FORWARD-LOOKING STATEMENTS

All statements contained in this Information Memorandum that are not statements of historical fact constitute “forward-looking statements”. Some of these statements can be identified by forward-looking terms such as “expect”, “believe”, “plan”, “intend”, “estimate”, “anticipate”, “may”, “will”, “would” and “could” or similar words. However, these words are not the exclusive means of identifying forward-looking statements. The Issuer, the Arranger and the Dealers do not represent or warrant that the actual future results, performance or achievements of the Issuer, CRCT and/or the Group will be as discussed in those statements.

Neither the delivery of this Information Memorandum nor the issue of any Securities by the Issuer shall under any circumstances constitute a continuing representation or create any suggestion or implication that there has been no change in the affairs of the Issuer, CRCT and/or the Group or any statement of fact or information contained in this Information Memorandum since the date of this Information Memorandum or the date on which this Information Memorandum has been most recently amended or supplemented.

Further, the Issuer, the Arranger and the Dealers disclaim any responsibility, and undertake no obligation, to update or revise any forward-looking statements contained herein to reflect any changes in the expectations with respect thereto after the date of this Information Memorandum or to reflect any change in events, conditions or circumstances on which any such statements are based.

- (i) the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8 of the Notes, or increase the payment of such additional amounts, as a result of any change in, or amendment to, the laws (or any regulations, rulings or other administrative pronouncements promulgated thereunder) of Singapore or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws, regulations, rulings or other administrative pronouncements, which change or amendment is made public on or after the Issue Date or any other date specified in the Pricing Supplement, and
 - (ii) such obligations cannot be avoided by the Issuer taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Redemption upon Cessation or Suspension of Trading of Units : In the event that (i) the units of CRCT cease to be traded on the SGX-ST or (ii) trading in the units of CRCT on the SGX-ST is suspended for a continuous period of more than seven days (other than by reason of holiday, statutory or otherwise), the Issuer shall, at the option of the holder of any Note, redeem such Note at its Redemption Amount together with interest accrued to the date fixed for redemption on any date on which interest is due to be paid on such Notes or, if earlier, the date falling 45 days after (in the case of (i)) the date of cessation of trading or (in the case of (ii)) the business day immediately following the expiry of such continuous period of seven days.

Negative Pledge of Issuer : The Issuer has covenanted with the Trustee in the Trust Deed that, so long as any of the Notes remains outstanding (as defined in the Trust Deed), it will not, and will procure that none of the Principal Subsidiaries (as defined in the Conditions of the Notes) will create or have outstanding any security ("**Subsequent Security**") over any Existing Secured Assets (as defined below), which ranks in point of priority, completely after the security created over such Existing Secured Asset, except for any security created or outstanding with the prior consent in writing of the Trustee or the Noteholders by way of an Extraordinary Resolution.

For the avoidance of doubt, nothing in the foregoing paragraph shall prohibit:

Fixed Rate Perpetual Securities : Fixed Rate Perpetual Securities will confer a right to receive distribution at a fixed rate which will be payable in arrear on specified dates. If so provided on the face of the Fixed Rate Perpetual Securities, the distribution rate may be reset on such dates and bases as may be set out in the applicable Pricing Supplement.

Floating Rate Perpetual Securities : Floating Rate Perpetual Securities which are denominated in Singapore dollars will confer a right to receive distribution at a rate to be determined separately for each Series by reference to S\$ SIBOR or S\$ SWAP RATE (or in any other case such other benchmark as may be agreed between the Issuer, the CRCT Manager and the relevant Dealer(s)), as adjusted for any applicable margin. Distribution periods in relation to the Floating Rate Perpetual Securities will be agreed between the Issuer, the CRCT Manager and the relevant Dealer(s) prior to their issue.

Floating Rate Perpetual Securities which are denominated in other currencies will confer a right to receive distribution at a rate to be determined separately for each Series by reference to such other benchmark as may be agreed between the Issuer, the CRCT Manager and the relevant Dealer(s).

Distribution Discretion : If Optional Payment is set out on the face of the Perpetual Security and the relevant Pricing Supplement, the Issuer may, at its sole discretion, elect not to pay a distribution (or to pay only part of a distribution) which is scheduled to be paid on a Distribution Payment Date by giving notice to the Trustee, the Issuing and Paying Agent and the Perpetual Securityholders (in accordance with Condition 14 of Perpetual Securities) not more than 15 nor less than five business days (or such other notice period as may be specified on the face of the Perpetual Security and the relevant Pricing Supplement) prior to a scheduled Distribution Payment Date.

If a Dividend Pusher is set out on the face of the Perpetual Security and the relevant Pricing Supplement, the Issuer may not elect to defer any distribution if during the Reference Period (as specified in the applicable Pricing Supplement) ending on the day before that scheduled Distribution Payment Date, either or both of the following (each such event a “**Compulsory Distribution Payment Event**”) have occurred:

- (i) a dividend, distribution or other payment has been declared or paid on or in respect of any of the Issuer’s Junior Obligations or (except on a *pro rata* basis) any of the Issuer’s Specified Parity Obligations; or
- (ii) any of the Issuer’s Junior Obligations has been redeemed, reduced, cancelled, bought back or acquired for any consideration or (except on a *pro rata* basis) any of the Issuer’s Specified Parity Obligations has been redeemed, reduced, cancelled, bought back or acquired for any consideration,

in each case, other than (1) in connection with any employee benefit plan or similar arrangements with or for the benefit of the employees, officers, consultants or directors of the Group, (2) as a result of the exchange or conversion of Specified Parity Obligations of the Issuer for Junior Obligations of the Issuer and/or as otherwise specified in the applicable Pricing Supplement.

For the purposes of the Conditions of the Perpetual Securities:

- (a) “**Junior Obligation**” means (aa) in respect of Perpetual Securities which are Senior Perpetual Securities, any class of equity capital in CRCT and any other instrument or security issued, entered into or guaranteed by the Issuer (including without limitation any preferred units or subordinated perpetual securities) that ranks or is expressed to rank, by its terms or by operation of law, junior to all unsecured obligations of the Issuer from time to time outstanding and (bb) in respect of Perpetual Securities which are Subordinated Perpetual Securities, any class of equity capital in CRCT and any other instrument or security issued, entered into or guaranteed by the Issuer, other than any instrument or security (including without limitation any preferred units) ranking in priority in payment and in all other respects to the ordinary units of CRCT; and
- (b) “**Specified Parity Obligations**” means any instrument or security (including without limitation any preference shares) issued, entered into or guaranteed by the Issuer (aa) which ranks or is expressed to rank, by its terms or by operation of law, *pari passu* with the relevant Perpetual Securities and (bb) the terms of which provide that the making of payments thereon or distributions in respect thereof are fully at the discretion of the Issuer and/or, in the case of an instrument or security guaranteed by the Issuer, the issuer thereof.

Non-Cumulative Deferral and Cumulative Deferral :

If Non-Cumulative Deferral is set out on the face of the Perpetual Security and the relevant Pricing Supplement, any distribution deferred pursuant to Condition 4(IV) of the Perpetual Securities is non-cumulative and will not accrue interest. The Issuer is not under any obligation to pay that or any other distributions that have not been paid in whole or in part. The Issuer may, at its sole discretion, and at any time, elect to pay an amount up to the amount of distribution which is unpaid (“**Optional Distribution**”) (in whole or in part) by complying with the notice requirements in Condition 4(IV)(e) of the Perpetual Securities. There is no limit on the number of times or the extent of the amount with respect to which the Issuer can elect not to pay distributions pursuant to Condition 4(IV) of the Perpetual Securities.

Any partial payment of outstanding Optional Distribution by the Issuer shall be shared by the holders of all outstanding Perpetual Securities and the Coupons related to them on a *pro rata* basis.

If Cumulative Deferral is set out on the face of the Perpetual Security and the relevant Pricing Supplement, any distribution deferred pursuant to Condition 4(IV) of the Perpetual Securities shall constitute “**Arrears of Distribution**”. The Issuer may, at its sole discretion, elect to (in the circumstances set out in Condition 4(IV)(a) of the Perpetual Securities) further defer any Arrears of Distribution by complying with the foregoing notice requirement applicable to any deferral of an accrued distribution. The Issuer is not subject to any limit as to the number of times distributions and Arrears of Distribution can or shall be deferred pursuant to Condition 4(IV) of the Perpetual Securities except that Condition 4(IV)(c) of the Perpetual Securities shall be complied with until all outstanding Arrears of Distribution have been paid in full.

If Additional Distribution is set out on the face of the Perpetual Security and the relevant Pricing Supplement, each amount of Arrears of Distribution shall bear interest as if it constituted the principal of the Perpetual Securities at the Distribution Rate or Rate of Distribution (as the case may be) and the amount of such interest (the “**Additional Distribution Amount**”) with respect to Arrears of Distribution shall be due and payable pursuant to Condition 4 of the Perpetual Securities and shall be calculated by applying the applicable Distribution Rate or Rate of Distribution (as the case may be) to the amount of the Arrears of Distribution and otherwise *mutatis mutandis* as provided in the provisions of Condition 4 of the Perpetual Securities. The Additional Distribution Amount accrued up to any Distribution Payment Date shall be added, for the purpose of calculating the Additional Distribution Amount accruing thereafter, to the amount of Arrears of Distribution remaining unpaid on such Distribution Payment Date so that it will itself become Arrears of Distribution.

Restrictions in the case of
Non-Payment

: If Dividend Stopper is set out on the face of the Perpetual Security and the relevant Pricing Supplement and on any Distribution Payment Date, payments of all distribution scheduled to be made on such date are not made in full by reason of Condition 4(IV) of the Perpetual Securities, the Issuer shall not and shall procure that none of the subsidiaries of CRCT shall:

- (i) declare or pay any dividends, distributions or make any other payment on, and will procure that no dividend, distribution or other payment is made on, any of the Issuer’s Junior Obligations or (except on a *pro rata* basis) any of the Issuers’ Specified Parity Obligations; or
- (ii) redeem, reduce, cancel, buy-back or acquire for any consideration, and will procure that no redemption, reduction, cancellation, buy-back or acquisition for any consideration is made in respect of, any of the Issuer’s Junior Obligations or (except on a *pro rata* basis) any of the Issuer’s Specified Parity Obligations,

in each case, other than (1) in connection with any employee benefit plan or similar arrangements with or for the benefit of the employees, officers, consultants or directors of the Group and (2) as a result of the exchange or conversion of Specified

Parity Obligations of the Issuer for Junior Obligations of the Issuer, unless and until (A) (if Cumulative Deferral is specified as being applicable in the applicable Pricing Supplement) the Issuer has satisfied in full all outstanding Arrears of Distribution, (B) (if Non-Cumulative Deferral is specified as being applicable in the applicable Pricing Supplement) a redemption of all the outstanding Perpetual Securities has occurred, the next scheduled distribution has been paid in full or an Optional Distribution equal to the amount of a distribution payable with respect to the most recent Distribution Payment Date that was unpaid in full or in part, has been paid in full or (C) the Issuer is permitted to do so (or to procure or permit the subsidiaries of CRCT to do so) by an Extraordinary Resolution of the Perpetual Securityholders and/or as otherwise specified in the applicable Pricing Supplement.

Status of the Senior Perpetual Securities : The Senior Perpetual Securities and Coupons relating to them constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any preference or priority among themselves, and *pari passu* with all other present and future unsecured obligations (other than subordinated obligations and priorities created by law) of the Issuer from time to time outstanding.

Status of the Subordinated Perpetual Securities : The Subordinated Perpetual Securities and Coupons relating to them will constitute direct, unconditional, subordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any preference or priority among themselves, and *pari passu* with any Parity Obligations of the Issuer.

For the purposes of the Conditions of the Perpetual Securities, “**Parity Obligation**” means any instrument or security (including without limitation any preference units in CRCT) issued, entered into or guaranteed by the Issuer (1) which ranks or is expressed to rank, by its terms or by operation of law, *pari passu* with a CRCT Notional Preferred Unit (as defined below) and (2) the terms of which provide that the making of payments thereon or distributions in respect thereof are fully at the discretion of the Issuer and/or, in the case of an instrument or security guaranteed by the Issuer, the issuer thereof.

Subordination of the Subordinated Perpetual Securities : Subject to the insolvency laws of Singapore and other applicable laws, in the event of the Winding-Up (as defined in Condition 9(a) of the Perpetual Securities) of CRCT, there shall be payable by the Issuer in respect of each Subordinated Perpetual Security (in lieu of any other payment by the Issuer), such amount, if any, as would have been payable to such Perpetual Securityholder if, on the day prior to the commencement of the Winding-Up of CRCT, and thereafter, such Perpetual Securityholder were the holder of one of a class of preferred units in the capital of CRCT (and if more than one class of preferred units is outstanding, the most junior ranking class of such preferred units) (the “**CRCT Notional Preferred Units**”) having an equal right to return of assets in the Winding-Up of CRCT and so ranking *pari passu* with the holders of that class or classes of preferred units (if any) which have a preferential right to return of assets in the Winding-Up of

CRCT, and so rank ahead of the holders of Junior Obligations of the Issuer but junior to the claims of all other present and future creditors of the Issuer (other than Parity Obligations of the Issuer), on the assumption that the amount that such Perpetual Securityholder was entitled to receive in respect of each CRCT Notional Preferred Unit on a return of assets in such Winding-Up of CRCT were an amount equal to the principal amount (and any applicable premium outstanding) of the relevant Subordinated Perpetual Security together with distributions accrued and unpaid since the immediately preceding Distribution Payment Date or the Issue Date (as the case may be) and any unpaid Optional Distributions (as defined in Condition 4(IV)(c) of the Perpetual Securities) in respect of which the Issuer has given notice to the Perpetual Securityholders in accordance with the Conditions of the Perpetual Securities.

- No set-off in relation to the Subordinated Perpetual Securities : Subject to applicable law, no holder of Subordinated Perpetual Securities or any Coupons relating to them may exercise, claim or plead any right of set-off, deduction, withholding or retention in respect of any amount owed to it by the Issuer in respect of, or arising under or in connection with the Subordinated Perpetual Securities or Coupons relating to them, and each holder of Subordinated Perpetual Securities or any Coupons relating to them shall, by virtue of his holding of any Subordinated Perpetual Securities or Coupons relating to them, be deemed to have waived all such rights of set-off, deduction, withholding or retention against the Issuer. Notwithstanding the preceding sentence, if any of the amounts owing to any holder of Subordinated Perpetual Securities or any Coupons relating to them by the Issuer in respect of, or arising under or in connection with the Subordinated Perpetual Securities or Coupons relating to them is discharged by set-off, such holder of Subordinated Perpetual Securities or any Coupons relating to them shall, subject to applicable law, immediately pay an amount equal to the amount of such discharge to the Issuer (or, in the event of CRCT's Winding-Up, the liquidator or, as appropriate, administrator of CRCT) and, until such time as payment is made, shall hold such amount in trust for the Issuer (or the liquidator or, as appropriate, administrator of CRCT) and accordingly any such discharge shall be deemed not to have taken place.
- Redemption at the Option of the Issuer : If so provided on the face of the Perpetual Security and the relevant Pricing Supplement, the Issuer may, on giving irrevocable notice to the Perpetual Securityholders falling within the Issuer's Redemption Option Period shown on the face thereof, redeem all or, if so provided, some of the Perpetual Securities at their Redemption Amount and on the date or dates so provided. Any such redemption of Perpetual Securities shall be at their Redemption Amount, together with distribution (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption.
- Redemption for Taxation Reasons : The Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Distribution Payment Date or, if so specified on the face of the Perpetual Security and the relevant Pricing Supplement, at any time on giving not less than 30 nor more than 60 days' notice to the Perpetual Securityholders

(which notice shall be irrevocable), at their Redemption Amount (together with distributions (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption), if:

- (i) the Issuer receives a ruling by the Comptroller of Income Tax in Singapore (or other relevant authority) which confirms that:
 - (1) the Perpetual Securities will not be regarded as “debt securities” for the purposes of Section 43N(4) of the Income Tax Act, Chapter 134 of Singapore (“ITA”) and Regulation 2 of the Income Tax (Qualifying Debt Securities) Regulations; or
 - (2) the distributions (including any Arrears of Distribution and any Additional Distribution Amount) will not be regarded as interest payable by the Issuer for the purposes of the withholding tax exemption on interest for “qualifying debt securities” under the ITA; or
- (ii) (1) the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 7 of the Perpetual Securities, or increase the payment of such additional amounts, as a result of any change in, or amendment to, the laws (or any regulations, rulings or other administrative pronouncements promulgated thereunder) of Singapore or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws, regulations, rulings or other administrative pronouncements, which change or amendment is made public on or after the Issue Date or any other date specified in the Pricing Supplement, and (2) such obligations cannot be avoided by the Issuer taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Perpetual Securities then due.

Redemption for Accounting Reasons

: If so provided on the face of the Perpetual Security and the relevant Pricing Supplement, the Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Distribution Payment Date or, if so specified thereon, at any time on giving not less than 30 nor more than 60 days’ notice to the Perpetual Securityholders (which notice shall be irrevocable), at their Redemption Amount (together with distribution (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption) if, on such Distribution Payment Date or at any time after that Distribution Payment Date, as a result of any changes or amendments to Singapore Financial Reporting Standards issued by the Singapore Accounting Standards Council (as amended from time to time, the “**SFRS**”) or any other accounting standards that may replace SFRS for the purposes of the consolidated financial statements of CRCT (the “**Relevant Accounting Standard**”), the Perpetual Securities will not or will no longer be recorded as “equity” of CRCT pursuant to the Relevant Accounting Standard.

Redemption for Tax Deductibility : If so provided on the face of the Perpetual Security and the relevant Pricing Supplement, the Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Distribution Payment Date or, if so specified thereon, at any time on giving not less than 30 nor more than 60 days' notice to the Perpetual Securityholders (which notice shall be irrevocable), at their Redemption Amount (together with distributions (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption) if:

- (i) the Issuer satisfies the Trustee immediately before giving such notice that, as a result of:
 - (1) any amendment to, or change in, the laws (or any rules or regulations thereunder) of Singapore or any political subdivision or any taxing authority thereof or therein which is enacted, promulgated, issued or becomes effective on or after the Issue Date;
 - (2) any amendment to, or change in, an official and binding interpretation of any such laws, rules or regulations by any legislative body, court, governmental agency or regulatory authority (including the enactment of any legislation and the publication of any judicial decision or regulatory determination) which is enacted, promulgated, issued or becomes effective on or after the Issue Date; or
 - (3) any generally applicable official interpretation or pronouncement which is issued or announced on or after the Issue Date that provides for a position with respect to such laws or regulations that differs from the previously generally accepted position which is announced before the Issue Date,

the distributions (including any Arrears of Distribution and any Additional Distribution Amount) by the Issuer are no longer, or would in the Distribution Period immediately following that Distribution Payment Date no longer be, regarded as sums "payable by way of interest upon any money borrowed" for the purpose of Section 14(1)(a) of the ITA, provided that no such notice of redemption may be given earlier than 90 days prior to such effective date on which the distributions (including any Arrears of Distribution and any Additional Distribution Amount) would not be regarded as such sums; or

- (ii) the Issuer receives a ruling by the Comptroller of Income Tax in Singapore (or other relevant authority) which confirms that the distributions (including any Arrears of Distribution and any Additional Distribution Amount) will not be regarded as sums "payable by way of interest upon any money borrowed" for the purpose of Section 14(1)(a) of the ITA.

Redemption in the case of Minimal: Outstanding Amount	If so provided on the face of the Perpetual Security and the relevant Pricing Supplement, the Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Distribution Payment Date or, if so specified thereon, at any time on giving not less than 30 nor more than 60 days' notice to the Perpetual Securityholders (which notice shall be irrevocable), at their Redemption Amount (together with distribution (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption) if, immediately before giving such notice, the aggregate principal amount of the Perpetual Securities outstanding is less than 20 per cent. of the aggregate principal amount originally issued.
Redemption upon Cessation or Suspension of Trading of Units	: If so provided on the face of the Perpetual Security and the relevant Pricing Supplement, in the event that (i) the units of CRCT cease to be traded on the SGX-ST or (ii) trading in the units of CRCT on the SGX-ST is suspended for a continuous period of more than seven days (other than by reason of holiday, statutory or otherwise), the Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on the date on which distribution is due to be paid on such Perpetual Securities or, if earlier, the date falling 45 days after (in the case of (i)) the date of cessation of listing or trading or (in the case of (ii)) the business day immediately following the expiry of such continuous period of seven days at their Redemption Amount (together with distribution (including Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption).
Redemption upon a Regulatory Event	: If so provided on the face of the Perpetual Security and the relevant Pricing Supplement, the Issuer may, at its option, redeem the Perpetual Securities in whole, but not in part, at any time at their principal amount, together with distributions (including any Arrears of Distribution and any Additional Distribution Amount) accrued from the immediately preceding Distribution Payment Date to (but excluding) the date fixed for redemption, on the Issuer giving not less than 30 nor more than 60 days' notice to the Perpetual Securityholders and the Trustee (which notice shall be irrevocable), if the Issuer satisfies the Trustee immediately prior to the giving of such notice that as a result of any change in, or amendment to, the Property Funds Appendix, or any change in the application or official interpretation of the Property Funds Appendix, the Perpetual Securities count or will count towards the Aggregate Leverage under the Property Funds Appendix (a " Regulatory Event "), provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Perpetual Securities will count towards the Aggregate Leverage.

- Redemption upon a Ratings Event : If so provided on the face of the Perpetual Security and the relevant Pricing Supplement, the Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Distribution Payment Date or, if so specified thereon, at any time on giving not less than 30 nor more than 60 days' notice to the Perpetual Securityholders (which notice shall be irrevocable), at their Redemption Amount (together with distribution (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption) if, on such Distribution Payment Date or any time after that Distribution Payment Date, an amendment, clarification or change has occurred or will occur in the equity credit criteria, guidelines or methodology of any Rating Agency (as defined in the Trust Deed) requested from time to time by the Issuer to grant an equity classification to the Perpetual Securities and in each case, any of their respective successors to the rating business thereof, which amendment, clarification or change results in a lower equity credit for the Perpetual Securities than the equity credit assigned on the Issue Date or, if equity credit is not assigned on the Issue Date, at the date when equity credit is assigned for the first time ("**Ratings Event**").
- Limited right to institute proceedings in relation to Perpetual Securities : Notwithstanding any of the provisions in Condition 9 of the Perpetual Securities, the right to institute proceedings for Winding-Up (as defined in Condition 9(a) of the Perpetual Securities) in respect of CRCT is limited to circumstances where payment under the Perpetual Securities has become due. In the case of any distribution, such distribution will not be due if the Issuer has elected not to pay that distribution in accordance with Condition 4(IV) of the Perpetual Securities.
- Proceedings for Winding-Up : If (i) a final and effective order is made or an effective resolution is passed for the Winding-Up of CRCT or (ii) the Issuer does not pay any principal payable by it under any of the Perpetual Securities at the place at and in the currency in which it is expressed to be payable when due and such default continues for three business days after the due date or any distribution or other amounts (other than principal) payable by it under any of the Perpetual Securities at the place at and in the currency in which it is expressed to be payable when due and such default continues for three business days after the due date, the Issuer shall be deemed to be in default under the Trust Deed and the Perpetual Securities and the Trustee may, subject to the provisions of Condition 9(d) of the Perpetual Securities, institute proceedings for the Winding-Up of CRCT, prove in the Winding-Up of CRCT and/or claim in the liquidation of CRCT for such payment.

RISK FACTORS

Prior to making an investment or divestment decision, prospective investors in or existing holders of the Securities should carefully consider all the information set forth in this Information Memorandum including the risk factors set out below. Any of the following risks could adversely affect the Issuer, CRCT and/or the Group's business, assets, financial condition, results of operations or prospects, and investors could, as a result, lose all or part of their investment. The risk factors set out below do not purport to be complete or comprehensive of all the risks that may be involved in the businesses of the Issuer, CRCT and/or the Group or any decision to purchase, own or dispose of the Securities. Additional risks and uncertainties which the Issuer is currently unaware of may also impair the businesses, assets, financial condition, performance or prospects of the Issuer, CRCT and/or the Group. If any of the following risk factors develop into actual events, the business, assets, financial condition, results of operations or prospects of the Issuer, CRCT and/or the Group could be materially and adversely affected. In such cases, the ability of the Issuer to comply with its obligations under the Trust Deed and the Securities may be adversely affected.

Limitations of this Information Memorandum

This Information Memorandum does not purport to nor does it contain all information that a prospective investor in or existing holder of the Securities may require in investigating the Issuer, CRCT and/or the Group, prior to making an investment or divestment decision in relation to the Securities issued under the Programme. Neither this Information Memorandum nor any other document or information (or any part thereof) delivered or supplied under or in relation to the Programme or the Securities is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by the Issuer, the Arranger or any of the Dealers that any recipient of this Information Memorandum or any such other document or information (or such part thereof) should subscribe for or purchase or sell any of the Securities. This Information Memorandum is not, and does not purport to be, investment advice. A prospective investor should make an investment in the Securities only after it has determined that such investment is suitable for its investment objectives. Determining whether an investment in the Securities is suitable is a prospective investor's responsibility, even if the investor has received information to assist it in making such a determination. Each person receiving this Information Memorandum acknowledges that such person has not relied on the Issuer, CRCT, the CRCT Manager, their respective subsidiaries (if any), their respective associated companies (if any), their respective joint venture entities (if any), the Arranger, any of the Dealers or any person affiliated with each of them in connection with its investigation of the accuracy or completeness of the information contained herein or of any additional information considered by it to be necessary in connection with its investment or divestment decision. Any recipient of this Information Memorandum contemplating subscribing for or purchasing or selling any of the Securities should determine for itself the relevance of the information contained in this Information Memorandum and any such other document or information (or any part thereof), and its investment or divestment should be, and shall be deemed to be, based solely upon its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer, CRCT, the CRCT Manager, their respective subsidiaries (if any), their respective associated companies (if any), their respective joint venture entities (if any), the terms and conditions of the Securities and any other factors relevant to its decision, including the merits and risks involved. A prospective investor should consult with its legal, tax and/or other advisers prior to deciding to make an investment in the Securities.

INVESTMENT CONSIDERATIONS ASSOCIATED WITH INVESTMENT IN THE SECURITIES

The Securities may not be a suitable investment for all investors

Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and the information contained, or incorporated by reference, in this Information Memorandum or any applicable supplement to this Information Memorandum;

- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Securities and the impact such investment will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities, including Securities with principal or interest or distribution payable in one or more currencies, or where the currency for principal or interest or distribution payments is different from the potential investor's currency;
- understand thoroughly the terms of the Securities and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Securities are complex financial instruments. Sophisticated investors generally do not purchase complex financial instruments as standalone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in the Securities which are complex financial instruments, unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of such Securities and the impact such investment will have on the potential investor's overall investment portfolio.

Investment activities may be subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent: (1) the Securities are legal investments for them, (2) the Securities can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase of any of the Securities. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of the Securities under any applicable risk-based capital or similar rules.

Lack of public market and limited liquidity for the Securities

There can be no assurance as to the liquidity of the Securities or that an active trading market will develop. If such a market were to develop, the Securities may trade at prices that may be higher or lower than the initial issue price depending on many factors, including, amongst other things, prevailing interest rates, the Issuer's, CRCT's and/or the Group's operations and the market for similar securities. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Securities generally would have a more limited secondary market and more price volatility than conventional debt securities.

Liquidity may have an adverse effect on the market value of the Securities. Although the issue of additional Securities may increase the liquidity of the Securities, there can be no assurance that the price of such Securities will not be adversely affected by the issue in the market of such additional Securities. The Dealers are not obliged to make a market in the Securities and any such market making, if commenced, may be discontinued at any time at the sole discretion of the relevant Dealer(s). No assurance can be given as to the liquidity of, or trading market for, the Securities.

Fluctuation of market value of Securities issued under the Programme

Trading prices of the Securities are influenced by numerous factors, including (i) the operating results and/or financial condition of the Issuer, CRCT and/or its subsidiaries (if any), associated companies (if any) and/or joint venture entities (if any), (ii) political, economic or financial conditions and (iii) the market for similar securities and any other factors that can affect the capital markets, the industry, the Issuer, CRCT and/or its subsidiaries (if any), associated companies (if any) and/or joint venture entities (if any) generally. Adverse economic developments, in Singapore as well as countries in which the Issuer, CRCT and/or its subsidiaries (if any), associated companies (if any) and/or joint venture entities (if any) operate or have

business dealings, could have a material adverse effect on the Singapore economy and the economies in which the Issuer, CRCT and/or its subsidiaries (if any), associated companies (if any) and/or joint venture entities (if any) operate or have business dealings and the operating results and/or the financial condition of the Issuer, CRCT and/or its subsidiaries (if any), associated companies (if any) and/or joint venture entities (if any).

Interest rate risk

Securityholders may suffer unforeseen losses due to fluctuations in interest rates. Generally, a rise in interest rates may cause a fall in debt security prices, resulting in a capital loss for the Securityholders. However, the Securityholders may reinvest the interest or distribution payments at higher prevailing interest rates. Conversely, when interest rates fall, debt security prices may rise. Securityholders may enjoy a capital gain but interest or distribution payments received may be reinvested at lower prevailing interest rates.

Inflation risk

Securityholders may suffer erosion on the return of their investments due to inflation. Securityholders would have an anticipated rate of return based on expected inflation rates on the purchase of the Securities. An unexpected increase in inflation could reduce the actual returns.

The Securities may be issued at a substantial discount or premium

The market value of Securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing Securities. Generally, the longer the remaining term of the Securities, the greater the price volatility as compared to conventional interest-bearing Securities with comparable maturities.

Modification

The terms and conditions of the Securities contain provisions for calling meetings of Securityholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Securityholders, including Securityholders who did not attend and vote at the relevant meeting and Securityholders who voted in a manner contrary to the majority.

The terms and conditions of the Securities also provide that the Trustee may agree, without the consent of the Securityholders or Couponholders, to (i) any modification of any of the provisions of the Trust Deed or any of the other Issue Documents (as defined in the Trust Deed) which in the opinion of the Trustee is of a formal, minor or technical nature, is made to correct a manifest error or to comply with mandatory provisions of Singapore law or is required by Euroclear and/or Clearstream, Luxembourg and/or the Depository and/or any other clearing system in which the Securities may be held and (ii) any other modification (except as mentioned in the Trust Deed) to the Trust Deed and any of the other Issue Documents, and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Trust Deed or any of the other Issue Documents, which is in the opinion of the Trustee not materially prejudicial to the interests of the Securityholders. Any such modification, authorisation or waiver shall be binding on the Securityholders and the Couponholders and, (in the case of a modification) unless the Trustee otherwise agrees in writing or (in the case of an authorisation or a waiver) if the Trustee shall so require, such modification, authorisation or waiver shall be notified to the Securityholders as soon as practicable thereafter.

The Securities may be represented by Global Securities or Global Certificates and holders of a beneficial interest in a Global Security or Global Certificate must rely on the procedures of the relevant Clearing System (as defined below)

Securities issued under the Programme may be represented by one or more Global Securities or Global Certificates. Such Global Securities or Global Certificates will be deposited with or registered in the name of, or in the name of a nominee of, a Common Depository, CDP and/or such other clearing system (each of Euroclear, Clearstream, Luxembourg, CDP and/or such other clearing system, a “**Clearing System**”). Except in the circumstances described in the relevant Global Security or Global Certificate, investors will not be entitled to receive Definitive Securities or Certificates. The relevant Clearing System will maintain

records of their accountholders in relation to the Global Securities and Global Certificates. While the Securities are represented by one or more Global Securities or Global Certificates, investors will be able to trade their beneficial interests only through the relevant Clearing System.

While the Securities are represented by one or more Global Securities or Global Certificates, the Issuer will discharge its payment obligations under the Securities by making payments to the relevant Clearing System, for distribution to their accountholders or, as the case may be, to the Issuing and Paying Agent for distribution to the holders as appearing in the records of the relevant Clearing System. A holder of a beneficial interest in a Global Security or Global Certificate must rely on the procedures of the relevant Clearing System to receive payments under the relevant Securities. The Issuer bears no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Securities or Global Certificates.

Holders of beneficial interests in the Global Securities and Global Certificates will not have a direct right to vote in respect of the relevant Securities. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant Clearing System to appoint appropriate proxies.

Changes in market interest rates may adversely affect the value of fixed rate Securities

Investment in fixed rate Securities involves the risk that subsequent changes in market interest rates may adversely affect the value of fixed rate Securities.

Exchange rate risks and exchange controls may result in Securityholders receiving less interest, distributions and/or principal than expected

The Issuer will pay principal and interest or distribution on the Securities in the currency specified. This presents certain risks relating to currency conversions if Securityholders' financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the currency in which the Securities are denominated. These include the risk that exchange rates may significantly change (including changes due to devaluation of the currency in which the Securities are denominated or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the currency in which the Securities are denominated would decrease (a) the Investor's Currency equivalent yield on the Securities, (b) the Investor's Currency equivalent value of the principal payable on the Securities, if any, and (c) the Investor's Currency equivalent market value of the Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Securityholders may receive less principal, interest and/or distribution than expected, or no principal, interest and/or distribution at all.

The Securities are not secured

The Securities and Coupons of all Series constitute unsecured obligations of the Issuer. Accordingly, on a winding-up or termination of CRCT at any time prior to maturity of any Securities, the Securityholders will not have recourse to any specific assets of CRCT or any of its subsidiaries (if any), associated companies (if any) and/or joint venture entities (if any) as security for outstanding payment or other obligations under the Securities and/or Coupons owed to the Securityholders and there can be no assurance that there would be sufficient value in the assets of CRCT, after meeting all claims ranking ahead of the Securities, to discharge all outstanding payment and other obligations under the Securities and/or Coupons owed to the Securityholders.

Enforcement against the Issuer is subject to limitations

Securityholders should note that the Securities are issued by the Issuer and not CRCT, as the latter is not a legal entity. Securityholders should note that under the terms of the Securities, Securityholders shall only have recourse to the assets of, or held on trust for, CRCT over which HSBCIT, in its capacity as trustee of CRCT, has recourse and not to any personal or other assets of HSBCIT or any assets held by HSBCIT as trustee of any other trust. Furthermore, Securityholders do not have direct access to the assets of CRCT but may only have recourse to such assets through the Issuer and if necessary seek

to subrogate the Issuer's right of indemnity out of the assets of CRCT, and accordingly, any claim of the Securityholders to such assets is derivative in nature. A Securityholder's right of subrogation could be limited by the Issuer's right of indemnity under the CRCT Trust Deed. Securityholders should also note that such right of indemnity of the Issuer may be limited or lost by virtue of fraud, gross negligence or wilful default of the Issuer or breach of any provisions of the CRCT Trust Deed or breach of trust by the Issuer.

The value of the Securities could be adversely affected by a change in Singapore law or administrative practice

The terms and conditions of the Securities are based on Singapore law in effect as at the date of this Information Memorandum. No assurance can be given as to the impact of any possible judicial decision or change to Singapore law or administrative practice after the date of this Information Memorandum and any such change could materially adversely impact the value of any Securities affected by it.

Performance of contractual obligations by the Issuer is dependent on other parties

The ability of the Issuer to make payments in respect of the Securities may depend upon the due performance by the other parties to the Trust Deed and the Agency Agreement of their obligations thereunder including the performance by the CRCT Manager, the Trustee, the Issuing and Paying Agent, the Transfer Agent, the Registrar and/or the Agent Bank of their respective obligations. Whilst the non-performance of any relevant parties will not relieve the Issuer of its obligations to make payments in respect of the Securities, the Issuer may not, in such circumstances, be able to fulfill its obligations to the Securityholders and Couponholders.

Securityholders should be aware that Securities which have a denomination that is not an integral multiple of the minimum Denomination Amount may be illiquid and difficult to trade

In relation to any issue of Securities which have a denomination consisting of a minimum Denomination Amount (as described in the applicable Pricing Supplement) plus a higher integral multiple of another smaller amount, it is possible that the Securities may be traded in amounts in excess of the minimum Denomination Amount that are not integral multiples of such minimum Denomination Amount. In such a case a Securityholder who, as a result of trading such amounts, holds (in his account with the relevant Clearing System at the relevant time) a principal amount which is less than the minimum Denomination Amount will not receive a Definitive Security or Certificate in respect of such holding (should Definitive Securities or Certificates be printed) and would need to purchase a principal amount of Securities such that it holds an amount equal to one or more Denomination Amounts. Securities which have a denomination that is not an integral multiple of the minimum Denomination Amount may be illiquid and difficult to trade. Definitive Securities will in no circumstances be issued to any person holding Securities in an amount lower than the minimum Denomination Amount and such Securities will be cancelled and holders will have no rights against the Issuer (including rights to receive principal or interest or distribution or to vote or attend meetings of Securityholders) in respect of such Securities.

The Trustee may request Securityholders to provide an indemnity and/or security to its satisfaction

In certain circumstances (including, without limitation, pursuant to Condition 11 of the Notes and Condition 9 of the Perpetual Securities, as the case may be), the Trustee may request Securityholders to provide an indemnity and/or security to its satisfaction before it takes action on behalf of Securityholders. The Trustee shall not be obliged to take any such action if not first indemnified and/or secured to its satisfaction. Negotiating and agreeing to an indemnity and/or security can be a lengthy process and may impact on when such actions can be taken.

The Trustee may not be able to take action, notwithstanding the provision of an indemnity and/or security to it, in breach of the terms of the Trust Deed and in circumstances where there is uncertainty or dispute as to the applicable laws or regulations and, to the extent permitted by the agreements and the applicable law, it will be for the Securityholders to take such action directly.

INVESTMENT CONSIDERATIONS ASSOCIATED WITH INVESTMENT IN THE NOTES

Singapore tax risk

The Notes to be issued from time to time under the Programme during the period from the date of this Information Memorandum to 31 December 2018 are intended to be “qualifying debt securities” for the purposes of the ITA, subject to the fulfillment of certain conditions more particularly described in the section “Singapore Taxation” of this Information Memorandum.

However, there is no assurance that such Notes will continue to enjoy the tax concessions in connection therewith should the relevant tax laws be amended or revoked at any time.

Notes subject to optional redemption by the Issuer may have a lower market value than Notes that cannot be redeemed

An optional redemption feature is likely to limit the market value of the Notes. During any period when the Issuer may elect to redeem the Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem the Notes when its cost of borrowing is lower than the interest rate on the Notes. At such times, Noteholders generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed, and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

INVESTMENT CONSIDERATIONS ASSOCIATED WITH INVESTMENT IN THE PERPETUAL SECURITIES

Perpetual Securities may be issued for which investors have no right to require redemption

The Perpetual Securities are perpetual and have no fixed final maturity date. Perpetual Securityholders have no right to require the Issuer to redeem Perpetual Securities at any time, and an investor who acquires Perpetual Securities may only dispose of such Perpetual Securities by sale. Perpetual Securityholders who wish to sell their Perpetual Securities may be unable to do so at a price at or above the amount they have paid for them, or at all. Therefore, potential investors should be aware that they may be required to bear the financial risks of an investment in Perpetual Securities for an indefinite period of time.

If specified in the relevant Pricing Supplement, Perpetual Securityholders may not receive distribution payments if the Issuer elects not to pay all or a part of a distribution under the terms and conditions of the Perpetual Securities

If Optional Payment is specified in the relevant Pricing Supplement, the Issuer may, at its sole discretion and subject to certain conditions, elect not to pay any scheduled distribution on the Perpetual Securities in whole or in part for any period of time. The Issuer is not subject to any limit as to the number of times or the amount with respect to which the Issuer can elect not to pay distributions under the Perpetual Securities. While the Issuer may, at its sole discretion, and at any time, elect to pay an Optional Distribution, being an optional amount equal to the amount of distribution which is unpaid in whole or in part, there is no assurance that the Issuer will do so, and distributions which are not paid in whole or in part may remain unpaid for an indefinite period of time. Any non-payment of a distribution in whole or in part shall not constitute a default for any purpose. Any election by the Issuer not to pay a distribution in whole or in part, will likely have an adverse effect on the market price of the Perpetual Securities. In addition, as a result of the potential non-cumulative distribution feature of the Perpetual Securities and the Issuer's ability to elect not to pay a distribution in whole or in part, the market price of the Perpetual Securities may be more volatile than the market prices of other debt securities on which original issue discount or interest accrues that are not subject to such election not to pay and may be more sensitive generally to adverse changes in the Issuer's or Group's financial condition.

If specified in the relevant Pricing Supplement, the Perpetual Securities may be redeemed at the Issuer's option at date(s) specified in the relevant Pricing Supplement or on the occurrence of certain other events

The Perpetual Securities are perpetual and have no fixed final redemption date. If specified in the relevant Pricing Supplement, the Perpetual Securities may be redeemed at the option of the Issuer on certain date(s) specified in the relevant Pricing Supplement at their principal amount (or such other redemption amount stated in the relevant Pricing Supplement) together with all outstanding Arrears of Distribution, Additional Distribution Amounts and distribution accrued to (but excluding) the date fixed for redemption. In addition, if specified in the relevant Pricing Supplement, the Issuer may, at its option, redeem the Perpetual Securities in whole, but not in part, on any Distribution Payment Date, or any time after such Distribution Payment Date, upon the occurrence of certain other events. See the section "Terms and Conditions of the Perpetual Securities – Redemption and Purchase" of this Information Memorandum.

The date on which the Issuer elects to redeem the Perpetual Securities may not accord with the preference of individual Perpetual Securityholders. This may be disadvantageous to Perpetual Securityholders in light of market conditions or the individual circumstances of the Perpetual Securityholder. In addition, an investor may not be able to reinvest the redemption proceeds in comparable securities at an effective distribution rate at the same level as that of the Perpetual Securities.

There are limited remedies for non-payment under the Perpetual Securities

Any scheduled distribution will not be due if the Issuer elects not to pay all or a part of that distribution pursuant to the terms and conditions of the Perpetual Securities. Notwithstanding any of the provisions relating to non-payment defaults, the right to institute Winding-Up (as defined in Condition 9(a) of the Perpetual Securities) proceedings in respect of CRCT is limited to circumstances where payment under the Perpetual Securities has become due and the Issuer fails to make the payment in respect of the Perpetual Securities when due and such default continues for a period of three business days. The only remedy against the Issuer available to the Trustee or, where the Trustee has failed to proceed against the Issuer as provided in the terms and conditions of the Perpetual Securities, to any Perpetual Securityholder for recovery of amounts in respect of the Perpetual Securities following the occurrence of a non-payment default after any sum becomes due in respect of the Perpetual Securities will be instituting proceedings for the Winding-Up and/or proving in such Winding-Up and/or claiming in the liquidation of CRCT in respect of any payment obligations of the Issuer and CRCT arising from the Perpetual Securities.

The Issuer may raise or redeem other capital which affects the price of the Perpetual Securities

The Issuer may raise additional capital through the issue of other securities or other means. There is no restriction, contractual or otherwise, on the amount of securities or other liabilities which the Issuer may issue or incur and which rank senior to, or *pari passu* with, the Perpetual Securities. Similarly, subject to compliance with the terms and conditions of the Perpetual Securities, the Issuer may redeem securities that rank junior to, *pari passu* with, or senior to the Perpetual Securities. The issue of any such securities or the incurrence of any such other liabilities or the redemption of any such securities may reduce the amount (if any) recoverable by Perpetual Securityholders on a Winding-Up of CRCT, and may increase the likelihood of a deferral of distribution under the Perpetual Securities. The issue of any such securities or the incurrence of any such other liabilities or the redemption of any such securities might also have an adverse impact on the trading price of the Perpetual Securities and/or the ability of Perpetual Securityholders to sell their Perpetual Securities.

The obligations of the Issuer under the Subordinated Perpetual Securities are subordinated

The Subordinated Perpetual Securities will constitute unsecured and subordinated obligations of the Issuer. Subject to the insolvency laws of Singapore and other applicable laws, in the event of the Winding-Up of CRCT, there shall be payable by the Issuer in respect of each Subordinated Perpetual Security (in lieu of any other payment by the Issuer), such amount, if any, as would have been payable to such Perpetual Securityholder if, on the day prior to the commencement of the Winding-Up of CRCT, and thereafter, such Perpetual Securityholder were the holder of one of a class of preferred units in the capital of CRCT (and if more than one class of preferred units is outstanding, the most junior ranking class of such preferred units) (the "**CRCT Notional Preferred Units**") having an equal right to return of assets in the Winding-Up of CRCT and so ranking *pari passu* with the holders of that class or classes

of preferred units (if any) which have a preferential right to return of assets in the Winding-Up of CRCT, and so rank ahead of the holders of Junior Obligations of the Issuer but junior to the claims of all other present and future creditors of the Issuer (other than Parity Obligations of the Issuer), on the assumption that the amount that such Perpetual Securityholder was entitled to receive in respect of each CRCT Notional Preferred Unit on a return of assets in such Winding-Up of CRCT were an amount equal to the principal amount (and any applicable premium outstanding) of the relevant Subordinated Perpetual Security together with distributions accrued and unpaid since the immediately preceding Distribution Payment Date or the Issue Date (as the case may be) and any unpaid Optional Distributions (as defined in Condition 4(IV)(c) of the Perpetual Securities) in respect of which the Issuer has given notice to the Perpetual Securityholders in accordance with the Conditions of the Perpetual Securities. In the event of a shortfall of funds or a Winding-Up of CRCT, there is a real risk that an investor in the Subordinated Perpetual Securities will lose all or some of its investment and will not receive a full return of the principal amount or any unpaid or accrued distributions.

In addition, subject to the limit on the aggregate principal amount of Securities that can be issued under the Programme (which can be amended from time to time by the Issuer without the consent of the Securityholders), there is no restriction on the amount of unsubordinated securities or other liabilities which the Issuer may issue or incur and which rank senior to, or *pari passu* with, the Subordinated Perpetual Securities. The issue of any such securities or the incurrence of any such other liabilities may reduce the amount (if any) recoverable by holders of Subordinated Perpetual Securities on a Winding-Up of CRCT and/or may increase the likelihood of a non-payment of distribution under the Subordinated Perpetual Securities.

Any future change in the accounting treatment of the Perpetual Securities may entitle the Issuer to redeem such Securities

Any changes or amendments to the Singapore Financial Reporting Standards issued by the Singapore Accounting Standards Council (as amended from time to time, the “**SFRS**”) or any other accounting standards that may replace SFRS for the purposes of the consolidated financial statements of CRCT which results in the Perpetual Securities not being regarded as “equity” of CRCT will allow the Issuer to redeem such Perpetual Securities if so provided in the relevant Pricing Supplement.

The date on which the Issuer elects to redeem the Perpetual Securities may not accord with the preference of individual Perpetual Securityholders. This may be disadvantageous to Perpetual Securityholders in light of market conditions or the individual circumstances of the Perpetual Securityholder. In addition, an investor may not be able to reinvest the redemption proceeds in comparable securities at an effective distribution rate at the same level as that of the Perpetual Securities.

Tax treatment of the Perpetual Securities is unclear

It is not clear whether any particular tranche of the Perpetual Securities (the “**Relevant Tranche of the Perpetual Securities**”) will be regarded as “debt securities” by the IRAS for the purposes of the ITA and whether the tax exemptions or tax concessions available for qualifying debt securities under the qualifying debt securities scheme (as set out in the section “Singapore Taxation” of this Information Memorandum) would apply to the Relevant Tranche of the Perpetual Securities.

If the Relevant Tranche of the Perpetual Securities is not regarded as “debt securities” for the purposes of the ITA and holders thereof are not eligible for the tax concessions under the qualifying debt securities scheme, the tax treatment to Perpetual Securityholders may differ. In addition, in the event that the IRAS does not regard the Relevant Tranche of the Perpetual Securities issued by the Issuer as “debt securities” for Singapore income tax purposes, payments in respect of the Relevant Tranche of the Perpetual Securities (including, without limitation, the distributions, Optional Distributions, Arrears of Distribution and Additional Distribution Amounts) may be subject to Singapore income tax in the same manner as distributions on ordinary units of CRCT, and the Issuer may be obliged (in certain circumstances) to withhold or deduct tax at the prevailing rate (currently 10.0% or 17.0%) under Section 45G of the ITA on such payments. In that event, the Issuer will not pay any additional amounts in respect of any such withholding or deduction from such payments in respect of the Relevant Tranche of the Perpetual Securities in connection therewith for or on account of any such taxes or duties. Perpetual Securityholders are thus advised to consult their own professional advisers regarding the tax treatment of payments made

to them under the Relevant Tranche of Perpetual Securities (including, without limitation, the distributions, Optional Distributions, Arrears of Distribution and Additional Distribution Amounts) including the risk of such payments being subject to Singapore withholding tax.

For further details of the tax treatment of Perpetual Securities, see the section “Singapore Taxation” of this Information Memorandum.

INVESTMENT CONSIDERATIONS ASSOCIATED WITH INVESTMENT IN RENMINBI-DENOMINATED SECURITIES

Securities denominated in RMB (“**RMB Securities**”) may be issued under the Programme. RMB Securities contain particular risks for potential investors.

Renminbi is not freely convertible; there are significant restrictions on remittance of Renminbi into and outside the PRC

Renminbi is not freely convertible at present. The PRC government continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar and U.S. dollar, despite the significant reduction over the years by the PRC government of control over foreign exchange transactions.

On 3 December 2013, the Ministry of Commerce of the PRC (“**MOFCOM**”) promulgated the *Notice on Issues in relation to Cross-border Renminbi Foreign Direct Investment* (the “**MOFCOM RMB FDI Notice**”). Pursuant to the MOFCOM RMB FDI Notice, cross-border Renminbi Foreign Direct Investments (the “**RMB FDIs**”) shall meet the requirements of the PRC laws on foreign investment and comply with the national industrial policies on foreign investment, the relevant provisions on the security review of mergers and acquisitions by foreign investors and the anti-monopoly examination. The MOFCOM RMB FDI Notice also requires that the proceeds of RMB FDI may not be used towards investment in securities, financial derivatives or entrustment loans in the PRC, except for investments in PRC domestic listed companies through private placements or shares transfers by agreement. On 13 October 2011, *Measures on the Administration of Renminbi Settlement for Foreign Direct Investment* (the “**PBOC Measures**”) issued by the People’s Bank of China (“**PBOC**”) and amended on 5 June 2015 set out operating procedures for PRC banks to handle Renminbi settlement relating to RMB FDI and borrowing by foreign invested enterprises of offshore Renminbi loans. Prior to the PBOC Measures, cross-border Renminbi settlement for the RMB FDI required approvals from the PBOC on a case-by-case basis. The new rules replace the PBOC approval requirement with appropriate bank’s examination and a less onerous registration and filing requirement. Under the new rules, commercial banks can remit a foreign investor’s RMB proceeds from distribution (dividends or otherwise) by its PRC subsidiaries out of the PRC after reviewing certain requisite documents.

As the above measures and notices are still relatively new, how they will be applied in practice still remains subject to the interpretation by the relevant PRC authorities.

Subject to obtaining all necessary approvals from and registration with the relevant PRC government authorities (including but not limited to MOFCOM or its local counterparts and foreign exchange administrations), the Issuer may decide to remit the proceeds arising from the issue of the Securities under the Programme into the PRC in Renminbi or other currencies. However, there is no assurance that the necessary approvals from and registration with the relevant PRC government authorities will be obtained on a timely basis, or at all or, if obtained, they will not be revoked or amended in the future.

There is no assurance that the PRC government will continue to gradually liberalise control over cross-border Renminbi remittances in the future or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that the Group is not able to repatriate funds outside the PRC in Renminbi, the Issuer will need to source Renminbi offshore to finance its obligations under the RMB Securities, and its ability to do so will be subject to the overall availability of Renminbi outside the PRC.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of RMB Securities and the Issuer's ability to source Renminbi outside the PRC to service such RMB Securities

As a result of the restrictions by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. Since February 2004, in accordance with arrangements between the PRC central government and the Hong Kong government, licensed banks in Hong Kong may offer limited Renminbi-denominated banking services to Hong Kong residents and specified business customers. The PBOC, the central bank of the PRC, has also established a Renminbi clearing and settlement system for participating banks in Hong Kong. On 19 July 2010, further amendments were made to the Settlement Agreement on the Clearing of Renminbi Business (the "**Settlement Agreement**") between the PBOC and Bank of China (Hong Kong) Limited (the "**RMB Clearing Bank**") to further expand the scope of Renminbi business for participating banks in Hong Kong. Pursuant to the revised arrangements, all corporations are allowed to open Renminbi accounts in Hong Kong; there is no longer any limit (other than as provided in the following paragraph) on the ability of corporations to convert Renminbi; and there will no longer be any restriction on the transfer of Renminbi funds between different accounts in Hong Kong.

However, the current size of Renminbi-denominated financial assets outside the PRC is limited. In addition, participating banks are also required by the Hong Kong Monetary Authority to maintain a total amount of Renminbi (in the form of cash and its settlement account balance with the RMB Clearing Bank) of no less than 25.0% of their Renminbi deposits, which further limits the availability of Renminbi that participating banks can utilise for conversion services for their customers. Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. The RMB Clearing Bank only has access to onshore liquidity support from the PBOC to square open positions of participating banks for limited types of transactions. The RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source Renminbi from the offshore market to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Agreement will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi offshore. The limited availability of Renminbi outside the PRC may affect the liquidity of the Securities. To the extent the Issuer is required to source Renminbi in the offshore market to service the Securities, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

Investment in RMB Securities is subject to exchange rate risks

The value of Renminbi against the U.S. dollar and other foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. All payments of interest or distribution and principal will be made with respect to RMB Securities in Renminbi. If an investor measures its investment returns by reference to a currency other than Renminbi, an investment in the RMB Securities entails foreign exchange related risks, including possible significant changes in the value of Renminbi relative to the currency by reference to which an investor measures its investment returns. Depreciation of the Renminbi against such currency could cause a decrease in the effective yield of the RMB Securities below their stated coupon rates and could result in a loss when the return on the RMB Securities is translated into such currency. In addition, there may be tax consequences for investors as a result of any foreign currency gains resulting from any investment in the Securities.

Payments in respect of RMB Securities will only be made to investors in the manner specified in such RMB Securities

All payments to investors in respect of RMB Securities will solely be made (i) in the case of RMB Securities which are represented by Global Securities, by transfer to a Renminbi bank account maintained in an Offshore Renminbi Centre in accordance with the rules and procedures of the relevant clearing system, or (ii) in the case of RMB Securities which are in definitive form, by transfer to a Renminbi bank account maintained in an Offshore Renminbi Centre in accordance with prevailing rules and regulations, unless payment in Singapore dollars at the Singapore Dollar Equivalent are permitted in the circumstances described in Condition 7(i) of the Notes or, as the case may be, Condition 6(h) of the

Perpetual Securities. Subject to the Conditions, the Issuer cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

Investment in the RMB Securities is subject to currency risk

If the Issuer is not able, or it is impracticable for it, to satisfy its obligation to pay interest (in respect of Notes) or distributions (in respect of Perpetual Securities), as applicable, or principal on the RMB Securities as a result of Illquidity, Inconvertibility, or Non-transferability (each as defined in the relevant Conditions), the Issuer shall be entitled, on giving not less than five or more than 30 days' irrevocable notice to the Securityholders prior to the due date for payment, to settle any such payment (in whole or in part) in Singapore dollars on the due date at the Singapore Dollar Equivalent (as defined in the relevant Conditions) of any such Renminbi denominated account.

Holders of RMB Securities may not receive payments under such RMB Securities in Renminbi

Restrictions imposed by the PRC government from time to time on cross-border Renminbi fund flows and foreign exchange may limit the availability of Renminbi outside of the PRC. To the extent that the Issuer is required to source Renminbi in the offshore market to service and in the final case, redeem its RMB Securities, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all. If Renminbi is not available in certain circumstances as described under the Condition 7(i) of the Notes or, as the case may be, Condition 6(h) of the Perpetual Securities, the Issuer can make payments under such RMB Securities in Singapore dollars instead of Renminbi and any payment made under such circumstances in Singapore dollars will constitute valid payment and will not constitute a default in respect of the Securities.

RISKS RELATING TO CRCT'S GENERAL BUSINESS AND OPERATIONS

Uncertainties and instability in global financial and credit markets may adversely affect CRCT's business, financial condition, results of operations and prospects

The global financial markets have experienced, and may continue to experience, volatility and liquidity disruptions, which have resulted in the consolidation, failure or near failure of a number of institutions in the banking and insurance industries. Concerns, *inter alia*, about the outlook for the economy in China, the implementation and impact of the departure of the United Kingdom from the European Union (Brexit), and the expectations of an interest rate hike in the U.S. have continued to have a significant impact on the global credit and financial markets as a whole. Further, other events, such as the significant volatility and weak outlook in oil prices, have had significant impact not only on the global capital markets associated with asset-backed securities but also on the global credit and financial markets as a whole.

These events could adversely affect CRCT, insofar as they result in:

- a negative impact on the ability of its tenants to pay their rents in a timely manner or to continue their leases, thereby reducing CRCT's cash flow;
- decreases in valuations of the properties in which CRCT has interests ("**CRCT's properties**"), resulting in deteriorating operating cash flow and/or widening capitalisation rates;
- decreases in rental or occupancy rates;
- a general increase in counterparty risk, resulting in defaults, non-payment and non-performance of essential services;
- the insolvency of contractors, resulting in construction delays;
- an increased likelihood that one or more of CRCT's lenders or insurers may be unable to honour their commitments; and
- excessive inflation in China, resulting in a reduction of its real income.

In addition, all the Properties are situated in China, which exposes CRCT to the risk of a downturn in economic and property market conditions in China as a whole. The value of CRCT's properties may be adversely affected by a number of local property market conditions, such as oversupply, the performance of other competing retail properties or reduced demand for retail space. As a result, CRCT's revenues and results of operations depend, to a large extent, on the performance of the economy of China which may be subject to the overall health and performance of the global markets and economies. An economic downturn in China could adversely affect CRCT's business, financial condition, results of operations and future growth.

CRCT operates in a capital intensive industry that relies on the availability of sizeable amounts of capital

CRCT may require additional financing to fund working capital requirements, support the future growth of its business and/or refinance its existing debt obligations. The availability of external financing for CRCT's capital investments depends on many factors outside of its control, including money and capital market conditions and the overall performance of the economies in which it operates or has property investments. In particular, investors should note that the willingness of financial institutions to make capital commitments by way of investing in debt or equity instruments may be adversely affected for prolonged periods of time as a result of various events, as experienced in the past during the global financial crisis, the debt crisis in Europe, and the political instability in the Middle East. CRCT accordingly may face difficulties in raising funds for working capital purposes, to refinance existing debt or to finance future acquisitions of yield-accretive assets. If CRCT does not have sufficient internal cash or external financing on acceptable terms, it may be unable to develop or enhance its portfolio by acquiring assets when the opportunity arises, fund potential asset enhancements and any on-going capital expenditure requirements or to refinance its existing debt as it falls due. Furthermore, future credit facilities may contain covenants that limit CRCT's operating and financing activities and require the creation of security interests over assets. Accordingly, CRCT's ability to meet payment obligations, refinance maturing debt and fund planned capital expenditure may depend solely on the success of its business strategy and its ability to generate sufficient revenue to satisfy its obligations, which are subject to many uncertainties and contingencies beyond its control, including those highlighted herein. As a result, CRCT's business, financial condition, results of operations and prospects may be adversely affected.

There is no assurance that CRCT will be able to implement its investment strategies

The successful implementation of CRCT's investment strategies will entail, *inter alia*, actively managing CRCT's shopping malls, identifying suitable acquisition opportunities and making such acquisitions, undertaking asset enhancement initiatives, securing tenants for CRCT's shopping malls and raising funds in the capital or credit markets. CRCT's ability to successfully implement its strategies is also dependent on various other factors, including but not limited to the competition it faces in its business, which may affect its ability to acquire retail real estate properties and secure tenants on terms acceptable to it, and its ability to retain its key employees. CRCT's ability to expand into China, Hong Kong and Macau is dependent on its ability to adapt its experience and expertise and to understand and navigate the new environment.

CRCT may rely on external sources of funding to expand its portfolio, and there is no assurance that such funding will be available on favourable terms or at all. Even if CRCT were able to complete additional property investments successfully, there is no assurance that CRCT will achieve its intended return on such investments.

Since the amount of debt CRCT can incur to finance acquisitions is limited, such acquisitions may be dependent on CRCT's ability to raise equity capital. Potential vendors may also view the necessity of raising equity capital to fund any such purchase negatively and may prefer other potential purchasers.

There can be no assurance that CRCT will be able to implement all or any of its investment strategies, and the failure to do so may materially adversely affect its business, financial condition, results of operations and prospects.

CRCT may not be able to manage its growth successfully

There can be no assurance that CRCT will be able to grow successfully. CRCT's ability to achieve future growth will depend, *inter alia*, on its ability to acquire, develop or enhance its existing or new shopping malls. CRCT will rely on a combination of internal cash flows and resources and external sources of funding to acquire, develop or enhance its existing or new shopping malls, which may not be available on commercially reasonable terms or at all. Even if CRCT is successful in securing new shopping malls or in developing or enhancing its existing or new shopping malls, there can be no assurance that CRCT will be able to achieve the intended returns or generate the intended revenue from such assets. Furthermore, CRCT may face significant competition from other real estate companies or investors and managers of real estate assets in the acquisition, enhancement and management of shopping malls. There can be no assurance that CRCT will be able to compete effectively, or to secure such opportunities on commercially reasonable terms or at all.

The anticipated future growth in CRCT's business and assets may also challenge its managerial, operational, financial and other resources. The risks associated with CRCT's anticipated future growth include, *inter alia*, the increasing operating complexity of its business and the increasing responsibility of its management. In turn, this will require the continued development of financial and management controls and systems and CRCT's implementation of these systems across its business. Furthermore, CRCT may face additional challenges in ensuring that adequate internal controls and supervisory procedures are in place. If CRCT is unable to successfully manage the impact of CRCT's growth on CRCT's operational and managerial resources and control systems, this could have a material adverse effect on its business, financial condition, results of operations and prospects.

CRCT depends on certain key personnel, and the loss of any key personnel may adversely affect its business, financial condition, results of operations and prospects

CRCT's success depends, in part, upon the continued service and performance of the members of the CRCT Manager's senior management team and certain key senior personnel. These persons may leave the CRCT Manager in the future or compete with it and CRCT. The loss of any of these individuals without suitable and timely replacement could have a material adverse effect on CRCT's business, financial condition, results of operations and prospects.

CRCT is subject to interest rate fluctuations

Some of CRCT's existing debt, and CRCT's future borrowings may, carry floating interest rates. Consequently, the interest cost to CRCT for such loans will be subject to fluctuations in interest rates. There is no certainty that interest rates will not increase to CRCT's detriment and the risk of increase in short-term interest rates may adversely affect the borrowings by CRCT which are pegged to floating rates.

As part of CRCT's active capital management strategies, it has entered into some hedging transactions to partially mitigate the risk of such interest rate fluctuations. However, such hedging, or CRCT's hedging policy, may not adequately cover its exposure to interest rate fluctuations or any increase in interest rates in new loans or refinancing of existing loans.

Consequently, interest rate fluctuations could have a material adverse effect on CRCT's business, financial condition, results of operations and prospects.

CRCT is subject to risks relating to foreign currency exchange rate fluctuations

CRCT receives income and incurs expenses in Renminbi, US dollars and Singapore dollars. CRCT's revenue, property expenses and property values are affected by fluctuations in the exchange rates of the Renminbi. The impact of future exchange rate fluctuations on CRCT's liabilities and property expenses cannot be accurately predicted and some of these currencies may not be readily convertible or exchangeable or may be subject to exchange controls.

There is also the risk that movements in the US dollar/Renminbi exchange rate may adversely affect repayments or repatriation of funds from the PRC to Barbados.

In addition, CRCT's financial statements are presented in Singapore dollars. Exchange rate gains or losses will arise when the assets and liabilities in foreign currencies are translated or exchanged into Singapore dollars for financial reporting. If the foreign currencies depreciate against the Singapore dollar, this may materially adversely affect CRCT's reported financial results.

Regulatory issues and changes in law and accounting standards may have an adverse impact on CRCT's business

CRCT is subject to the usual business risk that there may be changes in laws that reduce its income or increase its property expenses. For example, there could be changes in tenancy laws that limit CRCT's recovery of certain property operating expenses that cannot be recovered from CRCT's tenants, changes in laws that restrict foreign entities from acquiring shopping malls in the PRC or its ability to repatriate its profits offshore in the form of dividends or changes in environmental laws that require significant capital expenditure.

Additionally, new and revised accounting standards and pronouncements may be issued from time to time. The application of such standards and pronouncements to CRCT's financial statements may result in a change in the presentation and measurement of financial information, and thus may result in a change in the way CRCT records its revenues, expenses, assets, liabilities or reserves. CRCT cannot predict the impact of these changes in accounting standards and pronouncements. These changes could adversely affect CRCT's reported financial results and positions and adversely affect the comparability of CRCT's future financial statements with those relating to prior periods.

The property market in China may be volatile

CRCT is subject to property market conditions in China generally and, in particular, the areas where CRCT's properties are located. Private ownership of property in China is still at a relatively early stage of development. Although there is a perception that economic growth in China and the higher standard of living resulting from such growth will lead to a greater demand for properties, it is not possible to predict with certainty that such a correlation exists as many social, economic, political and other factors may affect the development of the property market.

The property market in China may be volatile and may experience oversupply and property price fluctuations. The central and local governments in China may adjust monetary and other economic policies from time to time to prevent and curtail the overheating of China and local economies. Such economic adjustments may affect the property market in the regions where CRCT's properties are located, as well as other parts of China. The central and local governments in China may also make policy adjustments and adopt new regulatory measures from time to time in a direct effort to control the over-development of the property market in China. Such policies may lead to changes in market conditions, including price instability and imbalance of supply and demand, which may materially and adversely affect CRCT's business, financial condition, results of operations and prospects. Moreover, there is no assurance that there will not be over-development in the property sector in the areas where CRCT's properties are located and other parts of China in the future. Any future over-development in the property sector in these areas and other parts of China may result in an oversupply of properties and a fall in property prices as well as rental rates, which could adversely affect CRCT's business, financial condition, results of operations and prospects.

CRCT faces risks associated with debt financing and the debt facilities

CRCT may, from time to time, require additional debt financing to achieve the CRCT Manager's investment strategies.

CRCT will typically distribute at least 90.0% of its distributable income in relation to a distribution period in each financial year. As a result of this distribution policy, CRCT may not be able to meet all of its obligations to repay principal on its debt obligations through its cash flow from operations. As such, CRCT may be required to repay maturing debt with funds from additional debt or equity financing or both.

There can be no assurance that such financing will be available on acceptable terms or at all.

If CRCT, the Issuer or the relevant special purpose project company which is a wholly foreign-owned enterprise or equity joint venture in China whose primary purpose is to hold or own shopping malls located in China (each, a “**Project Company**” and together, the “**Project Companies**”) (depending on whether a loan facility is taken at the trust level or Project Company level), is unable to make payments due under such loan facilities, the relevant lenders may be able to declare an event of default and initiate enforcement proceedings in respect of any security provided in respect of such borrowings and/or call upon the guarantees provided. If CRCT’s property is mortgaged to secure payment of indebtedness and the Issuer or the relevant Project Company is unable to meet interest or principal payments, such mortgaged property could be foreclosed by such lenders or such lenders could require a forced sale of the mortgaged property with a consequent loss of income and asset value to CRCT.

In addition, CRCT may be subject to certain covenants in connection with any future borrowings that may limit or otherwise adversely affect the operations of the Project Companies or such other special purpose vehicles (the “**SPVs**”). Such covenants may restrict CRCT’s ability to acquire properties or the ability of the Project Companies to undertake capital expenditures or may require them to set aside funds for maintenance or repayment of security deposits.

If principal amounts due for repayment at maturity cannot be refinanced, extended or paid with proceeds of other capital transactions, such as new equity capital, CRCT will not be able to pay distributions at expected levels or to repay all maturing debt. Further, if prevailing interest rates or other factors at the time of refinancing result in higher interest rates upon refinancing, the interest expense relating to such refinanced indebtedness would increase, thereby adversely affecting CRCT’s cash flow.

The amount CRCT may borrow is limited, which may affect the operations of CRCT

Under the Property Funds Appendix, CRCT is permitted to borrow up to 45.0% of the value of all the assets of CRCT, including the Properties and all the authorised investments of CRCT for the time being held or deemed to be held upon the trusts under the CRCT Trust Deed (the “**Deposited Property**”) at the time the borrowing is incurred. A decline in the value of the Deposited Property may affect CRCT’s ability to make further borrowings.

CRCT may face adverse business consequences as a result of this limitation on borrowings, and these may include:

- an inability to fund capital expenditure requirements in relation to CRCT’s existing portfolio or in relation to the acquisition by CRCT of further properties to expand its portfolio; and
- cash flow shortages (including with respect to making distributions) which CRCT might otherwise be able to resolve by borrowing funds.

CRCT may have a higher level of leverage than certain other types of unit trusts

CRCT may have a higher level of borrowings as compared to certain other types of unit trusts, such as non-specialised collective investment schemes which invest in equities and/or fixed income instruments. Investment risk is known to increase with higher leverage. An increase in leverage will subject CRCT to the risk of changing economic climate. For example, in a climate of rising interest rates, the costs of financing of CRCT’s investments (including indebtedness) will increase and this could in turn adversely affect the CRCT Manager’s ability to effectively carry out its strategies.

The CRCT Manager’s planned asset enhancement initiatives may not materialise

The CRCT Manager may from time to time plan asset enhancement initiatives on some of CRCT’s properties. However, there is no assurance that such proposed plans for asset enhancement will materialise, or in the event that they materialise, that the proposed plans will achieve their desired results or will not incur significant costs unnecessarily.

CRCT's strategy of investing primarily in retail assets may entail a higher level of risk compared to other types of unit trusts that have a more diverse range of investments

CRCT's principal strategy is to invest in a diversified portfolio of income-producing real estate used primarily for retail purposes and located primarily in China, Hong Kong and Macau. As such, CRCT will be subject to risks inherent in concentrating on investments in a single industry. The level of risk could be higher compared to other types of unit trusts that have a more diverse range of investments.

A concentration of investments in a portfolio of such specific real estate assets primarily in China exposes CRCT to both a downturn in the retail real estate industry and in China. Any economic slowdown in China could negatively affect the performance of the retail market. A lagging economy could lead to retrenchments and job losses which could in turn lead to a reduction in consumer spending.

The renewal of leases in CRCT's operating shopping malls will depend, in part, upon the success of the tenants. Any decline in the overall retail sector may cause higher levels of non-renewals of leases or vacancies as a result of failures or defaults by tenants or the market pressures exerted by an increase in available retail space. There can be no assurance that the tenants of CRCT's operating shopping malls will renew their leases or that the new lease terms will be as favourable as the existing leases. In the event that a tenant does not renew its lease, a replacement tenant or tenants would need to be identified.

This could subject CRCT's operating shopping malls to periods of vacancy and/or costly re-fittings, during which periods CRCT could experience reductions in rental income. Such downturns may have an adverse impact on the results of operations and the financial condition of CRCT.

CRCT is exposed to various types of taxes in China, Barbados and Singapore

The income and gains derived by CRCT, directly or indirectly, from its investments in real estate in China are exposed to various types of taxes in China, Barbados and Singapore. These include property tax, income tax, withholding tax, capital gains tax and other taxes specifically imposed for the ownership of such assets. While the CRCT Manager intends to manage the taxation in each of these countries efficiently, there can be no assurance that the desired tax outcome will necessarily be achieved. In addition, the level of taxation in each of these countries is subject to changes in laws and regulations, and changes which lead to an increase in tax rates or the introduction of new taxes could adversely affect and erode the returns from CRCT's investments.

CRCT may incur losses arising from claims brought against the Project Companies in connection with the operations of CRCT's properties

In addition to ownership of or, as the case may be, having a master lease over the Properties, each Project Company currently employs or is expected to employ personnel to provide certain operational services in relation to the relevant Property, which will include certain property management, retail management and financial services. There is no assurance that claims will not be brought against the Project Companies for damage, losses or injuries suffered by the employees of the Project Companies or by third parties in connection with the provision of such services. Any significant claims which are not covered by CRCT's insurance policies may materially and adversely affect its business, financial condition and results of operations.

The CRCT Manager may change CRCT's investment strategy

CRCT's policies with respect to certain activities, including investments and acquisitions, will be determined by the CRCT Manager, subject to applicable laws and regulations. While the CRCT Manager has stated its intention to invest in a diversified portfolio of income-producing real estate used primarily for retail purposes and located primarily in China, Hong Kong and Macau, the CRCT Trust Deed gives the CRCT Manager wide powers to invest in other types of assets, including any real estate, real estate-related assets as well as listed and unlisted securities in China and other jurisdictions. There are risks and uncertainties with respect to the selection of investments and with respect to the investments themselves.

There may be potential conflicts of interests between CRCT, the CRCT Manager and CapitaLand Limited and its subsidiaries and associates

As at the Latest Practicable Date, CapitaLand Limited, through its subsidiaries and associates, has an aggregate indirect interest in 355,226,968 Units, which is equivalent to approximately 39.39% of the existing Units in issue. As a result, the overall interests of CapitaLand Limited may influence the strategy and activities of CRCT. Further, CapitaLand Limited may also exercise influence over the activities of CRCT through the CRCT Manager, which is a wholly-owned subsidiary of CapitaLand Limited.

CapitaLand Limited, through its subsidiaries and associates, is engaged in the development of real estate products and services. Its diversified global real estate portfolio includes, amongst others, integrated developments and shopping malls. Some of these properties in its real estate portfolio which are located in China may compete directly with CRCT's properties for tenants. Further, CapitaLand Limited, its subsidiaries and/or its associates may in the future invest in or sponsor other REITs which may also compete directly with CRCT.

RISKS RELATING TO CRCT'S PROPERTIES

CRCT faces risks relating to the quality and extent of the title to or interests in the properties in its portfolio

The quality, nature and extent of the title to the land and properties in CRCT's portfolio of property interests varies depending on a number of factors, including:

- the location of the property;
- the laws and regulations that apply to the property;
- the stage of development of the property;
- the extent to which the contract pursuant to which the property interest was acquired has been performed, the extent to which the terms and conditions thereunder have been complied with, and the amount of the purchase consideration which has been paid;
- the extent of compliance by CRCT or any other relevant party (including previous owners, the vendor of the property and the entity in which CRCT has invested that has acquired or is acquiring the property) with all relevant laws and regulations relating to the ownership, use, sale, development or construction of the property;
- the manner under which the interest in the property is held, whether through a joint venture or asset-backed securities, or pursuant to a development agreement, a master lease, an option to purchase or a sale and purchase agreement, or otherwise;
- in the case where the property interests are leasehold interests, the extent of compliance by CRCT or any other relevant party (including previous lessees or lessors, the vendor of the property and the entity in which CRCT has invested that has acquired or is acquiring the property) with the terms and conditions of the state or head lease or any other document under which the title of the property is derived; and
- the capacity, power, authority and general creditworthiness of the counterparties to the contractual and other arrangements through which CRCT has acquired its interest in the property.

As some of CRCT's current and future property interests may be derived through or subject to various contractual arrangements, these property interests may be subject to, and dependent on, (i) the legality, validity, binding effect and enforceability of the relevant contracts, (ii) the performance and observance of the terms and conditions set out in the contracts by the parties thereto, (iii) the capacity, power, authority and creditworthiness of such parties, (iv) the fulfilment of any conditions precedent to the parties' obligations under the contracts, and (v) compliance by the parties with all relevant laws and regulations relating to the sale, development and construction of the relevant properties.

There can be no assurance (a) that the legality, validity, binding effect and enforceability of the contractual arrangements from which CRCT derives its property interests will not be challenged, (b) that the conditions precedent stated in the contract will be fulfilled or (c) that the parties to the contract (including the entities in which it has invested that may be parties to the contract) will perform and comply with the terms thereof and will not have disagreements among each other in respect of the interpretation and implementation of the contract. If any of these events occur, CRCT's interest in the property and the value thereof may be adversely affected.

The execution of a sale and purchase agreement may be subject to regulatory approvals and agreement among the parties to the terms of the sale and purchase agreement, and other conditions. In the event a sale and purchase agreement is not executed, the deposit may be returned or may be forfeited, which may have an adverse effect on CRCT's business, financial condition, results of operations and prospects.

The limitations described above on the quality, nature and extent of the title to the land and properties in CRCT's portfolio of property interests impact CRCT's ability to deal with and have control over CRCT's property interests, and the conditions under which CRCT may own, develop, operate or manage the properties. There can be no assurance that the quality, nature and extent of the title to CRCT's property interests will not be challenged or adversely impacted or will not adversely affect its ability to deal with its property interests and in turn the value of its investment in these properties.

The properties in which CRCT has interests are currently located in China, and the extent and quality of title depends on the laws of that jurisdiction. As such, there is potential for dispute over the quality, existence and nature of the title purchased from previous land owners or property owners. In addition, CRCT may be engaged in protracted negotiations each time it acquires land or property, which may result in purchases of property (and thereby the obtaining of title) being delayed or not proceeding in the event that negotiations are unsuccessful. In addition, title insurance is not generally available in China, and CRCT's property interests are not covered by title insurance. In the event CRCT is not able to obtain, or there is a delay in obtaining, clear title to the land and properties it has an interest in, or CRCT's claim to title is the subject of a dispute, CRCT's business, financial condition, results of operations and prospects may be adversely affected.

The properties held by CRCT may be revalued downwards

The uncertain global economy may cause CRCT's property values to fluctuate, and this in turn may have an adverse impact on its business, results of operations, financial condition and prospects. There can be no assurance that property prices in China will not decrease such that a downward revaluation of CRCT's properties is required.

Real estate assets are inherently difficult to value. As a result, valuations are subject to substantial uncertainty and subjective judgments and are made on the basis of assumptions which may not be correct. Additionally, the inspections of CRCT's properties and other work undertaken in connection with a valuation exercise may not identify all material defects, breaches of contracts, laws and regulations, and other deficiencies and factors that could affect the valuation. There can be no assurance that CRCT's property interests will retain the price at which it may be valued or that CRCT's investment in such properties will be realised at the valuations or property values it has recorded or reflected in its financial statements.

Due diligence on CRCT's properties may not identify all material defects, breaches of laws and regulations and other deficiencies

There is no assurance that CRCT's reviews, surveys or inspections (or the relevant review, survey or inspection reports on which it has relied) would have revealed all defects or deficiencies affecting the properties in which it has interests or manages, including defects in the title thereof. As such, these properties may have defects or deficiencies requiring repair or maintenance (including design, construction or other latent property or equipment defects in such properties which may require additional capital expenditure, special repair or maintenance expenses) or be affected by breaches of laws and regulations. The costs or liabilities arising from such defects, deficiencies or breaches of laws and regulations may involve significant and potentially unpredictable patterns and levels of expenditure. These could in turn have a material adverse effect on CRCT's earnings and cash flow.

The representations, warranties and indemnities granted in favour of CRCT by the vendors of CRCT's properties may be subject to limitations as to their scope and as to the amount and timing of claims which can be made. Additionally, the time frame for such claims to be made may have expired. There is no assurance that CRCT will be entitled to be reimbursed under such representations, warranties and indemnities for any losses or liabilities suffered or incurred by it as a result of its acquisition of these properties.

Potential liability for environmental problems could result in substantial costs

CRCT is subject to a variety of laws and regulations concerning the protection of health and the environment that may require a current or previous owner of real estate to investigate and clean up hazardous or toxic substances on a property. Owners and operators of real estate may be liable for the costs of removal or remediation of certain hazardous substances or other regulated materials on or in such property. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the presence of such substances or materials. The cost of investigation, remediation or removal of these substances may be substantial. CRCT has not provided for such potential obligations in its consolidated financial statements. Environmental laws and regulations may also impose compliance obligations on owners and operators of properties with respect to the management of hazardous substances and other regulated materials. Failure to comply with these laws can result in penalties or other sanctions.

Existing environmental reports and investigations with respect to any of CRCT's properties may not reveal all environmental liabilities, whether owners or operators of the properties had created any material environmental condition not known to CRCT or whether a material environmental condition exists in any one or more of CRCT's properties. There also exists the risk that material environmental conditions, liabilities or compliance concerns may have arisen after the review was completed or may arise in the future. Future laws, ordinances or regulations and future interpretations of existing laws, ordinances or regulations may impose additional material environmental liability.

There can be no assurance that more stringent requirements for environmental protection will not be imposed by the relevant governmental authorities in the future. If CRCT fails to comply with existing or future environmental laws and regulations in the jurisdictions in which it operates or fails to meet the expectations of society with regard to environmental issues, its reputation may be damaged or it may be required to pay penalties or fines or take remedial actions and this could have a material adverse effect on its business, financial condition, results of operations and prospects.

The occurrence of natural or other catastrophes, severe weather conditions or other acts of God, terrorist attacks, other acts of violence or war or adverse political developments may materially disrupt CRCT's operations

There can be no assurance that the occurrence of natural or other catastrophes, severe weather conditions or other acts of God, terrorist attacks, other acts of violence or war or adverse political developments will not materially disrupt CRCT's operations. These factors, which are not within CRCT's control, could potentially have significant effects on the properties and projects in which CRCT has interests, many of which are large, complex buildings or developments that are susceptible to structural damage and failure. The occurrence of such events may also lead to reductions in shopper traffic, loss of income for CRCT's tenants and ultimately, possible defaults on lease payments, resulting in an adverse effect on CRCT's business, financial condition, results of operations and prospects.

The outbreak of an infectious disease or the occurrence of any other serious public health concerns in the countries and/or regions in which CRCT operates could adversely affect CRCT's business, financial condition, results of operations and prospects

An outbreak of infectious diseases or the occurrence of any serious public health concerns in the countries and/or regions in which CRCT operates could adversely affect CRCT's business, financial condition, results of operations and prospects. As most of CRCT's activities are concentrated in the PRC, the outbreak of an infectious disease in the PRC or in the regions in which CRCT operates, together with any resulting restrictions on travel and/or imposition of quarantines, could have a negative impact on the economies and business activities in the PRC or the affected regions, and thereby adversely impact the business, financial condition, results of operations and prospects of CRCT.

CRCT is exposed to operating risks of the retail real estate industry

CRCT's financial performance is influenced by conditions in the retail real estate market in the countries in which it operates. Such markets and/or individual properties have historically been, and could in the future be, adversely affected by any of the following:

- cyclical downturns arising from changes in general and local economic conditions;
- periodic oversupply of shopping malls;
- the recurring need for renovation, refurbishment and improvement of the shopping malls;
- increases in interest rates and inflation;
- weaknesses in the national, regional and local economies;
- the adverse financial condition of some large retail companies;
- changes in wages, prices, energy costs and construction and maintenance costs that may result from inflation, government regulations, changes in interest rates or currency fluctuations;
- availability of financing for operating or capital requirements;
- consolidation of retail operators in the retail sector;
- strikes, work stoppages and labour-related disputes;
- changes in consumer spending patterns;
- changes in consumer preference in relation to property design and interior decoration or location;
- unemployment levels;
- an increase in consumer purchases from mail-order or internet purchases and a consequent reduction in demand for retail space in commercial properties;
- competition from warehouse and outlet stores and competitors with new business models;
- transportation infrastructure developments in new areas;
- extreme weather conditions or acts of terrorism;
- any changes in taxation and zoning laws; and
- adverse government regulation.

The retail real estate industry is highly competitive

CRCT's properties compete for tenants with numerous developers, owners and managers of shopping malls, many of which own properties similar to, or which compete with, CRCT's. This competition may affect the occupancy rates and rental rates of, as well as the shopper traffic to, CRCT's properties. The competition may result in CRCT having to lower its rental rates or incur additional capital expenditure to improve the properties. The competitive business environment among retailers in the markets in which CRCT operates may also have a detrimental effect on tenants' businesses and, consequently, their ability to pay rent. CRCT also competes with other real estate companies and insurance funds for property acquisitions and property-related investments. An inability to compete effectively could affect CRCT's ability to grow and thus adversely affect CRCT's business, financial condition, results of operations and prospects.

CRCT's properties may be subject to increases in operating and other costs

CRCT's business, financial condition, results of operations and prospects could be adversely affected if the operating and other costs relating to its properties increase without a corresponding increase in revenue. Factors which could increase operating and other costs include:

- increases in property tax assessments and other statutory charges;
- changes in statutory laws, regulations or government policies which increase the cost of compliance with such laws, regulations or policies;
- increases in sub-contracted service costs;
- increases in labour costs;
- increases in repair and maintenance costs;
- increases in the rate of inflation;
- increases in insurance premiums; and
- increases in cost of utilities.

Renovation, asset enhancement works, physical damage or latent building or equipment defects to CRCT's properties may disrupt the operations of such properties and the collection of rental income or otherwise result in an adverse impact on CRCT's financial condition

The quality and design of a shopping mall has an influence on the demand for space in, and the rental rates of, the property, as well as its ability to attract strong shopper traffic. CRCT's properties may need to undergo renovation or asset enhancement works from time to time to retain their attractiveness to tenants as well as shoppers and may also require unforeseen *ad hoc* maintenance or repairs in respect of faults or problems that may develop or because of new planning laws or regulations. The costs of maintaining a retail property and the risk of unforeseen maintenance or repair requirements tend to increase over time as the building ages. The business and operations of the properties may suffer some disruption and it may not be possible to collect the full rate of (or any) rental income on space affected by such renovation works. Shopper traffic may also be adversely affected by such renovation and/or repair works.

In addition, physical damage to CRCT's properties resulting from fire or other causes and design, construction or other latent defects in such properties may lead to additional capital expenditure, special repair or maintenance expenditure, business interruption, or payment of damages or other obligations to third parties. These may in turn result in an adverse impact on CRCT's business, financial condition, results of operations and prospects.

CRCT is subject to third-party litigation risk by visitors, contractors and tenants of its shopping malls which could result in significant liabilities and damage its reputation

In general, as owner and/or manager of CRCT's properties, CRCT is exposed to the risk of litigation or claims by visitors, contractors and tenants of its shopping malls. Such litigation or claims may arise for a variety of reasons, including (i) any accidents or injuries that may be suffered by visitors, contractors and tenants while at its properties, (ii) CRCT's tenants' inability to enjoy the use of the properties in accordance with the terms of their lease and (iii) CRCT's failure to perform any of its obligations under any lease, construction or other contracts or agreements entered into with contractors, tenants or other third parties. If CRCT is required to bear all or a portion of the costs arising out of litigation or investigations as a result of inadequate insurance proceeds, this may have a material adverse effect on its business, financial condition, results of operations and prospects.

As Beijing Hualian Group Investment Holding Co., Ltd. and its subsidiaries and associates (the “Beijing Hualian Group”) is the master lessee of CapitaMall Erqi and the anchor tenant of three of the Properties, CRCT will accordingly, be dependent on the Beijing Hualian Group for a significant source of its income

CapitaMall Erqi has been leased to the Beijing Hualian Group under a master lease agreement and the Beijing Hualian Group is also an anchor tenant of CapitaMall Wangjing, CapitaMall Xizhimen and CapitaMall Saihan. As the Beijing Hualian Group is the sole tenant of CapitaMall Erqi, rental payments for CapitaMall Erqi will depend solely on the ability of the Beijing Hualian Group to make rental payments. Further, as the Beijing Hualian Group is the anchor tenant of CapitaMall Wangjing, CapitaMall Xizhimen and CapitaMall Saihan, the aggregate rental of these malls will be affected by the ability of the Beijing Hualian Group to make rental payments.

The prospects of the Beijing Hualian Group’s other businesses, aside from those relating to CRCT, could also impact on its ability to make rental payments to CRCT.

Factors that affect the ability of the Beijing Hualian Group to meet its obligations include, but are not limited to:

- the financial position of the Beijing Hualian Group;
- local economic conditions;
- local competitors and competition in the China retail industry;
- unfavourable publicity;
- material losses in excess of insurance proceeds; and
- a possibility of union activities disrupting the operations of the Properties in which the Beijing Hualian Group operates, severely impacting its reputation and ability to function normally.

There can be no assurance that the Beijing Hualian Group will have sufficient assets, income and access to financing to enable it to satisfy its obligations towards CRCT under the master lease agreement and leases.

The Beijing Hualian Group may not renew its master lease of CapitaMall Erqi or its leases at CapitaMall Wangjing, CapitaMall Xizhimen and CapitaMall Saihan

There is no assurance that the Beijing Hualian Group will renew its master lease of CapitaMall Erqi, or its leases at CapitaMall Wangjing, CapitaMall Xizhimen and CapitaMall Saihan, upon the expiry of such leases. Should the Beijing Hualian Group elect not to renew its leases with CRCT, there is no assurance that CRCT will be able to locate a suitable replacement master lessee or lessee (as the case may be) for the relevant Properties in a timely manner and on satisfactory terms, if at all.

The failure by the Beijing Hualian Group to renew such leases, or the termination by the Beijing Hualian Group of any of such leases, may have a material adverse effect on CRCT’s Gross Rent (as defined below), carpark income and other income (collectively, “**Gross Revenue**”).

The loss of key tenants of any of CRCT’s properties or a downturn in the businesses of CRCT’s key tenants could have an adverse effect on its financial conditions and results of operations.

Based on all current leases in respect of the Properties as at 31 December 2016 including letters of offer which are to be followed up with tenancy agreements to be signed by the parties as at 31 December 2016, the 10 largest tenants of the Properties (in terms of their contributions to the total rental income) accounted for approximately 23.6% of the total base rental income (after rent rebates, refunds, credit or discounts and rebates for rent-free periods, where applicable, but excluding turnover rent), and service charge payable by tenants which, unless expressly stated, excludes advertising and promotion levy and turnover rent (“**Gross Rent**”) of the Properties.

Accordingly, CRCT's financial condition and results of operations may be adversely affected by the bankruptcy, insolvency or downturn in the businesses of one or more of these tenants, as well as the decision by one or more of these tenants not to renew its lease or to terminate its lease before it expires. The CRCT Manager expects that CRCT will continue to be dependent upon these tenants for a significant portion of its Gross Revenue. If a key tenant terminates its lease or does not renew its lease at expiry, it may be difficult to secure replacement tenants at short notice or on similar tenancy terms. In addition, the amount of rent and the terms on which lease renewals and new leases are agreed may be less favourable than current leases.

The loss of key tenants in any one of CRCT's properties could result in periods of vacancy, which could therefore adversely affect the revenue of the relevant property, consequently impacting the Project Companies' and the SPVs' ability to make distributions to CRCT.

CapitaRetail Dragon Mall (Shanghai) Co., Ltd. ("CapitaRetail Dragon") may not be able to transfer its rights under the master lease to a third party and is subject to further restrictions

Under the terms of the master lease between Shanghai Jin Qiu (Group) Co., Ltd ("Jin Qiu") and CapitaRetail Dragon, CapitaRetail Dragon may only transfer its rights under such master lease to a third party with the written approval of Jin Qiu. In the event that there is any appreciation in the value of CapitaMall Qibao, CRCT, through CapitaRetail Dragon, may not be able to enjoy such appreciation in value by transferring its rights under the master lease to a third party, if no written approval is obtained from Jin Qiu for the transfer of CapitaRetail Dragon's rights under the master lease to the third party.

CRCT is subject to the risk of non-renewal, non-replacement or early termination of leases

If a large number of tenants in CRCT's properties do not renew their leases at the end of a lease cycle or a significant number of early terminations occur, and replacement tenants cannot be found, there is likely to be a material adverse effect on these properties, which could affect CRCT's business, financial condition, results of operations and prospects.

CRCT's properties may face increased competition from future retail developments in China

The retail property industry is competitive and may become increasingly so. Each of the Properties is located in an area that has other competing shopping malls and may also compete with shopping malls in China that may be developed in the future. The income from, and market value of, CRCT's properties will be largely dependent on the ability of these properties to compete against other shopping malls in China in attracting and retaining tenants. An increase in the number of competitive shopping malls in China, particularly in the areas where CRCT's properties are located, could have a material adverse effect on the revenue of the properties, as such increased competition may adversely impact the ability of the lessees or master lessees of the properties to make rental payments.

Furthermore, the increase in popularity of e-commerce in China may cause a decline in profits for brick-and-mortar businesses, which could lead to a decrease in demand for retail space. This may have an adverse effect on the demand and the rental rates for CRCT's properties and adversely affect CRCT's business, financial condition, results of operations and prospects.

Amenities and transportation infrastructure near CRCT's properties may be closed or relocated

The proximity of amenities and transportation infrastructure such as train stations and bus interchanges to CRCT's properties provide convenient access to these properties and a constant flow of shopper traffic. There is no assurance that the amenities and transportation infrastructure and shuttle services will not be closed, relocated or terminated in the future. Such closure, relocation or termination may adversely affect the accessibility of the properties which will reduce the flow of shopper traffic to the properties. This may then have an adverse effect on the demand and the rental rates for the properties and adversely affect CRCT's business, financial condition, results of operations and prospects.

A substantial number of the leases of the Properties (not under master leases) are for terms of two to three years, which exposes the Properties to significant rates of lease expiries each year

A substantial number of the leases for the Properties are for terms of two to three years, which reflects the general practice in the China retail property market. As a result, the Properties experience lease cycles in which a substantial number of such leases expire each year. This exposes CRCT to certain risks, including the risk that vacancies following the non-renewal of leases may lead to reduced occupancy rates, which will in turn reduce CRCT's Gross Revenue.

CRCT's properties or parts thereof may be compulsorily acquired by the Chinese government

The Chinese government has the power to compulsorily acquire any land in China for public interest pursuant to the provisions of applicable legislation. In the event of any compulsory acquisition of property in China, the amount of compensation to be awarded is based on the open market value of a property and is assessed on the basis prescribed in the relevant laws and regulations. If any of CRCT's properties were compulsorily acquired by the Chinese government, the level of compensation paid to CRCT through the relevant Project Companies pursuant to this basis of calculation may be less than the price which CRCT, through the relevant Project Companies, paid for such properties.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions which, subject to completion and amendment and as supplemented or varied in accordance with the provisions of the relevant Pricing Supplement, will be endorsed on the Notes in definitive form (if any) issued in exchange for the Global Security(ies) or the Global Certificate(s) representing each Series. 2. No Exchange of Notes and Transfers of Registered Notes

(a) No Exchange of Notes

Registered Notes may not be exchanged for Bearer Notes. Bearer Notes of one Denomination Amount may not be exchanged for Bearer Notes of another Denomination Amount. Bearer Notes may not be exchanged for Registered Notes.

(b) Transfer of Registered Notes

Subject to Conditions 2(e) and 2(f) below, one or more Registered Notes may be transferred upon the surrender (at the specified office of the Registrar or any other Transfer Agent) of the Certificate representing such Registered Notes to be transferred, together with the form of transfer endorsed on such Certificate (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer) duly completed and executed and any other evidence as the Registrar or such other Transfer Agent may require to prove the title of the transferor and the authority of the individuals that have executed the form of transfer. In the case of a transfer of part only of a holding of Registered Notes represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor. All transfers of Registered Notes and entries on the Register will be made subject to the detailed regulations concerning transfers of Registered Notes scheduled to the Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar, the Transfer Agent and the Trustee. A copy of the current regulations will be made available by the Registrar, at the cost and expense of the Issuer, to any Noteholder upon request.

(c) Exercise of Options or Partial Redemption or Purchase in Respect of Registered Notes

In the case of an exercise of the Issuer’s or Noteholders’ option in respect of, or a partial redemption of or purchase of, a holding of Registered Notes represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed or purchased. In the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any other Transfer Agent. In the case of a transfer of Registered Notes to a person who is already a holder of Registered Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding.

(d) Delivery of New Certificates

Each new Certificate to be issued pursuant to Condition 2(b) or 2(c) shall be available for delivery within seven business days of receipt of the form of transfer or Exercise Notice (as defined in Condition 6(e)) and surrender of the Certificate for exchange. Delivery of the new Certificate(s)

shall be made at the specified office of the Registrar or such other Transfer Agent (as the case may be) to whom delivery or surrender of such form of transfer, Exercise Notice or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the relevant form of transfer, Exercise Notice or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to the Registrar or the relevant Transfer Agent the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(d) only, “**business day**” means a day (other than a Saturday, Sunday or gazetted public holiday) on which banks are open for business in the place of the specified office of the Registrar or the other relevant Transfer Agent (as the case may be).

(e) Transfers Free of Charge

Transfers of Notes and Certificates on registration, transfer, exercise of an option or partial redemption (as applicable) shall be effected without charge by or on behalf of the Issuer, the Registrar or the other Transfer Agents, but upon payment by the Noteholder of any tax or other governmental charges that may be imposed in relation to it (or the giving by the Noteholder of such indemnity and/or security and/or prefunding as the Registrar or the other relevant Transfer Agent may require) in respect of tax or charges.

(f) Closed Periods

No Noteholder may require the transfer of a Registered Note to be registered (i) during the period of 15 days prior to any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 6(d), (ii) after any such Note has been called for redemption or (iii) during the period of seven days ending on (and including) any Record Date (as defined in Condition 7(b)(ii)).

3. Status

The Notes and Coupons of all Series constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any preference or priority among themselves, and *pari passu* with all other present and future unsecured obligations (other than subordinated obligations and priorities created by law) of the Issuer from time to time outstanding.

4. Negative Pledge

The Issuer has covenanted that, so long as any of the Notes remains outstanding (as defined in the Trust Deed), it will not, and will procure that none of the Principal Subsidiaries (as defined in Condition 10) will create or have outstanding any security (“**Subsequent Security**”) over any Existing Secured Assets (as defined below), which ranks in point of priority, completely after the security created over such Existing Secured Asset, except for any security created or outstanding with the prior consent in writing of the Trustee or the Noteholders by way of an Extraordinary Resolution(as defined in the Trust Deed).

In these Conditions, “**Existing Secured Asset**” means any of the undertaking, assets, property or revenues or rights to receive dividends of the Issuer and/or the Principal Subsidiaries over which a first ranking security by way of an assignment and/or a charge and/or mortgage exists at the time of creation of the Subsequent Security over such undertaking, assets, property or revenues.

For the avoidance of doubt, nothing in this Condition 4 shall prohibit:

- (a) any new first ranking security to be created over any Existing Secured Asset (whether in connection with a refinancing or otherwise) provided that the security over such Existing Secured Asset is discharged contemporaneously with the creation of such new security; and
- (b) any first ranking security over any units or shares in any company, trust or other entity which are not secured notwithstanding that the undertaking, assets, property or revenues belonging to such company, trust or entity may be secured.

5. (I) **Interest on Fixed Rate Notes**

(a) **Interest Rate and Accrual**

Each Fixed Rate Note bears interest on its outstanding principal amount from (and including) the Interest Commencement Date in respect thereof and as shown on the face of such Note at the rate per annum (expressed as a percentage) equal to the Interest Rate shown on the face of such Note payable in arrear on each Interest Payment Date or Interest Payment Dates shown on the face of such Note in each year and on the Maturity Date shown on the face of such Note if that date does not fall on an Interest Payment Date.

The first payment of interest will be made on the Interest Payment Date next following the Interest Commencement Date (and if the Interest Commencement Date is not an Interest Payment Date, will amount to the Initial Broken Amount shown on the face of such Note), unless the Maturity Date falls before the date on which the first payment of interest would otherwise be due. If the Maturity Date is not an Interest Payment Date, interest from the preceding Interest Payment Date (or from the Interest Commencement Date, as the case may be) to the Maturity Date will amount to the Final Broken Amount shown on the face of the Note.

Interest will cease to accrue on each Fixed Rate Note from the due date for redemption thereof unless, upon due presentation and subject to the provisions of the Trust Deed, payment of principal (or Redemption Amount, as the case may be) is improperly withheld or refused, in which event interest at such rate will continue to accrue (as well after as before judgment) at the rate and in the manner provided in this Condition 5(I) to the Relevant Date (as defined in Condition 8).

(b) **Calculations**

In the case of a Fixed Rate Note, interest in respect of a period of less than one year will be calculated on the Day Count Fraction shown on the face of the Note. The amount of interest payable per Calculation Amount (as defined in Condition 5(II)(e)) for any Fixed Rate Interest Period in respect of any Fixed Rate Note shall be calculated by multiplying the product of the Interest Rate and the Calculation Amount, by the Day Count Fraction shown on the face of the Note and rounding the resultant figure to the nearest sub-unit of the Relevant Currency.

For the purposes of these Conditions, “**Fixed Rate Interest Period**” means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date.

(II) **Interest on Floating Rate Notes or Variable Rate Notes**

(a) **Interest Payment Dates**

Each Floating Rate Note or Variable Rate Note bears interest on its outstanding principal amount from the Interest Commencement Date in respect thereof and as shown on the face of such Note, and such interest will be payable in arrear on each interest payment date (“**Interest Payment Date**”). Such Interest Payment Date(s) is/are either shown hereon as Specified Interest Payment Date(s) or, if no Specified Interest Payment Date(s) is/are shown hereon, Interest Payment Date shall mean each date which (save as mentioned in these Conditions) falls the number of months specified as the Interest Period (as defined below) on the face of the Note (the “**Specified Number of Months**”) after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date (and which corresponds numerically with such preceding Interest Payment Date or the Interest Commencement Date, as the case may be), provided that the Agreed Yield (as defined in Condition 5(II)(c)) in respect of any Variable Rate Note for any Interest Period relating to that Variable Rate Note shall be payable on the first day of that Interest Period. If any Interest Payment Date referred to in these Conditions that is

specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a business day (as defined below), then if the Business Day Convention specified is (1) the Floating Rate Business Day Convention, such date shall be postponed to the next day which is a business day unless it would thereby fall into the next calendar month, in which event (i) such date shall be brought forward to the immediately preceding business day and (ii) each subsequent such date shall be the last business day of the month in which such date would have fallen had it not been subject to adjustment, (2) the Following Business Day Convention, such date shall be postponed to the next day that is a business day, (3) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a business day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding business day or (4) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding business day.

The period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date is herein called an “**Interest Period**”.

Interest will cease to accrue on each Floating Rate Note or Variable Rate Note from the due date for redemption thereof unless, upon due presentation and subject to the provisions of the Trust Deed, payment of the Redemption Amount is improperly withheld or refused, in which event interest will continue to accrue (as well after as before judgment) at the rate and in the manner provided in this Condition 5(II) to the Relevant Date.

(b) Rate of Interest - Floating Rate Notes

- (i) Each Floating Rate Note bears interest at a floating rate determined by reference to a Benchmark as stated on the face of such Floating Rate Note, being (in the case of Notes which are denominated in Singapore dollars) SIBOR (in which case such Note will be a SIBOR Note) or Swap Rate (in which case such Note will be a Swap Rate Note) or in any other case (or in the case of Notes which are denominated in a currency other than Singapore dollars) such other Benchmark as is set out on the face of such Note.

Such floating rate may be adjusted by adding or subtracting the Spread (if any) stated on the face of such Note. The “**Spread**” is the percentage rate per annum specified on the face of such Note as being applicable to the rate of interest for such Note. The rate of interest so calculated shall be subject to Condition 5(V)(a) below.

The rate of interest payable in respect of a Floating Rate Note from time to time is referred to in these Conditions as the “**Rate of Interest**”.

- (ii) The Rate of Interest payable from time to time in respect of each Floating Rate Note will be determined by the Agent Bank on the basis of the following provisions:
 - (1) in the case of Floating Rate Notes which are SIBOR Notes:
 - (A) the Agent Bank will, at or about the Relevant Time on the relevant Interest Determination Date in respect of each Interest Period, determine the Rate of Interest for such Interest Period which shall be the offered rate for deposits in Singapore dollars for a period equal to the duration of such Interest Period which appears on the Reuters Screen ABSIRFIX01 Page under the caption “ABS SIBOR FIX – SIBOR AND SWAP OFFER RATES – RATES AT 11:00HRS SINGAPORE TIME” and under the column headed “SGD SIBOR” (or such other replacement page thereof for the purpose of displaying SIBOR or such other Screen Page (as defined below) as may be provided hereon) and as adjusted by the Spread (if any);

- (B) if on any Interest Determination Date no such rate appears on the Reuters Screen ABSIRFIX01 Page under the column headed “SGD SIBOR” (or such other replacement page as aforesaid) or if the Reuters Screen ABSIRFIX01 Page (or such other replacement page as aforesaid) is unavailable for any reason, the Agent Bank will request the principal Singapore offices of each of the Reference Banks to provide the Agent Bank with the rate at which deposits in Singapore dollars are offered by it at approximately the Relevant Time on the Interest Determination Date to prime banks in the Singapore interbank market for a period equivalent to the duration of such Interest Period commencing on such Interest Payment Date in an amount comparable to the aggregate principal amount of the relevant Floating Rate Notes. The Rate of Interest for such Interest Period shall be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of such offered quotations and as adjusted by the Spread (if any), as determined by the Agent Bank;
 - (C) if on any Interest Determination Date, two but not all the Reference Banks provide the Agent Bank with such quotations, the Rate of Interest for the relevant Interest Period shall be determined in accordance with (B) above on the basis of the quotations of those Reference Banks providing such quotations; and
 - (D) if on any Interest Determination Date, one only or none of the Reference Banks provides the Agent Bank with such quotation, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Agent Bank determines to be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the prime lending rates for Singapore dollars quoted by the Reference Banks at or about the Relevant Time on such Interest Determination Date and as adjusted by the Spread (if any);
- (2) in the case of Floating Rate Notes which are Swap Rate Notes:
- (A) the Agent Bank will, at or about the Relevant Time on the relevant Interest Determination Date in respect of each Interest Period, determine the Rate of Interest for such Interest Period as being the rate which appears on the Reuters Screen ABSFIX01 Page under the caption “SGD SOR rates as of 11:00hrs London Time” and under the column headed “SGD SOR” (or such replacement page thereof for the purpose of displaying the swap rates of leading reference banks) at or about the Relevant Time on such Interest Determination Date and for a period equal to the duration of such Interest Period and as adjusted by the Spread (if any);
 - (B) if on any Interest Determination Date no such rate is quoted on the Reuters Screen ABSFIX01 Page (or such other replacement page as aforesaid) or the Reuters Screen ABSFIX01 Page (or such other replacement page as aforesaid) is unavailable for any reason, the Agent Bank will determine the Rate of Interest for such Interest Period as being the rate (or, if there is more than one rate which is published, the arithmetic mean of those rates (rounded up, if necessary, to the nearest 1/16 per cent.)) for a period equal to the duration of such Interest Period published by a recognised industry body where such rate is widely used (after taking into account the industry practice at that time), or by such other relevant authority as may be agreed between the Agent Bank and the Issuer and as adjusted by the Spread (if any); and
 - (C) if on any Interest Determination Date the Agent Bank is otherwise unable to determine the Rate of Interest under paragraph (b)(ii)(2)(B) above or if no agreement on the relevant authority is reached between the Agent Bank and the Issuer under paragraph (b)(ii)(2)(B) above, the

Rate of Interest shall be determined by the Agent Bank to be the rate per annum equal to the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the rates quoted by the Singapore offices of the Reference Banks or those of them (being at least two in number) to the Agent Bank at or about 11.00 a.m. (Singapore time) on the first business day following such Interest Determination Date as being their cost (including the cost occasioned by or attributable to complying with reserves, liquidity, deposit or other requirements imposed on them by any relevant authority or authorities) of funding, for the relevant Interest Period, an amount equal to the aggregate principal amount of the relevant Floating Rate Notes for such Interest Period by whatever means they determine to be most appropriate and as adjusted by the Spread (if any), or if on such day one only or none of the Singapore offices of the Reference Banks provides the Agent Bank with such quotation, the Rate of Interest for the relevant Interest Period shall be the rate per annum equal to the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the prime lending rates for Singapore dollars quoted by the Singapore offices of the Reference Banks at or about 11.00 a.m. (Singapore time) on such Interest Determination Date and as adjusted by the Spread (if any); and

(3) in the case of Floating Rate Notes which are not SIBOR Notes or Swap Rate Notes or which are denominated in a currency other than Singapore dollars, the Agent Bank will determine the Rate of Interest in respect of any Interest Period at or about the Relevant Time on the Interest Determination Date in respect of such Interest Period as follows:

(A) if the Primary Source (as defined below) for the Floating Rate Notes is a Screen Page, subject as provided below, the Rate of Interest in respect of such Interest Period shall be:

(aa) the Relevant Rate (as defined below) (where such Relevant Rate on such Screen Page is a composite quotation or is customarily supplied by one entity); or

(bb) the arithmetic mean of the Relevant Rates of the persons whose Relevant Rates appear on that Screen Page, in each case appearing on such Screen Page at the Relevant Time on the Interest Determination Date,

and as adjusted by the Spread (if any);

(B) if the Primary Source for the Floating Rate Notes is Reference Banks or if paragraph (b)(ii)(3)(A)(aa) applies and no Relevant Rate appears on the Screen Page at the Relevant Time on the Interest Determination Date or if paragraph (b)(ii)(3)(A)(bb) applies and fewer than two Relevant Rates appear on the Screen Page at the Relevant Time on the Interest Determination Date, subject as provided below, the Rate of Interest shall be the rate per annum which the Agent Bank determines to be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the Relevant Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre (as defined below) at the Relevant Time on the Interest Determination Date and as adjusted by the Spread (if any); and

(C) if paragraph (b)(ii)(3)(B) applies and the Agent Bank determines that fewer than two Reference Banks are so quoting Relevant Rates, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date.

- (iii) On the last day of each Interest Period, the Issuer will pay interest on each Floating Rate Note to which such Interest Period relates at the Rate of Interest for such Interest Period.
- (iv) For the avoidance of doubt, in the event that the Rate of Interest as determined in accordance with the foregoing in relation to any Interest Period is less than zero, the Rate of Interest in relation to such Interest Period shall be equal to zero.

(c) Rate of Interest – Variable Rate Notes

- (i) Each Variable Rate Note bears interest at a variable rate determined in accordance with the provisions of this paragraph (c). The interest payable in respect of a Variable Rate Note on the first day of an Interest Period relating to that Variable Rate Note is referred to in these Conditions as the “**Agreed Yield**” and the rate of interest payable in respect of a Variable Rate Note on the last day of an Interest Period relating to that Variable Rate Note is referred to in these Conditions as the “**Rate of Interest**”.
- (ii) The Agreed Yield or, as the case may be, the Rate of Interest payable from time to time in respect of each Variable Rate Note for each Interest Period shall, subject as referred to in paragraph (c)(iv) below, be determined as follows:
 - (1) not earlier than 9.00 a.m. (Singapore time) on the ninth business day nor later than 3.00 p.m. (Singapore time) on the third business day prior to the commencement of each Interest Period, the Issuer and the Relevant Dealer (as defined below) shall endeavour to agree on the following:
 - (A) whether interest in respect of such Variable Rate Note is to be paid on the first day or the last day of such Interest Period;
 - (B) if interest in respect of such Variable Rate Note is agreed between the Issuer and the Relevant Dealer to be paid on the first day of such Interest Period, an Agreed Yield in respect of such Variable Rate Note for such Interest Period (and, in the event of the Issuer and the Relevant Dealer so agreeing on such Agreed Yield, the Interest Amount (as defined below) for such Variable Rate Note for such Interest Period shall be zero); and
 - (C) if interest in respect of such Variable Rate Note is agreed between the Issuer and the Relevant Dealer to be paid on the last day of such Interest Period, a Rate of Interest in respect of such Variable Rate Note for such Interest Period (an “**Agreed Rate**”) and, in the event of the Issuer and the Relevant Dealer so agreeing on an Agreed Rate, such Agreed Rate shall be the Rate of Interest for such Variable Rate Note for such Interest Period; and
 - (2) if the Issuer and the Relevant Dealer shall not have agreed either an Agreed Yield or an Agreed Rate in respect of such Variable Rate Note for such Interest Period by 3.00 p.m. (Singapore time) on the third business day prior to the commencement of such Interest Period, or if there shall be no Relevant Dealer during the period for agreement referred to in (1) above, the Rate of Interest for such Variable Rate Note for such Interest Period shall automatically be the rate per annum equal to the Fall Back Rate (as defined below) for such Interest Period.

- (iii) The Issuer has undertaken to the Issuing and Paying Agent and the Agent Bank that it will as soon as possible after the Agreed Yield or, as the case may be, the Agreed Rate in respect of any Variable Rate Note is determined but not later than 10.30 a.m. (Singapore time) on the next following business day:
- (1) notify the Issuing and Paying Agent and the Agent Bank of the Agreed Yield or, as the case may be, the Agreed Rate for such Variable Rate Note for such Interest Period; and
 - (2) cause such Agreed Yield or, as the case may be, Agreed Rate for such Variable Rate Note to be notified by the Issuing and Paying Agent to the relevant Noteholder at its request.
- (iv) For the purposes of sub-paragraph (ii) above, the Rate of Interest for each Interest Period for which there is neither an Agreed Yield nor Agreed Rate in respect of any Variable Rate Note or no Relevant Dealer in respect of the Variable Rate Note(s) shall be the rate (the "**Fall Back Rate**") determined by reference to a Benchmark as stated on the face of such Variable Rate Note(s), being (in the case of Variable Rate Notes which are denominated in Singapore dollars) SIBOR (in which case such Variable Rate Note(s) will be SIBOR Note(s)) or Swap Rate (in which case such Variable Rate Note(s) will be Swap Rate Note(s)) or (in any other case or in the case of Variable Rate Notes which are denominated in a currency other than Singapore dollars) such other Benchmark as is set out on the face of such Variable Rate Note(s).

Such rate may be adjusted by adding or subtracting the Spread (if any) stated on the face of such Variable Rate Note. The "**Spread**" is the percentage rate per annum specified on the face of such Variable Rate Note as being applicable to the rate of interest for such Variable Rate Note. The rate of interest so calculated shall be subject to Condition 5(V)(a) below.

The Fall Back Rate payable from time to time in respect of each Variable Rate Note will be determined by the Agent Bank in accordance with the provisions of Condition 5(II)(b)(ii) above (*mutatis mutandis*) and references therein to "**Rate of Interest**" shall mean "**Fall Back Rate**".

- (v) If interest is payable in respect of a Variable Rate Note on the first day of an Interest Period relating to such Variable Rate Note, the Issuer will pay the Agreed Yield applicable to such Variable Rate Note for such Interest Period on the first day of such Interest Period. If interest is payable in respect of a Variable Rate Note on the last day of an Interest Period relating to such Variable Rate Note, the Issuer will pay the Interest Amount for such Variable Rate Note for such Interest Period on the last day of such Interest Period.
- (vi) For the avoidance of doubt, in the event that the Rate of Interest as determined in accordance with the foregoing in relation to any Interest Period is less than zero, the Rate of Interest in relation to such Interest Period shall be equal to zero.

(d) Minimum Rate of Interest

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with Condition 5(II)(b) or Condition 5(II)(c) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

(e) **Definitions**

As used in these Conditions:

“Benchmark” means the rate specified as such in the applicable Pricing Supplement;

(III) Interest on Hybrid Notes

(a) Interest Rate and Accrual

Each Hybrid Note bears interest on its outstanding principal amount from the Interest Commencement Date in respect thereof and as shown on the face of such Note.

(b) Fixed Rate Period

- (i) In respect of the Fixed Rate Period shown on the face of such Note, each Hybrid Note bears interest on its outstanding principal amount from the first day of the Fixed Rate Period at the rate per annum (expressed as a percentage) equal to the Interest Rate shown on the face of such Note payable in arrear on each Interest Payment Date or Interest Payment Dates shown on the face of the Note in each year and on the last day of the Fixed Rate Period if that date does not fall on an Interest Payment Date.
- (ii) The first payment of interest will be made on the Interest Payment Date next following the first day of the Fixed Rate Period (and if the first day of the Fixed Rate Period is not an Interest Payment Date, will amount to the Initial Broken Amount shown on the face of such Note), unless the last day of the Fixed Rate Period falls before the date on which the first payment of interest would otherwise be due. If the last day of the Fixed Rate Period is not an Interest Payment Date, interest from the preceding Interest Payment Date (or from the first day of the Fixed Rate Period, as the case may be,) to the last day of the Fixed Rate Period will amount to the Final Broken Amount shown on the face of the Note.
- (iii) Where the due date of redemption of any Hybrid Note falls within the Fixed Rate Period, interest will cease to accrue on the Note from the due date for redemption thereof unless, upon due presentation and subject to the provisions of the Trust Deed, payment of principal (or Redemption Amount, as the case may be) is improperly withheld or refused, in which event interest at such rate will continue to accrue (as well after as before judgment) at the rate and in the manner provided in this Condition 5(III) to the Relevant Date.
- (iv) In the case of a Hybrid Note, interest in respect of a period of less than one year will be calculated on the Day Count Fraction shown on the face of the Note during the Fixed Rate Period.

(c) Floating Rate Period

- (i) In respect of the Floating Rate Period shown on the face of such Note, each Hybrid Note bears interest on its outstanding principal amount from the first day of the Floating Rate Period, and such interest will be payable in arrear on each interest payment date (“**Interest Payment Date**”). Such Interest Payment Date(s) is/are either shown hereon as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are shown hereon, Interest Payment Date shall mean each date which (save as mentioned in these Conditions) falls the number of months specified as the Interest Period on the face of the Note (the “**Specified Number of Months**”) after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the first day of the Floating Rate Period (and which corresponds numerically with such preceding Interest Payment Date or the first day of the Floating Rate Period, as the case may be). If any Interest Payment Date referred to in these Conditions that is

specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a business day, then if the Business Day Convention specified is (1) the Floating Rate Business Day Convention, such date shall be postponed to the next day which is a business day unless it would thereby fall into the next calendar month, in which event (i) such date shall be brought forward to the immediately preceding business day and (ii) each subsequent such date shall be the last business day of the month in which such date would have fallen had it not been subject to adjustment, (2) the Following Business Day Convention, such date shall be postponed to the next day that is a business day, (3) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a business day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding business day or (4) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding business day.

- (ii) The period beginning on (and including) the first day of the Floating Rate Period and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date is herein called an **"Interest Period"**.
- (iii) Where the due date of redemption of any Hybrid Note falls within the Floating Rate Period, interest will cease to accrue on the Note from the due date for redemption thereof unless, upon due presentation thereof, payment of principal (or Redemption Amount, as the case may be) is improperly withheld or refused, in which event interest will continue to accrue (as well after as before judgment) at the rate and in the manner provided in this Condition 5(III) and the Agency Agreement to the Relevant Date.
- (iv) The provisions of Condition 5(II)(b) shall apply to each Hybrid Note during the Floating Rate Period as though references therein to Floating Rate Notes are references to Hybrid Notes.

(IV) Zero Coupon Notes

Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note (determined in accordance with Condition 6(h)). As from the Maturity Date, the rate of interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as determined in accordance with Condition 6(h)).

(V) Calculations

(a) Determination of Rate of Interest and Calculation of Interest Amounts

The Agent Bank will, as soon as practicable after the Relevant Time on each Interest Determination Date, determine the Rate of Interest and calculate the amount of interest payable (the **"Interest Amounts"**) in respect of each Calculation Amount of the relevant Floating Rate Notes, Variable Rate Notes or (where applicable) Hybrid Notes for the relevant Interest Period. The amount of interest payable per Calculation Amount in respect of any Note shall be calculated by multiplying the product of the Rate of Interest and the Calculation Amount, by the Day Count Fraction shown on the Note and rounding the resultant figure to the nearest sub-unit of the Relevant Currency. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Agent Bank shall (in the absence of manifest error) be final and binding upon all parties.

(b) Notification

The Agent Bank will cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date to be notified to the Issuing and Paying Agent, the Trustee, the Registrar, the other Paying Agents (if any) and the Issuer as soon as

possible after their determination but in no event later than the fourth business day thereafter. In the case of Floating Rate Notes, the Issuing and Paying Agent will at the request and expense of the Issuer also cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date to be notified to Noteholders in accordance with Condition 16 as soon as possible after their determination. The Interest Amounts and the Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period by reason of any Interest Payment Date not being a business day. If the Floating Rate Notes, Variable Rate Notes or, as the case may be, Hybrid Notes become due and payable under Condition 10, the Rate of Interest and Interest Amounts payable in respect of the Floating Rate Notes, Variable Rate Notes or, as the case may be, Hybrid Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest and Interest Amounts need to be made unless the Trustee requires otherwise.

(c) Determination or Calculation by the Trustee

If the Agent Bank does not at any material time determine or calculate the Rate of Interest for an Interest Period or any Interest Amount, the Trustee shall do so. In doing so, the Trustee shall apply the foregoing provisions of this Condition, with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and, in all other respects, it shall do so in such manner as it shall deem fair and reasonable in all the circumstances.

(d) Agent Bank and Reference Banks

The Issuer will procure that, so long as any Floating Rate Note, Variable Rate Note or Hybrid Note remains outstanding, there shall at all times be three Reference Banks (or such other number as may be required) and, so long as any Floating Rate Note, Variable Rate Note, Hybrid Note or Zero Coupon Note remains outstanding, there shall at all times be an Agent Bank. If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank or the Agent Bank is unable or unwilling to act as such or if the Agent Bank fails duly to establish the Rate of Interest for any Interest Period or to calculate the Interest Amounts, the Issuer will appoint another bank with an office in the Relevant Financial Centre to act as such in its place. The Agent Bank may not resign from its duties without a successor having been appointed as aforesaid.

6. Redemption and Purchase

(a) Final Redemption

Unless previously redeemed or purchased and cancelled as provided below, this Note will be redeemed at its Redemption Amount on the Maturity Date shown on its face (if this Note is shown on its face to be a Fixed Rate Note, Hybrid Note (during the Fixed Rate Period) or Zero Coupon Note) or on the Interest Payment Date falling in the Redemption Month shown on its face (if this Note is shown on its face to be a Floating Rate Note, Variable Rate Note or Hybrid Note (during the Floating Rate Period)).

Such Variable Rate Notes may be held, resold or surrendered for cancellation, in the case of Bearer Notes, by surrendering each such Variable Rate Note (together with all unmatured Coupons and unexchanged Talons) to the Issuing and Paying Agent and, in the case of Registered Notes, by surrendering the Certificate representing such Variable Rate Notes to the Registrar. The Variable Rate Notes so purchased, while held by or on behalf of the Issuer, shall not entitle the holder to vote at any meetings of the Noteholders and shall not be deemed to be outstanding for the purposes of calculating quorums at meetings of the Noteholders or for the purposes of Conditions 10, 11 and 12.

Such Notes may be held, resold or surrendered for cancellation, in the case of Bearer Notes, by surrendering such Note (together with all unmatured Coupons and unexchanged Talons) to the Issuing and Paying Agent and, in the case of Registered Notes, by surrendering the Certificate representing such Notes to the Registrar. The Notes so purchased, while held by or on behalf of the Issuer, shall not entitle the holder to vote at any meetings of the Noteholders and shall not be deemed to be outstanding for the purposes of calculating quorums at meetings of the Noteholders or for the purposes of Conditions 10, 11 and 12.

(d) Redemption at the Option of the Issuer

If so provided hereon, the Issuer may, on giving irrevocable notice to the Noteholders falling within the Issuer's Redemption Option Period shown on the face hereof, redeem all or, if so provided, some of the Notes at their Redemption Amount and on the date or dates so provided. Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Issuing and Paying Agent a certificate signed by two duly authorised signatories of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or is likely to become obliged to pay such additional amounts as a result of such change or amendment.

(g) Purchases

The Issuer and/or any of the respective related corporations of the Issuer and CRCT may at any time purchase Notes at any price (provided that they are purchased together with all unmatured Coupons and unexchanged Talons relating to them) in the open market or otherwise, provided that in any such case such purchase or purchases is in compliance with all relevant laws, regulations and directives. - (i) Bearer Notes which comprise Fixed Rate Notes and Hybrid Notes should be surrendered for payment together with all unexpired Coupons (if any) relating to such Notes (and, in the case of Hybrid Notes, relating to interest payable during the Fixed Rate Period), failing which an amount equal to the face value of each missing unexpired Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unexpired Coupon which the sum of principal so paid bears to the total principal due) will be deducted from the Redemption Amount due for payment. Any amount so deducted will be paid in the manner mentioned above against surrender of such missing Coupon within a period of three years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 9).

- (ii) Subject to the provisions of the relevant Pricing Supplement, upon the due date for redemption of any Bearer Notes comprising a Floating Rate Note, Variable Rate Note or Hybrid Note, unmatured Coupons relating to such Note (and, in the case of Hybrid Notes, relating to interest payable during the Floating Rate Period) (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Bearer Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Where any Bearer Note comprising a Floating Rate Note, Variable Rate Note or Hybrid Note is presented for redemption without all unmatured Coupons, and where any Bearer Note is presented for redemption without any unexchanged Talon relating to it (and, in the case of Hybrid Notes, relating to interest payable during the Floating Rate Period), redemption shall be made only against the provision of such indemnity as the Issuer may require.
- (v) If the due date for redemption or repayment of any Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Bearer Note or Certificate.

(f) Talons

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Issuing and Paying Agent on any business day in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 9).

(g) Non-business days

Subject as provided in the relevant Pricing Supplement or subject as otherwise provided in these Conditions, if any date for the payment in respect of any Note or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day and shall not be entitled to any further interest or other payment in respect of any such delay.

(h) Default Interest

If on or after the due date for payment of any sum in respect of the Notes, payment of all or any part of such sum is not made against due presentation of the Notes or, as the case may be, the Coupons, the Issuer shall pay interest on the amount so unpaid from such due date up to the day of actual receipt by the relevant Noteholders or, as the case may be, Couponholders (as well after as before judgment) at a rate per annum determined by the Issuing and Paying Agent to be equal to two per cent. per annum above (in the case of a Fixed Rate Note or a Hybrid Note during the Fixed Rate Period) the Interest Rate applicable to such Note, (in the case of a Floating Rate Note or a Hybrid Note during the Floating Rate Period) the Rate of Interest applicable to such Note or (in the case of a Variable Rate Note) the variable rate by which the Agreed Yield applicable to such Note is determined or, as the case may be, the Rate of Interest applicable to such Note, or in the case of a Zero Coupon Note, as provided for in the relevant Pricing Supplement. So long as the default continues then such rate shall be re-calculated on the same basis at intervals of such duration as the Issuing and Paying Agent may select, save that the amount of unpaid interest at the above rate accruing during the preceding such period shall be added to the amount in respect of which the Issuer is in default and itself bear interest accordingly. Interest at the rate(s) determined in accordance with this paragraph shall be calculated on the Day Count Fraction specified hereon and the actual number of days elapsed, shall accrue on a daily basis and shall be immediately due and payable by the Issuer.

(i) **Payment of Singapore Dollar Equivalent**

Notwithstanding the foregoing, if by reason of Illiquidity, Inconvertibility or Non-transferability, the Issuer is not able to satisfy payments of principal or interest (in whole or in part) in respect of Notes where the Relevant Currency is Renminbi, the Issuer may, on giving not less than five nor more than 30 days' irrevocable notice to the Noteholders prior to the due date for payment, settle any such payment (in whole or in part) in Singapore dollars on the due date at the Singapore Dollar Equivalent of any such Renminbi denominated amount. Payments of the Singapore Dollar Equivalent of the relevant Renminbi denominated amount shall be made by transfer to a Singapore dollar denominated account maintained by the payee with, or by a Singapore dollar denominated cheque drawn on, a bank in Singapore. Any payment made under such circumstances in Singapore dollars will constitute valid payment and will not constitute a default in respect of the Notes.

For the purposes of this Condition 7(i),

"Determination Business Day" means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange) in Singapore;

"Determination Date" means the day which is two Determination Business Days before the due date of the relevant amount under these Conditions;

"Governmental Authority" means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Singapore;

"Illiquidity" means the general Renminbi exchange market in Singapore becomes illiquid as a result of which the Issuer cannot obtain sufficient Renminbi in order to satisfy its obligation to pay interest and principal (in whole or in part) in respect of the Notes as determined by the Issuer in good faith and in a commercially reasonable manner;

"Inconvertibility" means the occurrence of any event that makes it impossible for the Issuer to convert any amount due in respect of the Notes in the general Renminbi exchange market in Singapore, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the date of the agreement for the issue of the Notes and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

"Non-transferability" means the occurrence of any event that makes it impossible for the Issuer to deliver Renminbi between accounts inside Singapore or from an account inside Singapore to an account outside Singapore, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the date of the agreement for the issue of the Notes and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

"Spot Rate" means, for a Determination Date, the spot Renminbi/Singapore dollar exchange rate as determined by the Agent Bank at or around 11.00 a.m. (Singapore time) on such date, and if a spot rate is not readily available, the Agent Bank will determine the rate taking into consideration all available information which the Agent Bank deems relevant, including pricing information obtained from the Renminbi non-deliverable exchange market in Singapore or elsewhere and the PRC domestic foreign exchange market in Singapore.

All determinations made for the purposes of the provisions of this Condition 7(i) by the Agent Bank will (in the absence of wilful default, fraud, gross negligence or manifest error) be binding on the Issuer, the Agents and all holders.

8. Taxation

All payments in respect of the Notes and the Coupons by the Issuer shall be made free and clear of, and without deduction or withholding for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within Singapore or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law. In such event, the Issuer shall pay such additional amounts as will result in the receipt by the Noteholders and the Couponholders of such amounts as would have been received by them had no such deduction or withholding been required, except that no such additional amounts shall be payable in respect of any Note or Coupon presented (or in respect of which the Certificate representing it is presented) for payment:

- (a) by or on behalf of a holder who is subject to such taxes, duties, assessments or governmental charges by reason of his being connected with Singapore otherwise than by reason only of the holding of such Note or Coupon or the receipt of any sums due in respect of such Note or Coupon (including, without limitation, the holder being a resident of, or a permanent establishment in, Singapore);
- (b) more than 30 days after the Relevant Date except to the extent that the holder thereof would have been entitled to such additional amounts on presenting the same for payment on the last day of such period of 30 days; or

No Noteholder or Couponholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become bound to do so, fails or neglects to do so within a reasonable period and such failure or neglect shall be continuing.

12. Meeting of Noteholders and Modifications

The Trust Deed contains provisions for convening meetings of Noteholders of a Series to consider any matter affecting their interests, including modification by Extraordinary Resolution of the Notes of such Series (including these Conditions insofar as the same may apply to such Notes) or any of the provisions of the Trust Deed.

The Trustee or the Issuer at any time may, and the Trustee upon the request in writing by Noteholders holding not less than one-tenth of the principal amount of the Notes of any Series for the time being outstanding shall, convene a meeting of the Noteholders of that Series. An Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders of the relevant Series, whether present or not and on all relevant Couponholders, except that any Extraordinary Resolution proposed, *inter alia*, (a) to amend the dates of maturity or redemption of the Notes or any date for payment of interest or Interest Amounts on the Notes, (b) to reduce or cancel the principal amount of, or any premium payable on redemption of, the Notes, (c) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the

The Trustee may agree, without the consent of the Noteholders or Couponholders, to (i) any modification of any of the provisions of the Trust Deed or any of the other Issue Documents which in the opinion of the Trustee is of a formal, minor or technical nature, is made to correct a manifest error or to comply with mandatory provisions of Singapore law or is required by Euroclear and/or Clearstream, Luxembourg and/or the Depository and/or any other clearing system in which the Notes may be held and (ii) any other modification (except as mentioned in the Trust Deed) to the Trust Deed or any of the other Issue Documents, and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Trust Deed or any of the other Issue Documents, which is in the opinion of the Trustee not materially prejudicial to the interests of the Noteholders. Any such modification, authorisation or waiver shall be binding on the Noteholders and the Couponholders and, (in the case of a modification) unless the Trustee otherwise agrees in writing or (in the case of authorisation or waiver) if the Trustee shall so require, such modification, authorisation or waiver shall be notified to the Noteholders as soon as practicable.

In connection with the exercise of its functions (including but not limited to those in relation to any proposed modification, waiver, authorisation or substitution) the Trustee shall have regard to the interests of the Noteholders as a class and shall not have regard to the consequences of such exercise for individual Noteholders or Couponholders.

These Conditions may be amended, modified, or varied in relation to any Series of Notes by the terms of the relevant Pricing Supplement in relation to such Series.

13. Replacement of Notes, Certificates, Coupons and Talons

If a Note, Certificate, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed it may be replaced, subject to applicable laws, regulations and stock exchange requirements or other relevant authority regulations at the specified office of the Issuing and Paying Agent (in the case of Bearer Notes, Coupons or Talons) and of the Registrar (in the case of Certificates), or at the specified office of such other Paying Agent or Transfer Agent, as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders in accordance with Condition 16, on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, undertaking, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Note, Certificate, Coupon or Talon is subsequently presented for payment, there will be paid to the Issuer on demand the amount payable by the Issuer in respect of such Note, Certificate, Coupon or Talon) and otherwise as the Issuer may require. Mutilated or defaced Notes, Certificates, Coupons or Talons must be surrendered before replacements will be issued.

14. Further Issues

The Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest on them) and so that such further issue shall be consolidated and form a single series with the outstanding notes of any series (including the Notes) or upon such terms as the Issuer may determine at the time of their issue. References in these Conditions to the Notes include (unless the context requires otherwise) any other notes issued pursuant to this Condition 14 and forming a single series with the Notes. Any further notes forming a single series with the outstanding notes of any series (including the Notes) constituted by the

Trust Deed or any deed supplemental to it shall, and any other securities may, be constituted by the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Noteholders and the holders of notes of other series where the Trustee so decides.

15. Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including provisions relieving it from taking proceedings to enforce repayment unless indemnified and/or secured to its satisfaction. The Trust Deed also contains a provision entitling the Trustee to enter into business transactions with the Issuer or any of the respective related corporations of the Issuer and CRCT without accounting to the Noteholders or Couponholders for any profit resulting from such transactions.

16. Notices

Notices to the holders of Registered Notes shall be valid if mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing. Notwithstanding the foregoing, notices to the holders of Notes will be valid if published in a leading newspaper of general circulation in Singapore (or, if the holders of any Series of Notes can be identified, notices to such holders will also be valid if they are given to each of such holders). It is expected that such publication will be made in The Business Times. Notices will, if published more than once or on different dates, be deemed to have been given on the date of the first publication in such newspaper as provided above.

In the case where the Issuer is listed on the SGX-ST or where the Notes are listed on the SGX-ST, notices to the holders of such Notes shall also be valid if made by way of an announcement on the SGX-ST. Any such notice shall be deemed to have been given to the Noteholders on the date on which the said notice was uploaded as an announcement on the SGX-ST. Couponholders shall be deemed for all purposes to have notice of the contents of any notice to the holders of Bearer Notes in accordance with this Condition 16.

So long as the Notes are represented by a Global Security or a Global Certificate and such Global Security or Global Certificate is held in its entirety on behalf of Euroclear, Clearstream, Luxembourg, the Depository and/or any other clearing system, there may be substituted for such publication in such newspapers the delivery of the relevant notice to Euroclear, Clearstream, Luxembourg, (subject to the agreement of the Depository) the Depository and/or such other clearing system for communication by it to the Noteholders, except that if the Notes are listed on the SGX-ST and the rules of such exchange so require, notice will in any event be published in accordance with the first paragraph of this Condition 16. Any such notice shall be deemed to have been given to the Noteholders on the seventh day after the day on which the said notice was given to Euroclear, Clearstream, Luxembourg, the Depository and/or such other clearing system.

Notices to be given by any Noteholder pursuant hereto (including to the Issuer) shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Issuing and Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Certificates). Whilst the Notes are represented by a Global Security or a Global Certificate, such notice may be given by any Noteholder to the Issuing and Paying Agent or, as the case may be, the Registrar through Euroclear, Clearstream, Luxembourg, the Depository and/or such other clearing system in such manner as the Issuing and Paying Agent or, as the case may be, the Registrar and Euroclear, Clearstream, Luxembourg, the Depository and/or such other clearing system may approve for this purpose.

Notwithstanding the other provisions of this Condition, in any case where the identity and addresses of all the Noteholders are known to the Issuer, notices to such holders may be given individually by recorded delivery mail to such addresses and will be deemed to have been given when received at such addresses.

17. Contracts (Rights of Third Parties) Act

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act, Chapter 53B of Singapore.

The Trust Deed, the Notes, the Coupons and the Talons shall be governed by, and shall be construed in accordance with, the laws of Singapore.

(b) Jurisdiction

The courts of Singapore are to have jurisdiction to settle any disputes that may arise out of or in connection with the Trust Deed, the Notes, the Coupons and the Talons and accordingly any legal action or proceedings arising out of or in connection with the Trust Deed, any Notes, Coupons or Talons ("**Proceedings**") may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of such courts and waives any objections to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made for the benefit of each of the Trustee, the Noteholders and the Couponholders and shall not limit the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

These terms and conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed, which includes the form of the Bearer Perpetual Securities, Certificates, Coupons and Talons referred to below. 2. No Exchange of Perpetual Securities and Transfers of Registered Perpetual Securities

(a) No Exchange of Perpetual Securities

Registered Perpetual Securities may not be exchanged for Bearer Perpetual Securities. Bearer Perpetual Securities of one Denomination Amount may not be exchanged for Bearer Perpetual Securities of another Denomination Amount. Bearer Perpetual Securities may not be exchanged for Registered Perpetual Securities.

(b) Transfer of Registered Perpetual Securities

Subject to Conditions 2(e) and 2(f) below, one or more Registered Perpetual Securities may be transferred upon the surrender (at the specified office of the Registrar or any other Transfer Agent) of the Certificate representing such Registered Perpetual Securities to be transferred, together with the form of transfer endorsed on such Certificate (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer) duly completed and executed and any other evidence as the Registrar or such other Transfer Agent may require to prove the title of the transferor and the authority of the individuals that have executed the form of transfer. In the case of a partial exercise of an option resulting in Registered Perpetual Securities of the same holding having different terms, separate Certificates shall be issued in respect of those Perpetual Securities of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any other Transfer Agent. In the case of a transfer of Registered Perpetual Securities to a person who is already a holder of Registered Perpetual Securities, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding.

(d) Delivery of New Certificates

Each new Certificate to be issued pursuant to Condition 2(b) or 2(c) shall be available for delivery within seven business days of receipt of the form of transfer and surrender of the Certificate for exchange. In this Condition 2(d) only, “**business day**” means a day (other than a Saturday, Sunday or gazetted public holiday) on which banks are open for business in the place of the specified office of the Registrar or the other relevant Transfer Agent (as the case may be).

(e) Transfers Free of Charge

Transfers of Perpetual Securities and Certificates on registration, transfer, exercise of an option or partial redemption (as applicable) shall be effected without charge by or on behalf of the Issuer, the Registrar or the other Transfer Agents, but upon payment by the Perpetual Securityholder of any tax or other governmental charges that may be imposed in relation to it (or the giving by the Perpetual Securityholder of such indemnity and/or security and/or prefunding as the Registrar or the other relevant Transfer Agent may require) in respect of tax or charges.

(f) Closed Periods

No Perpetual Securityholder may require the transfer of a Registered Perpetual Security to be registered (i) during the period of 15 days prior to any date on which Perpetual Securities may be called for redemption by the Issuer at its option pursuant to Condition 5(b), (ii) after any such Perpetual Security has been called for redemption or (iii) during the period of seven days ending on (and including) any Record Date (as defined in Condition 6(b)(ii)).

3. Status

(a) Senior Perpetual Securities

This Condition 3(a) applies to Perpetual Securities that are Senior Perpetual Securities (being the Perpetual Securities that specify their status as senior in the applicable Pricing Supplement).

The Senior Perpetual Securities and Coupons relating to them constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any preference or priority among themselves, and *pari passu* with all other present and future unsecured obligations (other than subordinated obligations and priorities created by law) of the Issuer from time to time outstanding.

(b) Subordinated Perpetual Securities

This Condition 3(b) applies to Perpetual Securities that are Subordinated Perpetual Securities (being the Perpetual Securities that specify their status as subordinated in the applicable Pricing Supplement).

(i) Status of Subordinated Perpetual Securities

The Subordinated Perpetual Securities and Coupons relating to them constitute direct, unconditional, subordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any preference or priority among themselves, and *pari passu* with any Parity Obligations of the Issuer. The rights and claims of the Perpetual Securityholders and Couponholders in respect of the Subordinated Perpetual Securities are subordinated as provided in this Condition 3(b).

In these Conditions, “**Parity Obligation**” means any instrument or security (including without limitation any preference units in CRCT) issued, entered into or guaranteed by the Issuer (1) which ranks or is expressed to rank, by its terms or by operation of law, *pari passu* with a CRCT Notional Preferred Unit (as defined below) and (2) the terms of which provide that the making of payments thereon or distributions in respect thereof are fully at the discretion of the Issuer and/or, in the case of an instrument or security guaranteed by the Issuer, the issuer thereof.

(ii) Ranking of claims on Winding-Up

Subject to the insolvency laws of Singapore and other applicable laws, in the event of the Winding-Up (as defined in Condition 9(a)) of CRCT, there shall be payable by the Issuer in respect of each Subordinated Perpetual Security (in lieu of any other payment by the Issuer), such amount, if any, as would have been payable to such Perpetual Securityholder if, on the day prior to the commencement of the Winding-Up of CRCT, and thereafter, such Perpetual Securityholder were the holder of one of a class of preferred units in the capital of CRCT (and if more than one class of preferred units is outstanding, the most junior ranking class of such preferred units) (the “**CRCT Notional Preferred Units**”) having an equal right to return of assets in the Winding-Up of CRCT and so ranking *pari passu* with the holders of that class or classes of preferred units (if any) which have a preferential right to return of assets in the Winding-Up of CRCT, and so rank ahead of the holders of Junior Obligations of the Issuer but junior to the claims of all other present and future creditors of the Issuer (other than Parity Obligations of the Issuer), on the assumption that the amount that such Perpetual Securityholder was entitled to receive in respect of each CRCT Notional Preferred Unit on a return of assets in such Winding-Up of CRCT were an amount equal to the principal amount (and any applicable premium outstanding) of the relevant Subordinated Perpetual Security together with distributions accrued and unpaid since the immediately preceding Distribution Payment Date or the Issue Date (as the case may be) and any unpaid Optional Distributions (as defined in Condition 4(IV)(c)) in respect of which the Issuer has given notice to the Perpetual Securityholders in accordance with these Conditions.

(iii) No set-off

Subject to applicable law, no holder of Subordinated Perpetual Securities or any Coupons relating to them may exercise, claim or plead any right of set-off, deduction, withholding or retention in respect of any amount owed to it by the Issuer in respect of, or arising under or in connection with the Subordinated Perpetual Securities or Coupons relating to them, and each holder of Subordinated Perpetual Securities or any Coupons relating to them shall, by virtue of his holding of any Subordinated Perpetual Securities or Coupons relating to them, be deemed to have waived all such rights of set-off, deduction, withholding or retention against the Issuer. Notwithstanding the preceding sentence, if any of the amounts owing to any holder of Subordinated Perpetual Securities or any Coupons relating to them by the Issuer in respect of, or arising under or in connection with the Subordinated Perpetual Securities or Coupons relating to them is discharged by set-off, such holder of Subordinated Perpetual Securities or any Coupons relating to them shall, subject to applicable law, immediately pay an amount equal to the amount of such discharge to the Issuer (or, in the event of CRCT’s Winding-Up, the liquidator or, as appropriate, administrator of CRCT) and, until such time as payment is made, shall hold such amount in trust for the Issuer (or the liquidator or, as appropriate, administrator of CRCT) and accordingly any such discharge shall be deemed not to have taken place.

4. Distribution and other Calculations

(I) Distribution on Fixed Rate Perpetual Securities

(a) Distribution Rate and Accrual

Each Fixed Rate Perpetual Security confers a right to receive distribution on its outstanding principal amount from (and including) the Distribution Commencement Date in respect thereof and as shown on the face of such Perpetual Security at the rate per annum (expressed as

a percentage) equal to the Distribution Rate shown on the face of such Perpetual Security payable in arrear on each Distribution Payment Date or Distribution Payment Dates shown on the face of such Perpetual Security in each year.

The first payment of distribution will be made on the Distribution Payment Date next following the Distribution Commencement Date (and if the Distribution Commencement Date is not a Distribution Payment Date, will amount to the Initial Broken Amount shown on the face of such Perpetual Security).

Distribution will cease to accrue on each Fixed Rate Perpetual Security from the due date for redemption thereof unless, upon due presentation and subject to the provisions of the Trust Deed, payment of principal (or Redemption Amount, as the case may be) is improperly withheld or refused, in which event distribution at such rate will continue to accrue (as well after as before judgment) at the rate and in the manner provided in this Condition 4(l) to the Relevant Date (as defined in Condition 7).

(b) Distribution Rate

The Distribution Rate applicable to each Fixed Rate Perpetual Security shall be:

- (i) (if no Reset Date is specified in the applicable Pricing Supplement),
 - (1) if no Step-Up Margin is specified in the applicable Pricing Supplement, the rate shown on the face of such Perpetual Security; or
 - (2) if a Step-Up Margin is specified in the applicable Pricing Supplement, (A) for the period from (and including) the Distribution Commencement Date to (but excluding) the Step-Up Date specified in the applicable Pricing Supplement, the rate shown on the face of such Perpetual Security and (B) for the period from (and including) the Step-Up Date specified in the applicable Pricing Supplement, the rate shown on the face of such Perpetual Security plus the Step-Up Margin (as specified in the applicable Pricing Supplement); and
- (ii) (if a Reset Date is specified in the applicable Pricing Supplement), (1) for the period from, and including, the Distribution Commencement Date to, but excluding, the First Reset Date specified in the applicable Pricing Supplement, the rate shown on the face of such Perpetual Security and (2) for the period from, and including, the First Reset Date and each Reset Date (as shown in the applicable Pricing Supplement) falling thereafter to, but excluding, the immediately following Reset Date, the Reset Distribution Rate,

provided always that if a Cessation or Suspension of Trading Event (as defined in Condition 5(g)) is specified on the face of such Perpetual Security and a Cessation or Suspension of Trading Event Margin is specified in the applicable Pricing Supplement, in the event that a Cessation or Suspension of Trading Event has occurred, so long as the Issuer has not already redeemed the Perpetual Securities in accordance with Condition 5(g), the then prevailing Distribution Rate shall be increased by the Cessation or Suspension of Trading Event Margin with effect from (and including) the Distribution Payment Date immediately following the date on which the Cessation or Suspension of Trading Event occurred (or, if the Cessation or Suspension of Trading Event occurs on or after the date which is two business days prior to the immediately following Distribution Payment Date, the next following Distribution Payment Date).

For the purposes of these Conditions:

“Reset Distribution Rate” means the Swap Offer Rate or such other Relevant Rate to be specified in the applicable Pricing Supplement with respect to the relevant Reset Date plus the Initial Spread (as specified in the applicable Pricing Supplement) plus the Step-Up Margin (if applicable, as specified in the applicable Pricing Supplement) plus the Cessation or Suspension of Trading Event Margin (if applicable); and

“Swap Offer Rate” means:

- (aa) the rate per annum (expressed as a percentage) notified by the Agent Bank to the Issuer equal to the swap offer rate published by the Association of Banks in Singapore (or such other equivalent body) for a period equal to the duration of the Reset Period specified in the applicable Pricing Supplement on the second business day prior to the relevant Reset Date (the **“Reset Determination Date”**);
- (bb) if on the Reset Determination Date, there is no swap offer rate published by the Association of Banks in Singapore (or such other equivalent body), the Agent Bank will determine the swap offer rate for such Reset Period (determined by the Agent Bank to be the rate per annum equal to the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the rates (excluding the highest and the lowest rates) which appears on the Reuters Screen ABSFIX01 Page under the caption “SGD SOR rates as of 11:00 hrs London Time” and under the column headed “SGD SOR” (or if the Agent Bank determines that such page has ceased to be the commonly accepted page for determining the swap offer rate, such other replacement page as may be specified by the Agent Bank after taking into account the industry practice at that relevant time and the recommendations by the Association of Banks in Singapore (or such other equivalent body)) at the close of business on each of the five consecutive business days prior to and ending on the Reset Determination Date);
- (cc) if on the Reset Determination Date, rates are not available on the Reuters Screen ABSFIX01 Page under the caption “SGD SOR rates as of 11:00 hrs London Time” and under the column headed “SGD SOR” (or if the Agent Bank determines that such page has ceased to be the commonly accepted page for determining the swap offer rate, such other replacement page as may be specified by the Agent Bank after taking into account the industry practice at that relevant time and the recommendations by the Association of Banks in Singapore (or such other equivalent body)) at the close of business on one or more of the said five consecutive business days, the swap offer rate will be the rate per annum notified by the Agent Bank to the Issuer equal to the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the rates which are available in such five-consecutive-business-day period or, if only one rate is available in such five-consecutive-business-day period, such rate; and
- (dd) if on the Reset Determination Date, no rate is available on the Reuters Screen ABSFIX01 Page under the caption “SGD SOR rates as of 11:00 hrs London Time” and under the column headed “SGD SOR” (or if the Agent Bank determines that such page has ceased to be the commonly accepted page for determining the swap offer rate, such other replacement page as may be specified by the Agent Bank after taking into account the industry practice at that relevant time and the recommendations by the Association of Banks in Singapore (or such other equivalent body)) at the close of business in such five-consecutive-business-day period, the Agent Bank will request the principal Singapore offices of the Reference Banks to provide the Agent Bank with quotation(s) of their swap offer rates for a period equivalent to the duration of the Reset Period at the close of business on the Reset Determination Date. The swap offer rate for such Reset Period shall be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of such offered quotations, as determined by the Agent Bank or, if only one of the Reference Banks provides the Agent Bank with such quotation, such rate quoted by that Reference Bank,

provided that, in each case, in the event the Swap Offer Rate is less than zero, the Swap Offer Rate shall be equal to zero.

(c) Calculation of Distribution Rate or Reset Distribution Rate

The Agent Bank will, on the second business day prior to each Fixed Rate Determination Date, calculate the applicable Reset Distribution Rate or (if a Cessation or Suspension of Trading Event has occurred) the applicable Distribution Rate payable in respect of each

Perpetual Security. The determination of any rate, the obtaining of each quotation and the making of each determination or calculation by the Agent Bank shall (in the absence of manifest error) be final and binding upon all parties.

For the purposes of this Condition 4(I)(c), “**Fixed Rate Determination Date**” means each Step-Up Date, each Reset Date or (if a Cessation or Suspension of Trading Event has occurred) the Distribution Payment Date immediately following the date on which the Cessation or Suspension of Trading Event occurred (or if the Cessation or Suspension of Trading Event occurs on or after the date which is two business days prior to the immediately following Distribution Payment Date, the next following Distribution Payment Date).

(d) Publication of Distribution Rate or Reset Distribution Rate

The Agent Bank will cause the applicable Reset Distribution Rate or (if a Cessation or Suspension of Trading Event has occurred or if a Step-Up Margin is specified in the applicable Pricing Supplement) the applicable Distribution Rate to be notified to the Issuing and Paying Agent, the Trustee, the Registrar, the other Paying Agents (if any) and the Issuer as soon as possible after its determination but in no event later than the fourth business day thereafter. The Issuing and Paying Agent shall at the request and expense of the Issuer cause notice of the then applicable Reset Distribution Rate or (if a Cessation or Suspension of Trading Event has occurred) the applicable Distribution Rate to be notified to the Perpetual Securityholders in accordance with Condition 14 as soon as possible after determination thereof. All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 4 by the Agent Bank will (in the absence of manifest error) be binding on the Issuer, the Issuing and Paying Agent, the other Paying Agents, the Registrar, the Transfer Agent, the Trustee and the Perpetual Securityholders and (except as provided in the Agency Agreement) no liability to any such person will attach to the Agent Bank in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

(e) Determination or Calculation by Trustee

If the Agent Bank does not at any material time determine or calculate the applicable Distribution Rate or the applicable Reset Distribution Rate (as the case may be), the Trustee shall do so or otherwise procure the determination or calculation of such Distribution Rate or Reset Distribution Rate. In doing so, the Trustee shall apply the provisions of this Condition 4(I), with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and in all other respects, it shall do so in such manner as it shall deem fair and reasonable in all the circumstances.

(f) Calculations

In the case of a Fixed Rate Perpetual Security, distribution in respect of a period of less than one year will be calculated on the Day Count Fraction shown on the face of the Perpetual Security. The amount of distribution payable per Calculation Amount (as defined in Condition 4(II)(d)) for any Fixed Rate Distribution Period in respect of any Fixed Rate Perpetual Security shall be calculated by multiplying the product of the Distribution Rate or Reset Distribution Rate and the Calculation Amount, by the Day Count Fraction shown on the face of the Perpetual Security and rounding the resultant figure to the nearest sub-unit of the Relevant Currency.

For the purposes of these Conditions, “**Fixed Rate Distribution Period**” means the period beginning on (and including) the Distribution Commencement Date and ending on (but excluding) the first Distribution Payment Date and each successive period beginning on (and including) a Distribution Payment Date and ending on (but excluding) the next succeeding Distribution Payment Date.

(II) Distribution on Floating Rate Perpetual Securities

(a) Distribution Payment Dates

Each Floating Rate Perpetual Security confers a right to receive distribution on its outstanding principal amount from the Distribution Commencement Date in respect thereof and as shown on the face of such Perpetual Security, and such distribution will be payable in arrear on each distribution payment date (“**Distribution Payment Date**”). Such Distribution Payment Date(s) is/are either shown hereon as Specified Distribution Payment Date(s) or, if no Specified Distribution Payment Date(s) is/are shown hereon, Distribution Payment Date shall mean each date which (save as mentioned in these Conditions) falls the number of months specified as the Distribution Period (as defined below) on the face of the Perpetual Security (the “**Specified Number of Months**”) after the preceding Distribution Payment Date or, in the case of the first Distribution Payment Date, after the Distribution Commencement Date (and which corresponds numerically with such preceding Distribution Payment Date or the Distribution Commencement Date, as the case may be). If any Distribution Payment Date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a business day (as defined below), then if the Business Day Convention specified is (1) the Floating Rate Business Day Convention, such date shall be postponed to the next day which is a business day unless it would thereby fall into the next calendar month, in which event (i) such date shall be brought forward to the immediately preceding business day and (ii) each subsequent such date shall be the last business day of the month in which such date would have fallen had it not been subject to adjustment, (2) the Following Business Day Convention, such date shall be postponed to the next day that is a business day, (3) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a business day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding business day or (4) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding business day.

The period beginning on (and including) the Distribution Commencement Date and ending on (but excluding) the first Distribution Payment Date and each successive period beginning on (and including) a Distribution Payment Date and ending on (but excluding) the next succeeding Distribution Payment Date is herein called a “**Distribution Period**”.

Distribution will cease to accrue on each Floating Rate Perpetual Security from the due date for redemption thereof unless, upon due presentation and subject to the provisions of the Trust Deed, payment of the Redemption Amount is improperly withheld or refused, in which event distribution will continue to accrue (as well after as before judgment) at the rate and in the manner provided in this Condition 4(II) to the Relevant Date.

(b) Rate of Distribution - Floating Rate Perpetual Securities

- (i) Each Floating Rate Perpetual Security confers a right to receive distribution on its outstanding principal amount at a floating rate determined by reference to a Benchmark as stated on the face of such Floating Rate Perpetual Security, being (in the case of Perpetual Securities which are denominated in Singapore dollars) SIBOR (in which case such Perpetual Security will be a SIBOR Perpetual Security) or Swap Rate (in which case such Perpetual Security will be a Swap Rate Perpetual Security) or in any other case (or in the case of Perpetual Securities which are denominated in a currency other than Singapore dollars) such other Benchmark as is set out on the face of such Perpetual Security.

Such floating rate may be adjusted by adding or subtracting the Spread (if any) and the Step-Up Spread (if any) stated on the face of such Perpetual Security. The “Spread” and the “Step-Up Spread” are the percentage rate per annum specified on the face of such Perpetual Security as being applicable to the rate of distribution for such Perpetual Security. The rate of distribution so calculated shall be subject to Condition 4(III)(a) below.

The rate of distribution payable in respect of a Floating Rate Perpetual Security from time to time is referred to in these Conditions as the **"Rate of Distribution"**.

- (ii) The Rate of Distribution payable from time to time in respect of each Floating Rate Perpetual Security will be determined by the Agent Bank on the basis of the following provisions:
 - (1) in the case of Floating Rate Perpetual Securities which are SIBOR Perpetual Securities:
 - (A) the Agent Bank will, at or about the Relevant Time on the relevant Distribution Determination Date in respect of each Distribution Period, determine the Rate of Distribution for such Distribution Period which shall be the offered rate for deposits in Singapore dollars for a period equal to the duration of such Distribution Period which appears on the Reuters Screen ABSIRFIX01 Page under the caption "ABS SIBOR FIX - SIBOR AND SWAP OFFER RATES - RATES AT 11:00 HRS SINGAPORE TIME" and under the column headed "SGD SIBOR" (or such other replacement page thereof for the purpose of displaying SIBOR or such other Screen Page (as defined below) as may be provided hereon) and as adjusted by the Spread (if any) and the Step-Up Spread (if any);
 - (B) if on any Distribution Determination Date no such rate appears on the Reuters Screen ABSIRFIX01 Page under the column headed "SGD SIBOR" (or such other replacement page as aforesaid) or if the Reuters Screen ABSIRFIX01 Page (or such other replacement page as aforesaid) is unavailable for any reason, the Agent Bank will request the principal Singapore offices of each of the Reference Banks to provide the Agent Bank with the rate at which deposits in Singapore dollars are offered by it at approximately the Relevant Time on the Distribution Determination Date to prime banks in the Singapore interbank market for a period equivalent to the duration of such Distribution Period commencing on such Distribution Payment Date in an amount comparable to the aggregate principal amount of the relevant Floating Rate Perpetual Securities. The Rate of Distribution for such Distribution Period shall be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of such offered quotations and as adjusted by the Spread (if any) and the Step-Up Spread (if any), as determined by the Agent Bank;
 - (C) if on any Distribution Determination Date, two but not all the Reference Banks provide the Agent Bank with such quotations, the Rate of Distribution for the relevant Distribution Period shall be determined in accordance with (B) above on the basis of the quotations of those Reference Banks providing such quotations; and
 - (D) if on any Distribution Determination Date, one only or none of the Reference Banks provides the Agent Bank with such quotation, the Rate of Distribution for the relevant Distribution Period shall be the rate per annum which the Agent Bank determines to be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the prime lending rates for Singapore dollars quoted by the Reference Banks at or about the Relevant Time on such Distribution Determination Date and as adjusted by the Spread (if any) and the Step-Up Spread (if any);
 - (2) in the case of Floating Rate Perpetual Securities which are Swap Rate Perpetual Securities:
 - (A) the Agent Bank will, at or about the Relevant Time on the relevant Distribution Determination Date in respect of each Distribution Period, determine the Rate of Distribution for such Distribution Period as being

the rate which appears on the Reuters Screen ABSFIX01 Page under the caption "SGD SOR rates as of 11:00hrs London Time" and under the column headed "SGD SOR" (or such replacement page thereof for the purpose of displaying the swap rates of leading reference banks) at or about the Relevant Time on such Distribution Determination Date and for a period equal to the duration of such Distribution Period and as adjusted by the Spread (if any) and the Step-Up Spread (if any);

- (B) if on any Distribution Determination Date no such rate is quoted on the Reuters Screen ABSFIX01 Page (or such other replacement page as aforesaid) or the Reuters Screen ABSFIX01 Page (or such other replacement page as aforesaid) is unavailable for any reason, the Agent Bank will determine the Rate of Distribution for such Distribution Period as being the rate (or, if there is more than one rate which is published, the arithmetic mean of those rates (rounded up, if necessary, to the nearest 1/16 per cent.)) for a period equal to the duration of such Distribution Period published by a recognised industry body where such rate is widely used (after taking into account the industry practice at that time), or by such other relevant authority as may be agreed between the Agent Bank and the Issuer and as adjusted by the Spread (if any) and the Step-Up Spread (if any); and
 - (C) if on any Distribution Determination Date the Agent Bank is otherwise unable to determine the Rate of Distribution under paragraph (b)(ii)(2)(B) above or if no agreement on the relevant authority is reached between the Agent Bank and the Issuer under paragraph (b)(ii)(2)(B) above, the Rate of Distribution shall be determined by the Agent Bank to be the rate per annum equal to the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the rates quoted by the Singapore offices of the Reference Banks or those of them (being at least two in number) to the Agent Bank at or about 11.00 a.m. (Singapore time) on the first business day following such Distribution Determination Date as being their cost (including the cost occasioned by or attributable to complying with reserves, liquidity, deposit or other requirements imposed on them by any relevant authority or authorities) of funding, for the relevant Distribution Period, an amount equal to the aggregate principal amount of the relevant Floating Rate Perpetual Securities for such Distribution Period by whatever means they determine to be most appropriate and as adjusted by the Spread (if any), or if on such day one only or none of the Singapore offices of the Reference Banks provides the Agent Bank with such quotation, the Rate of Distribution for the relevant Distribution Period shall be the rate per annum equal to the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the prime lending rates for Singapore dollars quoted by the Singapore offices of the Reference Banks at or about 11.00 a.m. (Singapore time) on such Distribution Determination Date and as adjusted by the Spread (if any) and the Step-Up Spread (if any);
- (3) in the case of Floating Rate Perpetual Securities which are not SIBOR Perpetual Securities or Swap Rate Perpetual Securities or which are denominated in a currency other than Singapore dollars, the Agent Bank will determine the Rate of Distribution in respect of any Distribution Period at or about the Relevant Time on the Distribution Determination Date in respect of such Distribution Period as follows:
- (A) if the Primary Source (as defined below) for the Floating Rate Perpetual Securities is a Screen Page, subject as provided below, the Rate of Distribution in respect of such Distribution Period shall be:

- (aa) the Relevant Rate (as defined below) (where such Relevant Rate on such Screen Page is a composite quotation or is customarily supplied by one entity); or
- (bb) the arithmetic mean of the Relevant Rates of the persons whose Relevant Rates appear on that Screen Page, in each case appearing on such Screen Page at the Relevant Time on the Distribution Determination Date,

and as adjusted by the Spread (if any) and the Step-Up Spread (if any);

- (B) if the Primary Source for the Floating Rate Perpetual Securities is Reference Banks or if paragraph (b)(ii)(3)(A)(aa) applies and no Relevant Rate appears on the Screen Page at the Relevant Time on the Distribution Determination Date or if paragraph (b)(ii)(3)(A)(bb) applies and fewer than two Relevant Rates appear on the Screen Page at the Relevant Time on the Distribution Determination Date, subject as provided below, the Rate of Distribution shall be the rate per annum which the Agent Bank determines to be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the Relevant Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre (as defined below) at the Relevant Time on the Distribution Determination Date and as adjusted by the Spread (if any) and the Step-Up Spread (if any); and
 - (C) if paragraph (b)(ii)(3)(B) applies and the Agent Bank determines that fewer than two Reference Banks are so quoting Relevant Rates, the Rate of Distribution shall be the Rate of Distribution determined on the previous Distribution Determination Date.
- (iii) On the last day of each Distribution Period, the Issuer will pay distribution on each Floating Rate Perpetual Security to which such Distribution Period relates at the Rate of Distribution for such Distribution Period.
 - (iv) For the avoidance of doubt, in the event that the Rate of Distribution as determined in accordance with the foregoing in relation to any Distribution Period is less than zero, the Rate of Distribution in relation to such Distribution Period shall be equal to zero.

(c) Minimum Rate of Distribution

If the applicable Pricing Supplement specifies a Minimum Rate of Distribution for any Distribution Period, then, in the event that the Rate of Distribution in respect of such Distribution Period determined in accordance with Condition 4(II)(b) above is less than such Minimum Rate of Distribution, the Rate of Distribution for such Distribution Period shall be such Minimum Rate of Distribution.

(III) Calculations

(a) Determination of Rate of Distribution and Calculation of Distribution Amounts

The Agent Bank will, as soon as practicable after the Relevant Time on each Distribution Determination Date, determine the Rate of Distribution and calculate the amount of distribution payable (the “**Distribution Amounts**”) in respect of each Calculation Amount of the relevant Floating Rate Perpetual Securities for the relevant Distribution Period. The amount of distribution payable per Calculation Amount in respect of any Perpetual Security shall be calculated by multiplying the product of the Rate of Distribution and the Calculation Amount, by the Day Count Fraction shown on the Perpetual Security and rounding the resultant figure to the nearest sub-unit of the Relevant Currency. The determination of any

rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Agent Bank shall (in the absence of manifest error) be final and binding upon all parties.

(b) Notification

The Agent Bank will cause the Rate of Distribution and the Distribution Amounts for each Distribution Period and the relevant Distribution Payment Date to be notified to the Issuing and Paying Agent, the Trustee, the Registrar and the Issuer as soon as possible after their determination but in no event later than the fourth business day thereafter. In the case of Floating Rate Perpetual Securities, the Issuing and Paying Agent will at the request and expense of the Issuer also cause the Rate of Distribution and the Distribution Amounts for each Distribution Period and the relevant Distribution Payment Date to be notified to Perpetual Securityholders in accordance with Condition 14 as soon as possible after their determination. The Distribution Amounts and the Distribution Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Distribution Period by reason of any Distribution Payment Date not being a business day. If an Enforcement Event occurs in relation to the Floating Rate Perpetual Securities, the Rate of Distribution and Distribution Amounts payable in respect of the Floating Rate Perpetual Securities shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Distribution and Distribution Amounts need to be made unless the Trustee requires otherwise.

(c) Determination or Calculation by the Trustee

If the Agent Bank does not at any material time determine or calculate the Rate of Distribution for a Distribution Period or any Distribution Amount, the Trustee shall do so. In doing so, the Trustee shall apply the foregoing provisions of this Condition, with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and, in all other respects, it shall do so in such manner as it shall deem fair and reasonable in all the circumstances.

(d) Agent Bank and Reference Banks

The Issuer will procure that, so long as any Floating Rate Perpetual Security remains outstanding, there shall at all times be three Reference Banks (or such other number as may be required) and, so long as any Floating Rate Perpetual Security remains outstanding, there shall at all times be an Agent Bank. If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank or the Agent Bank is unable or unwilling to act as such or if the Agent Bank fails duly to establish the Rate of Distribution for any Distribution Period or to calculate the Distribution Amounts, the Issuer will appoint another bank with an office in the Relevant Financial Centre to act as such in its place. The Agent Bank may not resign from its duties without a successor having been appointed as aforesaid.

(IV) Distribution Discretion

(a) Optional Payment

If Optional Payment is set out hereon, the Issuer may, at its sole discretion, elect not to pay a distribution (or to pay only part of a distribution) which is scheduled to be paid on a Distribution Payment Date by giving notice (an "**Optional Payment Notice**") to the Trustee, the Issuing and Paying Agent and the Perpetual Securityholders (in accordance with Condition 14) not more than 15 nor less than five business days (or such other notice period as may be specified hereon) prior to a scheduled Distribution Payment Date.

If a Dividend Pusher is set out hereon, the Issuer may not elect to defer any distribution if during the Reference Period (as specified in the applicable Pricing Supplement) ending on the day before that scheduled Distribution Payment Date, either or both of the following (each such event a “**Compulsory Distribution Payment Event**”) have occurred:

- (i) a dividend, distribution or other payment has been declared or paid on or in respect of any of the Issuer’s Junior Obligations or (except on a *pro rata* basis) any of the Issuer’s Specified Parity Obligations; or
- (ii) any of the Issuer’s Junior Obligations has been redeemed, reduced, cancelled, bought back or acquired for any consideration or (except on a *pro rata* basis) any of the Issuer’s Specified Parity Obligations has been redeemed, reduced, cancelled, bought back or acquired for any consideration,

in each case, other than (1) in connection with any employee benefit plan or similar arrangements with or for the benefit of the employees, officers, consultants or directors of the Group (as defined in the Trust Deed), (2) as a result of the exchange or conversion of Specified Parity Obligations of the Issuer for Junior Obligations of the Issuer and/or as otherwise specified in the applicable Pricing Supplement.

In these Conditions:

(A) “**Junior Obligation**” means:

- (aa) in respect of Perpetual Securities which are Senior Perpetual Securities, any class of equity capital in CRCT and any other instrument or security issued, entered into or guaranteed by the Issuer (including without limitation any preferred units or subordinated perpetual securities) that ranks or is expressed to rank, by its terms or by operation of law, junior to all unsecured obligations of the Issuer from time to time outstanding; and
- (bb) in respect of Perpetual Securities which are Subordinated Perpetual Securities, any class of equity capital in CRCT and any other instrument or security issued, entered into or guaranteed by the Issuer, other than any instrument or security (including without limitation any preferred units) ranking in priority in payment and in all other respects to the ordinary units of CRCT; and

(B) “**Specified Parity Obligations**” means any instrument or security (including without limitation any preference shares) issued, entered into or guaranteed by the Issuer (aa) which ranks or is expressed to rank, by its terms or by operation of law, *pari passu* with the relevant Perpetual Securities and (bb) the terms of which provide that the making of payments thereon or distributions in respect thereof are fully at the discretion of the Issuer and/or, in the case of an instrument or security guaranteed by the Issuer, the issuer thereof.

If Dividend Pusher is set out hereon, each Optional Payment Notice shall be accompanied, in the case of the notice to the Trustee and the Issuing and Paying Agent, by a certificate signed by two duly authorised signatories of the Issuer confirming that no Compulsory Distribution Payment Event has occurred during the relevant Reference Period. Any such certificate shall be conclusive evidence that no Compulsory Distribution Payment Event has occurred during the relevant Reference Period and the Trustee and the Issuing and Paying Agent shall be entitled to rely without any obligation to verify the same and without liability to any Perpetual Securityholder or any other person on any Optional Payment Notice or any certificate as aforementioned. Each Optional Payment Notice shall be conclusive and binding on the Perpetual Securityholders.

(b) No Obligation to Pay

If Optional Payment is set out hereon and subject to Condition 4(IV)(c) and Condition 4(IV)(d), the Issuer shall have no obligation to pay any distribution on any Distribution Payment Date and any failure to pay a distribution in whole or in part shall not constitute a default of the Issuer in respect of the Perpetual Securities.

(c) Non-Cumulative Deferral and Cumulative Deferral

- (i) If Non-Cumulative Deferral is set out hereon, any distribution deferred pursuant to this Condition 4(IV) is non-cumulative and will not accrue interest. The Issuer is not under any obligation to pay that or any other distributions that have not been paid in whole or in part. The Issuer may, at its sole discretion, and at any time, elect to pay an amount up to the amount of distribution which is unpaid ("**Optional Distribution**") (in whole or in part) by complying with the notice requirements in Condition 4(IV)(e). There is no limit on the number of times or the extent of the amount with respect to which the Issuer can elect not to pay distributions pursuant to this Condition 4(IV).

Any partial payment of outstanding Optional Distribution by the Issuer shall be shared by the holders of all outstanding Perpetual Securities and the Coupons related to them on a *pro rata* basis.

- (ii) If Cumulative Deferral is set out hereon, any distribution deferred pursuant to this Condition 4(IV) shall constitute "**Arrears of Distribution**". The Issuer may, at its sole discretion, elect to (in the circumstances set out in Condition 4(IV)(a)) further defer any Arrears of Distribution by complying with the foregoing notice requirement applicable to any deferral of an accrued distribution. The Issuer is not subject to any limit as to the number of times distributions and Arrears of Distribution can or shall be deferred pursuant to this Condition 4(IV) except that this Condition 4(IV)(c) shall be complied with until all outstanding Arrears of Distribution have been paid in full.
- (iii) If Additional Distribution is set out hereon, each amount of Arrears of Distribution shall bear interest as if it constituted the principal of the Perpetual Securities at the Distribution Rate or Rate of Distribution (as the case may be) and the amount of such interest (the "**Additional Distribution Amount**") with respect to Arrears of Distribution shall be due and payable pursuant to this Condition 4 and shall be calculated by applying the applicable Distribution Rate or Rate of Distribution (as the case may be) to the amount of the Arrears of Distribution and otherwise *mutatis mutandis* as provided in the foregoing provisions of this Condition 4. The Additional Distribution Amount accrued up to any Distribution Payment Date shall be added, for the purpose of calculating the Additional Distribution Amount accruing thereafter, to the amount of Arrears of Distribution remaining unpaid on such Distribution Payment Date so that it will itself become Arrears of Distribution.

(d) Restrictions in the case of Non-Payment

If Dividend Stopper is set out hereon and on any Distribution Payment Date, payments of all distribution scheduled to be made on such date are not made in full by reason of this Condition 4(IV), the Issuer shall not and shall procure that none of the subsidiaries of CRCT shall:

- (i) declare or pay any dividends, distributions or make any other payment on, and will procure that no dividend, distribution or other payment is made on, any of the Issuer's Junior Obligations or (except on a *pro rata* basis) any of the Issuer's Specified Parity Obligations; or
- (ii) redeem, reduce, cancel, buy-back or acquire for any consideration, and will procure that no redemption, reduction, cancellation, buy-back or acquisition for any consideration is made in respect of, any of the Issuer's Junior Obligations or (except on a *pro rata* basis) any of the Issuer's Specified Parity Obligations,

in each case, other than (1) in connection with any employee benefit plan or similar arrangements with or for the benefit of the employees, officers, consultants or directors of the Group and (2) as a result of the exchange or conversion of Specified Parity Obligations of the Issuer for Junior Obligations of the Issuer, unless and until (A) (if Cumulative Deferral is specified as being applicable in the applicable Pricing Supplement) the Issuer has satisfied in full all outstanding Arrears of Distribution, (B) (if Non-Cumulative Deferral is specified as being applicable in the applicable Pricing Supplement) a redemption of all the outstanding Perpetual Securities has occurred, the next scheduled distribution has been paid in full or an Optional Distribution equal to the amount of a distribution payable with respect to the most recent Distribution Payment Date that was unpaid in full or in part, has been paid in full or (C) the Issuer is permitted to do so (or to procure or permit the subsidiaries of CRCT to do so) by an Extraordinary Resolution (as defined in the Trust Deed) of the Perpetual Securityholders and/or as otherwise specified in the applicable Pricing Supplement.

(e) Satisfaction of Optional Distribution or Arrears of Distribution

The Issuer:

- (i) may, at its sole discretion, satisfy an Optional Distribution or Arrears of Distribution, as the case may be (in whole or in part) at any time by giving notice of such election to the Trustee, the Issuing and Paying Agent and the Perpetual Securityholders (in accordance with Condition 14) not more than 20 nor less than 10 business days (or such other notice period as may be specified hereon) prior to the relevant payment date specified in such notice (which notice is irrevocable and shall oblige the Issuer to pay the relevant Optional Distribution or Arrears of Distribution on the payment date specified in such notice); and
- (ii) in any event shall satisfy any outstanding Arrears of Distribution (in whole but not in part) on the earliest of:
 - (1) the date of redemption of the Perpetual Securities in accordance with the redemption events set out in Condition 5 (as applicable);
 - (2) the next Distribution Payment Date following the occurrence of a breach of Condition 4(IV)(d) or the occurrence of a Compulsory Distribution Payment Event; and
 - (3) the date such amount becomes due under Condition 9 or on a Winding-Up of CRCT.

Any partial payment of an Optional Distribution or Arrears of Distribution, as the case may be, by the Issuer shall be shared by the Perpetual Securityholders of all outstanding Perpetual Securities on a *pro-rata* basis.

(f) No Default

Notwithstanding any other provision in these Conditions, the non-payment of any distribution payment in accordance with this Condition 4(IV) shall not constitute a default for any purpose (including, without limitation, pursuant to Condition 9) on the part of the Issuer under the Perpetual Securities.

5. Redemption and Purchase

(a) No Fixed Redemption Date

The Perpetual Securities are perpetual securities in respect of which there is no fixed redemption date and the Issuer shall (subject to the provisions of Condition 3 and without prejudice to Condition 9) only have the right (but not the obligation) to redeem or purchase them in accordance with the following provisions of this Condition 5.

(b) Redemption at the Option of the Issuer

If so provided hereon, the Issuer may, on giving irrevocable notice to the Perpetual Securityholders falling within the Issuer's Redemption Option Period shown on the face hereof, redeem all or, if so provided, some of the Perpetual Securities at their Redemption Amount and on the date or dates so provided. Any such redemption of Perpetual Securities shall be at their Redemption Amount, together with distribution (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption.

All Perpetual Securities in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption of the Perpetual Securities, the notice to Perpetual Securityholders shall also contain the certificate numbers of the Bearer Perpetual Securities or, in the case of Registered Perpetual Securities, shall specify the principal amount of Registered Perpetual Securities drawn and the holder(s) of such Registered Perpetual Securities, to be redeemed, which shall have been drawn by or on behalf of the Issuer in such place and in such manner as may be agreed between the Issuer and the Trustee, subject to compliance with any applicable laws. So long as the Perpetual Securities are listed on the Singapore Exchange Securities Trading Limited (the "**SGX-ST**"), the Issuer shall comply with the rules of such Stock Exchange (as defined in the Trust Deed) in relation to the publication of any notice of redemption of such Perpetual Securities.

(c) Redemption for Taxation Reasons

The Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Distribution Payment Date or, if so specified hereon, at any time on giving not less than 30 nor more than 60 days' notice to the Perpetual Securityholders (which notice shall be irrevocable), at their Redemption Amount (together with distributions (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption), if:

- (i) the Issuer receives a ruling by the Comptroller of Income Tax in Singapore (or other relevant authority) which confirms that:
 - (1) the Perpetual Securities will not be regarded as "debt securities" for the purposes of Section 43N(4) of the Income Tax Act, Chapter 134 of Singapore ("**ITA**") and Regulation 2 of the Income Tax (Qualifying Debt Securities) Regulations; or
 - (2) the distributions (including any Arrears of Distribution and any Additional Distribution Amount) will not be regarded as interest payable by the Issuer for the purposes of the withholding tax exemption on interest for "qualifying debt securities" under the ITA; or
- (ii) (1) the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 7, or increase the payment of such additional amounts, as a result of any change in, or amendment to, the laws (or any regulations, rulings or other administrative pronouncements promulgated thereunder) of Singapore or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws, regulations, rulings or other administrative pronouncements, which change or amendment is made public on or after the Issue Date or any other date specified in the Pricing Supplement, and (2) such obligations cannot be avoided by the Issuer taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Perpetual Securities then due.

Prior to the publication of any notice of redemption pursuant to this Condition 5(c)(ii), the Issuer shall deliver to the Trustee (with a copy to the Issuing and Paying Agent):

- (A) a certificate signed by two duly authorised signatories of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred; and
- (B) an opinion of independent legal or tax adviser of recognised standing to the effect that the Issuer has or is likely to become obliged to pay such additional amounts as a result of such change or amendment to the laws (or any regulations, rulings or other administrative pronouncements promulgated thereunder) of Singapore or any political subdivision or any authority thereof or therein having power to tax,

and the Trustee shall be entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Perpetual Securityholders.

(d) Redemption for Accounting Reasons

If so provided hereon, the Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Distribution Payment Date or, if so specified hereon, at any time on giving not less than 30 nor more than 60 days' notice to the Perpetual Securityholders (which notice shall be irrevocable), at their Redemption Amount (together with distribution (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption) if, on such Distribution Payment Date or at any time after that Distribution Payment Date, as a result of any changes or amendments to Singapore Financial Reporting Standards issued by the Singapore Accounting Standards Council (as amended from time to time, the "SFRS") or any other accounting standards that may replace SFRS for the purposes of the consolidated financial statements of CRCT (the "Relevant Accounting Standard"), the Perpetual Securities will not or will no longer be recorded as "equity" of CRCT pursuant to the Relevant Accounting Standard.

Prior to the publication of any notice of redemption pursuant to this Condition 5(d), the Issuer shall deliver to the Trustee (with a copy to the Issuing and Paying Agent):

- (i) a certificate, signed by two duly authorised signatories of the Issuer stating that the circumstances referred to above prevail and setting out the details of such circumstances; and
- (ii) an opinion of the Issuer's independent auditors stating that the circumstances referred to above prevail and the date on which the relevant change or amendment to the Relevant Accounting Standard is due to take effect,

and the Trustee shall be entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Perpetual Securityholders.

Upon the expiry of any such notice as is referred to in this Condition 5(d), the Issuer shall be bound to redeem the Perpetual Securities in accordance with this Condition 5(d).

(e) Redemption for Tax Deductibility

If so provided hereon, the Perpetual Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Distribution Payment Date or, if so specified hereon, at any time on giving not less than 30 nor more than 60 days' notice to the Perpetual Securityholders (which notice shall be irrevocable), at their Redemption Amount (together with distributions (including any Arrears of Distribution and any Additional Distribution Amount) accrued to (but excluding) the date fixed for redemption) if:

- (i) the Issuer satisfies the Trustee immediately before giving such notice that, as a result of:

- (1) any amendment to, or change in, the laws (or any rules or regulations thereunder) of Singapore or any political subdivision or any taxing authority thereof or therein which is enacted, promulgated, issued or becomes effective on or after the Issue Date;

Prior to the publication of any notice of redemption pursuant to this Condition 5(i), the Issuer shall deliver, or procure to be delivered, to the Trustee (with a copy to the Issuing and Paying Agent) a certificate, signed by two duly authorised signatories of the Issuer, stating that the circumstances referred to above prevail and setting out the details of such circumstances, and the Trustee shall be entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Perpetual Securityholders.

(f) Talons

On or after the Distribution Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Bearer Perpetual Security, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Issuing and Paying Agent on any business day in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 8).

(g) Non-business days

Subject as provided in the relevant Pricing Supplement or subject as otherwise provided in these Conditions, if any date for the payment in respect of any Perpetual Security or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day and shall not be entitled to any further distribution or other payment in respect of any such delay.

(h) Payment of Singapore Dollar Equivalent

Notwithstanding the foregoing, if by reason of Illiquidity, Inconvertibility or Non-transferability, the Issuer is not able to satisfy payments of principal or distribution (in whole or in part) in respect of Perpetual Securities where the Relevant Currency is Renminbi, the Issuer may, on giving not less than five nor more than 30 days' irrevocable notice to the Perpetual Securityholders prior to the due date for payment, settle any such payment (in whole or in part) in Singapore dollars on the due date at the Singapore Dollar Equivalent of any such Renminbi denominated amount. Payments of the Singapore Dollar Equivalent of the relevant Renminbi denominated amount shall be made by transfer to a Singapore dollar denominated account maintained by the payee with, or by a Singapore dollar denominated cheque drawn on, a bank in Singapore. Any payment made under such circumstances in Singapore dollars will constitute valid payment and will not constitute a default in respect of the Perpetual Securities.

For the purposes of this Condition 6(h),

"Determination Business Day" means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange) in Singapore;

"Determination Date" means the day which is two Determination Business Days before the due date of the relevant amount under these Conditions;

"Governmental Authority" means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Singapore;

"Illiquidity" means the general Renminbi exchange market in Singapore becomes illiquid as a result of which the Issuer cannot obtain sufficient Renminbi in order to satisfy its obligation to pay distribution and principal (in whole or in part) in respect of the Perpetual Securities as determined by the Issuer in good faith and in a commercially reasonable manner;

"Inconvertibility" means the occurrence of any event that makes it impossible for the Issuer to convert any amount due in respect of the Perpetual Securities in the general Renminbi exchange market in Singapore, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the date of the agreement for the issue of the Perpetual Securities and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

"Non-transferability" means the occurrence of any event that makes it impossible for the Issuer to deliver Renminbi between accounts inside Singapore or from an account inside Singapore to an account outside Singapore, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the date of the agreement for the issue of the Perpetual Securities and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

"Singapore Dollar Equivalent" means the relevant Renminbi amount converted into Singapore dollars using the relevant Spot Rate for the relevant Determination Date;

“**Spot Rate**” means, for a Determination Date, the spot Renminbi/Singapore dollar exchange rate as determined by the Agent Bank at or around 11.00 a.m. (Singapore time) on such date, and if a spot rate is not readily available, the Agent Bank will determine the rate taking into consideration all available information which the Agent Bank deems relevant, including pricing information obtained from the Renminbi non-deliverable exchange market in Singapore or elsewhere and the PRC domestic foreign exchange market in Singapore.

All determinations made for the purposes of the provisions of this Condition 6(h) by the Agent Bank will (in the absence of wilful default, fraud, gross negligence or manifest error) be binding on the Issuer, the Agents and all holders.

7. Taxation

All payments in respect of the Perpetual Securities and the Coupons by the Issuer shall be made free and clear of, and without deduction or withholding for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within Singapore or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law. In such event, the Issuer shall pay such additional amounts as will result in the receipt by the Perpetual Securityholders and the Couponholders of such amounts as would have been received by them had no such deduction or withholding been required, except that no such additional amounts shall be payable in respect of any Perpetual Security or Coupon presented (or in respect of which the Certificate representing it is presented) for payment:

- (a) by or on behalf of a holder who is subject to such taxes, duties, assessments or governmental charges by reason of his being connected with Singapore otherwise than by reason only of the holding of such Perpetual Security or Coupon or the receipt of any sums due in respect of such Perpetual Security or Coupon (including, without limitation, the holder being a resident of, or a permanent establishment in, Singapore);
- (b) more than 30 days after the Relevant Date except to the extent that the holder thereof would have been entitled to such additional amounts on presenting the same for payment on the last day of such period of 30 days; or
- (c) by or on behalf of a holder who would be able to lawfully avoid (but has not so avoided) such deduction or withholding by making a declaration or any other statement including, but not limited to, a declaration of residence or non-residence but fails to do so.

Where the Perpetual Securities are not recognised as debt securities for Singapore income tax purposes, all payments in respect of the Perpetual Securities and the Coupons by or on behalf of the Issuer may be subject to any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within Singapore or any authority thereof or therein having power to tax in the same manner as distributions on ordinary units of CRCT, and CRCT may be obliged (in certain circumstances) to withhold or deduct tax at the prevailing rate (currently 10% or 17%) under Section 45G of the Income Tax Act, Chapter 134 of Singapore. In that event, the Issuer will not pay any additional amounts in respect of any such withholding or deduction from payments in respect of the Perpetual Securities and the Coupons for or on account of any such taxes or duties.

As used in these Conditions, “**Relevant Date**” in respect of any Perpetual Security or Coupon means the date on which payment in respect thereof first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date falling seven days after that on which notice is duly given to the Perpetual Securityholders in accordance with Condition 14 that, upon further presentation of the Perpetual Security (or relative Certificate) or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon presentation, and references to “**principal**” shall be deemed to include any premium payable in respect of the Perpetual Securities, all Redemption Amounts and all other amounts in the nature of principal payable pursuant to Condition 5, “**distribution**” shall be deemed to include all Distribution Amounts

and all other amounts payable pursuant to Condition 4 and any reference to “**principal**” and/or “**premium**” and/or “**Redemption Amounts**” and/or “**distribution**” shall be deemed to include any additional amounts which may be payable under these Conditions.

8. Prescription

Claims against the Issuer for payment in respect of the Perpetual Securities and Coupons (which, for this purpose, shall not include Talons) shall be prescribed and become void unless made within three years from the appropriate Relevant Date for payment.

9. Non-payment

(a) Non-payment when Due

Notwithstanding any of the provisions below in this Condition 9, the right to institute proceedings for the bankruptcy, termination, winding-up, liquidation, receivership, administration or similar proceedings (the “**Winding-Up**”) in respect of CRCT is limited to circumstances where payment under the Perpetual Securities has become due. In the case of any distribution, such distribution will not be due if the Issuer has elected not to pay that distribution in accordance with Condition 4(IV). In addition, nothing in this Condition 9, including any restriction on commencing proceedings, shall in any way restrict or limit the rights of the Trustee or any of its directors, officers, employees or agents to claim from or to otherwise take any action against the Issuer in respect of any costs, charges, fees, expenses or liabilities incurred by such party pursuant to or in connection with the Perpetual Securities or the Trust Deed.

(b) Proceedings for Winding-Up

If (i) a final and effective order is made or an effective resolution is passed for the Winding-Up of CRCT or (ii) the Issuer does not pay any principal payable by it under any of the Perpetual Securities at the place at and in the currency in which it is expressed to be payable when due and such default continues for three business days after the due date or any distribution or other amounts (other than principal) payable by it under any of the Perpetual Securities at the place at and in the currency in which it is expressed to be payable when due and such default continues for three business days after the due date (together, the “**Enforcement Events**”), the Issuer shall be deemed to be in default under the Trust Deed and the Perpetual Securities and the Trustee may, subject to the provisions of Condition 9(d), institute proceedings for the Winding-Up of CRCT, prove in the Winding-Up of CRCT and/or claim in the liquidation of CRCT for such payment.

(c) Enforcement

Without prejudice to Condition 9(b) but subject to the provisions of Condition 9(d), the Trustee may, at its discretion and without further notice to the Issuer, institute such proceedings against the Issuer as it may think fit to enforce any term or condition binding on the Issuer under the Perpetual Securities or the Trust Deed, as the case may be, (other than any payment obligation of the Issuer under or arising from the Perpetual Securities, including, without limitation, payment of any principal or premium or satisfaction of any distributions (including any damages awarded for breach of any obligations)) and in no event shall the Issuer, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums, in cash or otherwise, sooner than the same would otherwise have been payable by it.

(d) Entitlement of Trustee

The Trustee shall not and shall not be obliged to take any of the actions referred to in Condition 9(b) or Condition 9(c) against the Issuer to enforce the terms of the Trust Deed or the Perpetual Securities unless (i) it shall have been so directed by an Extraordinary Resolution of the Perpetual Securityholders or so requested in writing by Perpetual Securityholders holding not less than 25 per cent. in principal amount of the Perpetual Securities outstanding and (ii) it shall have been indemnified and/or secured to its satisfaction.

(e) Right of Perpetual Securityholders or Couponholder

No Perpetual Securityholder or Couponholder shall be entitled to proceed directly against the Issuer or to institute proceedings for the Winding-Up or claim in the liquidation of CRCT or to prove in such Winding-Up unless the Trustee, having become bound to do so, fails or neglects to do so within a reasonable period and such failure or neglect shall be continuing, in which case the Perpetual Securityholder or Couponholder shall have only such rights against the Issuer and/or CRCT as those which the Trustee is entitled to exercise as set out in this Condition 9.

(f) Extent of Perpetual Securityholders' Remedy

No remedy against the Issuer, other than as referred to in this Condition 9, shall be available to the Trustee or the Perpetual Securityholders or Couponholders, whether for the recovery of amounts owing in respect of the Trust Deed or the Perpetual Securities (as applicable) or in respect of any breach by the Issuer of any of its other obligations under or in respect of the Trust Deed or the Perpetual Securities (as applicable).

(g) Damages subject to Subordination

If any court awards money, damages or other restitution for any default with respect to the performance by the Issuer of its obligation contained in the Trust Deed and the Perpetual Securities, the payment of such money, damages or other restitution shall be subject to the subordination provisions set out in these Conditions and in Clause 8.3 of the Trust Deed.

10. Meeting of Perpetual Securityholders and Modifications

The Trust Deed contains provisions for convening meetings of Perpetual Securityholders of a Series to consider any matter affecting their interests, including modification by Extraordinary Resolution of the Perpetual Securities of such Series (including these Conditions insofar as the same may apply to such Perpetual Securities) or any of the provisions of the Trust Deed.

The Trustee or the Issuer at any time may, and the Trustee upon the request in writing by Perpetual Securityholders holding not less than one-tenth of the principal amount of the Perpetual Securities of any Series for the time being outstanding shall, convene a meeting of the Perpetual Securityholders of that Series. An Extraordinary Resolution duly passed at any such meeting shall be binding on all the Perpetual Securityholders of the relevant Series, whether present or not and on all relevant Couponholders, except that any Extraordinary Resolution proposed, *inter alia*, (a) to amend the dates of redemption of the Perpetual Securities or any date for payment of distribution or Distribution Amounts on the Perpetual Securities, (b) to reduce or cancel the principal amount of, or any premium payable on redemption of, the Perpetual Securities, (c) to reduce the rate or rates of distribution in respect of the Perpetual Securities or to vary the method or basis of calculating the rate or rates of distribution or the basis for calculating any Distribution Amount in respect of the Perpetual Securities, (d) to vary any method of, or basis for, calculating the Redemption Amount, (e) to vary the currency or currencies of payment or denomination of the Perpetual Securities, (f) to amend the subordination provisions of the Perpetual Securities, (g) to take any steps that as specified hereon may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply or (h) to modify the provisions concerning the quorum required at any meeting of Perpetual Securityholders or the majority required to pass the Extraordinary Resolution, will only be binding if passed at a meeting of the Perpetual Securityholders of the relevant Series (or at any adjournment thereof) at which a special quorum (provided for in the Trust Deed) is present.

The Trustee may agree, without the consent of the Perpetual Securityholders or Couponholders, to (i) any modification of any of the provisions of the Trust Deed or any of the other Issue Documents which in the opinion of the Trustee is of a formal, minor or technical nature, is made to correct a manifest error or to comply with mandatory provisions of Singapore law or is required by Euroclear and/or Clearstream, Luxembourg and/or the Depository and/or any other clearing system in which the Perpetual Securities may be held and (ii) any other modification (except as mentioned in the Trust Deed) to the Trust Deed and any of the other Issue Documents, and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Trust

Deed or any of the other Issue Documents, which is in the opinion of the Trustee not materially prejudicial to the interests of the Perpetual Securityholders. Any such modification, authorisation or waiver shall be binding on the Perpetual Securityholders and the Couponholders and, (in the case of a modification) unless the Trustee otherwise agrees in writing or (in the case of authorisation or waiver) if the Trustee shall so require, such modification, authorisation or waiver shall be notified to the Perpetual Securityholders as soon as practicable.

In connection with the exercise of its functions (including but not limited to those in relation to any proposed modification, waiver, authorisation or substitution) the Trustee shall have regard to the interests of the Perpetual Securityholders as a class and shall not have regard to the consequences of such exercise for individual Perpetual Securityholders or Couponholders.

These Conditions may be amended, modified, or varied in relation to any Series of Perpetual Securities by the terms of the relevant Pricing Supplement in relation to such Series.

11. Replacement of Perpetual Securities, Certificates, Coupons and Talons

If a Perpetual Security, Certificate, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed it may be replaced, subject to applicable laws, regulations and stock exchange requirements or other relevant authority regulations at the specified office of the Issuing and Paying Agent (in the case of Bearer Perpetual Securities, Coupons or Talons) and of the Registrar (in the case of Certificates), or at the specified office of such other Paying Agent or Transfer Agent, as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Perpetual Securityholders in accordance with Condition 14, on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, undertaking, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Perpetual Security, Certificate, Coupon or Talon is subsequently presented for payment, there will be paid to the Issuer on demand the amount payable by the Issuer in respect of such Perpetual Security, Certificate, Coupon or Talon) and otherwise as the Issuer may require. Mutilated or defaced Perpetual Securities, Certificates, Coupons or Talons must be surrendered before replacements will be issued.

12. Further Issues

The Issuer may from time to time without the consent of the Perpetual Securityholders or Couponholders create and issue further perpetual securities either having the same terms and conditions as the Perpetual Securities in all respects (or in all respects except for the first payment of distribution on them) and so that such further issue shall be consolidated and form a single series with the outstanding perpetual securities of any series (including the Perpetual Securities) or upon such terms as the Issuer may determine at the time of their issue. References in these Conditions to the Perpetual Securities include (unless the context requires otherwise) any other perpetual securities issued pursuant to this Condition 12 and forming a single series with the Perpetual Securities. Any further perpetual securities forming a single series with the outstanding perpetual securities of any series (including the Perpetual Securities) constituted by the Trust Deed or any deed supplemental to it shall, and any other securities may, be constituted by the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Perpetual Securityholders and the holders of perpetual securities of other series where the Trustee so decides.

13. Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including provisions relieving it from taking proceedings to enforce repayment unless indemnified and/or secured to its satisfaction. The Trust Deed also contains a provision entitling the Trustee to enter into business transactions with the Issuer or any of the respective related corporations of the Issuer and CRCT without accounting to the Perpetual Securityholders or Couponholders for any profit resulting from such transactions.

14. Notices

Notices to the holders of Registered Perpetual Securities shall be valid if mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing. Notwithstanding the foregoing, notices to the holders of Perpetual Securities will be valid if published in a leading newspaper of general circulation in Singapore (or, if the holders of any Series of Perpetual Securities can be identified, notices to such holders will also be valid if they are given to each of such holders). It is expected that such publication will be made in The Business Times. Notices will, if published more than once or on different dates, be deemed to have been given on the date of the first publication in such newspaper as provided above.

In the case where the Issuer is listed on the SGX-ST or where the Perpetual Securities are listed on the SGX-ST, notices to the holders of such Perpetual Securities shall also be valid if made by way of an announcement on the SGX-ST. Any such notice shall be deemed to have been given to the Perpetual Securityholders on the date on which the said notice was uploaded as an announcement on the SGX-ST. Couponholders shall be deemed for all purposes to have notice of the contents of any notice to the holders of Bearer Perpetual Securities in accordance with this Condition 14.

So long as the Perpetual Securities are represented by a Global Security or a Global Certificate and such Global Security or Global Certificate is held in its entirety on behalf of Euroclear, Clearstream, Luxembourg, the Depository and/or any other clearing system, there may be substituted for such publication in such newspapers the delivery of the relevant notice to Euroclear, Clearstream, Luxembourg, (subject to the agreement of the Depository) the Depository and/or such other clearing system for communication by it to the Perpetual Securityholders, except that if the Perpetual Securities are listed on the SGX-ST and the rules of such exchange so require, notice will in any event be published in accordance with the first paragraph of this Condition 14. Any such notice shall be deemed to have been given to the Perpetual Securityholders on the seventh day after the day on which the said notice was given to Euroclear, Clearstream, Luxembourg, the Depository and/or such other clearing system.

Notices to be given by any Perpetual Securityholder pursuant hereto (including to the Issuer) shall be in writing and given by lodging the same, together with the relative Perpetual Security or Perpetual Securities, with the Issuing and Paying Agent (in the case of Bearer Perpetual Securities) or the Registrar (in the case of Certificates). Whilst the Perpetual Securities are represented by a Global Security or a Global Certificate, such notice may be given by any Perpetual Securityholder to the Issuing and Paying Agent or, as the case may be, the Registrar through Euroclear, Clearstream, Luxembourg, the Depository and/or such other clearing system in such manner as the Issuing and Paying Agent or, as the case may be, the Registrar and Euroclear, Clearstream, Luxembourg, the Depository and/or such other clearing system may approve for this purpose.

Notwithstanding the other provisions of this Condition, in any case where the identity and addresses of all the Perpetual Securityholders are known to the Issuer, notices to such holders may be given individually by recorded delivery mail to such addresses and will be deemed to have been given when received at such addresses.

15. Contracts (Rights of Third Parties) Act

No person shall have any right to enforce any term or condition of the Perpetual Securities under the Contracts (Rights of Third Parties) Act, Chapter 53B of Singapore.

16. Acknowledgement

Any obligation, matter, act, action or thing required to be done, performed or undertaken by HSBCIT under the Trust Deed, the Perpetual Securities and the Coupons shall only be in connection with matters relating to CRCT (and shall not extend to the obligations of HSBCIT in respect of any other trust or real estate investment trust of which it is a trustee). The foregoing shall not restrict or prejudice the rights or remedies of the Trustee, the Perpetual Securityholders and the Couponholders under law or equity whether in connection with any negligence, fraud or breach of trust of the Issuer or otherwise.

(b) Corporate Obligations

Notwithstanding any provision to the contrary in the Trust Deed, the Perpetual Securities and the Coupons, it is hereby agreed that the Issuer’s obligations under the Trust Deed, the Perpetual Securities and the Coupons will be solely the corporate obligations of the Issuer and there shall be no recourse against the shareholders, directors, officers or employees of HSBCIT for any claims, losses, damages, liabilities or other obligations whatsoever in connection with any of the transactions contemplated by the provisions of the Trust Deed, the Perpetual Securities and the Coupons. (d) Applicability

This Condition 16 shall survive the termination or rescission of the Trust Deed and the Perpetual Securities. The provisions of this Condition 16 shall also apply, *mutatis mutandis*, to any notice, certificate or other document which the Issuer may issue under or pursuant to the Trust Deed and the Perpetual Securities, as if expressly set out therein.

17. Governing Law and Jurisdiction

(a) Governing Law

The Trust Deed, the Perpetual Securities, the Coupons and the Talons shall be governed by, and shall be construed in accordance with, the laws of Singapore.

(b) Jurisdiction

The courts of Singapore are to have jurisdiction to settle any disputes that may arise out of or in connection with the Trust Deed, the Perpetual Securities, the Coupons and the Talons and accordingly any legal action or proceedings arising out of or in connection with the Trust Deed, any Perpetual Securities, Coupons or Talons (“**Proceedings**”) may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of such courts and waives any objections to

Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made for the benefit of each of the Trustee, the Perpetual Securityholders and the Couponholders and shall not limit the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

(a) The Properties enjoy a number of competitive strengths

- *Quality shopping malls in strategic locations with large and growing population catchments*

The current portfolio consists of quality shopping malls strategically located in large, well-established and growing population catchment areas with access to public transportation facilities such as metro lines, additional train stations and bus stations for both local and inter-provincial transport routes.

Each of the Properties offer a one-stop shopping mall experience encompassing a wide array of goods and services including family-oriented shopping, dining and entertainment options.

- *Geographical diversification*

The Properties are located in various cities of China, providing exposure to the rapidly expanding retail markets of Beijing, Chengdu, Shanghai, Zhengzhou, Hohhot, Wuhan and Wuhu. The geographical diversification of the Properties reduces CRCT's dependence on any single regional market and, accordingly, enhances the stability of future earnings.

- *Stable and quality tenant base*

The Properties benefit from the well-established brand names of their anchor tenants and their market leadership in their respective trade sectors. A significant portion of the Properties' tenancies consists of major international and domestic retailers such as Beijing Hualian Group, Carrefour and Wal-Mart under master leases or long-term leases.

The Properties have a large combined tenant base with the tenants mentioned above and other tenants in the Properties include brands such as BreadTalk, innisfree, KFC, Nanjing Impressions, Nike, Sephora, Starbucks, UNIQLO, Watsons and ZARA. These tenants represent a wide variety of consumer trade sectors and provide trade and product diversification for the Properties.

- *Favourable lease structure with upside potential*

One of the Properties, CapitaMall Erqi, and the majority of the GRA of a second Property, CapitaMall Shuangjing, are let out under master leases. The master leases are on a typical tenure of 20 years which helps to ensure stable cash flows. The long-term master lease over CapitaMall Erqi also contains provisions for upside in rental revenues through step-ups in the base rent, with the master lease over CapitaMall Erqi providing for an additional potential upside through a percentage of tenants' gross sales turnover if the turnover exceeds an agreed threshold.

For the remaining Properties which are not under master leases, the typical lease term is 15 to 20 years for anchor tenants, five to seven years for mini-anchor tenants and up to three years for specialty tenants. Most of the leases have an annual step-up in the base rent. In addition, most of the leases also contain provisions for rent to be payable at the then applicable base rent or at a percentage of gross sales turnover, whichever is higher. These lease structures help to provide stability and potential upside in rental revenues for CRCT.

In order to ensure timeliness, accuracy and accountability in the calculation of turnover rent of the Properties, there is in place a point-of-sale system at CapitaMall Xizhimen, CapitaMall Wangjing and CapitaMall Grand Canyon which automatically records the amount of sales achieved by the tenants.

- *Potential for asset enhancement in the future*

The CRCT Manager may identify potential asset enhancement opportunities for the master-leased malls to enhance and improve their operating returns, subject to it obtaining the requisite approvals from the relevant authorities.

(b) **Experienced professional management**

CRCT benefits from a management team with executive officers who have long and proven track records in managing, investing in, developing and enhancing shopping malls, as well as in-depth understanding of and experience in running a public company.

CRCT's management team consists of highly experienced multi-disciplinary professionals who are able to deliver a steady cashflow and maximise property returns to investors. The CRCT Manager has a strong track record in delivering stable distributions and sustainable total returns to the investors. Since its listing in December 2006, CRCT's distribution per Unit has grown from 6.72 cents in FY 2007 to 10.05 cents in FY 2016.

(c) **Efficient capital management**

CRCT's optimal capital management strategy and relatively conservative debt structure are in line with its long-term REIT investors' preferences and provide earnings stability in a rising interest rate environment. As at 31 December 2016, CRCT's total borrowing was approximately S\$979.2 million, with gearing at a low 35.3% and a healthy interest cover of 6.0 times. The average cost of debt was 2.81%.

(d) **Strong and committed sponsor**

CapitaLand Limited is one of Asia's largest real estate companies. Headquartered and listed in Singapore, it is an owner and manager of a global portfolio worth more than S\$78.0 billion as at 31 December 2016, comprising integrated developments, shopping malls, serviced residences, offices, homes, REITS and funds.

As at 31 December 2016, CapitaLand Limited owns and manages 104 shopping malls across 52 cities in Singapore, China, Malaysia, Japan and India, with a total property value of approximately S\$42.3 billion and a total GFA of about 99.4 million square feet.

4. STRATEGY

The CRCT Manager implements the principal investment strategy in accordance with the Property Funds Appendix. Investments are generally made pursuant to a long-term investment horizon and the investment portfolio of CRCT comprises primarily income-producing real estate and real estate related assets. The Properties within CRCT's portfolio are used for retail purposes and investments are made depending on investment opportunities in China, Hong Kong and Macau.

CRCT's strategy comprises the following:

(a) *Enhancing organic growth through proactive asset management*

Most of CRCT's leases provide for an annual step-up in the base rent and for rent to be payable on the basis of the higher of either base rent or a percentage of tenants' gross sales turnover, thereby providing stability and potential upside in rental income. Apart from organic growth through rental receipts, the CRCT Manager works closely with the mall managers to identify improvements to the malls' retail offerings and tenant mix, and carry out marketing and promotional initiatives to drive up shopper traffic and non-rental income.

(b) *Creating new value through innovative asset enhancement strategies*

The CRCT Manager actively explores innovative asset enhancement initiatives to improve the returns of CRCT's malls. These include the reconfiguration of the retail units or floor plates to achieve better efficiency and higher rental potential, retro-fitting and refurbishing the malls to maintain their appeal to tenants and shoppers.

(c) *Capitalising on yield-accretive acquisitions growth model*

The CRCT Manager regularly identifies and evaluates yield-accretive acquisition opportunities from its secured and proprietary pipeline and other third-party vendors.

CRCT derives long-term growth potential from its rights of first refusal to purchase assets held by CapitaLand Mall China Income Fund I, CapitaLand Mall China Income Fund II, CapitaLand Mall China Income Fund III, CapitaLand Mall Development Fund III, as well as CMA, which is the wholly-owned shopping mall business unit of CapitaLand Limited, one of Asia's largest listed real estate companies.

In evaluating acquisition opportunities, the CRCT Manager focuses on factors such as whether the properties in question can maintain or enhance CRCT's distribution yield, have potential asset enhancement opportunities and have the potential to demonstrate strong growth in occupancy rates, sustainable rental yields, quality tenant and lease profile.

(d) *Capitalising on an integrated retail real estate platform*

CRCT enjoys access to CapitaLand Limited's integrated shopping mall business model, with in-house capabilities in retail real estate investment, development, mall operations, asset management and fund management. The CRCT Manager takes a holistic approach to the management of CRCT, and strives to not only manage the Properties well through specialised divisions handling property management, retail management and operational leasing, strategic marketing and design and development management but also to be in a good position to manage the funds raised by CRCT through its divisions handling asset management, strategic planning, investment and fund structuring and management as depicted diagrammatically in the integrated shopping mall business model below:

In addition, the CRCT Manager has a professional and experienced team of fund and asset managers who work closely with each other to:

- formulate medium and long-term strategies and initiatives to deliver higher sustainable returns;
- enhance the shopping experience to attract and increase shopper traffic;
- review space usage to optimise income;
- manage and monitor rental arrears to minimise bad debts;
- manage projects to ensure timely completion within budgets;
- manage and monitor property expenses to maximise net property income;
- address all key operational issues to ensure alignment with the CRCT Manager's strategies; and
- manage lease renewals and new leases diligently to minimise rental voids.

(e) *Capital and risk management*

The CRCT Manager reviews its debt and capital management and financing policies regularly so as to optimise CRCT's funding structure and strategy. The CRCT Manager also monitors its exposure to various risk elements by closely adhering to clearly established management policies and procedures.

2Q 2017 vs 2Q 2016

In RMB terms, gross revenue in 2Q 2017 increased by RMB44.8 million, or 18.2% higher than 2Q 2016, mainly due to the new contribution from CapitaMall Xinnan which was acquired on 30 September 2016. This was partially offset by lower revenue due to the implementation of China Value Added Tax ("VAT") reform on 1 May 2016 where 5% VAT was netted against gross revenue reported for 2Q 2017. Gross revenue for both CapitaMall Qibao and CapitaMall Wuhu was lower in 2Q 2017 due to competitions faced in the vicinity and tenancy adjustments respectively. In SGD terms, gross revenue for 2Q 2017 increased by \$7.5 million, or 14.5%. The increase is lower than that in RMB terms due to the stronger SGD against RMB.

Property expenses for 2Q 2017 increased by \$3.0 million, or 18.9% compared to 2Q 2016, mainly due to additional property tax of \$2.5 million for malls in Beijing as a result of the change in tax basis by the local tax authority and higher property management fees of \$0.4 million mainly arising from the inclusion of CapitaMall Xinnan. This was partially offset by lower business tax which was replaced with VAT with effect from 1 May 2016 as these were netted against gross revenue.

Management fees consisting of base and performance fees payable to the CRCT Manager were 13.3% higher than 2Q 2016, due to higher net property income and deposited properties, arising from the inclusion of CapitaMall Xinnan.

Finance costs in 2Q 2017 increased by \$0.9 million as compared to 2Q 2016. This was mainly due to the additional loans drawn down to finance the acquisition of CapitaMall Xinnan on 30 September 2016.

Taxation in 2Q 2017 increased by \$3.0 million as compared to 2Q 2016. The higher taxation arose mainly from the inclusion of CapitaMall Xinnan and higher corporate tax recognised in 2Q 2017 compared to 2Q 2016 as a result of higher profit.

FY 2016 vs FY 2015

In RMB terms, gross revenue for FY 2016 increased by RMB22.4 million, or 2.2% over FY 2015, mainly due to the new contribution from CapitaMall Xinnan which was acquired on 30 September 2016. This was partially offset by the lower revenue in CapitaMall Grand Canyon due to lower actual occupancy rate as there was delay in opening by food and beverage tenants. CapitaMall Minzhongleyuan and CapitaMall Wuhu continued to face challenges from the road closure and tenancy adjustments respectively. In SGD terms, gross revenue decreased by \$6.0 million, or 2.7% compared to FY 2015 due to weaker RMB against SGD.

Property expenses for FY 2016 decreased by \$4.6 million or 5.8% over FY 2015, mainly due to lower business tax which was replaced with VAT with effect from 1 May 2016 and these were netted off against revenue from May to December 2016. This was partially offset by the additional property tax of \$5.3 million for malls in Beijing as a result of the change in tax basis by the local tax authority and inclusion of property expenses of CapitaMall Xinnan.

Management fees payable to the CRCT Manager were 1.0% higher than FY 2015 mainly due to higher net property income and deposited properties, arising from the inclusion of CapitaMall Xinnan and increase in fair value of the existing investment properties.

Taxation in FY 2016 decreased by \$1.7 million or 4.0% compared to FY 2015. This was mainly due to lower deferred tax liabilities as a result of lower fair value gain in investment properties and withholding tax on lower declared dividend in FY 2016 as compared to FY 2015.

FY 2015 vs FY 2014

In RMB terms, gross revenue for FY 2015 increased by RMB17.5 million, or 1.8% over FY 2014. This was mainly due to rental growth from the multi-tenanted malls. This increase was partially offset by lower revenue from CapitaMall Minzhongleyuan, which was impacted by the road closure for the construction work of a new subway line and lower revenue at CapitaMall Wuhu due to lower occupancy rate as the mall was undergoing tenancy adjustments. In SGD terms, gross revenue increased by \$17.1 million, or 8.4% compared to FY 2014 mainly due to stronger RMB against SGD.

Property expenses for FY 2015 increased by \$8.4 million or 11.8% over FY 2014. This was mainly due to higher business tax and property management fees as a result of higher gross revenue, and a provision for compensation payment to a tenant of CapitaMall Minzhongleyuan which was impacted by the asset enhancement work. There were also additional property tax incurred at CapitaMall Saihan and CapitaMall Wuhu due to the change in tax computation basis imposed by the local authority.

Management fees payable to the CRCT Manager were 9.0% higher than FY 2014 mainly due to higher net property income and deposited properties.

Finance income earned in FY 2015 increased by \$0.6 million over FY 2014 mainly due to gain from IRS which were hedged against the variable rate borrowings.

Finance costs in FY 2015 decreased by \$1.3 million over FY 2014. This was mainly due to the repayment of RMB denominated interest bearing loans in FY 2015.

Taxation in FY 2015 decreased by \$13.7 million over FY 2014. This was mainly due to lower deferred tax liabilities recognised in FY 2015 as a result of lower gain in fair value of investment properties.

USE OF PROCEEDS

The net proceeds arising from each issue of the Securities under the Programme (after deducting issue expenses) will be used to (a) refinance the existing borrowings of the Group, (b) finance or refinance the acquisitions and/or investments of CRCT, (c) on-lend to any trust, fund or entity in which CRCT has an interest, (d) finance or refinance any asset enhancement works initiated by CRCT or (e) finance general working capital purposes of the Group, or for such other purpose as may be specified in the relevant Pricing Supplement.

CLEARING AND SETTLEMENT

Clearing and Settlement under the Depository System

In respect of Securities which are accepted for clearance by CDP in Singapore, clearance will be effected through an electronic book-entry clearance and settlement system for the trading of debt securities (“**Depository System**”) maintained by CDP. Securities that are to be listed on the SGX-ST may be cleared through CDP.

CDP, a wholly-owned subsidiary of Singapore Exchange Limited, is incorporated under the laws of Singapore and acts as a depository and clearing organisation. CDP holds securities for its accountholders and facilitates the clearance and settlement of securities transactions between accountholders through electronic book-entry changes in the securities accounts maintained by such accountholders with CDP.

In respect of Securities which are accepted for clearance by CDP, the entire issue of the Securities is to be held by CDP in the form of a Global Security or Global Certificate for persons holding the Securities in securities accounts with CDP (“**Depositors**”). Delivery and transfer of Securities between Depositors is by electronic book-entries in the records of CDP only, as reflected in the securities accounts of Depositors. Although CDP encourages settlement on the third business day following the trade date of debt securities, market participants may mutually agree on a different settlement period if necessary.

Settlement of over-the-counter trades in the Securities through the Depository System may only be effected through certain corporate depositors (“**Depository Agents**”) approved by CDP under the SFA to maintain securities sub-accounts and to hold the Securities in such securities sub-accounts for themselves and their clients. Accordingly, Securities for which trade settlement is to be effected through the Depository System must be held in securities sub-accounts with Depository Agents. Depositors holding the Securities in direct securities accounts with CDP, and who wish to trade Securities through the Depository System, must transfer the Securities to be traded from such direct securities accounts to a securities sub-account with a Depository Agent for trade settlement.

CDP is not involved in money settlement between Depository Agents (or any other persons) as CDP is not a counterparty in the settlement of trades of debt securities. However, CDP will make payment of interest and distribution and repayment of principal on behalf of issuers of debt securities.

Although CDP has established procedures to facilitate transfer of interests in the Securities in global form among Depositors, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, the Issuing and Paying Agent or any other agent will have the responsibility for the performance by CDP of its obligations under the rules and procedures governing its operations.

Clearing and Settlement under Euroclear and/or Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for participating organisations and facilitates the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in the accounts of such participants, thereby eliminating the need for physical movements of certificates and any risks from lack of simultaneous transfer. Euroclear and Clearstream, Luxembourg provide to their respective participants, among other things, services for safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg each also deals with domestic securities markets in several countries through established depository and custodial relationships. The respective systems of Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems which enables their respective participants to settle trades with one another. Euroclear and Clearstream, Luxembourg participants are financial institutions throughout the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to Euroclear or Clearstream, Luxembourg is also available to other financial institutions, such as banks, brokers, dealers and trust companies which clear through or maintain a custodial relationship with a Euroclear or Clearstream, Luxembourg participant, either directly or indirectly.

A participant's overall contractual relations with either Euroclear or Clearstream, Luxembourg are governed by the respective rules and operating procedures of Euroclear or Clearstream, Luxembourg and any applicable laws. Both Euroclear and Clearstream, Luxembourg act under those rules and operating procedures only on behalf of their respective participants, and have no record of, or relationship with, persons holding any interests through their respective participants. Payments of principal, interest or distributions with respect to book-entry interests in the Securities held through Euroclear or Clearstream, Luxembourg will be credited, to the extent received by the Issuing and Paying Agent, to the cash accounts of the relevant Euroclear or Clearstream, Luxembourg participants in accordance with the relevant system's rules and procedures.

SINGAPORE TAXATION

The statements below are general in nature and are based on certain aspects of current tax laws in Singapore and administrative guidelines and circulars issued by the IRAS and MAS in force as at the date of this Information Memorandum and are subject to any changes in such laws, administrative guidelines or circulars, or the interpretation of those laws, guidelines or circulars, occurring after such date, which changes could be made on a retroactive basis. These laws, guidelines and circulars are also subject to various interpretations and the relevant tax authorities or the courts could later disagree with the explanations or conclusions set out below. Neither these statements nor any other statements in this Information Memorandum are intended or are to be regarded as advice on the tax position of any holder of the Securities or of any person acquiring, selling or otherwise dealing with the Securities or on any tax implications arising from the acquisition, sale or other dealings in respect of the Securities. The statements made herein do not purport to be a comprehensive or exhaustive description of all the tax considerations that may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and do not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or financial institutions in Singapore which have been granted the relevant Financial Sector Incentive(s)) may be subject to special rules or tax rates. The statements should not be regarded as advice on the tax position of any person and should be treated with appropriate caution. Prospective holders of the Securities are advised to consult their own professional tax advisers as to the Singapore or other tax consequences of the subscription for, ownership of or disposal of the Securities, including, in particular, the effect of any foreign, state or local tax laws to which they are subject. It is emphasised that none of the Issuer, the Arranger or any other persons involved in the Programme accepts responsibility for any tax effects or liabilities resulting from the subscription for, purchase, holding or disposal of the Securities.

1. Taxation relating to payments on Notes

Subject to the following paragraphs, under Section 12(6) of the ITA, the following payments are deemed to be derived from Singapore:

- (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or
- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15.0% final withholding tax described below) to non-resident persons (other than non-resident individuals) is currently 17.0%. The applicable rate for non-resident individuals is currently 22.0%. However, if the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15.0%. The rate of 15.0% may be reduced by applicable tax treaties.

However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including:

- (a) interest from debt securities derived on or after 1 January 2004;
- (b) discount income (not including discount income arising from secondary trading) from debt securities derived on or after 17 February 2006; and

- (c) prepayment fee, redemption premium and break cost from debt securities derived on or after 15 February 2007,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

The terms “**prepayment fee**”, “**redemption premium**” and “**break cost**” are defined in the ITA as follows:

“prepayment fee”, in relation to debt securities or qualifying debt securities, means any fee payable by the Issuer of the securities on the early redemption of the securities, the amount of which is determined by the terms of the issuance of the securities;

“redemption premium”, in relation to debt securities or qualifying debt securities, means any premium payable by the Issuer of the securities on the redemption of the securities upon their maturity; and

“break cost”, in relation to debt securities or qualifying debt securities, means any fee payable by the Issuer of the securities on the early redemption of the securities, the amount of which is determined by any loss or liability incurred by the holder of the securities in connection with such redemption.

References to “prepayment fee”, “redemption premium” and “break cost” in this Singapore tax disclosure have the same meaning as defined in the ITA.

In addition, as the Programme as a whole was arranged by DBS Bank Ltd., which was a Financial Sector Incentive (Bond Market) Company (as defined in the ITA) at such time, any tranche of the Notes issued as debt securities under the Programme during the period from the date of this Information Memorandum to 31 December 2018 (“**Relevant Notes**”) would be, pursuant to the ITA and the Income Tax (Qualifying Debt Securities) Regulations (the “**QDS Regulations**”) qualifying debt securities (“**QDS**”) for the purposes of the ITA, to which the following treatment shall apply:

- (i) subject to certain prescribed conditions having been fulfilled (including the furnishing by the Issuer, or such other person as MAS may direct, to MAS of a return on debt securities for the Relevant Notes within such period as MAS may specify and such other particulars in connection with the Relevant Notes as MAS may require and the inclusion by the Issuer in all offering documents relating to the Relevant Notes of a statement to the effect that where interest, discount income, prepayment fee, redemption premium or break cost from the Relevant Notes is derived by any person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption for QDS shall not apply if the non-resident person acquires the Relevant Notes using the funds and profits of such person’s operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), prepayment fee, redemption premium and break cost (collectively, the “**Qualifying Income**”) from the Relevant Notes paid by the Issuer and derived by a holder who is not resident in Singapore and who (aa) does not have any permanent establishment in Singapore or (bb) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Notes are not obtained from such person’s operation through a permanent establishment in Singapore, are exempt from Singapore tax;
- (ii) subject to certain conditions having been fulfilled (including the furnishing by the Issuer, or such other person as MAS may direct, to MAS of a return on debt securities for the Relevant Notes within such period as MAS may specify and such other particulars in connection with the Relevant Notes as MAS may require), Qualifying Income from the Relevant Notes derived by any company or body of persons (as defined in the ITA) in Singapore, other than any non-resident who qualifies for tax exemption as described in paragraph (i) above, is subject to tax at a concessionary rate of 10.0% (except for holders of the relevant Financial Sector Incentive(s) who may be taxed at different rates); and

(iii) subject to:

- (aa) the Issuer including in all offering documents relating to the Relevant Notes a statement to the effect that any person whose interest, discount income, prepayment fee, redemption premium or break cost (i.e. the Qualifying Income) derived from the Relevant Notes is not exempt from tax shall include such income in a return of income made under the ITA; and
- (bb) the furnishing by the Issuer, or such other person as MAS may direct, to MAS of a return on debt securities for the Relevant Notes within such period as MAS may specify and such other particulars in connection with the Relevant Notes as MAS may require,

Qualifying Income derived from the Relevant Notes is not subject to withholding of tax by the Issuer.

Notwithstanding the foregoing:

- (A) if during the primary launch of the Relevant Notes, such Relevant Notes are issued to fewer than four persons and 50.0% or more of the issue of such Relevant Notes is beneficially held or funded, directly or indirectly, by related parties of the Issuer or the CRCT Manager, such Relevant Notes would not qualify as QDS; and
- (B) even though the Relevant Notes are QDS, if, at any time during the tenure of such tranche of Relevant Notes, 50.0% or more of the issue of such Relevant Notes which are outstanding during the life of their issue is beneficially held or funded, directly or indirectly, by related parties of the Issuer or the CRCT Manager, Qualifying Income derived from such Relevant Notes held by:
 - (I) any related party of the Issuer or the CRCT Manager; or
 - (II) any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer or the CRCT Manager,

shall not be eligible for the tax exemption or concessionary rate of tax at 10.0% as described above.

The term “related party”, in relation to a person, means any other person who, directly or indirectly, controls that person, or is controlled, directly or indirectly, by that person, or where he and that other person, directly or indirectly, are under the control of a common person.

Where interest, discount income, prepayment fee, redemption premium or break cost (i.e. the Qualifying Income) is derived from any of the Relevant Notes by any person who is not resident in Singapore and who carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for QDS under the ITA (as mentioned above) shall not apply if such person acquires such Relevant Notes using the funds of such person’s operations through a permanent establishment in Singapore.

Notwithstanding that the Issuer is permitted to make payments of Qualifying Income in respect of the Relevant Notes without deduction or withholding of tax under Section 45 or 45A of the ITA, any person whose interest, discount income, prepayment fee, redemption premium or break cost (i.e. the Qualifying Income) derived from the Relevant Notes is not exempt from tax is required to include such income in a return of income made under the ITA.

Under the Qualifying Debt Securities Plus Scheme (“**QDS Plus Scheme**”), subject to certain conditions having been fulfilled (including the furnishing by the Issuer, or such other person as MAS may direct, to MAS of a return on debt securities in respect of the QDS within such period

as MAS may specify and such other particulars in connection with the QDS as MAS may require), income tax exemption is granted on Qualifying Income derived by any investor from QDS (excluding Singapore Government Securities) which:-

- (a) are issued during the period from 16 February 2008 to 31 December 2018;
- (b) have an original maturity of not less than 10 years;
- (c) cannot have their tenure shortened to less than 10 years from the date of their issue, except where:
 - (i) the shortening of the tenure is a result of any early termination pursuant to certain specified early termination clauses which the Issuer included in any offering document for such QDS and which falls within the types of early termination clause prescribed in the QDS Regulations; and
 - (ii) the QDS do not contain any call, put, conversion, exchange or similar option that can be triggered at specified dates or at specified prices which have been priced into the value of the QDS at the time of their issue; and
- (d) cannot be re-opened with a resulting tenure of less than 10 years to the original maturity date.

Where the shortening of the tenure of the QDS to less than 10 years occurs under the circumstances prescribed by the QDS Regulations, the tax exemption under the QDS Plus Scheme shall not apply to Qualifying Income derived on or after the date on which the tenure of any portion of the QDS is shortened to less than 10 years from the date of its issue. Holders of any outstanding QDS may still enjoy the tax benefits under the QDS scheme, i.e. tax exemption or concessionary rate of tax as applicable, if the QDS conditions continue to be met.

In determining an investor's income that is to be exempted from tax under the QDS Plus Scheme, prescribed conditions apply in relation to how the investor's losses, expenses and capital allowances which are attributable to exempt income are to be treated.

However, even if the Relevant Notes are QDS which qualify under the QDS Plus Scheme, if, at any time during the tenure of such Relevant Notes, 50.0% or more of such Relevant Notes which are outstanding at any time during the life of their issue is beneficially held or funded, directly or indirectly, by related parties of the Issuer or the CRCT Manager, Qualifying Income from such Relevant Notes derived by:

- (i) any related party of the Issuer or the CRCT Manager; or
- (ii) any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer or the CRCT Manager,

shall not be eligible for the tax exemption under the QDS Plus Scheme as described above.

2. Taxation relating to payments on Perpetual Securities

Singapore tax classification of Hybrid Instruments

The ITA does not contain specific provisions on how financial instruments that exhibit both debt-like and equity-like features, i.e. hybrid instruments, should be treated for income tax purposes. However, the IRAS has published an e-Tax Guide: Income Tax Treatment of Hybrid Instruments on 19 May 2014 (the "**Hybrid Instruments e-Tax Guide**") which sets out the income tax treatment of hybrid instruments, including the factors that the IRAS will generally use to determine whether such instruments are debt or equity instruments for income tax purposes.

Among others, the IRAS has stated in the Hybrid Instruments e-Tax Guide that:

- (a) whether or not a hybrid instrument will be treated as debt or equity security for income tax purposes will firstly depend on its legal form, to be determined based on an examination of the legal rights and obligations attached to the instrument;
- (b) a hybrid instrument is generally characterised as equity if the legal terms of the instrument indicate ownership interests in the issuer. If the legal form of a hybrid instrument is not indicative of or does not reflect the legal rights and obligations, the facts and circumstances surrounding the instrument and a combination of factors, not limited to the following, would have to be examined to ascertain the nature of the instrument for income tax purposes.

These factors include (but are not limited to):

- (i) nature of interest acquired;
 - (ii) investor's right to participate in issuer's business;
 - (iii) voting rights conferred by the instrument;
 - (iv) obligation to repay the principal amount;
 - (v) payout;
 - (vi) investor's right to enforce payment;
 - (vii) classification by other regulatory authority; and
 - (viii) ranking for repayment in the event of liquidation or dissolution;
- (c) if a hybrid instrument is characterised as a debt instrument for income tax purposes, distributions from the issuer to the investors are regarded as interest;
 - (d) if a hybrid instrument issued by a company or a Real Estate Investment Trust (REIT) (as defined in the ITA) is characterised as an equity instrument for income tax purposes, distributions from the issuer to the investors are regarded as dividends or REIT distributions; and
 - (e) in respect of REIT distributions, the tax treatment depends on the underlying receipts from which such distributions are made and the profile of the investors.

The IRAS has also stated in the Hybrid Instruments e-Tax Guide that where a hybrid instrument is issued by a foreign issuer, the Comptroller of Income Tax in Singapore will examine the facts and circumstances, including the characterisation of the hybrid instrument in the country of the issuer, and the factors indicated above for the purpose of determining the characterisation of the distribution derived by investors in Singapore.

Tax treatment if the Perpetual Securities are characterised as debt instruments

In the event that any tranche of the Perpetual Securities is characterised as debt instruments for income tax purposes, payment of distributions (including Optional Distributions and Arrears of Distribution) in respect of such tranche of the Perpetual Securities (hereafter referred to as “**Distributions**”) and Additional Distribution Amounts should be regarded as interest payments and the disclosure under “Taxation relating to payments on Notes” summarises the income tax treatment that may be applicable on the Distributions and Additional Distributions Amounts. For the purposes of such application, all references to “Notes” and “Relevant Notes” in the disclosure under “Taxation relating to payments on Notes” shall be construed as references to “Perpetual Securities” and “Relevant Perpetual Securities” and all references to “Qualifying Income” in the aforesaid disclosure shall include Distributions.

Tax treatment if the Perpetual Securities are characterised as equity instruments

In the event that any tranche of the Perpetual Securities is characterised as equity instruments for Singapore income tax purposes and the Distributions are to be treated as capital distributions in the hands of Perpetual Securityholders, the payment of Distributions will not be subject to withholding of tax, irrespective of the profile of Perpetual Securityholders. The amount of such Distributions therefrom will be treated as a return of capital in the hands of Perpetual Securityholders and will be applied to reduce the cost of their investment in the Perpetual Securities for Singapore income tax purposes. Where Perpetual Securityholders, based on their own circumstances, are subject to Singapore income tax on gains from the disposal of the Perpetual Securities, the reduced cost of their investments will be used for the purposes of computing such gains. If the amount of Distributions exceeds the cost (or reduced cost, as the case may be) of their investment in the Perpetual Securities, the excess will be subject to tax and the sale proceeds from the subsequent sale of the Perpetual Securities will be fully taxable.

In the event that any tranche of the Perpetual Securities is characterised as equity instruments for Singapore income tax purposes but the Distributions are to be treated in the same manner as distributions on ordinary units of CRCT, the disclosure under "Taxation of distributions on ordinary units", which summarises the income tax treatment currently applicable to distributions made on ordinary units of CRCT, will be applicable to the Distributions.

Additional Distribution Amounts from Perpetual Securities

Additional Distribution Amounts, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, may be subject to withholding tax in Singapore on the basis that such amounts are interest in nature. The rate at which tax is to be withheld for such payments (other than those subject to the 15.0% final withholding tax described below) to non-resident persons (other than non-resident individuals) is currently 17.0%. The applicable rate for non-resident individuals is currently 22.0%. However, if the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15.0%. The rate of 15.0% may be reduced by applicable tax treaties.

Taxation of distributions on ordinary units

Based on the current investment portfolio of CRCT, distributions on ordinary units of CRCT may comprise all, or a combination, of the following types of distributions:

- (a) tax-exempt income distribution;
- (b) capital distribution; and
- (c) other gains distribution.

CRCT does not currently make taxable income distributions and hence current distributions are not subject to any withholding tax under Section 45G of the ITA.

Prospective holders of the relevant tranche of Perpetual Securities are advised to consult their own professional tax advisers as to the tax consequences that they may be subject to, in particular on the Distributions on the relevant tranche of Perpetual Securities, where such Distributions are treated in the same manner as distributions on ordinary units of CRCT. The statements below provide a summary of the tax treatment of distributions on ordinary units of CRCT.

Tax-exempt income distribution

Tax-exempt income distributions are exempt from tax in the hands of all Unitholders. Tax is not withheld or deducted from such distributions.

Capital distribution

Capital distributions are returns of capital to Unitholders and are therefore not income subject to tax or withholding of tax. The amount received as capital distributions will be applied to reduce the cost of Unitholder's investment in the Units for income tax purposes. Where Unitholders, based on their own circumstances, are subject to Singapore income tax on gains from the disposal of the Units, the reduced cost of their investments will be used for the purposes of computing such gains. If the amount of capital distributions exceeds the cost (or reduced cost, as the case may be) of their investment in the Units, the excess will be subject to tax and the sale proceeds from the subsequent sale of those Units will be fully taxable.

Other gains distribution

Other gains distributions are not taxable in the hands of Unitholders and are not subject to withholding of tax.

Application for tax ruling

The Issuer may apply to the IRAS for an advance tax ruling to confirm the classification of any tranche of the Perpetual Securities for Singapore income tax purposes and the Singapore tax treatment of the payment of the Distributions.

If such an application is made, the Issuer will provide relevant details of the tax ruling issued by the IRAS on its website www.crct.com.sg or via an announcement shortly after the receipt of the tax ruling.

3. Gains on disposal of Securities

Singapore does not impose tax on capital gains. Any gains considered to be in the nature of capital arising from the sale of the Securities will not be taxable in Singapore. However, any gains derived by any person from the sale of the Securities which are gains from any trade, business, profession or vocation carried on by that person, if accruing in or derived from Singapore, may be taxable as such gains are considered revenue in nature.

There are no specific laws or regulations which deal with the characterisation of capital gains. The characterisation of the gains arising from the sale of the Securities will depend on the facts and circumstances of each Securityholder (as the case may be). Holders of the Securities who have adopted or are adopting the Singapore Financial Reporting Standard 39 – Financial Instruments: Recognition and Measurement (“**FRS 39**”), may for Singapore income tax purposes be required to recognise gains or losses (not being gains or losses in the nature of capital) on the Securities, irrespective of disposal, in accordance with FRS 39. Please see the section below on “Adoption of FRS 39 Treatment for Singapore Income Tax Purposes”.

3. Adoption of FRS 39 Treatment for Singapore Income Tax Purposes

The IRAS has published an e-Tax Guide: “Income Tax Implications Arising from the Adoption of FRS 39 - Financial Instruments: Recognition & Measurement” (the “**FRS 39 e-Tax Guide**”). Legislative amendments to give legislative effect to the tax treatment set out in the FRS 39 e-Tax Guide have been enacted in Section 34A of the ITA.

The FRS 39 e-Tax Guide and Section 34A of the ITA generally apply, subject to certain “opt-out” provisions, to taxpayers who are required to comply with FRS 39 for financial reporting purposes.

Holders of the Securities who may be subject to the tax treatment under the FRS 39 e-Tax Guide and Section 34A of the ITA should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Securities.

The Accounting Standards Council has issued a new financial reporting standard for financial instruments, FRS 109 – Financial Instruments, which will become mandatorily effective for annual periods beginning on or after 1 January 2018. The Income Tax (Amendment) Bill 2017 introduced

in Parliament on 11 September 2017 incorporates proposed legislative amendments to the ITA, including the amendment for the introduction of the tax treatment under FRS 109. Based on the Bill, the tax treatment under FRS 109 largely aligns the tax treatment of financial instruments to the accounting treatment. Holders and prospective holders of the Securities should consult their own accounting and tax advisers on the tax treatment to understand the implications and consequences that may be applicable to them.

4. Estate Duty

SUBSCRIPTION, PURCHASE AND DISTRIBUTION

The Programme Agreement provides for Securities to be offered from time to time through one or more Dealers. The price at which a Series or Tranche will be issued will be determined prior to its issue between the Issuer, the CRCT Manager and the relevant Dealer(s). The obligations of the Dealers under the Programme Agreement will be subject to certain conditions set out in the Programme Agreement. Each Dealer (acting as principal) will subscribe or procure subscribers for Securities from the Issuer pursuant to the Programme Agreement.

The Arranger, the Dealers or any of their respective affiliates may have performed certain banking and advisory services for the Issuer, the CRCT Manager, CRCT and/or their respective affiliates from time to time for which they have received customary fees and expenses and may, from time to time, engage in transactions with and perform services for the Issuer, the CRCT Manager, CRCT and/or their respective affiliates in the ordinary course of the Issuer's, the CRCT Manager's, CRCT's or their respective affiliates' business. The Issuer may also from time to time agree with the relevant Dealer(s) that the Issuer may pay certain third party commissions (including, without limitation, rebates to private banks as specified in the applicable Pricing Supplement).

The Dealers and their affiliates are full service financial institutions engaged in various activities which may include securities trading, commercial and investment banking, financial advice, investment management, principal investment, hedging, financing and brokerage activities. Each of the Dealers may have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with the Issuer, the CRCT Manager, CRCT or their respective subsidiaries, jointly controlled entities or associated companies from time to time. In the ordinary course of their various business activities, the Dealers and their affiliates may make or hold (on their own account, on behalf of clients or in their capacity of investment advisers) a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments and enter into other transactions, including credit derivatives (such as asset swaps, repackaging and credit default swaps) in relation thereto. Such transactions, investments and securities activities may involve securities and instruments of the Issuer, the CRCT Manager, CRCT or their respective subsidiaries, jointly controlled entities or associated companies, including Securities issued under the Programme, may be entered into at the same time or proximate to offers and sales of Securities or at other times in the secondary market and be carried out with counterparties that are also purchasers, holders or sellers of Securities. Securities issued under the Programme may be purchased by or be allocated to any Dealer or an affiliate for asset management and/or proprietary purposes but not with a view to distribution.

United States

The Securities have not been and will not be registered under the Securities Act, and the Securities may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in transactions not subject to the registration requirements of Regulation S of the Securities Act ("**Regulation S**"). Terms used in this paragraph have the meaning given to them by Regulation S.

Bearer Securities are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and regulations thereunder.

Each Dealer has agreed that, and each further Dealer appointed under the Programme will be required to agree that, except as permitted by the Programme Agreement, it will not offer, sell or, in the case of Bearer Securities, deliver Securities, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of an identifiable tranche of which such Securities are a part, as determined and certified to the Issuing and Paying Agent by such Dealer (or, in the case of an identifiable tranche of Securities sold to or through more than one Dealer, by each of such Dealers with respect to Securities of an identifiable tranche purchased by or through it, in which case the Issuing and Paying Agent shall notify such Dealer when all such Dealers have so certified), within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each Dealer to which

it sells Securities during the distribution compliance period a confirmation or other notice setting out the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of, U.S. persons. Terms used in the preceding sentence have the meanings given to them by Regulation S.

The Securities are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S.

In addition, until 40 days after the commencement of the offering, an offer or sale of any identifiable tranche of Securities within the United States by any dealer that is not participating in the offering of such tranche of Securities may violate the registration requirements of the Securities Act.

This Information Memorandum has been prepared by the Issuer for use in connection with the offer and sale of the Securities outside the United States. The Issuer and the Dealers reserve the right to reject any offer to purchase the Securities, in whole or in part, for any reason. This Information Memorandum does not constitute an offer to any person in the United States. Distribution of this Information Memorandum by any non-U.S. person outside the United States to any U.S. person or to any other person within the United States, is unauthorised and any disclosure without the prior written consent of the Issuer of any of its contents to any such U.S. person or other person within the United States, is prohibited.

We have audited the accompanying financial statements of CapitaLand Retail China Trust (formerly known as CapitaRetail China Trust) (the “Trust”) and its subsidiaries (the “Group”), which comprise the statements of financial position of the Group and of the Trust and the portfolio statement of the Group as at 31 December 2015, the statements of total return, distribution statements and statements of movements in Unitholders’ funds of the Group and of the Trust and the statement of cash flows of the Group for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages FS1 to FS66.

Manager’s responsibility for the financial statements

CapitaLand Retail China Trust Management Limited (formerly known as CapitaRetail China Trust Management Limited) the Manager of the Trust (the “Manager”) is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of Statement of Recommended Accounting Practice 7 “*Reporting Framework for Unit Trusts*” issued by the Institute of Singapore Chartered Accountants, and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

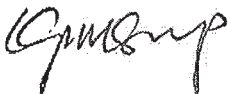

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Manager, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Notes to the financial statements

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the Manager and the Trustee on 25 February 2016.

1. General

CapitaLand Retail China Trust (formerly known as CapitaRetail China Trust) (the “Trust”) is a Singapore-domiciled unit trust constituted pursuant to the trust deed dated 23 October 2006 (as amended by a first supplemental deed dated 8 November 2006, a second supplemental deed dated 15 April 2010, a third supplemental deed dated 5 April 2012, a fourth supplemental deed dated 14 February 2014 and a fifth supplemental deed dated 6 May 2015) (collectively the “Trust Deed”) between CapitaLand Retail China Trust Management Limited (formerly known as CapitaRetail China Management Limited) (the “Manager”) and HSBC Institutional Trust Services (Singapore) Limited (the “Trustee”). The Trust Deed is governed by the laws of the Republic of Singapore. The Trustee is under a duty to take into custody and hold the assets of the Trust held by it or through its subsidiaries (the “Group”) in trust for the holders (“Unitholders”) of Units in the Trust (the “Units”).

The Trust was formally admitted to the Official List of the Singapore Exchange Securities Trading Limited (the “SGX-ST”) on 8 December 2006 (the “Listing Date”) and was included under the Central Provident Fund (“CPF”) Investment Scheme on 8 December 2006.

The principal activities of the Trust are those relating to investment in a diversified portfolio of income-producing properties located primarily in the People’s Republic of China (“China”), Hong Kong and Macau and used primarily for retail purposes.

The principal activities of the subsidiaries are those of investment holding of properties located in China and used for retail purposes.

The Group has entered into several service agreements in relation to the management of the Trust and its property operations. The fee structures for these services are as follows:

(a) Trustee’s fees

Pursuant to Clause 14.3 of the Trust Deed, the Trustee’s fee shall not exceed 0.03% per annum of the value of all the assets of the Group (“Deposited Property”), subject to a minimum of \$15,000 per month, excluding out of pocket expenses and Goods and Service Tax.

(b) Manager’s management fees

The Manager is entitled under Clauses 14.1.3, 14.1.4 and 14.1.6 of the Trust Deed to the following management fees:

- a base fee of 0.25% per annum of the value of the Deposited Property;

- a performance fee of 4.0% per annum of the net property income in the relevant financial year (calculated before accounting for the performance fee in that financial year); and
- an authorised investment management fee of 0.5% per annum of the value of authorised investments which are not real estate. Where such authorised investment is an interest in a property fund (either a real estate investment trust or private property fund) wholly managed by a wholly-owned subsidiary of CapitaLand Limited, no authorised investment management fee shall be payable in relation to such authorised investment.

The Manager may, in accordance with Clause 14.1.8(i) of the Trust Deed elect to receive the management fees in cash or Units or a combination of cash and/or Units (as it may in its sole discretion determine). Pursuant to Clauses 14.1.3 and 14.1.4 of the Trust Deed, the management fees are computed and payable on a quarterly basis.

(c) Property management fees

Under the property management agreements in respect of each property, the property managers will provide lease management services, property tax services and marketing co-ordination services in relation to that property. The property managers are entitled to the following fees:

- 2.0% per annum of the gross revenue;
- 2.0% per annum of the net property income; and
- 0.5% per annum of the net property income in lieu of leasing commissions otherwise payable to the property managers and/or third party agents.

(d) Acquisition fee

For any authorised investment acquired from time to time by the Trustee on behalf of the Trust, the acquisition fee payable to the Manager under Clause 14.2 of the Trust Deed shall be:

- up to 1.5% of the purchase price in the case of any authorised investment (as defined in the Trust Deed) acquired by the Trust for less than \$200 million; and
- 1.0% of the purchase price in the case of any authorised investment acquired by the Trust for \$200 million or more.

The acquisition fee payable in respect of any authorised investment acquired from time to time by the Trustee on behalf of the Trust from CapitaLand Mall China Income Fund I (formerly known as CapitaMalls China Income Fund), CapitaLand Mall China Income Fund II (formerly known as CapitaMalls China Income Fund II), CapitaLand Mall China Income Fund III (formerly known as CapitaMalls China Income Fund III), CapitaLand Mall China Development Fund III (formerly known as CapitaMalls China Development Fund III), or CapitaLand Mall Asia Limited (formerly known as CapitaMalls Asia Limited) shall be 1.0% of the purchase price paid by the Trust.

No acquisition fee was payable for the acquisition of the initial property portfolio of the Trust.

The acquisition fee is payable to the Manager in the form of cash and/or Units (as the Manager may elect) at the prevailing market price provided that in respect of any acquisition of real estate assets from interested parties, such a fee should, if required by the applicable laws, rules and/or regulations, be in the form of Units issued by the Trust at prevailing market price(s) and subject to such transfer restrictions as may be imposed.

Any payment to third party agents or brokers in connection with the acquisition of any authorised investments for the Trust shall be paid by the Manager to such persons out of the Deposited Property of the Trust or the assets of the relevant special purpose vehicle, and not out of the acquisition fee received or to be received by the Manager.

(e) Divestment fee

Under Clause 14.2 of the Trust Deed, the Manager is entitled to receive a divestment fee of 0.5% of the sale price of any authorised investment disposed directly or indirectly by the Trust, prorated if applicable to the proportion of the Trust's interest.

The divestment fee is payable to the Manager in the form of cash and/or Units (as the Manager may elect) at the prevailing market price provided that in respect of any divestment of real estate assets to interested parties, such a fee should, if required by the applicable laws, rules and/or regulations, be in the form of Units issued by the Trust at prevailing market price(s) and subject to such transfer restrictions as may be imposed.

Any payment to third party agents or brokers in connection with the divestment of any authorised investments for the Trust shall be paid by the Manager to such persons out of the Deposited Property of the Trust or the assets of the relevant special purpose vehicle, and not out of the divestment fee received or to be received by the Manager.

2. Basis of preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with the recommendations of the Statement of Recommended Accounting Practice ("RAP") 7 "*Reporting Framework for Unit Trusts*" issued by the Institute of Singapore Chartered Accountants, the applicable requirements of the Code on Collective Investment Schemes (the "CIS Code") issued by the Monetary Authority of Singapore ("MAS") and the provisions of the Trust Deed. RAP 7 requires that accounting policies adopted should generally comply with the principles relating to recognition and measurement of the Singapore Financial Reporting Standards ("FRS").

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following material items on the statement of financial position:

- derivative financial instruments are measured at fair value;
- investment properties are measured at fair value.

(c) Functional and presentation currency

Items included in the financial statements of each entity in the Group are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to that entity (the “functional currency”). The consolidated financial statements of the Group are presented in Singapore dollars, which is the functional currency of the Trust. All financial information presented in Singapore dollars has been rounded to the nearest thousand, unless otherwise stated.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with RAP 7 requires the Manager to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Note 4 – Valuation of investment properties;
- Note 27 – Valuation of financial instruments.

Measurement of fair values

A number of the Group’s accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 4 – Investment properties;
- Note 27 – Valuation of financial instruments.

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, and have been applied consistently by Group entities.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The Group's acquisition of subsidiaries are primarily accounted for as acquisitions of assets as the subsidiaries are special purpose vehicles established for the sole purpose of holding assets.

(ii) Loss of control

Upon the loss of control, the Trust derecognises the assets and liabilities of the subsidiary, any non-controlling interest and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in the statement of total return.

If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

(iii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(iv) Accounting for subsidiaries by the Trust

Investments in subsidiaries are stated in the Trust's statement of financial position at cost less accumulated impairment losses.

(b) Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated at the foreign exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated at the foreign exchange rates at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated at the foreign exchange rates at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on retranslation are recognised in the statement of total return, except for differences arising on the retranslation of monetary items that in substance form part of the Group's net investment in a foreign operation (see Note 3(b)(iii)) and financial derivatives designated as hedges of the net investment in a foreign operation (see Note 3(b)(iv)).

(ii) Foreign operations

The assets and liabilities of foreign operations are translated to Singapore dollars at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Singapore dollars at exchange rates at the dates of the transactions. Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the exchange rate at the reporting date.

Foreign currency differences are recognised in the foreign currency translation reserve. When a foreign operation is disposed of, in part or in full, the relevant amount is transferred to the statement of total return.

(iii) Net investment in a foreign operation

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation. These are recognised in Unitholders' funds and are presented in the foreign currency translation reserve.

(iv) Hedge of net investment in foreign operation

Foreign currency differences arising on the retranslation of a financial instrument designated as a hedge of a net investment in a foreign operation are recognised in Unitholders' funds to the extent that the hedge is effective, and are presented in the foreign currency translation reserve. To the extent that the hedge is ineffective, such differences are recognised in the statement of total return. When the hedged net investment is disposed of, the cumulative amount in the foreign currency translation reserve is transferred to the statement of total return as an adjustment to the gain or loss arising on disposal.

(c) Financial instruments

(i) Non-derivative financial assets

The Group initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Group has loans and receivables as its non-derivative financial assets.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise non-trade amounts due from subsidiaries, trade and other receivables excluding prepayments and cash and cash equivalents.

Cash and cash equivalents comprise cash balances and bank deposits.

(ii) Non-derivative financial liabilities

Financial liabilities are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Group has the following non-derivative financial liabilities: trade and other payables, security deposits and interest-bearing borrowings.

Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

(iii) Derivative financial instruments, including hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and the combined instrument is not measured at fair value through the statement of total return.

On initial designation of the hedge, the Group formally documents the relationship between the hedging instrument and hedged item, including the risk management objectives and strategy in undertaking the hedge transaction and the hedged risk, together with the methods that will be used to assess the effectiveness of the hedging relationship. The Group makes an assessment, both at the inception of the hedge relationship as well as on an ongoing basis, of whether the hedging instruments are expected to be “highly effective” in offsetting the changes in the fair value or cash flows of the respective hedged items attributable to the hedged risk, and whether the actual results of each hedge are within a range of 80%-125%. For a cash flow hedge of a forecast transaction, the transaction should be highly probable to occur and should present an exposure to variations in cash flows that could ultimately affect the statement of total return.

Derivatives are recognised initially at fair value; attributable transaction costs are recognised in the statement of total return when incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

Cash flow hedges

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect total return, the effective portion of changes in the fair value of the derivative is recognised and presented in the hedging reserve in Unitholders' fund. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in the statement of total return.

When the hedged item is a non-financial asset, the amount recognised in the hedging reserve is transferred to the carrying amount of the asset when it is recognised. In other cases, the amount recognised in the hedging reserve is transferred to the statement of total return in the same period that the hedged item affects the statement of total return. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, or the designation is revoked, then the hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised and presented in the hedging reserve in Unitholders' fund remains there until the forecast transaction occurs. If the forecast transaction is no longer expected to occur, then the balance in the hedging reserve is recognised immediately in the statement of total return.

(d) Investment properties

Investment properties are properties held either to earn rental income or capital appreciation or both. Investment properties are accounted for as non-current assets and are stated at initial cost on acquisition and at fair value thereafter. The cost of a purchased property comprises its purchase price and any directly attributable expenditure. Transaction costs are included in the initial measurement. Fair value is determined in accordance with the Trust Deed, which requires the investment properties to be valued by independent registered valuers at least once a year in accordance with the CIS Code issued by the MAS.

Any increase or decrease on revaluation is credited or charged to the statement of total return as a net change in fair value of the investment properties.

Subsequent expenditure relating to investment properties that have already been recognised is added to the carrying amount when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset will flow to the Group.

All other subsequent expenditure is recognised as an expense in the period in which it is incurred.

When an investment property is disposed of, the resulting gain or loss recognised in the statement of total return is the difference between the net disposal proceeds and the carrying amount of the property.

Investment properties are not depreciated. The properties are subject to continued maintenance and regularly revalued on the basis set out above.

(e) Plant and equipment

(i) Recognition and measurement

Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset.

When parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

Gains or losses arising from the retirement or disposal of plant and equipment are determined as the difference between the estimated net disposal proceeds and the carrying amount of the asset and are recognised in the statement of total return on the date of retirement or disposal.

(ii) Subsequent costs

The cost of replacing part of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The cost of the day-to-day servicing of plant and equipment are recognised in the statement of total return as incurred.

(iii) Depreciation

Depreciation is provided on a straight-line basis so as to write off items of plant and equipment, and major components that are accounted for separately, over their estimated useful lives as follows:

Improvement to premises	- 5 years
Plant and machinery	- 3 to 5 years
Motor vehicles	- 5 years
Furniture, fittings and equipment	- 2 to 5 years

Depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate, at each reporting date.

(f) Impairment

(i) Financial assets (including receivables)

A financial asset not carried at fair value through the statement of total return is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor will enter bankruptcy.

The Group considers evidence of impairment for receivables at both a specific asset and collective level. All individually significant receivables are assessed for specific impairment. All individually significant receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Receivables that are not individually significant are collectively assessed for impairment by grouping together receivables with similar risk characteristics.

In assessing collective impairment, the Group uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in the statement of total return and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised. When the Group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through the statement of total return.

(ii) Non-financial assets

The carrying amounts of the Group's non-financial assets, other than investment properties, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ("CGU") is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of total return. Impairment losses recognised in respect of the CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a *pro rata* basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(g) Unitholders' funds

Unitholders' funds represent the residual interests in the Group's net assets upon termination and are classified as equity.

Expenses incurred in connection with the issuance of Units in the Trust are deducted directly against the Unitholders' funds.

(h) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are recognised as an expense in the statement of total return as incurred.

(ii) Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A provision is recognised for the amount expected to be paid under short-term cash bonus if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(i) Distribution policy

The Trust's distribution policy is to distribute at least 90.0% of its distributable income in each financial year to Unitholders, other than from the sale of properties that are determined by Inland Revenue Authority of Singapore to be trading gains.

(j) Revenue recognition

(i) Rental income

Rental income receivable under operating leases is recognised on a straight-line basis over the term of the lease, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased assets. Lease incentives granted are recognised as an integral part of the total rental to be received. Contingent rentals, which include gross turnover rental, are recognised as income in the accounting period on an earned basis. No contingent rental is recognised if there are uncertainties due to the possible return of the amounts received.

(ii) Dividend income

Dividend income is recognised when the right to receive payment is established.

(k) Lease payments

Payment made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

(l) Expenses

(i) Property expenses

Property expenses are recognised on an accrual basis.

(ii) Manager's management fees, property management fees and Trustee's fees

These are recognised on an accrual basis based on the applicable formula stipulated in Note 1.

(m) Finance income and finance costs

Finance income comprises interest income recognised in the statement of total return as it accrues, using the effective interest method and gain on hedging instruments that are recognised in the statement of total return.

Finance costs which comprise interest expense on borrowings and expense incurred in connection with borrowings are recognised in the statement of total return, using the effective interest method over the period of the borrowings and loss on hedging instruments that are recognised in the statement of total return.

(n) Taxation

Taxation on the returns for the year comprises current and deferred tax. Taxation is recognised in the statement of total return except to the extent that it relates to items recognised directly in Unitholders' fund.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit; and
- temporary differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the unused tax losses and credits can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefits will be realised.

Except for the tax exemption as described below, income earned by the Trust will be subject to Singapore income tax at the Trust level at the prevailing corporate tax rate.

The Trust is exempted from Singapore income tax under Section 13(12) of the Singapore Income Tax Act on the following income:

- (i) dividends; and
- (ii) interest on shareholders' loans,

payable by its subsidiaries in Barbados and Singapore out of underlying rental income derived from the investment properties in China.

This exemption is granted subject to certain conditions, including the condition that the Trustee is a tax resident of Singapore.

The tax exemption also applies to dividends payable by these subsidiaries out of gains, if any, derived from the disposal of their shares in the subsidiaries in China.

(o) Earnings per unit

The Group presents basic and diluted earnings per unit (“EPU”) data for its Units. Basic EPU is calculated by dividing the total return attributable to Unitholders of the Group by the weighted average number of ordinary Units outstanding during the period. Diluted EPU is determined by adjusting the total return attributable to Unitholders and the weighted average number of Units outstanding for the effects of all dilutive potential Units.

(p) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group’s other components. Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-Makers (“CODMs”). The CODMs has been identified as the Chief Executive Officer (“CEO”) and Head of Finance.

Segment results that are reported to the CODMs include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly financial derivative assets and liabilities, other receivables, cash and cash equivalents, trade and other payables, and interest-bearing borrowings.

Segment capital expenditure is the total cost incurred during the year to acquire plant and equipment and capital expenditure on investment properties.

(q) New standards, interpretations and revised recommended accounting practice not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2015, and have not been applied in preparing these financial statements. The Group is currently assessing the potential impact of adopting these new standards and interpretations, on the financial statements of the Group.

These new standards include, among others, FRS 115 *Revenue from Contracts with Customers* and FRS 109 *Financial Instruments* which are mandatory for adoption by the Company on 1 January 2018.

- FRS 115 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It also introduces new cost guidance which requires certain costs of obtaining and fulfilling contracts to be recognised as separate assets when specified criteria are met. When effective, FRS 115 replaces existing revenue recognition guidance, including FRS 18 *Revenue*, FRS 11 *Construction Contracts*, INT FRS 113 *Customer Loyalty Programmes*, INT FRS 115 *Agreement Agreements for the Construction of Real Estate*, INT FRS 118 *Transfers of Assets from Customers* and INT FRS 31 *Revenue – Barter Transactions Involving Advertising Services*.

- FRS 109 replaces most of the existing guidance in FRS 39 *Financial Instruments: Recognition and Measurement*. It includes revised guidance on classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements.

As FRS 115 and FRS 109, when effective, will change the existing accounting standards and guidance applied by the Company in accounting for revenue and financial instruments, these standards are expected to be relevant to the Company. The Company does not plan to adopt these standards early.

Investment properties are stated at fair value based on valuation performed by independent professional valuers having appropriate recognised professional qualifications and recent experience in the location and category of property being valued. In determining the fair value, the valuers have used valuation methods which involve certain estimates. The Manager reviews the key valuation parameters and underlying data including market-corroborated capitalisation rates, term and reversion rates and discount rates adopted by the valuers and is of the view that the valuation methods and estimates are reflective of the current market conditions.

The fair values are based on open market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction wherein the parties had each acted knowledgeably and without compulsion.

The valuers have considered valuation techniques including the capitalisation, discounted cash flows and/or term and reversion approaches in arriving at the open market value as at the reporting date.

The capitalisation approach capitalises an income stream into a present value using revenue multipliers or single-year capitalisation rates. The discounted cash flow method involves the estimation and projection of an income stream over a period and discounting the income stream with a risk adjusted discount rates to arrive at the market value. The term and reversion approach capitalises net rental income on a fully leased basis with regards to the current passing rental income from existing tenancies and potential future reversionary income at the market level.

Fair value of the investment properties were based on independent professional full valuations carried out by the following valuers on the dates stated below:

Contingent rents, representing income based on certain sales achieved by tenants, recognised in the statement of total return during the year amounted to \$12.5 million (2014: \$11.9 million).

As these amounts are, in substance, a part of the Trust's net investments in the subsidiaries, they are stated at cost, less accumulated impairment. The remaining \$9.5 million (2014: \$18.7 million) of the non-trade amounts due from subsidiaries are unsecured, interest-free and repayable on demand. The loans to subsidiaries bear interest fixed at 7.5% (2014: 7.5%).

Concentration of credit risk relating to loans and receivables is limited as the Group has many varied tenants located in several cities in China and a credit policy of obtaining security deposits from tenants for the lease of units in the Group's investment properties. These tenants comprise retailers engaged in a wide variety of consumer trades.

The maximum exposure to credit risk for loans and receivables at the reporting date (by geographical area in China) is:

The majority of the trade receivables are mainly from tenants that have good credit records with the Group. The allowance account in respect of trade receivables is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible; at that point the amounts are considered irrecoverable and are written off against the financial asset directly. During the year ended 31 December 2015, the Group collected \$nil million (2014: \$0.1 million) of its impaired trade receivables.

The Group's historical experience in the collection of loans and receivables falls within the recorded allowances. The Manager believes that no additional credit risk beyond the amounts provided for collection losses is inherent in the Group's loans and receivables, based on historical payment behaviours and the security deposits held (if applicable).

These facilities have negative pledge covenants which require the Trust, amongst others:

- (i) not to, without the prior written consent of the lender, create or have outstanding any security on or over the Group’s interest in any of the investment properties;
- (ii) in the event of a sale of any of the investment properties, to repay an amount equal to the proportion of the market value of the investment properties sold to the total market value of the investment properties as determined by the lender based on the latest annual valuation reports of the investment properties; and
- (iii) not to provide any guarantee for any other entities except for secured borrowings for new investment properties acquired with existing mortgages.

The Trust Term Loan Facilities are repayable in full at maturity, although the Trust has the option to make early prepayments.

In respect of the unsecured RMB term loan, it was fully repaid on 30 June 2014.

- (b) At the reporting date, secured loan comprises a RMB term loan of \$79.6 million (RMB360.0 million) (2014: \$104.9 million (RMB495.0 million)). Interest rates for the term loan bear interest referenced against 3 to 5 years People's Bank of China ("PBOC") base lending rate.

As security for the loan, the Trust has granted in favour of the lender the following:

- (i) a mortgage over CapitaMall Grand Canyon;
- (ii) an assignment of the rental revenue of CapitaMall Grand Canyon; and
- (iii) an assignment of the insurance policies relating to CapitaMall Grand Canyon.

In respect of the secured RMB term loan, RMB12.5 million is payable on a semi-annual basis from June 2014. The outstanding loan balance of RMB297.5 million is payable in full upon maturity on 19 December 2018. The RMB bridge loan of RMB540.0 million was fully repaid in 2014.

- a Unitholder has no right to request the Manager to redeem his Units while the Units are listed on the SGX-ST.

A Unitholder's liability is limited to the amount paid or payable for any unit in the Trust. The provisions of the Trust Deed provide that no Unitholder will be personally liable to indemnify the Trustee or any creditor of the Trustee in the event that the liabilities of the Trust exceed its assets.

16. Total Unitholders' distribution

Unitholders' distribution for the year is accounted for as distribution from operations and distribution from Unitholders' contributions:

(a) Distribution from operations

This refers to distribution made by the Trust that is represented by income received or receivable during the financial year, as the case may be, net of expenses. Such income comprises mainly the following:

- dividend from subsidiaries in Barbados and Singapore paid out of dividend declared by the subsidiaries in China;
- dividend from subsidiaries in Barbados and Singapore paid out of net interest income earned by subsidiaries in Barbados and Singapore on shareholders' loans extended to subsidiaries in China; and
- interest income earned by the Trust on shareholders' loans extended to subsidiaries in Barbados and Singapore.

The above income originates from income derived by the subsidiaries in China in respect of the current financial year.

(b) Distribution from Unitholders' contributions

This refers to the amount of distribution made by the Trust for the financial year where the underlying cash is not, or may not be, received or receivable as income by the Trust during that period. Such distribution comprises mainly the following:

- profits from operations arising from the investment properties which are declared as dividend income after the financial year, as the case may be, and accordingly also received as dividends by the Trust after that year;
- profits from operations arising from the investment properties which cannot be declared as dividends;
- adjustment for depreciation expenses of the investment properties; and
- adjustments for trust expenses that are paid in Units, foreign currency differences attributable to net investment hedges undertaken by the Trust and certain unrealised expenses.

Income available for distribution to Unitholders at end of the year

Distributions are made on a semi-annual basis, with the amount calculated as at 30 June and 31 December each year for the six-month period ending on each of the said dates. In accordance with the provisions of the Trust Deed, the Manager is required to pay distributions within 90 days from the end of each distribution period. Distributions, when paid, will be in Singapore dollars.

Distributions for the period from 1 January 2015 to 30 June 2015 had been paid on 22 September 2015. Distributions for the period from 1 July 2015 to 31 December 2015 will be paid within 90 days of the end of the distribution period, in accordance with the provisions of the Trust Deed.

23. Related party transactions

For the purposes of these financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common significant influence. Related parties may be individuals or other entities. The Manager, being CapitaLand Retail China Trust Management Limited (formerly known as CapitaRetail China Management Limited) is an indirect wholly-owned subsidiary of a substantial Unitholder of the Trust. The Property and Project Managers, being CapitaLand Retail (Shanghai) Management & Consulting Co., Ltd. and CapitaLand Retail (Beijing) Facilities & Projects Consulting Co., Ltd. are indirect wholly-owned subsidiaries of a substantial Unitholder of the Trust.

In the normal course of the operations of the Trust, the Manager's management fees and the Trustee's fees have been paid or are payable to the Manager and Trustee respectively. The property management fees, reimbursables and project management fees have been paid or are payable to the Property and Project Managers respectively.

Notes:

- ⁽¹⁾ The annualised ratio is computed in accordance with the guidelines of the Investment Management Association of Singapore. The expenses used in the computation relate to expenses at the Group level, excluding property related expenses and borrowing costs.
- ⁽²⁾ The annualised ratio is computed based on the lesser of purchases or sales of underlying investment properties of the Group expressed as a percentage of weighted average net asset value.

25. Operating segments

The Group has ten reportable segments, as described below, which are the Group's investment properties. The investment properties are managed separately because they require different operating and marketing strategies. For each of the investment properties, the CODMs review internal management reports on a monthly basis.

All of the Group's reportable segments are investment properties located in China used primarily for retail purposes. The reporting segments are as follows:

- CapitaMall Xizhimen
- CapitaMall Wangjing
- CapitaMall Grand Canyon
- CapitaMall Anzhen
- CapitaMall Erqi
- CapitaMall Minzhongleyuan
- CapitaMall Shuangjing
- CapitaMall Qibao
- CapitaMall Saihan
- CapitaMall Wuhu

Segment revenue comprises mainly income generated from its tenants. Segment net property income represents the income earned by each segment after allocating property operating expenses. This is the measure reported to the CODMs for the purpose of assessment of segment performance. In addition, the CODMs monitor the non-financial assets as well as financial assets attributable to each segment when assessing segment performance.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly the Trust's financial assets and liabilities and its expenses. Segment capital expenditure is the total cost incurred during the year to acquire segment assets that are expected to be used for more than one year.

Information regarding the Group's reportable segments is presented in the tables in the following pages.

For the purpose of monitoring segment performance, the Group's CODMs monitor the non-financial assets as well as financial assets attributable to each segment.

27. Capital and financial risk management

Capital management

The Group's objectives when managing capital are to optimise Unitholders' value through the combination of available capital sources which include debt and equity instruments whilst complying with statutory and constitutional capital and distribution requirements, maintaining aggregate leverage and interest service coverage ratio within approved limits. As a key part of the Group's overall strategy, the Board of the Manager reviews the Group and the Trust's debt and capital management cum financing policy regularly so as to optimise the Group and the Trust's funding structure. The Board also monitors the Group and the Trust's exposure to various risk elements by closely adhering to clearly established management policies and procedures.

The Group is subject to the aggregate leverage limit as defined in Appendix 6 of the CIS Code (“Property Fund Appendix”). The Property Fund Appendix stipulates that the total borrowings and deferred payments (together, the “Aggregate Leverage”) of a property fund should not exceed 35.0% of its Deposited Property except that the Aggregate Leverage of a property fund may exceed 35.0% of its Deposited Property (up to a maximum of 60.0%) if a credit rating of the property fund from Fitch Inc., Moody’s or Standard and Poor’s is obtained and disclosed to the public. The Group’s aggregate leverage limit did not exceed 35.0% during the year, and was 27.7% (2014: 28.7%) as at 31 December 2015. In computing the aggregate leverage, the Trust has considered the effect of hedging the net assets denominated in RMB.

There were no changes in the Group’s approach to capital management during the financial year.

Financial risk management

Overview

The Group’s returns are primarily from net operating income and capital appreciation of its assets. However, these returns are exposed to financial risks including credit, liquidity, interest rate and foreign currency risks.

Financial risk management is integral to the whole business of the Group. The Group adopts an integrated approach to manage the financial risks arising in the normal course of the Group’s business. The Group has written risk management policies and guidelines, and established processes to monitor and manage significant exposures. Risk management policies and processes are reviewed regularly to reflect changes in market conditions and the Group’s activities.

The Group adheres to standardised accounting and financial policies and exercises effective controls over the financial affairs of its subsidiaries. This is achieved by ensuring group-wide adherence to a comprehensive set of guidelines covering contracts, policies and procedures and other requirements. Adequate measures are in place to ensure that the reliability and integrity of financial information compiled from subsidiaries are kept intact.

Credit risk

While it is necessary to assume a certain level of tenant credit risks to remain competitive in China, the Group has established credit limits for tenants and monitors their balances on an ongoing basis. Risks associated with credit limits are reflected in the level of security deposits and bank guarantees placed as collateral in respect of the leases. Appropriate risk mitigating actions are in place to manage trade receivables.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

The allowance account in respect of trade and other receivables is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible. At that point, the financial asset is considered irrecoverable and the amount charged to the allowance account is written off against the carrying amount of the impaired financial asset.

Cash and fixed deposits are placed with banks and financial institutions which are regulated.

Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows. Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a reasonable period, including the servicing of financial obligations.

In addition, the Group maintains the following debt facilities and programme as at 31 December 2015:

United States dollar ("US\$") denominated facilities:

- US\$50.0 million money market line facility
- US\$20.0 million money market line facility

Multicurrency Medium Term Notes:

- \$500.0 million multicurrency Medium Term Note ("MTN") Programme

As at 31 December 2015, the Group has drawn down \$550.5 million of its trust term loan facilities and \$77.0 million of the money market line facilities. The Group has also drawn down RMB360.0 million of the five-year secured term loan facility.

The Group also monitors and observes the Property Fund Appendix issued by MAS concerning limits on total borrowings.

Interest rate risk

The Manager adopts a proactive interest rate management policy to manage the risk associated with changes in interest rates on the Group's loan facilities while also seeking to ensure that the ongoing cost of debt remains competitive.

As at 31 December 2015, the Group has interest rate swaps ("IRS") with notional contract amount of \$425.5 million (2014: \$388.5 million). The Group pays a fixed rate interest and receives a variable rate equal to the Swap Offer Rate ("SOR") on the notional contract amount. The Group classifies the IRS as cash flow hedges to hedge the exposure in interest rate fluctuations on certain of its term loans.

The term loans and the underlying IRS have the same terms and conditions.

The Manager proactively seeks to minimise the level of interest rate risk by locking the majority of the Group's borrowings at fixed rates. As at 31 December 2015, the Group has locked in approximately 74.3% (2014: 72.6%) of its borrowings at fixed rates.

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial liabilities at fair value through profit or loss and the Group does not designate interest rate derivatives as hedging instruments under a fair value hedge accounting model. Therefore a change in interest rates at the reporting date would not affect the statement of total return.

Cash flow sensitivity analysis for variable rate instruments

The net change in fair value of the interest component of IRS as at 31 December 2015 of \$5.1 million (2014: \$2.3 million), representing the effective portion of the cash flow hedge, has been recognised directly in hedging reserves.

Effects of a 100 basis point ("bp")* movement in interest rate at the reporting date would increase/(decrease) statement of total return and Unitholders' funds by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2014.

Foreign currency risk

The Group is exposed to foreign currency risk on cash holdings and operating expenses that are denominated in a currency other than the respective functional currencies of the Group entities. The currencies giving rise to this risk are primarily the US\$ and RMB.

As the Trust intends to be a long term investor in China, the Manager has taken a view not to hedge the RMB equity exposure arising from its investments in China unless certain risks are specifically identified. The Manager's strategy is to achieve a natural hedge through local RMB financing and any non-RMB denominated loan will be hedged into RMB where possible, to protect the going concern of the Trust in the event of large currency fluctuation. However, the Manager will hedge the RMB cash flow from operations if it is determined with certainty that they are to be remitted back to Singapore for distribution purposes.

The Group's and Trust's exposures to foreign currency are as follows:

Sensitivity analysis

A 10% strengthening of Singapore dollar against the US\$ and RMB at the reporting date would increase/(decrease) total return after tax by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2014.

A 10% weakening of Singapore dollar against the US\$ and RMB would have had equal but opposite effect on the US\$ and RMB to the amounts shown above, on the basis that all other variables remain constant.

Hedge of net investment in foreign operation

The non-deliverable forwards (“NDF”) of \$390.0 million (2014: \$258.0 million) are designated as hedges of the Group’s net investment in certain subsidiaries in China.

The net change in fair value of the net investment hedge comprised the effective portion of \$1.9 million (2014: \$7.0 million) which was recognised in the foreign currency translation reserve.

Sensitivity analysis

For NDF (accounted for as net investment hedges), a 10% strengthening/weakening of Singapore dollar against the RMB at the reporting date would increase/(decrease) Unitholders' funds as at 31 December 2015 by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2014.

Estimation of fair value

The following summarises the significant methods and assumptions used in estimating the fair values of financial instruments of the Group and Trust.

Financial derivatives

The fair values of non-deliverable forwards and interest rates are based on banks' quotes. These quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date. Fair values reflect the credit risk of the Group entity and counterparties when appropriate.

Interest-bearing borrowings

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

Other financial assets and liabilities

The carrying amounts of financial assets and liabilities (including non-trade amounts due from subsidiaries, trade and other receivables, cash and cash equivalents, trade and other payables and current security deposits) are assumed to approximate their fair values because they are either short term in nature, or effect of discounting is immaterial. All other financial assets and liabilities (non-current security deposits) are discounted to determine their fair values.

Interest rates used in determining fair values

The interest rates used to discount estimated cash flows, where applicable, are based on the forward yield curve as at 31 December 2015 plus an adequate constant credit spread, and are as follows:

	2015	2014
	% p.a.	% p.a.
Interest-bearing borrowings	1.33 – 6.00	1.31 – 6.40
Security deposits	2.79	1.84

Offsetting financial assets and financial liabilities

The disclosures set out in the tables below include financial assets and financial liabilities that:

- are offset in the Trust's statements of financial position; or
- are subject to an enforceable master netting arrangement, irrespective of whether they are offset in the statement of financial position

Financial instruments such as loans and receivables and financial liabilities are not disclosed in the tables below unless they are offset in the statements of financial position.

The Trust's derivative transactions that are not transacted on an exchange are entered into under International Swaps and Derivatives Association ("ISDA") Master Agreements. In certain circumstances, for example when a termination event such as a default occurs, all outstanding transactions under the agreement are terminated, the termination value is assessed and only a single net amount is due or payable in settlement of all transactions.

Under the agreements signed, the Trust and its counterparties neither have a legal obligation nor intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously. In addition, the right of set-off of recognised amounts is enforceable only following the occurrence of a termination event as set out in the agreements. Accordingly, the ISDA agreements do not meet the criteria for offsetting and the derivatives financial instruments presented below are not offset in the Statement of Financial Position.

Financial assets and liabilities subject to offsetting and enforceable master netting arrangement under termination events

Independent auditors' report

Unitholders of CapitaLand Retail China Trust
(Constituted under a trust deed dated 23 October 2006 (as amended) in the Republic of Singapore)

Report on the audit of the financial statements

Opinion

We have audited the accompanying financial statements of CapitaLand Retail China Trust (the "Trust") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position and consolidated portfolio statement of the Group and the statement of financial position of the Trust as at 31 December 2016, the consolidated statement of total return, consolidated distribution statement, consolidated statement of movements in Unitholders' funds and consolidated statement of cash flows of the Group and the statement of total return, distribution statement and statement of movements in Unitholders' funds of the Trust for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages FS1 to FS65.

In our opinion, the consolidated financial statements of the Group and the statement of financial position, statement of total return, distribution statement and statement of movements in Unitholders' funds of the Trust present fairly, in all material respects, the consolidated financial position and the portfolio holdings of the Group and the financial position of the Trust as at 31 December 2016 and the consolidated total return, consolidated distributable income, consolidated movements in Unitholders' funds and consolidated cash flows of the Group and the total return, distributable income, and movements in Unitholders' funds of the Trust for the year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "*Reporting Framework for Unit Trusts*" ("RAP 7") issued by the Institute of Singapore Chartered Accountants.

Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the '*Auditors' responsibilities for the audit of the financial statements*' section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KPMG LLP (Registration No. T08LL1267L), an accounting limited liability partnership registered in Singapore under the Limited Liability Partnership Act (Chapter 163A) and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of investment properties

(Refer to Portfolio Statement and Note 4 to the financial statements)

Risk

The Group owns and invests in a portfolio of 11 shopping malls located in 7 cities in China. Investment properties represent the largest asset item on the consolidated statement of financial position, at S\$2.63 billion as at 31 December 2016.

The investment properties are stated at their fair value based on independent external valuations. The valuation process involves significant judgement in determining the appropriate valuation methodologies and in estimating the underlying assumptions to be applied in the valuations. Any changes in the key assumptions applied could result in a material impact to the financial statements.

Our response

We evaluated the objectivity, qualifications and competence of the external valuers and held discussions with the valuers to understand their valuation approaches, assumptions used and basis of valuations. We considered the valuation methodologies against those applied by other valuers for similar property type.

We compared the projected cash flows used in the valuation to supporting leases and other documents. We evaluated the appropriateness of the discount, capitalisation and terminal yield rates used in the valuation by comparing them against historical trends and available industry data, taking into consideration comparability and market factors. Where the rates were outside the expected range, we undertook further procedures to understand the effect of additional factors and, when necessary, held further discussions with the valuers.

Our findings

We found the external valuers to be objective and competent. The valuers are members of generally-recognised professional bodies for valuers. The valuation methodologies used are in line with generally accepted market practices and the key assumptions used are supported by market data.

Other information

CapitaLand Retail China Trust Management Limited, the Manager of the Trust (the “Manager”), is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditors’ report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditors’ report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of the Manager for the financial statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of RAP 7 issued by the Institute of Singapore Chartered Accountants, and for such internal control as the management of the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Group or to cease operations, or has no realistic alternative but to do so.

The responsibilities of the Manager include overseeing the Group’s financial reporting process.

Auditors' responsibility for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the use of the going concern basis of accounting by the Manager and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide the Manager with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Manager, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless the law or regulations preclude public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Ronald Tay Ser Teck.

Under the property management agreements in respect of each property, the property managers will provide lease management services, property tax services and marketing co-ordination services in relation to that property. The property managers are entitled to the following fees:

- 2.0% per annum of the gross revenue;
- 2.0% per annum of the net property income; and
- 0.5% per annum of the net property income in lieu of leasing commissions otherwise payable to the property managers and/or third party agents.

(d) Acquisition fee

For any authorised investment acquired from time to time by the Trustee on behalf of the Trust, the acquisition fee payable to the Manager under Clause 14.2 of the Trust Deed shall be:

- up to 1.5% of the purchase price in the case of any authorised investment (as defined in the Trust Deed) acquired by the Trust for less than \$200 million; and
- 1.0% of the purchase price in the case of any authorised investment acquired by the Trust for \$200 million or more.

The acquisition fee payable in respect of any authorised investment acquired from time to time by the Trustee on behalf of the Trust from CapitaLand Mall China Income Fund I, CapitaLand Mall China Income Fund II, CapitaLand Mall China Income Fund III, CapitaLand Mall China Development Fund III, or CapitaLand Mall Asia Limited shall be 1.0% of the purchase price paid by the Trust.

No acquisition fee was payable for the acquisition of the initial property portfolio of the Trust.

The acquisition fee is payable to the Manager in the form of cash and/or Units (as the Manager may elect) at the prevailing market price provided that in respect of any acquisition of real estate assets from interested parties, such a fee should, if required by the applicable laws, rules and/or regulations, be in the form of Units issued by the Trust at prevailing market price(s) and subject to such transfer restrictions as may be imposed.

Any payment to third party agents or brokers in connection with the acquisition of any authorised investments for the Trust shall be paid by the Manager to such persons out of the Deposited Property of the Trust or the assets of the relevant special purpose vehicle, and not out of the acquisition fee received or to be received by the Manager.

(e) Divestment fee

Under Clause 14.2 of the Trust Deed, the Manager is entitled to receive a divestment fee of 0.5% of the sale price of any authorised investment disposed directly or indirectly by the Trust, prorated if applicable to the proportion of the Trust's interest.

The divestment fee is payable to the Manager in the form of cash and/or Units (as the Manager may elect) at the prevailing market price provided that in respect of any divestment of real estate assets to interested parties, such a fee should, if required by the applicable laws, rules and/or regulations, be in the form of Units issued by the Trust at prevailing market price(s) and subject to such transfer restrictions as may be imposed.

Any payment to third party agents or brokers in connection with the divestment of any authorised investments for the Trust shall be paid by the Manager to such persons out of the Deposited Property of the Trust or the assets of the relevant special purpose vehicle, and not out of the divestment fee received or to be received by the Manager.

2. Basis of preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with the recommendations of the Statement of Recommended Accounting Practice ("RAP") 7 "*Reporting Framework for Unit Trusts*" issued by the Institute of Singapore Chartered Accountants, the applicable requirements of the Code on Collective Investment Schemes (the "CIS Code") issued by the Monetary Authority of Singapore ("MAS") and the provisions of the Trust Deed. RAP 7 requires that accounting policies adopted should generally comply with the principles relating to recognition and measurement of the Singapore Financial Reporting Standards ("FRS").

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following material items on the statement of financial position:

- derivative financial instruments are measured at fair value;
- investment properties are measured at fair value.

(c) Functional and presentation currency

Items included in the financial statements of each entity in the Group are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to that entity (the “functional currency”). The consolidated financial statements of the Group are presented in Singapore dollars, which is the functional currency of the Trust. All financial information presented in Singapore dollars has been rounded to the nearest thousand, unless otherwise stated.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with RAP 7 requires the Manager to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Note 4 – Valuation of investment properties;
- Note 27 – Valuation of financial instruments.

Measurement of fair values

A number of the Group’s accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 4 – Investment properties;
- Note 27 – Valuation of financial instruments.

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, and have been applied consistently by Group entities.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Where the Group acquires an asset or a group of assets that does not constitute a business, the cost of the investment is allocated to the individual identifiable assets acquired and liabilities assumed at the date of acquisition.

(ii) Loss of control

Upon the loss of control, the Trust derecognises the assets and liabilities of the subsidiary, any non-controlling interest and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in the statement of total return.

If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

(iii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(iv) Accounting for subsidiaries by the Trust

Investments in subsidiaries are stated in the Trust's statement of financial position at cost less accumulated impairment losses.

(b) Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated at the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rates at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated at the exchange rates at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on translation are recognised in the statement of total return, except for differences arising on the translation of monetary items that in substance form part of the Group's net investment in a foreign operation (see Note 3(b)(iii)) and financial derivatives designated as hedges of the net investment in a foreign operation (see Note 3(b)(iv)).

(ii) Foreign operations

The assets and liabilities of foreign operations are translated to Singapore dollars at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Singapore dollars at exchange rates at the dates of the transactions. Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the exchange rate at the reporting date.

Foreign currency differences are recognised in the foreign currency translation reserve. When a foreign operation is disposed of, in part or in full, the cumulative amount in the translation reserve related to that foreign operation is reclassified to the statement of total return as part of the gain or loss on disposal.

(iii) Net investment in a foreign operation

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation. These are recognised in Unitholders' funds and are presented in the foreign currency translation reserve.

(iv) Hedge of net investment in foreign operation

Foreign currency differences arising on the translation of a financial instrument designated as a hedge of a net investment in a foreign operation are recognised in Unitholders' funds to the extent that the hedge is effective, and are presented in the foreign currency translation reserve. To the extent that the hedge is ineffective, such differences are recognised in the statement of total return. When the hedged net investment is disposed of, the cumulative amount in the foreign currency translation reserve is transferred to the statement of total return as an adjustment to the gain or loss arising on disposal.

(c) Financial instruments

(i) Non-derivative financial assets

The Group initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the trade date, which is the date that the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Group has loans and receivables as its non-derivative financial assets.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are initially measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise non-trade amounts due from subsidiaries, trade and other receivables excluding prepayments and cash and cash equivalents.

Cash and cash equivalents comprise cash balances and bank deposits.

(ii) Non-derivative financial liabilities

Financial liabilities are recognised initially on the trade date, which is the date that the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legally enforceable right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Group has the following non-derivative financial liabilities: trade and other payables, security deposits and interest-bearing borrowings.

Such financial liabilities are initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

(iii) Derivative financial instruments, including hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and the combined instrument is not measured at fair value through the statement of total return.

On initial designation of the hedge, the Group formally documents the relationship between the hedging instrument and hedged item, including the risk management objectives and strategy in undertaking the hedge transaction and the hedged risk, together with the methods that will be used to assess the effectiveness of the hedging relationship. The Group makes an assessment, both at the inception of the hedge relationship as well as on an ongoing basis, of whether the hedging instruments are expected to be “highly effective” in offsetting the changes in the fair value or cash flows of the respective hedged items attributable to the hedged risk, and whether the actual results of each hedge are within a range of 80%-125%. For a cash flow hedge of a forecast transaction, the transaction should be highly probable to occur and should present an exposure to variations in cash flows that could ultimately affect the statement of total return.

Derivatives are initially measured at fair value; any attributable transaction costs are recognised in the statement of total return when incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

Cash flow hedges

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect total return, the effective portion of changes in the fair value of the derivative is recognised and presented in the hedging reserve in Unitholders' fund. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in the statement of total return.

When the hedged item is a non-financial asset, the amount recognised in the hedging reserve is transferred to the carrying amount of the asset when it is recognised. In other cases, the amount recognised in the hedging reserve is transferred to the statement of total return in the same period that the hedged item affects the statement of total return. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, or the designation is revoked, then the hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised and presented in the hedging reserve in Unitholders' fund remains there until the forecast transaction occurs. If the forecast transaction is no longer expected to occur, then the balance in the hedging reserve is recognised immediately in the statement of total return.

(d) Investment properties

Investment properties are properties held either to earn rental income or for capital appreciation or both. Investment properties are accounted for as non-current assets and are stated at initial cost on acquisition and at fair value thereafter. The cost of a purchased property comprises its purchase price and any directly attributable expenditure. Transaction costs are included in the initial measurement. Fair value is determined in accordance with the Trust Deed, which requires the investment properties to be valued by independent registered valuers at least once a year in accordance with the CIS Code issued by the MAS.

Any increase or decrease on revaluation is credited or charged to the statement of total return as a net change in fair value of the investment properties.

Subsequent expenditure relating to investment properties that have already been recognised is added to the carrying amount when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset will flow to the Group.

All other subsequent expenditure is recognised as an expense in the period in which it is incurred.

When an investment property is disposed of, the resulting gain or loss recognised in the statement of total return is the difference between the net disposal proceeds and the carrying amount of the property.

Investment properties are not depreciated. The properties are subject to continued maintenance and regularly revalued on the basis set out above.

(e) Plant and equipment

(i) Recognition and measurement

Plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset.

When parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

Gains or losses arising from the retirement or disposal of plant and equipment are determined as the difference between the estimated net disposal proceeds and the carrying amount of the asset and are recognised in the statement of total return on the date of retirement or disposal.

(ii) Subsequent costs

The cost of replacing part of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The cost of the day-to-day servicing of plant and equipment are recognised in the statement of total return as incurred.

(iii) Depreciation

Depreciation is provided on a straight-line basis so as to write off items of plant and equipment, and major components that are accounted for separately, over their estimated useful lives as follows:

Improvement to premises	- 5 years
Plant and machinery	- 3 to 5 years
Motor vehicles	- 5 years
Furniture, fittings and equipment	- 2 to 5 years

Depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate, at each reporting date.

(f) Impairment

(i) Financial assets (including receivables)

A financial asset not carried at fair value through the statement of total return is assessed at the end of each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative impact on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, or indications that a debtor will enter bankruptcy.

The Group considers evidence of impairment for receivables at both a specific asset and collective level. All individually significant receivables are assessed for specific impairment. All individually significant receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Receivables that are not individually significant are collectively assessed for impairment by grouping together receivables with similar risk characteristics.

In assessing collective impairment, the Group uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows, discounted at the asset's original effective interest rate. Losses are recognised in the statement of total return and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised. When the Group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through the statement of total return.

(ii) Non-financial assets

The carrying amounts of the Group's non-financial assets, other than investment properties, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ("CGU") is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of total return. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a *pro rata* basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(g) Unitholders' funds

Unitholders' funds represent the residual interests in the Group's net assets upon termination and are classified as equity.

Expenses incurred in connection with the issuance of Units in the Trust are deducted directly against the Unitholders' funds.

(h) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are recognised as an expense in the statement of total return as incurred.

(ii) Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A provision is recognised for the amount expected to be paid under short-term cash bonus if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(i) Distribution policy

The Trust's distribution policy is to distribute at least 90.0% of its distributable income in each financial year to Unitholders, other than from the sale of properties that are determined by Inland Revenue Authority of Singapore to be trading gains.

(j) Revenue recognition

(i) Rental income

Rental income receivable under operating leases is recognised on a straight-line basis over the term of the lease, except where an alternative basis is more representative of the time pattern of benefits to be derived from the leased assets. Lease incentives granted are recognised as an integral part of the total rental to be received. Contingent rentals, which include gross turnover rental, are recognised as income in the accounting period on an earned basis. No contingent rental is recognised if there are uncertainties due to the possible return of the amounts received.

(ii) Dividend income

Dividend income is recognised when the right to receive payment is established.

(k) Lease payments

Payment made under operating leases are recognised in the statement of total return on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

(l) Expenses

(i) Property expenses

Property expenses are recognised on an accrual basis.

(ii) Manager's management fees, property management fees and Trustee's fees

These are recognised on an accrual basis based on the applicable formula stipulated in Note 1.

(m) Finance income and finance costs

Finance income comprises interest income recognised in the statement of total return as it accrues, using the effective interest method and gain on hedging instruments that are recognised in the statement of total return.

Finance costs which comprise interest expense on borrowings and expense incurred in connection with borrowings are recognised in the statement of total return, using the effective interest method over the period of the borrowings and loss on hedging instruments that are recognised in the statement of total return.

(n) Taxation

Taxation on the returns for the year comprises current and deferred tax. Taxation is recognised in the statement of total return except to the extent that it relates to items recognised directly in Unitholders' fund.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable is the best estimate of the tax amount expected to be paid that reflects uncertainty related to income taxes, if any.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit; and
- temporary differences related to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the unused tax losses and credits can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realised.

Except for the tax exemption as described below, income earned by the Trust will be subject to Singapore income tax at the Trust level at the prevailing corporate tax rate.

The Trust is exempted from Singapore income tax under Section 13(12) of the Singapore Income Tax Act on the following income:

- (i) dividends; and
- (ii) interest on shareholders' loans,

payable by its subsidiaries in Barbados and Singapore out of underlying rental income derived from the investment properties in China.

This exemption is granted subject to certain conditions, including the condition that the Trustee is a tax resident of Singapore.

The tax exemption also applies to dividends payable by these subsidiaries out of gains, if any, derived from the disposal of their shares in the subsidiaries in China.

(o) Earnings per unit

The Group presents basic and diluted earnings per unit ("EPU") data for its Units. Basic EPU is calculated by dividing the total return attributable to Unitholders of the Group by the weighted average number of ordinary Units outstanding during the period. Diluted EPU is determined by adjusting the total return attributable to Unitholders and the weighted average number of Units outstanding for the effects of all dilutive potential Units.

(p) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-Makers ("CODMs").

Segment results that are reported to the CODMs include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly financial derivative assets and liabilities, other receivables, cash and cash equivalents, trade and other payables, and interest-bearing borrowings.

Segment capital expenditure is the total cost incurred during the year to acquire plant and equipment and capital expenditure on investment properties.

(q) New standards, interpretations and revised recommended accounting practice not yet adopted

A number of new standards, amendments to standards are effective for annual periods beginning after 1 January 2016 and earlier application is permitted; however the Group has not early applied the following new or amended standards in preparing these financial statements.

Applicable to 2017 financial statements

Revision to RAP 7

RAP 7 was revised in June 2016 to take into account, amongst others, the changes made to FRS 32 *Financial Instruments: Presentation* and FRS 107 *Financial Instruments: Disclosures* in relation to the offsetting of financial assets and liabilities; and new standards issued after 2012 including FRS 110 *Consolidated Financial Statements*, FRS 112 *Disclosure of Interest in Other Entities* and FRS 113 *Fair Value Measurement*. RAP 7 (Revised June 2016) is applicable to unit trusts with annual periods beginning on or after 1 July 2016. The Group does not expect significant changes to the current disclosures upon adoption of the revised RAP 7.

Applicable to 2018 financial statements

FRS 115 *Revenue from Contracts with Customers*

FRS 115 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It also introduces new cost guidance which requires certain costs of obtaining and fulfilling contracts to be recognised as separate assets when specified criteria are met.

When effective, FRS 115 replaces existing revenue recognition guidance, including FRS 18 *Revenue*, FRS 11 *Construction Contracts*, INT FRS 113 *Customer Loyalty Programmes*, INT FRS 115 *Agreements for the Construction of Real Estate*, INT FRS 118 *Transfers of Assets from Customers* and INT FRS 31 *Revenue – Barter Transactions Involving Advertising Services*.

FRS 115 is effective for annual periods beginning on or after 1 January 2018, with early adoption permitted.

The Group does not expect the impact on the financial statements to be significant. The Group plans to adopt the standard when it becomes effective in 2018.

FRS 109 *Financial Instruments*

FRS 109 replaces most of the existing guidance in FRS 39 *Financial Instruments: Recognition and Measurement*. It includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from FRS 39.

FRS 109 is effective for annual periods beginning on or after 1 January 2018, with early adoption permitted.

The Group does not expect the impact on the financial statements to be significant.

The Group does not expect a significant change to the measurement basis arising from adopting the new classification and measurement model under FRS 109. Loans and receivables that are currently accounted for at amortised cost will continue to be accounted for using amortised cost model under FRS 109. For financial assets currently held at fair value, the Group expects to continue measuring most of these assets at fair value under FRS 109.

The Group plans to apply the simplified approach and record lifetime expected impairment losses on all trade receivables and any contract assets arising from the application of FRS 115. On adoption of FRS 109, the Group does not expect a significant increase in the impairment loss allowance.

The Group expects that all its existing hedges that are designated in effective hedging relationships will continue to qualify for hedge accounting under FRS 109.

The Group plans to adopt the standard when it becomes effective in 2018.

Applicable to 2019 financial statements

FRS 116 *Leases*

FRS 116 eliminates the lessee's classification of leases as either operating leases or finance leases and introduces a single lessee accounting model. Applying the new model, a lessee is required to recognise right-of-use (ROU) assets and lease liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value.

FRS 116 substantially carries forward the lessor accounting requirements in FRS 17 *Leases*. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for these two types of leases using the FRS 17 operating lease and finance lease accounting models respectively. However, FRS 116 requires more extensive disclosures to be provided by a lessor.

When effective, FRS 116 replaces existing lease accounting guidance, including FRS 17, INT FRS 104 *Determining whether an Arrangement contains a Lease*, INT FRS 15 *Operating Leases – Incentives*, and INT FRS 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*.

FRS 116 is effective for annual periods beginning on or after 1 January 2019, with early adoption permitted if FRS 115 is also applied.

The Group has performed a preliminary high-level assessment of the new standard on its existing operating lease arrangements as a lessee. Based on the preliminary assessment, the Group expects these operating leases to be recognised as ROU assets with corresponding lease liabilities under the new standard. The operating lease commitments on an undiscounted basis is immaterial. Assuming no additional new operating leases in future years until the effective date, the Group expects the amount of ROU assets and lease liabilities to be lower as the lease terms run down.

The Group plans to adopt the standard when it becomes effective in 2019.

Investment properties are stated at fair value based on valuation performed by independent professional valuers having appropriate recognised professional qualifications and recent experience in the location and category of property being valued. In determining the fair value, the valuers have used valuation methods which involve certain estimates. The Manager reviews the key valuation parameters and underlying data including discount, capitalisation and terminal yield rates adopted by the valuers and is of the view that the valuation methods and estimates are reflective of the current market conditions.

The fair values are based on open market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction wherein the parties had each acted knowledgeably and without compulsion.

The valuers have considered valuation techniques including the capitalisation and discounted cash flows approaches in arriving at the open market value as at the reporting date.

The capitalisation approach is an investment approach whereby the estimated gross passing income (on both passing and market rent basis) is adjusted to reflect anticipated operating costs to produce a net income on a fully leased basis. The adopted fully leased net income is capitalised over the remaining term of the lease from the valuation date at an appropriate capitalisation rate. The discounted cash flow method involves the estimation and projection of an income stream over a period and discounting the income stream with a risk adjusted discount rates to arrive at the market value.

Fair value of the investment properties were based on independent professional full valuations carried out by the following valuers on the dates stated below:

Investment properties comprise retail properties that are held mainly for use by tenants under operating leases. Most leases contain an initial non-cancellable period of within 1 to 3 years (2015: within 1 to 3 years).

Contingent rents, representing income based on certain sales achieved by tenants, recognised in the statement of total return during the year amounted to \$11.2 million (2015: \$12.5 million).

The remaining \$6.3 million (2015: \$9.5 million) of the non-trade amounts due from subsidiaries are unsecured, interest-free and repayable on demand. Concentration of credit risk relating to loans and receivables is limited as the Group has many varied tenants located in several cities in China and a credit policy of obtaining security deposits from tenants for the lease of units in the Group's investment properties. These tenants comprise retailers engaged in a wide variety of consumer trades.

The movement in the allowance for impairment in respect of trade receivables during the year is as follows:

		2016 \$'000	2015 \$'000
At 1 January		241	141
Impairment losses on trade receivables, net	17	143	117
Allowance utilised		(207)	(24)
Translation difference		(16)	7
At 31 December		161	241

The majority of the trade receivables are mainly from tenants that have good credit records with the Group. The allowance account in respect of trade receivables is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible; at that point the amounts are considered irrecoverable and are written off against the financial asset directly.

The Group's historical experience in the collection of loans and receivables falls within the recorded allowances. The Manager believes that no additional credit risk beyond the amounts provided for collection losses is inherent in the Group's loans and receivables, based on historical payment behaviours and the security deposits held (if applicable).

(b) The foreign currency translation reserve comprises:

- (i) foreign exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from the functional currency of the Trust;

- (ii) the gains or losses on financial instruments used to hedge the Group's net investment in foreign operations that are determined to be effective hedges; and
 - (iii) the foreign exchange differences on monetary items which form part of the Group's net investment in foreign operations, provided certain conditions are met.
- (c) General reserve

The subsidiaries incorporated in China are required to transfer 10% of their profits after taxation, as determined under the accounting principles and relevant financial regulations of China to the general reserve until the reserve balance reaches 50% of registered capital. The transfer to this reserve must be made before distribution of dividends to its shareholders.

General reserve can be used to make good previous years' losses, if any, and may be converted to registered capital in proportion to the existing interests of the shareholders, provided that the balance after such conversion is not less than 25% of the registered capital.

Each Unit in the Trust represents an undivided interest in the Trust. The rights and interests of Unitholders are contained in the Trust Deed and include the right to:

- one vote per Unit;
- receive income and other distributions attributable to the Units held;
- participate in the termination of the Trust by receiving a share of all net cash proceeds derived from the realisation of the assets of the Trust less any liabilities, in accordance with their proportionate interests in the Trust. However, a Unitholder has no equitable or proprietary interest in the underlying assets of the Trust and is not entitled to the transfer of any assets (or part thereof) or any estate or interest in any asset (or part thereof) of the Trust; and
- attend all Unitholders' meetings. The Trustee or the Manager may (and the Manager shall at the request in writing of not less than 50 Unitholders or one-tenth in number of Unitholders, whichever is lesser) at any time convene a meeting of Unitholders in accordance with the provisions of the Trust Deed.

The restrictions of a Unitholder include the following:

- a Unitholder has no right to request the Manager to redeem his Units while the Units are listed on the SGX-ST.

A Unitholder's liability is limited to the amount paid or payable for any unit in the Trust. The provisions of the Trust Deed provide that no Unitholder will be personally liable to indemnify the Trustee or any creditor of the Trustee in the event that the liabilities of the Trust exceed its assets.

16. Total Unitholders' distribution

Unitholders' distribution for the year is accounted for as distribution from operations and distribution from Unitholders' contributions:

(a) Distribution from operations

This refers to distribution made by the Trust that is represented by income received or receivable during the financial year, as the case may be, net of expenses. Such income comprises mainly the following:

- dividend from subsidiaries in Barbados, Singapore and Hong Kong paid out of dividend declared by the subsidiaries in China;
- dividend from subsidiaries in Barbados paid out of net interest income earned by subsidiaries in Barbados on shareholders' loans extended to subsidiaries in China; and
- interest income earned by the Trust on shareholders' loans extended to subsidiaries in Barbados.

The above income originates from income derived by the subsidiaries in China in respect of the current financial year.

(b) Distribution from Unitholders' contributions

This refers to the amount of distribution made by the Trust for the financial year where the underlying cash is not, or may not be, received or receivable as income by the Trust during that period. Such distribution comprises mainly the following:

- profits from operations arising from the investment properties which are declared as dividend income after the financial year, as the case may be, and accordingly also received as dividends by the Trust after that year;
- profits from operations arising from the investment properties which cannot be declared as dividends;
- adjustment for depreciation expenses of the investment properties; and
- adjustments for trust expenses that are paid in Units, foreign currency differences attributable to net investment hedges undertaken by the Trust and certain unrealised expenses.

Income available for distribution to Unitholders at end of the year

Distributions are made on a semi-annual basis, with the amount calculated as at 30 June and 31 December each year for the six-month period ending on each of the said dates. In accordance with the provisions of the Trust Deed, the Manager is required to pay distributions within 90 days from the end of each distribution period. Distributions, when paid, will be in Singapore dollars.

Distributions for the period from 1 January 2016 to 30 June 2016 had been paid on 20 September 2016. Distributions for the period from 1 July 2016 to 31 December 2016 will be paid within 90 days of the end of the distribution period, in accordance with the provisions of the Trust Deed.

23. Related party transactions

For the purposes of these financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common significant influence. Related parties may be individuals or other entities. The Manager, being CapitaLand Retail China Trust Management Limited is an indirect wholly owned subsidiary of a substantial Unitholder of the Trust. The Property and Project Managers, being CapitaLand Retail (Shanghai) Management & Consulting Co., Ltd. and CapitaLand Retail (Beijing) Facilities & Projects Consulting Co., Ltd. are indirect wholly owned subsidiaries of a substantial Unitholder of the Trust.

In the normal course of the operations of the Trust, the Manager's management fees and the Trustee's fees have been paid or are payable to the Manager and Trustee respectively. The property management fees, reimbursables and project management fees have been paid or are payable to the Property and Project Managers respectively.

- including performance component of Manager's management fees	0.96	0.88
- excluding performance component of Manager's management fees	0.56	0.49

Notes:

- (1) The annualised ratio is computed in accordance with the guidelines of the Investment Management Association of Singapore. The expenses used in the computation relate to expenses at the Group level, excluding property related expenses and borrowing costs.
- (2) The annualised ratio is computed based on the lesser of purchases or sales of underlying investment properties of the Group expressed as a percentage of weighted average net asset value.

25. Operating segments

The Group has 11 reportable segments, as described below, which are the Group's investment properties. The investment properties are managed separately because they require different operating and marketing strategies. For each of the investment properties, the CODMs review internal management reports on a monthly basis.

All of the Group's reportable segments are investment properties located in China used primarily for retail purposes. The reporting segments are as follows:

- CapitaMall Xizhimen
- CapitaMall Wangjing
- CapitaMall Grand Canyon
- CapitaMall Xinnan
- CapitaMall Anzhen
- CapitaMall Erqi
- CapitaMall Shuangjing
- CapitaMall Minzhongleyuan
- CapitaMall Qibao
- CapitaMall Saihan
- CapitaMall Wuhu

Segment revenue comprises mainly income generated from its tenants. Segment net property income represents the income earned by each segment after allocating property operating expenses. This is the measure reported to the CODMs for the purpose of assessment of segment performance. In addition, the CODMs monitor the non-financial assets as well as financial assets attributable to each segment when assessing segment performance.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly the Trust's financial assets and liabilities and its expenses. Segment capital expenditure is the total cost incurred during the year to acquire segment assets that are expected to be used for more than one year.

Information regarding the Group's reportable segments is presented in the tables in the following pages.

For the purpose of monitoring segment performance, the Group's CODMs monitor the non-financial assets as well as financial assets attributable to each segment.

27. Capital and financial risk management

Capital management

The Group's objectives when managing capital are to optimise Unitholders' value through the combination of available capital sources which include debt and equity instruments whilst complying with statutory and constitutional capital and distribution requirements, maintaining aggregate leverage and interest service coverage ratio within approved limits. As a key part of the Group's overall strategy, the Board of the Manager reviews the Group and the Trust's debt and capital management cum financing policy regularly so as to optimise the Group and the Trust's funding structure. The Board also monitors the Group and the Trust's exposure to various risk elements by closely adhering to clearly established management policies and procedures.

The Group is subject to the aggregate leverage limit as defined in Appendix 6 of the CIS Code (“Property Fund Appendix”). The Property Fund Appendix stipulates that the total borrowings and deferred payments (together, the “Aggregate Leverage”) of a property fund should not exceed 45.0% (2015: 35.0%) of its Deposited Property. The Group’s aggregate leverage limit did not exceed 45.0% (2015: 35.0%) during the year, and was 35.3% (2015: 27.7%) as at 31 December 2016. In computing the aggregate leverage, the Trust has considered the effect of hedging the net assets denominated in RMB.

There were no changes in the Group’s approach to capital management during the financial year.

Financial risk management

Overview

The Group’s returns are primarily from net operating income and capital appreciation of its assets. However, these returns are exposed to financial risks including credit, liquidity, interest rate and foreign currency risks.

Financial risk management is integral to the whole business of the Group. The Group adopts an integrated approach to manage the financial risks arising in the normal course of the Group’s business. The Group has written risk management policies and guidelines, and established processes to monitor and manage significant exposures. Risk management policies and processes are reviewed regularly to reflect changes in market conditions and the Group’s activities.

The Group adheres to standardised accounting and financial policies and exercises effective controls over the financial affairs of its subsidiaries. This is achieved by ensuring group-wide adherence to a comprehensive set of guidelines covering contracts, policies and procedures and other requirements. Adequate measures are in place to ensure that the reliability and integrity of financial information compiled from subsidiaries are kept intact.

Credit risk

While it is necessary to assume a certain level of tenant credit risks to remain competitive in China, the Group has established credit limits for tenants and monitors their balances on an ongoing basis. Risks associated with credit limits are reflected in the level of security deposits and bank guarantees placed as collateral in respect of the leases. Appropriate risk mitigating actions are in place to manage trade receivables.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

The allowance account in respect of trade and other receivables is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible. At that point, the financial asset is considered irrecoverable and the amount charged to the allowance account is written off against the carrying amount of the impaired financial asset.

Cash and fixed deposits are placed with banks and financial institutions which are regulated.

Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows. Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a reasonable period, including the servicing of financial obligations.

In addition, the Group maintains the following debt facilities and programme as at 31 December 2016.

Chinese Renminbi ("RMB") denominated facility:

- RMB285.0 million five-year secured term loan facility

S\$ denominated facilities:

- S\$151.0 million money market line facilities
- S\$225.5 million four-year trust term loan facilities
- S\$375.0 million five-year trust term loan facilities
- S\$300.0 million one-year bridge term loan facility

United States dollar ("US\$") denominated facilities:

- US\$70.0 million money market line facilities

Multicurrency Medium Term Notes:

- \$500.0 million multicurrency Medium Term Note ("MTN") Programme

As at 31 December 2016, the Group has outstanding debt of \$900.5 million (2015: \$550.5 million) trust term loan facilities, \$19.8 million (2015: \$77.0 million) money market line facilities and RMB285.0 million (2015: RMB360.0 million) secured term loan facility.

The Group also monitors and observes the Property Fund Appendix issued by MAS concerning limits on total borrowings.

Interest rate risk

The Manager adopts a proactive interest rate management policy to manage the risk associated with changes in interest rates on the Group's loan facilities while also seeking to ensure that the ongoing cost of debt remains competitive.

As at 31 December 2016, the Group has interest rate swaps ("IRS") with notional contract amount of \$475.5 million (2015: \$425.5 million). The Group pays a fixed rate interest and receives a variable rate equal to the Swap Offer Rate ("SOR") on the notional contract amount. The Group classifies the IRS as cash flow hedges to hedge the exposure in interest rate fluctuations on certain of its term loans.

The term loans and the underlying IRS have the same terms and conditions.

The Manager proactively seeks to minimise the level of interest rate risk by locking the majority of the Group's borrowings at fixed rates. As at 31 December 2016, the Group has locked in approximately 53.7% (2015: 74.3%) of its borrowings at fixed rates. Excluding the RMB denominated loan, money market line and bridge term loan which are not hedged, the Group has locked in approximately 87.5% (2015: 95.5%) of its borrowings at fixed rates.

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial liabilities at fair value through profit or loss and the Group does not designate interest rate derivatives as hedging instruments under a fair value hedge accounting model. Therefore a change in interest rates at the reporting date would not affect the statement of total return.

Cash flow sensitivity analysis for variable rate instruments

The net change in fair value of the interest component of IRS as at 31 December 2016 of \$5.9 million (2015: \$5.1 million), representing the effective portion of the cash flow hedge, has been recognised directly in hedging reserves.

Effects of a 100 basis point ("bp")* movement in interest rate at the reporting date would increase/(decrease) statement of total return and Unitholders' funds by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2015.

* 100 basis point is equivalent to 1 percentage point

Foreign currency risk

The Group is exposed to foreign currency risk on cash holdings and operating expenses that are denominated in a currency other than the respective functional currencies of the Group entities. The currencies giving rise to this risk are primarily the US\$ and RMB.

The Manager's strategy is to achieve a natural hedge through local RMB financing and any non-RMB denominated loan will be hedged into RMB where possible, to protect the going concern of the Trust in the event of large currency fluctuation. However, the Manager will hedge the RMB cash flow from operations if it is determined with certainty that they are to be remitted back to Singapore for distribution purposes.

The Group's and Trust's exposure to foreign currencies is as follows:

	US\$ S\$'000	RMB S\$'000	Total S\$'000

Cash and cash equivalents	398	128	526

Cash and cash equivalents	10	108	118
	<u>523,098</u>	<u>108</u>	<u>523,206</u>

Sensitivity analysis

A 10% strengthening of Singapore dollar against the US\$ and RMB at the reporting date would increase/(decrease) total return after tax by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2015.

	Statements of total return	
	Group	Trust

	(13)	(11)
2015		
US\$	(19)	(52,310)
RMB	(13)	(11)
	(13)	(11)

A 10% weakening of Singapore dollar against the US\$ and RMB would have had equal but opposite effect on the US\$ and RMB to the amounts shown above, on the basis that all other variables remain constant.

Hedge of net investment in foreign operation

The non-deliverable forwards (“NDF”) of \$300.0 million (2015: \$390.0 million) are designated as hedges of the Group’s net investment in certain subsidiaries in China. No ineffectiveness was recognised from the net investment hedge.

Sensitivity analysis

For NDF (accounted for as net investment hedges), a 10% strengthening/weakening of Singapore dollar against the RMB at the reporting date would increase/(decrease) Unitholders’ funds as at 31 December 2016 by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2015.

Estimation of fair value

The following summarises the significant methods and assumptions used in estimating the fair values of financial instruments of the Group and Trust.

Financial derivatives

The fair values of non-deliverable forwards and interest rates are based on banks' quotes. These quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date. Fair values reflect the credit risk of the Group entity and counterparties when appropriate.

Interest-bearing borrowings

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

Other financial assets and liabilities

The carrying amounts of financial assets and liabilities (including non-trade amounts due from subsidiaries, trade and other receivables, cash and cash equivalents, trade and other payables and current security deposits) are assumed to approximate their fair values because they are either short term in nature, or effect of discounting is immaterial. All other financial assets and liabilities (non-current security deposits) are discounted to determine their fair values.

Interest rates used in determining fair values

The interest rates used to discount estimated cash flows, where applicable, are based on the forward yield curve as at 31 December 2016 plus an adequate constant credit spread, and are as follows:

	2016	2015
	% p.a.	% p.a.
Interest-bearing borrowings	1.42 – 4.75	1.33 – 6.00
Security deposits	1.84 – 2.10	2.79

Offsetting financial assets and financial liabilities

The disclosures set out in the tables below include financial assets and financial liabilities that:

- are offset in the Trust's statements of financial position; or
- are subject to an enforceable master netting arrangement, irrespective of whether they are offset in the statement of financial position.

Financial instruments such as loans and receivables and financial liabilities are not disclosed in the tables below unless they are offset in the statements of financial position.

The Trust's derivative transactions that are not transacted on an exchange are entered into under International Swaps and Derivatives Association ("ISDA") Master Agreements. In certain circumstances, for example when a termination event such as a default occurs, all outstanding transactions under the agreement are terminated, the termination value is assessed and only a single net amount is due or payable in settlement of all transactions.

Under the agreements signed, the Trust and its counterparties neither have a legal obligation nor intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously. In addition, the right of set-off of recognised amounts is enforceable only following the occurrence of a termination event as set out in the agreements. Accordingly, the ISDA agreements do not meet the criteria for offsetting and the derivatives financial instruments presented below are not offset in the Statement of Financial Position.

2Q 2017 vs 2Q 2016

In RMB terms, gross revenue in 2Q 2017 increased by RMB44.8 million, or 18.2% higher than 2Q 2016, mainly due to the new contribution from CapitaMall Xinnan which was acquired on 30 September 2016. This was partially offset by lower revenue due to the implementation of China VAT reform on 1 May 2016 where 5% VAT was netted against gross revenue reported for 2Q 2017. Gross revenue for both CapitaMall Qibao and CapitaMall Wuhu was lower in 2Q 2017 due to competitions faced in the vicinity and tenancy adjustments respectively. In SGD terms, gross revenue for 2Q 2017 increased by \$7.5 million, or 14.5%. The increase is lower than that in RMB terms due to the stronger SGD against RMB.

Property expenses for 2Q 2017 increased by \$3.0 million, or 18.9% compared to 2Q 2016, mainly due to additional property tax of \$2.5 million for malls in Beijing as a result of the change in tax basis by the local tax authority and higher property management fees of \$0.4 million mainly arising from the inclusion of CapitaMall Xinnan. This was partially offset by lower business tax which was replaced with VAT with effect from 1 May 2016 as these were netted against gross revenue.

Management fees consisting of base and performance fees payable to the manager were 13.3% higher than 2Q 2016, due to higher net property income and deposited properties, arising from the inclusion of CapitaMall Xinnan.

Finance costs in 2Q 2017 increased by \$0.9 million as compared to 2Q 2016. This was mainly due to the additional loans drawn down to finance the acquisition of CapitaMall Xinnan in 30 September 2016.

Taxation in 2Q 2017 increased by \$3.0 million as compared to 2Q 2016. The higher taxation arose mainly from the inclusion of CapitaMall Xinnan and higher corporate tax recognised in 2Q 2017 compared to 2Q 2016 as a result of higher profit.

CAPITALAND RETAIL CHINA TRUST
2017 SECOND QUARTER UNAUDITED FINANCIAL STATEMENTS & DISTRIBUTION ANNOUNCEMENT

1H 2017 vs 1H 2016

In RMB terms, gross revenue for 1H 2017 increased by RMB79.1 million, or 15.7% over 1H 2016. This was mainly due to the new contribution from CapitaMall Xinnan which contributed to 12.8% of the increase. The rental growth from the multi-tenanted malls was partially offset by lower revenue due to the implementation of China VAT reform on 1 May 2016 where 5% VAT was netted against gross revenue reported for 1H 2017. Gross revenue for both CapitaMall Qibao and CapitaMall Wuhu was lower in 1H 2017 due to competitions faced in the vicinity and tenancy adjustments respectively. In SGD terms, gross revenue increased by \$12.0 million, or 11.2% higher compared to 1H 2016 due to the stronger SGD against RMB.

Property expenses for 1H 2017 increased by \$3.9 million or 11.3% over 1H 2016. This was mainly due to additional property tax of \$5.2 million for malls in Beijing as a result of the change in tax basis by the local tax authority and higher property management fees of \$0.9 million mainly arising from the inclusion of CapitaMall Xinnan. This was partially offset by lower business tax which was replaced with VAT with effect from 1 May 2016 as these were netted against gross revenue.

Management fees consisting of base and performance fees payable to the manager were 14.0% higher than 1H 2016 mainly due to higher net property income from the inclusion of CapitaMall Xinnan.

Finance costs in 1H 2017 increased by \$1.6 million compared to 1H 2016. This was mainly due to the additional loans drawn down to finance the acquisition of CapitaMall Xinnan in 30 September 2016.

Taxation in 1H 2017 increased by \$4.5 million or 23.7% compared to 1H 2016. The higher taxation arose mainly from the inclusion of CapitaMall Xinnan and higher corporate tax recognised in 1H 2017 compared to 1H 2016 as a result of higher profit.

CRCT has not disclosed any forecast to the market.

10 Commentary on the competitive conditions of the industry in which the Trust and its investees operates and any known factors or events that may affect the Trust and its investees in the next reporting period and the next 12 months

In the first half of 2017, China's economy expanded 6.9% year-on-year to RMB38.1 trillion and retail sales increased 10.4% year-on-year to RMB17.2 trillion. Urban disposable income and expenditure per capita grew 6.5% and 5.1% year-on-year respectively. (Source: National Bureau of Statistics of China)

At the recent Annual World Economic Forum held from 27 to 29 June 2017, views on China were largely positive, despite the risks and challenges facing the world's second-largest economy. The optimism was underpinned by the rising purchasing power of domestic consumers, who are increasingly sophisticated. At the event, Chinese Premier Li Keqiang reiterated the importance of innovation to drive the Chinese economy, and reaffirmed the Chinese government's commitment to open up China's markets and ensure job creation. On 3 July 2017, Shanghai-Hong Kong Bond Connect, a streamlined bond trading link for foreign fund managers to access China's debt market, was launched. The link is expected to enhance the internationalisation of China's fixed income market with more foreign institutional investors using it to access Chinese debt. (Sources: CNBC and Financial Times)

The growing stability in China's economy and rising affluence of the population bode well for CRCT's long-term strategy of investing in quality income-producing retail properties in China. We will continue to look for suitable opportunities to expand our market presence.

Beijing Retail Market Update

In the first half of 2017, Beijing's GDP grew 6.8% year-on-year and retail sales increased 5.6% year-on-year to RMB525.7 billion. For the same period, urban disposable income and expenditure per capita grew 9.0% and 6.3% year-on-year respectively.

In 1Q 2017, one new mall, HI-UP, with a GFA of 58,500 sq m was launched in the Wukesong district. In addition, SOLANA-Wukesong, formerly a department store, reopened as a shopping mall in 1Q 2017. There was a slight decrease in leasing demand due to the traditional quiet season during the Chinese New Year holidays. Nevertheless, athleisure and sports retailers expanded actively to capture the pockets of the growing health-conscious crowd. City-wide shopping mall occupancy declined by 1.7 percentage points to 93.3%, mainly due to the lower than average occupancy for the malls in Wukesong district. First-floor shopping mall rents increased marginally by 0.1% quarter-on-quarter to an average of RMB928.8 per sq m per month.

CAPITALAND RETAIL CHINA TRUST
2017 SECOND QUARTER UNAUDITED FINANCIAL STATEMENTS & DISTRIBUTION ANNOUNCEMENT

For the rest of 2017, 13 new mid- to high- end shopping malls with a total GFA of around 1.05 million sq m are expected to launch. Greater divergence among the malls' performance is expected with growing competition. Underpinned by rising income and urbanisation, Beijing's retail market is expected to remain positive in the long-term. (Sources: Beijing Municipal Bureau of Statistics and Savills)

Shanghai Retail Market Update

In the first half of 2017, Shanghai's GDP grew 6.9% year-on-year and retail sales increased 8.1% to RMB567.0 billion. For the same period, urban disposable income per capita grew 8.6% year-on-year.

In 1Q 2017, three new shopping malls with a combined GFA of 292,908 sq m were launched and 90% (by GFA) of the new malls are in non-prime areas. Occupancy in the new malls were high and leasing demand was mainly driven by children-related, beauty and sports fashion retailers. Overall city-wide vacancy rate decreased by 0.1 percentage point quarter-on-quarter to 12.0%. Average rent decreased by 2.3% quarter-on-quarter due to below average rents of the new malls.

For the rest of 2017, nearly 1.5 million sq m of new retail property space is scheduled to open. The large volume of new supply is expected to raise the vacancy rate and pull down average rent as the bulk is located in non-prime areas. (Sources: Shanghai Municipal Bureau of Statistics and Colliers International)

Chengdu Retail Market Update

In 1Q 2017, Chengdu's GDP and urban disposable income per capita grew 8.2% and 8.0% year-on-year respectively. Retail sales grew 11.1% year-on-year to RMB257.4 billion in the first five months of 2017.

No new supply launched in 1Q 2017. Demand for retail space was stable with children-related, consumer electronics and international retailers driving the leasing momentum. The overall vacancy rate increased by 0.9 percentage points quarter-on-quarter to 5.7% as some of the malls underwent renovation. For the rest of 2017, five new shopping malls with a total GFA of 390,000 sq m will be completed. Four of the new malls are in non-prime areas. It is expected that the vacancy will increase and average rent will decrease in the non-prime areas due to the new supply. (Sources: Chengdu Municipal Bureau of Statistics and Colliers International)

Wuhan Retail Market Update

In 1Q 2017, Wuhan's GDP grew 6.9% year-on-year, while urban disposable income increased 8.8%. Retail sales in the first five months of 2017 increased 10.3% year-on-year to RMB239.6 billion.

In 4Q 2016, two shopping malls with a total GFA of 123,000 sqm were opened. The overall city's vacancy rate increased marginally by 0.1% quarter-on-quarter to 8.0% in 4Q 2016 as the two new malls enjoyed high pre-opening commitment rate. Leasing activities continued to be robust while the average rent decreased slightly by 0.9% quarter-on-quarter. The slight fall was because the two new malls are located in the emerging retail submarkets and therefore command lower rental than the city's average rent.
