Section D – Risks		
D.2	Key information on the key risks that are specific to the Issuer	<p>Risk of counterparty default</p> <p>Risk of counterparty default is defined as the possible loss in value due to non-payment by a customer or deterioration of his creditworthiness. A distinction is made between credit risks, counterparty risks, country risks and shareholder risks.</p> <p>Credit risk</p> <p>Credit risk is defined as the risk of a partial or total default of contracted interest payment or principal payment by a borrower. Credit risks mainly result from loans granted to group and joint venture companies and bank deposits as well as cross currency and interest rate swaps.</p>

		<p>Counterparty risk</p> <p>The counterparty risk arises from overnight money and time deposit investments carried out in the inter-bank sector as well as derivatives transactions.</p> <p>Country risk</p> <p>Country risk includes risks in the course of international business, which do not result from the contracting party itself, but are due to its foreign investments.</p> <p>Shareholder risk</p> <p>The shareholder risk is defined as the risk of losses affecting negatively the shareholding book value.</p> <p>Market risk</p> <p>Market risk refers to the potential loss resulting from disadvantageous changes in market prices or parameters that influence prices. The market risks are subdivided into interest rate risks and currency risks.</p> <p>Interest rate risk</p> <p>Interest rate risk includes potential losses from changes in market rates. These risks result from refinancing at non-matching interest periods and from different degrees of interest rate elasticity of individual assets and liabilities.</p> <p>Currency risk</p> <p>Currency risk means the possible negative evolution of the exchange rate of a foreign currency in relation to the Euro, which is the base currency of VIF.</p> <p>Liquidity risk</p> <p>Liquidity risk describes the risk of not being able to discharge one's payment obligations in due time or in full.</p> <p>Refinancing risk</p> <p>Refinancing risk includes the risk of lower business volume due to inability of raising funds.</p> <p>Operational risk</p> <p>Operational risk is defined as the threat of losses that occur as a result of inadequate or failing internal processes (process risk), personnel (personnel risks), technology (infrastructure and IT risks). The definitions of these three risk categories include the respective legal risks. Strategic risks and reputation risks are not considered under operational risks.</p> <p>IT and system risk</p> <p>VIF's information technology ("IT") is exposed to risks that occur when one or more fundamental security objectives such as confidentiality, integrity and availability of data and services are threatened by weak spots in either the organization or in the use or administration of IT systems.</p>
--	--	--

		<p>Personnel risk</p> <p>Personnel risks may result from high personnel turnover, insufficient availability of personnel, inadequate personnel qualification and human error.</p> <p>Legal risk</p> <p>Legal risks can be described as a sudden and unexpected change in a national law enabling local government to partially or wholly take control of VIF's contract parties: banks, affiliated group companies, subsidiaries, parent company or VIF itself.</p>
D.3	<p>Key information on the key risks that are specific to the Guarantor</p>	<p>Macroeconomic risks</p> <p>The main risk for the medium-term development of the global economy is a phase of weak growth due to structural deficits in many industrialized and some emerging economies. In addition, substantial risks are associated with not yet stabilized financial institutions as well as persistently high private- and public-sector debt. Geopolitical tensions and conflicts are a further major risk to the performance of individual economies or regions.</p> <p>Sector-specific risks</p> <p>Specific markets/countries can have high customs barriers or minimum local content requirements for domestic production. In addition, market conditions in Eastern Europe and South America deteriorated markedly by political crisis and its economic effects, or structural deficits and social tensions. These factors make it difficult to achieve a larger increase in sales volumes. In addition, substantial risks arise from economic and competition related price pressure, as well as capacity under-utilization.</p> <p>Power Engineering</p> <p>The underlying global economic trends will continue, such as sustained economic growth, a greater international division of labor and resulting increase in global transportation routes and volumes, growing demand for energy, the increasing requirement for capital spending by the oil and gas industry, and forces for innovation powered by trends in global climate policy. As part of the capital goods industry, the Power Engineering Business Area is subject to fluctuations in the investment climate. Even small changes in growth or growth forecasts, for example due to geopolitical uncertainties or volatile commodities markets, can lead to significant changes in demand or can result in existing orders being cancelled.</p> <p>Research and development risks</p> <p>Volkswagen Group's future success depends on its ability to offer new products that meet the customer's demand in due time.</p> <p>Procurement risks</p> <p>The slowdown in global economic growth in the course of 2014 led to capacity utilization problems for suppliers in the different regions, particularly in South America and Russia. This is resulting in an increased need for financing and further consolidation in the supply industry. The trend in procurement is to bundle contracts to a greater extent and to ensure worldwide availability of uniform components. The Volkswagen Group may be negatively affected by insufficient competition if its procurement concentrates on a few financially strong suppliers when awarding contracts.</p>

		<p>Production risks</p> <p>Developments on the global automotive markets caused production volumes of several vehicle models to fluctuate at some plants in 2014. Short-term fluctuations in customer demand for specific equipment features of the Volkswagen Group's products and the decreasing predictability of those fluctuations may lead to supply bottlenecks.</p> <p>Risks arising from long-term production</p> <p>Risks may arise from contract drafting errors, miscosting, post-contract changes in economic and technical conditions, weaknesses in project management, or poor performance by subcontractors.</p> <p>Risks arising from changes in demand</p> <p>Continuing negative effects of the eurozone debt crisis and related households' worries about the future economic situation in combination with uncertainties regarding future carbon dioxide ("CO₂") emission taxation, as well as other psychological factors, may lead to consumers' reluctance to purchase vehicles and could adversely affect Volkswagen Group's financial results. For the Commercial Vehicles Business Area there are risks because commercial vehicles are capital goods and are therefore subject to more extreme cyclical fluctuations than occur in the consumer goods industry. For the Power Engineering Business Area is a risk due to volatile demand in new ship construction and heavy investment by some licensees, there is excess capacity in the market for marine engines, resulting in risks ranging from a decline in license revenues through to bad debt losses.</p> <p>Dependence on fleet customer business</p> <p>The fleet customer business is continuing to experience increased concentration and internationalization. Consequential effects could have a negative impact on Volkswagen Group's financial position.</p> <p>Quality risk</p> <p>Growing production volumes, increasing complexity and the use of the Volkswagen Group's toolkit system present new challenges for the quality assurance function, in particular, in growing automotive markets. Recalls may cause significant costs and could negatively impact Volkswagen Group's image.</p> <p>Personnel risk</p> <p>Personnel risks may result from high personnel turnover, insufficient availability of personnel, inadequate personnel qualification and human error.</p> <p>IT risk</p> <p>IT (Information technology) is exposed to risks that occur when one or more fundamental security objectives such as confidentiality, integrity and availability of data and services are threatened by weak spots either in the organization or in the use/administration of IT systems.</p> <p>Environmental protection regulations</p> <p>The Volkswagen Group is required to comply with numerous environmental protection regulations. Emission limits exist for new</p>

	<p>Key risks specific to the Notes</p>	<p>passenger car and light commercial vehicles within and outside Europe. Heavy commercial vehicles put into operation from 2014 onwards are already subject to stricter emission requirements under EU regulation. In addition, the allocation method for emissions certificates changed fundamentally in 2013 when the European Commission decided to initially withhold a portion of the certificates to be auctioned. This temporary shortage of certificates during the trading period may cause certificate prices to rise.</p> <p>Litigation</p> <p>VWAG and its affiliated companies may become involved in legal disputes and official proceedings that may result in payment and other obligations.</p> <p>Strategies for hedging financial risks</p> <p>The Volkswagen Group's business activities entail financial risks that may arise from changes in interest rates, exchange rates and commodity prices as well as share and fund prices and defaulting of counterparties.</p> <p>Risks arising from financial instruments</p> <p>Chanelling excess liquidity into investments and entering into derivative contracts give rise to counterparty risk.</p> <p>Liquidity risks</p> <p>The Volkswagen Group depends on the raising of debt capital, by means of bank loans or the issuance of debt in national or international financial markets. If the refinancing of the liquidity needs from the equity and debt capital markets fails, Volkswagen Group's ability to meet its payment obligations could be affected.</p> <p>Residual value risk in the Financial Services business</p> <p>In the Volkswagen Financial Services business, the residual value risk occurs whenever the estimated sales value of a leased asset at the time of disposal upon expiration of a contract is less than the residual value at the time the contract was closed.</p> <p>Risks in relation to corporate acquisitions, cooperations and equity interests</p> <p>Volkswagen Group has made significant acquisitions in the recent past and has not ruled out the possibility that it will continue to acquire companies and equity interests in companies in the future. Corporate acquisitions are typically associated with significant investments and risks.</p> <p>Other factors</p> <p>Risks that cannot be predicted but could have an adverse effect on the further development of Volkswagen Group. These factors include natural disasters, epidemics and terrorist activity.</p> <ul style="list-style-type: none"> • The Notes may not be a suitable investment for all investors. • The Notes are undated securities in which an investment constitutes a financial risk for an indefinite period. • At the Issuer's option, each issue of the Notes may be redeemed (i) on the first call date or any interest payment date thereafter or (ii) if as a consequence of a change in law it has to pay any additional amounts with respect to taxation or (iii) if
--	---	--

		<p>80% or more in principal amount of the Notes initially issued have been redeemed or purchased. In addition, the Issuer may redeem the Notes if (i) the tax regime of any payments under the Notes is modified and such modification results in payments of interest payable by the Issuer or the Guarantor in respect of the Notes being no longer deductible for corporate income tax purposes, (ii) the funds raised by the issuance of the Notes may no longer be treated as equity capital by the Guarantor or (iii) certain rating agencies determine to no longer grant "equity credit" or a lower such credit to the Notes. In the case of redemption, Noteholders might suffer a lower than expected yield, might not be able to reinvest the funds on the same term and may receive a redemption amount lower than the prevailing market price of the Notes.</p> <ul style="list-style-type: none"> • The claims of Noteholders are unsecured, subordinated obligations of the Issuer. • The Terms and Conditions do not contain any express event of default or cross default provisions. • The Issuer will partially depend on payments from other members of the Volkswagen Group to make payments on the Notes. • The Notes do not contain any financial covenants. • The Noteholders have no voting rights in general meetings of the Issuer. • The Noteholders will have only limited remedies against the Issuer for recovery of amounts which have become due in respect of the Notes. • There is no restriction on the amount of debt which the Issuer may issue ranking equal or senior to the obligations under or in connection with the Notes. • The Guarantor's obligations under the Guarantee are unsecured and deeply subordinated. • The Noteholders have only limited rights in a German insolvency proceeding over the Guarantor. As a result, the Noteholders may lose all or a very substantial part of their investment. • Application has been made for the Notes to be admitted to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the Official List. However, there can be no assurance that a liquid secondary market for the Notes will develop. Moreover, the trading market for Notes may be volatile. • There is a risk that trading in the Notes will be suspended, interrupted or terminated. • During the period from including the Interest Commencement Date to but excluding the First Call Date, it cannot be ruled out that the price of the Notes may fall as a result of changes in the current interest rate on the capital market (market interest rate), as the market interest rate fluctuates. • After the First Call Date, investors should be aware that the interest rate will be determined on each Reset Date at the 7-year Swap Rate or the 15-year Swap Rate, as applicable, for the relevant Reset Period plus a margin. The performance of the 7-year Swap Rate or the 15-year Swap Rate, as applicable, and the interest income on the Notes cannot be anticipated
--	--	--

		<p>and a definite yield of the Notes cannot be determined. In addition, during each Reset Period, it cannot be ruled out that the price of the Notes may fall as a result of changes in the current interest rate on the capital market (market interest rate), as the market interest rate fluctuates.</p> <ul style="list-style-type: none"> • The Issuer may elect to defer an interest payment. Any such deferral of interest shall not constitute a default for any purpose and deferred interest will not bear interest. Any deferral of interest will likely have an adverse effect on the market price of the Notes. • Ratings of the Issuer, the Guarantor or the Notes may be subject to change at all times and are not a recommendation to buy, sell or hold Notes. • The Notes denominated in Euro could represent a currency risk for a holder if the Euro represents a foreign currency to such holder; in addition governments and monetary authorities could impose exchange controls in the future. • Because the global notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer. • Noteholders are subject to the risk of being outvoted and of losing rights towards the Issuer against his will in the case that Noteholders agree to amendments of the Terms and Conditions of the Notes by majority vote according the German Act on Issues of Debt Securities (<i>Gesetz über die Schuldverschreibungen aus Gesamtemissionen</i>). In the case of an appointment of a Noteholders' representative for all Noteholders a particular holder may lose, in whole or in part, the possibility to enforce and claim his rights against the Issuer regardless of other Noteholders. • Investors in the Notes assume the risk that the credit spread of the Issuer changes (credit spread risk). • Due to future money depreciation (inflation), the real yield of an investment may be reduced. • The tax impact of an investment in the Notes should be carefully considered. • If a loan is used to finance the acquisition of the Notes, the loan may significantly increase the risk of a loss. • Incidental costs related in particular to the purchase and sale of the Notes may have a significant impact on the profit potential of the Notes.

E.3	Terms and conditions of the offer	The Notes will be offered in Luxembourg, Germany, Austria, The Netherlands, the United Kingdom, France and/or Ireland during an offer period which will commence in Luxembourg from the date of the Prospectus (March 18, 2015) and in Germany, Austria, The Netherlands, the United Kingdom, France and/or Ireland from the time of effectiveness of the notifications (passporting) of the Prospectus into the respective jurisdictions until March 20, 2015 (being the date of issuance of the Notes), subject to a shortening or extension of the offer period.

		<p>There are no conditions to which the offer is subject.</p> <p>Delivery and payment of the Notes and the confirmation of the allotment to investors will be made on March 20, 2015. The Notes will be delivered via book-entry through the clearing systems and their depositary banks against payment of the issue price.</p>
E.4	Material interests, including conflicting interests, to the offer	<p>BNP Paribas, Commerzbank Aktiengesellschaft, J.P. Morgan Securities plc and Merrill Lynch International (together the "Joint Book-runners" or the "Managers") have agreed, pursuant to a subscription agreement signed on March 17, 2015, to subscribe or procure subscribers for the Notes. The Managers will be entitled, under certain circumstances, to terminate the subscription agreement. In such event, no Notes will be delivered to investors. Furthermore, the Issuer will agree to indemnify the Managers against certain liabilities in connection with the offer and sale of the Notes. The commission payable to the Managers in connection with the Offering, placement and subscription of the Notes will be up to 0.65 per cent. of the aggregate principal amount of the Notes. The Managers or their affiliates have provided from time to time, and expect to provide in the future, investment services to the Issuer and its affiliates, for which the Managers or their affiliates have received or will receive customary fees and commissions. There are no interests of natural and legal persons other than the Issuer involved in the issue, including conflicting ones that are material to the issue.</p>
E.7	Estimated expenses charged to the investor by the Issuer or any offeror	<p>Not applicable; neither the Issuer nor any offeror will charge any costs, expenses or taxes directly to any investor in connection with the Notes. Each investor has however to inform itself about taxes or expenses it may be subject to, e.g. deposit fees.</p>

Die Emittentin ist berechtigt, aber nicht verpflichtet, die EUR NC7 Schuldverschreibungen und die EUR NC15 Schuldverschreibungen jeweils einzeln, allerdings pro Serie nur insgesamt und nicht teilweise, zu jeder Zeit bei Eintritt eines der folgenden Spezialereignisse zurückzahlen: (i) ein Ratingmethodologieereignis, (ii) ein Rechnungslegungsereignis, (iii) ein Steuerereignis oder (iv) ein Gross-up Ereignis. Die Emittentin ist ferner berechtigt, aber nicht verpflichtet, die EUR NC7 Schuldverschreibungen und die EUR NC15 Schuldverschreibungen jeweils einzeln, allerdings pro Serie nur insgesamt und nicht teilweise zu jeder Zeit zurückzuzahlen, falls

		<p>80 % oder mehr des ursprünglich begebenen Gesamtnennbetrages der jeweiligen Serie von Schuldverschreibungen erworben, zurückgenommen oder zurückgezahlt wurden.</p> <p><i>Indikative Rendite</i></p> <p>Die Rendite in Bezug auf die (i) NC7 Schuldverschreibungen wird vom Ausgabebetag bis zum Ersten NC7 Rückzahlungstermin 2,625 % jährlich sein und (ii) NC15 Schuldverschreibungen wird vom Ausgabebetag bis zum Ersten NC15 Rückzahlungstermin 3,625% jährlich sein und wird anhand des Ausgabepreises der Schuldverschreibungen berechnet.</p> <p><i>Representation</i></p> <p>Auf die Schuldverschreibungen ist das Gesetz über Schuldverschreibungen aus Gesamtemissionen (<i>Schuldverschreibungsgesetz</i>) anwendbar. Ein Gemeinsamer Vertreter der Gläubiger kann bestellt werden.</p>
C.10	Derivative Komponente bei der Zinszahlung	Entfällt. Die Schuldverschreibungen enthalten keine derivative Komponente bei der Zinszahlung.
C.11	Einführung in einen regulierten Markt oder einem gleichwertigen Markt	Für die Schuldverschreibungen ist ein Antrag auf Listing an der Luxemburger Wertpapierbörse und auf Zulassung zum Börsenhandel im regulierten Markt der Luxemburger Wertpapierbörse gestellt worden.

Abschnitt D – Risiken		
D.2	Zentrale Angaben zu den zentralen Risiken, die der Emittentin eigen sind	<p>Adressenausfallrisiko</p> <p>Unter Adressenausfallrisiko werden mögliche Wertverluste aufgrund des Ausfalls eines Kunden oder Bonitätsverschlechterung verstanden. Es wird zwischen dem Kreditrisiko, dem Kontrahentenrisiko, dem Länderrisiko und dem Anteilseignerrisiko unterschieden.</p> <p>Kreditrisiko</p> <p>Das Kreditrisiko beschreibt das Risiko eines Teilverlusts oder eines vollständigen Verlustes der vereinbarten Zinszahlung oder Hauptzahlung des Schuldners. Die Hauptursachen aus denen Kreditrisiko resultieren kann sind Darlehen an den Konzern oder Joint Venture Gesellschaften und Bankeinlagen sowie Währungs- und Zinsswaps.</p> <p>Kontrahentenrisiko</p> <p>Das Kontrahentenrisiko entsteht bei Tages- und Termingeldinvestitionen die im Interbank-Sektor getätigt werden sowie bei Transaktionen mit Derivaten.</p> <p>Länderrisiko</p> <p>Das Länderrisiko beinhaltet Risiken, welche im Rahmen von internationalen Geschäften nicht von Vertragspartnern selbst sondern aus ausländischen Investitionen resultieren.</p> <p>Anteilseignerrisiko</p> <p>Als Anteilseignerrisiko wird als Risiko definiert, das den Beteiligungsbuchwert negativ beeinflussen kann.</p>

	<p>Marktrisiko</p> <p>Das Marktrisiko bezeichnet den potenziellen Verlust aufgrund nachteiliger Veränderungen von Marktpreisen oder den Preis beeinflussenden Parametern. Die Marktrisiken werden in Zinsänderungsrisiko und Währungsrisiko unterteilt.</p> <p>Zinsrisiko</p> <p>Zinsrisiko beinhaltet potentielle Verluste aufgrund von Änderungen der Marktkurse. Diese Risiken resultieren aus fristeninkongruenter Refinanzierung und aus unterschiedlichen Zinselastizitäten der einzelnen Aktiv- und Passivposten.</p> <p>Währungsrisiko</p> <p>Währungsrisiko beschreibt eine mögliche negative Entwicklung des Wechselkurses einer ausländischen Währung in Bezug zum Euro, welche die Basiswährung von VIF ist.</p> <p>Liquiditätsrisiken</p> <p>Das Liquiditätsrisiko beschreibt das Risiko, den Zahlungsverpflichtungen nicht termingerecht oder nicht in voller Höhe nachkommen zu können.</p> <p>Refinanzierungsrisiko</p> <p>Das Refinanzierungsrisiko betrifft das Risiko einer Verminderung des Geschäftsvolumens infolge unzureichender Refinanzierungsmöglichkeiten.</p> <p>Operationelle Risiken</p> <p>Die Operationellen Risiken werden als die Gefahr von Verlusten definiert, die infolge der Unangemessenheit oder des Versagens von internen Prozessen (Prozessrisiken), Mitarbeitern (Personalrisiken) oder Technologie (Infrastruktur- und IT Risiken) eintreten. Die Definitionen dieser drei Risikokategorien schließen die jeweiligen Rechtsrisiken ein. Strategische Risiken und Reputationsrisiken werden unter Operationellen Risiken nicht betrachtet.</p> <p>IT- und Systemrisiken</p> <p>Die IT (Informationstechnologie) ist Risiken ausgesetzt. Diese kommen zur Geltung, wenn ein oder mehrere Sicherheitsziele wie Vertraulichkeit, Integrität oder Verfügbarkeit von Daten und Dienstleistungen, durch Schwachstellen sowohl in der Organisation als auch in der Nutzung beziehungsweise Verwaltung der IT-Systeme bedroht werden</p> <p>Personalrisiken</p> <p>Personalrisiken können aus hohem Personalwechsel, ungenügender Verfügbarkeit von Personal, unzureichender Personalqualifikation und menschlich bedingten Fehlern resultieren.</p> <p>Rechtliche Risiken</p> <p>Rechtliche Risiken können als plötzlich eintretende und unerwartete Änderungen im nationalen Recht definiert werden, welche der lokalen Regierung ermöglicht entweder teilweise oder vollständig die Kontrolle über die Vertragspartner von VIF zu erlangen. Solche Vertragspartner sind Banken, verbundene Konzernunternehmen, Tochtergesellschaften, die Muttergesellschaft der VIF oder VIF selbst.</p>
--	---

<p>D.3</p>	<p>Zentrale Angaben zu den zentralen Risiken, die dem Garantiegeber eigen sind</p>	<p>Gesamtwirtschaftliche Risiken</p> <p>Das Hauptrisiko für die mittelfristige Entwicklung der Weltwirtschaft besteht in einer Phase schwachen Wachstums aufgrund struktureller Defizite in vielen Industrieländern und einigen Schwellenländern. Erhebliche Risiken resultieren auch aus bisher nicht stabilisierten Finanzinstitutionen sowie die anhaltend hohe Verschuldung im privaten und öffentlichen Sektor. Geopolitische Spannungen und Konflikte sind ein weiterer wesentlicher Risikofaktor für die Entwicklung einzelner Volkswirtschaften oder Regionen.</p> <p>Branchenrisiken</p> <p>In bestimmten Märkten/Ländern existieren hohe Zollbarrieren oder es gelten Mindestanforderungen an die lokale Fertigung. Zusätzlich hat sich das Marktumfeld in Osteuropa und Südamerika bedingt durch die politische Krise und deren wirtschaftliche Folgen bzw. durch strukturelle Defizite und soziale Spannungen erheblich eingetrübt. Durch diese Beschränkungen wird eine größere Ausweitung des Absatzvolumens erschwert. Weitere erhebliche Risiken ergeben sich auch aus dem konjunktur- und wettbewerbsbedingten Preisdruck und nicht ausgelasteten Produktionskapazitäten.</p> <p>Power Engineering</p> <p>Die grundlegenden weltwirtschaftlichen Trends wie das anhaltende Wachstum, eine verstärkte internationale Arbeitsteilung und daraus resultierend weltweit steigende Transportstrecken und -volumina sowie wachsender Energiebedarf, der zunehmende Investitionsbedarf der Öl- und Gasindustrie und die erforderliche Innovationskraft aufgrund der sich entwickelnden globalen Klimapolitik werden sich fortsetzen. Power Engineering unterliegt als Teil der Investitionsgüterindustrie den Schwankungen des Investitionsklimas. Bereits kleine Änderungen des Wachstums oder der Wachstumserwartungen, resultierend beispielsweise aus geopolitischen Unsicherheiten oder volatilen Rohstoffmärkten, können signifikante Nachfrageveränderungen oder Stornierungen bereits eingebuchter Aufträge zur Folge haben.</p> <p>Risiken aus Forschung und Entwicklung</p> <p>Der zukünftige Erfolg des Volkswagen Konzerns ist daran gekoppelt den Kundenansprüchen rechtzeitig mit neuen Produkten zu begegnen.</p> <p>Risiken aus der Beschaffung</p> <p>Das sich im Jahresverlauf 2014 verlangsamende Weltwirtschaftswachstum führte regional zu Auslastungsproblemen bei Lieferanten, insbesondere in Südamerika und Russland. In der Beschaffung besteht der Trend, Vergaben stärker zu bündeln und die weltweite Verfügbarkeit einheitlicher Komponenten sicherzustellen. Daraus resultieren ein erhöhter Finanzierungsbedarf und eine weitere Konsolidierung in der Zulieferindustrie. Der Volkswagen Konzern kann durch unzureichenden Wettbewerb negativ beeinträchtigt werden, wenn sich die Beschaffung bei der Vertragsvergabe sich auf einige wenige finanziell starke Zulieferer konzentriert.</p> <p>Produktionsrisiken</p> <p>Die Entwicklungen auf den weltweiten Automobilmärkten verursachten 2014 bei einigen Fahrzeugmodellen Stückzahlenschwankungen in einzelnen Werken. Kurzfristige</p>
-------------------	---	--

	<p>Schwankungen der Kundennachfrage nach speziellen Ausstattungsmerkmalen der Produkte des Volkswagen Konzerns und die abnehmende Prognostizierbarkeit dieser Schwankungen können zu Lieferengpässen führen.</p> <p>Risiken aus langfristiger Fertigung</p> <p>Risiken können sich aus Mängeln in der Vertragsgestaltung, Fehlern in der Auftragskalkulation, veränderten wirtschaftlichen und technischen Bedingungen nach Vertragsabschluss sowie Schwächen in der Projektsteuerung oder unzureichenden Leistungen der Sublieferanten ergeben.</p> <p>Risiken aus Nachfrageveränderungen</p> <p>Fortwährende negative Auswirkungen der Schuldenkrise in der Eurozone und die damit zusammenhängende Sorge der Haushalte über die zukünftige wirtschaftliche Situation in Kombination mit Unsicherheiten bezüglich der künftigen Besteuerung von CO₂ („CO₂“)-Emissionen sowie andere psychologische Faktoren können zu einer unerwarteten Kaufzurückhaltung führen. Daraus können sich negative Entwicklungen auf das finanzielle Ergebnis des Volkswagen Konzerns ergeben. Für das Segment Nutzfahrzeuge gilt Nutzfahrzeuge sind Investitionsgüter; der wirtschaftliche Verlauf unterliegt daher einer höheren Schwankung als der der Konsumgüterindustrie. Für das Segment Power Engineering bestehen Risiken aus rückläufigen Lizenznahmen bis hin zu Forderungsausfällen, da aufgrund der volatilen Nachfrage im Schiffsneubau und angesichts hoher Investitionen bei einigen Lizenznehmern Überkapazitäten im Markt für Schiffsmotoren bestehen.</p> <p>Abhängigkeit vom Großkundengeschäft</p> <p>Das Großkundengeschäft ist weiterhin von einer zunehmenden Konzentration und Internationalisierung geprägt. Daraus folgende Effekte können negative Auswirkungen auf die Finanzlage des Volkswagen Konzerns haben.</p> <p>Qualitätsrisiken</p> <p>Wachsende Produktionsvolumina, die zunehmende Komplexität und der Einsatz der Baukastensysteme im Konzern stellt die Qualitätssicherung vor neue Herausforderungen insbesondere in den automobilen Wachstumsregionen. Rückrufe können erhebliche Kosten verursachen und negative Auswirkungen auf das Image des Volkswagen Konzerns haben.</p> <p>Personalrisiken</p> <p>Personalrisiken können aus hohem Personalwechsel, ungenügender Verfügbarkeit von Personal, unzureichender Personalqualifikation und menschlich bedingten Fehlern resultieren.</p> <p>IT Risiken</p> <p>Die IT (Informationstechnologie) wird Risiken ausgesetzt. Diese kommen zur Geltung, wenn ein oder mehrere Sicherheitsziele wie Vertraulichkeit, Integrität oder Verfügbarkeit von Daten und Dienstleistungen, durch Schwachstellen sowohl in der Organisation als auch in der Nutzung beziehungsweise Verwaltung der IT-Systeme bedroht werden.</p>
--	--

	<p>Umweltschutzrechtliche Auflagen</p> <p>Der Volkswagen Konzern ist verpflichtet, eine Vielzahl von umweltschutzrechtlichen Auflagen zu befolgen. Emissionslimits existieren für neue Pkw und leichte Nutzfahrzeuge innerhalb und außerhalb von Europa. Schwere Nutzfahrzeuge, die ab 2014 genutzt werden, unterliegen bereits strengeren Emissionsanforderungen gemäß EU Verordnungen. Außerdem ist die Allokationsmethode für Emissionszertifikate in 2013 fundamental geändert worden, als die Europäische Kommission sich entschloss, anfänglich einen Anteil an Zertifikaten, die versteigert werden sollten, einzubehalten. Aufgrund dieser temporären Fehlmengen von Zertifikaten während der Handelsperiode kann es zu Preisanstiegen kommen.</p> <p>Rechtsstreitigkeiten</p> <p>VWAG und die Unternehmen, an denen sie direkt oder mittelbar beteiligt ist, sind in Rechtsstreitigkeiten und behördlichen Verfahren beteiligt, aus denen sich Zahlungs- und andere Verpflichtungen ergeben können.</p> <p>Strategien zur Absicherung im Finanzbereich</p> <p>Die Geschäftstätigkeit des Volkswagen Konzerns birgt Finanzrisiken, die sich aus der Veränderung von Zinssätzen, Währungskursen und Rohstoffpreisen sowie Aktien- und Fondspreisen und dem Ausfall von Kontrahenten ergeben können.</p> <p>Risiken aus Finanzinstrumenten</p> <p>Aus der Anlage überschüssiger Liquidität und dem Abschluss von Derivaten ergeben sich Kontrahentenrisiken.</p> <p>Liquiditätsrisiken</p> <p>Der Volkswagen Konzern ist auf die Aufnahme von Fremdkapital von Banken oder über die nationalen und internationalen Finanzmärkte angewiesen. Eine gescheiterte Eigen-/Fremdkapitalbeschaffung zur Refinanzierung eines Liquiditätsbedarfs könnte die Zahlungsfähigkeit gefährden.</p> <p>Restwert Risiken im Finanzdienstleistungsgeschäft</p> <p>Im Volkswagen Financial Services Geschäft tritt ein Restwertisiko auf, wenn der geschätzte Verkaufswert eines gemieteten Gegenstands bei Vertragsablauf geringer ist als der bei Vertragsabschluss vereinbarte Restwert.</p> <p>Risiko im Zusammenhang mit Unternehmensübernahmen und Unternehmensbeteiligungen</p> <p>In der jüngsten Vergangenheit hat der Volkswagen Konzern bedeutende Übernahmen durchgeführt und die Möglichkeit nicht ausgeschlossen, auch in Zukunft Unternehmen oder Unternehmensanteile zu erwerben. Unternehmensübernahmen sind typischerweise mit signifikanten Investitionen und Risiken verbunden.</p>
--	--

		<p>Sonstige Einflüsse</p> <p>Risiken, die derzeit noch nicht vorhersehbar sind, können einen negativen Einfluss auf die zukünftige Entwicklung des Volkswagen Konzerns nehmen. Dieses umfasst zum Beispiel Naturkatastrophen, Epidemien und Terroranschläge.</p>
	<p>Zentrale Angaben zu den zentralen Risiken, die den Schuldverschreibungen eigen sind</p>	<ul style="list-style-type: none"> • Die Schuldverschreibungen sind möglicherweise keine für alle Anleger geeignete Anlage. • Die Schuldverschreibungen haben eine unbegrenzte Laufzeit, und Anleihegläubiger können die Schuldverschreibungen nicht kündigen. • Nach Wahl der Emittentin können die Schuldverschreibungen zurückgezahlt werden: (i) am ersten Rückzahlungstermin oder an jedem darauf folgenden Zinszahlungstag, (ii) wenn die Emittentin aufgrund einer Gesetzesänderung zusätzliche Beträge hinsichtlich Steuern zu bezahlen hat oder (iii) wenn 80 % oder mehr des ursprünglich begebenen Nennbetrags der Schuldverschreibungen zurückgezahlt oder zurückerworben wurden. Darüber hinaus kann die Emittentin die Schuldverschreibungen zurückzahlen, wenn (i) die steuerliche Behandlung von Zinszahlungen, die von der Emittentin oder der Garantin in Bezug auf die Schuldverschreibungen zahlbar sind, dergestalt geändert wurde, dass sie nicht mehr für die Zwecke der Körperschaftsteuer ganz oder teilweise abzugsfähig sind, (ii) die durch die Emission eingeworbenen Mittel nicht mehr als Eigenkapital der Garantin behandelt werden können oder (iii) bestimmte Ratingagenturen die Schuldverschreibungen keiner oder einer geringeren Eigenkapitalanrechnungskategorie zuordnen. Im Fall einer Rückzahlung könnten Anleihegläubiger, die eine niedrigere als die erwartete Rendite erzielen, nicht in der Lage sein, den Rückzahlungsbetrag zu denselben Konditionen wiederzuveranlagen und einen niedrigeren Rückzahlungsbetrag als den letzten Marktpreis der Schuldverschreibungen erhalten. • Die Verbindlichkeiten der Emittentin aus den Schuldverschreibungen stellen nicht besicherte, nachrangige Verbindlichkeiten der Emittentin dar. • Die Anleihebedingungen enthalten keine ausdrücklichen Verzugs- oder Drittverzugsregelungen (Events of Default oder Cross Default). • Im Zusammenhang mit Zahlungen unter den Schuldverschreibungen wird die Emittentin teilweise von Zahlungen anderer Gesellschaften, die Teil des Volkswagen Konzerns sind, abhängig sein. • Die Schuldverschreibungen enthalten keine Einschränkungen in Bezug auf die Einhaltung von Finanzkennzahlen. • Die Möglichkeiten der Anleihegläubiger, den Ausgang eines Insolvenzverfahrens oder eines Restrukturierungsverfahrens außerhalb eines Insolvenzverfahrens zu beeinflussen, sind beschränkt. • Anleihegläubiger haben kein Stimmrecht in der Hauptversammlung. • Anleihegläubiger haben nur begrenzte Rechtsmittel gegen die Emittentin, um fällige Beträge unter den Schuldverschreibungen einzutreiben. • Es besteht keine Beschränkung hinsichtlich der Ausgabe von Schuldtiteln durch die Emittentin, die den Verpflichtungen aus

		<p>oder im Zusammenhang mit den Schuldverschreibungen im Rang gleichstehen oder gegenüber ihnen vorrangig sind.</p> <ul style="list-style-type: none"> • Die Verpflichtungen der Garantin in der Garantie sind unbesichert und tief nachrangig. • Die Anleihegläubiger haben in einem deutschen Insolvenzverfahren der Garantin nur eingeschränkte Rechte. Dadurch können die Anleihegläubiger ihre Investition ganz oder zu einem ganz erheblichen Teil verlieren. • Die Zulassung der Schuldverschreibungen zum Handel im regulierten Markt der Luxemburger Wertpapierbörse und zur Amtlichen Notierung (<i>Official List</i>) ist beantragt worden. Es besteht jedoch keine Gewähr dafür, dass sich ein liquider Sekundärmarkt für die Schuldverschreibungen entwickeln wird. Außerdem kann der Markt für Schuldverschreibungen volatil sein. • Es besteht das Risiko, dass der Handel mit den Schuldverschreibungen ausgesetzt, unterbrochen oder eingestellt wird. • In dem Zeitraum ab dem Zinslaufbeginn bis zum Ersten Rückzahlungstermin kann nicht ausgeschlossen werden, dass der Kurs der Schuldverschreibungen infolge von Veränderungen des derzeitigen Zinssatzes auf dem Kapitalmarkt (Marktzins) fällt, da der Marktzins Schwankungen unterliegt. • Ab dem ersten Rückzahlungstermin sollten Anleihegläubiger berücksichtigen, dass der Zinssatz an jedem Reset-Termin mit Bezug auf den 7-Jahres-Swapsatz respektive den 15-Jahres-Swapsatz für den betreffenden Reset-Zeitraum zuzüglich einer Marge festgesetzt wird. Die Entwicklung des 7-Jahres-Swapsatzes respektive des 15-Jahres-Swapsatzes und die Verzinsung der Schuldverschreibungen können nicht antizipiert und eine Rendite kann nicht berechnet werden. Zusätzlich kann in keinem Reset-Zeitraum ausgeschlossen werden, dass der Kurs der Schuldverschreibungen infolge von Veränderungen des derzeitigen Zinssatzes auf dem Kapitalmarkt (Marktzins) fällt, da der Marktzins Schwankungen unterliegt. • Anleihegläubiger sollten berücksichtigen, dass Zinsen aufgeschoben werden können. Aufgeschobene Zinszahlungen werden nicht verzinst. Ein Zinsaufschub wird vermutlich nachteilige Auswirkungen auf den Marktpreis der Schuldverschreibungen haben. • Ratings der Emittentin, der Garantin oder der Schuldverschreibungen können sich jederzeit verändern und sind keine Empfehlung zum Kauf, Verkauf oder zum Halten der Schuldverschreibungen. • Die auf Euro lautenden Schuldverschreibungen könnten ein Währungsrisiko für einen Anleihegläubiger darstellen, wenn der Euro für den betreffenden Anleihegläubiger eine Fremdwährung ist; außerdem könnten Regierungen und zuständige Behörden künftig Devisenkontrollen verhängen. • Da die Globalschuldverschreibungen von oder für Euroclear und Clearstream, Luxembourg, gehalten werden, müssen sich Anleihegläubiger auf deren Verfahren zur Übertragung, Zahlung und Kommunikation mit der Emittentin verlassen. • Für einen Anleihegläubiger besteht das Risiko, dass er überstimmt wird und gegen seinen Willen Rechte gegenüber der Emittentin verliert, falls Anleihegläubiger mit einer Stimmenmehrheit gemäß dem Schuldverschreibungsgesetz ihre

Abschnitt E – Angebot		
E.2b	Gründe für das Angebot und Zweckbestimmung der Erlöse	Die Emittentin beabsichtigt die Nettoerlöse für allgemeine Geschäftszwecke zu nutzen, welche die darlehensweise Weiterleitung der Nettoerlöse zum Garanten zur Nutzung für allgemeine Geschäftszwecke des Garanten einschließt.
E.3	Angebotskonditionen	<p>Die Schuldverschreibungen werden in Luxemburg, Deutschland, Österreich, den Niederlanden, Großbritannien, Frankreich bzw. Irland innerhalb eines Angebotszeitraums angeboten, ab dem Prospektdatum in Luxemburg (18. März 2015) und ab dem Zeitpunkt zu dem die Notifizierung des Prospekts (Passporting) in dem jeweiligen Mitgliedsstaat erfolgt ist, in Deutschland, Österreich, den Niederlanden, Großbritannien, Frankreich bzw. Irland bis zum 20. März 2015 (welcher der Tag der Ausgabe der Schuldverschreibungen ist), vorbehaltlich einer Verkürzung oder Verlängerung des Angebotszeitraums.</p> <p>Das Angebot unterliegt keinen Bedingungen. Lieferung und Zahlung der Schuldverschreibungen und Bestätigung der Zuteilung an Anleger erfolgen am 20. März 2015. Die Lieferung der Schuldverschreibungen erfolgt durch buchmäßige Übertragung über die Clearingsysteme und ihre Depotbanken gegen Zahlung des Emissionspreises.</p>
E.4	Aller für die Emission/ das Angebot wesentlichen, auch kollidierenden Interessen	BNP Paribas, Commerzbank Aktiengesellschaft, J.P. Morgan Securities plc und Merrill Lynch International (zusammen die „ Joint Bookrunner “ oder die „ Konsortialführer “) haben sich nach Maßgabe eines Übernahmevertrags vom 17. März 2015, verpflichtet, die Schuldverschreibungen zu zeichnen oder andere Erwerber zu vermitteln. Die Konsortialführer sind unter bestimmten Voraussetzungen berechtigt, den Übernahmevertrag zu kündigen. In diesem Fall werden keine Schuldverschreibungen an Anleger geliefert. Weiterhin wird die Emittentin sich bereit erklären, die Konsortialführer von bestimmten Haftungsrisiken im Zusammenhang mit dem Angebot und dem Verkauf der Schuldverschreibungen freizustellen. Die Provision, die im Zusammenhang mit dem Angebot, der Platzierung und der Zeichnung der Schuldverschreibungen an die Konsortialführer zu zahlen

		<p>ist, beträgt bis zu 0,65% des Gesamtnennbetrags der Schuldverschreibungen. Die Konsortialführer oder mit ihnen verbundene Unternehmen haben bisher Investment Dienstleistungen gegenüber der Emittentin und den mit ihr verbundenen Unternehmen erbracht und werden dies voraussichtlich auch in Zukunft tun. Für diese Dienstleistungen haben die Konsortialführer und ihre verbundenen Unternehmen marktübliche Gebühren und Provisionen erhalten bzw. werden solche zukünftig erhalten. Außer den Interessen der Emittentin bestehen keine Interessen (einschließlich Interessenkonflikte) natürlicher oder juristischer Personen die an der Emission beteiligt sind, die für die Emission wesentlich sind.</p>
E.7	Schätzung der Ausgaben, die dem Anleger vom Emittenten oder Anbieter in Rechnung gestellt werden	<p>Entfällt; die Emittentin oder Anbieter werden dem Anleger direkt keine Kosten, Ausgaben oder Steuern in Bezug auf die Schuldverschreibungen berechnen. Jeder Investor muss sich allerdings selbst über Steuern und Ausgaben informieren, die für ihn anfallen könnten, z.B. Gebühren für die Verwahrstelle.</p>

Section B – Émetteur																																															
B.1	Raison sociale et nom commercial	Volkswagen International Finance N.V. (« VIF ») est à la fois la raison sociale et le nom commercial de l'Émetteur.																																													
B.2	Domiciliation, forme juridique, législation régissant, pays de constitution	VIF est une société anonyme de droit néerlandais domiciliée aux Pays-Bas. VIF est réglementé par les dispositions de <i>Boek 2 Burgerlijk Wetboek</i> (Livre 2 du Code Civil néerlandais).																																													
B.4b	Description de toute tendance connue ayant des répercussions sur l'Émetteur et ses secteurs d'activité	La crise financière débutée en 2007 s'est transformée en crise de la dette souveraine. Cette crise des marchés financiers et de la dette souveraine et la dépression économique qui s'est ensuivie ont conduit à un niveau de taux d'intérêt historiquement bas. L'Émetteur n'anticipe pas de changement significatif de la conjoncture économique globale et prévoit donc le maintien des taux d'intérêt à leur faible niveau général.																																													
B.5	Description du Groupe et position de l'Émetteur au sein du Groupe	VIF fait partie du Groupe Volkswagen composé de nombreuses filiales et sociétés affiliées en Allemagne et dans le monde. Son actionnaire est Volkswagen Finance Luxembourg S.A. (« VFL »), filiale à 100 % de VOLKSWAGEN AKTIENGESELLSCHAFT (« VWAG »).																																													
B.9	Prévisions / Estimations des bénéfices	Sans objet; aucune prévision ou estimation des bénéfices n'est réalisée.																																													
B.10	Réserves dans le rapport d'audit sur les informations financières historiques	Sans objet ; PricewaterhouseCoopers Accountants N.V. a révisé les états financiers non consolidés de VIF pour les exercices clos aux 31 décembre 2014 et 2013 et a formulé une opinion sans réserve pour chacun des exercices.

Section D – Risques		
D.2	Informations clés concernant les principaux risques propres à l'Émetteur	<p>Risque de défaut d'une contrepartie</p> <p>Le risque de défaut d'une contrepartie est défini comme l'éventualité d'une perte de valeur du fait d'un impayé d'un client ou de la détérioration de sa solvabilité. Sont distingués le risque de crédit, le risque de contrepartie, le risque pays et le risque actionnaire.</p> <p>Risque de crédit</p> <p>Le risque de crédit est défini comme le risque d'un défaut de paiement total ou partiel des intérêts contractés ou du principal par un emprunteur. Les risques de crédit découlent principalement de prêts accordés à des sociétés du groupe et des co-entreprises, de dépôts bancaires et de swaps croisés de devises ou de swaps de taux d'intérêt.</p> <p>Risque de contrepartie</p> <p>Le risque de contrepartie découle des placements au jour le jour ou à terme conduits sur le marché interbancaire ainsi que des opérations sur dérivés.</p> <p>Risque pays</p> <p>Le risque pays couvre les risques liés à des placements étrangers dans le cadre d'activités internationales sans découler de la partie contractante elle-même.</p> <p>Risque actionnaire</p> <p>Le risque actionnaire est défini comme le risque de pertes ayant des répercussions négatives sur le résultat comptable de la valeur actionnariale.</p> <p>Risque de marché</p> <p>Le risque de marché se rapporte à l'éventualité de pertes découlant de variations défavorables des prix du marché ou de paramètres exerçant une influence sur ces prix. Les risques de marché sont sous-divisés en risque de taux d'intérêt et risque de change.</p> <p>Risque de taux d'intérêt</p> <p>Le risque de taux d'intérêt se rapporte à l'éventualité de pertes découlant des variations des taux d'intérêt. Ces risques émanent d'activités de refinancement à des périodes d'intérêt qui ne correspondent pas et de la variabilité du degré d'élasticité des taux d'intérêt des éléments individuels d'actif et de passif.</p> <p>Risque de change</p> <p>Le risque de change désigne l'éventualité d'une évolution négative du taux de change d'une devise par rapport à l'euro, devise de référence de VIF.</p>

		<p>Risque de liquidité</p> <p>Le risque de liquidité désigne le risque de ne pas être en mesure d'honorer ses obligations de paiement en temps voulu ou dans leur intégralité.</p> <p>Risque de refinancement</p> <p>Le risque de refinancement désigne le risque d'une baisse du volume d'activité du fait d'une incapacité à lever des fonds.</p> <p>Risque opérationnel</p> <p>Le risque opérationnel est défini comme l'éventualité de pertes découlant de l'inadéquation ou de l'inefficacité des processus internes (risque de processus), du personnel (risque de personnel) ou des technologies (risques d'infrastructure et risques informatiques). Les définitions de ces trois catégories de risque couvrent les risques juridiques associés à chacun. Les risques stratégiques et les risques réputationnels ne sont pas considérés comme des risques opérationnels.</p> <p>Risque informatique et risque système</p> <p>Les technologies de l'information (« l'informatique ») de VIF sont exposées à des risques qui surviennent dès lors qu'un ou plusieurs objectifs fondamentaux en termes de sécurité - confidentialité, intégrité et disponibilité des données et services - sont menacés par des maillons faibles dans l'organisation, l'utilisation ou l'administration des systèmes informatiques.</p> <p>Risque de personnel</p> <p>Les risques de personnel peuvent découler d'une rotation élevée des équipes, d'une disponibilité de personnel insuffisante ou de qualifications inadéquates du personnel ainsi que d'une erreur humaine.</p> <p>Risque juridique</p> <p>Les risques juridiques peuvent être décrits comme une modification soudaine et imprévue de la législation nationale permettant au gouvernement du pays de prendre en tout ou partie le contrôle des parties contractuelles de VIF, qu'il s'agisse de banques, de sociétés affiliées ou filiales du groupe, de sa maison mère ou de VIF lui-même.</p>
D.3	<p>Informations clés concernant les principaux risques propres au Garant</p>	<p>Risques macroéconomiques</p> <p>Le principal risque pour le développement à moyen terme de l'économie mondiale est une phase de faiblesse de la croissance en raison de déficits structurels dans de nombreuses économies industrialisées ou en développement. Par ailleurs, des risques importants sont liés à la présence d'institutions financières qui ne sont pas encore stabilisées ainsi que la dette des secteurs publics et privés maintenue à des niveaux élevés. Des tensions géopolitiques et des conflits sont des risques importants additionnels pour la performance des économies individuelles ou des régions.</p> <p>Risques sectoriels</p> <p>Certains marchés ou pays peuvent être assortis de barrières douanières élevées ou d'obligations minimum de contenu local pour la production domestique. Par ailleurs, les conditions de marché en Europe de l'Est et en Amérique du Sud se sont nettement détériorées en raison de crises politiques et de ses effets</p>

	<p>économiques, ou de déficits structurels and de tensions sociales. Ces facteurs entravent le développement des volumes de ventes. Par ailleurs, la pression économique et concurrentielle sur les prix, de même que la sous-utilisation des capacités, font aussi peser des risques substantiels.</p> <p>Génie Energétique</p> <p>Les tendances fondamentales de l'économie mondiale vont continuer, telle qu'une croissance économique soutenue, une meilleure division internationale du travail ainsi qu'une augmentation globale des moyens et volumes de transport, une demande croissante en énergie, l'augmentation des besoins en capital par l'industrie pétrolière et gazière et pousser à l'innovation alimentées par les tendances de la politique climatique mondiale. En tant que membre de l'industrie des biens d'équipement, la Division Génie Energétique est soumise aux fluctuations liées aux investissements climatiques. Des changements même modestes dans la croissance ou la prévision de croissance, par exemple liés à des incertitudes géopolitiques ou à une volatilité sur le marché des matières premières, peuvent engendrer des changements significatifs de la demande ou peuvent entraîner l'annulation de commandes existantes.</p> <p>Risques de R&D</p> <p>Le succès futur du Groupe Volkswagen dépend de sa capacité à offrir de nouveaux produits qui répondent à la demande des clients en temps voulu.</p> <p>Risques d'approvisionnement</p> <p>Le ralentissement de la croissance de l'économie mondiale au cours de 2014 a entraîné des problèmes d'utilisation des capacités par les fournisseurs dans les différentes régions, notamment en Amérique du Sud et en Russie. Cela implique un besoin de financement croissant et de consolidation supplémentaire dans l'industrie de fourniture. La tendance d'approvisionnement est de regrouper les contrats dans une plus large mesure et de s'assurer une disponibilité dans le monde entier de composants uniformes. Le Groupe Volkswagen pourra être affecté négativement par une concurrence insuffisante si son approvisionnement est concentré sur des fournisseurs financièrement importants et peu nombreux lors de l'attribution de contrats.</p> <p>Risques de production</p> <p>Les évolutions de l'industrie automobile mondiale entraînent des variations en 2014 dans les volumes de production de certains modèles de véhicules de certaines usines. Des fluctuations à court terme dans la demande des consommateurs pour des équipements spécifiques des produits du Groupe Volkswagen et la diminution de la prévisibilité de ces fluctuations peuvent amener à des ruptures d'approvisionnement.</p> <p>Risques découlant de la production à long terme</p> <p>Ces risques concernent des erreurs rédactionnelles de contrats, une mauvaise évaluation des coûts, des changements de la situation économique et technique postérieurs à la signature du contrat, des manquements dans la gestion de projet ou une mauvaise exécution des sous-traitants.</p>
--	--

	<p>Risque découlant des variations de la demande</p> <p>La persistance des effets négatifs de la crise de la dette européenne et les inquiétudes des ménages qui y sont liés concernant la situation économique future combinés aux incertitudes concernant la taxation à venir des émissions de dioxyde de carbone (« CO₂ »), ainsi que d'autres facteurs d'ordre psychologique, peuvent conduire les consommateurs à une réticence face à l'achat de véhicules et ainsi avoir des répercussions négatives sur les résultats financiers du Groupe Volkswagen. Pour la Division Véhicules Utilitaires, il y a des risques car les véhicules utilitaires sont des biens d'équipements et sont donc soumis à davantage de fluctuations conjoncturelles que les biens de consommations. Pour la Division Génie Energétique il y a un risque dû à la volatilité de la demande de construction navale nouvelle et les investissements lourds effectués par les licenciés. Il y a une capacité excédentaire sur le marché pour les moteurs marins allant des risques de recul des revenus tirés des licences jusqu'à des pertes sur créances douteuses.</p> <p>Risque de dépendance à l'égard de l'activité gestion de flottes</p> <p>L'activité gestion de flottes reste marquée par une concentration et une internationalisation croissantes. Il pourrait en découler des répercussions négatives sur la situation financière du Groupe Volkswagen.</p> <p>Risque de qualité</p> <p>Les volumes de production en hausse, la complexité croissante et l'utilisation du système du Groupe Volkswagen lancent de nouveaux défis à la fonction assurance qualité, notamment sur les marchés automobiles en pleine croissance. Les rappels peuvent entraîner des coûts élevés et pourraient avoir des répercussions négatives sur l'image du Groupe Volkswagen.</p> <p>Risque de personnel</p> <p>Les risques de personnel peuvent découler d'une rotation élevée des équipes, d'une disponibilité de personnel insuffisante ou de qualifications inadéquates du personnel ainsi que d'une erreur humaine.</p> <p>Risque informatique</p> <p>Les technologies de l'information de VIF sont exposées à des risques qui surviennent dès lors qu'un ou plusieurs objectifs fondamentaux en termes de sécurité - confidentialité, intégrité et disponibilité des données et services - sont menacés par des maillons faibles dans l'organisation ou dans l'utilisation / l'administration des systèmes informatiques.</p> <p>Réglementations relatives à la protection de l'environnement</p> <p>Le Groupe Volkswagen est tenu de se conformer à de nombreuses réglementations en matière de protection de l'environnement. Les nouveaux véhicules de tourisme et utilitaires légers sont soumis à des plafonds d'émission à l'intérieur comme en dehors de l'Europe. Les utilitaires lourds mis en circulation à compter de 2014 font d'ores et déjà l'objet d'exigences plus strictes en vertu de la réglementation de l'Union européenne sur les émissions. Par ailleurs, les méthodes d'allocation des certificats d'émission ont radicalement changé en 2013 avec la décision de la Commission</p>

RISK FACTORS

Prospective investors should carefully review the following risk factors in conjunction with the other information contained in this Prospectus before making an investment in the Notes. If these risks materialize, individually or together with other circumstances, they may have a material adverse effect on Volkswagen's business, results of operations and financial condition. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the Issuer may be unable to fulfill its obligations under the Notes for other reasons than those described below. Additional risks not currently known to Volkswagen or that it currently believes are immaterial may also adversely affect its business, results of operations and financial condition. Should any of these risks materialize, the trading price of the Notes could decline, the Issuer may not be able to fulfill its obligations under the Notes and investors could lose all or a part of their investment. The order in which the individual risks are presented does not provide an indication of the likelihood of their occurrence nor of the severity or significance of the individual risks.

Each prospective purchaser of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. Risk Factors regarding Volkswagen International Finance N.V.

Risk is defined as the possibility of negative future developments in the economic situation of VIF. The principal risks to which VIF is exposed are described below.

Risk of counterparty default

Risk of counterparty default is defined as the possible loss in value due to non-payment by a customer or deterioration of his creditworthiness. A distinction is made between credit risks, counterparty risks, country risks and shareholder risks.

Credit risk

Credit risk is defined as the risk of a partial or total default of contracted interest payment or principal payment by a borrower. Credit risks mainly result from loans granted to group and joint venture companies and bank deposits as well as cross currency and interest rate swaps. Credit risk represents the largest component of the indicated risk factors affecting VIF. Risk acceptance is approved by the Board of Management and the Supervisory Board regularly monitors VIF's risk profile. Lending guidelines regulate credit processes and competences.

Counterparty risk

Counterparty risk arises from overnight money and time deposit investments carried out in the inter-bank sector as well as derivatives transactions.

Country risk

Country risk includes risks in the course of international business, which do not result from the contracting party itself, but are due to its foreign investments. For example, critical political or economic developments as well as difficulties in the entire finance system in this country can lead to the fact that agreed transborder capital payments (interest and repayment) cannot take place or take place incompletely or delayed, due to difficulties of transfer by reason of mandatory measures by a foreign state.

The evaluation of country risks is based on the assessments of the long-term foreign currency liabilities of a state (sovereign ratings) by the rating agencies Moody's and Standard & Poor's.

Shareholder risk

The shareholder risk is defined as the risk of losses affecting negatively the shareholding book value.

Market risk

Market risks signify potential losses because of disadvantageous changes of market prices or price-influencing parameters. At VIF market risk is subdivided into interest rate risks and currency risks.

Interest rate risk

Interest rate risk includes potential losses from changes in market rates. These risks result from refinancing at non-matching interest periods and from different degrees of interest rate elasticity of individual assets and liabilities.

Currency risk

Currency risk means the possible negative evolution of the exchange rate of a foreign currency in relation to the Euro, which is the base currency of VIF. These changes could then create a negative result if in a specific currency assets and liabilities do not match (currency position).

Liquidity risk

Liquidity risk could occur when the receivables dates do not match the corresponding liability dates. Although VIF has access to multiple funding sources, such as a debt issuance programme and a commercial paper programme as well as the possibility to benefit from the parent company's facilities, it is still exposed to the liquidity risk. The prime objective of cash flow management at VIF is to ensure the ability to pay at all times.

Refinancing risk

Refinancing risks can be described as the possibility of not being able to meet finance requirements of affiliated group companies or subsidiaries, due to worsening markets conditions on the capital market, such as significant negative alteration of VW credit rating, growing economic instability or negative changes in solvency for major international banks, possibly undermining VIF's ability to refinance itself.

Operational risk

Operational risk is the term used for the threat of losses due to inadequate or failing internal processes, personnel and systems. This also takes into account risks that result from external factors such as natural disasters, terrorist attacks, political unrest or legal risks.

IT and system risk

VIF's information technology ("IT") is exposed to risks that occur when one or more fundamental security objectives such as confidentiality, integrity and availability of data and services are threatened by weak spots in either the organization or in the use or administration of IT systems.

Personnel risk

Personnel risks may result from high personnel turnover, insufficient availability of personnel, inadequate personnel qualification and human error.

Legal risk

Legal risks can be described as a sudden and unexpected change in a national law enabling local government to partially or wholly take control of VIF's contract parties: banks, affiliated group companies, subsidiaries, parent company or VIF itself. This so-called nationalization could then influence VIF's ability to meet their obligations.

Although the tax department, supported by local advisors, monitors the international tax situation, other risks, such as the introduction of withholding taxes or other restrictive tax implications for one of its contract parties, as described above, could occur during the lifetime of its assets and liabilities, thus causing negative tax implications with regard to (re)payment of principal or interest funds.

Risk Factors regarding VOLKSWAGEN AKTIENGESELLSCHAFT and Volkswagen Group

In the following section specific risks arising from the business activities of the Volkswagen Group are explained.

Macroeconomic risks

The risks to continued global economic growth lie primarily in structural deficits, which pose a threat to the performance of many industrialized nations and some emerging economies. In the eurozone, a sustained economic recovery is being hindered in particular by the situation of numerous financial institutions whose stability and ability to withstand a crisis are still not assured. Persistently high private- and public-sector debt

in many places is also clouding the outlook for growth and may cause markets to respond negatively. Declines in growth in key countries and regions often have an immediate impact on the state of the global economy and therefore pose a central risk.

The economic performance of some emerging economies is being overshadowed primarily by overindebtedness, reliance on capital inflows and social tensions. Corruption, inadequate government structures and a lack of legal certainty also pose risks.

Geopolitical tensions and conflicts are a further major risk to the performance of individual economies or regions. As the global economy becomes increasingly interconnected, it is also vulnerable to local developments. Volkswagen Group may be negatively affected due to any escalation of the conflicts in Eastern Europe, the Middle East, or North Africa which could, for example, disrupt the global energy and commodity markets. The same goes for armed conflicts, terrorist activities, or the spread of infectious diseases, which may prompt unexpected, short-term responses from the markets.

Sector-specific risks

The growth markets of Asia, South America, and Central and Eastern Europe are particularly important for the Volkswagen Group in terms of the global trend in demand for passenger cars and commercial vehicles. Although these markets harbor considerable potential, the underlying conditions in some of the countries in these regions make it difficult to increase unit sales figures there. Some have high customs barriers or minimum local content requirements for domestic production, for example. In addition, in 2014, the market trend in Russia was depressed by the political crisis and its economic effects. In South America, structural deficits and social tensions had a negative impact. Restrictions on registrations could enter into force in further Chinese metropolitan areas in future. Furthermore, a global economic slowdown could impact negatively on consumer confidence in some of these countries. Equally, the Volkswagen Group cannot entirely rule out the possibility of freight deliveries being shifted from trucks to other means of transport and of demand for the Volkswagen Group's commercial vehicles falling as a result.

Price pressure in established automotive markets due to high market saturation is a particular challenge for the Volkswagen Group as a supplier of volume and premium models. As the global economy is still under strain, competitive pressures are likely to remain high in the future. Some manufacturers may respond by offering incentives in order to meet their sales targets, putting the entire sector under additional pressure, particularly in Western Europe, the USA and China.

Western Europe is one of the Volkswagen Group's main sales markets. A drop in prices due to the economic climate triggered by falling demand in this region would have a particularly strong impact on the Volkswagen Group's earnings. Outside Western Europe, overall delivery volumes are broadly diversified throughout the world. The Chinese market accounts for an increasing share.

In 2014, economic trends varied considerably from region to region: while the situation in Western Europe stabilized, China remained on a growth track and the US economy continued to recover, market conditions in Eastern Europe and South America deteriorated markedly. The resulting challenges for the Volkswagen Group's trading and sales companies, such as efficient inventory management and a profitable dealer network, are considerable. Financing business activities through bank loans remains difficult.

The Volkswagen Group continues to approve loans for vehicle finance on the basis of the same cautious principles applied in the past, taking into account the regulatory requirements of section 25a(1) of the Kreditwesengesetz (KWG – German Banking Act).

The Volkswagen Group may be exposed to increased competition in aftermarkets for two reasons in particular: firstly, because of the provisions of the block exemption regulations, which have been in force for after-sales service since June 2010, and, secondly, because of the amendments included in EU Regulation 566/2011 dated June 8, 2011, which expand independent market participants' access to technical information.

The European Commission is currently evaluating the market with regard to existing design protection. If design protection for visible genuine parts were to be abolished as a result, this could adversely affect the Volkswagen Group's genuine parts business.

Power Engineering

The underlying global economic trends will continue, such as sustained economic growth, a greater international division of labor and resulting increase in global transportation routes and volumes, growing demand for energy, the increasing requirement for capital spending by the oil and gas industry, and forces for innovation powered by trends in global climate policy. As part of the capital goods industry, the Power Engineering Business Area is subject to fluctuations in the investment climate. Even small changes in growth or growth forecasts, for example due to geopolitical uncertainties or volatile commodities markets,

can lead to significant changes in demand or can result in existing orders being cancelled. Among other things, flexible production concepts enable us to counter the significant economic risks.

Research and development risks

The Volkswagen Group is conducting extensive trend analyses, customer surveys and scouting activities so as to adequately reflect its customers' requirements during product development. These measures should ensure that the Volkswagen Group identifies trends at an early stage and examines their relevance for customers in good time.

Although the Volkswagen Group continuously and systematically monitors the progress of all projects and increasingly analyzes third-party industrial property rights, including in relation to communication technologies, there is a risk that it may not be possible to develop products or modules within the specified timeframe, to the required quality standards, or in line with cost specifications. Countermeasures initiated in the event that actual progress deviates from the original targets may not prove suitable.

Procurement risks

The slowdown in global economic growth in the course of 2014 led to capacity utilization problems for suppliers in the different regions, particularly in South America and Russia. In Western Europe, demand for passenger cars stabilized in 2014.

The trend in procurement is to bundle contracts to a greater extent and to ensure worldwide availability of uniform components. This is resulting in an increased need for financing and further consolidation in the supply industry. The Volkswagen Group's procurement risk management system therefore assesses suppliers before they are commissioned to perform projects. Among other things, the Volkswagen Group's procurement function weighs the risk of there being insufficient competition if it concentrates on a few financially strong suppliers when awarding contracts. However, these risk management measures may be ineffective in mitigating procurement risks.

Production risks

Developments on the global automotive markets caused production volumes of several vehicle models to fluctuate at some plants in 2014. Short-term fluctuations in customer demand for specific equipment features of the Volkswagen Group's products and the decreasing predictability of those fluctuations may lead to supply bottlenecks.

Because of vehicle projects, capacity is planned several years in advance on the basis of expected sales trends. These are subject to market changes and generally entail a degree of uncertainty. If forecasts are too optimistic, there is a risk that capacity will not be fully utilized. Forecasts that are too pessimistic pose a risk of under-capacity, as a result of which it may not be possible to meet customer demand.

Due to the growing range of models and shorter product life cycles, new vehicle start-ups are an ever more frequent occurrence at the Volkswagen Group's sites worldwide. Because of the complexity of processes and technical systems, there is a possibility that vehicle deliveries may be delayed.

Risks arising from long-term production

In the case of large projects, risks may arise that are often only identified in the course of the project. They may result in particular from contract drafting errors, miscosting, post-contract changes in economic and technical conditions, weaknesses in project management, or poor performance by subcontractors. In particular, omissions or errors made at the start of a project are usually difficult to compensate for or correct and often entail a substantial increase in costs.

Risks arising from changes in demand

Consumer demand is shaped not only by real factors such as disposable income, but also by psychological factors that are impossible to plan for.

Households' worries about the future economic situation could result in unexpected buyer reluctance, which could be further exacerbated by media reports, for example. This is particularly the case in saturated automotive markets such as Western Europe, where demand could drop as a result of owners holding on to their vehicles for longer. In 2014, it became evident that the effects of the eurozone debt crisis have not yet been overcome. Several automotive markets, particularly in Southern Europe, were unable to recover from their record lows, even if they did return to positive growth.

A combination of buyer reluctance as a result of the crisis and increases in some vehicle taxes based on CO₂ emissions – such as those already formulated in some European countries – is driving a shift in

demand towards smaller segments and engines in individual markets. Automotive markets around the world are exposed to risks from government intervention in the form of tax increases, for example, which could curb private consumption.

Commercial vehicles are capital goods and are therefore subject to more extreme cyclical fluctuations than occur in the consumer goods industry. Although production volumes are significantly lower, the complexity of the trucks and buses range in fact significantly exceeds that of passenger cars.

MAN Power Engineering's two-stroke engines are produced exclusively by licensees, particularly in Korea, China and Japan. Due to volatile demand in new ship construction and heavy investment by some licensees, there is excess capacity in the market for marine engines, resulting in risks ranging from a decline in license revenues through to bad debt losses. There is also a risk that market share will be lost as a result of Chinese state-owned licensees merging with competitors.

Dependence on fleet customer business

In 2014, the percentage of total registrations in Germany accounted for by fleet customers rose to 13.3% (previous year: 12.5%). The Volkswagen Group's share of this customer segment climbed to 48.4% (previous year: 47.2%).

In Europe, the Volkswagen Group was able to further extend its position in this customer segment thanks to its comprehensive product range and customized support for this target group; registrations by business fleet customers were up 9.9% year-on-year, while the Group's share rose to 29.2% (previous year: 28.8%). The fleet customer business continues to be marked by increasing concentration and internationalization.

Quality risk

As the use of modular components is steadily increasing thanks to the Volkswagen Group's modular toolkit strategy, it is very important when defects do occur to identify and eliminate the cause of the defect as quickly as possible.

Growing production volumes, increasing complexity and the use of the Volkswagen Group's toolkit system mean that the need for high-grade supplier components of impeccable quality is rising. To ensure the continuity of production, it is extremely important that the Volkswagen Group's plants and suppliers deliver on time.

Sustained high demand in the Volkswagen Group's key markets also presents particular challenges for quality assurance. This issue is of fundamental importance especially in the Brazilian, Russian, Indian and Chinese markets, for which the Volkswagen Group develops dedicated vehicles and where local manufacturing operations and suppliers have been established.

Personnel risk

The individual skills and technical expertise of the Volkswagen Group's employees are a major factor contributing to the Volkswagen Group's success.

The Volkswagen Group's strategic, end-to-end human resources development strategy gives all employees attractive training and development opportunities, with particular emphasis being placed on increasing technical expertise in the Volkswagen Group's different vocational groups. In addition, there is the risk that knowledge will be lost as a result of employee fluctuation and retirement. However, the failure to attract sufficient numbers of new employees and to retain qualified employees may lead to competitive disadvantages.

IT risk

At the Volkswagen Group the IT used group-wide is assuming an increasingly important role. IT risks include unauthorized access to sensitive electronic corporate data as well as limited systems availability as a consequence of downtime or natural disasters.

The Volkswagen Group addresses the risk of unauthorized access to corporate data by using firewall and intrusion prevention systems and a dual authentication procedure. In addition, the Volkswagen Group continuously takes measures to combat identified and anticipated risks during the software development process, when protecting the IT infrastructure and also in the allocation of access rights to systems and data resources. Rapid technological advancement, however, creates a residual risk in relation to IT security that cannot be managed completely.

Environmental protection regulations

The specific emission limits for all new passenger car and light commercial vehicle models and the fleet targets calculated from the individual vehicle data for brands and groups in the 28 EU member states for the period up to 2019 are set out in the EU Regulation governing CO₂ emissions from passenger cars (443/2009/EC) and the EU Regulation governing light commercial vehicles of up to 3.5 tonnes (510/2011/EU), in effect since April 2009 and June 2011 respectively. The regulations are an important component of European climate protection legislation and therefore form the key regulatory framework for product design and marketing by all vehicle manufacturers operating in the European markets.

From 2012 onwards, the average CO₂ emissions of manufacturers' new European passenger car fleets may not exceed the figure of 130 g CO₂/km. Compliance with this requirement is being introduced in stages: 80% of cars had to meet this requirement in 2014 and the entire fleet must meet it in 2015. The EU Regulation adopted in 2014 (333/2014/EU) states that, from 2021 onwards, the emissions of European passenger car fleets may be just 95 g CO₂/km.

The EU's CO₂ regulation for light commercial vehicles requires limits to be met from 2014 onwards, with targets being phased in over the period to 2017: the average CO₂ emissions of new registrations in Europe may not exceed the figure of 175 g CO₂/km, a target required to be met by 70% of the fleet in 2014. From 2020 onwards, the limit under the EU Regulation adopted in 2014 (253/2014/EU) is 147 g CO₂/km. Like the regulations for passenger cars, the CO₂ regulations for light commercial vehicles provide for exceptions to be made, for example by offering relief for technical innovations in the vehicle.

The European Commission intends to set out the CO₂ regime for the period after 2020 by the end of 2015. Politicians are already discussing reduction targets for the transport sector for the period to 2050, such as the 60% reduction in greenhouse gas emissions from 1990 levels cited in the EU White Paper on transport published in March 2011. It will only be possible to meet these longterm goals by also making extensive use of nonfossil sources of energy, in particular in the form of renewable electricity.

The European Commission and UNECE (United Nations Economic Commission for Europe) are currently working to introduce a globally harmonized driving cycle.

A regulation is being drawn up to further reduce nitrogen oxide and fine particulate emissions and hence improve air quality.

At the same time, regulations governing fleet fuel consumption are being developed or introduced outside the EU28 as well – in Switzerland, Japan, Taiwan, South Korea, India, Brazil, Mexico, Canada and Saudi Arabia, for example. The existing regulations in China for the period 2012–2015 ("Phase III") governing consumption with a target of 6.9 liters/100 km by 2015, will progress to "Phase IV", with a fleet target of 5.0 liters/100 km by 2020 for the period 2016–2020. Due to the extension of greenhouse gas legislation in the USA, uniform fuel consumption and greenhouse gas rules will continue to apply in all states of the USA in the period from 2017 to 2025.

The increase in CO₂ and consumption regulations means that it is necessary to use the latest mobility technologies in all key markets worldwide. Electrified and pure-play electric drives will also become increasingly common.

The implementation of main EU regulations affecting the automotive industry by the EU member states serves to support the CO₂ regulations in Europe. As well as vehicle manufacturers, they are also aimed at the mineral oil industry, for example. Vehicle taxes based on CO₂ emissions are having a similar effect; many EU member states have already incorporated CO₂ elements into their rules on vehicle taxation.

Heavy commercial vehicles put into operation from 2014 onwards are already subject to the stricter emission requirements under the Euro 6 standard in accordance with EU Regulation 595/2009/EC. The EU is also preparing a further CO₂ regulation for heavy commercial vehicles at the same time as the CO₂ legislation for passenger cars and light commercial vehicles. The European Commission's concrete regulatory proposals are anticipated by the end of 2015. From 2018 onwards, a CO₂ declaration is expected to be compulsory for selected vehicle categories (long-haul and regional distribution vehicles as well as coaches), with the captured data initially being used for customer information and monitoring purposes. Further vehicle categories are likely to be included going forward.

As part of its efforts to reduce the CO₂ emissions of heavy commercial vehicles, the European Commission is also planning to revise the provisions regarding the maximum permissible dimensions and weights of trucks (Directive 96/53/EC, the Weights and Dimensions Directive).

In the Power Engineering segment, the International Maritime Organization (IMO) has implemented the International Convention for the Prevention of Pollution from Ships so called MARPOL (MARine POLLution), which aims to reduce marine pollution and which is phasing in limits on emissions from marine engines.

Emission limits also apply, for example, under EU directive 1997/68/EC and the US EPA (Environmental Protection Agency) marine regulations. As regards stationary equipment, there are a number of national rules in place worldwide that limit permitted emissions.

The allocation method for emissions certificates changed fundamentally when the third emissions trading period (2013–2020) began. For manufacturing industry and certain power generation installations (e.g. combined heat and power installations), a portion of the certificates are allocated free of charge on the basis of benchmarks applicable throughout the EU. The portion of certificates allocated for free will gradually decrease as the trading period progresses: the remaining quantities required will have to be bought, and thus paid for, at auction. Furthermore, installation operators can partly fulfill their obligation to hold emission allowances using certificates from climate protection projects (Joint Implementation and Clean Development Mechanism projects).

In certain (sub-) sectors of industry, there is a risk that production will be transferred to countries outside Europe due to the amended provisions governing emissions trading (a phenomenon referred to as “carbon leakage”). In these cases a consistent quantity of certificates will be allocated free of charge for the period from 2013 to 2020 on the basis of the pan-EU benchmarks. The automotive industry was included in the new carbon leakage list that comes into effect in 2015. It is still unclear to what extent the Volkswagen Group will receive additional certificates free of charge.

In 2013, the European Commission decided to initially withhold a portion of the certificates to be auctioned and to only release them for auction at a later date during the third trading period (“backloading”). This temporary shortage of certificates during the trading period may cause certificate prices to rise.

As well as the European Union, other countries in which the Volkswagen Group has production sites are also considering introducing an emissions trading system. Seven pilot projects have started in China, for example, although they have not so far affected the Volkswagen Group. The Chinese government plans to expand those pilot projects into a national emissions trading system.

Litigation

In the course of their operating activities, VWAG and the companies in which it is directly or indirectly invested become involved in legal disputes and official proceedings in Germany and internationally. In particular, such legal disputes and other proceedings may occur in relation to suppliers, dealers, customers, employees, or investors. For the companies involved, these may result in payment or other obligations. Particularly in cases where U.S. customers assert claims for vehicle defects individually or by way of a class action, highly cost-intensive measures may have to be taken and substantial compensation or punitive damages paid. Similar risks also result from U.S. patent infringement proceedings.

Where transparent and economically viable, adequate insurance cover is taken out for these risks and appropriate provisions recognized for the remaining identifiable risks. However, as some risks cannot be assessed or can only be assessed to a limited extent, the possibility of loss or damage not being covered by the insured amounts and provisions cannot be ruled out.

Strategies for hedging financial risks

In the course of the Volkswagen Group’s business activities, financial risks may arise from changes in interest rates, exchange rates, raw materials prices, or share and fund prices. Management of financial and liquidity risks is the responsibility of the central Volkswagen Group Treasury department, which manages these risks using nonderivative and derivative financial instruments. The Board of Management is informed of the current risk situation at regular intervals.

The Volkswagen Group hedges interest rate risk, where appropriate in combination with currency risk, and risks arising from fluctuations in the value of financial instruments by means of interest rate swaps, cross-currency swaps and other interest rate contracts with matching amounts and maturity dates. This also applies to financing arrangements within the Volkswagen Group.

Foreign currency risk is reduced in particular through natural hedging, i.e. by flexibly adapting the Volkswagen Group’s production capacity at its locations around the world, establishing new production facilities in the most important currency regions and also procuring a large percentage of components locally. The Volkswagen Group hedges the residual foreign currency risk using hedging instruments. These include currency forwards, currency options and cross-currency swaps. The Volkswagen Group uses these transactions to hedge its principal foreign currency risks associated with forecasted cash flows, mostly against the Euro and primarily in Australian dollars, the Brazilian real, sterling, Chinese renminbi, Japanese yen, Canadian dollars, Mexican pesos, Polish zloty, Swedish kronor, Swiss francs, the South African rand, South Korean won, Czech koruna, Hungarian forint and US dollars.

Raw materials purchasing entails risks relating to the availability of raw materials and price trends. The Volkswagen Group limits these risks mainly by entering into forward transactions and swaps. The Volkswagen Group has used appropriate contracts to hedge some of its requirements for commodities such as aluminum, lead, coal, copper, platinum, palladium and rhodium over a period of up to seven years. Similar transactions have been entered into for the purpose of supplementing and improving allocations of CO₂ emission certificates.

Risks arising from financial instruments

Channeling excess liquidity into investments and entering into derivatives contracts gives rise to counterparty risk. Partial or complete failure by a counterparty to perform its obligation to pay interest and repay principal, for example, would have a negative impact on the Volkswagen Group's earnings and liquidity. In addition to counterparty risk, the financial instruments held for hedging purposes hedge balance sheet risks, which the Volkswagen Group limits by applying hedge accounting.

Liquidity risks

In order for the Volkswagen Group to remain solvent at all times, it must hold sufficient liquidity reserves. The Volkswagen Group uses confirmed credit lines and money market and capital market programs. The Volkswagen Group covers the capital requirements of its growing financial services business mainly by raising funds at matching maturities in the national and international financial markets as well as through customer deposits from the direct banking business.

Credit lines from banks are only used within the Volkswagen Group to cover short-term working capital requirements. Projects are financed by, among other things, loans provided by development banks.

A rating downgrade could adversely affect the terms attached to the Volkswagen Group's borrowings.

Residual value risk in the financial services business

In the financial services business, the Volkswagen Group buys back selected vehicles at a residual value that is fixed at inception of the contract. Residual values are set realistically so that the Volkswagen Group is able to leverage market opportunities. The Volkswagen Group evaluates the underlying lease contracts at regular intervals and recognizes any necessary provisions if potential risks are identified.

Management of the residual value risk is based on a defined feedback loop ensuring the full assessment, monitoring, management and communication of risks.

As part of the Volkswagen Group's risk management, residual value forecasts are used to regularly assess the appropriateness of the provisions for risks and the potential for residual value risk. In the process, the Volkswagen Group compares the contractually agreed residual values with the fair values obtainable. These are determined utilizing data from external service providers and the Volkswagen Group's own marketing data.

Risks in relation to corporate acquisitions, cooperations and equity interests

The Volkswagen Group has made significant acquisitions in the recent past and has not ruled out the possibility that it will continue to acquire companies and equity interests in companies in the future. Corporate acquisitions are typically associated with significant investments and risks. As it is often not possible to completely review the target company prior to the acquisition or investment, or this can be done only by incurring disproportionately high costs, the Volkswagen Group can therefore not guarantee that it will recognize all risks related to such a transaction in advance or that it will have protected itself against such risks. There is a risk that it might not be possible to realize the targets for growth, economies of scale, cost savings, development, production and distribution targets, or other strategic goals being sought from the acquisition of companies and interests in companies, or it may only be possible to realize them to an insufficient extent given time and budget constraints.

For research and development, market launches and large projects, the Volkswagen Group at times enters into joint ventures with strategic partners, recently with a focus on China. In the corresponding agreements, the Volkswagen Group agrees with the joint venture partners or the joint ventures to perform certain services for the project. If the Volkswagen Group fails to fulfill its obligations under these contracts, either in whole or in part, this may lead to claims for damages, contractual penalties or termination of the joint venture by the partner or by the joint venture. Additionally, the Volkswagen Group cannot exclude the possibility that joint venture technology will or must be disclosed to joint venture partners and that they will use it for their own purposes outside the joint venture project.

Other factors

Going beyond the risks already outlined, there are other factors that cannot be predicted and are therefore difficult to control. Should these transpire, they could have an adverse effect on the further development of the Volkswagen Group. In particular, these factors include natural disasters, epidemics and terror attacks.

Risks relating to the Notes

An investment in the Notes involves certain risks associated with the characteristics of the Notes. Such risks could result in principal or interest not being paid on time or at all by the Issuer and/or a material impairment of the market price of the Notes. The following is a description of risk factors in relation to the Notes.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes, and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- have access to and knowledge of appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the relevant Notes and be familiar with the behaviors of any relevant indices and financial markets;
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks; and
- recognize that it may not be possible to dispose of the Notes for a substantial period of time or at all.

The Notes are undated securities in which an investment constitutes a financial risk for an indefinite period.

The Notes are undated securities and Noteholders may not declare the Notes due and payable. Therefore, prospective investors should be aware that they may be required to bear the financial risks of an investment in the Notes for an indefinite period and may not recover their investment in a foreseeable future.

Noteholders are subject to risks relating to the early redemption of the Notes.

At the Issuer's option each type of the Notes may be redeemed at 100% of the principal amount plus accrued and unpaid interest and any Arrears of Interest pursuant to the Terms and Conditions of the Notes, (i) on the respective first call date of an issue or any Interest Payment Date thereafter, (ii) if as a consequence of a change in law it has to pay any additional amounts with respect to taxation or (iii) if 80% or more in principal amount of such issue of Notes initially issued has been redeemed or repurchased.

In addition, the Issuer may at its option redeem each issue of the Notes at 101% of the principal amount plus accrued and unpaid interest and any Arrears of Interest pursuant to the Terms and Conditions of the Notes, if (i) the tax regime of any payments under the Notes is modified and such modification results in payments of interest payable by the Issuer or the Guarantor in respect of the Notes being no longer deductible for corporate income tax purposes, (ii) the funds raised through the issuance of such issue of Notes must not or must no longer be recorded as "equity capital" of the Guarantor, (iii) Moody's and / or S&P determine to no longer grant the same or higher category of "equity credit" to such issue of Notes as a result of an amendment, clarification or change to the equity credit criteria of such rating agency.

In the case of redemption, Noteholders might suffer a lower than expected yield and might not be able to reinvest the funds on the same terms. Moreover, the redemption amount in the event of a redemption may be lower than the prevailing market price of the Notes.

The Notes are subordinated to senior obligations of the Issuer.

The obligations of the Issuer under the Notes will be unsecured subordinated obligations of the Issuer which in an insolvency or liquidation of the Issuer rank *pari passu* among themselves and with certain other

obligations of the Issuer, subordinated to all present and future unsubordinated and subordinated obligations of the Issuer and senior only to the Issuer's share capital and similar present or future instruments. According to the Terms and Conditions of the Notes, in an insolvency or liquidation of the Issuer, no payments under the Notes will be made to the Noteholders unless the Issuer has discharged or secured in full (i.e. not only with a quota) all claims that rank senior to the Notes. In a liquidation, insolvency or any other proceeding for the avoidance of insolvency of the Issuer, the Noteholders may recover proportionately less than the Noteholders of unsubordinated or subordinated obligations of the Issuer or may recover nothing at all. Investors should take into consideration that liabilities ranking senior to the Notes may also arise out of events that are not reflected on the Issuer's balance sheet, including, without limitation, the issuance of guarantees or other payment undertakings. Claims of beneficiaries under such guarantees or other payment undertakings will, in liquidation or insolvency proceedings of the Issuer, become unsubordinated or subordinated liabilities and will therefore be paid in full before payments are made to Noteholders.

The Notes do not include express events of default or a cross default.

The Noteholders should be aware that the Terms and Conditions of the Notes do not contain any express event of default provisions. There will also not be any cross default under the Notes.

The Issuer will partially depend on payments from other members of the Volkswagen Group to make payments on the Notes.

The Issuer's cash flow and ability to service debt depend upon its own business operations, which consist principally of the receipt of payments from the other operating subsidiaries within the Volkswagen Group for amounts lent to such subsidiaries. Applicable laws and regulations and the terms of other agreements to which the Issuer or other Volkswagen Group operating subsidiaries may be or may become subject, could restrict their ability to provide the Issuer with adequate funds.

The Notes do not contain any financial covenants.

Neither the Guarantor nor any of its subsidiaries (including the Issuer) will be restricted from incurring additional unsecured debt or other liabilities, including senior debt under the terms of the Notes. If the Guarantor incurs additional debt or liabilities, the Issuer and/or the Guarantor's ability to pay its obligations on the Notes could be adversely affected. In addition, under the Notes, neither the Issuer nor the Guarantor will be restricted from paying dividends or issuing or repurchasing their other securities. Noteholders will not be protected under the terms of the Notes in the event of a highly leveraged transaction, a reorganization or a restructuring, merger or similar transaction that may adversely affect Noteholders.

The Noteholders have no voting rights.

The Notes are non-voting with respect to general meetings of the Issuer. Consequently, the Noteholders cannot influence any decisions by the Issuer to defer interest payments or to optionally settle such Arrears of Interest or any other decisions by the Issuer's shareholders concerning the capital structure or any other matters relating to the Issuer.

The Noteholders' only remedy against the Issuer is the institution of legal proceedings to enforce payment or to file an application for insolvency proceedings.

The only remedy against the Issuer available to the Noteholders for recovery of amounts which have become due in respect of the Notes will be the institution of legal proceedings to enforce payment of the amounts or to file an application for the institution of insolvency proceedings. On an insolvency or liquidation of the Issuer, any holder may only declare its Notes due and payable and may claim the amounts due and payable under the Notes, after the Issuer has discharged or secured in full (i.e. not only with a quota) all claims that rank senior to the Notes.

No limitation on issuing further debt ranking senior or pari passu with the Notes

There is no restriction on the amount of debt which the Issuer may issue ranking senior or equal to the obligations under or in connection with the Notes. Such issuance of further debt would reduce the amount recoverable by the holders upon insolvency or liquidation of the Issuer or may increase the likelihood that the Issuer is required or permitted to defer payments of interest under the Notes.

Subordinated claims under Guarantee

The Guarantor's obligations under the Guarantee are unsecured deeply subordinated obligations of the Guarantor ranking subordinated to all unsubordinated obligations and to all subordinated obligations within the meaning of section 39 paragraph 1 of the German Insolvency Code (*Insolvenzordnung*) (including any

shareholder loans) and at least *pari passu* amongst them-selves and with all present unsecured obligations of the Guarantor which rank subordinated to all unsubordinated obligations and to all subordinated obligations under section 39 paragraph 1 of the German Insolvency Code, except for any subordinated obligations required to be preferred by mandatory provisions of law. In the event of the liquidation, dissolution or insolvency of the Guarantor or any proceeding for the avoidance of insolvency of the Guarantor, the obligations of the Guarantor under the Guarantee are subordinated to the claims of all holders of unsubordinated obligations and subordinated obligations within the meaning of section 39 paragraph 1 of the German Insolvency Code, so that in any such event payments in respect of the Guarantee will not be made until all claims against the Guarantor under obligations which rank senior to obligations of the Guarantor under the Guarantee have been satisfied in full (i.e. not only with a quota). The obligations of the Guarantor under the Guarantee are senior only to the Junior Obligations of the Guarantor.

Investors should take into consideration that liabilities ranking senior to the Guarantee may also arise out of events that are not reflected on the Guarantor's balance sheet, including, without limitation, the issuance of guarantees or other payment undertakings. Claims of beneficiaries under such guarantees or other payment undertakings will, in liquidation or insolvency proceedings of the Guarantor, become unsubordinated or subordinated liabilities and will therefore be paid in full before payments are made to holders.

The beneficiaries under the Guarantee have limited rights in German insolvency proceedings

In an insolvency over the assets of the Guarantor, claims against the Guarantor under the Guarantee would be treated as a deeply subordinated insolvency claim (*nachrangige Insolvenzforderungen*). According to Section 174 paragraph 3 of the German Insolvency Code, deeply subordinated insolvency claims must not be registered with the insolvency court unless the insolvency court handling the case has granted special permission allowing these deeply subordinated insolvency claims to be filed which is not the rule, but the exception. The beneficiaries of the Guarantee would not participate in any creditors' committee (*Gläubigerausschuss*) and would have very limited rights within the creditors' assembly (*Gläubigerversammlung*). They may be invited to participate in the creditors' assembly, but would not be entitled to vote within such meetings (Section 77 paragraph 1 of the German Insolvency Code).

In case of insolvency plan proceedings (*Insolvenzplanverfahren*) the beneficiaries under the Guarantee generally would have no voting right on the adoption of an insolvency plan presented by the Guarantor, the relevant insolvency administrator or custodian (Sections 237 and 246 of the German Insolvency Code). In addition, their claims would be waived after the adoption of the insolvency plan unless the insolvency plan makes an exception to this general rule (Section 225 paragraph 1 German Insolvency Code).

The Notes have not been admitted to trading and any trading market may be volatile.

There is currently no secondary market for the Notes. Application has been made for the Notes to be admitted to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the Official List of the Luxembourg Stock Exchange. There can, however, be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, an investor may not be able to sell his Notes at any time at fair market prices. The ability of Noteholders to sell the Notes might also be restricted for country-specific reasons.

Moreover, the trading market for the Notes may be volatile and can be adversely impacted by many events. The market for the Notes may be influenced by economic and market conditions in Germany or Luxembourg and, to varying degrees, by market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialized countries. There can be no assurance that events in Luxembourg, Germany, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of the Notes or that economic and market conditions will not have other adverse effects.

There is a risk that trading in the Notes will be suspended, interrupted or terminated.

The listing of the Notes may be suspended or interrupted by the Luxembourg Stock Exchange or a competent regulatory authority for any of a number of reasons, including violation of price limits, breach of statutory provisions, occurrence of operational problems of the stock exchange or generally if deemed required in order to secure a functioning market or to safeguard the interests of investors. Furthermore, trading in the Notes may be terminated, either upon decision of the stock exchange, a regulatory authority or upon application by the Issuer. Investors should note that the Issuer has no influence on trading suspension or interruptions (other than where trading in the Notes is terminated upon the Issuer's decision) and that investors in any event must bear the risks connected therewith. In particular, investors may not be able to sell their Notes where trading is suspended, interrupted or terminated, and the stock exchange quotations of such Notes may not adequately reflect the price of such Notes. Finally, even if trading in the Notes is

suspended, interrupted or terminated, investors should note that such measures may neither be sufficient nor adequate nor in time to prevent price disruptions or to safeguard the investors' interests; for example, where trading in the Notes is suspended after price-sensitive information relating to such Notes has been published, the price of such Notes may already have been adversely affected. All these risks would, if they materialize, have a material adverse effect on the investors.

The Noteholders are exposed to risks relating to the fixed interest notes.

Each issue of Notes bears interest at a fixed rate to but excluding the First Call Date for that issue of Notes.

A holder of a fixed interest rate note is exposed to the risk that the price of such note may fall because of changes in the market interest rate. While the nominal interest rate of a fixed interest rate note is fixed during the life of such note or during a certain period of time, the current interest rate on the capital market (market interest rate) typically changes on a daily basis. If the market interest rate changes, the price of such bond changes in the opposite direction. If the market interest rate increases, the price of such note typically falls, until the yield of such note is approximately equal to the market interest rate. If the market interest rate falls, the price of a fixed interest rate note typically increases, until the yield of such bond is approximately equal to the market interest rate. Noteholders should be aware that movements of the market interest rate can adversely affect the market price of the Notes and can lead to losses for Noteholders if they sell their Notes.

The Noteholders are exposed to risks relating to the reset of interest rates linked to the 7-year swap rate or 15-year swap rate.

From and including the First Call Date to but excluding the date on which the Issuer redeems the Notes in whole, the Notes bear interest at a rate which will be determined on each reset date at the 7-year swap rate or the 15-year swap rate, as applicable, for the relevant reset period plus a margin.

Investors should be aware that the performance of the 7-year swap rate or the 15-year swap rate, as applicable, and the interest income on the Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of the Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. In addition, after interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing.

Furthermore, during each Reset Period, it cannot be ruled out that the price of the Notes may fall as a result of changes in the current interest rate on the capital market (market interest rate), as the market interest rate fluctuates. During each of these periods, the investor is exposed to the risk as described under "*—Fixed interest rate notes*".

Interest payments under the Notes may be deferred at the option of the Issuer.

Noteholders should be aware that interest may not be due and payable (*fällig*) on the scheduled Interest Payment Date, and that the payment of the resulting Arrears of Interest is subject to certain further conditions. Failure to pay interest as a result of an interest deferral will not constitute a default of the Issuer or a breach of any other obligations under the Notes or for any other purposes. Noteholders will not receive any additional interest or compensation for the deferral of payment. In particular, the resulting Arrears of Interest will not bear interest. Any actual or anticipated deferral of interest on the Notes will likely have an adverse effect on the market price of the Notes.

Ratings of the Issuer, the Guarantor or the Notes may be subject to change at all times.

A rating of the Issuer or the Guarantor may not adequately reflect all risks of the investment in Notes issued by the Issuer and guaranteed by the Guarantor. Equally, ratings may be suspended, downgraded or withdrawn. Such suspension, downgrading or withdrawal may have an adverse effect on the market value and trading price of the Notes. One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. Rating agencies may also change their methodologies for rating securities with features similar to the Notes in the future.

If the rating agencies were to change their practices for rating such securities in the future and the ratings of the Notes were to be subsequently lowered, this may have a negative impact on the trading price of the Notes.

A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

For Noteholders for which the Euro represents a foreign currency, the Notes expose them to currency risk.

The Notes are denominated in Euro. If such currency represents a foreign currency to a holder, such holder is particularly exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes measured in the holder's currency. Changes in currency exchange rates result from various factors such as macroeconomic factors, speculative transactions and interventions by central banks and governments.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer.

The Notes will be represented by one or more global notes. Such global notes will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. Investors will not be entitled to receive definitive notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the global notes. While the Notes are represented by one or more global notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg and the Issuer will discharge its payment obligations under the Notes by making payments to the common depository for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in global notes must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of beneficial interests in, the global notes.

Risks in connection with the application of the German Act on Issues of Debt Securities (Gesetz über Schuldverschreibungen aus Gesamtemissionen).

A holder is subject to the risk of being outvoted and of losing rights towards the Issuer against his will in the event that Noteholders agree pursuant to the Terms and Conditions of the Notes to amendments of the Terms and Conditions of the Notes by majority vote according to the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*). In the event of an appointment of a Noteholders' representative for all Noteholders a particular holder may lose, in whole or in part, the possibility to enforce and claim his rights against the Issuer regardless of other Noteholders. As a result, the Noteholders may lose all or a very substantial part of their investment.

Investors in the Notes assume the risk that the credit spread of the Issuer changes (credit spread risk).

A credit spread is the margin payable by the Issuer to the holder of a Note as a premium for the assumed credit risk of the Issuer. Credit spreads are offered and sold as premiums on current risk-free interest rates or as discounts on the price.

Factors influencing the credit spread include, among other things, the creditworthiness and rating of the Issuer, probability of default, recovery rate, remaining term to maturity of obligations under any collateralization or guarantee and declarations as to any preferred payment or subordination. The liquidity situation, the general level of interest rates, overall economic developments, and the currency, in which the relevant obligation is denominated may also have a positive or negative effect.

Investors are exposed to the risk that the credit spread of the Issuer widens, resulting in a decrease in the price of the Notes.

Due to future money depreciation (inflation), the real yield of an investment may be reduced.

Inflation risk describes the possibility that the value of assets such as the Notes or income therefrom will decrease as inflation reduces the purchasing power of a currency. Inflation causes the rate of return to decrease in value. If the inflation rate exceeds the interest paid on any Notes the yield on such Notes will become negative and investors will have to suffer a loss.

The tax impact of an investment in the Notes should be carefully considered.

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. Potential investors are advised not to rely upon the tax overview

contained in this Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Notes. Only these advisers are in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the section "Taxation" of this Prospectus.

If a loan is used to finance the acquisition of the Notes, the loan may significantly increase the risk of a loss.

If a loan is used to finance the acquisition of the Notes by an investor and the Notes subsequently go into default, or if the trading price diminishes significantly, the investor may not only have to face a potential loss on its investment, but it will also have to repay the loan and pay interest thereon. A loan may significantly increase the risk of a loss. Investors should not assume that they will be able to repay the loan or pay interest thereon from the profits of a transaction in the Notes. Instead, investors should assess their financial situation prior to an investment, as to whether they are able to pay interest on the loan, repay the loan on demand, and that they may suffer losses instead of realizing gains.

Incidental costs related in particular to the purchase and sale of the Notes may have a significant impact on the profit potential of the Notes.

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) may be incurred in addition to the purchase or sale price of the Notes. These incidental costs may significantly reduce or eliminate any profit from holding the Notes. Credit institutions as a rule charge commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value. To the extent that additional - domestic or foreign - parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, investors may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of Notes (direct costs), investors must also take into account any follow-up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

§ 1

(Verbriefung und Nennbetrag)

(1) Währung, Nennbetrag und Form.

In dem Zeitraum ab dem Ersten Rückzahlungstermin (einschließlich) bis zu dem Tag, an dem die Emittentin die Schuldverschreibungen vollständig gemäß § 7(3) oder § 7(4) zurückzahlt, belaufen sich die Zinsen auf den jeweiligen Reset-Zinssatz für die jeweilige Zinsperiode.

"**Reset-Zinssatz**" bezeichnet den jeweiligen Reset-Referenzsatz für den jeweiligen Reset-Zeitraum, in den die jeweilige Zinsperiode fällt, zuzüglich der relevanten Marge für die jeweilige Zinsperiode.

Falls ein solcher Zinssatz nicht auf der Reuters-Bildschirmseite ISDAFIX2 angezeigt wird, ist der Reset-Referenzsatz für den Reset-Termin der Reset-Referenzbankenzinssatz.

“**Reset Reference Bank Rate**” means a percentage determined on the basis of the mid-market annual swap rate quotations provided by the Reference Banks at approximately 11:00 a.m., Frankfurt time on the Reset Rate Determination Date. For this purpose, the mid-market annual swap rate means the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term of 7 years commencing on that Reference Reset Date and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to a designated maturity of six months. The Calculation Agent will request the principal office of each of the Reference Banks to provide a quotation of its rate. If at least three quotations are provided, the rate for

„**Marge**“ bedeutet:

- (i) für jede Zinsperiode ab dem Ersten Rückzahlungstermin (einschließlich) bis zum 20. März 2025 (der „**Erste Step-up Termin**“): 220 Basispunkte per annum (kein Step-Up);

„**Reset-Referenzsatz**“ ist der jeweilige 7-Jahres Swap Zinssatz für den jeweiligen Reset-Zeitraum, wie er von der Berechnungsstelle festgestellt wird.

„**Reset-Referenzsatz-Bestimmungstag**“ ist der zweite Geschäftstag vor dem jeweiligen Reset-Termin.

Der „**Reset-Referenzbankenzinssatz**“ bezeichnet den Prozentsatz, der auf Basis der Mid-market Jahres-Swapsatz-Angebotssätze von den Referenzbanken um ungefähr 11:00 Uhr, Frankfurter Zeit, am Reset-Referenzsatz-Bestimmungstag festgestellt wird. Der Mid-market Jahres-Swapsatz ist das arithmetische Mittel des Geld- und Briefkurses für den Jahres-Festzinszahlungsstrom, berechnet auf Basis eines 30/360 Zinstagequotienten, einer Fest-zu-variabel Euro-Zinsswaptransaktion mit einer Laufzeit von 7 Jahren beginnend mit dem Referenz-Reset-Termin, die in einer Repräsentativen Höhe mit einem anerkannten Händler von guter Bonität im Swap-markt abgeschlossen wurde, wobei der variable Teil, berechnet basierend auf einem Actual/360 Zinstagequotienten, eine Endfälligkeit von sechs Monaten hat. Die Berechnungsstelle

that Reset Date will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If only two quotations are provided, and if the International Swaps and Derivatives Association, Inc. ("**ISDA**") has published a fallback provision for the determination of the Reset Reference Bank Rate at the relevant time, the Calculation Agent will determine the Reset Reference Bank Rate on the basis of such fallback provision. If the ISDA has not published such a fallback provision at the relevant time, the following shall apply: If only two quotations are provided, the Reset Reference Bank Rate will be the arithmetic mean of the quotations provided. If only one quotation is provided, the Reset Reference Bank Rate will be the quotation provided. If no quotations are provided, the Reset Reference Bank Rate will be equal to the last available 7 year mid swap rate for euro swap transactions, expressed as an annual rate, on the Reuters screen ISDAFIX2 page.

(3) Determination or calculation by Calculation Agent

The Calculation Agent will, on the Reset Rate Determination Date, determine the Reset Rate of Interest and cause the same to be notified to the Issuer, the Principal Paying Agent and, if required by the rules of any stock exchange on which the Notes are then listed, to such stock exchange, and to the Noteholders in accordance with § 13 without undue delay, but, in any case, not later than on the eighth Business Day after its determination.

(4) Day Count Fraction.

Where interest is to be calculated in respect of any period of time that is equal to or shorter than an Interest Period (the "**Calculation Period**"), the interest will be calculated on the basis of the actual number of days elapsed in such Calculation Period (from and including the day from which interest begins to accrue to but excluding the day on which it falls due), divided by the number of days in the Interest Period in which the Calculation Period falls (Act/

wird bei der Hauptniederlassung der Referenzbanken jeweils um einen Angebotssatz bitten. Falls zumindest drei Angebotssätze zur Verfügung gestellt werden, ist der Zinssatz für den Reset-Termin das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der Angebotssätze, bereinigt um den höchsten Angebotssatz (oder, falls mehrere Angebotssätze gleich hoch sind, einer der höchsten) und den niedrigsten Angebotssatz (oder, falls mehrere Angebotssätze gleich niedrig sind, einen der niedrigsten). Falls nur zwei oder weniger Quotierungen zur Verfügung gestellt werden, und falls zum betreffenden Zeitpunkt die International Swaps and Derivatives Association, Inc. ("**ISDA**") eine Auffangregelung zur Bestimmung des Reset-Referenzbankenzinssatzes veröffentlicht hat, wird die Berechnungsstelle den Reset-Referenzbankenzinssatz auf Basis dieser Auffangregelung berechnen. Falls die ISDA zum betreffenden Zeitpunkt keine solche Auffangregelung veröffentlicht hat, gilt folgendes: Falls nur zwei Quotierungen zur Verfügung gestellt werden, ist der Reset-Referenzbankenzinssatz das rechnerische Mittel der zur Verfügung gestellten Quotierungen. Falls nur eine Quotierung zur Verfügung gestellt wird, ist der Reset-Referenzbankenzinssatz die zur Verfügung gestellte Quotierung. Falls keine Quotierungen zur Verfügung gestellt werden, ist der Reset-Referenzbankenzinssatz der letzte Mid-Swapsatz für Euro-Swap-Transaktionen mit einer Laufzeit von 7 Jahren, ausgedrückt auf jährlicher Basis, der auf der Reuters-Bildschirmseite ISDAFIX2 verfügbar ist.

(3) Berechnungen und Feststellungen durch die Berechnungsstelle.

Die Berechnungsstelle wird den Reset-Zinssatz für die Schuldverschreibungen am Reset-Referenzsatz-Bestimmungstag bestimmen und veranlassen, dass dieser der Emittentin, der Hauptzahlstelle und jeder Börse, an der die Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, sowie den Anleihegläubigern gemäß § 13 unverzüglich, aber keinesfalls später als am achten auf dessen Bestimmung folgenden Geschäftstag mitgeteilt wird.

(4) Zinstagekoeffizient.

Sind Zinsen für einen Zeitraum zu berechnen (der "**Zinsberechnungszeitraum**"), der kürzer als eine Zinsperiode ist oder einer Zinsperiode entspricht, so werden sie auf der Grundlage der tatsächlichen Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum (ab dem ersten Tag, an dem Zinsen auflaufen (einschließlich) bis zu dem Tag, an dem die Zinsen fällig werden (ausschließlich)) berechnet, dividiert durch die Anzahl der Tage in

Act (ICMA)) (including the first such day of the relevant Interest Period but excluding the last day of the relevant Interest Period).

(5) **Cessation of interest accrual.**

The Notes will cease to bear interest from the beginning of the day their principal amount is due for repayment. If the Issuer fails to make any payment of principal under the Notes when due, the Notes will cease to bear interest from the beginning of the day on which such payment is made. In such case the applicable rate of interest will be determined pursuant to this § 3(1).

§ 6

(Due date for interest payments; Deferral of interest payments; Payment of Arrears of Interest)

(1) **Due date for interest payments; optional interest deferral.**

- (a) Interest which accrues during an Interest Period will be due and payable (*fällig*) on the relevant Interest Payment Date, unless the Issuer elects, by giving notice to the Noteholders not less than 10 Business Days prior the relevant Interest Payment Date in accordance with § 13, to defer the relevant payment of interest (in whole but not in part).

If the Issuer elects not to pay accrued interest on an Interest Payment Date, then it will not have any obligation to pay such interest on such Interest Payment Date. Any such non-payment of interest will not constitute a default of the Issuer or any other breach of its obligations under the Notes or for any other purpose.

Interest not due and payable in accordance with this § 6(1)(a) will constitute arrears of interest ("**Arrears of Interest**").

- (b) Arrears of Interest will not bear interest.

(2) **Optional Settlement of Arrears of Interest.**

The Issuer or the Guarantor will be entitled to pay outstanding Arrears of Interest (in whole but not in part) at any time by giving notice to the Noteholders not less than 10 Business Days before such voluntary

der Zinsperiode, in die der betreffende Zinsberechnungszeitraum fällt (Act/Act (ICMA)) (einschließlich des ersten Tages der betreffenden Zinsperiode, aber ausschließlich des letzten Tages der betreffenden Zinsperiode).

(5) **Zinslaufende.**

Die Verzinsung der Schuldverschreibungen endet mit Beginn des Tages, an dem ihr Kapitalbetrag zur Rückzahlung fällig wird. Sollte die Emittentin eine Zahlung von Kapital auf die Schuldverschreibungen bei Fälligkeit nicht leisten, endet die Verzinsung der Schuldverschreibungen mit Beginn des Tages der tatsächlichen Zahlung. Der in einem solchen Fall jeweils anzuwendende Zinssatz wird gemäß § 3(1) bestimmt.

§ 6

(Fälligkeit von Zinszahlungen; Aufschub von Zinszahlungen; Zahlung Aufgeschobener Zinszahlungen)

(1) **Fälligkeit von Zinszahlungen; wahlweiser Zinsaufschub.**

- (a) Zinsen, die während einer Zinsperiode auflaufen, werden an dem betreffenden Zinszahlungstag fällig, sofern sich die Emittentin nicht durch eine Bekanntmachung an die Anleihegläubiger gemäß § 13 innerhalb einer Frist von nicht weniger als 10 Geschäftstagen vor dem betreffenden Zinszahlungstag dazu entscheidet, die betreffende Zinszahlung (insgesamt, jedoch nicht teilweise) auszusetzen.

Wenn sich die Emittentin an einem Zinszahlungstag zur Nichtzahlung aufgelaufener Zinsen entscheidet, dann ist sie nicht verpflichtet, an dem betreffenden Zinszahlungstag Zinsen zu zahlen. Eine Nichtzahlung von Zinsen aus diesem Grunde begründet keinen Verzug der Emittentin und keine anderweitige Verletzung ihrer Verpflichtungen aufgrund der Schuldverschreibungen oder für sonstige Zwecke.

Nach Maßgabe dieses § 6(1)(a) nicht fällig gewordene Zinsen sind aufgeschobene Zinszahlungen („**Aufgeschobene Zinszahlungen**“).

- (b) Aufgeschobene Zinszahlungen werden nicht verzinst.

(2) **Freiwillige Zahlung von Aufgeschobenen Zinszahlungen.**

Die Emittentin oder Garantin ist berechtigt, ausstehende Aufgeschobene Zinszahlungen jederzeit insgesamt, jedoch nicht teilweise nach Bekanntmachung an die Anleihegläubiger unter

payment and specifying (i) the amount of Arrears of Interest to be paid and (ii) the date fixed for such payment.

(3) **Mandatory Payment of Arrears of Interest**

The Issuer must pay outstanding Arrears of Interest (in whole but not in part) on the earliest of the following calendar days (each a "**Mandatory Settlement Date**"):

- (a) the calendar day on which a dividend, other distribution or other payment was validly resolved on, declared, paid, or made in respect of Junior Obligations of the Guarantor, Parity Obligations of the Issuer or Parity Obligations of the Guarantor (except where such dividend, other distribution or payment was required in respect of employee share schemes);

Ferner müsste die Emittentin aufgelaufene Zinsen, einen Make-whole Betrag und etwaige ausstehende Zinsrückstände in Bezug auf die Pflichtwandelanleihe zahlen.

From and including March 20, 2015 (the “**Interest Commencement Date**”) to but excluding March 20, 2030 (the “**First Call Date**”) the Notes bear interest on their principal amount at a rate of 3.50 per cent. per annum.

From and including the First Call Date to but excluding the date on which the Issuer redeems the Notes in whole pursuant to § 7(3) or § 7(4) the Notes bear interest at the relevant Reset Rate of Interest for the Interest Period.

“**Reset Rate of Interest**” means the Reset Reference Rate for the relevant Reset Period in which the relevant Interest Period falls plus the relevant Margin for the relevant Interest Period.

(2) Definitions.

„**Reset-Zinssatz**” bezeichnet den jeweiligen Reset-Referenzsatz für den jeweiligen Reset-Zeitraum, in den die jeweilige Zinsperiode fällt, zuzüglich der relevanten Marge für die jeweilige Zinsperiode.

Zinsen sind nachträglich am 20. März eines jeden Jahres (jeweils ein „**Zinszahlungstag**”) zur Zahlung vorgesehen, erstmals am 20. März 2016, und werden nach Maßgabe der in § 6 dargelegten Bedingungen fällig.

(2) Definitionen.

Der „**15-Jahres Swapsatz**” für den jeweiligen Reset-Zeitraum wird von der Berechnungsstelle am Reset-Referenzsatz-Bestimmungstag vor dem jeweiligen Reset-Termin zu dem der jeweilige Reset-Zeitraum beginnt (der „**Referenz-Reset-Termin**”) bestimmt und ist der jährliche Mid-Swapsatz für Euro-Swap-Transaktionen mit einer Laufzeit von 15 Jahren beginnend mit dem Referenz-Reset-Termin, ausgedrückt als Prozentsatz, der am Reset-Referenzsatz-Bestimmungstag um 11:00 Uhr, Frankfurter Zeit auf der Reuters-Bildschirmseite ISDAFIX2 unter der Überschrift „EURIBOR BASIS-EUR” und über der Angabe „11:00AM FRANKFURT” angezeigt wird. Falls ein solcher Zinssatz nicht auf der Reuters-Bildschirmseite ISDAFIX2 angezeigt wird, ist der Reset-Referenzsatz für den Reset-Termin der Reset-Referenzbankenzinssatz.

„**Geschäftstag**” bezeichnet einen Tag, an dem alle maßgeblichen Stellen des Trans-European Automated Real-time Gross settlement Express Transfer (TARGET 2) Systems Geschäfte tätigen.

“**Reset Reference Bank Rate**” means a percentage determined on the basis of the mid-market annual swap rate quotations provided by the Reference Banks at approximately 11:00 a.m., Frankfurt time on the Reset Rate Determination Date. For this purpose, the mid-market annual swap rate means the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term of 15 years commencing on that Reference Reset Date and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to a designated maturity of six months. The Calculation Agent will request the principal office of each of the Reference Banks to provide a quotation of its rate. If at least three quotations are provided, the rate for that Reset Date will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a per-

„**Reset-Referenzsatz**“ ist der jeweilige 15-Jahres Swap Zinssatz für den jeweiligen Reset-Zeitraum, wie er von der Berechnungsstelle festgestellt wird.

„**Reset-Referenzsatz-Bestimmungstag**“ ist der zweite Geschäftstag vor dem jeweiligen Reset-Termin.

Der „**Reset-Referenzbankenzinssatz**“ bezeichnet den Prozentsatz, der auf Basis der Mid-market Jahres-Swapsatz-Angebotssätze von den Referenzbanken um ungefähr 11:00 Uhr, Frankfurter Zeit, am Reset-Referenzsatz-Bestimmungstag festgestellt wird. Der Mid-market Jahres-Swapsatz ist das arithmetische Mittel des Geld- und Briefkurses für den Jahres-Festzinszahlungsstrom, berechnet auf Basis eines 30/360 Zinstagequotienten, einer Fest-zu-variabel Euro-Zinsswaptransaktion mit einer Laufzeit von 15 Jahren beginnend mit dem Referenz-Reset-Termin, die in einer Repräsentativen Höhe mit einem anerkannten Händler von guter Bonität im Swap-markt abgeschlossen wurde, wobei der variable Teil, berechnet basierend auf einem Actual/360 Zinstagequotienten, eine Endfälligkeit von sechs Monaten hat. centage point, with 0.0005 being rounded upwards) of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If only two quotations are provided, and if the International Swaps and Derivatives Association, Inc. ("**ISDA**") has published a fallback provision for the determination of the Reset Reference Bank Rate at the relevant time, the Calculation Agent will determine the Reset Reference Bank Rate on the basis of such fallback provision. If the ISDA has not published such a fallback provision at the relevant time, the following shall apply: If only two quotations are provided, the Reset Reference Bank Rate will be the arithmetic mean of the quotations provided. If only one quotation is provided, the Reset Reference Bank Rate will be the quotation provided. If no quotations are provided, the Reset Reference Bank Rate will be equal to the last available 15 year mid swap rate for euro swap transactions, expressed as an annual rate, on the Reuters screen ISDAFIX2 page.

(3) **Determination or calculation by Calculation Agent**

The Calculation Agent will, on the Reset Rate Determination Date, determine the Reset Rate of Interest and cause the same to be notified to the Issuer, the Principal Paying Agent and, if required by the rules of any stock exchange on which the Notes are then listed, to such stock exchange, and to the Noteholders in accordance with § 13 without undue delay, but, in any case, not later than on the eighth Business Day after its determination.

(4) **Day Count Fraction.**

Where interest is to be calculated in respect of any period of time that is equal to or shorter than an Interest Period (the "**Calculation Period**"), the interest will be calculated on the basis of the actual number of days elapsed in such Calculation Period (from and including the day from which interest begins to accrue to but excluding the day on which it falls due), divided by the number of days in the Interest Period in which the Calculation Period falls (Act/

Falls zumindest drei Angebotssätze zur Verfügung gestellt werden, ist der Zinssatz für den Reset-Termin das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der Angebotssätze, bereinigt um den höchsten Angebotssatz (oder, falls mehrere Angebotssätze gleich hoch sind, einer der höchsten) und den niedrigsten Angebotssatz (oder, falls mehrere Angebotssätze gleich niedrig sind, einen der niedrigsten). Falls nur zwei oder weniger Quotierungen zur Verfügung gestellt werden, und falls zum betreffenden Zeitpunkt die International Swaps and Derivatives Association, Inc. („**ISDA**“) eine Auffangregelung zur Bestimmung des Reset-Referenzbankzinssatzes veröffentlicht hat, wird die Berechnungsstelle den Reset-Referenzbankzinssatz auf Basis dieser Auffangregelung berechnen. Falls die ISDA zum betreffenden Zeitpunkt keine solche Auffangregelung veröffentlicht hat, gilt folgendes: Falls nur zwei Quotierungen zur Verfügung gestellt werden, ist der Reset-Referenzbankzinssatz das rechnerische Mittel der zur Verfügung gestellten Quotierungen. Falls nur eine Quotierung zur Verfügung gestellt wird, ist der Reset-Referenzbankzinssatz die zur Verfügung gestellte Quotierung. Falls keine Quotierungen zur Verfügung gestellt werden, ist der Reset-Referenzbankzinssatz der letzte Mid-Swapsatz für Euro-Swap-Transaktionen mit einer Laufzeit von 15 Jahren, ausgedrückt auf jährlicher Basis, der auf der Reuters-Bildschirmseite ISDAFIX2 verfügbar ist.

(3) **Berechnungen und Feststellungen durch die Berechnungsstelle.**

Die Berechnungsstelle wird den Reset-Zinssatz für die Schuldverschreibungen am Reset-Referenzsatz-Bestimmungstag bestimmen und veranlassen, dass dieser der Emittentin, der Hauptzahlstelle und jeder Börse, an der die Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, sowie den Anleihegläubigern gemäß § 13 unverzüglich, aber keinesfalls später als am achten auf dessen Bestimmung folgenden Geschäftstag mitgeteilt wird.

(4) **Zinstagekoeffizient.**

Sind Zinsen für einen Zeitraum zu berechnen (der „**Zinsberechnungszeitraum**“), der kürzer als eine Zinsperiode ist oder einer Zinsperiode entspricht, so werden sie auf der Grundlage der tatsächlichen Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum (ab dem ersten Tag, an dem Zinsen auflaufen (einschließlich) bis zu dem Tag, an dem die Zinsen fällig werden (ausschließlich)) berechnet, dividiert durch die Anzahl der Tage in

Act (ICMA)) (including the first such day of the relevant Interest Period but excluding the last day of the relevant Interest Period).

(5) Cessation of interest accrual.

The Notes will cease to bear interest from the beginning of the day their principal amount is due for repayment. If the Issuer fails to make any payment of principal under the Notes when due, the Notes will cease to bear interest from the beginning of the day on which such payment is made. In such case the applicable rate of interest will be determined pursuant to this § 3(1).

§ 6

(Due date for interest payments; Deferral of interest payments; Payment of Arrears of Interest)

(1) Due date for interest payments; optional interest deferral.

- (a) Interest which accrues during an Interest Period will be due and payable (*fällig*) on the relevant Interest Payment Date, unless the Issuer elects, by giving notice to the Noteholders not less than 10 Business Days prior the relevant Interest Payment Date in accordance with § 13, to defer the relevant payment of interest (in whole but not in part).

If the Issuer elects not to pay accrued interest on an Interest Payment Date, then it will not have any obligation to pay such interest on such Interest Payment Date. Any such non-payment of interest will not constitute a default of the Issuer or any other breach of its obligations under the Notes or for any other purpose.

Interest not due and payable in accordance with this § 6(1)(a) will constitute arrears of interest ("**Arrears of Interest**").

- (b) Arrears of Interest will not bear interest.

(2) Optional Settlement of Arrears of Interest.

The Issuer or the Guarantor will be entitled to pay outstanding Arrears of Interest (in whole but not in part) at any time by giving notice to the Noteholders not less than 10 Business Days before such voluntary

der Zinsperiode, in die der betreffende Zinsberechnungszeitraum fällt (Act/Act (ICMA)) (einschließlich des ersten Tages der betreffenden Zinsperiode, aber ausschließlich des letzten Tages der betreffenden Zinsperiode).

(5) Zinslaufende.

Die Verzinsung der Schuldverschreibungen endet mit Beginn des Tages, an dem ihr Kapitalbetrag zur Rückzahlung fällig wird. Sollte die Emittentin eine Zahlung von Kapital auf die Schuldverschreibungen bei Fälligkeit nicht leisten, endet die Verzinsung der Schuldverschreibungen mit Beginn des Tages der tatsächlichen Zahlung. Der in einem solchen Fall jeweils anzuwendende Zinssatz wird gemäß § 3(1) bestimmt.

§ 6

(Fälligkeit von Zinszahlungen; Aufschub von Zinszahlungen; Zahlung Aufgeschobener Zinszahlungen)

(1) Fälligkeit von Zinszahlungen; wahlweiser Zinsaufschub.

- (a) Zinsen, die während einer Zinsperiode auflaufen, werden an dem betreffenden Zinszahlungstag fällig, sofern sich die Emittentin nicht durch eine Bekanntmachung an die Anleihegläubiger gemäß § 13 innerhalb einer Frist von nicht weniger als 10 Geschäftstagen vor dem betreffenden Zinszahlungstag dazu entscheidet, die betreffende Zinszahlung (insgesamt, jedoch nicht teilweise) auszusetzen.

Wenn sich die Emittentin an einem Zinszahlungstag zur Nichtzahlung aufgelaufener Zinsen entscheidet, dann ist sie nicht verpflichtet, an dem betreffenden Zinszahlungstag Zinsen zu zahlen. Eine Nichtzahlung von Zinsen aus diesem Grunde begründet keinen Verzug der Emittentin und keine anderweitige Verletzung ihrer Verpflichtungen aufgrund der Schuldverschreibungen oder für sonstige Zwecke.

Nach Maßgabe dieses § 6(1)(a) nicht fällig gewordene Zinsen sind aufgeschobene Zinszahlungen ("**Aufgeschobene Zinszahlungen**").

- (b) Aufgeschobene Zinszahlungen werden nicht verzinst.

(2) Freiwillige Zahlung von Aufgeschobenen Zinszahlungen.

Die Emittentin oder Garantin ist berechtigt, ausstehende Aufgeschobene Zinszahlungen jederzeit insgesamt, jedoch nicht teilweise nach Bekanntmachung an die Anleihegläubiger unter

(3) **Mandatory Payment of Arrears of Interest**

The Issuer must pay outstanding Arrears of Interest (in whole but not in part) on the earliest of the following calendar days (each a "**Mandatory Settlement Date**"):

- (a) the calendar day on which a dividend, other distribution or other payment was validly resolved on, declared, paid, or made in respect of Junior Obligations of the Guarantor, Parity Obligations of the Issuer or Parity Obligations of the Guarantor (except where such dividend, other distribution or payment was required in respect of employee share schemes);
- (b) the calendar day on which the Issuer, the Guarantor, a Subsidiary of the Issuer or a Subsidiary of the Guarantor has redeemed, repurchased or otherwise acquired Junior Obligations of the Issuer, Junior Obligations of the Guarantor, Parity Obligations of the Issuer or Parity Obligations of the Guarantor (except where such redemption or repurchase was mandatory under the terms of the instrument or required in respect of employee share schemes);
- (c) the calendar day on which the Notes are redeemed;
- (d) the next Interest Payment Date on which the Issuer pays interest on the Notes scheduled to be paid on such Interest Payment Date; or
- (e) the calendar day after an order is made for the winding-up, dissolution or liquidation of the Issuer or the Guarantor (other than for the purposes of or pursuant to an amalgamation, reorganization or restructuring while solvent, where the continuing entity assumes substantially all of the assets and obligations of the Issuer or Guarantor, as the case may be);

Einhaltung einer Frist von nicht weniger als 10 Geschäftstagen vor einer freiwilligen Zinszahlung, wobei eine solche Bekanntmachung (i) den Betrag an Aufgeschobenen Zinszahlungen, der gezahlt werden soll, und (ii) den für diese Zahlung festgelegten Termin enthalten muss.

(3) **Pflicht zur Zahlung von Aufgeschobenen Zinszahlungen**

Die Emittentin ist verpflichtet, Aufgeschobene Zinszahlungen insgesamt und nicht nur teilweise am ersten der folgenden Kalendertage zu zahlen (jeweils ein „**Pflichtnachzahlungstag**“):

- (a) am Kalendertag, an dem eine Dividende oder sonstige Ausschüttung oder sonstige Zahlung in Bezug auf Nachrangige Verbindlichkeiten der Garantin, Gleichrangige Verbindlichkeiten der Emittentin oder Gleichrangige Verbindlichkeiten der Garantin erklärt, beschlossen, gezahlt oder geleistet wurde (außer in dem Fall, dass die Dividende oder sonstige Ausschüttung oder Zahlung unter einem Mitarbeiterbeteiligungsprogramm erforderlich war);
- (b) am Kalendertag, an dem die Emittentin, die Garantin, eine Tochtergesellschaft der Emittentin oder eine Tochtergesellschaft der Garantin Nachrangige Verbindlichkeiten der Emittentin, Nachrangige Verbindlichkeiten der Garantin, Gleichrangige Verbindlichkeiten der Emittentin oder Gleichrangige Verbindlichkeiten der Garantin zurückgekauft, zurückgezahlt oder anderweitig erworben hat (außer in dem Fall, dass die Rückzahlung oder der Rückkauf nach den Bedingungen des Instruments verpflichtend war oder unter einem Mitarbeiterbeteiligungsprogramm erforderlich war);
- (c) am Kalendertag, an dem die Schuldverschreibungen zurückgezahlt wurden;
- (d) am nächsten Zinszahlungstag, an dem die Emittentin Zinsen auf die Schuldverschreibungen zahlt; oder
- (e) am Kalendertag, nach dem ein Beschluss zur Auflösung, Abwicklung oder Liquidation der Emittentin oder der Garantin ergangen ist (aber nur, wenn dies nicht für die Zwecke oder als Folge eines Zusammenschlusses, einer Umstrukturierung oder Sanierung geschieht und die Emittentin bzw. die Garantin noch zahlungsfähig sind und die übernehmende Gesellschaft im Wesentlichen alle Vermögenswerte und Verpflichtungen der Emittentin bzw. der Garantin übernimmt);

provided that

- (x) in the cases (a) and (b) above no Mandatory Settlement Date occurs if the Issuer, the Guarantor or the relevant Subsidiary is obliged under the terms and conditions of such parity or junior obligations to make such payment, such redemption, such repurchase or such other acquisition; and
- (y) in the case (b) above no Mandatory Settlement Date occurs if the Issuer, the Guarantor or the relevant Subsidiary repurchases or otherwise acquires any Parity Obligations of the Issuer or Parity Obligations of the Guarantor in whole or in part in a public tender offer or public exchange offer at a purchase price per parity obligation below its par value.
- (z) in the cases (a) and (b) above no Mandatory Settlement Date occurs if the Issuer exercises the option for early mandatory conversion of the Mandatory Convertible Notes pursuant to § 7(c) of the terms and conditions of the Mandatory Convertible Notes. Such early mandatory conversion at the option of the Issuer would require the Guarantor to deliver such number of preferred shares of the Guarantor as is equal to the maximum conversion ratio specified in the terms and conditions of the Mandatory Convertible Notes and in addition the Issuer would be required to pay any accrued interest, a make-whole amount and any outstanding arrears of interest relating to the Mandatory Convertible Notes.

§ 7

(Redemption and Repurchase)

(1) No Scheduled Redemption.

The Notes have no final maturity date and shall not be redeemed except in accordance with the provisions set out in this § 7.

(2) Repurchase.

Subject to applicable laws, the Issuer, the Guarantor or any Subsidiary of the Guarantor may at any time purchase Notes in the open market or otherwise and at any price. Such acquired Notes may be cancelled, held or resold.

mit der Maßgabe, dass

- (x) in den vorgenannten Fällen (a) und (b) kein Pflichtnachzahlungstag vorliegt, wenn die Emittentin, die Garantin oder die betreffende Tochtergesellschaft nach Maßgabe der Emissionsbedingungen der betreffenden gleichrangigen oder nachrangigen Verbindlichkeit zu der Zahlung, zu der Rückzahlung, zu dem Rückkauf oder zu dem anderweitigen Erwerb verpflichtet ist; und
- (y) im vorgenannten Fall (b) kein Pflichtnachzahlungstag vorliegt, wenn die Emittentin, die Garantin oder die betreffende Tochtergesellschaft Gleichrangige Verbindlichkeiten der Emittentin oder Gleichrangige Verbindlichkeiten der Garantin nach einem öffentlichen Rückkaufangebot oder öffentlichen Umtauschangebot zu einem unter dem Nennwert je Gleichrangiger Verbindlichkeit liegenden Kaufpreis zurückkauft oder anderweitig erwirbt.

Eine solche vorzeitige Pflichtwandelung nach Wahl der Emittentin würde die Garantin dazu verpflichten, eine solche Anzahl von Vorzugsaktien der Garantin auszugeben, wie es gemäß dem Höchst-Wandlungsverhältnis in den Anleihebedingungen der Pflichtwandelanleihe entspricht. Ferner müsste die Emittentin aufgelaufene Zinsen, einen Make-whole Betrag und etwaige ausstehende Zinsrückstände in Bezug auf die Pflichtwandelanleihe zahlen.

§ 7

(Rückzahlung und Rückkauf)

(1) Keine Endfälligkeit.

Die Schuldverschreibungen haben keinen Endfälligkeitstag und werden, außer gemäß den Bestimmungen in diesem § 7, nicht zurückgezahlt.

(2) Rückkauf.

Die Emittentin, die Garantin oder eine Tochtergesellschaft der Garantin kann, soweit gesetzlich zulässig, jederzeit Schuldverschreibungen auf dem freien Markt oder anderweitig sowie zu jedem beliebigen Preis kaufen. Derartig erworbene Schuldverschreibungen können entwertet, gehalten oder wieder veräußert werden.

(3) Redemption at the Option of the Issuer and in Case of Minimum Outstanding Aggregate Principal Amount.

- (a) The Issuer may, upon giving not less than 20 nor more than 40 days notice pursuant to § 13 call the Notes for redemption (in whole but not in part) for the first time with effect as of the First Call Date and subsequently with effect as of each Interest Payment Date thereafter. In this case the Issuer shall redeem each Note at its Principal Amount plus accrued and unpaid interest and any Arrears of Interest on the redemption date specified in the notice.
- (b) The Issuer may, upon giving not less than 20 nor more than 40 days notice pursuant to § 13, call the Notes for redemption (in whole but not in part) at any time if at least 80 per cent. of the originally issued aggregate principal amount of the Notes have been redeemed or purchased and cancelled. In this case the Issuer shall redeem each Note at its Principal Amount plus accrued and unpaid interest and any Arrears of Interest on the redemption date specified in the notice.

In diesem Fall wird die Garantin diejenigen Zusätzlichen Beträge zahlen, die erforderlich sind, damit die den Anleihegläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Inhabern der Schuldverschreibungen empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlicher Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:

In einem solchen Fall werden die Anleihegläubiger keine Zahlungen auf die Garantie erhalten, bis alle Ansprüche aus den gegenüber den Schuldverschreibungen vorrangigen Verbindlichkeiten der Garantin vollständig bedient sind.

Die Anleihegläubiger sind nicht berechtigt, Forderungen aus der Garantie mit etwaigen gegen sie gerichteten Forderungen der Garantin aufzurechnen. Die Garantin ist nicht berechtigt, Forderungen gegenüber Anleihegläubigern mit den Verpflichtungen aus der Garantie aufzurechnen.

All payments of principal and interest in respect of the Notes by the Guarantor under the Guarantee will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of The Netherlands or the Federal Republic of Germany or, in each case, any authority therein or thereof having power to tax, unless the Guarantor is required by law to make such withholding or deduction of such taxes, duties, assessments or governmental charges. In that event, the Guarantor will pay such Additional Amounts as may be necessary in order that the net amounts received by the Noteholders after such withholding or deduction shall equal the respective amounts of principal and interest which would have been received in respect of the Notes, in the absence of such withholding or deduction, except that no such Additional Amounts shall be payable on account of any taxes or duties which:

- (i) are payable otherwise than by withholding or deduction from amounts payable; or
- (ii) are payable by reason of the Noteholder having, or having had, some personal or business connection with The Netherlands or the Federal Republic of Germany and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, The Netherlands or the Federal Republic of Germany; or

Dies gilt auch dann, wenn die Neue Anleiheschuldnerin die Verpflichtungen aus den Schuldverschreibungen unmittelbar von der Garantin übernommen hat.
- (f) Die Garantin wird sämtliche auf die Garantie zu zahlenden Beträge ohne Abzug von Steuern oder sonstigen Abgaben leisten, zu deren Abzug die Garantin nach dem am 20. März 2015 geltenden Recht gesetzlich verpflichtet wäre.

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge von Kapital oder Zinsen sind ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftiger Steuern, sonstigen Abgaben oder behördlicher Gebühren gleich welcher Art durch die Garantin unter der Garantie zu leisten, die von oder in den Niederlanden oder der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer Gebietskörperschaft oder Steuerbehörde der oder in den Niederlanden oder der Bundesrepublik Deutschland auferlegt oder erhoben werden, es sei denn, die Garantin ist gesetzlich verpflichtet, einen solchen Einbehalt oder Abzug vorzunehmen. In diesem Fall wird die Garantin diejenigen Zusätzlichen Beträge zahlen, die erforderlich sind, damit die den Anleihegläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Inhabern der Schuldverschreibungen empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlicher Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:

- (ii) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Anleihegläubigers zu den Niederlanden oder der Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in den Niederlanden oder der Bundesrepublik Deutschland stammen

- (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder

Board Practices

Pursuant to the Dutch Corporate Governance Decree of March 20, 2009 implementing further accounting standards for annual reports (*Besluit Corporate Governance*) and based on the listing of VIF's debt securities issued on regulated markets in the EU, VIF is subject to the less restrictive regime under the Corporate Governance Decree, pursuant to which the Corporate Governance Statement in VIF's annual report (directly or incorporated by reference) must contain information on the main features of VIF's internal control and risk management system in relation to the financial reporting process of VIF and its group companies. The Corporate Governance Statement in the Guarantor's 2014 annual report contains information on the main features of the internal control and risk management system in relation to the financial reporting process of the company and their group companies.

The integrity and quality of VIF's management is evaluated in accordance with instructions from the shareholder by a Board of Supervisory Directors consisting of 3 executives from the ultimate parent company. In addition, periodic internal and external audits are conducted of VIF's accounting and operations, including the risk management. VIF has no specific audit committee. The members of the Supervisory Board are in charge of all relevant tasks.

VIF's company works with proven transparent systems for accounting and treasury. All operations are subject to a so-called "4 eye principle" so that basically all decisions and external instructions have to be approved by at least 2 persons. Abuse of authority and of privileges has been made practically impossible.

The management of risks in VIF's work particularly of its interest rate mismatch risks and foreign exchange position risks is subject to narrowly defined limits and monthly reporting apart from the frequent audits.

Members of management may not have other external functions, which could imply conflict of interest. Any other function requires the approval of the Board.

DESCRIPTION OF THE GUARANTOR

History and Development

VOLKSWAGEN AKTIENGESELLSCHAFT (“**VWAG**”) was incorporated under German law as “*Gesellschaft zur Vorbereitung des deutschen Volkswagens mbH*” (Limited Liability Company for the Development of the German Volkswagen) which was founded in Berlin on May 28, 1937. The company was renamed “*Volkswagenwerk Gesellschaft mit beschränkter Haftung*” (Volkswagenwerk limited liability company) in 1938. The company was later converted into a joint stock corporation under German law which was entered into the commercial register (*Handelsregister*) at Wolfsburg local court (*Amtsgericht*) on August 22, 1960. The name was changed to “VOLKSWAGEN AKTIENGESELLSCHAFT” by resolution of the Annual Meeting on July 4, 1985 which is the legal and commercial name of VWAG.

VWAG is located in Wolfsburg. Since August 1, 2005 it has been listed in the commercial register (*Handelsregister*) at the Braunschweig local court (*Amtsgericht*) under the number HRB 100484. VWAG is subject to the provisions of the *Aktiengesetz* (German Stock Corporation Act). Its head office and registered office are located at Berliner Ring 2, 38440 Wolfsburg, Germany (telephone number + 49 (0) 5361 9-0).

Articles of Association

The objects of VWAG, according to § 2 of its Articles of Association, are the manufacture and sale of vehicles and engines of all kinds, their accessories, and all other equipment, machinery, tools and other technical products.

VWAG is entitled to conduct all business and take all measures connected with these objects or as appear capable of furthering such objects directly or indirectly. For this purpose, VWAG may establish branch offices within Germany and abroad or can found, acquire or participate in other enterprises.

Investments

Based on current planning, the Volkswagen Group will invest a total of EUR 85.6 billion in the Automotive Division in the period from 2015 to 2019. Investments in property, plant and equipment, investment property and intangible assets, excluding capitalized development costs will account for EUR 64.3 billion, more than half of which (roughly 56%) will be in Germany alone. The ratio of investments in property, plant and equipment to sales revenue in the period from 2015 to 2019 will be at 6 to 7%. Besides investments in property, plant and equipment, investing activities will include additions of EUR 21.9 billion to capitalized development costs. Among other things, these reflect upfront expenditures in connection with compliance with environmental standards and the extension and updating of its model range. By investing in new facilities and models, as well as by developing alternative drives and modular toolkits, the Volkswagen Group is laying the foundations for profitable, sustainable growth. These investments also include commitments arising from decisions taken in previous fiscal years.

At EUR 41.3 billion (roughly 64%), the majority of the total amount to be invested in property, plant and equipment in the Automotive Division will be spent on modernizing and extending the product range for the Group’s brands.

The spotlight will be on the expansion of the SUV range, especially in the A and A0 segments, as well as on modernizing the range of light commercial vehicle models. A parallel focus will be on new vehicles and successor models in almost all vehicle classes, which will be based on the modular toolkit technology and the related components. This will allow the Volkswagen Group to systematically continue its model rollout with a view to tapping new markets and segments. In the area of drivetrain production, the Volkswagen Group will launch new generations of engines offering improved performance and lower fuel consumption and emission levels, while at the same time driving forward the development of hybrid and electric drives.

In addition, the Volkswagen Group will make cross-product investments of EUR 23.0 billion over the next five years, primarily in environmentally friendly production. These will include, for example, investments to expand capacity, a new plant in Poland for production of the Crafter and the new Audi manufacturing facility in Mexico. As a result of its high quality targets and its commitment to continuous improvement of its production processes, investments in the Volkswagen Group’s press shops and paintshops are also necessary. Non-production-related investments are mainly planned for the areas of development, quality assurance, sales, genuine parts supply and information technology.

The Volkswagen Group intends to finance its investments in the Automotive Division using internally generated funds and expects cash flows from operating activities to amount to €121.8 billion over the 2015 to 2019 planning period. This means that the funds generated are expected to exceed the Automotive Division’s investment requirements by €36.2 billion, further improving its liquidity position. The Volkswagen Group expects net cash flow in the Automotive Division to be moderately lower in 2015 than in the prior year, but it will nevertheless make a significant contribution to strengthening the Volkswagen Group’s financial position.

These plans are based on the Volkswagen Group's current structures. They do not take into account the possible settlement payable to other shareholders associated with the control and profit and loss transfer agreement with MAN SE. The Volkswagen Group's joint ventures in China are not consolidated and are therefore also not included in the above figures. These joint ventures will invest a total of €22.0 billion in new production facilities and products in the period from 2015 to 2019 and will finance these investments from the companies' own funds.

The Volkswagen Group is planning to invest €2.8 billion in the Financial Services Division from 2015 to 2019. The Volkswagen Group expects the growth in lease assets and in receivables from leasing, customer and dealer financing to lead to funds tied up in working capital of €94.9 billion. Roughly 42% of the total capital requirements of €97.7 billion will be financed from gross cash flow. As is common in the sector, the remaining funds needed will be met primarily through established money and capital market debt issuance programs and customer deposits from the direct banking business.

No material mergers, acquisitions or disposals in the core business are currently contemplated. However, Volkswagen Group does not exclude the possibility to optimize its portfolio of non core assets, including the disposal of non core assets.

Organizational Structure

As of August 1, 2012, Porsche Automobil Holding SE's operating automotive business was contributed in full to the Volkswagen Group. Since then, Porsche has been consolidated in the Volkswagen Group. AUDI AG acquired Italian sports motorcycle manufacturer Ducati as of July 19, 2012. Ducati is a well-known international manufacturer of premium motorcycles.

The Volkswagen Group consists of two divisions: the Automotive Division and the Financial Services Division. The Automotive Division comprises both the Passenger Cars Business Area and the Commercial Vehicles/Power Engineering Business Area. The Volkswagen Group reports the Passenger Cars segment and the reconciliation in the Passenger Cars Business Area. The Commercial Vehicles/Power Engineering Business Area consists of the Commercial Vehicles and the Power Engineering segments. Accordingly, the activities of the Automotive Division comprise the development of vehicles and engines, the production and sale of passenger cars, light commercial vehicles, trucks, buses and motorcycles, as well as the genuine parts, large-bore diesel engines, turbomachinery, special gear units, propulsion components and testing systems businesses. The Ducati brand is allocated to the Audi brand and is thus presented in the Passenger Cars reporting segment. The Financial Services Division, which corresponds to the Financial Services segment, combines dealer and customer financing, leasing, banking and insurance activities, fleet management and mobility offerings.

VWAG is the parent company of the Volkswagen Group. It develops vehicles and components for the Volkswagen Group's brands, but also produces and sells vehicles, in particular passenger cars and light commercial vehicles for the Volkswagen Passenger Cars and Volkswagen Commercial Vehicles brands. In its function as parent company, VWAG holds direct and indirect interests in AUDI AG, SEAT S.A., ŠKODA AUTO a.s., Dr. Ing. h.c. F. Business Overview

VWAG is the parent company of the Volkswagen Group.

In terms of sales volume (*i.e.* the number of vehicles delivered to dealers), the Volkswagen Group is one of the world's leading automobile manufacturers and is the largest automobile manufacturer in Europe (Source: IHS Global Insight, Automotive: Report Volkswagen Group, as of February 26, 2013). With the products of its group brands Volkswagen Passenger Cars, Audi, ŠKODA, SEAT and Volkswagen Commercial Vehicles, the Volkswagen Group addresses business and private customers from a wide range of customer segments and in multiple regional markets in the so-called high-volume business (*i.e.* production and unit sales of vehicles with a large number of units per model). The Volkswagen Group is represented in the sports car segment with the brand Porsche. The brand diversity of the Volkswagen Group is represented by group brands Lamborghini, Bentley and Bugatti in the luxury class. With Ducati the Volkswagen Group extend its activities regarding motorcycles. In the heavy commercial vehicle sector (trucks with a gross vehicle weight in excess of 6 tonnes, buses and special vehicles), the Volkswagen Group conducts business under the Scania and MAN brand. As of December 31, 2014, VWAG held a 99.57% interest in Scania's capital and 99.66% of the voting rights. The squeeze-out for the Scania shares not tendered in the voluntary tender offer has been initiated and Scania's shares were delisted from the NASDAQ OMX in Stockholm at the end of June 5, 2014. On November 11, 2014 the court of arbitration ruled in the squeeze-out proceedings that all Scania shares outstanding will be transferred to VWAG. VWAG has been the indirect and direct legal owner of all Scania shares since January 14, 2015, when the decision became final and unappealable. The arbitration proceedings to determine an appropriate settlement are continuing. As of December 31, 2014, VWAG indirectly held 75.28% of the voting rights and 74.04% of the share capital of MAN SE. Since August 1, 2012 VWAG indirectly holds 100% of the share capital of Dr. Ing. h.c. F. Porsche AG. Effective as of July 19, 2012, the Volkswagen Group acquired 100% of the voting rights of Ducati Motor Holding S.p.A., Bologna. VWAG directly holds 19.9% of the share capital of Suzuki Motor Corporation.

The Volkswagen Group's business operations encompass the Automotive and Financial Services Divisions. In the Automotive Division, the Volkswagen Group develops vehicles and engines, produces and distributes passenger cars, motorcycles, light commercial vehicles, trucks and buses as well as the genuine parts, large-bore diesel, engines, turbomachinery, special gear units, propulsion components and testing systems businesses. Worldwide, during 2014, the Volkswagen Group delivered a total of approximately 10.1 million vehicles (passenger cars, light commercial vehicles, trucks and buses) to its customers. The Volkswagen Group's range of products comprises around 335 passenger car, commercial vehicle and motorcycle models and their derivatives. With this range of automotive products, the Volkswagen Group covers almost all key segments and body types, with offerings from small cars to super sports cars in the passenger car sector, and from small pickups to heavy trucks and buses in the commercial vehicles sector, as well as motorcycles.

The Financial Services Division includes customer and dealer financing, leasing, banking and insurance activities, fleet management and mobility offerings. The primary purpose of the Financial Services Division is to promote the Volkswagen Group's sales and customer retention.

The Volkswagen Group's production network was extended by 12 locations in 2014, and consisted of a total of 118 production facilities worldwide at the end of 2014. At the end of 2014, the Volkswagen Group's production network consisted of 69 passenger car, commercial vehicle and motorcycle locations as well as 49 powertrain and component sites. The sites are spread out over the continents of Europe, North and South America, Africa and Asia. Including the Chinese joint ventures, the Volkswagen Group employed an average of 583,423 people in fiscal year 2014, an increase of 3.6% year-on-year.

The Volkswagen Group's headcount was 592,586 employees (+3.5%) at the end of the reporting period. Significant factors in this increase were the volume-related expansion in growth markets, in particular in China, and the recruitment of specialists and experts in Germany, among other places. A total of 271,043 people were employed in Germany (+4.1%), while 321,543 were employed abroad (+2.9%).

Growing demand for the Volkswagen Group's models in particular in China and in other European countries outside Germany saw sales there rise by 5.0% compared with the previous year. In Germany, the number of vehicles sold increased by 5.1%. At 12.2%, the proportion of the Volkswagen Group's sales accounted for by Germany was on a level with the previous year (12.2%). The Golf, Jetta and Passat were the Volkswagen Group's biggest sellers last year.

Sales of the Golf, Golf Estate, up!, Audi A3 family, Audi Q3, Audi Q5, ŠKODA Rapid and SEAT Leon family increased most significantly. The new Porsche Macan was also very well received by the market. The Lavida, Santana and Sagitar models developed for the Chinese market were likewise very popular with customers.

Vehicle Deliveries Worldwide

With its brands, the Volkswagen Group has a presence in all relevant automotive markets around the world. Western Europe, China, Brazil, the United States, Russia and Mexico are currently the key sales markets for the Volkswagen Group. In 2014, the Volkswagen Group maintained its strong competitive position thanks to its wide range of attractive and environmentally friendly models. The Volkswagen Group recorded an encouraging increase in demand in many of its key markets.

In 2014, the Volkswagen Group delivered 9,490,921 passenger cars to customers, exceeding the record prior year level by 4.9%. The market as a whole only grew by 4.5% in the same period, meaning that the Volkswagen Group's share of the global market increased to 12.9% (2013: 12.8%). The Volkswagen Passenger Cars (+1.6%), Audi (+10.5%), ŠKODA (+12.7%), Bentley (+8.9%), Lamborghini (+19.3%) and Porsche (+17.1%) brands recorded their best ever delivery figures in the year under review. For the first time in a calendar year, Volkswagen Passenger Cars sold more than 6 million vehicles and ŠKODA's sales exceeded 1 million units. Demand for Volkswagen Group's passenger cars grew fastest in the Asia-Pacific region, with China recording the highest absolute increase.

Passenger Car Deliveries

In 2014, the Volkswagen Group increased its share of the passenger car market in Western Europe to 25.1% (previous year: 24.9%). The Volkswagen Group's share of the passenger car market in Central and Eastern Europe rose to 17.0% (previous year: 15.6%) in 2014. The German passenger car market registered modest growth of 2.9% in the reporting period. In the same period, the Volkswagen Group increased sales to customers in its home market by 4.6% year-on-year. In North America, the number of Volkswagen Group vehicles delivered in 2014 was on a level with the previous year. The Group's share of the passenger car market amounted to 4.6% (previous year: 4.8%). Although the Volkswagen Group sold 2.0% fewer vehicles in the USA in 2014 than in the previous year, its sales were up 2.0% and 9.6% year-on-year in Mexico and Canada, respectively. In 2014, the Volkswagen Group's share of the passenger car market in the region of South America declined to 17.8% (previous year: 18.9%). While in the contracting Brazilian market, demand for the Volkswagen Group's vehicles declined by 12.1%, its deliveries to customers in Argentina were down 39.2% on the prior-year level. The Volkswagen Group's share of the passenger car market in the Asia-Pacific region increased to 13.3% (previous year: 12.9%). In 2014, the Chinese market continued to drive growth in the Asian-Pacific region. The Volkswagen Group delivered 12.3% more vehicles year-on-year to customer in China in 2014.

Commercial Vehicles Deliveries

The Volkswagen Group delivered a total of 646,466 commercial vehicles to customers worldwide in 2014, 5.4% fewer than in the previous year. Trucks accounted for 179,592 units (–9.3% year-on-year), and buses accounted for 20,278 (–11.0% year-on-year). Sales by the Volkswagen Commercial Vehicles brand were down 3.4% on the prior-year figure, with 446,596 vehicles delivered. The MAN brand handed over 120,088 vehicles to customers in 2014, 14.4% fewer than in the previous year. The Scania brand's deliveries were almost unchanged year-on-year at 79,782 (–0.8% year-on-year). In Western Europe, the Volkswagen Group's commercial vehicle sales were up 3.5% in 2014 compared with the previous year, at a total of 361,372 units. In Central and Eastern Europe, the Volkswagen Group delivered a total of 64,052 vehicles to customers (–7.2% year-on-year) in 2014. In Russia, the region's largest market, the low oil price and persistently weak ruble due to the tense political situation led to a 21.5% decline in deliveries to customers. In North America, the Volkswagen Group increased its deliveries by 2,210 units to 8,331 commercial vehicles. Deliveries in the South American markets in 2014 amounted to 104,728 units. This represents a year-on-year decline of 34.9%. The main driver of this decrease was the Brazilian market, where the negative economic trend and difficult financing conditions led to a 39.4% decline in deliveries. In the Asia-Pacific region, the Volkswagen Group's commercial vehicle brands delivered 35,082 units in the reporting period – a total of 15.2% more than in the previous year.

Worldwide Development of Inventories

Global vehicle inventories at Volkswagen Group companies and in the dealer organization were higher on December 31, 2014 than at year-end 2013 due to an increase in inventories in China in response to demand.

Production

The Volkswagen Group produced 10,212,562 vehicles worldwide in fiscal year 2014, representing an increase of 5.0%. Volkswagen Group's Chinese joint ventures produced 12.6% more units than in the previous year, mainly due to the continued positive demand in China. The percentage of the Volkswagen Group's total production accounted for by Germany was on a level with the previous year, at 25.1% (25.3%). In the past year, the Volkswagen Group's plants worldwide produced an average of 40,626 vehicles per working day (+3.2%). The Volkswagen Group's production figures do not include the Crafter models built in the Daimler plants.

Volkswagen Group Financial Services

The Financial Services Division combines the Volkswagen Group's dealer and customer financing, leasing, banking and insurance activities, fleet management and mobility offerings. The division comprises Volkswagen Financial Services (including the financial services business of MAN Finance International GmbH since January 1, 2014) and the financial services activities of Scania, Porsche and Porsche Holding Salzburg. The number of new contracts signed worldwide in the Customer Financing/Leasing and Service/Insurance areas rose by 14.3% year-on-year to 5.3 million. The total number of contracts was 13.4 million as at the end of 2014, surpassing the figure at the prior-year reporting date by 13.7%. The number of contracts in the Customer Financing/Leasing area was up 11.5% to 8.3 million, while the number of contracts in the Service/Insurance area increased by 17.5% to 5.0 million. The ratio of leased or financed vehicles to the Volkswagen Group's deliveries (penetration rate) increased to 30.7% (previous year: 29.1%) in the Financial Services Division's markets.

Volkswagen Bank's direct banking business had 1,403 thousand (previous year: 1,418 thousand) accounts at the end of 2014.

Sales Revenue and Profit

The Volkswagen Group generated sales revenue of €202.5 billion in fiscal year 2014, 2.8% higher than in the previous year. The clearly negative exchange rate effects seen in the first half of the year in particular were offset by higher volumes and improvements in the mix. At 80.6% (previous year: 80.9%), a large majority of sales revenue was recorded outside of Germany.

Gross profit improved to €36.5 billion (previous year: €35.6 billion). Optimized product costs had a positive impact on earnings, while increased depreciation charges resulting from Volkswagen Group's significant capital expenditures and higher upfront investments in new products had a negative effect. The prior-year figure was impacted by contingency reserves. The gross margin was 18.0% (previous year: 18.1%).

The Volkswagen Group generated an operating profit of €12.7 billion, surpassing the prior-year period by €1.0 billion. Positive volume and mix effects, as well as optimized product costs, were able to offset

negative exchange rate effects, increased depreciation charges, higher research and development costs, and greater fixed costs due to growth factors. The prior-year figure had been negatively impacted by contingency reserves. The operating return on sales improved to 6.3% (previous year: 5.9%).

The Volkswagen Group's profit before tax rose to €14.8 billion in the reporting period, up 19.0% on the prior-year figure. The return on sales before tax increased from 6.3% to 7.3%. Profit after tax was €1.9 billion higher than in 2013, at €11.1 billion. The tax rate was 25.2% (previous year: 26.4%).

Effective February 19, 2013, the State of Lower Saxony appointed the Minister-President, Stephan Weil, and the Minister of Economic Affairs, Labor and Transport, Olaf Lies, to the Supervisory Board. They succeeded David McAllister and Jörg Bode, who stepped down from the Supervisory Board as of the same day.

The scheduled term of office of Dr. Wolfgang Porsche as a member of the Supervisory Board expired at the end of the Annual General Meeting on April 25, 2013. The Annual General Meeting elected Dr. Porsche to the Supervisory Board for a further full term of office. The scheduled terms of office of Dr. Hans Michel Piëch and Dr. Ferdinand Oliver Porsche as members of VWAG's Supervisory Board expired at the end of the 53rd Annual General Meeting on May 13, 2014. The Annual General Meeting elected them both to the Supervisory Board for a further full term of office. In addition, Mr. Ahmad Al-Sayed, who was previously appointed to the Supervisory Board by the court for the period up to the Annual General Meeting on May 13, 2014, was elected to the Supervisory Board for a full term of office.

The members of the Board of Management and the members of the Supervisory Board may be contacted at VWAG's business address: VOLKSWAGEN AKTIENGESELLSCHAFT, Generalsekretariat, Berliner Ring 2, 38440 Wolfsburg, Germany.

The following family relationships exist between the members of the Supervisory Board: Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch and Ursula Piëch are married. Furthermore, Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch and Dr. jur. Hans Michel Piëch are brothers and both are cousins of Dr. rer. comm. Wolfgang Porsche. In addition, Dr. jur. Ferdinand Oliver Porsche is a nephew of the aforementioned members of the Supervisory Board. There are no family relationships between the remaining members of the Supervisory Board.

Some of the members of the Board of Management and the Supervisory Board are also members of executive bodies of Volkswagen Group companies, which are companies in which VWAG has a substantial interest, and of key shareholders of VWAG, so-called dual mandates.

Such dual mandates are, for example, held by the Chairman of the Supervisory Board of VWAG, Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch, the Chairman of the Board of Management of VWAG, Prof. Dr. Dr. h. c. mult. Martin Winterkorn, the CFO of VWAG, Hans Dieter Pötsch and by the member of the Board of Management of VWAG, Dr. rer. pol. h.c. Francisco Javier Garcia Sanz, who are simultaneously members of the Board of Directors of Scania AB, with Prof. Dr. Dr. h. c. mult. Martin Winterkorn holding the position of Chairman of the Board of Directors. Prof. Dr. Dr. h. c. mult. Martin Winterkorn, Dr. rer. pol. h.c. Francisco Javier Garcia Sanz, Prof. Dr. rer. pol. Dr.-Ing. E. h. Horst Neumann and Hans Dieter Pötsch are also members of the Supervisory Board of AUDI AG, with Prof. Dr. Dr. h. c. mult. Martin Winterkorn holding the position of Chairman of the Supervisory Board. The member of the Board of Management, Prof. Rupert Stadler, is simultaneously the Chairman of the Board of Management of AUDI AG.

Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch, Chairman of the Supervisory Board, is simultaneously Chairman of the Supervisory Board of MAN SE. The members of the Board of Management of VWAG, Hans Dieter Pötsch and Prof. Rupert Stadler, as well as Prof. Dr. Dr. h. c. mult. Martin Winterkorn are also members of the Supervisory Board of MAN SE.

Dual mandates also exist in relation to key shareholders of VWAG and the members of its governing bodies. For example, the Chairman of the Board of Management of VWAG, Prof. Dr. Dr. h. c. mult. Martin Winterkorn, and the CFO, Hans Dieter Pötsch, are simultaneously members of the Executive Board of Porsche Automobil Holding SE (the Chairman and the CFO, respectively) and members of the Supervisory Board of Dr. Ing. h.c. F. Porsche AG, Porsche Holding Gesellschaft m.b.H., Salzburg, Porsche Austria G.m.b.H., Salzburg, and Porsche Retail G.m.b.H., Salzburg.

Dr. jur. Hans Michel Piëch, Dr. jur. Ferdinand Oliver Porsche, Berthold Huber, Peter Mosch and Bernd Osterloh are simultaneously members of the Supervisory Board of VWAG and members of the Supervisory Board of Porsche Automobil Holding SE. Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch is

simultaneously a member of the Supervisory Board of Porsche Automobil Holding SE and Chairman of the Supervisory Board of VWAG. Dr. rer. comm. Wolfgang Porsche, Chairman of the Supervisory Board of Porsche Automobil Holding SE, is simultaneously a member of the Supervisory Board of VWAG.

Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch, Dr. jur. Hans Michel Piëch and Dr. jur. Ferdinand Oliver Porsche are simultaneously members of the Supervisory Board of VWAG and members of the Supervisory Board of Dr. Ing. h.c. F. Porsche AG. Dr. rer. comm. Wolfgang Porsche, Chairman of the Supervisory Board of Dr. Ing. h.c. F. Porsche AG, is simultaneously a member of the Supervisory Board of VWAG.

Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch, Dr. jur. Hans Michel Piëch, Dr. jur. Ferdinand Oliver Porsche, Dr. rer. comm. Wolfgang Porsche, Berthold Huber, Peter Mosch and Ursula Piëch are members of the Supervisory Board of VWAG and members of the Supervisory Board of AUDI AG.

Due to the dual mandates, there could be instances in which there arises a conflict of interest in the structuring of business relationships between Volkswagen companies, as well as with other companies outside

the Volkswagen Group, or a disadvantageous exercise of influence over the Volkswagen Group's business. This is particularly the case given the background that, due to the overlap of personnel and the Volkswagen's Group structure, decision-making within the Board of Management and the Supervisory Board cannot take place as independently as would be the case for subsidiaries which are not as connected with their parent company in the same manner. To the extent that conflicts of interest occur, the relevant members deal with them in a responsible manner and in accordance with legal requirements.

There are no employment contracts between VWAG or any of its subsidiaries and members of the Supervisory Board or the Board of Management of VWAG which provide for benefits at the end of the employment relationship. In the event of regular termination of service, however, members of the Board of Management of VWAG are entitled to a pension, including a surviving dependents' pension as well as the use of company cars for the period in which they receive their pension.

Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch, Ursula Piëch, Dr. jur. Hans Michel Piëch, Dr. jur. Ferdinand Oliver Porsche and Dr. rer. comm. Wolfgang Porsche are members of the Supervisory Board and are indirect owners of voting rights in VWAG.

Board Practices

In accordance with the provisions of the German Stock Corporation Act (*Aktiengesetz* -AktG) and the German Co-Determination Act (*Mitbestimmungsgesetz* – ("**MitbestG**")), the Supervisory Board elects a Chairman and a Deputy Chairman for the respective terms of office. If the Chairman or his Deputy leaves before expiration of his term of office, the Supervisory Board must promptly hold a new election to fill the position for the remainder of the departed member's term of office. The Articles of Association of VWAG provide that declarations of intent by the Supervisory Board are made by the Chairman of the Supervisory Board on its behalf.

In accordance with the Articles of Association of VWAG, the Supervisory Board may form further committees from among its members to perform specific functions, in addition to the committee to be formed in accordance with section 27(3) of the MitbestG.

The Supervisory Board had formed the following four committees: the Executive Committee, the Mediation Committee, the Audit Committee and the Nomination Committee. On September 21, 2012 the Committee for Major Shareholder Business Relationships and the Integrated Automotive Group Committee were dissolved.

The Executive Committee consists of three shareholder representatives and three employee representatives. The members of the Nomination Committee are the shareholder representatives in the Executive Committee. In 2014, the remaining two committees were each composed of two shareholder representatives and two employee representatives.

The Executive Committee of the Supervisory Board met seven times during 2014. These meetings mainly served to prepare in detail the resolutions by the Supervisory Board and to deal with contractual issues concerning the Board of Management other than those relating to members' remuneration. The following persons are members of the Executive Committee: Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch (Chairman), Berthold Huber (Deputy Chairman), Bernd Osterloh, Dr. Wolfgang Porsche, Stephan Weil and Stephan Wolf.

The Nomination Committee is responsible for proposing suitable candidates for the Supervisory Board to recommend for election to the Annual General Meeting. The Committee met once during 2014. The following persons were members of the Nomination Committee in 2014: Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch (Chairman), Dr. Wolfgang Porsche and Stephan Weil.

The Mediation Committee is responsible, in accordance with the German Co-Determination Act, for appointing the members of the Board of Management. In 2014, the following persons were members of the Mediation Committee: Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch (Chairman), Berthold Huber (Deputy Chairman), Bernd Osterloh and Stephan Weil. The Mediation Committee did not have to be convened in 2013.

The Audit Committee met four times during 2014. It focused primarily on the consolidated financial statements, risk management (including the internal control system), and the work performed by VWAG's compliance organization. In addition, the Audit Committee addressed the quarterly reports and the half-yearly financial report of the Volkswagen Group, as well as current financial reporting issues and their examination by the auditors. The following persons are members of the Audit Committee: Dr. Ferdinand Oliver Porsche (Chairman), Peter Mosch (Deputy Chairman), Annika Falkengren and Babette Fröhlich.

Corporate Governance

The government commission on the German Corporate Governance Code appointed by the Federal Ministry of Justice (*Bundesministerium für Justiz*) in September 2001 adopted the German Corporate Governance Code ("**AktG**" or the "**Code**") on February 26, 2002 and, most recently, adopted various amendments to the Code on June 24, 2014. The Code provides recommendations and suggestions on managing and supervising listed German companies. In doing so, it is based on recognized international and national standards for good and responsible corporate governance. The purpose of the Code is to make the German corporate governance system transparent and comprehensible. The Code contains recommendations and suggestions on corporate governance with respect to shareholders and the general meeting, the board of management, the supervisory board, transparency, accounting and auditing.

There is no obligation to comply with the recommendations and suggestions of the Code. German stock corporation law merely requires the board of management and supervisory board of a listed company to either make an annual declaration that the company has been and will be in compliance with the recommendations of the Code, or state which recommendations have not or will not be applied and why. The statement is to be made permanently available on the website of VWAG. A company may deviate from the suggestions made in the Code without disclosing this.

On November 21, 2014 the Board of Management and the Supervisory Board of VWAG issued the following annual declaration of conformity with the German Corporate Governance Code required by section 161 of the AktG:

"The Board of Management and the Supervisory Board declare that:

The recommendations of the Government Commission of the German Corporate Governance Code (DCGK) in the version dated 15 May 2013 that were published by the German Ministry of Justice in the official section of the Federal Gazette (*Bundesanzeiger*) on 10 June 2013 and in the version of the DCGK dated 24 June 2014 that remained unchanged as regards the recommendation contained therein and was published in the official section of the Federal Gazette (*Bundesanzeiger*) on 30 September 2014 have been complied with since the last Declaration of Conformity dated 22 November 2013 and will continue to be complied with, with the exception of the recommendations listed below. The reasons for the exceptions are also listed below.

a) 4.2.3 paragraph 4 (severance pay cap)

A severance pay cap will be included in new contracts concluded with members of the Board of Management, but not in contracts concluded with Board of Management members entering their third term of office or beyond, provided a cap did not form part of the initial contract. Grandfather rights have been applied accordingly.

b) 5.1.2 paragraph 2 sentence 3 (age limit for members of the Board of Management)

An age limit for members of the Board of Management is not considered to be appropriate because the ability to manage a company successfully does not necessarily cease when a specific age is reached. A rigid retirement age could also be deemed discriminatory. It may be in the interests of the company to appoint someone over the age of 65. A rigid retirement age would therefore appear to be inappropriate.

c) 5.3.2 sentence 3 (independence of the chair of the Audit Committee)

It is unclear from the wording of the German Corporate Governance Code whether the chairman of the Audit Committee is "independent" within the meaning of number 5.3.2 sentence 3 of the DCGK. Such independence could be considered lacking in view of his membership of the Supervisory Board of Porsche Automobil Holding SE, kinship with other members of the Supervisory Board of the company and Porsche Automobil Holding SE, his indirect minority interest in Porsche Automobil Holding SE, and business relations with other members of the Porsche and Piëch families who also have an indirect interest in Porsche Automobil Holding SE. However, in the opinion of the Supervisory Board and the Board of Management, these relationships do not constitute a conflict of interest nor do they interfere with his duties as the Chairman of the Audit Committee. However, this exception is being declared, purely as a precautionary measure.

d) 5.4.1 paragraphs 4 to 6 (disclosure regarding election recommendations)

With regard to the recommendation set out in number 5.4.1 paragraphs 4 to 6 of the DCGK stating that certain circumstances must be disclosed by the Supervisory Board when making election recommendations to the Annual General Meeting, the stipulations of the Code are vague and the definitions unclear. Purely as a precautionary measure, the Board of Management and the Supervisory Board therefore declare a deviation from the Code in this respect. Notwithstanding this, the Supervisory Board will make every effort to satisfy the requirements of number 5.4.1 paragraphs 4 to 6.

e) 5.4.6 paragraph 2 sentence 2 (performance-related compensation of members of the Supervisory Board)

The remuneration of members of the Supervisory Board is regulated by the shareholders in article 17(1) of the VW Articles of Association; one component of this remuneration is linked to dividend distribution. We therefore assume that the variable compensation component is oriented toward the sustainable growth of the enterprise as defined in number 5.4.6 paragraph 2 sentence 2 of the DCGK. However, as it cannot be ruled out that other views will be taken in this respect, a deviation from this recommendation in the Code is being declared as a precautionary measure.

Legal and arbitration proceedings

In the course of their operating activities, VWAG and the companies in which it is directly or indirectly invested become involved in legal disputes and official proceedings in Germany and internationally. In particular, such proceedings may occur in relation to suppliers, dealers, customers, employees, or investors. For the companies involved, these may result in payment or other obligations. Particularly in cases where U.S. customers assert claims for vehicle defects individually or by way of a class action, highly cost-intensive measures may have to be taken and substantial compensation or punitive damages paid. Corresponding risks also result from U.S. patent infringement proceedings.

Where transparent and economically viable, adequate insurance cover is taken out for these risks and appropriate provisions recognized for the remaining identifiable risks. VWAG does not believe, therefore, that these risks will have a sustained effect on the economic position of the Volkswagen Group.

Consequently, VWAG is of the opinion that, to the best of its knowledge, there have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which VWAG is aware) in the twelve months preceding the date of this Prospectus that may have or had significant effects on VWAG's or the VW Group's financial position or profitability.

TAXATION

The following is a general overview of certain tax consequences under the tax laws of Luxembourg, the Federal Republic of Germany, Austria, The Netherlands, the United Kingdom (UK) and Ireland of the acquisition, ownership and disposal of the Notes. It contains the information required on taxation by the Commission Regulation (EC) No 809/2004 of April 29, 2004. Information exceeding this information requirement is included herein solely for information purposes. This overview does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase the Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser, relates only to the position of persons who are absolute beneficial owners of the Notes and may not apply to certain classes of persons such as dealers, certain professional investors or persons connected with the Issuer. This overview is based on the laws of Luxembourg, the Federal Republic of Germany, Austria, The Netherlands, the UK, France and Ireland (including the practice of the respective tax authorities of each jurisdiction) currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect. It is not intended to be, nor should it be construed to be, legal or tax advice.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND DISPOSAL OF THE NOTES, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES UNDER THE TAX LAWS APPLICABLE IN LUXEMBOURG, THE FEDERAL REPUBLIC OF GERMANY, AUSTRIA, THE NETHERLANDS, THE UK, FRANCE, IRELAND AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS.

Taxation in Luxembourg

The following overview is of a general nature. It contains the information required on taxation by the Commission Regulation (EC) No 809/2004 of April 29, 2004. Information exceeding this information requirement is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice.

Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Withholding tax and self-applied tax

Non-resident Noteholders

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident Noteholders, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident Noteholders.

Resident Noteholders

Under Luxembourg general tax laws currently in force and subject to the law of December 23, 2005 as amended (the "**Law**") mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident Noteholders, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident Noteholders.

Under the Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is a resident of Luxembourg or a foreign residual entity that secures interest payments on behalf of such individuals will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her/its private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

Pursuant to the Law as amended, Luxembourg resident individuals, acting in the course of their private wealth, can opt to self-declare and pay a 10% tax on interest payments made after December 31, 2007 by paying agents (defined in the same way as in the EU Savings Directive – see below) located in an EU member state other than Luxembourg, a member state of the European Economic Area other than an EU member state or a State or territory which has concluded an agreement with Luxembourg in connection with the EU Savings Directive.

Taxation in Germany

Investors resident in Germany

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge thereon plus church tax and/or trade tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Notes) and, in general, capital gains.

Taxation if the Notes are held as private assets (Privatvermögen)

In the case of German tax-resident individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as private assets (*Privatvermögen*), the following applies:

Income

The Notes should qualify as other capital receivables (*sonstige Kapitalforderungen*) in terms of section 20 para 1 no 7 German Income Tax Act ("**ITA**" — *Einkommensteuergesetz*).

Accordingly, payments of interest on the Notes should qualify as taxable savings income (*Einkünfte aus Kapitalvermögen*) pursuant to section 20 para 1 no 7 ITA.

Capital gains / capital losses realised upon sale of the Notes, computed as the difference between the acquisition costs and the sales proceeds reduced by expenses directly and factually related to the sale, should qualify as positive or negative savings income in terms of section 20 para 2 sentence 1 no 7 ITA. Where the Notes are acquired and/or sold in a currency other than Euro, the acquisition costs will be converted into Euro at the time of acquisition, the sales proceeds will be converted into Euro at the time of sale and the difference will then be computed in Euro. If the Notes are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. Losses from the sale of Notes can only be offset against other savings income and, if there is not sufficient other positive savings income, carried forward in subsequent assessment periods.

Pursuant to the view of German tax authorities, a sale shall be disregarded where the transaction costs exceed the sales proceeds, which means that losses suffered from such "sale" shall not be tax-deductible. Similarly, pursuant to the view of German tax authorities, a bad debt loss (*Forderungsausfall*), i.e. should the Issuer become insolvent, and a waiver of a receivable (*Forderungsverzicht*), to the extent the waiver does not qualify as a hidden contribution, shall not be treated like a sale. Accordingly, losses suffered upon such bad debt loss or waiver shall not be tax-deductible. This view has (partly) been rejected in 2014 by the local tax court of Lower Saxony (*Niedersachsen*).

If the Issuer exercises the right to substitute the debtor of the Notes, the substitution might, for German tax purposes, be treated as an exchange of the Notes for new notes issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors.

German withholding tax (Kapitalertragsteuer)

With regard to savings earnings (*Kapitalerträge*), e.g. interest or capital gains, German withholding tax (*Kapitalertragsteuer*) will be levied if the Notes are held in a custodial account which the investor maintains with a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank (a "**German Disbursing Agent**") and such German Disbursing Agent credits or pays out the earnings.

The tax base is, in principle, equal to the taxable gross income as set out above (i.e. prior to withholding). However, in the case of capital gains, if the custodial account has changed since the time of acquisition of the Notes (e.g. if the Notes are transferred from a non-EU custodial account) and the acquisition costs of the Notes are not proven to the German Disbursing Agent in the form required by law or not allowed to be proven to the German Disbursing Agent, withholding tax is applied to 30% of the proceeds from the redemption or sale of the Notes. When computing the tax base for withholding tax purposes, the German Disbursing Agent has generally to deduct any negative savings earnings (*negative Kapitalerträge*) or paid accrued interest (*Stückzinsen*) in the same calendar year or unused negative savings earnings of previous calendar years, subject to further requirements.

German withholding tax will be levied by a German Disbursing Agent at a flat withholding tax rate of 26.375% (including solidarity surcharge) plus, if applicable, church tax. Church tax will be collected by the German Disbursing Agent by way of withholding unless the investor has filed a blocking notice

(*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*). In the latter case, the investor has to include the savings income in the income tax return and will then be assessed to church tax, if applicable.

No German withholding tax will be levied if the investor has filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the exemption amount shown on the withholding tax exemption certificate. Currently, the maximum exemption amount is EUR 801 (EUR 1,602 in the case of jointly assessed investors). Similarly, no withholding tax will be levied if the relevant investor has submitted a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office to the German Disbursing Agent.

The Issuer is, as a rule, not obliged to levy German withholding tax in respect of payments on the Notes.

Tax assessment

The taxation of savings income shall take place mainly by way of levying withholding tax (please see above). If and to the extent German withholding tax has been levied, such withholding tax shall, in principle, become definitive and satisfy the investor's income tax obligation with regard to the underlying savings income. If no or not sufficient withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the investor is nevertheless obliged to file an income tax return, and the savings income will then be taxed within the assessment procedure. If the investor is subject to church tax and has not filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*), the investor is also obliged to include the savings income in the income tax return for church tax purposes, if applicable.

However, also in the assessment procedure, savings income is principally taxed at a separate tax rate for savings income (*gesonderter Steuertarif für Einkünfte aus Kapitalvermögen*) being identical to the withholding tax rate (26.375% — including solidarity surcharge (*Solidaritätszuschlag*) plus, if applicable, church tax). In certain cases, the investor may apply to be assessed on the basis of its personal income tax rate if such rate is lower than the above tax rate. Such application can only be filed consistently for all savings income within the assessment period. In case of jointly assessed investors the application can only be filed for savings income of both investors.

When computing the savings income, the saver's lump sum amount (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 in the case of jointly assessed investors) will be deducted. The deduction of the actual income related expenses, if any, is excluded.

Taxation if the Notes are held as business assets (Betriebsvermögen)

In the case of German tax-resident corporations or individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as business assets (*Betriebsvermögen*), interest payments and capital gains will be subject to corporate income tax at a rate of 15% or income tax at a rate of up to 45%, as the case may be, (in each case plus 5.5% solidarity surcharge thereon). In addition, trade tax may be levied, the rate of which depends on the municipality where the business is located. Further, in the case of individuals, church tax may be levied. Business expenses that are connected with the Notes are deductible.

The provisions regarding German withholding tax (*Kapitalertragsteuer*) apply, in principle, as set out above for private investors. However, investors holding the Notes as business assets cannot file a withholding tax exemption certificate with the German Disbursing Agent. Instead, no withholding tax will be levied on capital gains from the redemption, sale or assignment of the Notes if, for example, (a) the Notes are held by a corporation or (b) the proceeds from the Notes qualify as income of a domestic business and the investor notifies this to the German Disbursing Agent by use of the officially required form.

Any withholding tax levied is credited as prepayment against the German (corporate) income tax amount. If the tax withheld exceeds the respective (corporate) income tax amount, the difference will be refunded within the tax assessment procedure.

Investors not resident in Germany

Persons who are not tax resident in Germany are not subject to tax with regard to income from the Notes unless (i) the Notes are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the investor or (ii) the income from the Notes qualifies for other reasons as taxable German source income. If a non-resident person is subject to tax with its income from the Notes, in principle, similar rules apply as set out above with regard to German tax resident persons (please see above).

Inheritance and Gift Tax

Inheritance or gift taxes with respect to any Note will, in principle, arise under German law if, in the case of inheritance tax, either the decedent or the beneficiary or, in the case of gift tax, either the donor or the donee is a resident of Germany or if such Note is attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed.

The few existing double taxation treaties regarding inheritance and gift tax may lead to different results. Special rules apply to certain German citizens that are living in a foreign country and German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties are payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany. It is intended to introduce a financial transaction tax. However, it is unclear if and in what form such tax will be actually introduced as described in "*Proposed Financial Transactions Tax*" below.

Taxation in Austria

The following is a general overview of certain Austrian tax aspects in connection with the Notes and contains the information required on taxation by the Commission Regulation (EC) No 809/2004 of April 29, 2004. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Notes nor does it take into account the Noteholders' individual circumstances or any special tax treatment applicable to the Noteholder. It is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors should consult their own professional advisors as to the particular tax consequences of the acquisition, ownership, disposition or redemption of the Notes.

This overview is based on Austrian law as in force when drawing up this Prospectus. The laws and their interpretation by the tax authorities may change and such changes may also have retroactive effect. It cannot be ruled out that the Austrian tax authorities adopt a view different from that outlined below. This overview is based on the assumption that the Notes are offered to the public.

Austrian residents

Income from the Notes derived by individuals, whose domicile or habitual abode is in Austria, is subject to Austrian income tax pursuant to the provisions of the Austrian Income Tax Act (*Einkommensteuergesetz*).

Interest income from the Notes is subject to a special income tax rate of 25%. If the interest is paid out to the Noteholder by an Austrian paying agent (Austrian bank or Austrian branch of foreign bank or investment firm), the interest income from the Notes is subject to Austrian withholding tax (*Kapitalertragsteuer*) at a rate of 25%, which is withheld by the paying agent (*auszahlende Stelle*). The income tax for interest income generally constitutes a final taxation (*Endbesteuerung*) for individuals, irrespectively whether the Notes are held as private assets or as business assets. If the interest income is not subject to Austrian withholding tax because there is no domestic paying agent, the taxpayer will have to include the interest income derived from the Notes in his personal income tax return pursuant to the provisions of the Austrian Income Tax Act.

Furthermore, any realized capital gain (*Einkünfte aus realisierten Wertsteigerungen*) from the Notes is subject to Austrian income tax at a rate of 25%. Realized capital gain means any income derived from the sale or redemption or other disposal of the Notes. The tax base is, in general, the difference between the sale proceeds or the redemption amount and the acquisition costs, in each case including accrued interest. Expenses which are directly connected with income subject to the special tax rate of 25% are not deductible. For Notes held as private assets, the acquisition costs shall not include incidental acquisition costs. For the calculation of the acquisition costs of Notes held within the same securities account and having the same securities identification number but which are acquired at different points in time, an average price shall apply.

Where an Austrian securities depository (*depotführende Stelle*) or paying agent is involved and pays out or settles the capital gain, also any realized capital gain from the Notes is subject to a 25% withholding tax. The 25% withholding tax deduction will result in final income taxation for private investors (holding the Notes as private assets) provided that the investor has evidenced the factual acquisition costs of the Notes to the securities depository. If the realized capital gain is not subject to Austrian withholding tax because there is no domestic securities depository or paying agent, the taxpayer will also have to include the realized capital gain derived from the Notes in his personal income tax return pursuant to the provisions of the Austrian Income Tax Act.

Withdrawals (*Entnahmen*) and other transfers of Notes from the securities account will be treated as disposals (sales), unless specified exemptions will be fulfilled like the transfer of the Notes to a securities

account owned by the same taxpayer (i) with the same Austrian securities depository (bank), (ii) with another Austrian bank if the account holder has instructed the transferring bank to disclose the acquisition costs to the receiving bank or (iii) with a non-Austrian bank, if the account holder has instructed the transferring Austrian bank to transmit the pertaining information to the competent tax office or has, in the case of transfers from a foreign account, himself notified the competent Austrian tax office within a month; or like the transfer without consideration to a securities account held by another taxpayer, if the fact that the transfer has been made without consideration has been evidenced to the bank or the bank has been instructed to inform the Austrian tax office thereof or if the taxpayer has himself notified the competent Austrian tax office within a month. Special rules apply if a taxpayer transfers his residence outside of Austria or Austria losses for other reasons its taxation right in respect of the Notes to other countries (which gives rise to a deemed capital gain and exit taxation with the option for deferred taxation upon application in the case of a transfer to an EU Member State or certain member states of the European Economic Area).

Taxpayers, whose regular personal income tax is lower than 25% may opt for taxation of the income derived from the Notes at the regular personal income tax rate. Any tax withheld will then be credited against the income tax. Such application for opting into taxation at the regular personal income tax rate must, however, include all income subject to the special 25% tax rate. Expenses in direct economical connection with such income are also not deductible if the option for taxation at the regular personal income tax rate is made.

Income from Notes which are not offered to the public within the meaning of the Austrian Income Tax Act would not be subject to withholding tax and final taxation but subject to normal progressive personal income tax rates.

Losses from Notes held as private assets may only be set off with other investment income subject to the special 25% tax rate (excluding, *inter alia*, interest income from bank deposits and other claims against banks) and must not be set off with any other income. Austrian tax law provides for a mandatory set-off by the Austrian securities depository of losses against investment income from securities accounts at the same securities depository (subject to certain exemptions). However, a carry-forward of such losses is not permitted.

Income including capital gain derived from the Notes which are held as business assets are also subject to the special income tax rate of 25% deducted by way of the withholding tax. However, realized capital gains, contrary to interest income, have to be included in the tax return and must not be a focus of the taxpayer's business activity. Write-downs and losses derived from the sale or redemption of Notes held as business assets must primarily be set off against positive income from realized capital gains of financial instruments of the same business and only half of the remaining loss may be set off or carried forward against any other income.

It is possible that the tax rate for interest and capital gains will be raised. According to a statement of the government, it is intended to raise the tax rate to 27.5 % as of January 1, 2016.

Income including capital gains from the Notes derived by corporate Noteholders, whose seat or place of management is based in Austria, is subject to Austrian corporate income tax pursuant to the provisions of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*). Corporate Noteholders deriving business income from the Notes may avoid the application of Austrian withholding tax by filing a declaration of exemption (*Befreiungserklärung*). There is, *inter alia*, a special tax regime for private foundations established under Austrian law (*Privatstiftungen*) (interim tax, no withholding tax).

The Issuer does not assume responsibility for Austrian withholding tax (*Kapitalertragsteuer*) at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Non-residents

Income including capital gains derived from the Notes by individuals who do not have a domicile or their habitual abode in Austria or by corporate investors who do not have their corporate seat or their place of management in Austria ("**non-residents**") is not taxable in Austria provided that the income is not attributable to an Austrian permanent establishment (for withholding tax under the Austrian implementation of the EU Savings Directive see below). This should be also true if the Notes are held by a non-resident Noteholder in an Austrian depository account because and as long as the Issuer is not resident in Austria.

Thus, non-resident Noteholders — in case they receive income or capital gains from the Notes through a securities depository or paying agent located in Austria — may avoid the application of Austrian withholding tax if they evidence their non resident-status vis-à-vis the paying agent by disclosing, *inter alia*, their identity and address pursuant to the provisions of the Austrian income tax guidelines. The provision of evidence that the Noteholder is not subject to Austrian withholding tax is the responsibility of the Noteholder.

If any Austrian withholding tax is deducted by the securities depository or paying agent from any non-taxable payment, the tax withheld shall be refunded to the non-resident Noteholder upon his application

which has to be filed with the competent Austrian tax authority within five calendar years following the date of the imposition of the withholding tax. Applications for refund may only be filed after the end of the calendar year when the withholding was made.

The issuer does not assume responsibility for such withholding tax at source and is not obliged to make additional payments in case of such withholding tax deductions at source.

Where non-residents receive income from the Notes as part of business income taxable in Austria (e.g. permanent establishment), they will, in general, be subject to the same tax treatment as resident investors.

Implementation of the EU Savings Directive in Austria

The EU Council Directive 2003/48/EC on taxation of savings income in the form of interest payments ("**EU Savings Directive**") provides for an exchange of information between the authorities of EU Member States regarding interest payments made in one EU Member State to beneficial owners who are individuals and residents for tax purposes in another EU Member State (concerning the EU Savings Directive, please see also below).

Austria has implemented the EU Savings Directive by way of the EU Withholding Tax Act (*EU-Quellensteuergesetz*) which provides for a withholding tax rather than for an exchange of information. Such EU withholding tax is levied on interest payments within the meaning of the EU Withholding Tax Act made by a paying agent located in Austria to an individual (or certain entities within the meaning of Art 4/2 of the EU Savings Directive) resident for tax purposes in another EU Member State of the European Union or certain dependent and associated territories. The EU withholding tax currently amounts to 35%.

No EU withholding tax is deducted if the EU-resident Noteholder provides the paying agent with a certificate drawn up in his name by the tax office of his EU Member State of residence. Such certificate has to indicate, among other things, the name and address of the paying agent as well as the bank account number of the Noteholder or the identification of the Notes (section 10 EU Withholding Tax Act).

Austria has in general agreed to transpose into national law an automatic exchange of information on Austrian bank accounts which is expected to enter into force in 2017.

Concerning the Amending Directive (as defined below) which will amend and broaden the scope of the requirements described above, see "*—EU Savings Directive*" below).

The Issuer does not assume responsibility for EU withholding tax at source and is not obliged to make additional payments in case of EU withholding tax deductions at source.

Other taxes

Currently, there should be no transfer tax, registration tax or similar tax payable in Austria by Noteholders as a consequence of the acquisition, ownership, disposition or redemption of the Notes. The Austrian inheritance and gift tax (*Erbschafts- und Schenkungssteuer*) was abolished with effect as of August 1, 2008. However, gifts from or to Austrian residents have to be notified to the tax authorities within a three-month notification period. There are certain exemptions from such notification obligation, e.g. for gifts among relatives that do not exceed an aggregate amount of EUR 50,000 per year or gifts among unrelated persons that do not exceed an aggregate amount of EUR 15,000 within five years.

Concerning the proposed financial transaction tax ("**FTT**") please see below under "*—Proposed Financial Transaction Tax*".

Taxation in The Netherlands

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of Notes or Coupons, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of the paragraph "Taxes on Income and Capital Gains" below it is assumed that:

- a holder of Notes, being an individual or a non-resident entity, does not have nor will have a substantial interest (*aanmerkelijk belang*), or — in the case of such holder being an entity — a deemed substantial interest, in the Issuer and that no connected person (*verbonden persoon*) to the holder has or will have a substantial interest in the Issuer;

- a holder of Notes which is an entity is not a pension fund, otherwise not a taxpayer or exempt for tax purposes; and
- a holder of Notes which is an entity is not a resident of Aruba, Curaçao or Sint Maarten.

Generally speaking, an individual has a substantial interest in a company if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company.

Generally speaking, a non-resident entity has a substantial interest in a company if such entity, directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company. An entity has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term “entity” means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this summary refers to a holder of Notes, an individual holding Notes or an entity holding Notes, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Notes or otherwise being regarded as owning Notes for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the summary refers to “the Netherlands” or “Dutch” it refers only to the European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of Notes or Coupons.

Withholding Tax

All payments made by the Issuer of interest and principal under the Notes can be made free of withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

Taxes on Income and Capital Gains

Residents

Resident entities

An entity holding Notes which is, or is deemed to be, resident in the Netherlands for corporate tax purposes and which is not tax exempt, will generally be subject to corporate tax in respect of income or a capital gain derived from the Notes at the prevailing statutory rates.

Resident individuals

An individual holding Notes who is, or is deemed to be, resident in the Netherlands for income tax purposes will be subject to income tax in respect of income or a capital gain derived from the Notes at rates up to 52 per cent if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (normaal, actief vermogensbeheer).

If neither condition (i) nor (ii) applies, an individual holding Notes will be subject to income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from the Notes. The deemed return amounts 4% of the fair market value of the individual's net assets exceeding a certain threshold as at the beginning of the relevant fiscal year (including the Notes). Subject to application of certain allowances, the deemed return will be taxed at a rate of 30 per cent.

Non-residents

A holder which is not, and is not deemed to be, resident in the Netherlands for the relevant tax purposes will not be subject to taxation on income or a capital gain derived from the Notes unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in the Netherlands or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands and the holder of Notes derives profits from such enterprise (other than by way of securities); or
- (ii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

Gift and Inheritance Taxes

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of Notes by way of gift by, or on the death of, a holder of Notes, unless:

- (i) such holder is, or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

Value Added Tax

There is no Dutch value added tax payable by a holder of Notes in respect of payments in consideration for the issue of the Notes or in respect of the payment of interest or principal under the Notes, or the transfer of Notes.

Other Taxes and Duties

There is no Dutch registration tax, stamp duty or any other similar tax or duty payable in the Netherlands by a holder of Notes in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of the Netherlands) of the Notes or the performance of the Issuer's obligations under the Notes.

Residence

A holder of Notes will not be and will not be deemed to be resident in the Netherlands for tax purposes and, subject to the exceptions set out above, will not otherwise become subject to Dutch taxation, by reason only of acquiring, holding or disposing of Notes or the execution, performance, delivery and/or enforcement of Notes.

Taxation in the United Kingdom (UK)

Interest on the Notes

Provided that the interest on the Notes does not have a UK source, interest on Notes may be paid by the Issuer without withholding or deduction for or on account of UK income tax. The source of a payment is a complex matter. It is necessary to have regard to case law and HMRC practice. Case law has established that in determining the source of interest, all relevant facts must be taken into account. HMRC consider the most important factor in deciding whether interest has a UK source is the residence of the debtor and the location of the debtor's assets.

If the interest on the Notes does have a UK source ("**UK interest**") it may be paid by the Issuer without withholding or deduction for or on account of UK income tax if the Notes in respect of which the UK interest is paid constitute "quoted Eurobonds" within the meaning of section 987 of the Income Tax Act 2007 ("**UK ITA**"). Notes which carry a right to interest will constitute quoted Eurobonds provided they are and

continue to be listed on a recognised stock exchange within the meaning of section 1005 of UK ITA. Whilst the Notes are and continue to be quoted Eurobonds, payments of interest on the Notes may be made without withholding or deduction for or on account of UK income tax.

Securities will be “listed on a recognised stock exchange” for this purpose if they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the UK official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000) or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the UK in which there is a recognised stock exchange. The Luxembourg Stock Exchange is a recognised stock exchange for these purposes. The Issuer’s understanding of current HMRC practice is that securities which are officially listed and admitted to trading on the Main Market of that Exchange may be regarded as “listed on a recognised stock exchange” for these purposes.

In all other cases, UK interest on the Notes may fall to be paid under withholding or deduction for or on account of UK income tax at the basic rate (currently 20%), subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.

Where Notes are issued on terms in which a premium is, or may be, payable on redemption it is possible that such element of premium will constitute a payment of interest and be subject to withholding or deduction for or on account of UK income tax as outlined in the preceding paragraphs.

The interest may be chargeable to UK tax by direct assessment even where paid without withholding or deduction. Where the interest is paid without withholding or deduction, the interest will generally not be assessed to UK tax in the hands of Noteholders who do not (in the case of an individual) have a “UK representative”, within the meaning of the Income Tax Act 2007, through whom the Noteholder carries on a trade, profession or vocation in the UK and to which the interest is attributable or (in the case of a company) carry on a trade in the UK.

The above description of the UK withholding tax position assumes that there will be no substitution of the Issuer and does not consider the tax consequences of any such substitution. Any references to “interest” in this section are to “interest” as understood in UK tax law. The statements herein do not take any account of any different definitions of “interest” which may prevail under any other law.

If the Guarantor makes any payments in respect of interest on the Notes (or other amounts due under the Notes other than the repayment of amounts subscribed for the Notes) and such payments have a United Kingdom source, such payments may be subject to United Kingdom withholding tax at the basic rate (currently 20%) subject to such relief as may be available following a direction by HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply. Whether such payments made by the Guarantor have a United Kingdom source is a complex matter and is likely to be determined by reference principally to the factors set out above. Such payments by the Guarantor may not be eligible for the exemption described above.

The Issuer does not assume responsibility for UK withholding tax at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Provision of Information

HMRC have powers to obtain information, including in relation to interest or payments treated as interest and payments derived from securities. This may include details of the beneficial owners of the Notes (or the persons for whom the Notes are held), details of the persons to whom payments derived from the Notes are or may be paid and information in connection with transactions relating to the Notes. Information obtained by HMRC may be provided to tax authorities in other countries.

For the above purposes, “interest” should be taken, for practical purposes, as including payments made by a Guarantor in respect of interest on Notes.

Information may also be required to be reported in accordance with regulations made pursuant to the EU Savings Directive (see below).

Stamp Duty and Stamp Duty Reserve Tax

No liability to UK stamp duty or stamp duty reserve tax will arise for a Noteholder on the creation, issue or redemption of Notes.

No liability to UK stamp duty will arise for a Noteholder on a transfer or, or an agreement to transfer, Notes provided that such transfer or agreement to transfer is effected by electronic means, without executing any documentary transfer of, or agreement to transfer, such Note.

Provided that no register of the Notes is kept or maintained in the UK by or on behalf of the Issuer, no UK stamp duty reserve tax should be payable on a transfer of the Notes.

Irish Tax Section

Irish income tax

In general, individuals who are resident or ordinarily resident in Ireland for tax purposes are liable to Irish taxation on their worldwide income. All such individuals are generally under a statutory obligation to account for Irish tax on interest income earned on listed debt securities on a self-assessment basis (and there is no requirement for the Irish Revenue Commissioners to issue or raise an assessment).

Accordingly, Irish resident or ordinarily resident individuals who receive interest income in respect of the Notes will be liable to account for Irish income tax on that interest income at their applicable marginal rate of Irish income tax. Irish resident or ordinarily resident individuals may also be liable to account for the Irish universal social charge and pay-related social insurance contributions in respect of such interest. The applicable rates of the universal social charge and the pay-related social contributions will depend on the personal circumstances of each individual holding the Notes.

A disposal of notes is also within the charge to Irish capital gains tax where the notes constitute a 'debt on a security'. The Notes may constitute a 'debt on a security'. If this is the case, Irish resident or ordinarily resident individuals would also be liable to Irish capital gains tax at the rate of 33% in respect of any gains realised on the disposal of the Notes.

Irish corporation tax

In general, companies that are resident in Ireland for tax purposes are liable to Irish tax on their world-wide income and gains. All such companies are under a statutory obligation to account for Irish tax on a self-assessment basis (and there is no requirement for the Irish Revenue Commissioners to issue or raise an assessment).

Irish resident companies that do not hold the Notes as part of a trade will generally be subject to Irish corporation tax at a rate of 25% on any interest income received in respect of the Notes. Such Irish resident companies will generally be subject to Irish corporation tax at the rate of 33% on any gains realised on the disposal of the Notes, assuming the Notes constitute a 'debt on a security'.

Irish resident companies that have acquired the Notes in the course of their trade will generally be subject to Irish corporation tax at a rate of 12.5% on profits arising in respect of the Notes.

Companies that are not resident in Ireland, but which carry on a trade in Ireland to which Notes are attributable, will generally be liable to Irish corporation tax in respect of interest income on the Notes at the rate of 12.5% or 25% (depending on the circumstances) and may be subject to Irish corporation tax at a rate of 33% in respect of any gains on the disposal of the Notes.

Interest withholding tax

Irish interest withholding tax should not apply to interest payments which have their source outside Ireland. On the basis that the Issuer is not resident in Ireland nor has any presence in Ireland, that no interest payments will be made from Ireland and that the Notes are unsecured, payments on the Notes should not have an Irish source and, therefore, no Irish interest withholding tax should arise.

Irish encashment tax

Irish encashment tax may be required to be withheld at the standard rate (currently 20%) from any interest paid in respect of the Notes where such interest is paid or collected by a person in Ireland on behalf of any person holding the Notes. Persons holding the Notes should therefore note that the appointment of an Irish collection agent or an Irish paying agent could result in the deduction of 20% encashment tax by such agent from interest payments on the Notes. A person holding the Notes that is not resident in Ireland for tax purposes may claim an exemption from this withholding tax by submitting an appropriate declaration of non-Irish tax residency to the Irish agent.

Capital acquisitions tax

If the Notes are comprised in a gift or inheritance taken from an Irish domiciled, resident or ordinarily resident disposer or if the donee (or successor) is resident or ordinarily resident in Ireland, the donee (or successor) may be liable to Irish capital acquisitions tax at a rate of 33%.

Stamp duty

No charge to Irish stamp duty should be payable on the transfer of the Notes, provided that the transfer of the Notes does not relate to Irish immovable property or stocks or marketable securities of an Irish registered company.

French Tax Section

The following is a general overview of certain French tax considerations that may be relevant for the subscribers of the Notes who are resident in France for tax purposes and are either individuals or French legal entities subject to corporate income tax. This summary is provided for general information purposes only and does not purport to address all French tax considerations that may be relevant to specific Noteholders in light of their particular situation. This summary is based on the tax laws and regulations in force in France as of date of this Prospectus and as applied by the French tax authorities, all of which are subject to change or to different interpretation. Investors that are resident in France for tax purposes and considering the purchase of the Notes should consult their own tax advisers as to the French tax consequences relating to the purchase, ownership and disposition of the Notes in light of their particular situation. This summary does not address any French estate or gift tax considerations.

The Notes contain a number of features that are not present in other securities regularly issued in the market. The discussion in this section is based on the assumption that the Notes are viewed as debt securities for French tax purposes.

Individuals resident in France for tax purposes and holding the Notes as part of their private assets

Payments on the Notes

As a general rule, interest and similar income on the Notes received by individuals resident in France for tax purposes and holding the Notes as part of their private assets, is included in the annual taxable income subject to personal income tax at progressive rates (currently from 0% to 45%) and, as the case may be, to exceptional contribution on high income referred to in the Article 223 *sexies* of the French tax code. This exceptional contribution on high income is levied (i) at the rate of 3% for part of the taxable income comprised between EUR 250,000 and EUR 500,000 for single, divorced or widowed taxpayers or EUR 500,000 and EUR 1,000,000, for couples subject to joint taxation and (ii) at the rate of 4% for part of the taxable income exceeding EUR 500,000 for single, divorced or widowed taxpayers or EUR 1,000,000 for couples subject to joint taxation.

However, if the amount of interest or similar income of the taxpayer does not exceed EUR 2,000 in the relevant year, the taxpayer may elect for such interest income to be subject to personal income tax at a flat rate of 24% (instead of taxation at progressive rates).

Furthermore, when the reference taxable income of the penultimate year of the Noteholder is equal to or exceeds EUR 25,000 (for single, divorced or widowed taxpayers) or EUR 50,000 (for couples subject to joint taxation), interest and similar income is also subject on its gross amount at the time of its payment to a mandatory 24% withholding tax, which is an advance for personal income tax levied at progressive rates in the year interest income is received, offsettable against such personal income tax liability and repayable in case of excess. If the reference taxable income of the penultimate year is lower than the above thresholds, the relevant Noteholder is (i) as of right exempt from the 24% withholding tax if the paying agent is established outside France or (ii) may file a request for exemption from this 24% withholding tax with the paying agent if the latter is established in France. When the paying agent is established in France, the 24% withholding tax is levied and paid to the French tax authorities by the French paying agent within 15 days of the month following the month of payment. When the paying agent is established outside France, the 24% withholding tax is declared and paid to the French tax authorities either by the Noteholder or by the paying agent, provided it is established within a member state of the European economic area which has entered into a double tax treaty with France providing for administrative assistance to fight against tax fraud and evasion and is acting upon instruction of the Noteholder.

In addition, interest and similar income is also subject to the French social security contributions at the global rate of 15.5%, including (i) general social contribution (*contribution sociale généralisée*) at the rate of 8.2% (5.1% of which is deductible from taxable income subject to personal income tax at progressive rates), (ii) social debt repayment contribution (*contribution pour le remboursement de la dette sociale*) at the rate of 0.5%, (iii) social levy (*prélèvement social*) at the rate of 4.5%, (iv) additional contribution to social levy at the rate of 0.3% and (v) solidarity levy (*prélèvement de solidarité*) at the rate of 2%. Social security contributions are generally withheld and paid in the same manner as the mandatory 24% withholding tax referred to above.

French tax resident individuals holding the Notes as part of their private assets should consult their own tax advisers to determine declarative and payment obligations applicable to them in France in relation to the 24% mandatory withholding tax and social security contributions referred to above.

The Issuer does not assume responsibility for French withholding tax at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Capital gains

Capital gains derived from sale of the Notes by individuals resident in France for tax purposes will be included in the annual taxable income of the holder of the Notes and subject to personal income tax levied at progressive rates (currently from 0% to 45%), and as the case may be, to exceptional contribution on high income levied at 3% or 4% referred to above. The rebates on taxable basis provided for by Article 150-0 D of the French tax code are not applicable to disposals of debt securities, such as the Notes.

In addition, capital gains realized upon disposal of the Notes will also be subject to French social security contributions at the global rate of 15.5%, including (i) general social contribution (*contribution sociale généralisée*) at the rate of 8.2% (5.1% of which is deductible from taxable income subject to personal income tax at progressive rates), (ii) social debt repayment contribution (*contribution pour le remboursement de la dette sociale*) at the rate of 0.5%, (iii) social levy (*prélèvement social*) at the rate of 4.5%, (iv) additional contribution to social levy at the rate of 0.3% and (v) solidarity levy (*prélèvement de solidarité*) at the rate of 2%.

Capital losses, if any, may be off-set against capital gains of similar nature realized in the year of the sale or in the ten following years.

Wealth tax

Notes held by individuals resident in France for tax purposes are considered as part of their private assets subject, as the case may be, to wealth tax in France.

Legal entities resident in France for tax purposes and subject to corporate income tax

Payments on the Notes

Interest accrued on the Notes over a fiscal year is included in the taxable income subject to corporate income tax at the standard rate of 33.1/3%. In addition, social contribution of 3.3% is also applicable. This contribution is assessed on the amount of corporate income tax with an allowance of EUR 763,000 for each 12-month period. Furthermore, for fiscal years closed until December 30, 2016, an exceptional contribution is due by corporate income tax payers realizing an annual turnover exceeding EUR 250,000,000; this exceptional contribution is equal to 10.7% of the amount of the corporate income tax, before deduction of any tax credit or tax claim of any nature. However, with respect to entities that have a turnover of less than EUR 7,630,000 and whose share capital is fully paid-up and of which at least 75% is continuously held by individuals or by an entity meeting all of these requirements, the corporate income tax rate is set, with the limit of EUR 38,120 of taxable income for every 12-month period, at 15% rate. These entities are also exempt from the 3.3% social contribution mentioned above.

In accordance with Article 238 *septies* E of the French tax code, companies must include a portion of the redemption premium, which they record, as the case may be, at the time of the subscription or acquisition of the Notes, into the taxable results for each of their fiscal years, each time this premium exceeds 10% of the subscription or acquisition price. For the purpose of these provisions, redemption premium means the difference between the sums to be received, exclusive of straight line interest paid each year, and the sums paid up on the subscription or acquisition of the Notes. However, these provisions do not apply to notes whose average issue price is higher than 90% of the redemption value. The taxable annuity is obtained by applying the annual yield determined at the date of subscription or acquisition respectively to the subscription or acquisition price. This price is increased each year by the portion of the premium capitalized each year on the date on which the redemption date falls.

Capital gains

Disposal of the Notes may give rise to a gain or loss to be included in the taxable income subject to corporate income tax. The amount of the gain or loss will be included in the annual income subject to corporate income tax at the rate of 33.33% (or, within the limit of EUR 38,120 for every 12-month period, at a rate of 15% for companies that fulfill the conditions described above). Where applicable, the social contribution of 3.3% and the exceptional contribution of 10.7% referred to above may also be due.

French registration duties, French financial transaction tax

No French registration duties are payable upon the acquisition or transfer of debt securities, such as the Notes, unless such transfer is registered with the French tax authorities on voluntary basis (such registration not being required by law), in which case a flat registration duty of EUR 125 will be due.

It should be noted further that transactions involving the Notes should also be outside the scope of the French financial transaction tax referred to in the Article 235 *ter* ZD of the French tax code, as the French financial transaction tax applies to equity securities and similar instruments issued by companies having their registered office in France and whose market capitalization exceeds EUR 1 billion on 1 December of the year preceding the taxation. When the issuer does not have its registered office in France, its securities are not covered by the French financial transaction tax, even if they are admitted to trading on a French trading platform or their issue account is held by a central depository in France, except if such securities represent securities whose issuer has its registered office in France. The EU financial transaction tax (please see below) if adopted and transposed under French law, could subsequently replace the French financial transaction tax and apply to wider number of transactions, including dealings of debt instruments, such as the Notes.

Savings Directive

The EC Council Directive 2003/48/EC on the taxation of savings income has been implemented in French law by Article 242 *ter* of the French tax code and Articles 49 I *ter* to 49 I *sexies* of the Schedule III to French tax code, which impose on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among other things, the identity and address of the beneficial owner and a detailed list of the different categories of interest paid to that beneficial owner.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the “**EU Savings Directive**”), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria applies instead a withholding system in relation to such payments, deducting tax at a rate of 35% (unless during that transitional period it elects to provide information in accordance with the EU Savings Directive). The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The Council of the European Union formally adopted a Council Directive amending the EU Savings Directive on March 24, 2014 (the “**Amending Directive**”). The Amending Directive broadens the scope of the requirements described above. Member States have until January 1, 2016 to adopt the national legislation necessary to comply with the Amending Directive. The changes made under the Amending Directive include extending the scope of the Directive to payments made to, or collected for, certain other entities and legal arrangements. They also broaden the definition of “interest payment” to cover income that is equivalent to interest.

Investors who are in any doubt as to their position should consult their professional advisers.

If a payment under a Note were to be made by a person in a Member State or another country or territory which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment pursuant to the EU Savings Directive or any law implementing or complying with, or introduced in order to conform to the EU Savings Directive, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts under the terms of such Note as a result of the imposition of such withholding tax.

Proposed Financial Transactions Tax

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**Participating Member States**").

The Commission's Proposal has a very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a Participating Member State. A financial institution may be, or be deemed to be, "established" in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

Joint statements issued by Participating Member States indicate an intention to implement the FTT by 1 January 2016.

However, the FTT proposal remains subject to negotiation between the Participating Member States and the scope of any such tax is uncertain. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

DESCRIPTION OF RULES REGARDING RESOLUTIONS OF NOTEHOLDERS

The Terms and Conditions provide that the Noteholders may agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed by taking votes without a meeting. Any such resolution duly adopted by resolution of the Noteholders shall be binding on each Noteholder, irrespective of whether such Noteholder took part in the vote and whether such Noteholder voted in favor or against such resolution.

The following is a brief summary of some of the statutory rules regarding the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before German courts.

Specific Rules regarding Votes without Meeting

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) if the vote was solicited by the joint representative (*gemeinsamer Vertreter*) of the Noteholders (the “**Noteholders’ Representative**”), the Noteholders’ Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Noteholders’ votes shall set out the period within which votes may be cast. During such voting period, the Noteholders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Noteholder’s entitlement to cast a vote based on evidence provided by such Noteholder and shall prepare a list of the Noteholders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Noteholders. Within one year following the end of the voting period, each Noteholder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Noteholder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Noteholder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

Rules regarding Noteholders’ Meetings applicable to Votes without Meeting

In addition, the statutory rules applicable to the convening and conduct of Noteholders’ meetings will apply *mutatis mutandis* to any vote without a meeting. The following summarises some of such rules.

Meetings of Noteholders may be convened by the Issuer or the Noteholders’ Representative. Meetings of Noteholders must be convened if one or more Noteholders holding five per cent or more of the outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. Attendance and exercise of voting rights at the meeting may be made subject to prior registration of Noteholders. The convening notice will provide what proof will be required for attendance and voting at the meeting. The place of the meeting is the place of the Issuer’s registered offices, provided, however, that where the Notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Noteholder may be represented by proxy. The Noteholders’ meeting will have a quorum if the persons attending represent at least 50 per cent of the outstanding Notes by value. If the quorum is not reached, a second meeting may be convened at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25 per cent of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. Resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the Global Note.

In insolvency proceedings instituted in Germany against the Issuer, the Noteholders' Representative is obliged and exclusively entitled to assert the Noteholders' rights under the Notes. Any resolutions passed by the Noteholders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Terms and Conditions, Noteholders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

OFFER, SALE AND SUBSCRIPTION OF THE NOTES

Offer of the Notes

The offer will be coordinated and the Notes will be offered to investors by BNP Paribas, Commerzbank Aktiengesellschaft, J.P. Morgan Securities plc and Merrill Lynch International (together, the “**Joint Bookrunners**” or the “**Managers**”) during an offer period which will commence in Luxembourg from the date of the Prospectus (March 17, 2015) and in Germany, Austria, The Netherlands, the United Kingdom, France and/or Ireland from the time of effectiveness of the notifications (passporting) of the Prospectus into the respective jurisdictions until March 20, 2015 (being the date of issuance of the Notes), subject to a shortening or extension of the offer period. Should the Issuer and the Managers determine any shortening or extension of the offer period (e.g., due to changing market conditions), such changes will be published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

The Notes will be offered to institutional investors and retail investors in compliance with applicable public offer restrictions. The Notes may be offered to the public in each of Luxembourg, Germany, Austria, the Netherlands, the United Kingdom, France and Ireland following the effectiveness of the notification of the Prospectus by the CSSF according to article 18 of the Prospectus Directive.

Conditions and details of the offer

The Joint Bookrunners have subscribed the EUR 1,100,000,000 NC7 Notes and the EUR 1,400,000,000 NC15 Notes.

The commission for the Joint Bookrunners in connection with the offering, placement and subscription of the Notes will amount to up to 0.65 per cent. of the aggregate principal amount of Notes issued.

There is no obligation for the Issuer to issue the Notes and the Issuer may withdraw the offer. Subscription rights for the Notes will not be issued. Therefore, there are no procedures in place for the exercise of any right of pre-emption, the negotiability of subscription rights and the treatment of subscription rights not exercised. There are no minimum and/or maximum amount of application whether in number of Notes or aggregate amount to invest.

There are no conditions to which the offer is subject.

Costs of and reasons for the offer; use of proceeds

In connection with the Offering, the Issuer will receive net proceeds of approximately EUR 2.45 billion after deducting total expenses of approximately EUR 16,250,000 (assuming the maximum amount of commissions paid including discretionary incentive fees). The Issuer intends to use the net proceeds for the Guarantor’s general corporate purposes.

Subscription and allotment of the Notes

Subscription by the Managers

The Managers have entered into a subscription agreement on March 17, 2015 (the “**Subscription Agreement**”) in which they have subscribed, each with an equal quota, for the EUR 1,100,000,000 NC7 Notes and the EUR 1,400,000,000 NC15 Notes. The Managers will be entitled, under certain circumstances, to terminate the Subscription Agreement reached with the Issuer and the Guarantor. In such event, no Notes will be delivered to investors. Furthermore, the Issuer and the Guarantor agree in the Subscription Agreement to indemnify the Managers against certain liabilities in connection with the offer and sale of the Notes.

The Managers or their affiliates have provided from time to time, and expect to provide in the future, investment services to the Issuer and its affiliates, for which the Managers or their affiliates have received or will receive customary fees and commissions. In addition, in the ordinary course of their business activities, the Managers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, Issuer’s affiliates, the Guarantor or the Guarantor’s affiliates. Certain of the Managers or their affiliates that have a lending relationship with the Issuer or the Guarantor routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Managers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of the Notes. The Managers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. There are no interests of natural and legal persons other than the Issuer involved in the issue, including conflicting ones that are material to the issue.

Pricing of the Notes and Yield

The pricing details have been set in the pricing term sheet dated March 17, 2015. The yield in respect of (i) the NC7 Notes from the Issue Date to the NC7 First Call Date is 2.625 per cent. per annum and (ii) the NC15 Notes from the Issue Date to the NC15 First Call Date is 3.625 per cent. per annum and is calculated on the basis of the issue price of the Notes.

Confirmation of offers placed by, and allotments to, investors

Any investor who has submitted an order in relation to the Notes and whose order is accepted by the Managers will receive a confirmation by electronic mail, fax or through commonly used information systems setting out its respective allotment of Notes. Before an investor receives a confirmation from the Managers that its offer to purchase Notes has been accepted, the investor may reduce or withdraw its purchase order.

Delivery of the Notes to investors

Delivery and payment of the Notes will be made on the Issue Date (March 20, 2015). The Notes so purchased will be delivered via book-entry through the Clearing Systems and their depository banks against payment of the Issue Price therefor.

Costs and expenses relating to the offer

The Issuer will not charge any costs, expenses or taxes directly to any investor in connection with the Notes. Investors must, however, inform themselves about any costs, expenses or taxes in connection with the Notes which are generally applicable in their respective country of residence, including any charges their own depository banks charge them for purchasing or holding securities.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

Consent to use the Prospectus

The Issuer consents to the use of the Prospectus during the Offer Period by all credit institutions licensed in accordance with Art 4 number 1 of Directive 2006/48/EC to trade securities in Luxembourg, Germany, Austria, The Netherlands, the United Kingdom, France and/or Ireland (each a "**Financial Intermediary**") (general consent) and accepts responsibility for the content of the Prospectus also with respect to subsequent resale or final placement of the Notes by any Financial Intermediary which was given consent to use the Prospectus; an exceeding liability of the Issuer is excluded.

The subsequent resale or final placement of the Notes by Financial Intermediaries can be made in Luxembourg from the date of the Prospectus (March 18, 2015) and in Germany, Austria, The Netherlands, the United Kingdom, France and/or Ireland from the time of effectiveness of the notifications (passporting) of the Prospectus into the respective jurisdictions until March 20, 2015 (being the date of issuance of the Notes) (the "**Offer Period**").

Financial Intermediaries may use the Prospectus for subsequent resale or final placement of the Notes in Luxembourg, Germany, Austria, The Netherlands, the United Kingdom, France and/or Ireland during the Offer Period. However, the Issuer may revoke or limit its consent at any time, whereby such revocation requires a supplement to the Prospectus.

Any Financial Intermediary using the Prospectus has to state on its website that it uses the Prospectus in accordance with the consent and the conditions attached thereto.

In the event of an offer being made by a Financial Intermediary, this Financial Intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made.

MARKET AND INDUSTRY DATA

This Prospectus includes information regarding market share, market position, growth rates and industry data for the Volkswagen Group's lines of business, which consists of estimates based on data and reports compiled by third parties, on data from other external sources, and on the Volkswagen Group's knowledge of its sales and markets. Sources of such third party information include the International Monetary Fund, the World Bank and IHS Global Insight. Such third party sources have been accurately reproduced and, as far as the Issuer is aware and able to ascertain from information published by such third parties, no facts have been omitted which would render the reproduced information inaccurate or misleading.

The Issuer has no access to the facts and assumptions underlying the numerical data, market data and other information extracted from publicly available sources, and has not independently verified market data provided by third parties or industry or general publications. In many cases there is no readily available external information (whether from trade associations, government bodies or other organizations) to validate market-related analyses and estimates, requiring the Issuer to rely on internally developed estimates. While the Issuer believes its internal research to be reliable, such research has not been verified by any independent source and the Issuer cannot guarantee its accuracy. The Issuer believes that such data is useful in helping investors understand the industry in which the Volkswagen Group operates and the Volkswagen Group's position within the industry.

Companies rated A2 (long-term rating) by Moody's are considered upper-medium grade and are subject to low credit risk. Companies rated A (long-term rating) by S&P are considered to have a strong capacity to meet financial commitments, but somewhat susceptible to adverse economic conditions and changes in circumstances.

Companies rated Prime-1 (short-term rating) by Moody's have a superior ability to repay short term debt. Companies rated A-1 by S&P (short-term rating) are in the highest category used by S&P for short-term ratings, which means that such companies' capacity to meet their financial commitment on their obligation is strong.

Detailed information on the Guarantor's ratings can be found on the Guarantor's website.
