sufficient to satisfy our obligations under the Notes and other *pari passu* secured indebtedness.”

The Intercreditor Agreement principally provides that, at any time while the Intercreditor Agreement is in force, the Collateral Agent has the exclusive right to manage, perform and enforce the terms of the Security Documents and the security documents for any Permitted Pari Passu Secured Indebtedness relating to the Collateral. See “— Intercreditor Agreement.”

All payments received and all amounts held by the Collateral Agent in respect of the Collateral under the Security Documents will be, subject to the Intercreditor Agreement, in the following order of priority:

first, to the Collateral Agent to the extent necessary to reimburse the Collateral Agent for any unpaid fees, costs and expenses (including expenses of any receiver appointed under any Security Document and reasonable expenses of its counsel) properly incurred in connection with its duties under the Intercreditor Agreement including without limitation, the collection, distribution or enforcement of such amounts held or realized or in connection with expenses properly incurred under the Intercreditor Agreement in enforcing all available remedies under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted Pari Passu Secured Indebtedness that is subject to the Intercreditor Agreement and preserving the Collateral and all indemnification payments for which the Collateral Agent is entitled to under the Security Documents;

second, to the extent not reimbursed under the above paragraph, to the trustee for each series of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for each Existing Bank Loan, the Trustee and, to the extent applicable, the holder of any Permitted Pari Passu Secured Indebtedness (in the case of a sole creditor of any series of Permitted Pari Passu Secured Indebtedness only) or the representative or agent of any holders of any series of Permitted Pari Passu Secured Indebtedness, to the extent necessary to reimburse the foregoing persons ratably for any unpaid fees, costs and expenses (including fees and expenses of any paying agents, transfer agents, registrars or other agents in connection therewith appointed in connection with the foregoing and reasonable fees and expenses of counsel) reasonably incurred under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted Pari Passu Secured Indebtedness (or any other document in connection with the foregoing that such paying agents, transfer agents, registrars or other agents are party to) in connection with the collection or distribution of such amounts held or realized or in connection with expenses incurred in enforcing all available remedies under the Security Documents, the indenture for each series of the Existing Notes, the agreement for each Existing Bank Loan, the Indenture and the agreements governing any Permitted Pari Passu Secured Indebtedness that is subject to the Intercreditor Agreement and preserving the Collateral and all indemnification payments for which the foregoing persons are entitled to under the Security Documents;

third, ratably to each of the trustee for each series of the Existing Notes for the benefit of the holders of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for the benefit of the lenders under each Existing Bank Loan, the Trustee for the benefit of the Holders and, to the extent applicable, to holders (or their representative or agent) of Permitted Pari Passu Secured Indebtedness, inclusive of any reasonable fees and expenses of each of the trustee for each

series of the Existing Notes, the lender (in the case of a bilateral loan) or facility agent for each Existing Bank Loan, the Trustee and the holders (or their representative or agent) of Permitted Pari Passu Secured Indebtedness (to the extent not paid pursuant to the above second paragraph), and the principal, interest and premium thereon and for the benefit of the holders of each thereof in accordance with the terms of the relevant document governing the foregoing indebtedness; and

lastly, any surplus remaining after such payments will be paid to the Company (for itself and any Subsidiary Guarantor Pledgors) or to whomever may be lawfully entitled thereto.

The Collateral Agent may decline to foreclose on the Collateral or exercise remedies available if it does not receive indemnification and/or security to its satisfaction. In addition, the Collateral Agent's ability to foreclose on the Collateral may be subject to lack of perfection, the consent of third parties, prior Liens and practical problems associated with the realization of the Collateral Agent's Liens on the Collateral. Neither the Collateral Agent nor any of its officers, directors, employees, attorneys or agents will be responsible or liable for the existence, genuineness, value or protection of any Collateral securing the Notes, for the legality, enforceability, effectiveness or sufficiency of the Security Documents, for the creation, perfection, priority, sufficiency or protection of any of the Liens, for any defect or deficiency as to any such matters, or for any failure to demand, collect, foreclose or realize upon or otherwise enforce any of the Liens or Security Documents or any delay in doing so.

The Security Documents provide that the Company and the Subsidiary Guarantor Pledgors will indemnify the Collateral Agent for all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind imposed against the Collateral Agent arising out of the Security Documents except to the extent that any of the foregoing are finally judicially determined to have resulted from the gross negligence or willful misconduct of the Collateral Agent.

This section, "— Enforcement of Security," shall be subject to any amendments to the Security Documents or the Indenture to permit the creation of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with the section entitled "— Permitted Pari Passu Secured Indebtedness" above.

Release of Security

The security created in respect of the Collateral granted under the Security Documents may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon defeasance and discharge of the Notes as provided below under the section entitled "— Defeasance — Defeasance and Discharge;"
- upon certain dispositions of the Collateral in compliance with the covenants under the sections entitled "— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries" or "— Certain Covenants — Limitation on Asset Sales" or in accordance with the provisions under the section entitled "— Consolidation, Merger and Sale of Assets;"
- with respect to security granted by a Subsidiary Guarantor Pledgor, upon the release of the Subsidiary Guarantee of such Subsidiary Guarantor Pledgor in accordance with the terms of the Indenture;
- upon execution of a JV Subsidiary Guarantee to replace a Subsidiary Guarantee, with respect to all pledges of Capital Stock previously granted by such Subsidiary Guarantor, now a JV Subsidiary Guarantor, in its direct and indirect Subsidiaries, and in accordance with the terms of the Indenture;

- upon a Subsidiary Guarantor becoming a New Non-Guarantor Subsidiary, with respect to the release of any pledge of Capital Stock previously granted by such Subsidiary Guarantor, now a New Non-Guarantor Subsidiary, and the release of the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the Capital Stock it owns in such New Non-Guarantor Subsidiary;
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the release of the Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, of such Subsidiary Guarantor or JV Subsidiary Guarantor, and in accordance with the terms of the Indenture;
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the designation by the Company of such Subsidiary Guarantor or JV Subsidiary Guarantor as an Unrestricted Subsidiary, and in accordance with the terms of the Indenture; or
- with respect to the Lien over the Collateral (or any portion thereof) pledged to secure the Notes, either upon (i) the repayment in full of all amounts owing by the Company or any Subsidiary Guarantors or JV Subsidiary Guarantors under the Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness or (ii) the prior or concurrent release of the Lien on the Collateral securing all Existing Pari Passu Secured Indebtedness and any Permitted Pari Passu Secured Indebtedness; *provided* that in each case, no Default has occurred and is continuing on such date and no Default would have occurred as a result of such release, and each of the Trustee and the Collateral Agent shall comply with a release request if the conditions precedent to such release set forth in the Indenture and the Security Documents have been complied with, as evidenced by an Officers' Certificate from the Company, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture and the Security Documents, as applicable.

Further Issues

Subject to the covenants described below, the Company may, from time to time, without notice to or the consent of the Holders, create and issue Additional Notes having the same terms and conditions as the Notes (including the benefit of the Subsidiary Guarantees and JV Subsidiary Guarantees (if any)) in all respects (or in all respects except for the issue date, issue price and the first payment of interest on them and, to the extent necessary, certain temporary securities law transfer restrictions) ("Additional Notes") so that such Additional Notes may be consolidated and form a single class with the previously outstanding Notes and vote together as one class on all matters with respect to the Notes; *provided* that the issuance of any such Additional Notes shall then be permitted under the "Limitation on Indebtedness and Preferred Stock" covenant described below and the other provisions of the Indenture.

Optional Redemption

On or after _____, 2021, the Company may on any one or more occasions redeem all or any part of the Notes, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest, if any, on the Notes redeemed, to (but not including) the applicable date of redemption, if redeemed during the twelve-month period beginning on _____ of the years indicated below:

Year	Redemption Price
2021	%
2022	%
2023	%
2024 and thereafter	%

At any time prior to _____, 2021, the Company may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to (but not including), the redemption date. Neither the Trustee nor the Paying Agent shall be responsible for calculating or verifying the Applicable Premium.

At any time and from time to time prior to _____, 2021, the Company may redeem up to 35% of the aggregate principal amount of the Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of _____ % of the principal amount of the Notes redeemed, plus accrued and unpaid interest, if any, to (but not including) the redemption date; *provided* that at least 65% of the aggregate principal amount of the Notes originally issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

The Company will give not less than 30 days' nor more than 60 days' notice of any redemption. If less than all of the Notes are to be redeemed at any time, the Notes will be selected for redemption as follows:

- (1) if the Notes are listed on any national securities exchange or are held through a clearing system, in compliance with the requirements of the principal national securities exchange on which the Notes are listed (if any) or the requirements of the clearing system; or
- (2) if the Notes are not listed on any national securities exchange, on a pro rata basis, by lot or by such method as the Trustee deems fair and appropriate unless otherwise required by law.

A Note of US\$200,000 in principal amount or less shall not be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. A new Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note. On and after the redemption date, interest will cease to accrue on Notes or portions of them called for redemption.

Repurchase of Notes Upon a Change of Control Triggering Event

Not later than 30 days following a Change of Control Triggering Event, the Company will make an Offer to Purchase all outstanding Notes (a "Change of Control Offer") at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to (but not including) the Offer to Purchase Payment Date.

The Company has agreed in the Indenture that it will timely repay all Indebtedness or obtain consents as necessary under, or terminate, agreements or instruments that would otherwise prohibit a Change of Control Offer required to be made pursuant to the Indenture. Notwithstanding this agreement of the Company, it is important to note that if the Company is unable to repay (or cause to be repaid) all

of the Indebtedness, if any, that would prohibit repurchase of the Notes or is unable to obtain the requisite consents of the holders of such Indebtedness, or terminate any agreements or instruments that would otherwise prohibit a Change of Control Offer, it would continue to be prohibited from purchasing the Notes. In that case, the Company's failure to purchase tendered Notes would constitute an Event of Default under the Indenture.

Certain of the events constituting a Change of Control Triggering Event under the Notes will also constitute an event of default under certain debt instruments of the Company and its Subsidiaries. Future debt of the Company may also (1) prohibit the Company from purchasing Notes in the event of a Change of Control Triggering Event; (2) provide that a Change of Control Triggering Event is a default; or (3) require repurchase of such debt upon a Change of Control Triggering Event. Moreover, the exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under other Indebtedness, even if the Change of Control Triggering Event itself does not, due to the financial effect of the purchase on the Company. The Company's ability to pay cash to the Holders following the occurrence of a Change of Control Triggering Event may be limited by the Company's and the Subsidiary Guarantors' then-existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See the section entitled "Risk Factors — Risks Relating to the Notes — We may not be able to repurchase the Notes and the Existing Notes upon a change of control triggering event." The phrase "all or substantially all," as used with respect to the assets of the Company in the definition of "Change of Control," will likely be interpreted under applicable law of the relevant jurisdictions and will be dependent upon particular facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of "all or substantially all" the assets of the Company has occurred.

Notwithstanding the above, the Company will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the same manner at the same time and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Except as described above with respect to a Change of Control Triggering Event, the Indenture does not contain provisions that permit the Holders to require that the Company purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

No Mandatory Redemption or Sinking Fund

There will be no mandatory redemption or sinking fund payments for the Notes.

Additional Amounts

All payments by or on behalf of the Company, a Surviving Person (as defined under "— Consolidation, Merger and Sale of Assets"), a Subsidiary Guarantor, a JV Subsidiary Guarantor or a Subsidiary Guarantor Pledgor of principal of, and premium (if any) and interest on, the Notes and any payments under the Subsidiary Guarantees or JV Subsidiary Guarantees (if any) and under the Security Documents will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or within any jurisdiction in which the Company, a Surviving Person or the applicable Subsidiary Guarantor or JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor is organized or resident for tax purposes (or any political subdivision or taxing authority thereof or therein)(each, as applicable, a "Relevant Taxing Jurisdiction") or any jurisdiction through which payments on the Notes or a Guarantee are made (or any political subdivision or taxing authority thereof or therein) (as applicable and together with the Relevant Taxing Jurisdictions, each, a "Relevant Jurisdiction"), unless such withholding or deduction is required by law or by regulation or governmental policy having the force of law. In the event that any such withholding or deduction is so required, the Company, a Surviving Person, the applicable Subsidiary Guarantor, JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor, as the case may be, will pay such

additional amounts (“Additional Amounts”) as will result in receipt by the Holder of each Note of such amounts as would have been received by such Holder had no such withholding or deduction been required, except that no Additional Amounts shall be payable:

- (1) for or on account of:
 - (a) any tax, duty, assessment or other governmental charge that would not have been imposed but for:
 - (i) the existence of any present or former connection between the Holder or beneficial owner of such Note and the Relevant Jurisdiction other than merely holding such Note or the receipt of payments thereunder or under a Subsidiary Guarantee, JV Subsidiary Guarantee or Security Document, including, without limitation, such Holder or beneficial owner being or having been a national, domiciliary or resident of such Relevant Jurisdiction or treated as a resident thereof or being or having been physically present or engaged in a trade or business therein or having or having had a permanent establishment therein;
 - (ii) the presentation of such Note (in cases in which presentation is required) more than 30 days after the later of the date on which the payment of the principal of, premium, if any, and interest on, such Note became due and payable pursuant to the terms thereof or was made or duly provided for, except to the extent that the Holder thereof would have been entitled to such Additional Amounts if it had presented such Note for payment on any date within such 30-day period;
 - (iii) the failure of the Holder or beneficial owner to comply with a timely request of the Company, a Surviving Person, any Subsidiary Guarantor, JV Subsidiary Guarantor or Subsidiary Guarantor Pledgor, addressed to the Holder to provide information concerning such Holder’s or beneficial owner’s nationality, residence, identity or connection with any Relevant Jurisdiction, if and to the extent that due and timely compliance with such request is required by law to reduce or eliminate any withholding or deduction as to which Additional Amounts would have otherwise been payable to such Holder; or
 - (iv) the presentation of such Note (in cases in which presentation is required) for payment in the Relevant Jurisdiction, unless such Note could not have been presented for payment elsewhere;

- (14) the redemption, repurchase or other acquisition of Capital Stock of any Restricted Subsidiary (not exceeding 50% of the total Capital Stock in such Restricted Subsidiary) from an Independent Third Party; or
- (15) any dividend or distribution declared, paid or made by Hengda Real Estate Group Co., Ltd. (恒大地產集團有限公司) to Strategic Investors in accordance with the terms of the Investment Agreements;

provided that, in the case of clause (2), (3) or (4) of the preceding paragraph, no Default shall have occurred and be continuing or would occur as a consequence of the actions or payments set forth therein.

Subject to the immediately following paragraph, each Restricted Payment made pursuant to clause (1) of the preceding paragraph shall be included in calculating whether the conditions of clause (c) of the first paragraph of this “Limitation on Restricted Payments” covenant have been met with respect to any subsequent Restricted Payment.

Notwithstanding any other provision of this “Limitation on Restricted Payments” covenant, clause (b) of the first paragraph of this covenant does not have to be satisfied with respect to any Restricted Payment consisting solely of the declaration or payment of dividends in cash on the Common Stock of the Company or the repurchase of Common Stock of the Company on The Stock Exchange of Hong Kong Limited; *provided* that, starting from the Original Issue Date, the only amount of any Restricted Payment made pursuant to this paragraph that shall be included in calculating whether the conditions of clause (c) of the first paragraph of this “Limitation on Restricted Payments” covenant have been met shall be the excess amount, if any, of (x) the aggregate amount of all declarations and payments of dividends on such Common Stock during any fiscal year of the Company and price paid for all such repurchased Common Stock during such fiscal year over (y) 35% of the consolidated profit for the year of the Company calculated in accordance with GAAP for the fiscal year immediately before such fiscal year.

The amount of any Restricted Payment (other than cash) will be the Fair Market Value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Company or the Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment. The value of any assets or securities that are required to be valued by this covenant will be the Fair Market Value. The Board of Directors’ determination of the Fair Market Value of a Restricted Payment or any such assets or securities must be based upon an opinion or appraisal issued by an appraisal or investment banking firm of recognized international standing if the Fair Market Value exceeds US\$10.0 million (or the Dollar Equivalent thereof).

Not later than the date of making any Restricted Payment in excess of US\$10.0 million (or the Dollar Equivalent thereof) (other than any Restricted Payments set forth in clauses (5) through (14) above), the Company will deliver to the Trustee an Officers’ Certificate stating that such Restricted Payment is permitted and setting forth the basis upon which the calculations required by this covenant entitled “— Limitation on Restricted Payments” were computed, together with a copy of any fairness opinion or appraisal required by the Indenture.

Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

- (1) Except as provided below, the Company will not, and will not permit any Restricted Subsidiary to, create or otherwise cause or permit to exist or become effective any encumbrance or restriction on the ability of any Restricted Subsidiary to:
 - (a) pay dividends or make any other distribution on any Capital Stock of such Restricted Subsidiary owned by the Company or any other Restricted Subsidiary;
 - (b) pay any Indebtedness or other obligation owed to the Company or any other Restricted Subsidiary;
 - (c) make loans or advances to the Company or any other Restricted Subsidiary; or
 - (d) sell, lease or transfer any of its property or assets to the Company or any other Restricted Subsidiary.
- (2) The provisions of clause (1) do not apply to any encumbrances or restrictions:
 - (a) existing in agreements as in effect on the Original Issue Date, or in the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees, the Indenture, the Security Documents, the Existing Pari Passu Secured Indebtedness and the subsidiary guarantees and JV subsidiary guarantees thereof, or under any Permitted Pari Passu Secured Indebtedness of the Company or any Subsidiary Guarantor Pledgor or Pari Passu Subsidiary Guarantee of any Subsidiary Guarantor or any JV Subsidiary Guarantor, and any extensions, refinancings, renewals or replacements of any of the foregoing agreements; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced;
 - (b) existing under or by reason of applicable law, rule, regulation or order;
 - (c) existing with respect to any Person or the property or assets of such Person acquired by the Company or any Restricted Subsidiary, at the time of such acquisition and not incurred in contemplation thereof, which encumbrances or restrictions are not applicable to any Person or the property or assets of any Person other than such Person or the property or assets of such Person so acquired, and any extensions, refinancings, renewals or replacements thereof; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced;
 - (d) that otherwise would be prohibited by the provision described in clause (1)(d) of this covenant if they arise, or are agreed to, in the ordinary course of business and, that (i) restrict in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease or license, or (ii) exist by virtue of any Lien on, or agreement to transfer, option or similar right with respect to any property or assets of the Company or any Restricted Subsidiary not otherwise prohibited by the Indenture or (iii) do not relate to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of property or assets of the Company or any Restricted Subsidiary in any manner material to the Company or any Restricted Subsidiary;

- (e) with respect to a Restricted Subsidiary and imposed pursuant to an agreement that has been entered into for the sale or disposition of all or substantially all of the Capital Stock of, or property and assets of, such Restricted Subsidiary that is permitted by the covenants entitled “— Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries,” “— Limitation on Indebtedness and Preferred Stock” and “— Limitation on Asset Sales;”
- (f) with respect to any Restricted Subsidiary and imposed pursuant to an agreement that has been entered into for the Incurrence of Indebtedness or issuance of Preferred Stock of the type described under clause (2)(h), (2)(n), (2)(o), (2)(p), (2)(q), (2)(r), (2)(s), (2)(t), (2)(u), 2(v) or 2(w) of the covenant entitled “— Limitation on Indebtedness and Preferred Stock” if the encumbrances or restrictions are (i) customary for such types of agreements and (ii) would not, at the time agreed to, be expected to materially and adversely affect the ability of the Company to make required payment on the Notes and any extensions, refinancings, renewals or replacements of any of the foregoing agreements; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced, *provided* further that, the Board of Directors is empowered to determine as to whether of the conditions set forth in clauses (i) and (ii) are met, which determination shall be conclusive if evidenced by a Board Resolution;
- (g) existing in customary provisions in joint venture agreements and other similar agreements permitted under the Indenture, to the extent such encumbrance or restriction relates to the activities or assets of a Restricted Subsidiary that is a party to such joint venture and if (i) the encumbrances or restrictions are customary for a joint venture or similar agreement of that type and (ii) the encumbrances or restrictions would not, at the time agreed to, be expected to materially and adversely affect (x) the ability of the Company to make the required payments on the Notes, or (y) any Subsidiary Guarantor or JV Subsidiary Guarantor to make required payments under its Subsidiary Guarantee or JV Subsidiary Guarantee, *provided* further that, the Board of Directors is empowered to determine as to whether of the conditions set forth in clauses (i) and (ii) are met, which determination shall be conclusive if evidenced by a Board Resolution; or
- (h) existing with respect to any Unrestricted Subsidiary or the property or assets of such Unrestricted Subsidiary that is designated as a Restricted Subsidiary in accordance with the terms of the Indenture at the time of such designation and not incurred in contemplation of such designation, which encumbrances or restrictions are not applicable to any Person or the property or assets of any Person other than such Subsidiary or its subsidiaries or the property or assets of such Subsidiary or its subsidiaries, and any extensions, refinancing, renewals or replacements thereof; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced.

Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries

The Company will not sell, and will not permit any Restricted Subsidiary, directly or indirectly, to issue or sell any shares of Capital Stock of a Restricted Subsidiary (including options, warrants or other rights to purchase shares of such Capital Stock) except:

- (1) to the Company or a Wholly Owned Restricted Subsidiary, or in the case of a Restricted Subsidiary that is not Wholly Owned, pro rata to its shareholders or incorporators;
- (2) to the extent such Capital Stock represents director's qualifying shares or is required by applicable law to be held by a Person other than the Company or a Wholly Owned Restricted Subsidiary;
- (3) for the issuance or sale of the Capital Stock of a Restricted Subsidiary if, immediately after giving effect to such issuance or sale, such Restricted Subsidiary would no longer constitute a Restricted Subsidiary and any remaining Investment in such Person would have been permitted to be made under the "— Limitation on Restricted Payments" covenant if made on the date of such issuance or sale and *provided* that the Company complies with the "— Limitation on Asset Sales" covenant; *provided* that, paragraph (18)(b) of the definition of "Permitted Investments" shall not apply if such Investment would otherwise have been permitted under paragraph (18) of such definition; and
- (4) the issuance or sale of Capital Stock of a Restricted Subsidiary (which remains a Restricted Subsidiary after any such issuance or sale); *provided* that the Company or such Restricted Subsidiary applies the Net Cash Proceeds of such issuance or sale in accordance with the covenant entitled "— Limitation on Asset Sales."

Limitation on Issuances of Guarantees by Restricted Subsidiaries

The Company will not permit any Restricted Subsidiary which is not a Subsidiary Guarantor or a JV Subsidiary Guarantor, directly or indirectly, to Guarantee any Indebtedness ("Guaranteed Indebtedness") of the Company or any Subsidiary Guarantor, unless (1) (a) such Restricted Subsidiary, simultaneously executes and delivers a supplemental indenture to the Indenture providing for an unsubordinated Subsidiary Guarantee (in the case of a Subsidiary Guarantor) or JV Subsidiary Guarantee (in the case of a JV Subsidiary Guarantor) of payment of the Notes by such Restricted Subsidiary and (b) such Restricted Subsidiary waives, and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Company or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, until the Notes have been paid in full or (2) such Guarantee is permitted by clauses (2)(d) or (s) (in the case of clause (2)(s), with respect to the Guarantee provided by the Company or any Restricted Subsidiary through the pledge of one or more bank accounts or deposits to secure (or the use of any Guarantee or letter of credit or similar instruments to Guarantee) any Bank Deposit Secured Indebtedness), under the caption "— Limitation on Indebtedness and Preferred Stock."

If the Guaranteed Indebtedness (1) ranks *pari passu* in right of payment with the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall rank *pari passu* in right of payment with, or subordinated to, the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, or (2) is subordinated in right of payment to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall be subordinated in right of payment to the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, at least to the extent that the Guaranteed Indebtedness is subordinated to the Notes, the Subsidiary Guarantee or the JV Subsidiary Guarantee.

The Company will not permit any JV Subsidiary Guarantor, directly or indirectly, to guarantee any Indebtedness of the Company or any other Restricted Subsidiary unless the aggregate claims of the creditor under such guarantee will be limited to the JV Entitlement Amount, which, absent manifest error, may be conclusively evidenced by an Officers' Certificate from the Company certifying to that effect. The Trustee is fully protected in relying on such an Officers' Certificate with respect to such guarantee given by the relevant JV Subsidiary Guarantor. If any JV Subsidiary Guarantor guarantees any Indebtedness of the Company or any other Restricted Subsidiary where the aggregate claims of the creditor under such guarantee exceeds the JV Entitlement Amount, such JV Subsidiary Guarantee shall be replaced with a Subsidiary Guarantee given by a Subsidiary Guarantor.

Limitation on Transactions with Shareholders and Affiliates

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into, renew or extend any transaction or arrangement (including, without limitation, the purchase, sale, lease or exchange of property or assets, or the rendering of any service) with (x) any holder (or any Affiliate of such holder) of 10% or more of any class of Capital Stock of the Company or (y) any Affiliate of the Company (each an "Affiliate Transaction"), unless:

- (1) the Affiliate Transaction is on fair and reasonable terms that are no less favorable to the Company or the relevant Restricted Subsidiary, as the case may be, than those that would have been obtained in a comparable transaction by the Company or the relevant Restricted Subsidiary with a Person that is not an Affiliate of the Company or such Restricted Subsidiary; and
- (2) the Company delivers to the Trustee:
 - (a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$25.0 million (or the Dollar Equivalent thereof), a Board Resolution set forth in an Officers' Certificate certifying that such Affiliate Transaction complies with this covenant and such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors; and
 - (b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$50.0 million (or the Dollar Equivalent thereof), in addition to the Board Resolution required in clause 2(a) above, an opinion as to the fairness to the Company or such Restricted Subsidiary, as the case may be, of such Affiliate Transaction from a financial point of view issued by an accounting, appraisal or investment banking firm of recognized international standing.

The foregoing limitation does not limit, and shall not apply to:

- (1) the payment of reasonable and customary regular fees and other compensation for the service as board members to directors of the Company or any Restricted Subsidiary who are not employees of the Company or any Restricted Subsidiary;
- (2) transactions between or among the Company and any of its Wholly Owned Restricted Subsidiaries or between or among Wholly Owned Restricted Subsidiaries;
- (3) any Restricted Payment of the type described in clause (1), (2) or (3) of the first paragraph of the covenant entitled "— Limitation on Restricted Payments" if permitted by that covenant;
- (4) any sale of Capital Stock (other than Disqualified Stock) of the Company;

- (5) the payment of compensation to officers and directors of the Company or any Restricted Subsidiary pursuant to an employee stock or share option scheme, so long as such scheme is in compliance with the listing rules of The Stock Exchange of Hong Kong Limited, which as of the Original Issue Date require a majority shareholder approval for any such scheme;
- (6) any purchase of Capital Stock of the type specified in clause (9), (10) or (11) of the second paragraph of the covenant entitled “— Limitation on Restricted Payments;” and
- (7) any repurchase, redemption or other acquisition or retirement for value of any Capital Stock of the Company or any Restricted Subsidiary pursuant to clause (12) of the second paragraph of the covenant entitled “— Limitation on Restricted Payments.”

In addition, the requirements of clause (2) of the first paragraph of this covenant shall not apply to (i) Investments (including Permitted Investments that are permitted under paragraph (18) of the definition of “Permitted Investments” but otherwise excluding any other Permitted Investments) not prohibited by the “Limitation on Restricted Payments” covenant, (ii) transactions pursuant to agreements in effect on the Original Issue Date and described in this offering memorandum, or any amendment or modification or replacement thereof, so long as such amendment, modification or replacement is not more disadvantageous to the Company and its Restricted Subsidiaries than the original agreement in effect on the Original Issue Date and (iii) any transaction between or among any of the Company, any Wholly Owned Restricted Subsidiary and any Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary or between or among the Company or a Restricted Subsidiary on the one part and a Jointly Controlled Entity, an Associate or an Unrestricted Subsidiary on the other part; *provided* that in the case of clause (iii), (a) such transaction is entered into in the ordinary course of business, (b) in the case of a transaction with a Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary, none of the minority shareholders or minority partners of or in such Restricted Subsidiary (other than those that beneficially own in the aggregate no more than 10% of the Capital Stock of such Restricted Subsidiary) is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such minority shareholder or minority partner being an officer or director of such Restricted Subsidiary or being a Subsidiary of the Company), or (c) in the case of a transaction with a Jointly Controlled Entity, an Associate or an Unrestricted Subsidiary, none of the shareholders or partners (other than the Company or a Restricted Subsidiary) of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary (other than shareholders or partners that beneficially own in the aggregate no more than 10% of the Capital Stock of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary) is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such shareholder or partner being a director or officer of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary or by reason of being a Subsidiary, Jointly Controlled Entity or Associate of the Company).

Limitation on Liens

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien on the Collateral (other than Permitted Liens).

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien of any nature whatsoever on any of its assets or properties of any kind (other than the Collateral), whether owned at the Original Issue Date or thereafter acquired, except Permitted Liens, unless the Notes are equally and ratably secured by such Lien.

Limitation on Sale and Leaseback Transactions

The Company will not, and will not permit any of its Restricted Subsidiaries to, enter into any Sale and Leaseback Transaction; *provided* that the Company or any Restricted Subsidiary may enter into a Sale and Leaseback Transaction if:

- (1) the Company or any Restricted Subsidiary could have (a) Incurred Indebtedness in an amount equal to the Attributable Indebtedness relating to such Sale and Leaseback Transaction under the covenant entitled “— Limitation on Indebtedness and Preferred Stock” and (b) Incurred a Lien to secure such Indebtedness pursuant to the covenant entitled “— Limitation on Liens,” in which case, the corresponding Indebtedness and Lien will be deemed Incurred pursuant to those provisions;
- (2) the gross cash proceeds of that Sale and Leaseback Transaction are at least equal to the Fair Market Value of the property that is the subject of such Sale and Leaseback Transaction; and
- (3) the transfer of assets in that Sale and Leaseback Transaction is permitted by, and the Company or such Restricted Subsidiary applies the proceeds of such transaction in compliance with, the covenant entitled “— Limitation on Asset Sales.”

Limitation on Asset Sales

The Company will not, and will not permit any Restricted Subsidiary to, consummate any Asset Sale, unless:

- (1) no Default shall have occurred and be continuing or would occur as a result of such Asset Sale;
- (2) the consideration received by the Company or such Restricted Subsidiary, as the case may be, is at least equal to the Fair Market Value of the assets sold or disposed of; and
- (3) at least 75% of the consideration received consists of cash, Temporary Cash Investments or Replacement Assets (as defined below); *provided* that in the case of an Asset Sale in which the Company or such Restricted Subsidiary receives Replacement Assets involving aggregate consideration in excess of US\$50.0 million (or the Dollar Equivalent thereof), the Company shall deliver to the Trustee an opinion as to the fairness to the Company or such Restricted Subsidiary of such Asset Sale from a financial point of view issued by an accounting, appraisal or investment banking firm of international standing. For purposes of this provision, each of the following will be deemed to be cash:
 - (a) any liabilities, as shown on the Company’s most recent consolidated balance sheet, of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any Subsidiary Guarantee or any JV Subsidiary Guarantee) that are assumed by the transferee of any such assets pursuant to a customary assumption, assignment, novation or similar agreement that releases the Company or such Restricted Subsidiary, as the case may be, from further liability; and
 - (b) any securities, notes or other obligations received by the Company or any Restricted Subsidiary from such transferee that are promptly, but in any event within 30 days of closing, converted by the Company or such Restricted Subsidiary, as the case may be, into cash, to the extent of the cash received in that conversion,

provided that clauses (1), (2) and (3) above shall not apply to (i) any Asset Sale to any Person that will, upon the consummation of such Asset Sale, become a Restricted Subsidiary, and (ii) any issuance or sale of Capital Stock to a Strategic Investor in order to satisfy a Repurchase Obligation or in connection with the proposed reorganization for which the Company made an announcement on October 3, 2016.

Within 360 days after the receipt of any Net Cash Proceeds from an Asset Sale, the Company (or any Restricted Subsidiary) may apply such Net Cash Proceeds to:

- (1) permanently repay Senior Indebtedness of the Company or a Subsidiary Guarantor or any Indebtedness of a Restricted Subsidiary that is not a Subsidiary Guarantor (and, if such Senior Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto) in each case owing to a Person other than the Company or a Restricted Subsidiary; or
- (2) acquire properties and assets that replace the properties and assets that were the subject of such Asset Sale or Replacement Assets.

Pending application of such Net Cash Proceeds as set forth in clause (1) or (2) above, the Company may make an Investment in cash or Temporary Cash Investments.

Any Net Cash Proceeds from Asset Sales that are not applied or invested as provided in clauses (1) and (2) in the immediately preceding paragraph will constitute "Excess Proceeds." Excess Proceeds of less than US\$10.0 million (or the Dollar Equivalent thereof) will be carried forward and accumulated. When accumulated Excess Proceeds exceed US\$10.0 million (or the Dollar Equivalent thereof), within 10 days thereof, the Company must make an Offer to Purchase Notes having a principal amount equal to:

- (1) accumulated Excess Proceeds, multiplied by
- (2) a fraction (x) the numerator of which is equal to the outstanding principal amount of the Notes and (y) the denominator of which is equal to the outstanding principal amount of the Notes and all *pari passu* Indebtedness similarly required to be repaid, redeemed or tendered for in connection with the related Asset Sales, rounded down to the nearest US\$1,000.

The offer price in any Offer to Purchase will be equal to 100% of the principal amount plus accrued and unpaid interest to the date of purchase, and will be payable in cash.

If any Excess Proceeds remain after consummation of an Offer to Purchase, the Company may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes (and any other *pari passu* Indebtedness) tendered in such Offer to Purchase exceeds the amount of Excess Proceeds, the Notes (and such other *pari passu* Indebtedness) will be purchased by the Company on a pro rata basis. Upon completion of each Offer to Purchase, the amount of Excess Proceeds will be reset at zero.

Use of Proceeds

The Company will not, and will not permit any Restricted Subsidiary to, use the net proceeds (if any) from the sale of the Notes, in any amount, for any purpose other than (1) as specified under the caption "Use of Proceeds" in this offering memorandum (or in the case of any Additional Notes, the offering document relating to the sale of such Additional Notes) and (2) pending the application of all of such net proceeds in such manner, to invest the portion of such net proceeds not yet so applied in Temporary Cash Investments.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary; *provided that* (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) neither the Company nor any Restricted Subsidiary Guarantor provides credit support (other than any Guarantee in compliance with clause (6) below) for the Indebtedness of such Restricted Subsidiary; (3) such Restricted Subsidiary has no outstanding Indebtedness that could trigger a cross-default to the Indebtedness of the Company at the time of the designation; (4) such Restricted Subsidiary does not own any Disqualified Stock of the Company or Disqualified or Preferred Stock of another Restricted Subsidiary or hold any Indebtedness of, or any Lien on any property of, the Company or any Restricted Subsidiary, if such Disqualified or Preferred Stock or Indebtedness could not be Incurred under the covenant entitled “— Limitation on Indebtedness and Preferred Stock” or such Lien would violate the covenant entitled “— Limitation on Liens;” (5) such Restricted Subsidiary does not own any Voting Stock of another Restricted Subsidiary, and all of its Subsidiaries are Unrestricted Subsidiaries or are being concurrently designated to be Unrestricted Subsidiaries in accordance with this paragraph; and (6) the Investment deemed to have been made thereby in such newly-designated Unrestricted Subsidiary and each other newly-designated Unrestricted Subsidiary being concurrently redesignated would be permitted to be made by the covenant entitled “— Limitation on Restricted Payments.”

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided that* (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) any Indebtedness of such Unrestricted Subsidiary outstanding at the time of such designation which will be deemed to have been Incurred by such newly designated Restricted Subsidiary as a result of such designation would be permitted to be Incurred by the covenant entitled “— Limitation on Indebtedness and Preferred Stock;” (3) any Lien on the property of such Unrestricted Subsidiary at the time of such designation which will be deemed to have been incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be incurred by the covenant entitled “— Limitation on Liens;” (4) such Unrestricted Subsidiary is not a Subsidiary of another Unrestricted Subsidiary (that is not concurrently being designated as a Restricted Subsidiary); (5) if such Restricted Subsidiary is not organized under the laws of the PRC, such Restricted Subsidiary shall upon such designation execute and deliver to the Trustee a supplemental indenture to the Indenture by which such Restricted Subsidiary shall become a Subsidiary Guarantor or a JV Subsidiary Guarantor to the extent required under the section entitled “— The Subsidiary Guarantees and the JV Subsidiary Guarantees;” and (6) if such Restricted Subsidiary is not organized under the laws of the PRC, all Capital Stock of such Restricted Subsidiary owned directly by the Company or any other Restricted Subsidiary shall be pledged to the extent required under the section entitled “— Security.”

Government Approvals and Licenses; Compliance with Law

The Company will, and will cause each Restricted Subsidiary to, (1) obtain and maintain in full force and effect all governmental approvals, authorizations, consents, permits, concessions and licenses as are necessary to engage in the business of the Company or any of its Restricted Subsidiaries; (2) preserve and maintain good and valid title to its properties and assets (including land-use rights) free and clear of any Liens other than Permitted Liens; and (3) comply with all laws, regulations, orders, judgments and decrees of any governmental body, except to the extent that failure so to obtain, maintain, preserve and comply with would not reasonably be expected to have a material adverse effect on (a) the business, results of operations or prospects of the Company and its Restricted Subsidiaries, taken as a whole, or (b) the ability of the Company or any Subsidiary Guarantor or any JV Subsidiary Guarantor to perform its obligations under the Notes, the relevant Subsidiary Guarantee, the relevant JV Subsidiary Guarantee or the Indenture.

Anti-Layering

The Company will not Incur, and will not permit any Subsidiary Guarantor or JV Subsidiary Guarantor to Incur, any Indebtedness if such Indebtedness is contractually subordinated in right of payment to any other Indebtedness of the Company, such Subsidiary Guarantor or such JV Subsidiary Guarantor, as the case may be, unless such Indebtedness is also contractually subordinated in right of payment to the Notes, the applicable Subsidiary Guarantee or the applicable JV Subsidiary Guarantee, on substantially identical terms. This does not apply to distinctions between categories of Indebtedness that exist by reason of any Liens or Guarantees securing or in favor of some but not all of such Indebtedness.

Suspension of Certain Covenants

If, on any date following the date of the Indenture, the Notes have a rating of Investment Grade from at least two of the three Rating Agencies and no Default has occurred and is continuing (a “Suspension Event”), then, beginning on that day and continuing until such time, if any, at which the Notes cease to have a rating of Investment Grade from at least two of the three Rating Agencies, the provisions of the Indenture summarized under the following sections will be suspended:

- (1) “— Certain Covenants — Limitation on Indebtedness and Preferred Stock;”
- (2) “— Certain Covenants — Limitation on Restricted Payments;”
- (3) “— Certain Covenants — Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries;”
- (4) “— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries;”
- (5) “— Certain Covenants — Limitation on Issuances of Guarantees by Restricted Subsidiaries;”
- (6) “— Certain Covenants — Limitation on Sale and Leaseback Transactions;” and
- (7) “— Certain Covenants — Limitation on Asset Sales.”

During any period that the foregoing covenants have been suspended, the Board of Directors may not designate any of the Restricted Subsidiaries as Unrestricted Subsidiaries pursuant to the covenant summarized under the section entitled “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries” or the definition of “Unrestricted Subsidiary.”

Such covenants will be reinstituted and apply according to their terms as of and from the first day on which a Suspension Event ceases to be in effect. Such covenants will not, however, be of any effect with regard to actions of the Company or any Restricted Subsidiary properly taken in compliance with the provisions of the Indenture during the continuance of the Suspension Event, and following reinstatement the calculations under the covenant summarized under the section entitled “— Certain Covenants — Limitation on Restricted Payments” will be made as if such covenant had been in effect since the date of the Indenture except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended. There can be no assurance that the Notes will ever achieve a rating of Investment Grade or that any such rating will be maintained.

Provision of Financial Statements and Reports

- (1) So long as any of the Notes remains outstanding, the Company will file with the Trustee and furnish to the Holders upon request, as soon as they are available but in any event not more than 10 calendar days after they are filed with The Stock Exchange of Hong Kong Limited or

any other recognized exchange on which the Company's shares of Common Stock are at any time listed for trading, true and correct copies of any financial or other report in the English language filed with such exchange; *provided* that if at any time the Common Stock of the Company ceases to be listed for trading on a recognized stock exchange, the Company will file with the Trustee and furnish to the Holders:

- (a) as soon as they are available, but in any event within 90 calendar days after the end of the fiscal year of the Company, copies of its financial statements (on a consolidated basis) in the English language, in respect of such financial year (including a statement of income, balance sheet and cash flow statement) audited by a member firm of an internationally recognized firm of independent accountants;
 - (b) as soon as they are available, but in any event within 45 calendar days after the end of the second financial quarter of the Company, copies of its financial statements (on a consolidated basis) in the English language, in respect of such half-year period (including a statement of income, balance sheet and cash flow statement) reviewed by a member firm of an internationally recognized firm of independent accountants; and
 - (c) as soon as they are available, but in any event within 45 calendar days after the end of each of the first and third financial quarters of the Company, copies of its unaudited financial statements (on a consolidated basis) in the English language, including a statement of income, balance sheet and cash flow statement, prepared on a basis consistent with the audited financial statements of the Company together with a certificate signed by the person then authorized to sign financial statements on behalf of the Company to the effect that such financial statements are true in all material respects and present fairly the financial position of the Company as at the end of, and the results of its operations for, the relevant quarterly period.
- (2) In addition, so long as any of the Notes remains outstanding, the Company will provide to the Trustee (a) within 120 days after the close of each fiscal year ending after the Original Issue Date, an Officers' Certificate stating the Fixed Charge Coverage Ratio with respect to the two most recent fiscal semiannual periods and showing in reasonable detail the calculation of the Fixed Charge Coverage Ratio, including the arithmetic computations of each component of the Fixed Charge Coverage Ratio, with a certificate from the Company's external auditors verifying the accuracy of the calculation and arithmetic computation; *provided* that the Company shall not be required to provide such auditor certification if its external auditors refuse to provide such certification as a result of a firm policy of such external auditors not to provide such certification for any issuer; and (b) as soon as possible and in any event within 30 days after the Company becomes aware or should reasonably become aware of the occurrence of a Default, an Officers' Certificate setting forth the details of the Default, and the action which the Company proposes to take with respect thereto.

Events of Default

The following events will be defined as “Events of Default” in the Indenture:

- (1) default in the payment of principal of (or premium, if any, on) the Notes when the same becomes due and payable at maturity, upon acceleration, redemption or otherwise;
- (2) default in the payment of interest on any Note when the same becomes due and payable, and such default continues for a period of 30 consecutive days;
- (3) default in the performance or breach of the provisions of the covenant entitled “— Consolidation, Merger and Sale of Assets,” the failure by the Company to make or consummate an Offer to Purchase in the manner described under the section entitled “— Repurchase of Notes upon a Change of Control Triggering Event” or “— Certain Covenants — Limitation on Asset Sales,” or the failure by the Company to create, or cause its Restricted Subsidiaries to create, a Lien on the Collateral (subject to any Permitted Lien and the Intercreditor Agreement) in accordance with the covenant entitled “— Security;”
- (4) the Company or any Restricted Subsidiary defaults in the performance of or breaches any other covenant or agreement in the Indenture or under the Notes (other than a default specified in clause (1), (2) or (3) above) and such default or breach continues for a period of 30 consecutive days after written notice by the Trustee or the Holders of 25% or more in aggregate principal amount of the Notes;
- (5) there occurs with respect to any Indebtedness of the Company or any Restricted Subsidiary having an outstanding principal amount of US\$20.0 million (or the Dollar Equivalent thereof) or more in the aggregate for all such Indebtedness of all such Persons, whether such Indebtedness now exists or shall hereafter be created, (a) an event of default that has caused the holder thereof to declare such Indebtedness to be due and payable prior to its Stated Maturity and/or (b) a failure to make a principal payment when due;
- (6) one or more final judgments or orders for the payment of money are rendered against the Company or any of its Restricted Subsidiaries and are not paid or discharged, and there is a period of 60 consecutive days following entry of the final judgment or order that causes the aggregate amount for all such final judgments or orders outstanding and not paid or discharged against all such Persons to exceed US\$20.0 million (in excess of amounts which the Company’s insurance carriers have agreed to pay under applicable policies) during which a stay of enforcement, by reason of a pending appeal or otherwise, is not in effect;
- (7) an involuntary case or other proceeding is commenced against the Company or any Significant Subsidiary with respect to it or its debts under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect seeking the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary or for any substantial part of the property and assets of the Company or any Significant Subsidiary and such involuntary case or other proceeding remains undismissed and unstayed for a period of 60 consecutive days; or an order for relief is entered against the Company or any Significant Subsidiary under any applicable bankruptcy, insolvency or other similar law as now or hereafter in effect;
- (8) the Company or any Significant Subsidiary (a) commences a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consents to the entry of an order for relief in an involuntary case under any such law, (b) consents to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary or for all or substantially all of the property and assets of the Company or any Significant Subsidiary or

(c) effects any general assignment for the benefit of creditors (other than, in each case under (b), any of the foregoing that arises from any solvent liquidation or restructuring of a Significant Subsidiary in the ordinary course of business that shall result in the net assets of such Significant Subsidiary being transferred to or otherwise vested in the Company or any Restricted Subsidiary on a pro rata basis or on a basis more favorable to the Company);

- (9) any Subsidiary Guarantor or JV Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be) or, except as permitted by the Indenture, any Subsidiary Guarantee or JV Subsidiary Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect;
- (10) any default by the Company or any Subsidiary Guarantor Pledgor in the performance of any of its obligations under the Security Documents, which adversely affects the enforceability, validity, perfection or priority of the applicable Lien on the Collateral or which adversely affects the condition or value of the Collateral, taken as a whole, in any material respect; and
- (11) the Company or any Subsidiary Guarantor Pledgor denies or disaffirms its obligations under any Security Document or, other than in accordance with the Indenture and the Security Documents, any Security Document ceases to be or is not in full force and effect or the Collateral Agent ceases to have a security interest in the Collateral, subject to any Permitted Lien and the Intercreditor Agreement.

If an Event of Default (other than an Event of Default specified in clause (7) or (8) above) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in aggregate principal amount of the Notes then outstanding, by written notice to the Company (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the request of such Holders shall (subject to being indemnified and/or secured to its satisfaction), declare the principal of, premium, if any, and accrued and unpaid interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued and unpaid interest shall be immediately due and payable. If an Event of Default specified in clause (7) or (8) above occurs with respect to the Company or any Significant Subsidiary, the principal of, premium, if any, and accrued and unpaid interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Company and to the Trustee may on behalf of the Holders of the Notes waive all past defaults and rescind and annul a declaration of acceleration and its consequences if:

- (1) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived, and
- (2) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Upon such waiver, the Default will cease to exist, and any Event of Default arising therefrom will be deemed to have been cured, but no such waiver will extend to any subsequent or other Default or impair any right consequent thereon.

If an Event of Default occurs and is continuing, the Trustee may, or the Trustee may, in accordance with and subject to the Intercreditor Agreement, instruct the Collateral Agent to, pursue, in its own name or as trustee of an express trust, any available remedy by proceeding at law or in equity to collect the payment of principal of and interest on the Notes or to enforce the performance of any provision of the Notes or the Indenture. The Trustee may maintain a proceeding even if it does not

possess any of the Notes or does not produce any of them in the proceeding. In addition, if an Event of Default occurs and is continuing, subject to the Intercreditor Agreement, the Trustee may, and shall (subject to being indemnified and/or secured to its satisfaction) upon request of Holders of at least 25% in aggregate principal amount of outstanding Notes, direct the Collateral Agent to foreclose on the Collateral in accordance with the terms of the Security Documents and take such further action on behalf of the Holders of the Notes with respect to the Collateral as the Trustee deems appropriate. See the section entitled “— Security.”

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from Holders. A Holder may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or for the appointment of a receiver or trustee, or for any other remedy under the Indenture or the Notes, unless:

- (1) the Holder has previously given the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity and/or security satisfactory to the Trustee against any costs, liability or expense to be incurred in compliance with such request;
- (4) the Trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity and/or security; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a written direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder of a Note to receive payment of the principal of, premium, if any, or interest on, such Note, or to bring suit for the enforcement of any such payment, on or after the due date expressed in such Note, which right shall not be impaired or affected without the consent of the Holder.

Two officers of the Company must certify to the Trustee in writing, on or before a date not more than 120 days after the end of each fiscal year ending after the Original Issue Date, that a review has been conducted of the activities of the Company and its Restricted Subsidiaries and the Company's and the Subsidiary Guarantors' performance under the Indenture and that the Company and the Subsidiary Guarantors have fulfilled all obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Company will also be obligated to notify the Trustee of any default or defaults in the performance of any covenants or agreements under the Indenture. See the section entitled “— Certain Covenants — Provision of Financial Statements and Reports.”

Consolidation, Merger and Sale of Assets

The Company will not consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions), unless:

- (1) the Company shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which the Company consolidated or merged, or that acquired or leased such property and assets (the "Surviving Person") shall be a corporation organized and validly existing under the laws of the Cayman Islands, Hong Kong, Bermuda or the British Virgin Islands and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of the Company under the Indenture, the Notes, the Intercreditor Agreement and the Security Documents, as the case may be, including the obligation to pay Additional Amounts with respect to any jurisdiction in which it is organized or resident for tax purposes, and the Indenture, the Notes, the Intercreditor Agreement and the Security Documents, as the case may be, shall remain in full force and effect;
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a pro forma basis, the Company or the Surviving Person, as the case may be, shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a pro forma basis the Company or the Surviving Person, as the case may be, could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant entitled "— Certain Covenants — Limitation on Indebtedness and Preferred Stock;"
- (5) the Company delivers to the Trustee (x) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses(3) and(4))and (y)an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with;
- (6) each Subsidiary Guarantor and JV Subsidiary Guarantor, unless such Subsidiary Guarantor or JV Subsidiary Guarantor is the Person with which the Company has entered into a transaction described under this section, shall execute and deliver a supplemental indenture to the Indenture confirming that its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, shall apply to the obligations of the Company or the Surviving Person in accordance with the Notes and the Indenture; and
- (7) no Rating Decline shall have occurred.

No Subsidiary Guarantor or JV Subsidiary Guarantor will consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to another Person (other than the Company or another Subsidiary Guarantor or, in the case of a JV Subsidiary Guarantor, other than to another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor), unless:

- (1) such Subsidiary Guarantor or JV Subsidiary Guarantor shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which the Subsidiary Guarantor consolidated or merged, or that acquired or leased such property and assets shall be the Company, another Subsidiary Guarantor or shall become a Subsidiary Guarantor concurrently with the transaction (or, in the case of a JV Subsidiary Guarantor, another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor);
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a pro forma basis, the Company shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a pro forma basis, the Company could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant entitled “— Certain Covenants — Limitation on Indebtedness and Preferred Stock;”
- (5) the Company delivers to the Trustee (x) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses(3) and(4))and (y)an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with; and
- (6) no Rating Decline shall have occurred;

provided that this paragraph shall not apply to any sale or other disposition that complies with the “— Certain Covenants — Limitation on Asset Sales” covenant or any Subsidiary Guarantor or JV Subsidiary Guarantor whose Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, is unconditionally released in accordance with the provisions described under the section entitled “— The Subsidiary Guarantees and the JV Subsidiary Guarantees — Release of the Subsidiary Guarantees and JV Subsidiary Guarantees.”

The foregoing requirements shall not apply to a consolidation or merger of any Subsidiary Guarantor or JV Subsidiary Guarantor with and into the Company or any other Subsidiary Guarantor or JV Subsidiary Guarantor, so long as the Company or such Subsidiary Guarantor or JV Subsidiary Guarantor survives such consolidation or merger.

Notwithstanding the foregoing, the Company and each Subsidiary Guarantor or JV Subsidiary Guarantor shall be permitted to sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to any Restricted Subsidiary or any Person that will, upon the consummation of such sale, conveyance, transfer, lease or disposal, become a Restricted Subsidiary.

Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve “all or substantially all” of the property or assets of a Person.

The foregoing provisions would not necessarily afford Holders protection in the event of highly-leveraged or other transactions involving the Company, which may adversely affect Holders.

No Payments for Consents

The Company will not, and shall not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid or is paid to all Holders that consent, waive or agree to amend such term or provision within the time period set forth in the solicitation documents relating to such consent, waiver or amendment. Notwithstanding the foregoing, the Company and its Subsidiaries shall be permitted, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes, to exclude Holders in any jurisdiction where (A)(i) the solicitation of such consent, waiver or amendment in the manner deemed appropriate by the Company, (ii) the payment of the consideration therefor or (iii) the conduct or completion of a related offer to purchase or exchange the Notes for cash or other securities in the manner deemed appropriate by the Company would be prohibited or would require the Company or any of its Subsidiaries to (a) file a registration statement, prospectus or similar document or subject the Company or any of its Subsidiaries to ongoing periodic reporting or similar requirements under any securities laws (including, but not limited to, the United States federal securities laws and the laws of the European Union or its member states), or conduct a bondholder identification exercise to establish the availability of an exemption from registration under Rule 802 under the Securities Act, in each case which the Company in its sole discretion determines would be burdensome, (b) qualify as a foreign corporation or other entity or as a dealer in securities in such jurisdiction if it is not otherwise required to so qualify, (c) generally consent to service of process in any such jurisdiction or (d) subject the Company or any of its Subsidiaries to taxation in any such jurisdiction if it is not otherwise so subject; or (B) such solicitation would otherwise not be permitted under applicable law in such jurisdiction.

Defeasance

Defeasance and Discharge

The Indenture will provide that the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 183rd day after the deposit referred to below, and the provisions of the Indenture and the Security Documents will no longer be in effect with respect to the Notes (except for, among other matters, certain obligations to register the transfer or exchange of the Notes, to replace stolen, lost or mutilated Notes, to maintain paying agencies, to pay Additional Amounts and to hold monies for payment in trust) if, among other things:

- (1) the Company (a) has deposited with the Trustee, in trust, money and/or U.S. Government Obligations that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity for such payments in accordance with the terms of the Indenture and the Notes and (b) delivers to the Trustee an Opinion of Counsel or a certificate of an internationally recognized firm of independent accountants to the effect that the amount deposited by the Company is sufficient to provide payment for the principal of, premium, if any, and accrued interest on, the Notes on the Stated Maturity for such payment in accordance with the terms of the Indenture;

- (2) the Company has delivered to the Trustee an Opinion of Counsel of recognized international standing to the effect that the creation of the defeasance trust does not violate the U.S. Investment Company Act of 1940, as amended, and after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law;
- (3) the Company shall have delivered to the Trustee an Officers' Certificate stating that the deposit was not made by it with the intent of preferring the Holders over any other of its creditors or with the intent of defeating, hindering, delaying or defrauding any other of its creditors or others; and
- (4) immediately after giving effect to such deposit on a pro forma basis, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default, shall have occurred and be continuing on the date of such deposit or during the period ending on the 183rd day after the date of such deposit, and such defeasance shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound.

In the case of either discharge or defeasance, the Subsidiary Guarantees and JV Subsidiary Guarantees will terminate.

Defeasance of Certain Covenants

The Indenture will further provide that (i) the provisions of the Indenture will no longer be in effect with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph and clauses (3), (4), (5)(x) and (6) under the second paragraph under the section entitled “— Consolidation, Merger and Sale of Assets” and all the covenants described herein under the section entitled “— Certain Covenants,” other than as described under the sections entitled “— Certain Covenants — Government Approvals and Licenses; Compliance with Law” and “— Certain Covenants — Anti-Layering,” and (ii) clause (3) under “Events of Default” with respect to such clauses (3), (4), (5)(x) and (7) under the first paragraph and such clauses (3), (4), (5)(x) and (6) under the second paragraph under “— Consolidation, Merger and Sale of Assets” and with respect to such other events set forth in clause (i) above, clause (4) under “— Events of Default” with respect to such other covenants set forth in clause (i) above and clauses (5) and (6) under “— Events of Default” shall be deemed not to be Events of Default, upon, among other things, the deposit with the Trustee, in trust, of money, U.S. Government Obligations or a combination thereof that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes, and the satisfaction of the provisions described in clause (2) of the preceding paragraph.

Defeasance and Certain Other Events of Default

In the event that the Company exercises its option to omit compliance with certain covenants and provisions of the Indenture with respect to the Notes as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the Trustee will be sufficient to pay amounts due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However the Company will remain liable for such payments.

Amendments and Waiver

Amendments Without Consent of Holders

The Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement or any Security Document may be amended, without notice to or the consent of any Holder, to:

- (1) cure any ambiguity, defect, omission or inconsistency in the Indenture, the Notes, the Intercreditor Agreement or any Security Document;

- (11) to conform the text of the Indenture, the Notes or the Subsidiary Guarantees to any provision of this “Description of 2025 Notes” to the extent that such provision in this “Description of 2025 Notes” was intended to be a verbatim recitation of a provision of the Indenture, the Notes or the Subsidiary Guarantees; or
- (12) make any other change that does not materially and adversely affect the rights of any Holder.

Amendments With Consent of Holders

Amendments of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement or any Security Document may be made by the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any), the Subsidiary Guarantor Pledgors, the Trustee and the Collateral Agent with the consent of the Holders of not less than a majority in aggregate

principal amount of the outstanding Notes, and the holders of a majority in aggregate principal amount of the outstanding Notes may waive future compliance by the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Subsidiary Guarantor Pledgors with any provision of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees, any Security Document or the Intercreditor Agreement; *provided*, however, that no such modification, amendment or waiver may, without the consent of each Holder affected thereby:

- (1) change the Stated Maturity of the principal of, or any installment of interest on, any Note;
- (2) reduce the principal amount of, or premium, if any, or interest on, any Note;
- (3) change the currency of payment of principal of, or premium, if any, or interest on, any Note;

- (15) amend, change or modify any provision of the Indenture or the related definition affecting the ranking of any Note, any Subsidiary Guarantee or any JV Subsidiary Guarantee in a manner which adversely affects Holders.

Unclaimed Money

Claims against the Company for the payment of principal of, premium, if any, or interest, on the Notes will become void unless presentation for payment is made as required in the Indenture within a period of six years.

No Personal Liability of Incorporators, Stockholders, Officers, Directors or Employees

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company or any of the Subsidiary Guarantors or any of the JV Subsidiary Guarantors in the Indenture, or in any of the Notes, the Subsidiary Guarantees or JV Subsidiary Guarantees or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, officer, director, employee or controlling person of the Company, any of the Subsidiary Guarantors or any of the JV Subsidiary Guarantors or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees. Such waiver may not be effective to waive liabilities under the federal securities laws.

Concerning the Collateral Agent, the Trustee, the Paying Agent, the Transfer Agent and Registrar

Citicorp International Limited has been appointed as Trustee under the Indenture and as Collateral Agent with regard to the Collateral under the Security Documents. Citibank, N.A., London Branch has been appointed as paying agent, transfer agent and registrar (the “Paying Agent,” the “Transfer Agent” and the “Registrar”; collectively, the “Agents”) with regard to the Notes. Except during the continuance of a Default, the Trustee will not be liable, except for the performance of such duties as are specifically set forth in the Indenture, or the Intercreditor Agreement. If an Event of Default has occurred and is continuing, the Trustee will use the same degree of care, as applicable, and skill in its exercise of the rights and powers vested in them under the Indenture as a prudent person would exercise under the circumstances in the conduct of such person’s own affairs.

The Indenture contains limitations on the rights of the Trustee, should it become a creditor of the Company or any of the Subsidiary Guarantors, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The Trustee is permitted to engage in other transactions with the Company and its Affiliates; *provided*, however, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

If the Company maintains a paying agent with respect to the Notes in a member state of the European Union, such paying agent will be located in a member state of the European Union that is not obligated to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any other directive amending, supplementing or replacing such Directive, or any law implementing or complying with, or introduced in order to conform to, such Directive or such other directive.

Citicorp International Limited acts as the initial Collateral Agent under the Security Documents in respect of the Lien over the Collateral. The Collateral Agent, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, assigned or granted pursuant to the Security Documents as are set forth in the Indenture and the Security Documents. Under certain circumstances, the Collateral Agent may have obligations under the Security Documents that are in conflict with the interests of the Holders. The Trustee and the Collateral Agent will be under no obligation to exercise any rights or powers conferred under the Indenture or any of the Security Documents, as applicable, for the benefit of the Holders unless such Holders have offered to the Trustee or the Collateral Agent, as the case may be, indemnity and/or security satisfactory to it against any loss, liability, cost or expense. Each Holder, by accepting the Notes, will agree, for the benefit of the Collateral Agent, that it is solely

responsible for its own independent appraisal of and investigation into all risks arising under or in connection with the Security Documents and has not relied on and will not at any time rely on the Collateral Agent in respect of such risks.

Book-Entry; Delivery and Form

The Notes will be represented by a global note in registered form without interest coupons attached (the “Global Note”). On the Original Issue Date, the Global Note will be deposited with a common depositary and registered in the name of the common depositary or its nominee for the accounts of Euroclear and Clearstream.

Global Note

Ownership of beneficial interests in the Global Note (the “book-entry interests”) will be limited to persons that have accounts with Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-entry interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream and their participants.

Except as set forth below under “— Individual Definitive Notes,” the book-entry interests will not be held in definitive form. Instead, Euroclear and/or Clearstream will credit on their respective book-entry registration and transfer systems a participant’s account with the interest beneficially owned by such participant. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge book-entry interests.

So long as the Notes are held in global form, the common depositary for Euroclear and/or Clearstream (or its nominee) will be considered the sole holder of the Global Note for all purposes under the Indenture and “holders” of book-entry interests will not be considered the owners or “Holders” of Notes for any purpose. As such, participants must rely on the procedures of Euroclear and Clearstream and indirect participants must rely on the procedures of the participants through which they own book-entry interests in order to transfer their interests in the Notes or to exercise any rights of Holders under the Indenture.

None of the Company, the Trustee, the Collateral Agent or any of their respective agents will have any responsibility or be liable for any aspect of the records relating to the book-entry interests. The Notes are not issuable in bearer form.

Payments on the Global Note

Payments of any amounts owing in respect of the Global Note (including principal, premium, interest and additional amounts) will be made to the Paying Agent in U.S. dollars. The Paying Agent will, in turn, make such payments to the common depositary for Euroclear and Clearstream, which will distribute such payments to participants in accordance with their procedures. Each of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors will make payments of all such amounts without deduction or withholding for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, except as may be required by law and as described under “— Additional Amounts.”

Under the terms of the Indenture, the Company, any Subsidiary Guarantor, any JV Subsidiary Guarantor and the Trustee will treat the registered holder of the Global Note (i.e., the common depositary or its nominee) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee, the Agents or any of their respective agents has or will have any responsibility or liability for:

- any aspect of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest, for any such payments made by Euroclear, Clearstream or any participant or indirect participants, or for maintaining, supervising or reviewing any of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest; or
- Euroclear, Clearstream or any participant or indirect participant.

Payments by participants to owners of book-entry interests held through participants are the responsibility of such participants.

Redemption of Global Note

In the event any Global Note, or any portion thereof, is redeemed, the common depositary will distribute the U.S. dollar amount received by it in respect of the Global Note so redeemed to Euroclear and/or Clearstream, as applicable, who will distribute such amount to the holders of the book-entry interests in such Global Note. The redemption price payable in connection with the redemption of such book-entry interests will be equal to the U.S. dollar amount received by the common depositary, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). The Company understands that under existing practices of Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, Euroclear and Clearstream will credit their respective participants' accounts on a proportionate basis (with adjustments to prevent fractions) or by lot or on such other basis as they deem fair and appropriate; *provided*, however, that no book-entry interest of US\$200,000 principal amount, or less, as the case may be, will be redeemed in part.

Action by Owners of Book-Entry Interests

Euroclear and Clearstream have advised that they will take any action permitted to be taken by a Holder of Notes only at the direction of one or more participants to whose account the book-entry interests in the Global Note are credited and only in respect of such portion of the aggregate principal amount of Notes as to which such participant or participants has or have given such direction. Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Note. If there is an Event of Default under the Notes, however, each of Euroclear and Clearstream reserves the right to exchange the Global Note for individual definitive notes in certificated form, and to distribute such individual definitive notes to their participants.

Transfers

Transfers between participants in Euroclear and Clearstream will be effected in accordance with Euroclear and Clearstream's rules and will be settled in immediately available funds. If a Holder requires physical delivery of individual definitive notes for any reason, including to sell the Notes to persons in jurisdictions which require physical delivery of such securities or to pledge such securities, such Holder must transfer its interest in the Global Note in accordance with the normal procedures of Euroclear and Clearstream and in accordance with the provisions of the Indenture.

Book-entry interests in the Global Note will be subject to the restrictions on transfer discussed under "Transfer Restrictions."

Any book-entry interest in a Global Note that is transferred to a person who takes delivery in the form of a book-entry interest in another Global Note will, upon transfer, cease to be a book-entry interest in the first-mentioned Global Note and become a book-entry interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to book-entry interests in such other Global Note for as long as it retains such a book-entry interest.

Global Clearance and Settlement Under the Book-Entry System

Book-entry interests owned through Euroclear or Clearstream accounts will follow the settlement procedures applicable. Book-entry interests will be credited to the securities custody accounts of Euroclear and Clearstream holders on the business day following the Settlement Date against payment for value on the Settlement Date.

The book-entry interests will trade through participants of Euroclear or Clearstream, and will settle in same-day funds. Since the purchaser determines the place of delivery, it is important to establish at the time of trading of any book-entry interests where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

Information Concerning Euroclear and Clearstream

We understand as follows with respect to Euroclear and Clearstream:

Euroclear and Clearstream hold securities for participating organizations and facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream provide to their participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions, such as underwriters, securities brokers and dealers, banks and trust companies, and certain other organizations. Indirect access to Euroclear or Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodian relationship with a Euroclear or Clearstream participant, either directly or indirectly.

Although the foregoing sets out the procedures of Euroclear and Clearstream in order to facilitate the original issue and subsequent transfers of interests in the Notes among participants of Euroclear and Clearstream, neither Euroclear nor Clearstream is under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

None of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee, the Collateral Agent, the Agents or any of their respective agents will have responsibility for the performance of Euroclear or Clearstream or their respective participants of their respective obligations under the rules and procedures governing their operations, including, without limitation, rules and procedures relating to book-entry interests.

If (1) the common depositary or any successor to the common depositary is at any time unwilling or unable to continue as a depositary for the reasons described in the Indenture and a successor depositary is not appointed by the Company within 90 days, (2) either Euroclear or Clearstream, or a successor clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention to permanently cease business or does in fact do so, or (3) any of the Notes has become immediately due and payable in accordance with “— Events of Default” and the Company has received a written request from a Holder, the Company will issue individual definitive notes in registered form in exchange for the Global Note. Upon receipt of

such notice from the common depositary or the Trustee, as the case may be, the Company will use its best efforts to make arrangements with the common depositary for the exchange of interests in the Global Note for individual definitive notes and cause the requested individual definitive notes to be executed and delivered to the registrar insufficient quantities and authenticated by the registrar for delivery to Holders. Persons exchanging interests in a Global Note for individual definitive notes will be required to provide the registrar, through the relevant clearing system, with written instruction and other information required by the Company and the registrar to complete, execute and deliver such individual definitive notes. In all cases, individual definitive notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by the relevant clearing system.

Individual definitive notes will not be eligible for clearing and settlement through Euroclear or Clearstream.

TAXATION

The following summary of certain Cayman Islands, British Virgin Islands, Hong Kong and PRC, tax consequences of the purchase, ownership and disposition of Notes is based upon applicable laws, regulations, rulings and decisions in effect as of the date of this offering memorandum, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Persons considering the purchase of Notes should consult their own tax advisors concerning the tax consequences of the purchase, ownership and disposition of Notes, including such possible consequences under the laws of their country of citizenship, residence or domicile.

Cayman Islands

Under the laws of the Cayman Islands, payments of interest and principal or premium on the Notes will not be subject to taxation and no withholding will be required on the payment of interest and principal or premium to any holder of the Notes, as the case may be, nor will gains derived from the disposal of the Notes be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax. The Cayman Islands are not party to any double taxation treaties. The Cayman Islands are not party to any double taxation treaties that are applicable to any payments made by or to the Company.

No stamp duty is payable in respect of the issue of the Notes. An instrument of transfer in respect of a Note is stampable if executed in or brought into the Cayman Islands.

The Company has been incorporated under the laws of the Cayman Islands as an exempted company with limited liability and, as such, has obtained an undertaking from the Governor in Cabinet of the Cayman Islands as to tax concessions under the Tax Concessions Law (2011 Revision). In accordance with the provision of section 6 of The Tax Concessions Law (2011 Revision), the Governor in Cabinet undertakes with China Evergrande Group:

- That no law which is hereafter enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and
- In addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable, on or in respect of the shares, debentures or other obligations of the Company, or by way of the withholding, in whole or part, of any relevant payment as defined in Section 6(3) of the Tax Concessions Law (2011 Revision).
- These concessions shall be for a period of 20 years from July 4, 2006.

British Virgin Islands

There is no income or other tax of the British Virgin Islands imposed by withholding or otherwise on any payment to be made to or by the Subsidiary Guarantors pursuant to the Subsidiary Guarantees.

Hong Kong

Withholding Tax. No withholding tax in Hong Kong is payable on payments of principal (including any premium payable on redemption of the Notes) or interest in respect of the Notes.

Profits Tax. Hong Kong profits tax is charged on every person carrying on a trade, profession or business in Hong Kong in respect of assessable profits arising in or derived from Hong Kong from such trade, profession or business. Under the Inland Revenue Ordinance (Chapter 112 of the Laws of Hong Kong), or the Inland Revenue Ordinance, as it is currently applied, Hong Kong profits tax may be charged on revenue profits arising on the sale, disposal or redemption of the Notes where such sale, disposal or redemption is or forms part of a trade, profession or business carried on in Hong Kong.

Interest payments on the Notes will be subject to Hong Kong profits tax where such payments have a Hong Kong source, and are received by or accrue to:

- a financial institution (as defined in the Inland Revenue Ordinance) and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- a corporation carrying on a trade, profession or business in Hong Kong; or
- a person, other than a corporation, carrying on a trade, profession or business in Hong Kong and such interest is in respect of the funds of the trade, profession or business.

Although no tax is imposed in Hong Kong in respect of capital gains, Hong Kong profits tax may be chargeable on trading gains arising on the sale or disposal of the Notes where such transactions are or form part of a trade, profession or business carried on in Hong Kong.

Stamp Duty. No Hong Kong stamp duty will be chargeable upon the issue or transfer of a Note (if the register of holders of the Notes is maintained outside Hong Kong).

PRC

Taxation on Interest. The PRC Enterprise Income Tax Law and its implementation regulations, effective January 1, 2008, impose a withholding tax at the rate of 10% on interest paid to holders of the Notes that are “non-resident enterprises” so long as such “non-resident enterprise” holder does not have an establishment or place of business in China or, despite the existence of establishment or place of business in China, the relevant income is not effectively connected with such establishment or place of business in China, to the extent such interests are sourced within China. We may be considered a PRC tax resident enterprise, as described in “Risk Factors — Risks Relating to Our Business — We may be deemed a PRC resident enterprise under the PRC Enterprise Income Tax Law, which may subject us to PRC taxation on our worldwide income, require us to withhold taxes on interest we pay on the Notes and require holders of the Notes to pay taxes on gains realized from the sale of the Notes.” Pursuant to these provisions of the PRC tax law, despite many uncertainties with respect to their application, if we are considered a PRC resident enterprise, interest paid to non-resident enterprise holders of the Notes may be treated as income derived from sources within China and be subject to the PRC withholding tax at a rate of 10%. In the case of non-resident individual holders of the Notes, the tax may be withheld at a rate of 20%. To the extent that China has entered into arrangements relating to the avoidance of double-taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of tax, such lower rate may apply to qualified investors in the Notes.

Taxation on Capital Gains. The PRC Enterprise Income Tax Law and its implementation regulations, effective January 1, 2008, impose a tax at the rate of 10% on capital gains realized by holders of the Notes that are “non-resident enterprises” so long as any such “non-resident enterprise” holder does not have an establishment or place of business in China or, despite the existence of establishment or place of business in China, the relevant gain is not effectively connected with such establishment or place of business in China, to the extent such capital gains are sourced within China. Pursuant to these provisions of the PRC tax law, despite many uncertainties with respect to their application, if we are considered a PRC resident enterprise, the capital gains realized by holders of the Notes may be treated as income derived from sources within China and be subject to the PRC tax at a rate of 10% (or possibly 20% in the case of non-resident individual holders of the Notes). To the extent

that China has entered into arrangements relating to the avoidance of double-taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of tax, such lower rate may apply to qualified investors in the Notes.

Stamp duty. No PRC stamp tax will be chargeable upon the issue or transfer of a Note (for so long as the register of holders of the Notes is maintained outside Mainland China).

PLAN OF DISTRIBUTION

Under the terms and subject to the conditions contained in a purchase agreement dated _____, 2017, or the Purchase Agreement, Credit Suisse Securities (Europe) Limited, China CITIC Bank International Limited and Haitong International Securities Company Limited, or the Initial Purchasers, have, severally but not jointly, agreed to purchase from us, and we have agreed to sell to the Initial Purchasers, the principal amount of Notes set forth opposite the Initial Purchaser's name.

Initial Purchasers	Principal Amount
Credit Suisse Securities (Europe) Limited	US\$
China CITIC Bank International Limited	US\$
Haitong International Securities Company Limited	US\$
Total	US\$

The Purchase Agreement provides that the obligation of the Initial Purchasers to pay for and accept delivery of the Notes is subject to the approval of certain legal matters by their counsel and certain other conditions. After the initial offering, the offering price and other selling terms may be varied from time to time by the Initial Purchasers.

The Initial Purchasers propose to resell the Notes at the offering price set forth on the cover page of this offering memorandum to non-U.S. persons outside the United States in reliance on Regulation S under the Securities Act. See "Transfer Restrictions." The price at which the Notes are offered may be changed at any time without notice. The Initial Purchasers may offer and sell the Notes through certain of their affiliates. The Initial Purchasers or certain of their affiliates may purchase Notes and be allocated Notes for asset management and/or proprietary purposes but not with a view to distribution. In addition, we have agreed with the Initial Purchasers that we will pay a commission to private banks in connection with the purchase of the Notes by their private bank clients.

We and the Subsidiary Guarantors have agreed to indemnify the Initial Purchasers against certain liabilities, including liabilities under the Securities Act, and to contribute to payments which the Initial Purchasers may be required to make in respect thereof.

The Notes are a new issue of securities with no established trading market. Application has been made to the SGX-ST for the listing and quotation of the Notes on the SGX-ST. We have been advised by the Initial Purchasers that, in connection with the offering of the Notes, Credit Suisse Securities (Europe) Limited, acting as stabilizing manager, may engage in transactions that stabilize, maintain or otherwise affect the price of the Notes. Specifically, Credit Suisse Securities (Europe) Limited, acting as stabilizing manager, may overalloc the offering, creating a syndicate short position. In addition, Credit Suisse Securities (Europe) Limited, acting as stabilizing manager, may bid for, and purchase, the Notes in the open market to cover syndicate shorts or to stabilize the price of the Notes. Any of these activities may stabilize or maintain the market price of the Notes above independent market levels. Credit Suisse Securities (Europe) Limited, acting as stabilizing manager, is not required to engage in these activities, and may end any of these activities at any time. No assurance can be given as to the liquidity of, or the trading market for, the Notes. These transactions may be effected in the over-the-counter market or otherwise.

We have agreed that, from the date of this offering memorandum to the Settlement Date of the Notes, we will not offer, directly or indirectly, issue, sell, offer or agree to sell, grant any option for the sale of, or otherwise dispose of, any other debt securities of the Company or the Subsidiary Guarantors or securities of the Company or the Subsidiary Guarantors that are convertible into, or exchangeable for, the offered Securities or such other debt securities (other than the Notes and the Subsidiary Guarantees), without prior written consent of a majority of the Initial Purchasers.

The Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) have not been and will not be registered under the Securities Act and may not be offered, sold or delivered within the United States except outside the United States to non-U.S. persons in offshore transactions in reliance on Regulation S under the Securities Act.

The Initial Purchasers have represented and agreed that, except as permitted by the Purchase Agreement, they have not offered, sold or delivered and will not offer, sell or deliver any Notes as part of its distribution in the United States.

We expect that delivery of the Notes will be made against payment therefor on or about the closing date specified on the cover page of this offering memorandum, which will be on or about the fifth business day following the pricing date of the Notes (this settlement cycle being referred to as “T+5”). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the Notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wish to trade the Notes on the date of pricing or succeeding business days should consult their own legal advisor.

We have been advised that the Initial Purchasers presently intend to make a market in the Notes, as permitted by applicable laws and regulations. The Initial Purchasers are not obligated, however, to make a market in the Notes, and any such market making may be discontinued at any time without prior notice at the sole discretion of the Initial Purchasers. Accordingly, no assurance can be given as to the liquidity of, or trading markets for, the Notes.

The Initial Purchasers and their affiliates have in the past engaged, and may in the future engage, in transactions with and perform services, including financial advisory and investment banking services, for us and our affiliates in the ordinary course of business. We may enter into non-speculative hedging or other derivative transactions as part of our risk management strategy with the Initial Purchasers, which may include transactions relating to our obligations under the Notes. Our obligations under these transactions may be secured by cash or other collateral.

SELLING RESTRICTIONS

No action has been taken or will be taken in any jurisdiction by us or the Initial Purchasers that would permit a public offering of the Notes, or the possession, circulation or distribution of this offering memorandum or any other material relating to the Notes or this offering, in any jurisdiction where action for that purpose is required. OPINION

What we have audited

The consolidated financial statements of China Evergrande Group (the “Company”) and its subsidiaries (the “Group”) set out on pages 71 to 174, which comprise:

- the consolidated balance sheet as at 31 December 2016;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Estimated fair value of investment properties
- Assessment of net realisable value of properties under development and completed properties held for sale
- Classification of the investment in China Vanke Co. Ltd. as an available-for-sale financial asset

Key Audit Matter	How our audit addressed the Key Audit Matter
Estimated fair value of investment properties	
Refer to note 2(h) of accounting policy of investment properties and note 4 of critical accounting estimates and judgements to the consolidated financial statements.	We have performed the following procedures to address this key audit matter:
The Group's investment properties were measured at fair value of RMB132,045 million as at 31 December 2016, with a revaluation gain of RMB5,124 million recorded in the consolidated statement of comprehensive income for the year then ended. Independent external valuations were obtained for the full property portfolio in order to support management's estimates. The valuations of completed investment properties prepared under income capitalisation approach were dependent on certain key assumptions that required significant management judgement, including capitalisation rate, fair market rent and fair market price. The valuations of investment properties under construction prepared under residual approach were also dependent upon the estimated costs to completion and expected developer's profit margin.	(i) We evaluated the independent external valuers' competence, capabilities and objectivity; (ii) We involved our in-house valuation experts to assess the income capitalisation approach and residual approach used by the external valuers based on our knowledge of the property industry; and (iii) We checked, on a sample basis, the accuracy and relevance of the input data used, including the capitalisation rate, fair market rent and fair market price, to the recent renewal of lease or sale transactions of the Group and of the market. For the estimated costs to completion and expected developer's profit margin, we also checked to the construction budget and historical information of similar properties of the Group. We found that the key assumptions used in the valuations were supported by the available evidence.

Assessment of net realisable value of properties under development and completed properties held for sale

Refer to note 4 of critical accounting estimates and judgements, note 9 of properties under development and note 10 of completed properties held for sale to the consolidated financial statements.

Properties under development (“PUD”) and completed properties held for sale (“PHS”) totalled RMB658,627 million as at 31 December 2016 and accounted for approximately 49% of the Group’s total assets. At the year end, management assessed the carrying amounts of PUD and PHS at the lower of cost or net realisable value and made related provision as appropriate.

We focused on this net realisable value assessment because the determination of net realisable values of PUD and PHS involved critical accounting estimates on the selling price, variable selling expenses and estimated costs to completion of PUD.

We have performed the following procedures to address this key audit matter:

- (i) We understood, evaluated and validated the internal control over the Group’s process in determining the costs to completion of PUD and net realisable values of PUD and PHS based on prevailing market conditions; and
- (ii) As part of our risk assessment in this area, we compared the relevant PUD and PHS balances against the result of management’s net realisable value assessment made in the prior years to consider, with hindsight, whether management’s net realisable value assessment estimation process had been subject to management bias;
- (iii) We then challenged the reasonableness of management’s key estimates for:
 - Estimated selling price which is based on the prevailing market conditions. We compared the estimated selling price to the recent market transactions, such as the Group’s selling price of the same project’s pre-sale units or the prevailing market price of the comparable properties with similar size, usage and location;
 - Estimated variable selling expenses as a percentage of the related estimated selling price of the properties. We compared the above estimated percentage with the actual average selling expenses to revenue ratio of the Group in the current year; and
 - Estimated costs to completion for PUD. We reconciled the estimated costs to completion to the budgets approved by management and examined, on a sample basis, the signed construction contracts or compared to the actual costs of similar completed properties of the Group.

We found that management’s estimates on the net realisable value of the Group’s properties were supported by the available evidence.

Classification of the investment in China Vanke Co. Ltd. as an available-for-sale financial asset

Refer to note 14 to the consolidated financial statements.

During the year ended 31 December 2016, the Group invested in 1,553,210,974 A shares of China Vanke Co. Ltd. (“Vanke”), representing approximately 14.07% of the issued share capital of Vanke. The aggregate consideration paid by the Group for this investment was approximately RMB36,273 million.

Management intended to hold the investment in Vanke for long-term investment purpose and therefore it was accounted for as an available-for-sale financial asset. The Group had no right to nominate any director of Vanke as at 31 December 2016 pursuant to the time requirement set out in the articles of association of Vanke and the Group had no other means to exercise any significant influence over Vanke as an associate.

Classification of the investment in Vanke involved application of management’s judgement through the analysis of various factors, including the percentage of equity interest held by the Group, representation on the investee’s board of directors and also the Group’s intention in this transaction. Therefore, this matter is considered as a key audit matter.

We have performed the following procedures to address this key audit matter:

- (i) We discussed with management to understand the Group’s intention of the investment in Vanke, inspected the relevant board of directors’ meeting minutes, and confirmed that the purpose of this transaction was for long-term investment.
- (ii) We examined the custodian statements to check the Group’s shareholding in Vanke and management’s representation that there was no frequent trading of these securities during the year.
- (iii) We checked the board composition of Vanke during the year ended 31 December 2016 and noted that none of the directors was appointed by the Group.
- (iv) In addition, we inspected the articles of association of Vanke to evaluate management’s assessment that the Group had no right to nominate any director of Vanke as at 31 December 2016.

Based on the procedures performed, we noted that management’s judgement applied in accounting for the investment in Vanke was supported by the available evidence.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor’s report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our

conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Yeung Chor Ho.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 General Information

China Evergrande Group (the “Company”, previously known as Evergrande Real Estate Group Limited) was incorporated in the Cayman Islands on 26 June 2006 as an exempted company with limited liability under the Companies Law, Cap. 22 (2009 Revision as consolidated and revised from time to time) of the Cayman Islands and is engaged in investment holding. The Company and its subsidiaries (the “Group”) are principally engaged in the property development, property investment, property management, property construction, hotel operations, finance business, internet business and health industry business in the People’s Republic of China (the “PRC”). The address of its registered office is P.O. Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands.

The Company had its listing on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 5 November 2009.

These consolidated financial statements are presented in Renminbi Yuan (“RMB”) millions, unless otherwise stated. These consolidated financial statements have been approved for issue by the board of directors (the “Board”) of the Company on 28 March 2017.

2 Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) *Basis of preparation*

These consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) and requirements of the Hong Kong Companies Ordinance Cap. 622. The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, financial assets at fair value through profit or loss and investment properties, which are carried at fair value.

The preparation of financial statements in conformity with the HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies.

(i) *New and amended standards adopted by the Group*

The following amendments to standards are mandatory for the Group’s financial year beginning on 1 January 2016. The adoption of these amended standards does not have any significant impact to the results and financial position of the Group.

HKFRS 11 (Amendment)	Accounting for acquisitions of interests in joint operation
HKAS 16 and HKAS 38 (Amendments)	Clarification of acceptable methods of depreciation and amortisation
HKFRS 10, HKFRS 12 and HKAS 28 (Amendment)	Investment entities: applying the consolidation exception
HKAS 27 (Amendment)	Equity method in separate financial statements
Annual improvements 2014	Annual Improvements 2012–2014 cycle
HKAS 1 (Amendment)	Disclosure initiative
HKFRS 14	Regulatory Deferral Accounts
HKAS 16 and HKAS 41 (Amendments)	Agriculture: bearer plants

(ii) *New standards and amendments to standards that have been issued but are not effective*

The following new standards and amendments to standards have been issued but are not effective for the financial year beginning on 1 January 2016 and have not been early adopted by the Group:

HKAS 7 (Amendments)	Changes in liabilities arising from financial activities ¹
HKAS 12 (Amendments)	Recognition of deferred tax assets for unrealised losses ¹
HKFRS 9	Financial Instruments ²
HKFRS 15	Revenue from Contracts with Customers ²
HKFRS 16	Leases ³
HKFRS 10 and HKAS 28 (Amendments)	Sale or contribution of assets between an investor and its associate or joint venture ⁴

¹ Effective for annual periods beginning on or after 1 January 2017.

² Effective for annual periods beginning on or after 1 January 2018.

³ Effective for annual periods beginning on or after 1 January 2019.

⁴ Effective date is to be determined by the International Accounting Standard Board.

The Group has already commenced an assessment of the impact of these new or revised standards and amendments, certain of which are relevant to the Group's operations.

The amendments to HKAS 7 introduce an additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities.

The amendments to HKAS 12 on the recognition of deferred tax assets for unrealised losses clarify how to account for deferred tax assets related to debt instruments measured at fair value.

HKFRS 9 addresses the classification, measurement and derecognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets.

While the Group has yet to undertake a detailed assessment, the Group's financial assets currently classified as available-for-sale (AFS) would appear to satisfy the conditions for classification as fair value through other comprehensive income (FVOCI) and hence there will be no change to the accounting for these assets. And the Group expects that its financial assets currently measured at amortised cost and fair value through profit or loss will continue with their respective classification and measurements.

There will be no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Group does not have any such liabilities. The derecognition rules have been transferred from HKAS 39 Financial Instruments: Recognition and Measurement and have not been changed.

The new impairment model requires the recognition of impairment provisions based on expected credit losses (ECL) rather than only incurred credit losses as is the case under HKAS 39. It applies to financial assets classified at amortised cost, debt instruments measured at FVOCI, contract assets under HKFRS 15 Revenue from Contracts with Customers, lease receivables, loan commitments and certain financial guarantee contracts. While the Group has not yet undertaken a detailed assessment of how its impairment provisions would be affected by the new model, it may result in an earlier recognition of credit losses.

The new standard also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extent of the Group's disclosures about its financial instruments particularly in the year of the adoption of the new standard.

HKFRS 9 must be applied for financial years commencing on or after 1 January 2018. Based on the transitional provisions in the completed HKFRS 9, early adoption in phases was only permitted for annual reporting periods beginning before 1 February 2015. After that date, the new rules must be adopted in their entirety. The Group does not intend to adopt HKFRS 9 before its mandatory date.

HKFRS 15 replaces the previous revenue standards: HKAS 18 Revenue and HKAS 11 Construction Contracts, and the related Interpretations on revenue recognition. HKFRS 15 establishes a comprehensive framework for determining when to recognise revenue and how much revenue to recognise through a 5-step approach: (1) Identify the contract(s) with customer; (2) Identify separate performance obligations in a contract; (3) Determine the transaction price; (4) Allocate transaction price to performance obligations and (5) Recognise revenue when performance obligation is satisfied. The core principle is that a company should recognise revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. It moves away from a revenue recognition model based on an approach of transfer of risk and rewards to an approach based on transfer of control. HKFRS 15 provides specific guidance on capitalisation of contract cost and licence arrangements. It also includes a cohesive set of disclosure requirements about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. Under HKFRS 15, an entity recognises revenue when a performance obligation is satisfied.

At this stage, the Group is not able to estimate the impact of HKFRS 15 on the Group's financial statements. The Group will make more detailed assessments of the impact over the next twelve months.

HKFRS 15 is mandatory for financial years commencing on or after 1 January 2018. At this stage, the Group does not intend to adopt the standard before its effective date.

The amendments to HKFRS 10 and HKAS 28 address an inconsistency between HKFRS 10 and HKAS 28 in the sale and contribution of assets between an investor and its associate or joint venture. A full gain or loss is recognised when a transaction involves a business. A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if those assets are in a subsidiary. The amendments were originally intended to be effective for annual periods beginning on or after 1 January 2016. The effective date has now been deferred/removed. Early application of the amendments continues to be permitted.

HKFRS 16 will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will affect primarily the accounting for Group's operating leases. Management expects there will be no significant impact on the Group's financial statements when it becomes effective as the Group does not have material lease arrangements as lessee.

Some of the commitments may be covered by the exception for short-term and low value leases and some commitments may relate to arrangements that will not qualify as leases under HKFRS 16.

The new standard is mandatory for financial years commencing on or after 1 January 2019. At this stage, the Group does not intend to adopt the standard before its effective date.

(b) Consolidation

(i) Subsidiaries

Subsidiaries are entities (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

(ii) Business combinations

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by HKFRS.

Acquisition-related costs are expensed off as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with HKAS 39 in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the income statement.

(iii) *Changes in ownership interests in subsidiaries without change of control*

Transactions with non-controlling interests that do not result in a loss of control are accounted for as equity transactions — that is, as transactions with the owners of the subsidiary in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying amount of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(iv) *Disposal of subsidiaries*

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

(v) *Investments in subsidiaries*

In the Company's statement of financial position, the investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(c) *Associates*

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investments in associates include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associate, any difference between the cost of the associate and the Group's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognised in the income statement, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to 'share of post-tax loss of associates' in the income statement.

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gain or losses on dilution of equity interest in associates are recognised in the income statement.

(d) *Joint arrangements*

The Group has applied HKFRS 11 to all joint arrangements. Under HKFRS 11 investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Joint ventures are accounted for using the equity method.

Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. The Group's investments in joint ventures include goodwill identified on acquisition. Upon the acquisition of the ownership interest in a joint venture, any difference between the cost of the joint venture and the Group's share of the net fair value of the joint venture's identifiable assets and liabilities is accounted for as goodwill. When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

(e) *Segment reporting*

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker ("CODM"). The CODM who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors that makes strategic decisions.

(f) *Foreign currency translation*

(i) *Functional and presentation currency*

Items included in the financial statements of each group entities are measured using the currency of the primary economic environment in which the entities operate (the "functional currency"). The consolidated financial statements are presented in RMB, which is the functional and presentation currency of the Company.

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of comprehensive income, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

Foreign exchange gain and losses that relate to borrowings denominated in foreign currencies are presented in the consolidated statement of comprehensive income within “finance income/(costs), net”. All other foreign exchange gain and losses are presented in the consolidated statement of comprehensive income within “Administrative expenses”.

(iii) *Group entities*

The results and financial positions of the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities of each balance sheet of the group entities are translated at the closing rate at the date of that balance sheet;
- income and expenses of each income statement of the group entities are translated at average exchange rates; and
- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken into equity holders’ equity. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in equity are recognised in the income statement as part of the gain or loss on sale.

(g) *Property, plant and equipment*

Property, plant and equipment are stated at historical cost less depreciation and any impairment loss. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Buildings	20–30 years
Machinery	5–10 years
Transportation equipment	5–10 years
Furniture, fitting and equipment	5–10 years

The assets’ residual values and useful lives are reviewed and adjusted if appropriate, at each balance sheet date.

An asset’s carrying amount is written down immediately to its recoverable amount if the asset’s carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within other (losses)/gains, in the statement of comprehensive income.

Assets under construction are stated at historical cost less impairment losses. Historical cost includes expenditure that is directly attributable to the development of the assets which comprises construction costs, amortisation of land use rights, borrowing costs and professional fees incurred during the development period. On completion, the assets are transferred to buildings within property, plant and equipment.

No depreciation is provided for assets under construction. The carrying amount of an asset under construction is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(h) *Investment properties*

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Properties and land use right that are currently being constructed or developed for future use as investment property is classified as investment property.

Investment property is measured initially at its cost, including related transaction costs.

After initial recognition, investment property is carried at fair value. Where fair value of investment property under construction is not reliably measurable, the property is measured at cost until the earlier of the date construction is completed or the date at which fair value becomes reliably measurable. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are recognised in profit or loss during the financial period in which they are incurred.

Changes in fair values of investment property are recognised in profit or loss.

If an investment property becomes owner-occupied or commences to be further developed for sale, it is reclassified as property, plant and equipment and land use right or properties under development, and its fair value at the date of change in use becomes its cost for accounting purposes.

If an item of property, plant and equipment becomes an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognised in equity as a revaluation of property, plant and equipment under HKAS 16. However, if a fair value gain reverses a previous impairment loss, the gain is recognised in profit or loss to the extent the impairment provision previous made.

(i) *Intangible assets*

(i) *Water resource license*

Water resource license acquired in a business combination are recognised at fair value at the acquisition date. Water resource license have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of water resource license over their estimated useful lives of 20 years.

(ii) *Brand name*

Brand name acquired in a business combination are recognised at fair value at the acquisition date. Brand name have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of brand name over its estimated useful lives less than 10 years.

(iii) *Copy rights*

Copy rights are acquired and are recognised at historical cost. Copy rights have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of copy rights over its estimated useful lives less than 10 years.

(iv) *Customer relationships*

Customer relationships acquired in a business combination are recognised at fair value at the acquisition date. The contractual customer relations have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method from three to five years over the expected life of the customer relationship.

(v) *Computer softwares*

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives of three to ten years.

(vi) *Goodwill*

Goodwill arises on the acquisition of subsidiaries represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identified net assets acquired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units (“CGUs”), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

(j) *Impairment of non-financial assets*

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows ("cash-generating unit"). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

(k) *Financial assets*

(i) *Classification*

The Group classifies its financial assets as financial assets at fair value through profit or loss, loans and receivables, and available-for-sale financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are also categorized as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if expected to be settled within 12 months; otherwise, they are classified as non-current.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are classified as "trade and other receivables" and "cash and cash equivalents" in the balance sheet.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

(ii) *Recognition and measurement*

Regular way purchases and sales of financial assets are recognised on the trade-date — the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Gains or losses arising from changes in the fair value of the “financial assets at fair value through profit or loss” category are presented in the income statement within “fair value gain on financial assets at fair value through profit or loss” in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the income statement as part of other income when the group’s right to receive payments is established.

Changes in the fair value of monetary and non-monetary securities classified as available for sale are recognised in other comprehensive income.

When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the profit or loss.

Dividends on available-for-sale equity instruments are recognised in the profit or loss when the Group’s right to receive payments is established.

(iii) *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(I) *Impairment of financial assets*

(i) *Assets carried at amortised cost*

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a ‘loss event’) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated statement of comprehensive income. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated statement of comprehensive income.

(ii) *Assets classified as available for sale*

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. For equity investments classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is also evidence that the assets are impaired. If any such evidence exists, the cumulative loss — measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss — is removed from equity and recognised in profit or loss. Impairment losses recognised in profit or loss on equity instruments are not reversed through profit or loss.

(m) *Properties under development*

Properties under development are stated at the lower of cost and net realisable value. Net realisable value takes into account the price ultimately expected to be realised, less applicable variable selling expenses and anticipated cost to completion.

Development cost of property comprises mainly construction costs, cost of land use rights, borrowing costs, and professional fees incurred during the development period. On completion, the properties are transferred to completed properties held for sale.

Properties under development are classified as current assets unless those will not be realised in one normal operating cycle.

(n) *Completed properties held for sale*

Completed properties remaining unsold at the end of each relevant year are stated at the lower of cost and net realisable value.

Cost comprises development costs attributable to the unsold properties.

Net realisable value is determined by reference to the estimated selling price in the ordinary course of business, less applicable estimated selling expenses to make the sale.

(o) *Inventories*

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises, raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

(p) *Trade and other receivables*

Trade receivables are amounts due from customers for properties sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(q) *Cash and cash equivalents*

Cash and cash equivalent includes cash in hand and at banks and deposits held at call with banks, other short-term high liquidity investment with original maturities of three months or less.

Bank deposits which are restricted to use are classified as “restricted cash”. Restricted cash are excluded from cash and cash equivalents in the cash flow statements.

(r) *Share capital*

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new share or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any group company purchases the company’s share (treasury shares), the consideration paid, including any directly attributable incremental costs (net of “income taxes”) is deducted from equity attributable to the company’s equity holders until the shares are cancelled or reissued. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the company’s equity holders.

(s) *Perpetual capital instruments*

Perpetual capital instruments with no contracted obligation to repay its principal or to pay any distribution are classified as part of equity.

(t) *Trade and other payables*

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using effective interest method.

(u) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid to the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that part or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the respective balance sheet date.

(v) Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are recognised as an expense in the period in which they are incurred.

Borrowing costs include interest expense, and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. The exchange gains and losses that are an adjustment to interest costs include the interest rate differential between borrowing costs that would be incurred if the entity had borrowed funds in its functional currency, and the borrowing costs actually incurred on foreign currency borrowings. Such amounts are estimated based on forward currency rates at the inception of the borrowings.

When the construction of the qualifying assets takes more than one accounting period, the amount of foreign exchange differences eligible for capitalisation is determined for each annual period and are limited to the difference between the hypothetical interest amount for the functional currency borrowings and the actual interest incurred for foreign currency borrowings. Foreign exchange differences that did not meet the criteria for capitalisation in previous years should not be capitalised in subsequent years.

(w) *Current and deferred income tax*

The tax expense for the period comprises current and deferred tax. Tax is recognised in the profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

(i) *Current income tax*

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group's entities operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) *Deferred income tax*

Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using the tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, associate and joint ventures, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally the Group is unable to control the reversal of the temporary difference for its associate, only where there is an agreement in place that gives the Group the ability to control the reversal of the temporary difference not recognised.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries, associates and joint ventures only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

(iii) *Offsetting*

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(x) *Employee benefits*

(i) *Employee leave entitlements*

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) *Retirement benefits*

In accordance with the rules and regulations in the PRC, the PRC based employees of the Group participate in various defined contribution retirement benefit plans organised by the relevant municipal and provincial governments in the PRC under which the Group and the PRC based employees are required to make monthly contributions to these plans calculated at a percentage of the employees' salaries.

The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired PRC based employees' payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post retirement benefits of its employees. The assets of these plans are held separately from those of the Group in independently administrated funds managed by the PRC government.

The Group also participates in a pension scheme under the rules and regulations of the Mandatory Provident Fund Scheme Ordinance ("MPF Scheme") for all employees in Hong Kong, which is a defined contribution retirement scheme. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of 5% of eligible employees' relevant aggregate income. The assets of this pension scheme are held separately from those of the Group in independently administered funds.

The Group's contributions to the defined contribution retirement schemes are expensed as incurred.

(iii) *Termination benefits*

Termination benefits are payable when employment is terminated before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either: terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal; or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after balance sheet date are discounted to present value.

(y) *Share-based payments*

The Group operates a number of equity-settled share-based compensation plans, under which the entity receives services from employees as consideration for equity instruments (“options”) of the Group. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the options granted:

- (i) including any market performance conditions (for example, an entity’s share price);
- (ii) excluding the impact of any service and non-market performance vesting conditions (for example, profitability, sales growth targets and remaining an employee of the entity over a specified time period); and
- (iii) including the impact of any non-vesting conditions (for example, the requirement for employees to save).

Non-market performance and service conditions are included in assumptions about the number of options that are expected to vest. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each reporting period, the Group revises its estimates of the number of options that are expected to vest based on the non-marketing performance and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

The cash subscribed for the shares issued when the options are exercised is credited to share capital (nominal value) and share premium, net of any directly attributable transaction costs.

The options granted by the Company over its equity instruments to the employees of subsidiary undertakings in the Group are treated as a capital contribution. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary undertakings, with a corresponding credit to equity.

(z) *Provisions and contingent liabilities*

Provisions are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

(aa) *Revenue recognition*

Revenue comprises the fair value of the consideration received or receivable for the sales of properties and services in the ordinary course of the Group's activities. Revenue is shown, net of discount and after eliminated sales with the group entities.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probably that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

(i) *Sales of properties*

Revenue from sales of properties is recognised when the risks and rewards of properties are transferred to the purchasers, which is when the construction of relevant properties has been completed and the properties have been delivered to the purchasers and collectability of related receivables is reasonably assured. To the extent that the Group has to perform further work on the properties already delivered to the purchasers, the relevant expenses shall be recognised simultaneously. Deposits and installments received on properties sold prior to the date of revenue recognition are included in the balance sheets under current liabilities.

(ii) *Property management*

Revenue arising from property management is recognised in the accounting period in which the services are rendered, using a straight-line basis over the term of the contract.

(iii) *Construction and decoration services*

Revenue arising from construction and decoration service is recognised in the accounting period in which the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.

(iv) *Hotel operations*

Hotel revenue from room rentals, food and beverage sales and other ancillary services are recognised when the goods are delivered or services are rendered.

(v) *Interest income*

Interest income is recognised on a time-proportion basis using the effective interest method. When a receivable impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cashflow discounted at original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

(vi) *Rental income*

Rental income of property leasing under operating leases is recognised on a straight-line basis over the lease terms.

(vii) *Sales of goods*

The Group manufactures and sells a range of consumer products, including bottled water product, food product and diary product in wholesale and retail market. Revenue from sales of goods are recognised when the products have been delivered to the customers.

(viii) *Advertising income*

Advertising income is recognised upon the publication of the edition in which the advertisement is placed.

(ix) *Income from medical cosmetology and health management*

Income from medical cosmetology and health management are recognised when the services have been rendered to customers. The period of these services rendered is usually within a day.

(ab) *Leases*

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

(i) *The Group is the lessee other than operating lease of land use rights*

Payments made under operating leases (net of any incentives received from the lessor), are charged to the consolidated statement of comprehensive income on a straight-line basis over the period of the lease.

(ii) *The Group is the lessee under operating lease of land use rights*

Land use rights under operating lease, which mainly comprised land use rights to be developed for hotel properties and self-use buildings, are stated at cost and subsequently amortised in the consolidated statement of comprehensive income on a straight-line basis over the operating lease periods, less accumulated impairment provision.

(iii) *The Group is the lessor*

Assets leased out under operating leases are included in investment properties in the balance sheets.

(ac) *Dividend distribution*

Dividend distribution to the equity holders of the Company is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the equity holders or the board of directors, where appropriate.

(ad) *Financial guarantee liabilities*

Financial guarantee liabilities are recognised in respect of the financial guarantee provided by the Group to the banks for property purchasers.

Financial guarantee liabilities are recognised initially at fair value plus transaction costs that are directly attributable to the issue of the financial guarantee liabilities. After initial recognition, such liabilities are measured at the higher of the present value of the best estimate of the expenditure required to settle the present obligation and the amount initially recognised less cumulative amortisation of fees recognised.

Financial guarantee liabilities are derecognised from the balance sheet when, and only when, the obligation specified in the contract is discharged or cancelled or expired.

3 Financial Risk Management

(a) Financial risk factor

The Group's major financial instruments include cash and bank deposits, trade and other receivables, trade and other payables and borrowings. Details of these financial instruments are disclosed in the respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The Company manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) Foreign exchange risk

The Group's businesses are principally conducted in RMB, except that certain receipts of sales proceeds and borrowings are denominated in other currencies. As at 31 December 2016, the carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the respective balance sheet dates are as follows:

	31 December	
	2016	2015
	RMB million	RMB million
Monetary assets		
— HK\$	1,150	5,199
— US\$	9,431	10,865
— Others	1	20
	<u>10,582</u>	<u>16,084</u>
Monetary liabilities		
— HK\$	13,878	20,497
— US\$	74,452	48,349
— Others	6,104	44
	<u>94,434</u>	<u>68,890</u>

The following table shows the sensitivity analysis of a 5% change in RMB against the relevant foreign currencies. The sensitivity analysis includes only foreign currency denominated monetary items and adjusts their translation at the year-end for a 5% change in foreign currency rates. If there is a 5% increase/decrease in RMB against the relevant currencies, the effect of increase/(decrease) in the profit for the year is as follows:

	31 December	
	2016	2015
	RMB million	RMB million
5% appreciation in RMB against HK\$	477	547
5% depreciation in RMB against HK\$	<u>(477)</u>	<u>(547)</u>
5% appreciation in RMB against US\$	2,329	1,449
5% depreciation in RMB against US\$	<u>(2,329)</u>	<u>(1,449)</u>

(ii) *Price risk*

The Group is exposed to equity securities price risk in connection with the available-for-sale financial assets and financial assets at fair value through profit or loss held by the Group, which are publicly traded in stock exchange. The Group closely monitors the fluctuation of the price and assesses the impact on the Group's financial statements. If the price of equity securities the Group invested had been 5% higher/lower, post-tax profit for the year ended 31 December 2016 would increase/decrease by approximately RMB135 million (2015: increase/decrease by approximately RMB12 million), as a result of more/less fair value gain on financial assets at fair value through profit or loss. Other comprehensive income would have been approximately RMB1,380 million higher/lower (2015: RMB97 million higher/lower).

(iii) *Interest rate risk*

The Group's interest-bearing assets and liabilities are mainly restricted cash, cash and cash equivalents and borrowings. The Group's exposure to changes in interest rates is mainly attributable to its long term borrowings. Borrowings at variable rates expose the Group to cash flow interest-rate risk. Borrowings issued at fixed rates expose the Group to fair value interest-rate risk.

As at 31 December 2016, if interest rate on borrowings had been 100 basis point higher/lower with all variables held constant, post-tax profit for the year ended 31 December 2016 would decrease/increase by approximately RMB637 million (2015: decrease/increase by approximately RMB210 million), mainly as a result of more/less interest expenses on borrowings at variable rates.

The Group has not used any interest rate swaps to hedge its exposure to interest rate risk.

(iv) *Credit risk*

Cash transactions are limited to high-credit-quality institutions. The extent of the Group's credit exposure is represented by the aggregate balance of cash in bank, trade and other receivables. Deposits are only placed with reputable banks.

For credit exposures to customers, credit terms are granted to customers upon obtaining approval from the Company's senior management after assessing the credit history of those customers. The Group closely monitors the collection of progress payments from customers in accordance with payment schedule agreed with customers. The Group has policies in place to ensure that sales are made to purchasers with an appropriate financial strength and appropriate percentage of down payments.

Meanwhile, the Group has the right to cancel the contracts once repayment from the customers is in default; it also has monitoring procedures to ensure that follow-up actions are taken to recover overdue balances. In addition, the Group regularly reviews the recoverable amount of each individual trade and other receivables to ensure that adequate impairment provisions are made for irrecoverable amounts. The Group has no significant concentrations of credit risk, with exposure spread over a number of counterparties and customers.

The Group typically provides guarantees to banks in connection with the customers' borrowing of mortgage loans to finance their purchase of properties for an amount up to 70% of the total purchase price of the property. Detailed disclosure of these guarantees is made in note 35. If a purchaser defaults on the payment of its mortgage loan during the guarantee period, the bank holding the guarantee may demand the Group to repay the outstanding principal of the loan and any interest accrued thereon. Under such circumstances, the Group is able to retain the customer's deposit and resell the property to recover any amounts paid by the Group to the bank. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

(v) *Liquidity risk*

Management aims to maintain sufficient cash and cash equivalents or have available funding through an adequate amount of available financing, including proceeds from pre-sale of properties, committed credit facilities and short-term and long-term borrowings to meet its construction commitments. Due to the dynamic nature of the underlying businesses, the Group maintains flexibility in funding by maintaining adequate amount of cash and cash equivalents and through having available sources of financing.

To cope with the rapid expansion of the Group's businesses, the Group raised significant amounts of borrowings during the years ended 31 December 2016. As at 31 December 2016, the Group's total borrowings stood at RMB535,070 million. During the year ended 31 December 2016 and the period up to the date of these consolidated financial statements, in order to properly manage the Group's liquidity risk and capital structure, the Group has conducted the following major financing activities:

- During the year ended 2016, the Group issued subordinated perpetual capital instruments with the aggregate net proceeds of RMB59,754 million;
- During the year ended 2016, the Group has issued senior notes to raise net funds totaling RMB4,539 million with tenures of 3 years and corporate bonds in the PRC ("PRC bonds") to raise net funds totaling RMB9,940 million with tenures of 4 years to optimise the structure of short-term borrowings and long-term borrowings;
- On 17 March 2017, the Group has issued 7.0%, three-year senior notes with an aggregated principal amount of US\$500 million at the face value and 8.25%, five-year senior notes with an aggregated principal amount of US\$1,000 million at the face value;
- On 24 March 2017, the Group has issued 9.5%, seven-year senior notes with an aggregated principal amount of US\$1,000 million.

Except for the aforementioned recent developments, the Group has a number of alternative plans to mitigate the potential impacts on anticipated cash flows should there be significant adverse changes in economic environment. These include control on investment in land reserve, adjusting project development timetable to adapt the changing local real estate market environment, implementing cost control measures, promotion of sales of completed properties, accelerating sales with more flexible pricing. The Group will pursue such options based on its assessment of relevant future costs and benefits.

With the aforementioned activities and plans, the directors of the Company considered the Group's liquidity risk has been controlled. The directors of the Company has reviewed the working capital forecast of the Group for the 12 months from 31 December 2016 and are of the opinion that the Group will have sufficient working capital to meet its financial obligations as and when they fall due within the next 12 months from the date of the consolidated balance sheet.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscount cash flows.

The amounts have not included financial guarantee contracts:

- which the Group could be required to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee for loans procured by the purchasers of the Group's properties (note 35). Such guarantees terminate upon the earlier of (i) issuance of the real estate ownership certificate which will generally be available within an average period of two to three years upon the completion of guarantee registration; or (ii) the satisfaction of mortgaged loan by the purchasers of properties;
- which the Group make for its cooperation parties' bank borrowings (note 35). Such guarantees terminate upon the repayment of relevant bank borrowings.

Based on expectations at the end of the reporting period, the Group considers that it is more likely than not that no amount will be payable under the arrangement.

(b) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for equity owners and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to equity owners, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as total borrowings divided by total assets, as shown in the consolidated balance sheets.

The gearing ratios as at 31 December 2016 and 2015 were as follows:

	31 December	
	2016	2015
	RMB million	RMB million
Total borrowings (<i>Note 22</i>)	535,070	296,906
Total assets	1,350,868	757,035
Gearing ratio	39.6%	39.2%

(c) *Fair value estimation*

The different levels of the financial instruments carried at fair value, by valuation method, have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

There were no transfers among different categories during the year.

The nominal value less impairment provisions of trade and other receivables and the nominal value of trade and other payables approximate their fair value due to their short maturities. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

4 Critical Accounting Estimates and Assumptions

Estimates and judgements used in preparing the financial statements are evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that may have a significant effect on the carrying amounts of assets and liabilities within the next financial year are discussed below:

(a) *Estimated fair value of investment properties*

The best evidence of fair value is current prices in an active market for the properties with similar lease and other contracts. In the absence of such information, the Group determines the amount within a range of reasonable fair value estimates. In making its judgement, the Group considers information from a variety of sources including:

- (i) current prices in an active market for properties of different nature, condition or location (or subject to different lease or other contracts), adjusted to reflect those differences;
- (ii) recent prices of similar properties in less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and
- (iii) discounted cash flow projections based on reliable estimates of future cash flows, derived from the terms of any existing lease and other contracts and (where possible) from external evidence such as current market rents for similar properties in the same location and condition, and using capitalisation rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.
- (iv) estimated costs to completion and expected developer's profit margin, derived from the construction budget and historical information of similar properties.

The Group assesses the fair value of its investment properties based on valuations determined by independent and professional qualified valuers.

(b) *Provision for properties under development and completed properties held for sale*

The Group assesses the carrying amounts of properties under development and completed properties held for sale according to their recoverable amounts based on the realisability of these properties, taking into account estimated costs to completion based on past experience and committed contracts and estimated net sales value based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realised. The assessment requires the use of judgement and estimates.

The Group estimates property construction cost upon recognition of respective costs of sales. Such estimates are substantiated by detailed budgetary information as developed by the management, and will be assessed periodically, as the constructions progress. Should these estimates depart from their actual finalised costs, such differences would affect the accuracy of costs of sales recognised.

(c) *PRC corporate income taxes and deferred taxation*

The Group's subsidiaries that operate in the PRC are subject to income tax in the PRC. Judgement is required in determining the provision for income tax and withholding tax on unremitted earnings of PRC subsidiaries. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters (including the effect of change in the dividend policies of PRC subsidiaries) is different from the amounts that were initially recorded, such difference will impact the income tax and deferred tax provision in the period in which such determination is made.

Deferred tax assets relating to certain temporary differences and tax losses are recognised when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

(d) *PRC land appreciation taxes*

The Group is subject to land appreciation taxes in the PRC. However, the implementation and settlement of LAT varies among various tax jurisdictions in cities of the PRC, and the Group has not finalised its LAT calculation and payments with local tax authorities in the PRC for most of its properties projects. Accordingly, judgement is required in determining the amount of the land appreciation taxes. The Group recognised these land appreciation taxes based on management's best estimates according to the interpretation of the tax rules. The final tax outcome could be different from the amounts that were initially recorded, and these differences will impact the income tax expense and tax provisions in the periods in which such taxes have been finalised with local tax authorities.

5 Segment Information

The chief operating decision-maker (“CODM”) of the Group has been identified as the executive directors of the Company who are responsible for reviewing the Group’s internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports. The Group is organised into four business segments: property development, property investment, property management and other businesses. Other businesses mainly include property construction, hotel operations, finance business, internet business, health industry business and fast consuming products business (including production and sales of spring water, grain and edible oil, and dairy). The fast consuming products business has been disposed of at an aggregate consideration of RMB2,700 million in 2016. As the CODM of the Group considers most of the revenue and results of the Group are attributable to the market in the PRC, and only an immaterial part (less than 10%) of the Group’s assets are located outside the PRC, no geographical segment information is presented.

The directors of the Company assess the performance of the operating segments based on a measure of segment results. Fair value gain on financial assets at fair value through profit or loss, dividend income of available-for-sale financial assets, gain or loss on disposal of available-for-sale financial assets and finance cost and income are not included in the result for each operating segment.

(a) Valuation processes of the Group

The Group measures its investment properties at fair value. The fair value of the Group's investment properties has been determined on the basis of valuation carried out by CB Richard Ellis Limited ("CBRE"), an independent and professionally qualified valuer.

Discussions of valuation processes and results are held between the management and the valuer at least once every six months, in line with the Group's interim and annual reporting dates.

(b) Valuation techniques

Valuations were based on either:

- (i) direct comparison approach is adopted assuming sale of each of these properties in its existing state with the benefit of vacant possession. By making reference to sales transactions as available in the relevant market, comparable properties in close proximity have been selected and adjustments have been made to account for the difference in factors such as location and property size.
- (ii) income approach takes into account the current rents of the property interests and the reversionary potentials of the tenancies, term yield and reversionary yield are then applied respectively to derive the market value of the property.

- (iii) residual method of valuation which is commonly used in valuing development sites by establishing the market value of the properties on an “as-if” completed basis with appropriate deduction on construction costs, professional fees, contingency, marketing and legal cost, and interest payments to be incurred, anticipated developer’s profits, as well as land acquisition costs.

There were no changes to the valuation techniques during the year.

(c) Information about fair value measurements using significant unobservable inputs (level 3)

Relationship of unobservable inputs to fair value:

- The higher terminal and reversionary yield, the lower fair value;
- The higher capitalisation rate, the lower fair value;
- The higher expected vacancy, the lower fair value;
- The higher monthly rental, the higher fair value;
- The higher market price, the higher fair value;
- The higher budgeted construction cost to be incurred, the lower fair value;

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) *Basis of preparation*

These consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by Hong Kong Institute of Certified Public Accountants (the “HKICPA”) which has been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, financial assets at fair value through profit or loss and investment properties, which are carried at fair value.

The preparation of financial statements in conformity with the HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4.

(i) *Effect of adopting amendments to standards*

The following amendments to standards are mandatory for the Group’s financial year beginning on 1 January 2015. The adoption of these amended standards does not have any significant impact to the results and financial position of the Group.

³ Effective date is to be determined by the International Accounting Standard Board.

The above new standards and amendments to standards will be adopted in the years listed and the Group is in the process of assessing the impact on future accounting periods.

(iii) *New Hong Kong Companies Ordinance (Cap. 622)*

The requirements of Part 9 “Accounts and Audit” of the new Hong Kong Companies Ordinance (Cap. 622) come into operation during the financial year, as a result, there are changes to presentation and disclosures of certain information in the consolidated financial statements.

(b) Consolidation

(i) *Subsidiaries*

Subsidiaries are entities (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group’s accounting policies.

(ii) *Business combinations*

The group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

The group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by HKFRS.

Acquisition-related costs are expensed off as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with HKAS 39 in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the income statement.

(iii) *Changes in ownership interests in subsidiaries without change of control*

Transactions with non-controlling interests that do not result in a loss of control are accounted for as equity transactions — that is, as transactions with the owners of the subsidiary in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying amount of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(iv) *Disposal of subsidiaries*

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

(v) *Investments in subsidiaries*

In the Company's statement of financial position, the investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(c) *Associates*

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investments in associates include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associate, any difference between the cost of the associate and the Group's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognised in the income statement, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to “share of post-tax loss of associates” in the income statement.

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group’s financial statements only to the extent of unrelated investor’s interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gain or losses on dilution of equity interest in associates are recognised in the income statement.

(d) *Joint arrangements*

The Group has applied HKFRS 11 to all joint arrangements. Under HKFRS 11 investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Joint ventures are accounted for using the equity method.

Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group’s share of the post-acquisition profits or losses and movements in other comprehensive income. The Group’s investments in joint ventures include goodwill identified on acquisition. Upon the acquisition of the ownership interest in a joint venture, any difference between the cost of the joint venture and the Group’s share of the net fair value of the joint venture’s identifiable assets and liabilities is accounted for as goodwill. When the Group’s share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group’s net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group’s interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

(e) *Segment reporting*

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (“CODM”). The CODM who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors that makes strategic decisions.

(f) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each group entities are measured using the currency of the primary economic environment in which the entities operate (the “functional currency”). The consolidated financial statements are presented in RMB, which is the functional and presentation currency of the Company.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of comprehensive income, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

Foreign exchange gain and losses that relate to borrowings denominated in foreign currencies are presented in the consolidated statement of comprehensive income within “finance income/(costs), net”. All other foreign exchange gain and losses are presented in the consolidated statement of comprehensive income within “Administrative expenses”.

(iii) Group entities

The results and financial positions of the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet of the group entities are translated at the closing rate at the date of that balance sheet;
- income and expenses for each income statement of the group entities are translated at average exchange rates; and
- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken into equity holders’ equity. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in equity are recognised in the income statement as part of the gain or loss on sale.

(g) *Property, plant and equipment*

Property, plant and equipment are stated at historical cost less depreciation and any impairment loss. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Buildings	20–30 years
Furniture, fitting and equipment	5–10 years
Transportation equipment	5–10 years
Machinery	5–10 years

The assets' residual values and useful lives are reviewed and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within other (losses)/gains, in the statement of comprehensive income.

Assets under construction are stated at historical cost less impairment losses. Historical cost includes expenditure that is directly attributable to the development of the assets which comprises construction costs, amortisation of land use rights, borrowing costs and professional fees incurred during the development period. On completion, the assets are transferred to buildings within property, plant and equipment.

No depreciation is provided for assets under construction. The carrying amount of an asset under construction is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(h) *Investment properties*

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Properties and land use right that are currently being constructed or developed for future use as investment property is classified as investment property.

Investment property is measured initially at its cost, including related transaction costs.

After initial recognition, investment property is carried at fair value. Where fair value of investment property under construction is not reliably measurable, the property is measured at cost until the earlier of the date construction is completed or the date at which fair value becomes reliably measurable. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are recognised in profit or loss during the financial period in which they are incurred.

Changes in fair values of investment property are recognised in profit or loss.

If an investment property becomes owner-occupied or commences to be further developed for sale, it is reclassified as property, plant and equipment and land use right or properties under development, and its fair value at the date of change in use becomes its cost for accounting purposes.

If an item of property, plant and equipment becomes an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognised in equity as a revaluation of property, plant and equipment under HKAS 16. However, if a fair value gain reverses a previous impairment loss, the gain is recognised in profit or loss to the extent the impairment provision previous made.

(i) *Intangible asset*

(i) *Water resource license*

Water resource license acquired in a business combination are recognised at fair value at the acquisition date. Water resource license have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of water resource license over their estimated useful lives of 20 years.

(ii) *Brand name*

Brand name acquired in a business combination are recognised at fair value at the acquisition date. Brand name have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of brand name over its estimated useful lives of 10 years.

(iii) *Copy rights*

Copy rights are acquired and are recognised at historical cost. Copy rights have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of copy rights over its estimated useful lives less than 10 years.

(iv) *Customer relationships*

Customer relationships acquired in a business combination are recognised at fair value at the acquisition date. The contractual customer relations have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method from three to five years over the expected life of the customer relationship.

(v) *Computer softwares*

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives of three to ten years.

(vi) *Goodwill*

Goodwill arises on the acquisition of subsidiaries represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identified net assets acquired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units (“CGUs”), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

(j) *Impairment of non-financial assets*

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (“cash-generating unit”). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

(k) *Financial assets*

(i) *Classification*

The Group classifies its financial assets as financial assets at fair value through profit or loss, loans and receivables, and available-for-sale financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are also categorized as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if expected to be settled within 12 months; otherwise, they are classified as non-current.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are classified as “trade and other receivables” and “cash and cash equivalents” in the balance sheet.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

(ii) *Recognition and measurement*

Regular way purchases and sales of financial assets are recognised on the trade-date — the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Gains or losses arising from changes in the fair value of the “financial assets at fair value through profit or loss” category are presented in the income statement within “fair value gain on financial assets at fair value through profit or loss” in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the income statement as part of other income when the group’s right to receive payments is established.

Changes in the fair value of monetary and non-monetary securities classified as available for sale are recognised in other comprehensive income.

When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the profit or loss.

Dividends on available-for-sale equity instruments are recognised in the profit or loss when the Group's right to receive payments is established.

(iii) *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(I) *Impairment of financial assets*

(i) *Assets carried at amortised cost*

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated statement of comprehensive income. If a loan or held- to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated statement of comprehensive income.

(ii) *Assets classified as available for sale*

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. For equity investments classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is also evidence that the assets are impaired. If any such evidence exists, the cumulative loss — measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss — is removed from equity and recognised in profit or loss. Impairment losses recognised in profit or loss on equity instruments are not reversed through profit or loss.

(m) *Properties under development*

Properties under development are stated at the lower of cost and net realisable value. Net realisable value takes into account the price ultimately expected to be realised, less applicable variable selling expenses and anticipated cost to completion.

Development cost of property comprises mainly construction costs, cost of land use rights, borrowing costs, and professional fees incurred during the development period. On completion, the properties are transferred to completed properties held for sale.

Properties under development are classified as current assets unless those will not be realised in one normal operating cycle.

(n) *Completed properties held for sale*

Completed properties remaining unsold at the end of each relevant year are stated at the lower of cost and net realisable value.

Cost comprises development costs attributable to the unsold properties.

Net realisable value is determined by reference to the estimated selling price in the ordinary course of business, less applicable estimated selling expenses to make the sale.

(o) *Inventories*

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises, raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

(p) *Trade and other receivables*

Trade receivables are amounts due from customers for properties sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(q) *Cash and cash equivalents*

Cash and cash equivalent includes cash in hand and at banks and deposits held at call with banks, other short-term high liquidity investment with original maturities of three months or less.

Bank deposits which are restricted to use are classified as “restricted cash”. Restricted cash are excluded from cash and cash equivalents in the cash flow statements.

(r) *Share capital*

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new share or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any group company purchases the company’s share (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the company’s equity holders until the shares are cancelled or reissued. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the company’s equity holders.

(s) *Perpetual capital instruments*

Perpetual capital instruments with no contracted obligation to repay its principal or to pay any distribution are classified as part of equity.

(t) *Trade and other payables*

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using effective interest method.

(u) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid to the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that part or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the respective balance sheet date.

(v) Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are recognised as an expense in the period in which they are incurred.

Borrowing costs include interest expense, and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. The exchange gains and losses that are an adjustment to interest costs include the interest rate differential between borrowing costs that would be incurred if the entity had borrowed funds in its functional currency, and the borrowing costs actually incurred on foreign currency borrowings. Such amounts are estimated based on forward currency rates at the inception of the borrowings.

When the construction of the qualifying assets takes more than one accounting period, the amount of foreign exchange differences eligible for capitalisation is determined for each annual period and are limited to the difference between the hypothetical interest amount for the functional currency borrowings and the actual interest incurred for foreign currency borrowings. Foreign exchange differences that did not meet the criteria for capitalisation in previous years should not be capitalised in subsequent years.

(w) Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

(i) *Current income tax*

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group's entities operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) *Deferred income tax*

Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using the tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, associate and joint ventures, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally the Group is unable to control the reversal of the temporary difference for its associate, only where there is an agreement in place that gives the Group the ability to control the reversal of the temporary difference not recognised.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries, associates and joint ventures only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

(iii) *Offsetting*

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(x) *Employee benefits*

(i) *Employee leave entitlements*

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) *Retirement benefits*

In accordance with the rules and regulations in the PRC, the PRC based employees of the Group participate in various defined contribution retirement benefit plans organised by the relevant municipal and provincial governments in the PRC under which the Group and the PRC based employees are required to make monthly contributions to these plans calculated at a percentage of the employees' salaries.

The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired PRC based employees' payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post retirement benefits of its employees. The assets of these plans are held separately from those of the Group in independently administrated funds managed by the PRC government.

The Group also participates in a pension scheme under the rules and regulations of the Mandatory Provident Fund Scheme Ordinance ("MPF Scheme") for all employees in Hong Kong, which is a defined contribution retirement scheme. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of 5% of eligible employees' relevant aggregate income. The assets of this pension scheme are held separately from those of the Group in independently administered funds.

The Group's contributions to the defined contribution retirement schemes are expensed as incurred.

(iii) *Termination benefits*

Termination benefits are payable when employment is terminated before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either: terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal; or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after balance sheet date are discounted to present value.

(y) *Share-based payments*

The Group operates a number of equity-settled share-based compensation plans, under which the entity receives services from employees as consideration for equity instruments ("options") of the Group. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the options granted:

- (i) including any market performance conditions (for example, an entity's share price);
- (ii) excluding the impact of any service and non-market performance vesting conditions (for example, profitability, sales growth targets and remaining an employee of the entity over a specified time period); and
- (iii) including the impact of any non-vesting conditions (for example, the requirement for employees to save).

Non-market performance and service conditions are included in assumptions about the number of options that are expected to vest. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each reporting period, the Group revises its estimates of the number of options that are expected to vest based on the non-marketing performance and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

The cash subscribed for the shares issued when the options are exercised is credited to share capital (nominal value) and share premium, net of any directly attributable transaction costs.

The options granted by the Company over its equity instruments to the employees of subsidiary undertakings in the Group are treated as a capital contribution. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary undertakings, with a corresponding credit to equity.

(z) *Provisions and contingent liabilities*

Provisions are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

(aa) *Revenue recognition*

Revenue comprises the fair value of the consideration received or receivable for the sales of properties and services in the ordinary course of the Group's activities. Revenue is shown, net of discount and after eliminated sales with the group entities.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probably that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The group bases its estimates of return on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

(i) *Sales of properties*

Revenue from sales of properties is recognised when the risks and rewards of properties are transferred to the purchasers, which is when the construction of relevant properties has been completed and the properties have been delivered to the purchasers and collectability of related receivables is reasonably assured. To the extent that the Group has to perform further work on the properties already delivered to the purchasers, the relevant expenses shall be recognised simultaneously. Deposits and installments received on properties sold prior to the date of revenue recognition are included in the balance sheets under current liabilities.

(ii) *Property management*

Revenue arising from property management is recognised in the accounting period in which the services are rendered, using a straight-line basis over the term of the contract.

(iii) *Construction and decoration services*

Revenue arising from construction and decoration service is recognised in the accounting period in which the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.

(iv) *Hotel operations*

Hotel revenue from room rentals, food and beverage sales and other ancillary services are recognised when the goods are delivered or services are rendered.

(v) *Interest income*

Interest income is recognised on a time-proportion basis using the effective interest method. When a receivable impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cashflow discounted at original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

(vi) *Rental income*

Rental income of property leasing under operating leases is recognised on a straight-line basis over the lease terms.

(vii) *Sales of goods*

The Group manufactures and sells a range of consumer products, including bottled water product, food product and diary product in wholesale and retail market. Revenue from sales of goods are recognised when the products have been delivered to the customers.

(i) *Advertising income*

Advertising income is recognised upon the publication of the edition in which the advertisement is placed.

(ii) *Income from medical cosmetology and health management*

Income from medical cosmetology and health management are recognised when the services have been rendered to customers. The period of these services rendered is usually within a day.

(ab) *Leases*

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

(i) *The Group is the lessee other than operating lease of land use rights*

Payments made under operating leases (net of any incentives received from the lessor), are charged to the consolidated statement of comprehensive income on a straight-line basis over the period of the lease.

(ii) *The Group is the lessee under operating lease of land use rights*

Land use rights under operating lease, which mainly comprised land use rights to be developed for hotel properties and self-use buildings, are stated at cost and subsequently amortised in the consolidated statement of comprehensive income on a straight-line basis over the operating lease periods, less accumulated impairment provision.

(iii) *The Group is the lessor*

Assets leased out under operating leases are included in investment properties in the balance sheets.

(ac) *Dividend distribution*

Dividend distribution to the equity holders of the Company is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the equity holders or the board of directors, where appropriate.

(ad) *Financial guarantee liabilities*

Financial guarantee liabilities are recognised in respect of the financial guarantee provided by the Group to the banks for property purchasers.

Financial guarantee liabilities are recognised initially at fair value plus transaction costs that are directly attributable to the issue of the financial guarantee liabilities. After initial recognition, such liabilities are measured at the higher of the present value of the best estimate of the expenditure required to settle the present obligation and the amount initially recognised less cumulative amortisation of fees recognised.

Financial guarantee liabilities are derecognised from the balance sheet when, and only when, the obligation specified in the contract is discharged or cancelled or expired.

3 Financial risk management

(a) *Financial risk factor*

The Group's major financial instruments include cash and bank deposits, trade and other receivables, trade and other payables and borrowings. Details of these financial instruments are disclosed in the respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The Company manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) *Foreign exchange risk*

The Group's businesses are principally conducted in RMB, except that certain receipts of sales proceeds and borrowings are denominated in other currencies. As at 31 December 2015, the carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the respective balance sheet dates are as follows:

	31 December	
	2015	2014
	RMB million	RMB million
Monetary assets		
— HK\$	5,199	185
— US\$	10,865	1,184
— Others	20	179
	<u>16,084</u>	<u>1,548</u>
Monetary liabilities		
— HK\$	20,497	15,716
— US\$	48,349	19,045
— Others	44	174
	<u>68,890</u>	<u>34,935</u>

The following table shows the sensitivity analysis of a 5% change in RMB against the relevant foreign currencies. The sensitivity analysis includes only foreign currency denominated monetary items and adjusts their translation at the year-end for a 5% change in foreign currency rates. If there is a 5% increase/decrease in RMB against the relevant currencies, the effect of increase/(decrease) in the profit for the year is as follows:

	31 December	
	2015	2014
	RMB million	RMB million
5% appreciation in RMB against HK\$	547	582
5% depreciation in RMB against HK\$	<u>(547)</u>	<u>(582)</u>
5% appreciation in RMB against US\$	1,449	688
5% depreciation in RMB against US\$	<u>(1,449)</u>	<u>(688)</u>

(ii) *Price risk*

The Group is exposed to equity securities price risk in connection with the available-for-sale financial assets and financial assets at fair value through profit or loss held by the Group, which are publicly traded in stock exchange. The Group closely monitors the fluctuation of the price and assesses the impact on the Group's financial statements. If the price of equity securities the Group invested had been 5% higher/lower, post-tax profit for the year ended 31 December 2015 would increase/decrease by approximately RMB12 million (2014: increase/decrease by approximately RMB547 million), as a result of more/less fair value gain on financial assets at fair value through profit or loss. Other comprehensive income would have been approximately RMB97 million higher/lower (2014: 6 million higher/lower).

(iii) *Interest rate risk*

The Group's interest-bearing assets and liabilities are mainly restricted cash, cash and cash equivalents and borrowings. The Group's exposure to changes in interest rates is mainly attributable to its long term borrowings. Borrowings at variable rates expose the Group to cash flow interest-rate risk. Borrowings issued at fixed rates expose the Group to fair value interest-rate risk.

As at 31 December 2015, if interest rate on borrowings had been 100 basis point higher/lower with all variables held constant, post-tax profit for the year ended 31 December 2015 would decrease/increase by approximately RMB210 million (2014: decrease/increase by approximately RMB135 million), mainly as a result of more/less interest expense on borrowings at variable rates.

The Group has not used any interest rate swaps to hedge its exposure to interest rate risk.

(iv) *Credit risk*

Cash transactions are limited to high-credit-quality institutions. The extent of the Group's credit exposure is represented by the aggregate balance of cash in bank, trade and other receivables. Deposits are only placed with reputable banks.

For credit exposures to customers, credit terms are granted to customers upon obtaining approval from the Company's senior management after assessing the credit history of those customers. The Group closely monitors the collection of progress payments from customers in accordance with payment schedule agreed with customers. The Group has policies in place to ensure that sales are made to purchasers with an appropriate financial strength and appropriate percentage of down payments.

Meanwhile, the Group has the right to cancel the contracts once repayment from the customers is in default; it also has monitoring procedures to ensure that follow-up actions are taken to recover overdue balances. In addition, the Group regularly reviews the recoverable amount of each individual trade and other receivables to ensure that adequate impairment provisions are made for irrecoverable amounts. The Group has no significant concentrations of credit risk, with exposure spread over a number of counterparties and customers.

The Group typically provides guarantees to banks in connection with the customers' borrowing of mortgage loans to finance their purchase of properties for an amount up to 70% of the total purchase price of the property. Detailed disclosure of these guarantees is made in note 35. If a purchaser defaults on the payment of its mortgage loan during the guarantee period, the bank holding the guarantee may demand the Group to repay the outstanding principal the loan and any interest accrued thereon. Under such circumstances, the Group is able to retain the customer's deposit and resell the property to recover any amounts paid by the Group to the bank. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

(v) *Liquidity risk*

Management aims to maintain sufficient cash and cash equivalents or have available funding through an adequate amount of available financing, including proceeds from pre-sale of properties, committed credit facilities and short-term and long-term borrowings to meet its construction commitments. Due to the dynamic nature of the underlying businesses, the Group maintains flexibility in funding by maintaining adequate amount of cash and cash equivalents and through having available sources of financing.

To cope with the rapid expansion of the Group's businesses, the Group raised significant amounts of borrowings during the years ended 31 December 2015. As at 31 December 2015, the Group's total borrowings stood at RMB296,906 million and its gearing ratio achieved at 39% (note 3(b)). During the year ended 31 December 2015 and the period up to the date of these consolidated financial statements, in order to properly manage the Group's liquidity risk and capital structure, the Group has conducted the following major financing activities:

- the Group issued 820,000,000 shares to certain investors and raised net proceeds of RMB3,630 million;
- the Group issued subordinated perpetual capital instruments with the aggregate net proceeds of RMB44,322 million;
- the Group has issued corporate bonds in the PRC to raised net funds totalling RMB49,522 million (including RMB10,000 million issued in January 2016) with tenures of 4 to 7 years to replace the existing short-term borrowings or other borrowings at higher interest rates.

Except for the aforementioned recent developments, the Group has a number of alternative plans to mitigate the potential impacts on anticipated cash flows should there be significant adverse changes in economic environment. These include control on investment in land reserve, adjusting project development timetable to adapt the changing local real estate market environment, implementing cost control measures, promotion of sales of completed properties, accelerating sales with more flexible pricing. The Group will pursue such options based on its assessment of relevant future costs and benefits.

With the aforementioned activities and plans, the directors of the Company considered the Group's liquidity risk has been controlled, and will be improved in 2016. The directors of the Company has reviewed the working capital forecast of the Group for the 12 months from 31 December 2015 and are of the opinion that the Group will have sufficient working capital to meet its financial obligations as and when they fall due within the next 12 months from the date of the consolidated balance sheet.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscount cash flows.

	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>Over 5 years</u>	<u>Total</u>

* Excluding staff welfare benefit payable and other taxes payable.

The amounts have not included financial guarantee contracts:

- which the Group could be required to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee for loans procured by the purchasers of the Group's properties (note 35). Such guarantees terminate upon the earlier of (i) issuance of the real estate ownership certificate which will generally be available within an average period of two to three years upon the completion of guarantee registration; or (ii) the satisfaction of mortgaged loan by the purchasers of properties;
- which the Group make for its cooperation parties' bank borrowings (note 35). Such guarantees terminate upon the repayment of relevant bank borrowings.

Based on expectations at the end of the reporting period, the Group considers that it is more likely than not that no amount will be payable under the arrangement.

(B) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for equity owners and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to equity owners, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as total borrowings divided by total assets, as shown in the consolidated balance sheets.

The gearing ratios as at 31 December 2015 and 2014 were as follows:

	31 December	
	2015	2014

(C) Fair value estimation

The different levels of the financial instruments carried at fair value, by valuation method, have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

There were no transfers among different categories during the year.

The nominal value less impairment provisions of trade and other receivables and the nominal value of trade and other payables approximate their fair value due to their short maturities. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

4 Critical accounting estimates and assumptions

Estimates and judgements used in preparing the financial statements are evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that may have a significant effect on the carrying amounts of assets and liabilities within the next financial year are discussed below:

(a) *PRC corporate income taxes and deferred taxation*

The Group's subsidiaries that operate in the PRC are subject to income tax in the PRC. Significant judgement is required in determining the provision for income tax and withholding tax on unremitted earnings of PRC subsidiaries. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters (including the effect of change in the dividend policies of PRC subsidiaries) is different from the amounts that were initially recorded, such difference will impact the income tax and deferred tax provision in the period in which such determination is made.

Deferred tax assets relating to certain temporary differences and tax losses are recognised when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

(b) *PRC land appreciation taxes*

The Group is subject to land appreciation taxes in the PRC. However, the implementation and settlement of LAT varies among various tax jurisdictions in cities of the PRC, and the Group has not finalised its LAT calculation and payments with local tax authorities in the PRC for most of its properties projects. Accordingly, significant judgement is required in determining the amount of the land appreciation taxes. The Group recognised these land appreciation taxes based on management's best estimates according to the interpretation of the tax rules. The final tax outcome could be different from the amounts that were initially recorded, and these differences will impact the income tax expense and tax provisions in the periods in which such taxes have been finalised with local tax authorities.

(c) *Estimated fair value of investment properties*

The best evidence of fair value is current prices in an active market for the properties with similar lease and other contracts. In the absence of such information, the Group determines the amount within a range of reasonable fair value estimates. In making its judgement, the Group considers information from a variety of sources including:

- (i) current prices in an active market for properties of different nature, condition or location (or subject to different lease or other contracts), adjusted to reflect those differences;
- (ii) recent prices of similar properties in less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and
- (iii) discounted cash flow projections based on reliable estimates of future cash flows, derived from the terms of any existing lease and other contracts and (where possible) from external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

The Group assesses the fair value of its investment properties based on valuations determined by independent and professional qualified valuers.

(d) *Provision for properties under development and completed properties held for sale*

The Group assesses the carrying amounts of properties under development and completed properties held for sale according to their recoverable amounts based on the realisability of these properties, taking into account estimated costs to completion based on past experience and committed contracts and estimated net sales value based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realised. The assessment requires the use of judgement and estimates.

(e) *Impairment of property, plant and equipment, and land use rights*

The Group regularly reviews whether there are any indications of impairment and will recognise an impairment loss if the carrying amount of an asset is lower than its recoverable amount which is the greater of its net selling price or its value in use. In determining the value in use, the Group assesses the present value of the estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Estimates and judgements are applied in determining these future cash flows and the discount rate. The Group estimates the future cash flows based on certain assumptions, such as market competition and development and the expected growth in business.

(f) *Estimation for total construction costs*

The Group estimates property construction cost upon recognition of respective costs of sales. Such estimates are substantiated by detailed budgetary information as developed by the management, and will be assessed periodically, as the constructions progress. Should these estimates depart from their actual finalised costs, such differences would affect the accuracy of costs of sales recognised.

5 Segment information

The chief operating decision-maker (“CODM”) of the Group has been identified as the executive directors of the Company who are responsible for reviewing the Group’s internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports. The Group is organised into four business segments: property development, property investment, property management and other businesses which mainly include property construction, hotel, other property development related services, insurance and fast consuming products business including production and sales of spring water, grain and edible oil, and dairy. As the CODM of the Group considers most of the revenue and results of the Group are attributable to the market in the PRC, and only an immaterial part (less than 10%) of the Group’s assets are located outside the PRC, no geographical segment information is presented.

The directors of the Company assess the performance of the operating segments based on a measure of segment results. Fair value gain on financial assets at fair value through profit or loss, dividend income of available-for-sale financial assets, gain or loss on disposal of available-for-sale financial assets and finance cost and income are not included in the result for each operating segment.

(a) Valuation processes of the Group

The Group measures its investment properties at fair value. The fair value of the Group's investment properties has been determined on the basis of valuation carried out by CB Richard Ellis Limited ("CBRE"), an independent and professionally qualified valuer.

Discussions of valuation processes and results are held between the management and the valuer at least once every six months, in line with the Group's interim and annual reporting dates.

(b) Valuation techniques

Valuations were based on either:

- (i) direct comparison approach is adopted assuming sale of each of these properties in its existing state with the benefit of vacant possession. By making reference to sales transactions as available in the relevant market, comparable properties in close proximity have been selected and adjustments have been made to account for the difference in factors such as location and property size.
- (ii) income approach takes into account the current rents of the property interests and the reversionary potentials of the tenancies, term yield and reversionary yield are then applied respectively to derive the market value of the property.

- (iii) residual method of valuation which is commonly used in valuing development sites by establishing the market value of the properties on an “as-if” completed basis with appropriate deduction on construction costs, professional fees, contingency, marketing and legal cost, and interest payments to be incurred, anticipated developer’s profits, as well as land acquisition costs.

There were no changes to the valuation techniques during the year.

(c) Information about fair value measurements using significant unobservable inputs (level 3)

	Property Category	Fair value as at 31 December 2015	Valuation techniques	Unobservable inputs	Range of unobservable inputs

				Budgeted cost (RMB/square meter)	100–2,895
				Anticipated developer's profit margin	2.00%–20.00%

Relationship of unobservable inputs to fair value:

- The higher terminal and reversionary yield, the lower fair value;
- The higher capitalisation rate, the lower fair value;
- The higher expected vacancy, the lower fair value;
- The higher monthly rental, the higher fair value;
- The higher market price, the higher fair value;
- The higher budgeted construction cost to be incurred, the lower fair value;
- The higher the anticipated developer's profit margin, the lower fair value.
